39.		Oppose	Patricia A McAllister	As we all should know, DOGE is in Los Angeles to perform audits concerning why there are 25 million homeless Americans in LA county. Note: The recent homeless count is incorrect. The homeless count for Skid Row took one day. There are 50,000 homeless Americans on Skid Row. A one day homeless count was impossible! This particular proposal is to give LAHSA millions to perform services for the homeless. LAHSA recently fired the Foundational Black American female director of two years, claiming fraud. Fraud has been occurring in LAHSA for over 20 years! The point here is the fact that the Board of Supervisors does not demand audits after it awards trillions in contracts. Not demanding audits means that the agencies who are approving those contracts are also allegedly receiving kickbacks. The Board of Supervisors must establish a policy that all awards for ALL entities must undergo financial audits twice a year!
