The Honorable Hilda Solis
First District, Chair Pro Tem
Los Angeles County Board of Supervisors

Re: Support of Supervisor Solis' motion: Enhancing Measles Vaccinations and Prevention Throughout the County

Dear Supervisor Solis,

On behalf of St. John's Community Health, I want to thank you for authoring your motion, Enhancing Measles Vaccinations and Prevention Throughout the County. We strongly support this timely and important initiative.

As a Federally Qualified Health Center serving low-income communities across South, Central, and East Los Angeles, we see firsthand the critical role vaccinations play in protecting public health. The MMR vaccine is the most effective tool we have to prevent the spread of measles – a highly contagious and potentially life-threatening disease.

Your motion underscores the importance of proactive, coordinated strategies to increase access, awareness, and uptake of this life-saving vaccine, particularly in communities where vaccine hesitancy or access barriers persist, as well as to improve the tracking of the MMR vaccinations.

We urge the Board of Supervisors to support this important motion to protect the health and safety of our residents.

Sincerely,

James Mangia, MPH
President and CEO
St. John's Community Health
