BOARD OF SUPERVISORS
COUNTY OF LOS ANGELES

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

43 June 17, 2025

EDWARD YEN
EXECUTIVE OFFICER

Dear Supervisors:

**TRANSPORTATION CORE SERVICE AREA
ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017
ROAD MAINTENANCE AND REHABILITATION ACCOUNT
APPROVE FISCAL YEAR 2025-26 ROAD CONSTRUCTION PROJECT LIST
(ALL SUPERVISORIAL DISTRICTS)
(3 VOTES)**

SUBJECT

Public Works is seeking Board approval of the proposed project list for the Road Repair and Accountability Act of 2017, Road Maintenance and Rehabilitation Account, which will allow Public Works to receive funds for the projects.

IT IS RECOMMENDED THAT THE BOARD:

1. Find that the proposed action is not a project pursuant to the California Environmental Quality Act for the reasons stated in this letter and the record.
2. Approve the list of proposed road improvement projects to be financed in-part or solely with State of California Road Repair and Accountability Act of 2017 funds for submission to the California Transportation Commission in Fiscal Year 2025-26 under the Road Maintenance and Rehabilitation Account.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of these actions is to obtain the Board's approval of the list of proposed projects to be constructed in each Supervisorial District using the Road Maintenance and Rehabilitation Account (RMRA) funds. Board approval of the project list each year is a requirement of Senate Bill 1 (SB 1)

for the County to receive its share of the RMRA funds. Roadway users throughout the County will benefit from the maintenance and safety projects that will be financed with the RMRA funds.

The enclosed project list demonstrates an overall investment in our local streets and roads infrastructure with a focus on basic maintenance and safety, and using sustainable materials and practices, which will have significant positive benefits in our communities.

The actions are required by the California Transportation Commission (CTC) and will enable Public Works to receive the funds and proceed with implementation of the proposed road improvement projects. The County will then be able to use this funding source to maintain and rehabilitate streets and deliver safety improvements to County roadways that will provide safe and smooth roadways for all users.

Implementation of Strategic Plan Goals

These recommendations support the County Strategic Plan: North Star 2, Foster vibrant and resilient communities, Focus Area Goal C, Public Safety, and Area Goal D, Sustainability by enhancing roadway conditions and safety in our communities, incorporating environmentally sustainable pavement treatments, such as recycled asphalt, and maximizing revenue for transportation projects.

FISCAL IMPACT/FINANCING

There will be no impact to the County General Fund.

Funding from the RMRA is made available to the State Controller for allocation to the County on a monthly basis. The estimated allocation of \$154.2 million to be received in RMRA funds in Fiscal Year (FY) 2025-26 will be deposited in the Road Fund (B03). Funding from the RMRA is included in the Road Fund (B03 – Revenue Source 8721) FY 2025-26 Budget. Funding for the future years' construction contracts identified on the project list will be requested through the annual budget process.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

SB 1 and the Road Repair and Accountability Act of 2017 was passed by the California State Legislature and signed by the Governor on April 28, 2017. This created transportation funding streams to address State and local road maintenance/repair, transit, and transportation infrastructure needs.

Portions of this funding are deposited into the newly created RMRA by the State. A percentage of this RMRA funding will be apportioned by formula to eligible cities and counties for basic road maintenance, rehabilitation, and critical safety projects on the local streets and roads system.

The County is projected to receive \$154.2 million in RMRA funds in FY 2025-26. These funds will enable the County to continue essential road maintenance and rehabilitation projects, safety improvements, repairing and replacing aging bridges, and increasing access and mobility options for the traveling public that would not have otherwise been possible without SB 1. The projects are developed through ongoing assessment of the safety needs of County roadways and through the County's pavement management system, in consultation with each Board office. This ensures

revenues are being used on the most high-priority and cost-effective projects which also meet the communities' priorities for transportation investment.

SB 1 includes accountability and transparency provisions that will ensure the residents of the County are aware of the projects proposed for funding in our community and which projects have been completed each FY. The RMRA guidelines require that prior to receiving an apportionment of RMRA funds from the State Controller in a FY, the County must submit to the CTC a list of projects proposed to be funded with these funds pursuant to a resolution adopted or amended by the County's governing body at a regular public meeting.

SB 1 requires the adopted project list to include the description and location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the proposed improvement. This will provide the required accountability over RMRA funds by ensuring that these funds are only for use on eligible transportation projects. The proposed project list includes both newly listed projects and previous proposed and adopted projects which will utilize FY 2025-26 RMRA funds in their delivery, as indicated on the list.

The project list consists of \$709.1 million in proposed projects. While this amount exceeds the estimated \$154.2 million to be received in FY 2025-26, the CTC does not require the local agencies' project list to conform to the estimated annual allocation. The project list represents the menu of projects that Public Works expects to deliver over the next 5 years and is updated annually. Public Works will continue to collaborate with each Supervisorial District to identify the highest priority projects to deliver within each District.

Upon adoption, Public Works will forward the project list along with support documentation to CTC for approval. The CTC will review the information submitted and transmit the list of eligible counties to the State Controller, who will then apportion funds accordingly. Pursuant to SB 1, the Board's adoption of the project list shall not limit the flexibility to add or delete projects based on adjusted needs and priorities as long as the projects meet the eligibility criteria pursuant to Section 2030(b) of the Streets and Highways Code.

ENVIRONMENTAL DOCUMENTATION

The recommended actions are not subject to the California Environmental Quality Act because they are activities that are excluded from the definition of a project by Sections 15378(b)(4) and 15378(b)(5) of the California Environmental Quality Act Guidelines. The adoption of the project list and acceptance of RMRA proceeds are administrative activities of government and creation of a government funding mechanism that does not involve any commitment to a specific project and will not result in direct or indirect physical changes in the environment.

The appropriate environmental documentation will be prepared for any projects which are developed from the list.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The funding from SB 1 will help the County maintain and rehabilitate streets. Upon completion of the projects, residents will be provided with safe and efficient roadways.

CONCLUSION

Please return one adopted copy of this Board letter to Public Works, Transportation Planning and Programs Division.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Mark Pestrella". The signature is fluid and cursive, with the first name "Mark" and last name "Pestrella" clearly distinguishable.
