Agenda #	Relate To	Position	Name	Comments
23.		Other	Patricia A McAllister	#23 Signing death certificates for veterans within 72 hours is a good idea for veterans who have family members, and who are not homeless. Signing death certificates within 72 hours for homeless veterans who do not have family or contact information is not a good idea. More time should be given for those veterans, in order to perform a thorough search for family members. The good news is that President Trump recently signed an executive order to establish a new center and housing for homeless veterans in West Los Angeles, California, called the National Center for Warrior Independence. The Los Angeles County Board of Supervisors, the LA City council, and the other Democrat politician Governor Gavin Newsom, could have done something, but refused to build housing for California's homeless veterans! Proposal after proposal has been rejected by the city and the county! It had to take a sitting Republican president of the United States, President Donald Trump, to house the veterans in Los Angeles! What a shame!
