"To Enrich Lives Through Effective and Caring Service"

June 17, 2025

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, CA 90012

Dear Supervisors:

**REQUEST FOR APPROVAL OF THE COUNTY OF LOS ANGELES AND SUPERIOR
COURT OF CALIFORNIA, COUNTY OF LOS ANGELES TO CONTRACT FOR REVENUE
ENHANCEMENT SERVICES CONTRACTS
(ALL DISTRICTS AFFECTED) (4 VOTES)**

SUBJECT

The Chief Executive Officer (CEO), along with the Superior Court of California – County of Los Angeles (Court), recommends Board approval of two contracts with Harris & Harris, Ltd. (Harris & Harris) and Linebarger, Goggan, Blair & Sampson, L.L.P. (Linebarger), respectively, to provide revenue enhancement collection services to the County of Los Angeles and the Court.

JOINTLY WITH THE EXECUTIVE OFFICER/CLERK OF THE SUPERIOR COURT OF CALIFORNIA, COUNTY OF LOS ANGELES, IT IS RECOMMENDED THAT THE BOARD:

1. Approve and instruct the Chair to sign the attached contracts (Enclosure) with Harris & Harris and Linebarger, in order to provide revenue enhancement collection services to both the County and Court, with an effective date of July 1, 2025. The initial contract terms shall be for a period of three years, with two one-year optional renewal periods and a further six month to month extensions, for a maximum total contract term of five years and six months. In addition, Harris & Harris and Linebarger will also provide

revenue enhancement services for any mandatory Amnesty Programs.

2. Delegate authority to the CEO to sign amendments to the above contracts to (1) exercise up to the two one-year term extensions and the six month-to-month extensions, (2) require any additional work requested by the Court that exceeds the current scope of the Statement of Work (Attachment B), and/or (3) modify the commission rate and/or contract sum, if necessary.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Under the Lockyer-Isenberg Trial Court Funding Act of 1997, the County and the Court both maintain a joint responsibility for collection enhancement efforts. State law requires each superior court and county to develop a comprehensive court/county collection program to improve the enforcement of collections on delinquent court-ordered delinquent accounts. On December 20, 2005, your Board approved a Memorandum of Understanding (MOU) between the CEO and the Court for a comprehensive court collection program as required by Senate Bill (SB) 940 (Chapter 275, Statutes of 2003).

The current contracts with Harris & Harris and Linebarger, private agencies, for provision of primary collection services, will expire on June 30, 2025. The proposed contracts are with the same agencies, Harris & Harris and Linebarger, for primary collection services and will ensure continuation of the collection needs of the County and Court as required by SB 940.

The County/Court delinquent account collection services program is comprised of comprehensive collections of all court-ordered debt. When certain conditions are met and debt becomes delinquent, the Court issues a notice of delinquency advising the defendant of the outstanding amount due and the date by which it must be paid, prior to referring the delinquent account to a collection vendor. If applicable, the notice will also state the remedies available to resolve the matter and thereby prevent referral to collections. If no action is taken, the delinquent accounts are referred to one of the Court's two private collection vendors, who then proceed with the collections process authorized in this Board Letter.

Implementation of Strategic Plan Goals

Approval of the recommended action is consistent with the Los Angeles County Strategic Plan North Star 1, Make Investments That Transform Lives, and addresses public safety challenges through the enforcement and collection of delinquent court-ordered accounts.

FISCAL IMPACT/FINANCING

The proposed contracts will allow the County and Court to continue to recover otherwise unrecoverable revenues, which will provides a continued revenue stream to help finance the County's Maintenance of Effort obligation to the State for Trial Court operations. There is no impact to net County cost as collection costs associated with the contracts are recovered in accordance with Penal Code Section 1463.007 under SB 857 (Chapter 720, Statutes 2010), and offset by the recovery of revenues that would otherwise would be uncollectible. In FY 23-24, Harris & Harris was referred a total of \$43.7 million and collected \$6.8 million and Linebarger was referred \$49.6 million and collected \$7.3 million. The recommended primary contractors, Harris & Harris and Linebarger, will be compensated on actual gross successful collections, with a general collection fee of 7.45 and 9.90 percent, respectively, which is consistent with each agency's current commission rates and better than rates negotiated by the Judicial Council of California.

The County and Court will only pay a commission on the actual amounts collected and not on any other costs associated with the collection effort except as set forth below. In addition to the general collection commission, Harris & Harris and Linebarger may be compensated for transferring case records to the State of California Franchise Tax Board (FTB). For Harris & Harris, the transfer fee for accounts to the FTB Court Ordered Debt Program and the FTB Tax Intercept Program is a 3.50 percent commission fee on the net amount collected by the FTB. For Linebarger, the transfer fee for accounts to the FTB Court Ordered Debt Program and for transfers to the FTB Tax Intercept Program is a 6.69 percent commission fee on the net amount collected by the FTB. The Court utilizes the FTB programs as secondary collection vendors as required by PC 1463.007. Both FTB programs charge an administrative fee on successful collections and the fee is paid directly to FTB by the Court. Delinquent accounts are referred to either one or both of the FTB programs by the collection vendors when the collection vendor has exhausted efforts to collect the debt. Each program has its own requirements for accepting delinquent debt.

FTB Court Ordered Debt Program

- Garnishes wages and bank accounts.
- Amount owed must be at least \$25 with an aggregate account balance equal to or greater than \$100.
- Accounts remain with the program for two years.
- Defendants can establish payment plans to prevent the wage or bank garnishment.

FTB Tax Intercept Program

- Intercepts state tax refunds, lottery winnings and unclaimed property.
- Combined amount owed must be at least \$10.
- Accounts remain with the program for one year.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

California Government Code Section 26220 and Penal Code (PC) Section 1205 authorize the assignment of delinquent accounts to a private vendor for the purpose of collection. However, before a debt owed to the county may be referred, an agreement with the private vendor must be ratified by a fourth-fifths vote of the County's Board of Supervisors.

The recommended contracts with Harris & Harris and Linebarger are for an initial term of three years with two optional one-year extensions and six additional month-to-month extensions, for a maximum total contract term of five years and six months. Harris & Harris and Linebarger shall be responsible for all costs incurred while performing the contracted collection services except for FTB record transfers, as noted above. The County and Court will only pay a commission on the actual amounts collected.

The terms and conditions of the recommended contracts with Harris & Harris and Linebarger have been reviewed and approved as to form by County Counsel. The recommended contracts utilize the Court's standard form agreement, yet, at the request of the County, contain the County's legally required provisions, including the termination for non-adherence of the County lobbyist ordinance, compliance with County's defaulted property tax reduction program, time off for voting, and compliance with the Jury Duty Ordinance.

There are no provisions for a cost-of-living adjustment in the attached contracts. This is not a Proposition A contract. As such, the Living Wage Program (County Code Chapter 2.201) does not apply to the recommended contract.

CONTRACTING PROCESS

Consistent with the current contracts adopted on June 23, 2020, the proposed contracts were solicited under the Court's Request for Proposals (RFP) process. The Court conducted an open competitive solicitation for these services in accordance with the requirements of the California Judicial Branch Contract Law (Public Contract Code §§ 19201-19210) and the Judicial Branch Contracting Manual and released the RFP for Revenue Enhancement Services on December 2, 2024. The RFP was released to prospective proposers via BIDDINGO, the Court's online procurement system under the commodity code for Collection Services – Financial Debt. Information on the Court's RFP was also posted on the Internal Services Department's Los Angeles County Solicitations website. In addition, all vendors on the Judicial Council's Collection Services Master Services Agreement were directly invited to participate in the bid.

Five contractors responded with a proposal by the due date of January 27, 2025. The five

proposals were evaluated and scored by an evaluation committee and final ratings and rankings of proposals were computed. The proposals submitted by Harris & Harris and Linebarger were the highest ranked and met all of the minimum requirements set forth in the RFP.

A Notice of Intent to Award in favor of Harris & Harris and Linebarger for primary collection services was posted on BIDDINGO on March 5, 2025. No prospective contract bidders filed a protest by the deadline of March 13, 2025, thus concluding the Court's protest process.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Approval of the contracts will allow the County and Court to continue to recoup otherwise unrecoverable revenues, and will ensure a continued revenue stream to partially finance the County's Maintenance of Effort obligation to the State for Trial Court operations.

CONCLUSION

Following Board approval, the Executive Officer-Clerk of the Board is requested to return two signed originals of the contracts and one adopted Board letter to the CEO.

Respectfully submitted,

Fesia A. Davenport

1.0 STATEMENT OF WORK

1.1 SCOPE OF WORK

The purpose of this Statement of Work (“SOW”) is to describe the scope of services in support of the comprehensive revenue enhancement program of the Superior Court of California, County of Los Angeles (“COURT”) and the County of Los Angeles (“COUNTY”). [Penal Code Section 1463.010](#) requires each superior court and county to develop a comprehensive court/county collection program to improve enforcement of court-ordered fees, fines, forfeitures, penalties, assessments, and restitution.

These services include collections of delinquent court ordered debt at the primary and secondary levels. The primary level will utilize multiple contractors simultaneously, up to three (3) vendors, at the discretion of the COURT. After primary collection efforts of one contractor are exhausted, selected delinquent accounts shall be referred to an alternate approved contractor for continuing collection efforts.

The COUNTY/COURT delinquent account collection services program is comprised of comprehensive collections of court ordered debt including, but not limited to:

Include individual qualifications (certifications, years of experience, expertise, etc.) and provide a resume for each. At a minimum, Proposer must identify the project manager, lead collectors, and lead information technology personnel for interfacing with the Court's case management and/or accounting system(s).

c. Include an implementation plan that includes a timeline.

Agreed. Based on our experience as a current implemented contractor to the Court as well as on our understanding of the current scope of services, Harris & Harris has prepared and provided in the Appendix to our Technical Proposal a comprehensive **Sample Implementation Plan** (comprised of Sample Project Plan, Sample Project Timeline, and Sample Gantt Chart) that provides a comprehensive schedule of contract implementation activities including milestones and dates as predicated on a presumed start date of 7/01/2025. Please see 4.3 Transition Plan later in this section for details regarding our contract implementation.

d. Describe in detail your firm's process for insuring that all services are provided correctly, completely and on time. Include a statement and discussion of anticipated major difficulties and problem areas, together with potential or recommended approaches for their solution.

We have also included here a preliminary statement and discussion of any anticipated major difficulties and problem areas for this specific contract, together with potential or recommended approaches for their solution.

1.0 STATEMENT OF WORK

As we do under the current contract with the Court for these services, **we will continue to obtain and maintain at our cost all appropriate licensure, approvals, permits and authorizations required throughout the contract.** We maintain a full-time Compliance Department to oversee our compliance – for every account of every client – with the Fair Debt Collection Practices Act (FDCPA) and all other regulatory requirements as they apply to federal, state, and local laws. Jeff Endebak, Esq., our General Counsel and Chief Compliance Officer, oversees our Compliance Department which focuses on many compliance issues including but not limited to debt collection notices, call management, and operational issues handled by our Information Technology Services Department.

Harris & Harris is fully compliant with all federal, state, and industry regulations, including but not limited to FDCPA, Fair Credit Reporting Act (FCRA), Telephone Consumer Protection Act (TCPA), the Gramm-Leach-Bliley Act, Red Flag Rules, and Payment Card Industry (PCI) compliance, among many others. - **State of California Debt Collection License (NMLS ID 959452)**
- **State of California Certificate of Authority/Qualification**
- **City of Los Angeles Tax Certification Exemption Approval**

2. Work Plan for Providing Requested Services

Following those licenses in that section, we have included a **Table of our Current Collection Agency Licensing** to perform collections across the country.

- CONTRACTOR shall be required to report collection success on a monthly basis. The following formulas, subject to change, will be used to calculate the CONTRACTOR'S success rate in collecting delinquent accounts referred by COUNTY/COURT:*

$$\text{Collector Effective Index} = \frac{\text{Number of cases with payments received (current or prior)}}{\text{Number of cases referred (current or prior)}}$$

$$\text{First-Year Resolution Rate} = 1 - \frac{\text{Change in Value (current)}}{\text{Value of Cases Established (current)}}$$

Agreed. Harris & Harris will report on collection activity to the Court on a monthly basis and as otherwise required via a comprehensive reporting package as described in 3.13.4. We have read, understand, and acknowledge the above formula as the metric to calculate our success in collecting delinquent accounts that are referred by the Court, and we acknowledge that this formula may be subject to change.

3.0 CONTRACTOR'S SPECIFIC SERVICE REQUIREMENTS

INTRODUCTION

Harris & Harris will promptly undertake the collection of all cases assigned by the Court without regard to the account debt amount, using effective and timely efforts to sustain the collection pace for every account. Beginning below, we discuss the state-of-the-art collection platform and integrated telephony to be used as well as strategic account pooling and our proven collection methodology to resolve and collect each assigned case. Following this comprehensive description, we begin our itemized address of the specific service requirements.

Collection Platform

Harris & Harris currently utilizes the **Columbia Ultimate Business System (CUBS®) collection platform**, a Finvi product, that provides a distinct and clear audit trail for every collection activity on every account. CUBS® customers include government agencies, hospitals, banks, utilities, collection firms, and other monetary recovery companies.

Every event associated with an account – whether a letter sent, telephone contact (both successful and unsuccessful), payment arrangements, payment received, etc. – **is recorded in detail and is available for review**, whether during the normal quality-control checks performed by management, through online client portals, or during a client or internal audit.

Notable features of CUBS® include:

2. Work Plan for Providing Requested Services

- 100% call recording
- Call training and evaluation
- Genesys Integrated Dialer
- Genesys Integrated Interactive Instant Messenger
- Genesys Integrated Message Blaster
- Online client access system
- Interactive Voice Response (IVR) payment system
- Caller ID capture server
- Call accounting and statistical system
- Skip tracing automation
- Remote call monitoring
- SAP Business Intelligence statistical analysis

The system is extremely flexible and scalable and offers a robust suite of reporting tools. We employ a dynamic team of onsite programmers who can write custom programs (with minimal turnaround time) to tailor CUBS® to specific Court collection programs.

Telephony

Harris & Harris utilizes the latest release of the **Genesys PureCloud** telephony platform, which is completely integrated to generate effective, real-time campaigns and a wide range of telephony features for our collection representatives including programmable dialing. Setting us apart from other agencies is the fully blended software suite of products and programs that allow us to effectively manage our call center through calling campaigns, real-time analysis, statistical and analytical reporting, collection representative management, and custom tools that help us achieve maximum recoveries and customer satisfaction.

The entire dialing process is extremely resilient by maintaining multiple dial tone carriers which have central hub switching stations geographically located in cities around the country to avoid outages. In addition, Harris & Harris has the necessary equipment and provisioned access rights with our carriers to move our inbound call traffic between carriers if they experience an outage. The architecture of the Genesys system has redundant servers within separate data centers to avoid outages. If there is a system failure or outage, the system automatically fails over to our redundant server. The Genesys system has separate servers to perform each function to avoid any latency when processing our calls. The Genesys system's key components are a telephone switch, predictive dialer, call voice recording, screen capture, and a call accounting data capture of all inbound and outbound calls.

We utilize five dialing methods to contact debtors: predictive dialing, power dialer, automated messaging, unattended messaging, and preview.

- **Predictive Dialing:** Automatically calls a list of telephone numbers, screening out no-answers, busy signals, answering machines and disconnected numbers while predicting at what point a human agent will be able to handle the next call. Typically, outbound calls are processed at a ratio of (outbound call to collector ratio) of a range starting at 3:1 up to 10:1 based on answer rates and staffing. We actively monitor the calling campaign to ensure pacing aligns to our desired service levels. The list of phone numbers are

2. Work Plan for Providing Requested Services

generated each morning based on our overall contact strategy and in accordance to all federal, state, and client rules.

- **Power Dialer:** Automatically calls a list of telephone numbers, screening out no-answers, busy signals, answering machines and disconnected numbers, but a dial is not initiated until a human agent is available. While more efficient than manual dialing, this is less efficient than predictive dialing and is typically used when dialing highly regulated areas e.g., New York City. We actively monitor the calling campaign to ensure pacing aligns to our desired service levels. The list of phone numbers is generated each morning based on our overall contact strategy and in accordance to all federal, state, and client rules.
- **Automated Messaging (AM):** Part of our collection strategy is to drive as many inbound calls as possible. Automated messaging automatically calls a list of telephone numbers until there is a live connect. At that point, the system then gives the person on the other end the option to be transferred to a live agent.
- **Unattended Messaging:** When authorized, automated dialing campaign leaves a message with a live person or answering machine/voicemail. The text to speech engine leaves a customized message by announcing the debtor's name within the message. Our text to speech engine is the newest on the market and sounds very close to a real person's voice instead of the commonly known digitized version.
- **Preview:** Preview enables a representative to review account notes prior to initiating a call to the debtor.

Harris & Harris records 100 percent of all inbound and outbound calls for appending to each case/account, and we can readily make these recordings available to the Court.

Account Pooling

Harris & Harris works client accounts in a pooled environment, using collection representatives dedicated to a specific vertical market. For this contract with the Court, collection representatives will have specific government collections experience as members of the Government Services Division of Harris & Harris. The representatives who will work the accounts are part of a specific accounts group. The average account ratio is 250 - 500 accounts per collection representative at any given time. This number may vary slightly depending upon the average balance and required work effort of each file. Harris & Harris does not assign a specific number of accounts per collection representative per day. Instead, **all accounts are pooled, analyzed, and moved into specific predictive dialer queues and campaigns.**

When contact is made with a debtor, they are immediately connected to a free collection representative. The collectors are connected to an average of 200 outbound calls a day. They request payment of the outstanding balance in full, but they can help establish alternative payment plans if a debtor cannot make full payment. Collectors are required to handle each account holder with high quality customer service and professionalism, accurately document all collection activities in our CUBS[®] collection system, and make recommendations on what further action should be taken for account holders who default on their payment plans.

Pooled accounts are rotated through the collection staff by the predictive dialer until a particular collection representative receives a payment or a payment promise is obtained. The account is then automatically placed in individual collector promise queues in our CUBS[®] collection

2. Work Plan for Providing Requested Services

system. The collector owns this account for a period specified for the type of account, after which it reverts to the pool. Broken promises leave the individual collector's queue and are placed in a queue, from which the accounts are fed to the rest of the collection team by the predictive dialer. This periodic cleansing of individual promise queues ensures that accounts do not grow cold and are properly managed for maximum recovery. Defaulted payment plans are monitored by our system and are immediately worked by the first available collection representative.

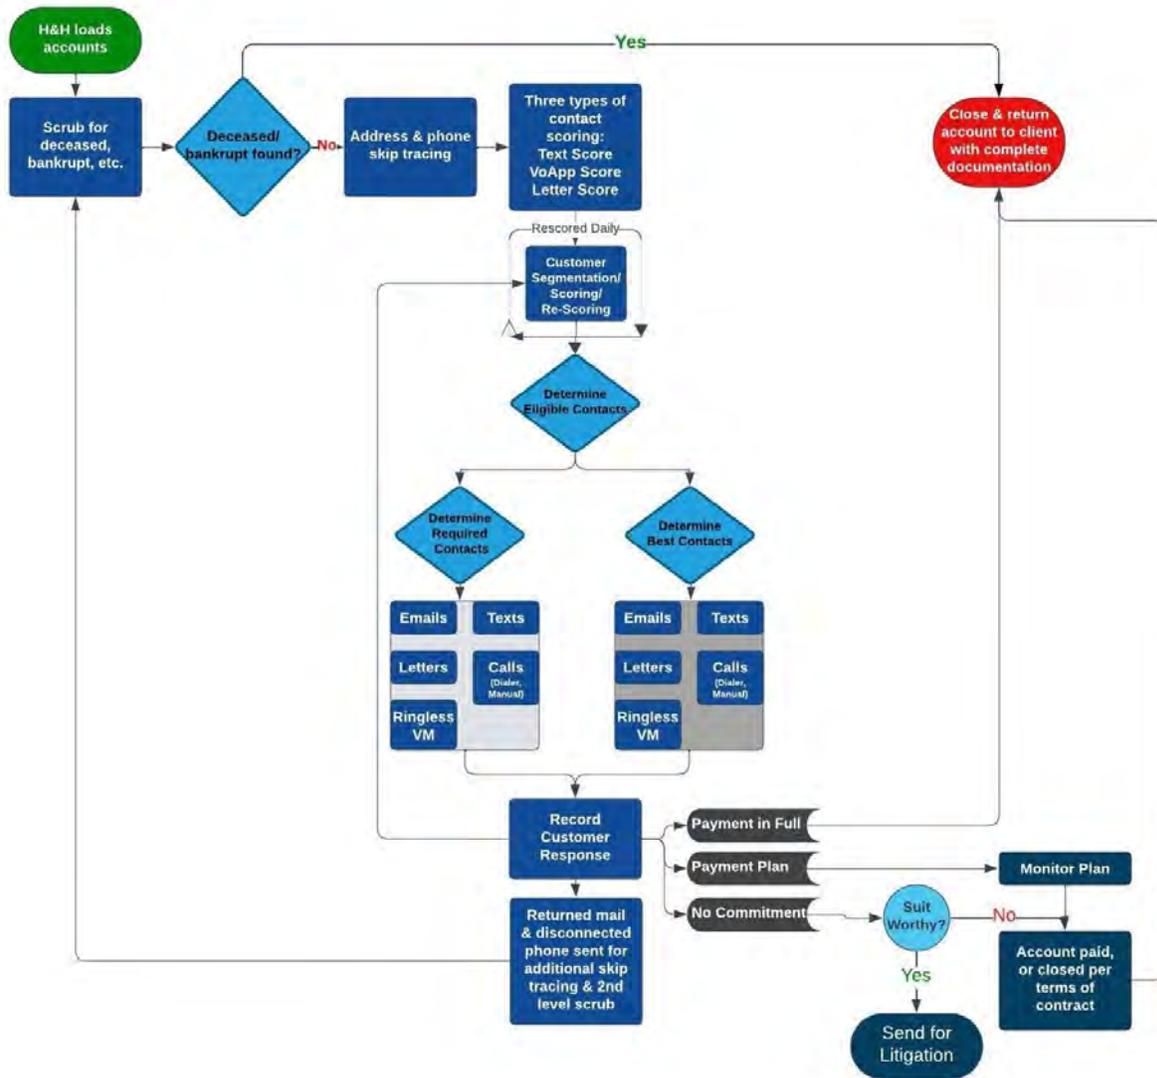

Collection Methodology

Harris & Harris offers the Court a progressive seven-phase collection methodology that incorporates all requirements of the Scope of Work toward reconciliation of each account.

- **Phase 1:** Account Placement
- **Phase 2:** Account Scrub and Skip Tracing
- **Phase 3:** Account Scoring and Prioritization
- **Phase 4:** Collection Letters
- **Phase 5:** Contact
- **Phase 6:** Litigation/Legal Activities
- **Phase 7:** Closing and Returning Accounts

We present on the next page a workflow of our standard collection process. During implementation, we will discuss and finalize custom flows for the Court.

2. Work Plan for Providing Requested Services

Phase 1: Account Placement

Harris & Harris can accept and send account information at any interval, in nearly any format. Existing interfaces include FTPS, SFTP, HTTPS, and secure email. We accept electronic files in the following data types: EDI, XML, Fixed Length ASCII data, CSV, Tab Delimited, Excel spreadsheet, API and JSON. Our IT personnel can adapt our programs to accept, update, and process all records on hand from any system, no matter how common or how obscure. They work with each client's technical agents regarding file layout, data mapping, test files, PGP encryption, and secure FTP sites to test and ensure consistent file transfer for account placement from the very start of the contract. Our systems will verify a variety of factors, including the number of accounts transmitted, total value, balance due, payment history, and other variables. Any inconsistencies are immediately flagged and are addressed before accounts are eligible for collection.

Harris & Harris will attempt collection on every placed account, regardless of balance, score, or any other characteristic that does not otherwise invalidate collection (e.g., bankruptcy).

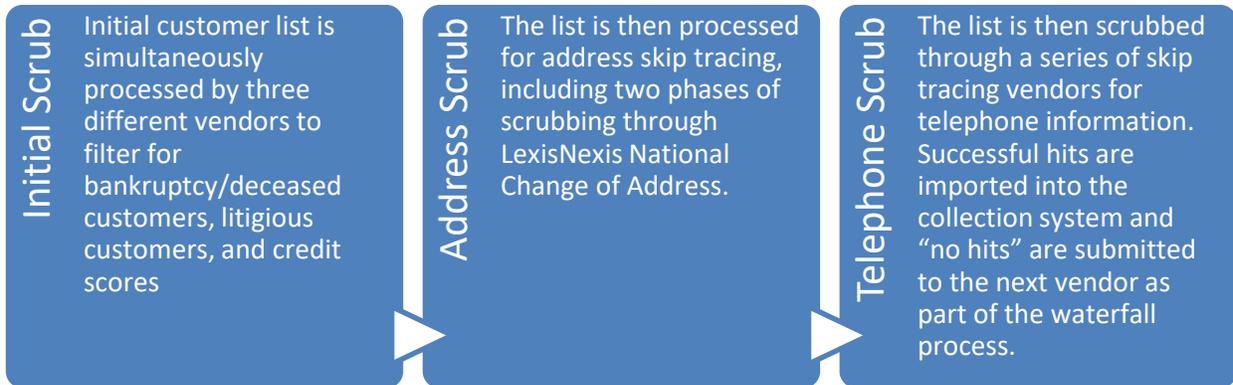

2. Work Plan for Providing Requested Services

Phase 2: Account Scrub and Skip Tracing

Skip tracing is a valuable process within any successful collection methodology, and we use the most advanced skip tracing tools currently available. **Both electronic and manual skip tracing services are provided at no additional charge as a standard service within our collection methodology.** We partner with leading third-party vendors to uncover accurate mailing addresses, phone numbers, and other vital contact information. **These services enable us to identify undeliverable addresses before mailing as well, thereby dramatically reducing the extra time and cost incurred by returned mail.** We submit all rejected files for a new address or phone number to maximize the rate of success of our skip tracing process.

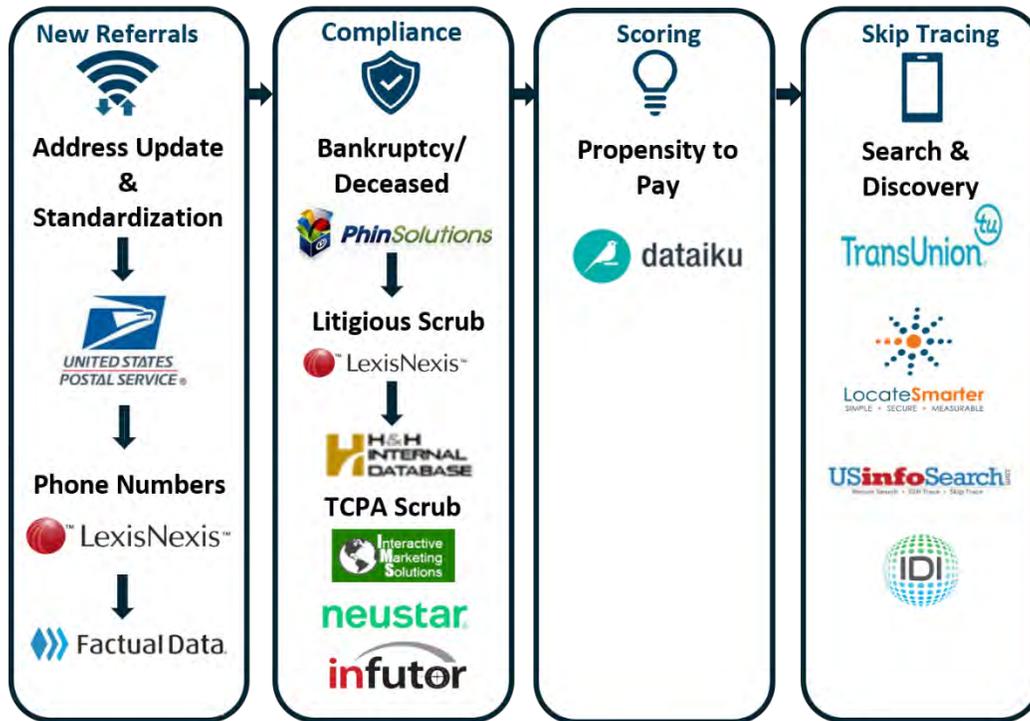

Within 24 hours of account approval and system update, our system initiates a search to obtain the correct residential address, updated phone numbers, and all applicable contact data. We will transmit any updated contact information to the Court in a daily update file via secure FTP transfer. When our automated processes fail to locate a debtor, our seasoned manual skip tracing team, composed of research investigators and expert skip tracers, provide additional assistance. All locate efforts are performed in full compliance with the FDCPA, FCRA, and all applicable federal, state, and local laws and regulations.

Highlights of our scrub process for this contract include:

We present on the next page a graphic depiction of our **Scrub and Skip Tracing Waterfall**.

2. Work Plan for Providing Requested Services

Wrong party contacts and contacts that cannot be reached for 30 days are resubmitted to the skip tracing waterfall. Accounts that are filtered through all the skip tracing vendors without producing a phone number are resubmitted to the waterfall to be reprocessed.

Harris & Harris uses the most extensive and fully automated skip tracing process in the industry. The first step in the process is to update the debtor's home address. By standardizing the address, inaccuracies are corrected, and the ZIP code plus 4 (ZIP+4), which identifies a geographic segment within a delivery area, such as a city block, is appended. After the standardization is completed, the address is scrubbed against the USPS' National Change of Address (NCOALink) database. There are three significant advantages to this product:

- The process is immediate and bypasses waiting for a letter to cycle through the delivery and return process to then skip trace for a new address.
- Any new address on file is immediately appended, forwarded, and updated through an electronic upload into our collection system.
- Since the mail return process has been fully automated, the cost for this service is less expensive, which enables Harris & Harris to offer the most competitive rate structure. If the address submitted by our client results in mail return, the automated skip tracing waterfall will update the customer record with a new address by running the account through a series of skip trace tools until an address is located or we exhaust our efforts. If no updates are found, we may continue to re-run this process.

Bankrupt and Deceased Accounts

Accounts referred to Harris & Harris are continually submitted to data sources, including Phin Solutions, which identifies bankrupt and deceased debtors. Harris & Harris will notify the Court in a daily file when we discover that a debtor is deceased or bankrupt, and we will cease all

2. Work Plan for Providing Requested Services

collection efforts with respect to that debtor and will return the account with proof of claim as appropriate (e.g., remitting death certificate for deceased accounts). During implementation, we will confirm how the Court desires these account types to be handled.

Phase 3: Account Scoring and Prioritization

Harris & Harris integrates both internal and external data sources into our account scoring methodologies and communication models. After all the scrubs are completed, the accounts are scored to drive the best-fitting collection strategy to effect collection on an account. Our analytics infrastructure includes data engineers, business intelligence, visualization tools, predictive modeling, and machine learning.

Below you will find a brief list of **industry-leading enhancements** utilized by our Analytics Department.

Data Warehouse

Our firm migrated our internal data warehouse to Snowflake. Snowflake provides a Cloud database service in the highly secure region of the Amazon Web Service. With its nearly infinite process and storage capability, Snowflake allows Harris & Harris to build out its proprietary data warehouse and analytics products without concerns about processing and space constraints that an on-premises system would have.

Dialing Strategy Optimization

Harris & Harris partnered with Attunely to build robust and effective predictive dialing models with scores that are refreshed daily for prioritization of campaign builds. These strategies consider effectiveness and the debtor's preferred communication channels.

Predictive Modeling & Machine Learning

Dataiku is the machine learning and predictive modeling platform used by Harris & Harris, fully integrated with our Snowflake Data Warehouse to make data mining and data cleansing easier for our data science team as well as a large selection of best-in-class tools for predictive modeling projects. Dataiku can be used to create entire end to end data processes, models, and strategic data products for use in our daily operations. With its machine learning capabilities, it can automatically detect model data drift, initiate model retraining, and promote an updated model version.

Letter Strategy Optimization

Harris & Harris partnered with the experienced accounts receivable management staff of Equabli to build out our initial letter model. This model stratifies portfolios targeting debtors that are most likely to respond to letters to drive our overall letter strategy predicting 90-95% of the revenue from 60% of the accounts. The model is built on our Dataiku platform and is our sole intellectual property. Since it runs in Dataiku, we can refresh and expand the model with our data science team without the

2. Work Plan for Providing Requested Services

need of a lengthy outside vendor engagement. Essentially it enables Harris & Harris to develop effective notice campaigns by targeting debtors with the best customized treatment paths. This initiative has proven to increase debtor satisfaction with our communication efforts.

Contact Strategy Optimization

Hermes

Our proprietary scoring model and decision engine, Hermes, enables us to identify accounts with the highest propensity to pay and the most effective way to communicate with each debtor. Hermes employs a dynamic scoring approach, with data refreshing daily and daily re-scoring of each account with no contact. As a result, debtor behavior and response to each communication influences the next communication method. We have documented an acceleration of collections through Hermes through identifying optimal channels and eliminating ineffective communications.

Phase 4: Collection Letters

When accounts are received into our system and account information has been verified, we automatically generate and mail an initial demand notice within 48 hours. This notice informs the debtor that their account has been placed with us for collection and defines the terms and conditions for appropriate and timely payment. The schedule of subsequent collection letters will be determined by the needs and requirements of the Court as well as by the circumstances surrounding the collection of certain accounts. Each letter will provide notice of the debt due, clear instruction for remitting payment, a return envelope, and directions to contact us and/or pay through a toll-free telephone number (provided on all correspondence) or through our online payment portal (QR code provided). Subsequent letters are also automatically sent for payment reminders and notices of missed payments.

All letters and notices created by our firm can be customized to exact specifications, including but not limited to wording, type of letter generated, letter triggers, and timing. All letters will be subject to a rigorous approval process by the Court and by our compliance attorney prior to use. Letters will never include a Social Security number or federal identification number. Letters are available in a variety of language formats. Many of our clients elect for letters in English or Spanish; letters can also be adapted for other large foreign-language populations as needed.

Phase 5: Contact

When we contact debtors, we are not just collectors -- we are communicators, ready to talk and ready to listen. We apply a human touch to our business by recognizing that each debtor is a unique individual, with unique situations that may require compassion and special treatment. Empathetic communication by our agents often fosters a good faith effort on the part of debtors to meet their responsibility to pay their debts.

Assisted by state-of-the-art software, our agents will:

- Identify their communication as originating from Harris & Harris on the client's behalf
- Specify the debt, the original balance, and the amount due
- Require payment in accordance with client policy

2. Work Plan for Providing Requested Services

Harris & Harris agents always request the balance in full first. For customers who cannot make payment in full, we will offer payment plan options in accordance with our business rules and with Court and County protocols, including any compromise or settlement. All agents gather the necessary information from the customer to establish a reasonable payment plan that is the largest payment possible that works within the personal budget of the customer.

We achieve maximum liquidation through the following strategies:

- Resolving debt balances in full and on an immediate basis
- Working a six-day workweek and providing full coverage during prime-time hours, including Saturdays and evenings between the hours of 8 am and 9 pm in the time zone of the customer being contacted
- Reaching the full Court customer base by employing a bilingual collection team and Spanish letters
- Continually monitoring and coaching our agents

Omni Channel Communications

Complementing and enhancing both our written and telephonic communication are our **Omni Channel** communication options. Our Omni Channel communication options provide debtors with a variety of ways to communicate with Harris & Harris regarding their outstanding balance owed.

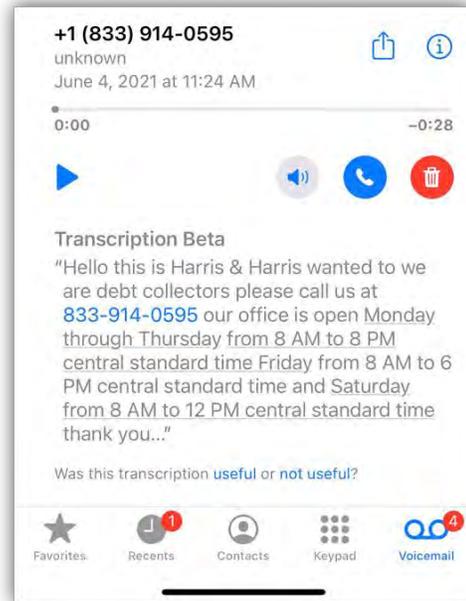

Our agency understands that debtors are unique in their preferred method of communication and payment options. Harris & Harris believes that offering different communication and payment channels will assist in improving the overall debtor experience while expediting collections over time. Reaching debtors through outbound campaigns is extremely important to communicate and expedite payments. Our communication options include:

Notices with unique QR codes to simplify payment options. The QR code takes the debtor directly to a customized payment portal. The payment portal can also enable the debtor to negotiate their own payment plans. This enables self-service options per Court guidelines.

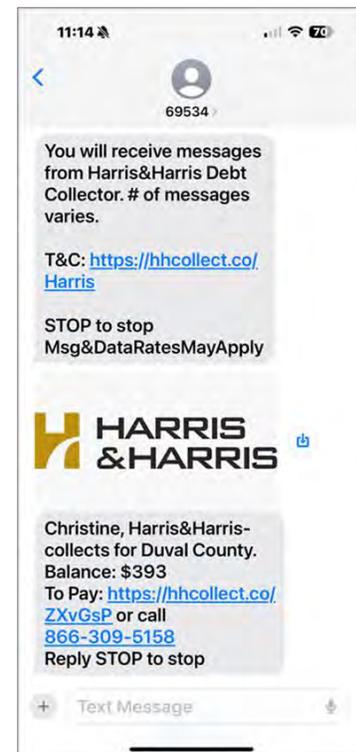

2. Work Plan for Providing Requested Services

Ringless voicemails entail a voicemail direct drop message. “Ringless Voicemail” provides a simple communication to the debtor without calling their cell phone and interrupting them. Most smartphones provide the ability to transcribe the message left, which also allows the debtor to read the voicemail if they are unable to listen to the message at that time.

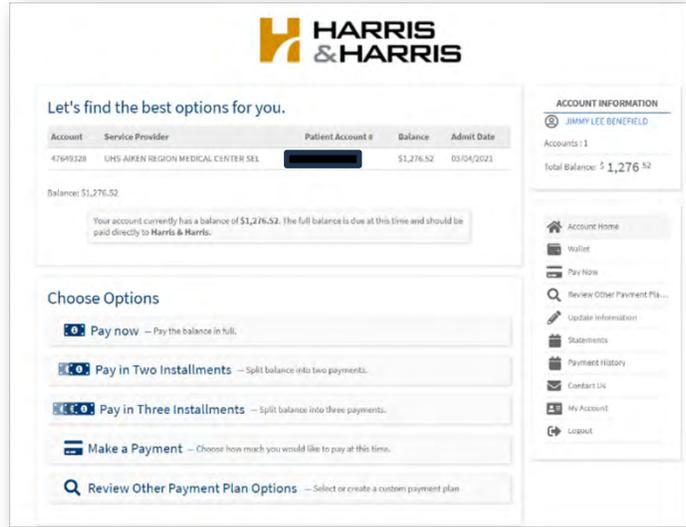

Harris & Harris also offers additional modern self-service communication channels to provide support to debtors regarding questions they may have regarding their outstanding balances. These channels include:

MMS text messaging offers debtors the ability to communicate via mobile text. Our mobile messaging includes customized options to meet our call center needs and those of each client. Prior to receiving a message requesting payment, debtors will receive a text notifying them that additional messages will be sent. This message includes an opt-out method and is followed by the Harris & Harris logo, improving validation and authenticity. Messages provide links direct to the payment portal or telephone call center to enable the debtor to self- service or speak with a representative. All subsequent messages include opt-out language.

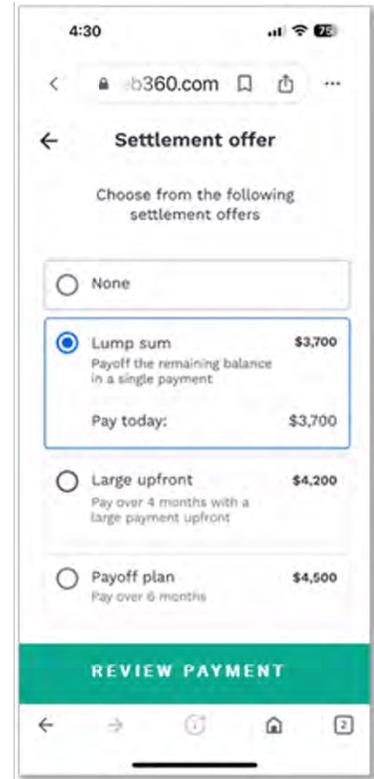

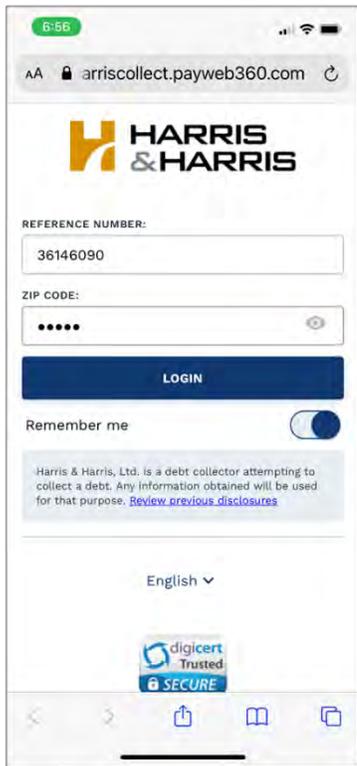

2. Work Plan for Providing Requested Services

Customized payment portals with the ability to negotiate and set up their own payment plans. For clients where we direct debtors to pay through Harris & Harris options, we can also implement an area of our online payment portal that enables a debtor to negotiate their own payment plans. The payment plan parameters are set during the implementation phase. This functionality enables the debtor to log into our payment portal and set up a payment plan that is the best option for their ability to pay.

Our portals can be accessed through optimized mobile platforms, enabling debtors to easily fulfill their obligations using their mobile devices. These platforms offer the convenience of setting up payment plans that align with pre-established parameters established by the Court. Debtors can access the portal via QR code, text message link, or directly.

2. Work Plan for Providing Requested Services

Phase 6: Litigation / Legal Activities

If all collection efforts have been exhausted and as authorized by a client, Harris & Harris can identify certain accounts for legal activities. Harris & Harris offers the added value and benefit of the affiliated law firm of **Arnold Scott Harris, P.C., Attorneys at Law**.

This in-house firm is experienced in determining which client accounts are suitable for litigation and expedites the legal process by eliminating the necessity to involve outside counsel. In most cases, a suit will be recommended only if the debtor is employed on a full-time basis.

Prior to any account being referred to our dedicated garnishment and levy team either through automation or via collection representative referral, all attempts are exhausted to resolve the outstanding obligation on a voluntary basis. These efforts are verified both manually and through our collection system and include:

- Completed phone attempts
- Completed letter series with appropriate wait times
- Payment arrangement default
- Bankruptcy verification
- Employment verification

In addition to the voluntary resolution efforts, Harris & Harris will work closely with the Court to establish other desired or required criteria for referral to the levy and garnishment team. When all criteria are met, the account will officially move to the levy garnishment team.

For legal escalations on tax warrants via levy or garnishment, the process consists of a dedicated post judgement team reviewing a given tax account for due diligence and viability. This entails a secondary review of accounts to ensure that:

- Phone calls and mail attempts have been made for each eligible account
- The debtor is not deceased nor in an active bankruptcy
- Minimum balance thresholds are met
- A full review of account and payment history is made

This is to ascertain financial hardship and payment plan potential and to validate and address any potential dispute listed. The debtor's state of residence is also validated to ensure that recommended activities taken are lawful in the relevant jurisdiction. For example, no garnishment efforts are taken in Texas or Florida. Before accounts are submitted for legal escalation via levy or garnishment, in-house attorneys review the work of the administrative personnel as a final precaution before recommending final approval with the client.

At any time throughout the collection cycle, we may be notified of the power of attorney, representation, or customer consent. All such notices are reviewed by our compliance team and a determination is made regarding assignment for contact whether that is legal, supervisory, or at the collection representative level.

Harris & Harris makes every attempt to ensure that garnishments and levies are conducted in a way to resolve the outstanding balance of debtor accounts in their entirety. Our customer service practices extend beyond simple debtor communication; rather we provide the same

2. Work Plan for Providing Requested Services

excellent service to banks and employers. Inevitably, and for a multitude of reasons including minimal asset at the time of levy or employment termination, small balances may remain after levy or garnishment.

When balances remain after the completion of a levy or when a garnishment is completed or terminated (i.e. a small balance such as \$100 or less) Harris & Harris takes a proactive approach to quickly resolving the remaining outstanding balance. Our legal team reviews weekly automated reporting developed specifically to identify qualifying debtor accounts requiring additional resolution. The identified accounts are flagged and reported to the appropriate collection manager inclusive of relevant levy or garnishment data that will aid in the voluntary resolution of the balance. The collection manager coordinates special campaigns to follow up on the remaining balance owed to ensure prompt resolution.

Phase 7: Closing and Returning Accounts

Harris & Harris will immediately cease collection activity at any point in the collection process if any of the following occur:

- If the debtor disputes or appeals the debt, we will cease activity and consult with the Court to verify the validity of the debt
- If an account meets a predetermined status set by the Court
- If the Court elects to cancel, de-assign, or recall an account at any time and for any reason

Harris & Harris will declare an account uncollectible if an account meets certain highly specific criteria, or when all efforts to secure payment have been exhausted. We will follow any standards for closure specified by the Court, and all status codes can be fully customized to align with the accounting and auditing processes of the Court.

The most common factors that make an account uncollectible include the following:

- Death
- Incarceration
- Documented physical incapacity (e.g., coma, terminal cancer)
- Documented permanent physical or mental disability
- Deportation
- Invalid placement
- Bankruptcy
- Debtor refuses to pay and has insufficient assets for garnishment, levy, or attachment
- Below poverty level
- Military personnel on active duty in a war zone

Harris & Harris will close and return any such account back to the Court, along with a full report detailing all collection efforts, any contact made, as well as any updated contact information we may have obtained. During the implementation phase of the contract, Harris & Harris will work anew with the Court to review specific criteria to incorporate into the close and return process.

3.1 COLLECTIONS VIA MAIL

3.1 Collections via Mail

2. Work Plan for Providing Requested Services

3.1.1 All CONTRACTOR letters sent to debtors shall be pre-approved by the COURT Project Manager (PM).

Agreed. As noted above under Phase 4 of our collection methodology, all letters will be subject to a rigorous approval process by the County/Court and by our compliance attorney. Harris & Harris will develop and present to the Court Project Manager for pre-approval a full portfolio of letters and notices to be used throughout this contract. **All letters and notices created by our firm can and will be customized to the exact specifications of the County/Court**, including but not limited to County/Court court account/case number, wording, type of letter generated, letter triggers, and timing.

We have included our **Sample Correspondence** package for courts in the **Appendix** to our Technical Proposal.

3.1.2 CONTRACTOR shall employ "skip tracing" to obtain current debtor address and phone number.

Agreed. As noted above under Phase 2 of our collection methodology, Harris & Harris knows that **skip tracing** is a valuable process within any successful collections methodology, and we use the most advanced skip tracing tools currently available. We also have partnered with leading third-party vendors to uncover accurate mailing addresses, phone numbers, and other vital contact information. **These services enable us to identify undeliverable addresses before mailing as well, thereby dramatically reducing the extra time and cost incurred by returned mail.**

Please also see 3.2 *Skip Tracing* later in this section for greater detail regarding our skip tracing use and capabilities.

3.1.3 CONTRACTOR shall issue the first Delinquency Letter upon receipt of debtor information by COURT and/or after obtaining a current address through "skip tracing." CONTRACTOR shall provide the debtor no more than thirty (30) days from the date of Delinquency Letter to respond to the first Delinquency Letter. If the address provided by COURT is incorrect, or if a letter is returned undeliverable, addressee unknown, etc., CONTRACTOR shall attempt to obtain a current address through "skip tracing" and commence issuing letters once a current address is obtained.

Agreed. Harris & Harris has read, understands, and agrees to comply with this requirement. Within 24 hours of account placement and system update, our system initiates a search to obtain one or more of the following:

- Correct residential address
- Updated telephone number(s)
- Contact information for relatives
- Contact information for nearby residents or neighbors
- Other applicable contact or identity verification data.

Following confirmation, we will automatically generate and issue the first delinquency letter, notifying the debtor that their account has been placed with us for collection. This letter will provide the debtor no more than thirty (30) days from the date of the letter to respond. Should the letter be returned as undeliverable due to any circumstance (e.g., incorrect address provided by Court, addressee unknown, etc.), Harris & Harris will employ its full skip tracing capabilities (see 3.2 later in this section) including resubmitting the debtor information through our Skip Tracing Waterfall to obtain a current address.

2. Work Plan for Providing Requested Services

Each letter shall:

- *Identify CONTRACTOR;*
- *Inform the debtor of the origin of the debt and the current amount owed;*
- *Advise of the consequences of continued non-compliance as allowed by statute, such as wage garnishment, State tax refund intercept, and/or driver's license suspension, if applicable;*
- *Describe payment options available such as installment payment plans;*
- *Describe how payment may be remitted;*
- *Explain that a debtor with an Infraction with Unadjudicated Bail, Sanctions, Juror Sanction, Child Custody Evaluation, or other accounts as approved by COUNTY/COURT, who wish to dispute the debt must schedule a court appearance;*
- *List a toll free (e.g., "800") telephone number, which allows debtors to remit payment, schedule a court appearance and/or obtain general information;*
- *Provide a return envelope for the submission of payment;*
- *List the contractor's web page address, which allows debtors to remit payment.*

CONTRACTOR shall not use or display the official seal or logo of the COURT on any of its letterhead or other communication with any debtor for any reason.

Agreed. All letters and notices created by our firm for this contract can and will be customized to exact specifications, **including but not limited to every requirement cited above.** Each letter will clearly identify Harris & Harris and will describe the obligation and the possible consequences of non-compliance. Each letter will provide several avenues for response/remittance, including but not limited to a toll-free number and the ability to pay online and the inclusion of a return envelope for mailed payments. **Letters and notices will never use or display the official seal or logo of the Court.** Debtors will also be advised of alternate actions including setting up a payment plan or scheduling a court appearance to dispute a debt.

All letters and notices created by our firm can and will be customized to the exact specifications of the County/Court, including but not limited to County/Court court account/case number, wording, type of letter generated, letter triggers, and timing. All letters will be subject to a rigorous approval process by the County/Court and by our compliance attorney.

3.1.4 *If the debtor does not respond by the 31st day of the date of mailing, CONTRACTOR shall issue a second letter provided the debtor has a valid address. Thereafter, letters with valid addresses shall be issued on a strategic basis, or until debt is satisfied in full or account is recalled/cancelled.*

Agreed. The schedule of subsequent collection letters will be determined by the needs and requirements of the County/Court, to include under this contract our issuance of a second letter (for debtors with a determined valid address) if a debtor has not responded by the 31st day of the date of mailing for the first delinquency letter. We will also employ our judgment of the circumstances surrounding the collection of accounts to issue subsequent letters on a strategic basis to work the account to fulfillment until/unless it is recalled or canceled. We can adjust the frequency of letter generation to meet County/Court requirements as they may evolve throughout the contract, and our collection professionals can have the automated collection system generate letters for special situations.

3.1.5 *CONTRACTOR may issue additional letters as deemed necessary.*

Agreed. Harris & Harris has read and understands this requirement. As noted above, the schedule of subsequent collection letters will be determined by the needs and requirements of the County/Court, as well as by our judgment of the circumstances surrounding the collection of

2. Work Plan for Providing Requested Services

accounts. We can adjust the frequency of letter generation to meet County/Court requirements, and our collection professionals can have the automated collection system generate letters for special situations. Letters are also automatically sent for payment reminders and notices of missed payments, and return envelopes are enclosed for convenience.

3.1.6 All correspondence issued by CONTRACTOR shall be accompanied by a Spanish language version of the correspondence.

Agreed. Harris & Harris letters are available in a variety of language formats. Most of our clients elect for letters in English or Spanish; letters can also be adapted for other large foreign-language populations as needed. For all debtor correspondence including letters and notices to be issued under this contract with the County/Court, we agree to include a Spanish language version to accompany the original correspondence.

3.2 SKIP TRACING

3.2 Skip Tracing

3.2.1 CONTRACTOR shall utilize “skip tracing” to obtain account information (e.g., address, telephone numbers, Social Security Number, etc.) on delinquent debtors for the purpose of collecting a debt.

Agreed. As noted earlier in our discussion of Phase 2 of our collection methodology, skip tracing is a valuable process within any successful collection methodology, and we use the most advanced skip tracing tools currently available. **Both electronic and manual skip tracing services are provided at no additional charge as a standard service within our collection methodology.** We partner with leading third-party vendors to uncover accurate mailing addresses, phone numbers, and other vital contact information. **These services enable us to identify undeliverable addresses before mailing as well, thereby dramatically reducing the extra time and cost incurred by returned mail.** We submit all rejected files for a new address or phone number to maximize the rate of success of our skip tracing process.

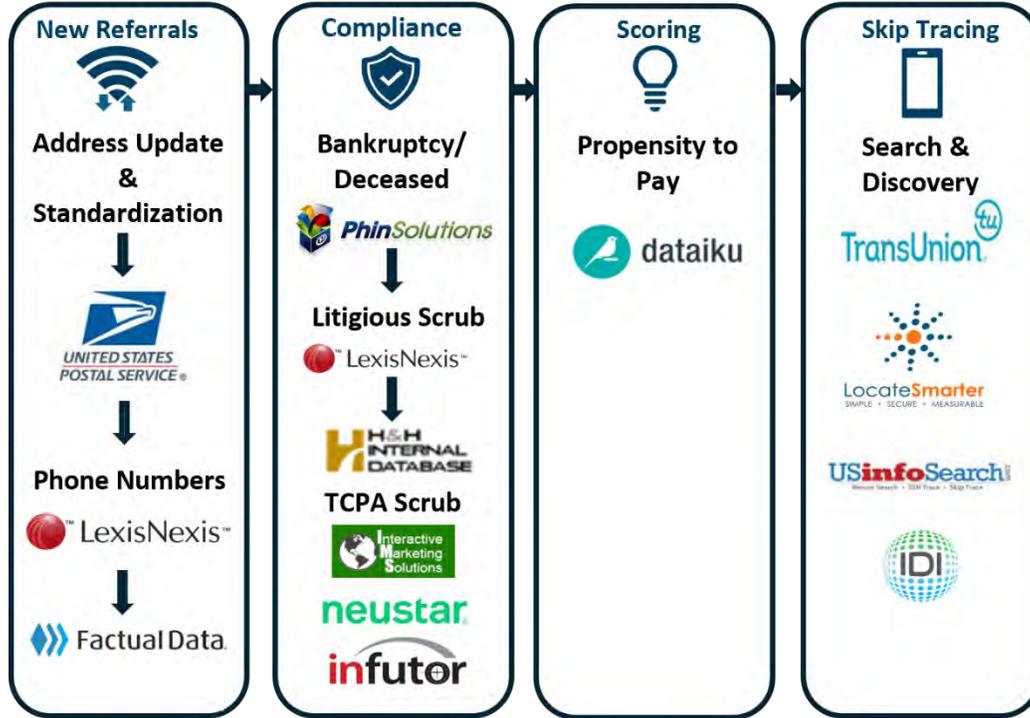

Within 24 hours of account approval and system update, our system initiates a search to obtain the correct residential address, updated phone numbers, and all applicable contact data. We will transmit any updated contact information to the Court in a daily update file via secure FTP transfer. When our automated processes fail to locate a debtor, our seasoned manual skip tracing team, composed of research investigators and expert skip tracers, provide additional assistance. All locate efforts are performed in full compliance with the FDCPA, FCRA, and all applicable federal, state, and local laws and regulations.

- Since the mail return process has been fully automated, the cost for this service is less expensive, which enables Harris & Harris to offer the most competitive rate structure. If the address submitted by our client results in mail return, the automated skip tracing waterfall will update the customer record with a new address by running the account through a series of skip trace tools until an address is located or we exhaust our efforts. If no updates are found, we may continue to re-run this process.

3.2.2 CONTRACTOR shall perform "skip tracing" each month until the account is deemed uncollectible, transferred or until a current/correct address is obtained.

2. Work Plan for Providing Requested Services

Agreed. For this contract with the County/Court, wrong party contacts and contacts that cannot be reached for thirty (30) days will be continuously resubmitted to the Skip Tracing Waterfall to be reprocessed. Accounts that are filtered through all the skip tracing vendors without producing a phone number will be resubmitted to the waterfall to be reprocessed every thirty (30) days until a valid address is obtained or until the account is transferred, recalled, or otherwise deemed uncollectible

3.2.3 *CONTRACTOR shall provide COUNTY/COURT with updated account information (e.g., address, telephone numbers, Social Security Number, etc.) upon request.*

Agreed. We will transmit to the County/Court any updated contact information discovered during our skip tracing efforts upon request and on any schedule desired by the County/Court.

3.2.4 *CONTRACTOR shall utilize the following resources as legally allowed and as necessary to obtain updated account information:*

- *Telephone Directories*
- *Credit Bureau Reports*
- *County Tax Assessor Records*
- *Current Voter Registration Records*
- *Debtor's financial and banking references*
- *Debtor's current or previous employers*
- *National Change of Address Database*
- *Department of Motor Vehicles*
- *Third party firms such as LexisNexis*
- *Relatives/Neighbors/Associates*

Agreed. As legally permitted and as necessary, Harris & Harris will utilize a full spectrum of resources to obtain updated account information on County/Court debtors, including but not limited to all of the resources cited above. As cited earlier, when our automated processes and Skip Tracing Waterfall fail to locate a debtor, we also have a seasoned manual skip tracing team, composed of research investigators and expert skip tracers, to provide additional assistance. All locate efforts are performed in full compliance with the Fair Debt Collection Practices Act (FDCPA) and all applicable federal, state, and local laws/regulations.

3.3 CONTACT VIA TELEPHONE

3.3 Contact via Telephone

As described earlier in this section, Harris & Harris utilizes the latest release of the **Genesys PureCloud** telephony platform, which is completely integrated to generate effective, real-time campaigns and a wide range of telephony features for our collection representatives including programmable dialing. Setting us apart from other agencies is the fully blended software suite of products and programs that allow us to effectively manage our call center through calling campaigns, real-time analysis, statistical and analytical reporting, collection representative management, and custom tools that help us achieve maximum recoveries and customer satisfaction.

The entire dialing process is extremely resilient by maintaining multiple dial tone carriers which have central hub switching stations geographically located in cities around the country to avoid outages. In addition, Harris & Harris has the necessary equipment and provisioned access rights with our carriers to move our inbound call traffic between carriers if they experience an outage. The architecture of the Genesys system has redundant servers within separate data

centers to avoid outages. If there is a system failure or outage, the system automatically fails over to our redundant server. The Genesys system has separate servers to perform each function to avoid any latency when processing our calls. The Genesys system's key components are a telephone switch, predictive dialer, call voice recording, screen capture, and a call accounting data capture of all inbound and outbound calls.

We utilize five dialing methods to contact debtors: predictive dialing, power dialer, automated messaging, unattended messaging, and preview.

- **Predictive Dialing:** Automatically calls a list of telephone numbers, screening out no-answers, busy signals, answering machines and disconnected numbers while predicting at what point a human agent will be able to handle the next call. Typically, outbound calls are processed at a ratio of (outbound call to collector ratio) of a range starting at 3:1 up to 10:1 based on answer rates and staffing. We actively monitor the calling campaign to ensure pacing aligns to our desired service levels. The list of phone numbers are generated each morning based on our overall contact strategy and in accordance to all federal, state, and client rules.
- **Power Dialer:** Automatically calls a list of telephone numbers, screening out no-answers, busy signals, answering machines and disconnected numbers, but a dial is not initiated until a human agent is available. While more efficient than manual dialing, this is less efficient than predictive dialing and is typically used when dialing highly regulated areas e.g., New York City. We actively monitor the calling campaign to ensure pacing aligns to our desired service levels. The list of phone numbers is generated each morning based on our overall contact strategy and in accordance to all federal, state, and client rules.
- **Automated Messaging (AM):** Part of our collection strategy is to drive as many inbound calls as possible. Automated messaging automatically calls a list of telephone numbers until there is a live connect. At that point, the system then gives the person on the other end the option to be transferred to a live agent.
- **Unattended Messaging:** When authorized, automated dialing campaign leaves a message with a live person or answering machine/voicemail. The text to speech engine leaves a customized message by announcing the debtor's name within the message. Our text to speech engine is the newest on the market and sounds very close to a real person's voice instead of the commonly known digitized version.
- **Preview:** Preview enables a representative to review account notes prior to initiating a call to the debtor.

Harris & Harris records 100 percent of all inbound and outbound calls for appending to each case/account, and we can readily make these recordings available to the Court.

3.3.1 CONTRACTOR shall employ "skip tracing" to obtain a current telephone number if COUNTY/COURT is not able to provide CONTRACTOR with debtor telephone numbers.

Agreed. As noted earlier in 3.2 in our discussion of our skip tracing capabilities, our **Skip Tracing Waterfall** is employed upon account approval and system update to search to obtain one or more of the following:

2. Work Plan for Providing Requested Services

- Correct residential address
- **Updated telephone number(s)**
- Contact information for relatives
- Contact information for nearby residents or neighbors
- Other applicable contact or identity verification data.

We will employ our waterfall for every account placed by the County/Court, whether or not the County/Court has provided a telephone number for the debtor as part of the account placement, until we obtain a current telephone number or until the account is otherwise recalled.

3.3.2 CONTRACTOR shall initiate telephone calls to debtors once a telephone number is obtained.

Agreed. As soon as Harris & Harris locates and validates a current telephone number for a debtor, we will immediately (within one business day) begin telephoning that debtor to attempt to collect the debt due. Our experience has shown that debtors often respond better to person-to-person contact than to written notices. Therefore, our emphasis is on **rapid person-to-person contact**.

3.3.3 CONTRACTOR shall interact with debtors in a professional and courteous manner and adhere to all rules and regulations governing collection practices in the United States (e.g. Fair Debt Collections Act and the Federal Trade Commission).

Agreed. Harris & Harris was founded by the late Samuel Harris in 1968, who envisioned a collection agency that would treat debtors with respect and compassion. In the ensuing decades, we have built a reputation in this industry of a different approach to collections, one where we view a debtor not as our adversary, but as a partner. Our representatives are trained to take a collaborative approach to debtor contact, regarding the debt owed as a problem to be solved together. Our representatives are trained and continually coached to use professional and courteous conversation and dialogue, and to tailor their approach to each individual's unique needs and circumstances, all in strict compliance with the Fair Debt Collection Practices Act (FDCPA), the Federal Trade Commission (FTC), and all applicable federal, state, and local statutes. This culture of respect permeates every level of our organization and is the reason that Harris & Harris sees remarkably little turnover in our workforce, very few debtor complaints, and collection returns that exceed our clients' expectations.

Harris & Harris ensures that our core values and those of each client are consistently upheld throughout our best collection efforts at all placement levels and across each collection division and account portfolio. For Harris & Harris, those core values include:

- **Zero-tolerance policy** for abusive collection or harassing debt collection practices – we never use threatening language, intimidation, or harassment in the collection process
- Collection representatives act in full accordance with all client and legal requirements, including all Federal, State, local, and industry guidelines regarding debt collection
- Ensuring that the debtor has been given a fair opportunity to resolve the debt

When we make telephone contact with debtors, we are not just collectors -- we are communicators, ready to talk and even more importantly, ready to listen. We apply a human touch to our business by recognizing that each debtor is a unique individual, with unique situations that may require compassion and special treatment. We provide pragmatic counseling

2. Work Plan for Providing Requested Services

to resolve each debtor's account, and we strive to understand the unique circumstances faced by each debtor. Through communication, we will establish a good faith effort on the part of each debtor to meet their responsibility to pay their debts.

Assisted by state-of-the-art software, Harris & Harris collection representatives make telephone calls using script modules that automatically guide them through sensitive collection processes with pre-programmed scripts they can recite word-for-word. On all initial contact with debtors, our collection representatives do the following:

- Identify their calls as originating from Harris & Harris on your behalf
- Specify the debt, the original balance, and the amount due
- Require payment in accordance with your policy.

Scripts are vetted by our legal department to ensure absolute compliance with all federal, state, and industry regulations governing debtor contact, and each is tailored to each client's specific needs and expectations. We have included **Sample Scripts** in the **Appendix** to our Technical Proposal.

3.3.4 CONTRACTOR shall provide TTY/TDD services in English and Spanish, and multilingual translators in the following languages: Spanish, Chinese, Armenian, Korean, and Vietnamese, when requested by the customer. A certified service may be used (e.g. Certified Languages, Inc.).

Agreed. Harris & Harris can readily communicate with every debtor to the County/Court, including but not limited to our provision of means via TTY/TDD services and facilitation via certified translation services.

Non-English-Speaking Debtors

Harris & Harris understands the necessity to speak with debtors in their native language. We always want to ensure that debtors fully understand their obligation, the repercussions of not resolving the debt, and their options for payment.

To that end, we employ multilingual collection representatives who can speak fluently in all common languages that we encounter, including Spanish, French, and German. For other languages such as those cited in the requirement, we utilize a translation service, allowing us to speak effectively with any debtor at any time. Spanish speaking debtors are by far the majority of our second language debtors. We staff each of our collection units with a minimum of 25 percent Spanish/English bilingual collectors. Based on the demographics of the debtor mix, our bilingual staffing is as high as 66 percent to ensure the ability to penetrate all account placements. We constantly adjust our staffing to match the debtor-mix pool in each unit.

Hearing-Impaired Debtors

Harris & Harris offers the County/Court direct experience and established accommodation and capacity for working with hearing-impaired debtors who require the use of a TDD/TTY service. If we receive an incoming call from a hearing-impaired debtor via live operator/translator, our representatives are trained to obtain proper authorization from the debtor before discussing the debt. Since these calls typically last longer than an average collection call, incoming TDD/TTY calls are transferred to the floor supervisor.

2. Work Plan for Providing Requested Services

Visual-Impaired Debtors

Harris & Harris also accommodates debtors who are visually impaired. Once notified that a debtor is visually impaired or blind, we will inquire as to the means of communication that is most suitable for the individual. If the debtor wishes for us to communicate with a third party, we will solicit signed approval to discuss the debt with a specifically named individual. We strive for effective telephone communication with every debtor, such that we are able to communicate verbally the information provided in every mailed notice. Payments can be made via telephone with the assistance of our representatives.

3.3.5 CONTRACTOR shall maintain telephone contact with each debtor that is in non-compliance by initiating at least one (1) call per month. During the telephone call, CONTRACTOR shall:

- **Identify CONTRACTOR;**
- **Inform the debtor of the origin of the debt and the amount owed;**
- **Advise debtor of the consequences as allowed by statute of continued non-compliance, such as wage garnishments, State tax refund intercept and/or driver's license suspension, if applicable;**
- **Describe payment options including installment payment plans;**
- **Describe how payments may be remitted;**
- **Explain that a debtor with an Infraction with Unadjudicated Bail, Sanction, Juror Sanction, Child Custody Evaluation or other accounts as approved by COUNTY/COURT, who wish to dispute the debt, must schedule a court appearance.**

Agreed. Harris & Harris agrees that we shall maintain consistent contact with each debtor by initiating at least one (1) call per month throughout account placement. Our telephone contact will be synchronous with our written correspondence as described in 3.1.3. Each call will clearly identify Harris & Harris and will describe the obligation and the possible consequences of non-compliance. Our collection representative will provide several avenues for response/remittance, including but not limited to the ability to make a payment with the representative or to pay online. Debtors will also be advised of alternate actions including setting up a payment plan or scheduling a court appearance to dispute a debt.

As cited earlier, we have included **Sample Scripts** in the **Appendix** to our Technical Proposal.

3.4 DEBTOR PAYMENT OPTIONS / METHODS OF PAYMENT

3.4 Debtor Payment Options / Methods of Payment

3.4.1 CONTRACTOR shall provide debtors who wish to comply, but face financial hardships or difficulties, with a flexible alternative payment plan. CONTRACTOR may set the terms and conditions of the payment plan; however, interest and fees shall not be charged.

Agreed. When contacting a debtor, **Harris & Harris collection representatives always request the full balance first.** However, for debtors who cannot make payment in full, we negotiate and offer payment plan options in accordance with each client's specific policies. All collection representatives are specifically trained to gather the necessary information from the debtor to establish a reasonable payment plan that is compliant with each respective client's specifications and that is the largest payment possible that works within the debtor's personal budget.

Once a collector has reached an agreement with a debtor on a particular payment plan, a supervisor takes over the call to confirm the arrangements. This technique ensures a higher

2. Work Plan for Providing Requested Services

level of compliance and affords the supervisor the opportunity to review the account to make certain that the payment arrangements are reasonable. Payment arrangements are not considered binding unless the debtor has provided a debit or credit card or bank account number to which drafts may be submitted. On receipt of the necessary banking information, the amount and the due date are confirmed with the debtor by the collection supervisor and the payment arrangement is confirmed.

There are several key elements of a successful payment plan program:

- **Down Payment:** A down payment is the first step of a payment plan program, as it means that the debtor is immediately invested in the program and is more likely to see it through to completion.
- **Post-Dated Checks and/or Post-Dated Credit Card Payments:** Post-dated payments are a remarkably powerful tool for our collection team, as they are a tangible means of payment. Post-dated checks are entered for each account, but they do not update the account balance until the actual date of the check (the date the check is deposited). All post-dated checks are held in a suspense file and are accessible for review and updating. The actual post-dated checks are filed by date in a fireproof safe.
- **Automated Monthly Notifications:** Monthly notifications serve as consistent reminders to debtors of their monthly obligation. Notifications can be customized to client specifications, and typically include payment coupon, original balance, remaining balance, and number of payments left in the agreement.
- **Calling Campaigns:** If a debtor misses the payment deadline, we immediately begin initiating calls to the debtor, attempting to secure that month's payment.
- **Online Option:** A successful payment program is further enhanced by offering debtors the ability to set up an installment program online. Harris & Harris has a portal through which debtors to the Court can explore their payment options. The Harris & Harris standard payment plan policy requires the debtor to pay half of the balance up front and then pay the balance of the amount due within a 90-day period. Payment plan specifics can be customized to meet the needs and expectations of the Court.

For this contract with the Court, Harris & Harris will ensure that all payment plans – whether initiated by our collection representatives or generated online – are authorized by the Court. Please see **Sample Correspondence** in the **Appendix** to our Technical Proposal for sample payment plan correspondence.

3.4.2 *CONTRACTOR shall advise debtors of any COUNTY/COURT Ability to Pay programs available and direct the debtor where to obtain information (e.g., COURT website).*

Agreed. Harris & Harris regularly incorporates avenues for **Ability to Pay** programs into collection programs for our clients to augment debtor options to resolve their debt (e.g., charity care screening for indebted patients of our healthcare clients). We welcome this option as part of our overall strategy and methodology for maximizing collections for the Court. During implementation, we will discuss with the Court any existing programs that they wish to be made available to debtors, and we will incorporate those programs into all scripting so that such information is readily shared with debtors. Collection representatives will also direct any interested and eligible debtor on how to obtain related information, such as via the Court Web site.

2. Work Plan for Providing Requested Services

3.4.3 CONTRACTOR, at minimum, must accept the following types of financial instruments for payments for account balances:

- **Cash (only at CONTRACTOR'S local business office(s) or where CONTRACTOR has provided clerical staff)**
- **Personal checks**
- **Bank debit cards**
- **Nationally recognized credit cards (e.g., MasterCard, Visa American Express, and Discover)**
- **Money orders**
- **Cashier's checks**
- **Bank certified checks**

Agreed. Payment types that we accept (as allowed by each client) include:

- Cash (at Harris & Harris offices or authorized locations with Harris & Harris staff)
- Checks (personal, cashier's, and bank certified)
- Credit cards
- Debit cards

In addition to cash, we can accommodate other debtors – including those who may not have access to traditional banking – through payment methods including:

- Cash payments at payment windows
- Money orders
- Western Union
- Quick Collect
- MoneyGram

3.4.4 CONTRACTOR shall provide a statement and a return envelope to debtors who have established a monthly payment plan. The statement shall, at minimum, inform the debtor of the remaining balance, the minimum amount due and the payment due date.

Agreed. Harris & Harris has included within the **Sample Correspondence** package provided in the **Appendix** to our Technical Proposal our sample letters used with debtors who have established a monthly payment plan. As you will see, these standard samples already include the minimum information cited in this requirement, and they can be fully customized by the County/Court as desired. Harris & Harris also affirms that our issuance of payment plan correspondence for any client including the County/Court always includes a return envelope to facilitate and expedite payment by the debtor.

3.4.5 CONTRACTOR shall ensure that when debtors submit personal checks, the case number or contractors file number, receipt number and defendant's last name appear on the check.

Agreed. Harris & Harris agrees that we will confirm that the cited information appears on any personal check submitted to pay a debtor's debt prior to accepting and processing it as a payment toward the debt.

3.4.6 CONTRACTOR must provide debtor a receipt for all payments received in person at CONTRACTOR'S local business office(s).

Agreed. Regardless of the method of payment, Harris & Harris always provides a debtor with a receipt. For debtors who make payments in person at a Harris & Harris office or authorized

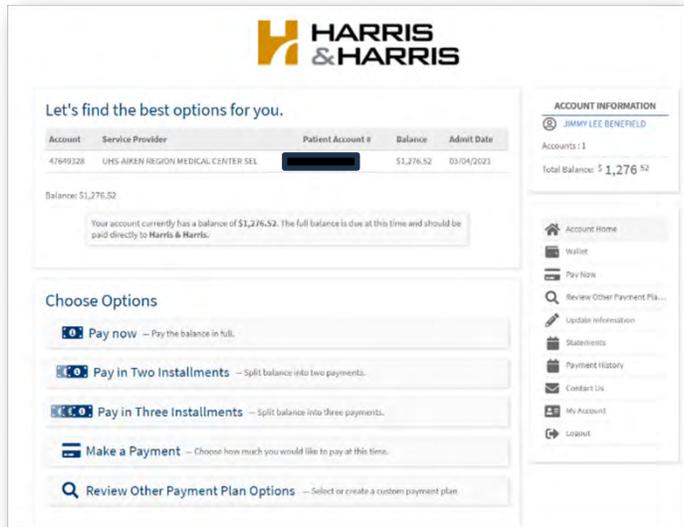

2. Work Plan for Providing Requested Services

payment office, we will readily provide a hard copy receipt with details including but not limited to the date and amount paid.

3.4.7 CONTRACTOR shall accept debtor payments via the internet (see 3.9.2 Debtor Services, Internet Services).

Agreed. As noted earlier in this section in Phase 5 of our collection methodology, our Omni Channel communication options provide debtors with a variety of ways to make payments, including several means via the Internet. Our agency understands that debtors are unique in their preferred method of communication and payment options. Harris & Harris believes that offering different communication and payment channels will assist in improving the overall debtor experience while expediting collections over time. Our payment options via the Internet include:

Customized payment portals with the ability to negotiate and set up their own payment plans. For clients where we direct debtors to pay through Harris & Harris options, we can also implement an area of our online payment portal that enables a debtor to negotiate their own payment plans. The payment plan parameters are set during the implementation phase. This functionality enables the debtor to log into our payment portal and set up a payment plan that is the best option for their ability to pay.

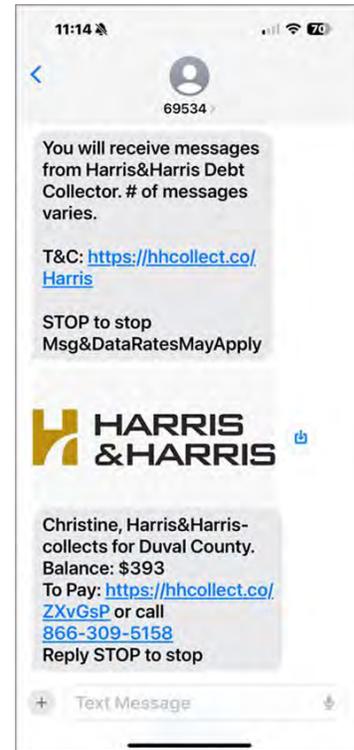

Notices with unique QR codes to simplify payment options. The QR code takes the debtor directly to a customized payment portal. The payment portal can also enable the debtor to negotiate their own payment plans. This enables self-service options per Court guidelines.

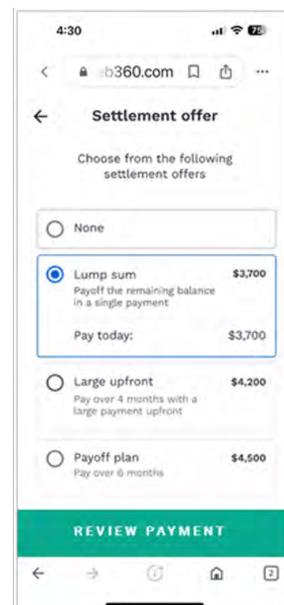

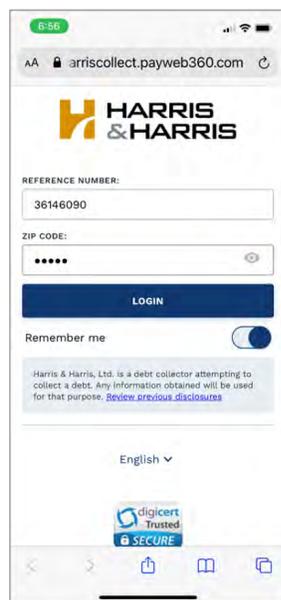

2. Work Plan for Providing Requested Services

Harris & Harris also offers additional modern self-service communication channels to provide support to debtors regarding questions they may have regarding their outstanding balances. These channels include:

MMS text messaging offers debtors the ability to communicate via mobile text. Our mobile messaging includes customized options to meet our call center needs and those of each client. Prior to receiving a message requesting payment, debtors will receive a text notifying them that additional messages will be sent. This message includes an opt-out method and is followed by the Harris & Harris logo, improving validation and authenticity. Messages provide links direct to the payment portal or telephone call center to enable the debtor to self-service or speak with a representative. All subsequent messages include opt-out language.

Our portals can be accessed through optimized mobile platforms that can be reached via QR code, text message link, or directly.

2. Work Plan for Providing Requested Services

3.5 COURT APPEARANCES

3.5 Court Appearances

3.5.1 *CONTRACTOR shall allow debtors to set a court appearance as directed by COUNTY/COURT. For example, on traffic failure to appear cases, a debtor retains the right to an arraignment/hearing. Therefore, upon request by a debtor, CONTRACTOR shall:*

- *Allow a debtor to schedule a court hearing, pursuant to COURT policy, on Traffic Failure to Appear accounts. For Civil Sanctions, Juror Sanctions, Child Custody Evaluations and Juvenile Dependency accounts direct the party to contact the Court.*

Agreed. Harris & Harris will fully train and staff the collection unit assigned to the County/Court to understand and acknowledge this option as a possible request to come from a debtor to the County/Court. We will customize scripts to guide the collection representative through processing this request to either schedule a court appearance on behalf of the debtor for the type of allowable account as cited above or to direct the debtor to contact the Court.

- *Schedule a court appearance on a day and time which has already been established by COURT (COURT will provide CONTRACTOR with dates and times for each location, as needed.)*

Agreed. Harris & Harris will use a schedule of dates and times as provided by the Court to schedule court appearances for each location. During implementation, we will discuss with the County/Court how soon and how often dates and times are known for each location (e.g., hourly, daily, weekly) and how best to convey that information to Harris & Harris such that we can access a real-time schedule during contact with debtors to schedule court appearances on their behalf.

- *CONTRACTOR will be responsible for transferring a data file electronically of all court dates and court locations to the court's case management systems.*

Agreed. Harris & Harris can readily submit at any interim desired by the County/Court (e.g., daily) a data file containing the dates, locations, and debtor phone numbers for a given interim (e.g., day) to the court's case management. During implementation, we can discuss and determine with the County/Court the protocols and process for this transfer, including but not limited to required interims (e.g., a daily transfer at end of day) and file formats. As with other interface capabilities, this transfer will be thoroughly tested prior to implementation. We will also identify this transfer as a contract deliverable and monitor its fulfillment for compliance.

- *If appropriate and with express debtor consent, CONTRACTOR may notify debtor of court date and account balance via text messaging.*

Agreed. As noted earlier, Harris & Harris offers text messaging capabilities as part of our Omni Channel communications strategy, and we are pleased to see that it can be an authorized means of reaching debtors. When appropriate and with prior documented debtor consent, we will exercise this capability to notify a debtor of their court date and account balance via text messaging.

- *Upon scheduling a court appearance, immediately suspend all collection activity until COUNTY/COURT notifies CONTRACTOR collection activity to be resumed.*

Agreed. As noted earlier, Harris & Harris will immediately cease collection activity at any point in the collection process if an account meets a predetermined status set by the County/Court. In this instance, we will add the scheduling of a court appearance as a qualifying status to suspend

2. Work Plan for Providing Requested Services

all collection activity until the County/Court notifies Harris & Harris that activity should be resumed. All status codes can be fully customized to align with the accounting and auditing processes of the County/Court.

- *Debtors who are referred with either Adjudicated Infractions/ Misdemeanors or Adjudicated Misdemeanors/Felonies accounts do not retain the right to an arraignment.*

Agreed. Harris & Harris agrees not to schedule debtors with the above-named accounts for a court appearance. We will add this protocol to the designated scripts for debtors requesting court appearances, and we will ensure that the scheduling technology used does not provide an option for these debtors to be scheduled as such. Should a debtor request an ability-to-pay hearing, Harris & Harris will refer the debtor directly to the Court.

3.6 DEBTOR FAILURE TO COMPLY WITH NOTICES OF DELINQUENCY & TELEPHONE CALLS

3.6 Debtor Failure to Comply with Notices and Telephone Calls

3.6.1 *Upon a Judicial Order from COURT, CONTRACTOR may initiate involuntary payment actions on debtors who fail to pay or establish a payment plan or satisfy their debt. COUNTY/COURT will provide a listing of types of accounts that are subject to involuntary payment actions.*

Agreed. As noted earlier in discussion of Phase 6 of our collection methodology, if all collection efforts have been exhausted on qualifying accounts and if authorized by the County/Court through a Judicial Order, Harris & Harris can initiate involuntary payment actions against debtors. Harris & Harris offers the legal services of **Arnold Scott Harris, P.C., Attorneys at Law**, an affiliated legal firm on premises in Chicago which under subcontract to Harris & Harris provides legal services to our clients. This unique relationship allows us to assist our clients with a full portfolio of services to recover revenue for our clients while operating within all federal, state, local, and industry guidelines and standards regarding debt collection and litigation practices.

Harris & Harris can initiate any and all approved legal remedies to recover debt, working through Arnold Scott Harris, P.C., Attorneys at Law and/or through our network of national credit and collection attorney firms when necessary. We understand the need to escalate collection efforts under certain circumstances, and we have the **capability to locate assets and effect recovery in all states and legal jurisdictions** through legal means including but not limited to issuing warrants, obtaining civil judgments, garnishment of accounts, serving levies on banks and other third parties, wage garnishment, and seizure of property, and filing for bankruptcies for both dischargeable and non-dischargeable debts.

3.6.2 *CONTRACTOR shall perform the following steps for recalcitrant debtors with accounts identified by COUNTY/COURT that are subject to involuntary payment actions that fail to establish a payment plan or satisfy their debt:*

- *Complete the required paperwork and obtain the appropriate court orders to enforce a civil judgment for the actions listed in this SOW.*
- *Institute one or more of the following actions:*
 - *Bank Levy*
 - *Wage Garnishment*
 - *Repossession of Property, including vehicle*
 - *Real Property Liens*

2. Work Plan for Providing Requested Services

Agreed. Upon initial notification from the County/Court, Harris & Harris will complete the required paperwork to begin enforcing a civil judgment against any qualifying account as judged and referred by the County/Court for involuntary payment action. Upon receipt of a Judicial Order (and Harris & Harris obtaining any other court orders required), Harris & Harris will deem the account as active for involuntary payment action and we will institute one or more of the cited actions as appropriate. As noted earlier, we have the **capability to locate assets and effect recovery in all states and legal jurisdictions** through legal means including but not limited to issuing warrants, obtaining civil judgments, garnishment of accounts, serving levies on banks and other third parties, wage garnishment, and seizure of property, and filing for bankruptcies for both dischargeable and non-dischargeable debts.

3.6.3 Any and all associated costs incurred in instituting the actions listed above shall be paid by the CONTRACTOR and reimbursed by the debtor upon collection of the debt. COUNTY/COURT will only pay commission on the referred amount and not on any associated collection costs.

Agreed. Harris & Harris has submitted a Cost Proposal for this solicitation with full acknowledgement and understanding that the County/Court will pay commission only on the referred amount of debt for these accounts and will not reimburse Harris & Harris for any other associated costs incurred in instituting involuntary payment actions. We acknowledge that it is our right and responsibility to instead seek reimbursement from the debtor as part of our collection of the debt.

3.7 ACCOUNT MANAGEMENT

3.7 Account Management

3.7.1 Withdrawal of Account

COUNTY/COURT reserves the right to withdraw any account whenever COUNTY/COURT deems such an action appropriate and necessary. Generally, COUNTY/COURT will withdraw an account that meets, but may not be limited to any one of the following conditions:

- ***Account referred in error***
- ***Account dismissed by a Judicial Officer***
- ***Debtor is incarcerated***
- ***Debtor is deceased***
- ***Account is referred to another agency for continued collection efforts***

Agreed. Harris & Harris acknowledges the right of the County/Court to withdraw any account as is deemed appropriate and necessary by the County/Court. As noted earlier in Phase 7 of our collection methodology, Harris & Harris will immediately cease collection activity at any time if the County/Court elects to cancel, de-assign, or recall an account for any reason, including but not limited to all of the conditions cited above.

3.7.2 COUNTY/COURT shall notify CONTRACTOR in writing, e-mail or other means of electronic messaging if such action is taken. Cases that are withdrawn from CONTRACTOR shall be removed from CONTRACTOR'S system within two (2) business days of receipt of notice from COUNTY/COURT. Accounts withdrawn shall be electronically transmitted from CONTRACTOR to COUNTY/COURT according to specifications by COUNTY/COURT.

- ***CONTRACTOR shall immediately cease all collection activity and close the account upon notice by COUNTY/COURT of withdrawal of the account. CONTRACTOR shall maintain a list of closed accounts.***

2. Work Plan for Providing Requested Services

Agreed. Upon notification from the County/Court of an account withdrawal, Harris & Harris will ***immediately*** (well within two business days of receipt of notification) cease collection activity, close the account and remove it from our system, and electronically return it back to the County/Court, along with a full report detailing all collection efforts, any contact made, and any updated contact information we may have obtained.

We will follow any standards for closure specified by the County/Court, and all status codes can be fully customized to align with the accounting and auditing processes of the County/Court. During the implementation phase of the contract, Harris & Harris will work with the County/Court to determine all specifications for returning these accounts and any other criteria to incorporate into the close and return process.

- ***COUNTY/COURT reserves the right to take actions deemed necessary to recover debt from an account that has been withdrawn from CONTRACTOR.***

Agreed. Harris & Harris acknowledges the right of the County/Court to take any actions deemed necessary to recover debt from a withdrawn account.

- ***In the event that COUNTY/COURT withdraws an account, CONTRACTOR shall have no claim or right to compensation on any outstanding balance subsequently recovered by COUNTY/COURT, one of their agents, or another service provider on such accounts.***

Agreed. Harris & Harris acknowledges that we have no claim or right to compensation for collections recovered by any other parties on accounts following their withdrawal from Harris & Harris.

3.7.3 Accounts Deemed Inactive/Uncollectible

CONTRACTOR shall at minimum, every ninety (90) days, evaluate each account and report so that COUNTY/COURT may make a determination as to how collection activity should continue.

Defining attributes that shall be reported to COUNTY/COURT by CONTRACTOR for accounts to be evaluated are:

- ***Missing or inaccurate contact information including phone number and address.***
- ***Missing or inaccurate driver's license number.***
- ***No contact with debtor for the past consecutive six months.***
- ***Inactivity and no payment on account for the past consecutive six months.***
- ***CONTRACTOR shall at minimum provide a monthly report to COUNTY/COURT on all accounts, including age of referral.***

Agreed. Harris & Harris offers the County/Court a collections platform (CUBS®) that provides a distinct and clear audit trail for our collection activity. ***Every event and characteristic associated with an account*** – whether a letter sent, telephone contact (both successful and unsuccessful), payment arrangements, payment received, and all attributes as defined in the requirement above – ***is recorded in detail and is available for both scheduled and ad hoc / on demand reporting*** on any schedule desired by the County/Court, including monthly. The system is extremely flexible and scalable and offers a robust suite of reporting tools to readily meet all reporting requirements.

Harris & Harris will provide through its reporting a ***monthly accounting*** – every thirty (30) days, on average, well within the sixty (60) day parameter – of our collection activity on each account such that the County/Court can determine how collection activity should continue. During implementation, we will discuss and implement with the determination and authorization of the

2. Work Plan for Providing Requested Services

County/Court all required reporting elements for this report, including the format, timing, and distribution of these reports.

We have included in the **Appendix** to our Technical Proposal a **Sample Reports** package that addresses a comprehensive spectrum of reporting needs, including sample monthly reporting. These samples – including the format and appearance – can be customized to meet the requirements and reporting needs of the County/Court.

- *In the event an account has been deemed inactive and returned to COUNTY/COURT, CONTRACTOR shall have no right to compensation on any outstanding balance subsequently recovered by COUNTY/COURT, one of their agents, or another service provider.*

Agreed. Harris & Harris acknowledges that we have no claim or right to compensation for collections recovered by any other parties on accounts that have been deemed inactive and subsequently returned by Harris & Harris to the County/Court.

3.7.4 Transfer of Accounts Deemed Inactive or Uncollectible

COUNTY/COURT reserves the right to take actions deemed necessary to recover debt from an account that has been deemed inactive or uncollectible, including, but not limited to referral of such accounts to the State of California Franchise Tax Board or other collection entity. Accounts requested to be returned shall be transferred back to COURT within 10 business days.

- *Accounts to be returned to COUNTY/COURT include, but are not limited to, the following:*
 - *Any account meeting the criteria in Section 3.7.3 “Accounts Deemed Inactive / Uncollectible”*
 - *Any account referred to CONTRACTOR for a period exceeding 12 months from the referral date that has not been transferred to FTB-COD pursuant to Section 3.7.4*
 - *Any account that CONTRACTOR has referred to FTB Interagency Intercept Collection pursuant to Section 3.7.5 that remains unresolved.*
 - *All accounts referred to CONTRACTOR for a period exceeding 12 months from the referral date that have no payment on the account for the past consecutive 90 days.*

Agreed. Harris & Harris acknowledges the right of the County/Court to take any actions deemed necessary to recover debt from an account that is deemed inactive or uncollectible, including but not limited to referral to the California Franchise Tax Board or other collection entity.

Upon notification from the County/Court of an account being deemed inactive or uncollectible and subsequently requested for return (as determined by account characteristics including but not limited to all those cited in the above requirement), Harris & Harris will **immediately** (well within the ten business day window) cease collection activity, close the account and remove it from our system, and electronically return it back to the County/Court, along with a full report detailing all collection efforts, any contact made, and any updated contact information we may have obtained.

We will follow any standards for closure specified by the County/Court, and all status codes can be fully customized to align with the accounting and auditing processes of the County/Court. During the implementation phase of the contract, Harris & Harris will work with the County/Court to determine all specifications for returning these accounts.

3.7.5 Transfer of accounts to Franchise Tax Board Court Ordered Debt (FTB COD)

- *CONTRACTOR shall have the capability to interface with the FTB COD Program.*

2. Work Plan for Providing Requested Services

Agreed. Harris & Harris can seamlessly interface with the FTB COD Program. We can send and receive data in any interim, in virtually any format, and in exchange with nearly any collection / accounting / case management system, whether by secure FTP, VPN, email, diskette, tape, data cartridge, or paper. Our technical personnel resources can readily adapt our programs at any time throughout the contract to accept, update, and process all records on hand from any system, no matter how common or how obscure. This includes acceptance of account information and transfer of account status changes and payment information and receipt confirmations for every transaction. Our technical personnel have implemented collection projects with many different client case management systems including a wide range of home grown legacy systems requiring Harris & Harris to provide custom programming to interface.

Account information may be transferred to the FTB COD Program by:

- FTPS – File Transfer Protocol over Secure Socket Layer (SSL)
- SFTP – SSH File Transfer Protocol
- FTP/PGP – File Transfer Protocol with PGP Encrypted File
- HTTPS - File Transfer via Secure Website

That said, we agree to still maintain responsibility for all itemized activities in the above requirement, including notifying by mail the affected debtors accordingly as described. During implementation, we will establish a data interface with the FTB COD (subject to approval by the County/Court and FTB COD) to electronically exchange information including payment information, for which we will both update our collection system and share this information with the County/Court in full alignment with 3.10 Transmission of Account Information.

Harris & Harris acknowledges that we will not be due compensation on accounts that are collected by the FTB COD, and in Court-approved cases we may refund to a debtor any over-collected amount received from the FTB COD. We also acknowledge that we will maintain financial responsibility for costs associated with programming identification, transfer and separate reporting of accounts referred to the FTB COD.

3.7.6 Collections Transfer of accounts to Franchise Tax Board Interagency Intercept Program (FTB TIP)

- *CONTRACTOR shall have the capability to interface with the FTB Tax Intercept Program (FTB TIP).*

Agreed. Harris & Harris can seamlessly interface with the FTB Tax Intercept Program. As noted earlier in our response to 3.7.5, we can send and receive data in any interim, in virtually any format, and in exchange with nearly any collection / accounting / case management system, whether by secure FTP, VPN, email, diskette, tape, data cartridge, or paper. Our technical personnel resources can readily adapt our programs at any time throughout the contract to accept, update, and process all records on hand from any system, no matter how common or how obscure. This includes acceptance of account information and transfer of account status changes and payment information and receipt confirmations for every transaction. Our technical personnel have implemented collection projects with many different client case management systems including a wide range of home-grown legacy systems that required Harris & Harris to provide custom programming to interface.

- **Upon referral of an account to the FTB Tax Intercept, CONTRACTOR shall remain responsible for the following:**
 - **CONTRACTOR shall electronically send and receive account information to FTB TIP in a format agreed upon by COUNTY/COURT and FTB TIP.**
 - **CONTRACTOR shall attempt and obtain debtor Social Security Number via skip tracing tools (e.g. LexisNexis).**
 - **Payment information received by CONTRACTOR from FTB TIP will be electronically transmitted by the CONTRACTOR to COUNTY/COURT. The CONTRACTOR will be responsible for updating the CONTRACTOR'S collection system and transmitting payment information to COUNTY/COURT using the process described in Section 3.10 – Transmission of Account Information.**
 - **CONTRACTOR shall mail a notice to the debtor advising them that the CONTRACTOR no longer is pursuing collections, and the account has been referred to FTB TIP.**

***Case volume provided is an estimate only. COUNTY/COURT does not guarantee any particular annual volume of accounts referred.**

Agreed. As previously noted, upon transfer of any account to the FTB Tax Intercept, Harris & Harris will **immediately** cease collection activity and we will send an electronic file update to the Court's collection management system to update the account's status accordingly, along with a full report detailing all collection efforts, any contact made, and any updated contact information we may have obtained.

That said, we agree to still maintain operational and financial responsibility for all itemized activities in the above requirement, including notifying by mail the affected debtors accordingly as described and continuing to skip trace affected accounts to obtain Social Security numbers where not already known. During implementation, we will establish a data interface with the FTB

Tax Intercept (subject to approval by the County/Court and FTB Tax Intercept) to electronically exchange information including payment information, for which we will both update our collection system and share this information with the County/Court in full alignment with 3.10 Transmission of Account Information.

Harris & Harris acknowledges that we will not be due compensation on accounts that are collected by the FTB Tax Intercept, and in Court-approved cases we may refund to a debtor any over-collected amount received from the FTB Tax Intercept. We agree to continue to schedule court dates and handle inquiries from debtors as necessary. We also acknowledge that we will maintain financial responsibility for costs associated with account placement to the FTB, locating Social Security numbers, and programming identification, transfer and separate reporting of accounts referred to the FTB Tax Intercept. We will also provide the Court with weekly reports of arraignment hearing schedules, which we will establish and monitor as a contract deliverable for this contract.

3.8 PROCESSING DEBTOR PAYMENTS

3.8 Processing Debtor Payments

3.8.1 Transfer of Funds

CONTRACTOR shall establish a separate bank account designated solely for processing debtor payments under the Contract and shall deposit all financial instruments (e.g., cash, checks, credit card remittances, etc.) received as debtor payments into this bank account (CONTRACTOR Bank Account). Each business day CONTRACTOR shall prepare an accounting of all debtor payments received on that day for specific litigation types, reconcile the account for any adjustments and transfer all funds into a designated COUNTY of Los Angeles Bank Account (COUNTY Bank Account) no later than 2:00 p.m. (PST) the following business day. For payments that cannot be transferred via the automated payment file and must be made via check, the CONTRACTOR shall transfer debtor payments for specified litigation types via check payable to the COURT once per month within five (5) business days of the end of the calendar month.

Agreed. All debtor payments collected for the Court will be deposited daily (business day) into an established client depository trust account specifically for this contract. The branch depository trust accounts are restricted so that funds may only be removed for transfer to the client. All collections are remitted from client trust accounts as per statute. For this contract with the County/Court, we agree that the daily transfer of funds to the designated bank account will occur no later than 2 pm PST on the following business day. We agree that for any payments that must be made by check instead of electronic transfer (e.g., specific litigation types), Harris & Harris will remit payment via a check payable to the Court once per month, within five (5) business days of the end of the calendar month.

- *Except where payments are unidentified, all payments shall be updated in CONTRACTOR'S computer system within one (1) business day.*

Agreed. Regardless of method or means of payment, upon receipt of an identified payment, each account is instantly updated in our computer system to provide real-time status of an account. As such, we affirm that all payments will be updated in our system well within the one (1) business day requirement.

- *CONTRACTOR shall have a process to determine unidentified cases (see Section 3.8.3 - Unidentified Payments).*

2. Work Plan for Providing Requested Services

Agreed. Harris & Harris offers the County/Court a defined process to determine unidentified cases. We have described this process in Section 3.8.3 as appropriate.

- *All financial instruments, except personal checks (see Section 3.8.6), shall be deposited in the CONTRACTOR Bank Account as soon as received but no later than the close of the business day of their receipt.*

Agreed. All debtor payments collected for the Court (except personal checks) will be deposited daily (same business day) into an established client depository trust account. We agree that all funds for this contract with the County/Court will be deposited as soon as they are received and no later than the close of the business day of their receipt.

- *COUNTY will establish and have sole ownership over the COUNTY Bank Account. CONTRACTOR shall not have the right to withdraw funds from the COUNTY Bank Account.*

Agreed. Harris & Harris understands and acknowledges the County's sole ownership of the County bank account, and under no circumstance would we nor will we attempt to withdraw funds from the account.

3.8.2 Automated Clearing House Transfers and Reporting

The Automated Clearing House (ACH) transfer must equal the sum of all the payments on the daily payment report which include unidentified payments, other collections not on the payment report, less non-sufficient funds check amounts for that date. The dates of the ACH transfer and payment report must match.

Agreed. Harris & Harris uses Automated Clearing House (ACH) for the electronic transfer of funds. EFT transmittals are always accompanied by a remittance report. Harris & Harris will prepare and submit each business day a **Remittance Report**, or Payment Report. Each report will have been fully reconciled by our accounting department such that the sum of all payments listed (including unidentified payments and other collections not on the payment report, less NSF check amounts) will always equal the amount transferred via ACH in the County bank account.

Whether in electronic or hard copy form, our standard remittance report includes a detailed report of all relevant account data including but not limited to a copy of the bank deposit total and itemization by debtor name, debt account numbers, amount, NSF occurrences, and date and location collected. All remittance statements can and will be customized to meet the needs of the Court.

Our Payment Posting Report is a listing of all payment activity posted on accounts. Payment processing personnel generate this report each day prior to the end of each business day. Control totals on the Payment Posting Report must agree with the control totals on the Daily Payment Reconciliation form and the Payment Batch Control Log.

Harris & Harris maintains stringent check-and-balance policies and procedures to ensure accuracy:

- between total amount of payment instruments and posting total
- between posting total and deposit total
- between deposit total and bookkeeping total
- between posting transaction total (include negative reversals) and statement total

2. Work Plan for Providing Requested Services

- between the date of the ACH transfer and the date of the payment report
- between statement total to our remittance (wire amount or ACH, or check payment)

Remittance reports are generated on either a “gross remit” or “net remit” basis based on the business needs of our clients.

3.8.3 Unidentified payments

Unidentified payments are those that the CONTRACTOR is unable to determine debtor identity (e.g., debtor mails payment to CONTRACTOR and does not provide identifying information). Unidentified payments received by CONTRACTOR shall be deposited daily into the CONTRACTOR Bank Account and ACH transferred into the COUNTY Bank Account.

- *CONTRACTOR shall attempt to identify all unidentified payments within the thirty (30) calendar days of payment being received. If the CONTRACTOR cannot identify payment(s), the CONTRACTOR shall, by the fifth (5) business day of each following month, provide COUNTY/COURT with a report listing unidentified payments and attach any documents received with the payment (e.g., mailing envelope, enclosures). CONTRACTOR shall not issue any refunds on unidentified cases.*

Agreed. All payments that the payment processor cannot match with an account will be posted to a special account specifically for unidentified items. The physical check will be accounted for and deposited with the current day's receipts into our designated trust account for ACH transfer to the County bank account. For the next thirty (30) calendar days following receipt, the payment processor will attempt to identify the correct account (using a copy of the check) by performing additional account inquiries, telephoning the sender of the payment, and writing follow-up letters to the debtor to validate the account if there is any information on the check to perform these activities.

If a payment can be identified, it is reversed from the unidentified account and posted to the proper debtor account. If it cannot be identified, Harris & Harris will provide the County/Court with a report of unidentified payments, to include any supporting documentation from receipt of payment, by the fifth (5th) business day of each following month. During implementation we will discuss and determine the format, appearance, and other aspects to be incorporated into the unidentified payments report, and we will include this report in our standard reporting package and as a scheduled deliverable for the contract.

- *CONTRACTOR shall not receive compensation on unidentified cases.*

Agreed. Harris & Harris acknowledges that we will neither invoice for nor receive compensation on unidentified cases.

3.8.4 Incorrect Account Payments and Adjustments

On cases where CONTRACTOR applies payment to an incorrect account or case, CONTRACTOR shall provide COUNTY/COURT with a daily report listing the correct case where the payment should be applied. If payment should be refunded, CONTRACTOR shall provide supporting documentation.

Agreed. Harris & Harris has read, understands, and agrees to comply with the entirety of this requirement and its protocol regarding Harris & Harris applying payments to an incorrect account/case, including documentation in a daily report of the correct case to have applied the payment. In all instances including cases where payment should be refunded, Harris & Harris will provide supporting documentation.

2. Work Plan for Providing Requested Services

- *If CONTRACTOR transfers funds that are determined not to belong to a COUNTY/COURT referral, the CONTRACTOR shall provide documentation and submit a written request for refund.*

Agreed. Harris & Harris has read, understands, and agrees to comply with this requirement. Should Harris & Harris transfer non-County/Court funds to the County/Court, we will submit a written request for refund and provide supporting documentation for the request.

- *If CONTRACTOR believes that an adjustment to the COUNTY Bank Account is necessary, CONTRACTOR shall inform COUNTY/COURT of the following:*
 - *The amount in dispute*
 - *The reasons for the adjustments*
 - *Copies of any documentary evidence that supports CONTRACTOR'S claim*

Agreed. Harris & Harris has read, understands, and agrees to comply with the entirety of this requirement regarding possible adjustments to the County bank account. In such cases, we will immediately inform the County/Court of the amount in dispute and the reason(s) for adjustment, to include any supporting documentation.

3.8.5 Cashier Variances / Discrepancies in Amounts Collected and Received

CONTRACTOR shall be responsible for all cashier variances, losses and other discrepancies between amounts collected and received by CONTRACTOR, such as shortages, counterfeit bills, etc. CONTRACTOR shall reimburse COUNTY/COURT for cashier variances, losses and any other discrepancies between amounts collected and received by CONTRACTOR on the day of collection.

Agreed. Harris & Harris accepts all responsibility for cashier variances, losses, and other discrepancies between the amounts we collect and receipt on behalf of the County/Court, including but not limited to shortages and the receipt of counterfeit bills. We agree to immediately reimburse the County/Court for all discrepancies accordingly on the day of collection and processing.

3.8.6 Personal Check / Credit Card Verification

CONTRACTOR shall hold all personal checks received for five (5) days prior to transmitting payment to the COURT to determine whether the personal checks submitted by debtors are valid and are covered by sufficient funds. CONTRACTOR shall obtain verification or authorization for every credit card transaction submitted by a debtor.

Agreed. Harris & Harris regularly uses verification and authorization services **for every debtor payment for every client for instances of payment by personal check or credit card.** We agree to use these services for every payment by personal check or credit card to be processed throughout this contract with the County/Court.

3.8.7 Returned Checks

In the event a debtor submits a personal check that is returned to CONTRACTOR Bank Account as non-sufficient fund checks ("NSF"), or because the checking account is closed, CONTRACTOR shall attempt to recover those funds. If CONTRACTOR is unable to recover the funds within thirty (30) calendar days, CONTRACTOR may then recover monies on a Deposit Reconciliation by listing the NSF amount(s). The CONTRACTOR may assess a returned check fee to the check writer not to exceed \$25 dollars.

CONTRACTOR shall submit to COUNTY/COURT a detailed NSF report by individual court locations that includes, at minimum, the following:

2. Work Plan for Providing Requested Services

- *Defendant name*
- *Citation/Case number*
- *NSF amount*
- *Receipt number*

Agreed. When we receive notification of a non-sufficient funds (NSF) from a check payment or that an account is closed, our business office immediately alerts the collection managers. The account that generated the NSF is flagged in the system, and the payment credit is reversed. The collection representative assigned to the account attempts to contact the debtor at once, calling a minimum of two times a day until they establish contact and recover funds. If we are unable to recover the funds within thirty (30) calendar days, we acknowledge and appreciate the options to recover monies via a Deposit Reconciliation and to assess a returned check fee not to exceed \$25.

The collection manager will track the progress of the account via collector notes and system reports, ensuring that every effort is made to obtain reliable payment. Harris & Harris will submit to the County/Court a detailed NSF report by individual court locations that includes at a minimum all of the information cited above. During implementation, we will discuss and determine with the County/Court the format, appearance, timing, and other aspects of the NSF report, and we will incorporate it into the reporting package to be provided to the County/Court under this contract.

3.8.8 Credit Card Fees, Collection Costs, etc.

CONTRACTOR shall not pass any other additional fees not referred by COUNTY/COURT (e.g., collection costs, check verification fees, credit card fees, etc.) on to the debtor or COUNTY/COURT with one exception:

- ***Any associated costs incurred by the CONTRACTOR in instituting the involuntary payment actions listed in Section 3.6.2 may be passed on to the debtor.***

Agreed. Harris & Harris has read, understands, and agrees to comply with the entirety of this requirement, affirming that we will not pass on additional fees to either the debtor or the County/Court except in the case of the one cited exception.

3.8.9 Segregation of Accounts

The CONTRACTOR shall segregate all accounts referred by COUNTY/COURT from all other CONTRACTOR accounts (see Section 3.8.1 – Transfer of Funds). All information relating to the accounts referred and assigned shall be kept confidential and shall not be open to examination for any purpose not directly connected with the servicing of the accounts by the CONTRACTOR.

Agreed. Protecting the data of our clients is paramount at Harris & Harris. We maintain an Information Security Policy that ultimately ***restricts access to programs, data and other information resources***, such that only account representatives assigned to this contract with the County/Court can access it solely in service of the account. Privileged access rights to the AIX Operating System are approved by senior management. Primary logical access control to the AIX server is provided by security provisions of the AIX operating system, which includes access to data, programs, and system utilities. The system security level requires a unique user ID and password for sign-on. Password management controls at the network and operating system layers (e.g., minimum length, expiration requirements, complexity, etc.) have been implemented in compliance with corporate security standards.

2. Work Plan for Providing Requested Services

Users are restricted by their user profiles to an initial program which directs them to the CUBS® application. Application-level security is provided by Columbia Ultimate and is administered by the IT Department. **System files, utilities, authorization lists, data files, and application programs are restricted through the user's AIX profile.** Users do not have update or delete access to sensitive files. Access rights are removed or modified as necessary if/when employees change job functions. Be assured that all accounts referred by the County/Court will be fully segregated to ensure secure and rightful access and the integrity and confidentiality of all debtor information contained within.

The CONTRACTOR must track accounts by court locations and category of account. (Refer to Section 1.3.1 – Referral Data).

Agreed. Harris & Harris will create multiple client numbers as necessary to segregate accounts by category and by court location as desired by the County/Court. Many of our clients have requested or have required similar categorical tracking and reporting (e.g., separate client numbers for accounts for placements from new systems vs. legacy systems), and we program and thoroughly test these system capabilities prior to implementation. We also can segregate statements and remits per the specific client number. During implementation, we will discuss and determine with the County/Court the full scope of tracking and reporting capabilities required – including but not limited to the parameters in this requirement – and we will create and test that tracking accordingly, with the full review and approval of the County/Court prior to the contract start.

3.8.10 Internal Control Procedures for CONTRACTOR Staff at Court Locations

3.8.10.1 Cash handling and record keeping duties shall be appropriately separated by assigning different CONTRACTOR staff responsible for each duty. Any cash received should be receipted immediately and put in a safe or other secured location.

Agreed. Our payment processing is carefully controlled and supervised by our controller and accounting manager to ensure immediate and accurate recording and receipting of all payments, secure handling of all cash, and instant posting and deposit of all payments daily. The posting unit is separate from all collection and operational areas, and controls are in place by upper management to track and monitor by hour the status of all posting and cash handling.

On-premises collection representatives are in the call center and are not allowed access to the business offices or technology areas. All payment handling, employee work surfaces, and the safe are monitored and recorded via digital camera recording. Payment processing is performed in a secure payment processing room that has the following security features:

- Biometric lock access by fingerprint recognition
- Authorized individuals are limited to those critical to the processing operation
- Motion sensors are employed throughout the area and are operational 24/7/365

Our payment processing is carefully controlled and supervised by our Controller and Chief Financial Officer to ensure accurate recording of all payments, secure handling of all cash, and instant posting and deposit of all payments on a daily basis.

The posting unit is separate from all collection and operational areas, and controls are in place by upper management to track and monitor the status of all posting and cash handling. The following procedures are followed:

2. Work Plan for Providing Requested Services

- Team members of the posting staff work in tandem to sort all incoming mail
- Team members are members of our staff with tenure, and this responsibility is rarely shifted
- If these duties are reassigned, the employees must have a minimum of three years' tenure with Harris & Harris,
- To ensure all payments are documented, each employee runs a total of all payments within the batch
- The supervisor verifies that the totals
- All batched mail that is not distributed for immediate processing is kept locked in a fireproof safe in the Controller's office
- All hard copies of the batch control sheets and posting key-in sheets are maintained in a secure area within the Controller's office
- All cash, checks, money orders, cashier's checks, and deposit slips are placed in the safe until the daily deposit is made.

3.8.10.2 *CONTRACTOR shall restrictively endorse all checks and money orders when the mail is opened each day. Immediately after receiving, payments shall be logged into a Control Log showing the date of payment, payment instrument (e.g., check, money order, cash), debtor's name, amount received, case number (if available) and number of the payment instrument. The Control Log is reviewed and signed by an employee with supervisor rank or greater. Payments should be posted immediately to the CONTRACTOR computer system and a system generated receipt report is reviewed and signed by a supervisor matching to the Control Log. The actual checks and money orders should be locked in a secure location with restricted or limited access until deposited during or at the end of the day. This location should remain locked during the day. Two (2) independent adding machine tapes, or other verification approved by COUNTY/COURT, should be run on the receipts and compared to actual cash and checks, and initialed by the two (2) mail openers.*

Agreed. Harris & Harris has read, understands, and agrees to comply with the entirety of this requirement. We will employ both a **Payment Reconciliation Process** and the above-mentioned cash handling and posting protocols to open mail and log and post payments in full compliance with and incorporation of all requirements above, including maintaining a separate Control Log which will ultimately be reviewed and signed by authorized personnel and reconciled against a receipt report. Our process and protocols already provide for two (2) mail openers and two (2) accounts of reconciliation on adding machine tape. All cash, checks (including all unidentified, post-dated, and NSF checks), money orders, cashiers checks, and deposit slips are carefully accounted for and subsequently placed in the safe in an additionally locked location until the daily deposit is made.

3.8.10.3 *All walk-in payments shall be receipted in the presence of the debtor by a CONTRACTOR employee who does not have the ability to post collections to debtor accounts.*

Agreed. Harris & Harris payment windows at all court locations will be staffed by clerical personnel who can accept and receipt payments but who otherwise do not have account access to post collections to debtor accounts.

3.8.10.4 *Mail and walk-in payments shall be picked up by a CONTRACTOR employee for deposit in accordance with section 3.8.1, who does not have cash handling duties or access to accounting records. This requirement can also be satisfied by the use of a private courier service*

2. Work Plan for Providing Requested Services

to pick up the mail and walk-in payments, which is to be arranged by the CONTRACTOR. CONTRACTOR shall not use COURT courier services. Mail should be opened by at least two (2) employees in order to document and verify the amount of mail payments. These employees should not have access to accounting records or be collectors.

Agreed. Harris & Harris will further ensure the integrity of our collections accounting by arranging for and assigning an employee (or private non-Court courier service) who does not have cash handling duties or access to accounting records to pick up mail and walk-in payments. Also as noted in our response to 3.8.10.1, the assigned payment processing team members work in tandem to open mail and document and verify the amount of individual mail payments. We confirm that as payment processing team members, these employees are not collection representatives and do not have access to accounting records.

3.8.10.5 CONTRACTOR shall use receipts that are electronically system generated and controlled but in the event of system incapacity, offer pre-numbered, multi-part forms with copies for the debtor, accounting offices and one retained as a control copy. Each copy must be marked for distribution. Receipts are to be issued by CONTRACTOR'S clerical/administrative staff not by CONTRACTOR'S collectors.

- ***Issued receipts shall be numerically controlled and kept in a secure place. Office management staff should maintain accountability for all receipt stock and all used and voided receipts.***
- ***A copy of the receipt must be given to the debtor by the CONTRACTOR'S clerical/administrative staff not by CONTRACTOR'S collectors. Signage should be posted in English and Spanish instructing the debtor to request and obtain a receipt from clerical/administrative staff.***
- ***Receipts shall be used in numerical order.***

Agreed. Harris & Harris has read, understands, and agrees to comply with the entirety of this requirement for both electronic and hard copy receipts. All receipting documents will be multi-part, pre-numbered, and used in sequential order accordingly. As noted earlier, receipts will be issued by clerical personnel (not collection representatives) who can accept and receipt payments but who otherwise do not have account access to post collections to debtor accounts. Our office management staff will keep all receipting documents in a secure and locked location under multiple levels of security (e.g., locked safe within a locked room). We also agree to clearly post signage in English and Spanish to instruct and encourage all paying debtors to request and obtain a receipt from our clerical staff.

3.8.10.6 All cash is to be secured and the receipt used for posting purposes. Unidentified, post-dated and NSF checks shall be accounted for and listed on a separate log that provides a complete audit trail from receipt to disposition.

Agreed. Throughout this section, Harris & Harris has confirmed our various abilities and protocols for these actions. All cash, checks (including all unidentified, post-dated, and NSF checks), money orders, cashier's checks, and deposit slips are carefully accounted for and subsequently placed in the safe until the daily deposit is made. In the case of unidentified, post-dated, and NSF checks, we will maintain a separate log that documents every action and event that occurs from initial receipt to final disposition to ensure a complete audit trail for the County/Court.

Our payment processing is carefully controlled and supervised by our controller and accounting manager to ensure immediate and accurate recording and receipting of all payments, secure handling of all cash, and instant posting and deposit of all payments daily. The posting unit is

2. Work Plan for Providing Requested Services

separate from all collection and operational areas, and controls are in place by upper management to track and monitor by hour the status of all posting and cash handling.

3.8.10.7 *CONTRACTOR'S office management staff shall reconcile the amount of mail and walk-in payments to the total deposit each day. The office management staff shall receive one (1) copy of the mail payment's tape and the amount of walk-in payments and compare them to the amount of the daily deposit slips and the post-dated and unidentified check logs.*

Agreed. We present below our **Payment Reconciliation Processes** that fulfill the entirety of this requirement.

PAYMENT RECONCILIATION PROCESSES

After all the payments (including walk-in and by mail) are posted for a given day, the payment processor completes the Daily Payment Reconciliation form. The three important control totals are compared to the respective deposit/report, and any discrepancies are resolved. A copy of the form, signed by the payment processor and the payment processing manager, along with a copy of the deposit slip, are sent to the controller.

Payment Batch Control Log

Payment Batch Control Log contains control totals, which must agree with the control totals on the Daily Payment Reconciliation form and the Payment Posting Report. This procedure is supervised by the controller and the accounting manager.

Payment Posting Report

The Payment Posting Report is a list of all payment activity posted on accounts. Payment processing personnel generate this report each day prior to the end of the business day. Control totals on the Payment Posting Report must agree with the control totals on the Daily Payment Reconciliation form and the Payment Batch Control Log.

Bank Account Reconciliations

The Harris & Harris Accounting Department reconciles all depository trust and remitting trust bank accounts monthly. Part of this reconciliation process includes the reconciling of amounts posted to the amount deposited. Every discrepancy uncovered is promptly resolved.

Verification of Data

Harris & Harris maintains stringent check-and-balance policies and procedures to ensure accuracy:

- between the total amount of payment instruments and posting total
- between posting total and deposit total
- between deposit total and bookkeeping total
- between posting transaction total (include negative reversals) and statement total
- between statement total to our remittance (wire amount or ACH, or check payment)

Our payment processing is carefully controlled and supervised by our controller and accounting manager to ensure accurate recording of all payments, secure handling of all cash, and instant posting and deposit of all payments daily. The posting unit is separate from all collection and

operational areas, and controls are in place by upper management to track and monitor by hour the status of all posting and cash handling.

3.8.10.8 *CONTRACTOR shall submit written internal control procedures to COURT PM prior to commencement of contract. Written internal control procedures shall be maintained and periodically updated as necessary. CONTRACTOR personnel shall at least annually be instructed in said procedures. Office management staff shall continuously monitor operations to ensure compliance therewith. New employees shall be instructed within the first two (2) weeks of hire.*

Agreed. During implementation and prior to commencement of contract, Harris & Harris will submit an omnibus of our written internal control procedures to the Court Project Manager for review and approval. All Harris & Harris personnel engaged in the activities of this contract will receive annual training and instruction, including new employees who will receive this training (as part of their client training) during the first two (2) weeks of their three-week new hire training. Our accounting manager, controller, and chief financial officer will continuously monitor operations through ongoing reconciliation processes and their physical proximity to the target areas requiring internal control, backed by the ongoing monitoring and surveillance of our compliance department.

3.9 Debtor Services

3.9.1 Telephone Services

CONTRACTOR shall provide a toll-free telephone number (e.g., 800 area code, etc.) so that debtors may be able to:

- *Obtain information on the debt, such as status, amount due, payment options, etc.*
- *Schedule a court appearance*
- *Remit payment*
- *Establish a payment plan*

Agreed. Harris & Harris will provide the County/Court with a dedicated toll-free number for debtors to access their account and commence any number of actions including but not limited to all the actions cited above.

Our **Interactive Voice Response System (IVRS)** within our CUBS[®] collection platform provides multiple features to aid the call center in recoveries. It provides an automated, 24/7/365 interactive voice messaging system that lets the account holder easily access all their account information and access functionalities to schedule/remit payments over the phone and/or establish a payment plan. Harris & Harris can also implement a quick, effective, and customer-friendly IVR payment solution for the County/Court to include the additional functionality of scheduling a court appearance. Account holders who call a dedicated toll-free number provided by Harris & Harris will hear an automated message welcoming them to the bill payment center, and clear, easy-to-understand menus will guide them to access the functionality(ies) they need.

CONTRACTOR shall provide an option that offers multilingual translation services in Spanish, Armenian, Chinese Mandarin, Korean and Vietnamese, provided by either multilingual collection staff and/or third-party services (e.g., Certified Languages, Inc.).

Agreed. As cited earlier in our response to 3.3.5, Harris & Harris understands the necessity to speak with debtors in their native language. We always want to ensure that debtors fully understand their obligation, the repercussions of not resolving the debt, and their options for payment.

2. Work Plan for Providing Requested Services

To that end, we employ multilingual collection representatives who can speak fluently in all common languages that we encounter, including Spanish, French, and German. For other languages such as those cited in the requirement, we utilize a **professional translation service**, allowing us to speak effectively with any debtor at any time. Spanish speaking debtors are by far the majority of our second language debtors. We staff each of our collection units with a minimum of 25 percent Spanish/English bilingual collectors. Based on the demographics of the debtor mix, our bilingual staffing is as high as 66 percent to ensure the ability to penetrate all account placements. We constantly adjust our staffing to match the debtor-mix pool in each unit.

CONTRACTOR shall also provide a toll-free telephone number (e.g. 800 area code, etc.) for the hearing impaired with a telecommunication device (TTY/TDD) that offers the services specified above.

Agreed. Also as cited earlier in our response to 3.3.5, Harris & Harris offers the County/Court direct experience with and established accommodation and capacity for working with hearing-impaired debtors who require the use of a TTY/TDD service. We can and will establish a toll-free number specifically for the hearing impaired as described and can readily accommodate TTY/TDD communication. If we receive an incoming call from a hearing-impaired debtor via live operator/translator, our representatives are trained to obtain proper authorization from the debtor before discussing the debt. Since these calls typically last longer than an average collection call, incoming TTY/TDD calls will be transferred to the floor supervisor.

CONTRACTOR'S telephone services shall be available 24 hours a day, 7 days a week.

Agreed. Beyond the telephone services available during the standard business hours of 8 am to 9 pm Pacific Standard Time (PST) Monday through Friday and 8 am to noon on Saturday for this contract, our **Interactive Voice Response System (IVRS)** provides an automated, 24/7/365 interactive voice messaging system that enables the debtor to easily access all their account information as well as functionalities to schedule/remit payments over the phone, establish a payment plan, and/or schedule a court appearance. Our IVR enables County/Court debtors to act on their account at any given time.

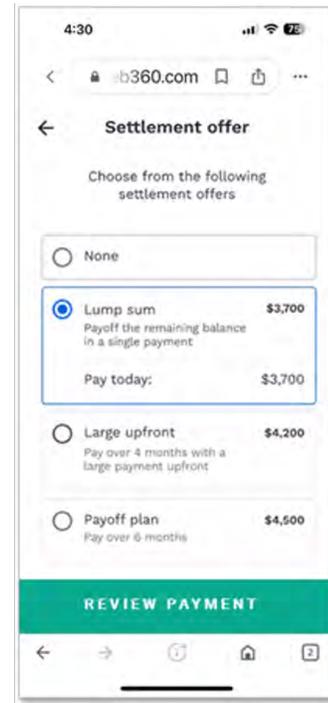

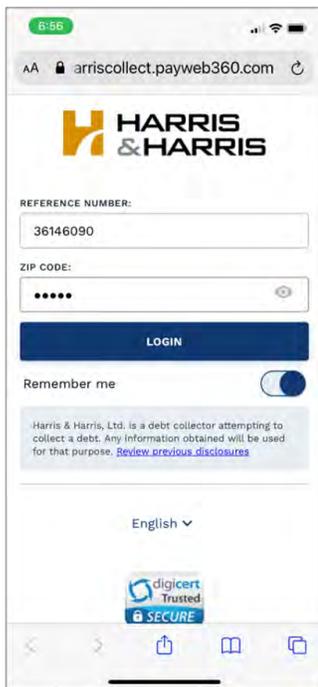

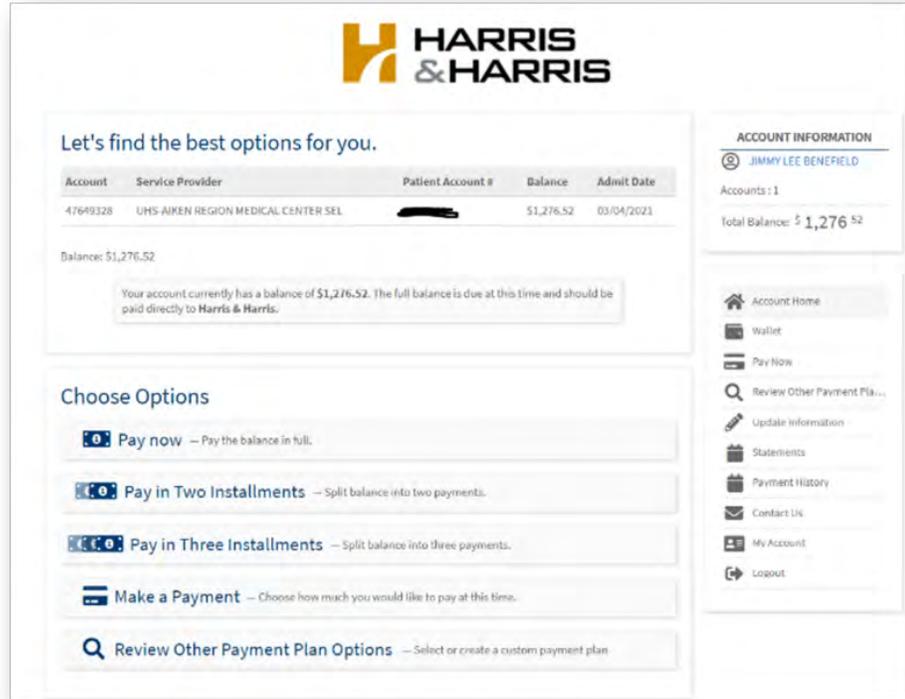

3.9.2 Internet Services

CONTRACTOR shall create and maintain a comprehensive website that allows a debtor to create and update a personal account profile(s), make payment(s), enter into installment payment plans and check balance(s) via the internet on the CONTRACTOR'S website.

Agreed. Harris & Harris maintains its main Web site at www.harriscollect.com, with a direct link on the home page for debtors to the **Online Payment Portal** to access and take action on their account, including but not limited to making payments, checking balances, setting up payment plans, and scheduling court appearances.

2. Work Plan for Providing Requested Services

Our portal can be accessed through optimized mobile platforms, enabling debtors to easily fulfill their obligations using their mobile devices. These platforms offer the convenience of setting up payment plans that align with pre-established parameters established by the Court. Debtors can access the portal via QR code, text message link, or directly.

COUNTY/COURT shall approve the website's form, functionality and available content and CONTRACTOR shall make programming changes and updates at the direction of COUNTY/COURT. CONTRACTOR'S website shall maintain full compliance with applicable statutes and guidelines.

2. Work Plan for Providing Requested Services

Agreed. We acknowledge the right of the County/Court to approve the form, functionality, and available content of the portion(s) of our site regarding the County/Court and its debtors. During implementation with the County/Court, we will develop and test the technical links between the respective sites. We will also determine the most strategic, appropriate, compliant, and debtor-friendly placement and visual presentation for these links.

CONTRACTOR and COUNTY/COURT shall develop and maintain a website link between COUNTY/COURT and CONTRACTOR'S website.

Agreed. Harris & Harris maintains a singular and sometimes reciprocal Web site presence via text or icon links with many of its clients. During implementation with the County/Court, we will develop and test the technical links between the respective sites. We will also determine the most strategic, appropriate, compliant, and debtor-friendly placement and visual presentation for these links.

3.9.3 Business Office/Call Center Locations and Services

CONTRACTOR shall have at least one (1) fully operational business office by the end of the Transition Period (see Section 4.0 – Implementation of Service). The business office/call center shall be open Monday through Friday from 6:00 a.m. through 7:00 p.m. PST. In addition, the business office/call center shall be open from 6:00 a.m. through 12:00 p.m. PST on Saturdays, and shall offer the following services which allow debtors to:

- ***Obtain information on the debt, such as status, amount due, payment options, etc.***
- ***Schedule a court appearance***
- ***Establish a payment plan***
- ***CONTRACTOR shall provide multilingual translation in Spanish, Armenian, Mandarin Chinese, Korean and Vietnamese by own staff and/or third-party service (e.g. Certified Languages, Inc., etc.).***

Business office/call center hours may be modified with the approval of the County/Court.

Agreed. Harris & Harris already maintains fully operational business offices in Chicago, Illinois; Detroit, Michigan, and Coppell, Texas. This project will be executed from our combined corporate office and call center in Chicago. By the end of the transition period, we will have trained personnel ready to staff all requested court locations. These trained staff members will:

- be available to accommodate debtors on the days described above, and for the full respective timeframes, with acknowledgement that hours may be modified with the approval of the County/Court
- offer the full portfolio of debtor capabilities required by the County/Court, including but not limited to:
 - obtaining information on the debt
 - scheduling a court appearance
 - establishing a payment plan
- offer full support of multilingual translation capabilities as accommodated both through staffing and via professional translation services.

3.9.4 Debtor Refunds – Issuance and Determination of a Debtor Refund & Collection Fees on an Account when Monies are Refunded

COURT has the sole authority to issue debtor refunds and determine whether a refund is due. If CONTRACTOR believes that a refund should be issued to a debtor, CONTRACTOR shall provide COUNTY/COURT with the following information:

2. Work Plan for Providing Requested Services

- *The debtor's name, receipt and account numbers*
- *The amount in dispute*
- *The reasons for the refund*
- *Supporting documentation*
- *COUNTY/COURT will not compensate CONTRACTOR for services in the event COUNTY/COURT refunds the entire amount of collected money to a debtor (see Section 3.13.3 - Invoices which include Account NSF Checks, or Account with a Debtor Refund).*
- *In the event of a partial refund, the Collection Fee shall be adjusted to the amount of collected money retained by COUNTY/COURT.*

Agreed. Harris & Harris acknowledges the sole authority of the Court to issue refunds. We have read, understand, and will readily follow this protocol upon our determination that a refund might be due to a debtor. We understand and acknowledge that compensation to Harris & Harris is altogether forfeited should the County/Court refund the entire amount to the debtor; similarly, we acknowledge that in cases where a partial refund is granted, the collection fee due to Harris & Harris will be adjusted and based on the amount of collected money that is retained.

3.9.5 Customer Service

3.9.5.1 Complaints

- *The term "complaint" refers to any written, electronic or verbal protest lodged by a debtor, which alleges that CONTRACTOR, or one of its employees, engaged in inappropriate, unfair or harsh method(s) of collection, or conduct.*

Agreed. Harris & Harris acknowledges the definition of "complaint" for this contract.

- *In the event CONTRACTOR receives any verbal complaint, the CONTRACTOR shall immediately notify the COURT PM by telephone or email. The verbal notification shall be followed up in writing within three (3) business days.*

Agreed. Harris & Harris agrees to ***immediately*** notify the Court Project Manager by telephone or email upon receipt of a verbal complaint. Harris & Harris will then follow up with the Court Project Manager in writing within three (3) business days.

- *In the event the CONTRACTOR receives any written complaint, the CONTRACTOR shall immediately notify the COURT PM by telephone or email. The CONTRACTOR shall provide the COURT PM with a copy of any written complaint within three (3) business days of receipt.*

Agreed. Similarly, Harris & Harris agrees to ***immediately*** notify the Court Project Manager by telephone or email upon receipt of a written complaint. Harris & Harris will then provide the Court Project Manager with a copy of the written complaint within three (3) business days of receipt.

- *CONTRACTOR shall promptly investigate all complaints and provide a written report to the COURT PM regarding the disposition of each verbal and written complaint within fourteen (14) business days of receiving the complaint. At minimum the report shall include the following:*
 - *A copy of the complaint (if applicable)*
 - *Identification by name of CONTRACTOR employee(s)*
 - *Results of the investigation*
 - *A statement describing the corrective action taken to resolve and avoid a reoccurrence of such a complaint, if applicable*
 - *A response letter to the customer when directed by the COURT PM, if applicable*

2. Work Plan for Providing Requested Services

Agreed. Harris & Harris acknowledges that we will promptly investigate all complaints and provide a written report to the Court Project Manager regarding the disposition of every verbal and written complaint within fourteen (14) business days of receiving the complaint. This report will include but not be limited to all the content items cited in the requirement above. During implementation with the Court, we will discuss and determine all content to be included as well as other facets (e.g., format, appearance), and we will identify and schedule it as a deliverable and incorporate it into the standard reporting package to be provided to the Court.

Harris & Harris recognizes that the potential for debtor concerns is inherent in the performance of collection tasks on any given day, with any given debtor. We take all concerns and issues very seriously and view them as an opportunity to further improve our processes and approach. We strive to keep clients fully informed regarding any complaint received, including the details of the encounter, the corrective actions taken, and the recording of the actual call.

Harris & Harris collection representatives are trained to escalate telephone calls with debtors in a variety of instances. For example, the debtor might have a question that the collector cannot answer, or the debtor might be upset with the collection situation. The collector has several options to obtain assistance for these calls:

- The call may be transferred to our Customer Service Department if the debtor's issues would be better answered by a customer service representative.
- The collector may request that a supervisor join the call.
- The collector may transfer the call to a supervisor.

Supervisors may escalate a call to their manager by requesting that the manager assist with the call. Harris & Harris will always attempt to resolve debtor issues directly and as appropriate without the need to involve the Court. We realize that this is not always possible, and we will modify our process to include all Court-specific call escalation procedures. The collection unit dedicated to the Court will be trained on these specific procedures.

After the issue has been resolved, the Collection Supervisor will schedule a follow-up meeting with the representative to discuss the details of the encounter and identify ways that the representative can improve performance and avoid future conflicts. The supervisor will review the nature of the complaint and will determine whether the representative requires additional training.

- ***CONTRACTOR shall also maintain a Complaint Tracking Log (Attachment A) and a system to track complaints to the individual accounts and CONTRACTOR employee(s) handling the account. CONTRACTOR shall provide copy of the log to the COURT PM each month covering the prior month's activities.***

Agreed. Harris & Harris agrees to maintain a **Complaint Tracking Log** consistent with Attachment A and we agree to provide a copy of this log to the Court Project Manager each month for the prior month's activities. During implementation with the County/Court we will discuss and determine factors such as when to submit this report, and we will identify and schedule it as a deliverable and incorporate it into the standard reporting package to be provided to the County/Court.

Our **ManageEngine** system monitors and tracks any operational and complaint issues from the moment they are identified through resolution. ManageEngine ensures that Harris & Harris clients receive superior customer service by ensuring **every question or problem receives**

2. Work Plan for Providing Requested Services

real-time management attention and remains available for trend evaluation. The system is based on a documented, orderly, and functional platform where every concern is documented, corrective action taken, and business practices altered to prevent reoccurrence. Automated emails are sent communicating the issue to teams affected and to those involved in the resolution process. Automated email notifications also remind users of newly assigned issues and due dates to ensure quick and orderly responses.

3.9.6 Dispute of the Outstanding Balance

In the event a debtor disputes the bail on an Infraction/ Misdemeanor with Unadjudicated Bail, CONTRACTOR shall verify the case records with the Revenue Enhancement Unit and upon verification, continue with collection activities. If debtor continues to dispute, CONTRACTOR will inform the debtor that they may schedule a court appearance to dispute the balance/amount. CONTRACTOR shall suspend all collection activities immediately when the debtor schedules a court appearance. Collection activities shall resume only when directed by COUNTY/COURT (see Section 3.5 - Court Appearances).

Agreed. At Harris & Harris it is our goal to create the highest level of satisfaction for our clients and for their respective debtors. Every aspect of our government collection operations focuses on creating the best possible experience for debtor while achieving above average recovery rates for the client.

We recognize that in some instances such as Infractions or Misdemeanors with Unadjudicated Bail, debtors indebted to the Court may dispute the bail or request an explanation of their account balance. These disputes might be valid, or they might be an attempt by the debtor to further delay resolution. Either way, our collection representatives are trained to handle these disputes in a timely manner while maintaining a high level of customer service.

Upon receipt of a dispute over the telephone, the collection representative will first discuss the nature of the dispute with the debtor to fully understand the concern. Often, the dispute is resolved during the call and requires no additional information or action. If the dispute requires further investigation, the debtor's account will be placed into a dispute queue. Our CUBS® collection system automatically assigns the account to a client services representative who will verify the case records with the Revenue Enhancement Unit; upon verification, all information is documented and attached to the debtor's account in our collection system and the disputed account is transferred back to the collection representative's queue.

However, if a debtor to the County/Court continues to dispute the debt, we will inform the debtor of their right to schedule a court appearance to dispute the balance or amount. In this instance, we will immediately suspend all collection activities and will only resume them when directed by the Court.

3.9.7 Claim of Death

Upon receipt of a certified copy of a death certificate, CONTRACTOR shall forward to COUNTY/COURT a copy of the correspondence and the certified copy of the death certificate and deem the account uncollectible.

Agreed. As noted earlier in Phase 7 of our collection methodology, Harris & Harris will immediately cease collection activity at any point in the collection process if an account meets a predetermined status set by the County/Court. We know that confirmed death is one of the most common factors that make an account uncollectible.

2. Work Plan for Providing Requested Services

In this instance, Harris & Harris will add “upon receipt of a certified copy of a death certificate” as a predetermined status. Upon receipt of this certificate, we will forward to the County/Court a copy of the certificate along with all related correspondence, and we will declare the account uncollectible. Harris & Harris will close and return any such account to the County/Court, along with a full report detailing all collection efforts and any contact made.

CONTRACTOR shall verify claims of death for which a certified copy of a death certificate is not received against the Social Security Administration Master Death File.

Agreed. Harris & Harris will pursue verification of any claim of death for which a certified copy of a death certificate is not received against the Social Security Administration Master Death File.

3.9.8 Claim of Incarceration

In the event the debtor submits documentary evidence which indicates that the debtor is incarcerated, CONTRACTOR shall forward to COUNTY/COURT a copy of the correspondence and the documentary evidence. Collection activities shall be suspended if the debtor is determined to be incarcerated 364 days or less. CONTRACTOR shall resume collection activity at the end of the incarceration period. For debtors incarcerated 365 days or more, the account shall be deemed uncollectible and returned to the COUNTY/COURT.

Agreed. As noted earlier in Phase 7 of our collection methodology, Harris & Harris will immediately suspend collection activity at any point in the collection process if an account meets a predetermined status set by the County/Court. We know that incarceration is one of the most common factors that make an account uncollectible. For debtors incarcerated 365 days or more, we will officially declare the account uncollectible and return it to the Court.

Harris & Harris will add “claim of incarceration” as a predetermined status for suspending or closing activity on an account. Upon receipt of documentary evidence that confirms a debtor is incarcerated, we will forward to the County/Court a copy of the evidence along with all related correspondence, and we will declare the account suspended if the debtor is determined to be incarcerated 364 days or less. Harris & Harris will resume collection activity at the end of the incarceration period.

3.10 TRANSMISSION OF ACCOUNT INFORMATION

3.10 Transmission of Account Information

CONTRACTOR shall provide daily back-up provisions for electronic data. COURT will refer account information from multiple automated case management and information systems with multiple file layouts including but not limited to:

- Tyler Technologies’ Enterprise Justice (formally Odyssey) case management - source of Infractions and Misdemeanors with Adjudicated and Unadjudicated Bail and Fine accounts and Adjudicated Misdemeanor and Felony delinquent accounts.***

- JMIS – source of Juror Sanctions.***
- Payment information from accounts referred via Tyler Technologies will be entered into the case management system.***
- Payment information from accounts referred via eCourt will be entered into the case management system.***

2. Work Plan for Providing Requested Services

Agreed. Harris & Harris has read, understands, and will fully comply with the entirety of this requirement. **We can readily accept referrals and provide daily back-up in any interim, in any file layout, and from nearly any collection / accounting / case management system – including but not limited to all listed in the requirement – whether by secure FTP, VPN, email, diskette, tape, data cartridge, or paper.** Our technical personnel resources can readily adapt our programs at any time throughout the contract to accept, update, and process all records on hand from any system, no matter how common or how obscure. This includes acceptance of account information and transfer of account status changes and payment information and receipt confirmations for every transaction. Our technical personnel have implemented collection projects with many different client case management systems including a wide range of home-grown legacy systems requiring Harris & Harris to provide custom programming to interface.

CONTRACTOR shall modify data transmission specifications, procedures and protocols when requested by COUNTY/COURT.

Agreed. Upon request from the County/Court, our technical personnel resources can readily adapt our programs, data transmission specifications, procedures, and protocols at any time throughout the contract to accept, update, and process all records on hand from any system, no matter how common or how obscure.

COURT reserves the right to add additional litigation types to the electronic file transfer process.

Agreed. Harris & Harris acknowledges the right of the Court to add additional litigation types to the electronic file transfer process.

CONTRACTOR shall have the capability to develop and test the necessary interfaces with the COUNTY/COURT CMS prior to July 1, 2025. CONTRACTOR shall not be compensated for any development or programming changes necessary (i.e., changes due to legislation or policy decisions) to be able to interface with the COUNTY/COURT CMS and fulfill the requirements of this SOW.

Agreed. Harris & Harris can **readily develop and test all necessary interfaces with the County/Court prior to July 1, 2025.** We offer the differentiating advantage of existing interface with the case management and collection management systems of the Court. Harris & Harris is acutely aware of the existing electronic interfaces with County, Court, and all related stakeholders, and we already accept and transmit data electronically under our current contract. Be assured that should the Court choose to modify or replace its systems at any time during the new contract, Harris & Harris is fully qualified and ready to accommodate and integrate any changes to ensure timely and seamless data transfer on any schedule and in any format required by the Court, and without compensation to Harris & Harris.

Typically, during implementation, our IT experts work with a client's technical representatives regarding file layout, data mapping, test files, PGP encryption, and secure FTP sites. As an incumbent to the Court, we have already established these technical elements, but during implementation we will review and address all these areas anew for this specific contract to ensure accuracy and seamless placement of every file transmitted to and from Harris & Harris. Our systems will verify a variety of factors, including but not limited to the number of accounts transmitted, total value, balance due, payment history, and other variables. Any inconsistencies are immediately flagged and are addressed before accounts are eligible for collection.

2. Work Plan for Providing Requested Services

Automate BPA

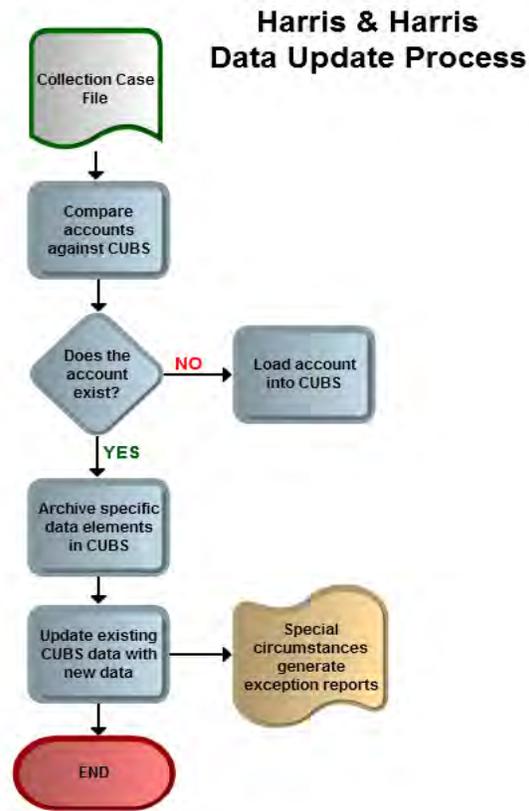

Our IT operations team manages all day-to-day file transfers for each client using Automate BPA software to ensure quality control and business continuity during implementation and throughout the contract. Our collection platform, CUBS®, provides automated file creation capabilities that are established and scheduled per each client’s specific requirements. These settings are thoroughly tested during the implementation process.

Once CUBS® creates the daily file, the Automate BPA server picks up the file and delivers it to the appropriate client SFTP site. Automate BPA enables us to script file handling procedures and add additional safeguards and alerts to make sure files are transferred in a timely fashion. The automated jobs are set up to retry upon failure, and to generate alerts to the Automate BPA administrators.

Automate BPA transfers files to our hosted SFTP solution, which is provided by Progress. Progress is an industry leader in the FTP hosting arena and provides a solution that complies with numerous stringent regulations, including the Federal Information Security Act (FISMA) and the Personal Information Protection and Electronic Documents Act (PIPEDA). On file delivery, an automated email is sent to the appropriate client contacts to alert them that the file is ready for pickup. All transfers and pickups are tracked in searchable audit logs.

Every Harris & Harris client has unique overlay needs, so our in-house team of IT professionals tailor programs to accommodate each overlay. **Regardless of the customization needed, each program will accomplish the following:**

- Analyze every collection case file to determine if the account is a new placement or an overlay
- Extract the overlay records and match against existing records in the database
- Extract existing records in the database and identify data that should be archived in notes or separate database tables (e.g., phone numbers, addresses, etc., depending on client requirements)
- Archive selected data
- Overlaying new data onto the existing database record
- Produce exception reports on special status accounts for operations review
- Process new (non-overlay) records into the system with a new placement date

2. Work Plan for Providing Requested Services

CUBS® has built-in duplication checks which flag accounts that have already been entered into the system for a specific client and indicate whether the accounts are still active. This feature is essential to a successful overlay process.

Our IT operations team uses Automate BPA to ensure completion of both manual and automated tasks. Any IT operations team member dedicated to Court can schedule, track, and report on any file transfer related task. Be assured that **regardless of interface requirements, Harris & Harris can establish and administrate seamless and effective electronic data transfer in any format and at any frequency required by the Court.** Please see 4.3 *Transition Plan* for additional information regarding our implementation including the creation of test data and test cases and the associated utilities and production.

3.10.2 Data Entry of Manual Referrals

CONTRACTOR shall be required to data input into their system any account information specified and referred by COUNTY/COURT that is a manual referral not transmitted through an interface with a case management system.

Agreed. Harris & Harris agrees that we will perform data input of account information for every manual referral that is not transmitted to Harris & Harris via an established interface with a case management system. As cited elsewhere in our Technical Proposal, we can work with many non-electronic sources of information for account placement. We can readily accommodate this necessity with accuracy of input and full confidentiality of all information referred.

3.10.3 Determination of the Data to be Transmitted, Transaction Codes, etc.

- **All data exchanges described in the processes below must be in compatible information system interfaces, specifications, code and formats as specified by COUNTY/COURT.**

Agreed. Again, Harris & Harris can send and receive data and provide daily back-up in any interim, in any format, and from nearly any collection / accounting / case management system – including but not limited to all listed in the requirement – whether by secure FTP, VPN, email, diskette, tape, data cartridge, or hard copy paper. We acknowledge that all data exchanges must be in compatible information system interfaces, specifications, code and formats, and that these specifications are to be made by the County/Court. We equally assert our ability to ensure seamless compatibility throughout the contract, both at the onset as defined and at any point in the contract should any development or programming changes be required.

- **The field definitions and specifications, data to be transmitted, and transaction codes for all the account information and/or electronic files listed below will be determined by COUNTY/COURT and CONTRACTOR.**

Agreed. During implementation, Harris & Harris will work in conjunction with the County/Court to determine the field definitions and specifications, the data to be transmitted, and the transaction codes for all the account information and/or electronic files listed below. We will also test all facets accordingly.

3.10.4 Referral Information – Referrals from Case Management System (CMS)

- **COUNTY/COURT, at its discretion, shall refer delinquent accounts from the CMS to CONTRACTOR.**
- **COUNTY/COURT may refer delinquent accounts to CONTRACTOR by using the Odyssey Configuration Integration Publisher that allows COUNTY/COURT to send information directly to CONTRACTOR's web service endpoint in the form of an XML message for**

2. Work Plan for Providing Requested Services

CONTRACTOR's consumption or by using a collections export file batch process determined by COUNTY/COURT. Illustrative sample is provided for in (Attachment B).

- *COUNTY/COURT may refer delinquent accounts to CONTRACTOR by using eCourt API interfaces that allows COUNTY/COURT to send information directly to CONTRACTOR's web service endpoint in the form of an XML message for CONTRACTOR's consumption or by using a collections export file batch process determined by COUNTY/COURT.*
- *COURT Referrals shall correspond to CMS referral file specifications and may be subject to change.*

Agreed. Harris & Harris has read, understands, and will comply with the entirety of this requirement regarding referrals from CMS. We can readily accept and process these referrals accordingly. We also acknowledge the possibility that CMS referral file specifications will change.

3.10.5 Re-Referral Information – Re-Referrals from CMS

- *COUNTY/COURT shall re-refer debtors who have scheduled a court appearance through CONTRACTOR and subsequently failed to appear in court.*
- *COUNTY/COURT shall either re-refer debtors through the CMS referral file, or through an alternate mechanism developed by CONTRACTOR and COUNTY/COURT.*

Agreed. Harris & Harris has read, understands, and can and will comply with the entirety of this requirement regarding re-referrals from CMS. We can readily accept and process these re-referrals as described.

3.10.6 Payment Information

The sum of all payments on file transmissions, manual and electronic, must equal the amount deposited into the COUNTY Bank Account, the sum of all the deposit slips, and the sum of all the payments listed on the payment report (see Section 3.13.6 - Payment Reports).

Agreed. As described in our response to 3.13.6, Harris & Harris will prepare and submit each business day a **Remittance Report**, or Payment Report. Just as each report will have been fully reconciled by our accounting department such that the sum of all payments listed will always equal the amount transferred via ACH in the County bank account, we confirm that this reconciliation will be reflected in accordance with this requirement, such that the sum of all payments on file transmissions (manual and electronic) will equal the amount deposited into the County bank account, the sum of all the deposit slips, and the sum of all the payments listed on the payment report. Please see **Sample Reports** in the **Appendix** to our Technical Proposal for a sample remittance report.

3.10.7 Payment Information – For Accounts Referred via CMS

- *At a frequency to be determined, but no less than once daily, CONTRACTOR shall submit current payment information to COUNTY/COURT via a mechanism developed by CONTRACTOR and COUNTY/COURT.*

Agreed. Harris & Harris agrees to submit no less than once daily (but at a frequency acknowledged to be determined) the current payment information for accounts referred via a mechanism developed jointly by the County/Court and Harris & Harris.

- *CONTRACTOR may notify COUNTY/COURT of payment information by submitting information required by Odyssey API web services or by submitting a payment import file specified by COUNTY/COURT. For API interface, the Odyssey Integration Toolkit web services will use the information to update appropriate Odyssey components. Illustrative sample is provided for in (Attachment D).*

2. Work Plan for Providing Requested Services

Agreed. Harris & Harris has read, understands, and will comply with the entirety of the requirement regarding using either of these means to notify the County/Court of payment information for accounts. We also acknowledge that the payment file may be subject to change. We have reviewed and take no exception to Attachment D as an illustrative sample.

- ***CONTRACTOR may notify COUNTY/COURT of payments collected by submitting information required by eCourt API web services or by submitting a payment import file specified by COUNTY/COURT. For API interface, the eCourt web services will use the information to update appropriate eCourt components. The payment file shall correspond to CMS file specifications and may be subject to change.***

Agreed. Harris & Harris has read, understands, and will comply with the entirety of the requirement regarding using these means to notify the County/Court of payment information for accounts. We also acknowledge that the payment file may be subject to change.

3.10.8 Uncollectible Information – For Accounts Referred via CMS

- ***As requested by COUNTY/COURT, CONTRACTOR shall return accounts deemed uncollectible to COUNTY/COURT via electronic file.***
- ***CONTRACTOR shall return such accounts to COUNTY/COURT with any updated account information obtained (e.g., addresses, telephone numbers, Social Security Numbers, etc.).***
- ***The uncollectible file shall correspond to COUNTY/COURT CMS specifications.***

Agreed. Harris & Harris will integrate this requirement with our own aforementioned protocol for returning uncollectible accounts. For accounts referred via CMS that are deemed uncollectible, we will compile all instances in a given month into a single electronic file that corresponds to County/Court and CMS specifications and transfer it to the County/Court. As with our standard protocol, the return for each such account will be accompanied with a full report detailing all collection efforts, any contact made, and any updated contact information we may have obtained on each account. During implementation with the County/Court, we will discuss and determine report characteristics (e.g., format, appearance, delivery schedule) for this report, and we will identify and schedule it as a deliverable and incorporate it into the standard reporting package to be provided to the County/Court.

3.10.9 Court Appearance Information

At minimum once each day or a frequency specified by COUNTY/COURT and in a manner specified by COUNTY/COURT, CONTRACTOR shall submit court appearance information.

Agreed. Harris & Harris shall submit court appearance information at least once each day (or at an alternate frequency to be specified by the County/Court). We acknowledge that the mechanism to provide this information to the County/Court shall be developed jointly by the County/Court and Harris & Harris.

3.10.10 Updated information to CONTRACTOR on COUNTY/ COURT Accounts

As needed, COUNTY/COURT will inform CONTRACTOR with any updated account information. A mechanism to provide this information to CONTRACTOR will be developed by CONTRACTOR and COUNTY/COURT.

Agreed. Harris & Harris acknowledges that the County/Court will inform Harris & Harris as needed with any updated account information. We acknowledge that the mechanism to provide this information to Harris & Harris shall be developed jointly by the County/Court and Harris & Harris.

3.10.11 Updated Information on COUNTY/COURT Accounts from CONTRACTOR

2. Work Plan for Providing Requested Services

- *As requested by COUNTY/COURT, CONTRACTOR shall submit updated account information obtained (e.g., addresses, telephone numbers, Social Security Numbers, etc.).*

Agreed. As cited elsewhere throughout this section of our proposal, Harris & Harris will remit at least once daily (or at an alternate frequency to be specified by the County/Court) an Updated Account Information File for each day's activity to include updated account information obtained that day for any account placed with Harris & Harris.

- *As requested by COUNTY/COURT, the Updated Account Information File shall correspond with the CMS specifications, and/or other alternative formats as specified by COUNTY/COURT.*

Agreed. Every Updated Account Information File created by Harris & Harris and submitted to the County/Court – at least once daily or at an alternate frequency to be specified by the County/Court – will fully correspond with all respective CMS specifications and/or any other alternative formats specified by the County/Court.

During the implementation phase, we will discuss and determine with the Court who will need access to Curator, which is provided through licenses maintained by Harris & Harris, including whether they need full access or simple inquiry access. Our Analytics and Reporting team will conduct multiple training sessions to ensure all approved Court staff are well-versed with Curator. Once given access, authorized users can employ a comprehensive suite of dashboards and customized reporting options that are available 24/7/365.

Client Access Web[®]

Client access capabilities are further enhanced through Client Access Web[®], to which authorized representatives of the Court will have exclusive access to:

- View activity of accounts placed
- Generate and build custom reports

Each client representative who is selected to use Client Access Web[®] will be furnished with a unique username and password to access this program (based on their level of authorization) and view accounts online. Our Information Technology professionals will train authorized staff to ensure complete understanding and use of the full functionality of the product. We acknowledge that no compensation is due – and as such, no invoicing will be issued - on accounts worked where payments were not obtained or for other expended services.

The amount of the CONTRACTOR'S invoices shall be calculated in accordance with the following formula: Commission Rate (%) x total collections deposited in COUNTY Bank Account during the period of the invoice.

Agreed. Harris & Harris will follow and incorporate this formula into all invoicing to be prepared and submitted to the County/Court.

CONTRACTOR shall submit to COUNTY/COURT an invoice each month by the 5th business day of the month for the prior month's deposits to the COUNTY Bank Account. Invoice shall be presented to COUNTY/COURT under the conditions and with the information set forth in Section 3.13.1 – Cycle for Submission of Invoices. - *In the event revenue is collected by COURT on accounts that were set for a court appearance, CONTRACTOR shall provide supporting documentation of the payment as instructed by COUNTY/COURT. COUNTY/COURT will determine the total amount to be compensated for each monthly billing cycle, and will compensate CONTRACTOR accordingly.*

Agreed. At no time will our invoices include accounts which were set for a court appearance. In instances where the Court collects revenue on these accounts, we agree to provide documentation of the payment as instructed by the County/Court. possession relating to said accounts such as refreshed addresses, which were obtained by CONTRACTOR.

Agreed. Harris & Harris has read, understands, and agrees to comply with this requirement. As noted earlier in our collection methodology, we will immediately cease collection activity if the County/Court elects to cancel, de-assign, or recall an account for **any** reason, including upon termination of the contract. We will follow all the standards for closure specified by the County/Court, and all status codes can be fully customized to align with the accounting and auditing processes of the County/Court.

Upon contract termination by either the County/Court or Harris & Harris, we will close and return all accounts, along with a full report detailing for each account all collection efforts, any contact made, as well as any updated addresses and other contact information we may have obtained. Agreed. Harris & Harris will readily return all accounts and all records pertaining to those accounts at the end of the contract period. We affirm that in no case will we continue to work on any account, and we acknowledge that no commissions will be paid on monies we receive following termination of the contract.

3.14.3 All account payment funds received by CONTRACTOR after contract termination shall be forwarded to COUNTY/COURT within three (3) business days of receipt. Any post-dated checks in CONTRACTOR'S possession will be voided and given to COUNTY/COURT to arrange for replacement from the maker(s).

Agreed. Harris & Harris will forward all account payment funds received after contract termination to the County/Court within three (3) business days of receipt. In addition, we will void and present to the County/Court any post-dated checks such that the County/Court can seek replacement checks from those parties.

respect to the termination. Such determinations shall be final. After such determination is made, COUNTY/COURT shall pay CONTRACTOR the amount so determined.

Agreed. Harris & Harris has read, understands, and agrees to comply with all aspects of this requirement regarding a final termination claim and invoice to be submitted by Harris & Harris within forty-five (45) days of contract termination. 3.14.6 CONTRACTOR shall house and maintain all records related to their Contract performance for a minimum of five (5) years after contract termination at their office(s). COUNTY/COURT will have the right to inspect these records at any time within this five (5) year period.

Agreed. Our *Data Storage and Retention Policy* provides comprehensive guidance to ensure all sensitive data is retained in full compliance with Harris & Harris's business, legal, and regulatory policies as well as with the policies and requirements of our clients. Harris & Harris archives all transactions for audit purposes, and the length of time depends upon the specific audit requirements of the client contract and other industry audits. Our retention periods for all records and statements for collection services and litigation exceed the minimum period of five (5) years required by the Court. We will house and maintain at our corporate headquarters all records related to this contract for more than the minimum of five (5) years after contract termination. We acknowledge and will abide by the right of the County/Court to inspect these records at any time within that five (5) year period.

In general, credit card numbers and associated cardholder data are stored for only six months from the last payment, and all credit card and Social Security numbers are fully encrypted and stored on our databases. Only the last four digits of both are visible. This retention period allows for potential chargebacks within the six-month period. Other critical data, such as the credit card security codes, are not stored under the requirements of PCI Compliance.

The quality control coordinator and system administrators are responsible for defining procedures to identify electronic data that exceeds the retention period and to securely dispose of it. Such procedures must be consistent with the following:

- **On-Line Electronic Data:** Once stored data exceeds the retention period, it will be removed on at least a quarterly basis via an automated process. If an automated process is not available, the various Department Directors are responsible for conducting quarterly audits to ensure that stored data in excess of the retention period is securely removed.
- **Backup/Removable Media:** Backup or removable media storing cardholder data must be classified so it can be identified as confidential, inventoried, and physically secured. System Administrators are responsible for reviewing media inventories monthly and securely disposing of cardholder data which exceeds the retention period.
- **Paper Records:** Paper reports containing cardholder data must be labeled so they can be identified as confidential and securely disposed of once there is no longer a business reason to retain them. Paper reports should be physically secured (e.g., stored in a locked file/cabinet) when not in use. On a quarterly basis, the Quality Control

2. Work Plan for Providing Requested Services

Coordinators are responsible for auditing files to ensure that there are no reports containing cardholder data beyond the retention period.

- **Secure Transportation:** If transported, paper and/or electronic media must be sent via a trackable method and the System Administrator or Accounting Manager must provide written approval prior to transportation.

Secure Disposal: To provide proper assurance that data is irrecoverable, the following disposal methods must be used:

- **On-Line Electronic Data:** Cardholder data stored in files must be wiped using a program approved by the CIO. It is the responsibility of system administrators to ensure that secure disposal is implemented and effective.
- **Backup/Removable Media:** Cardholder data must be destroyed beyond recovery by using a wipe program to delete files or via degaussing or physically destroying the media beyond recovery. Removable media must be stored in a secure location until it has been destroyed. It is the responsibility of system administrators to ensure that secure disposal is implemented and effective.
- **Paper Records:** Documents containing cardholder data must be cross-cut shredded, incinerated, or pulped. Employees are responsible for disposing of sensitive paper records, including those containing cardholder data, in the locked shred bins provided or alternatively flagging the box of documentation for shredding by our approved vendor.

Destruction of all documents upon the completion of its retention period shall be shredded by the current authorized document shredding vendor.

As required by Judicial Council guidelines, CONTRACTOR shall provide the required reporting of data of the Amnesty Program to COUNTY/COURT. (Attachment G). The CONTRACTOR shall be compensated only on the amount collected.

3.15 Collection Amnesty Program

Agreed. Harris & Harris has also created and/or otherwise administered successful amnesty programs for several government agencies around the country. We can develop, implement, and administer a customized amnesty program or administer the Court's own amnesty and special programs to help reconcile longstanding or situational debt while maintaining a positive public perception of the Court as earned through professional administration of the program.

2. Work Plan for Providing Requested Services

For this contract, we agree to fully administer the amnesty program established by the County/Court and we will abide by all requirements set forth above, including segregating eligible accounts for targeted collection activity and subsequently segregating and processing payments in the same manner as we perform our traditional payment processing. We agree to accept only the amount authorized/specified by the County/Court as full payment. We will use Attachment G in the RFP to report all associated amnesty program activity, and we will add Attachment G to our standard reporting package for the County/Court for any amnesty program administered during this contract.

This plan can incorporate both paid and earned media messaging in both traditional and modern media, including but not limited to all of the potential media cited above. We will research and determine how best to reach, engage, and persuade eligible debtors where they live, figuratively and literally, with a focused and synergistic campaign of clear concise messaging and direction for immediate action (e.g., Web links, toll-free numbers) to access and take advantage of the amnesty program.

3.15.2 Reporting Requirements

CONTRACTOR shall comply with the reporting requirements set forth in any statute and in compliance with Judicial Council guidelines.

2. Work Plan for Providing Requested Services

4.0 IMPLEMENTATION OF SERVICE

4.1 IMPLEMENTATION DEADLINE

CONTRACTOR shall meet and implement the full range of services and requirements described in this SOW within four (4) weeks of the Los Angeles COUNTY Board of Supervisors' approval of the contract between COUNTY/COURT and CONTRACTOR.

Agreed. Harris & Harris can meet and implement the full range of services and requirements of the Scope of Work within the prescribed four (4) weeks of approval of the contract. As an incumbent to the Court under the current contract, we offer **the differentiating advantage of existing interface with the case management and collection management systems of the Court**, with established data transfer protocols and interims, such that we are the vendor of choice to ensure timely and seamless implementation of an otherwise complex launch for other Proposers.

We have prepared and provided in the **Appendix** to our Technical Proposal a comprehensive **Sample Implementation Plan** that incorporates this timeline.

4.2 INTERFACE WITH COURT CASE MANAGEMENT SYSTEMS

CONTRACTOR shall have the capability to develop and test the necessary interfaces with the COUNTY/COURT CMS prior to July 1, 2025. However, depending on the availability of COURT resources necessary to implement the programming changes to support referrals to multiple primary vendors, initial referrals to CONTRACTORS may be implemented on a staggered basis.

4.2 Interface with Court Case Management Systems

Agreed. Harris & Harris can **readily develop and test all necessary interfaces with the County/Court prior to July 1, 2025**. As noted above, we offer the differentiating advantage of existing interface with the case management and collection management systems of the Court. Harris & Harris is acutely aware of the existing electronic interfaces with County, Court, and all related stakeholders, and we already accept and transmit data electronically under our current contract. But to reaffirm, **Harris & Harris can accept and transmit all data electronically in any interim, in virtually any format, and from nearly any accounting or case management system, including whether by secure FTP, VPN, mail, email, electronic media, or hard copy paper**. Be assured that should the Court choose to modify or replace its systems at any time during the new contract, Harris & Harris is fully qualified and ready to accommodate and integrate any changes to ensure timely and seamless data transfer on any schedule and in any format required by the Court.

Typically, during implementation, our IT experts work with a client's technical representatives regarding file layout, data mapping, test files, PGP encryption, and secure FTP sites. As an incumbent to the Court, we have already established these technical elements, but during implementation we will review and address all these areas anew for this specific contract to ensure accuracy and seamless placement of every file transmitted to and from Harris & Harris. Our systems will verify a variety of factors, including but not limited to the number of accounts transmitted, total value, balance due, payment history, and other variables. Any inconsistencies are immediately flagged and are addressed before accounts are eligible for collection.

2. Work Plan for Providing Requested Services

Automate BPA

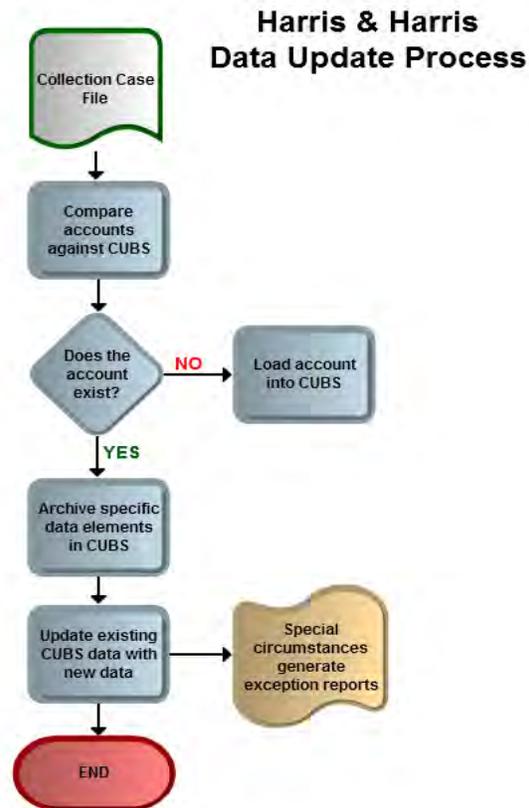

Our IT operations team manages all day-to-day file transfers for each client using Automate BPA software to ensure quality control and business continuity during implementation and throughout the contract. Our collection platform, CUBS®, provides automated file creation capabilities that are established and scheduled per each client's specific requirements. These settings are thoroughly tested during the implementation process.

Once CUBS® creates the daily file, the Automate BPA server picks up the file and delivers it to the appropriate client SFTP site. Automate BPA enables us to script file handling procedures and add additional safeguards and alerts to make sure files are transferred in a timely fashion. The automated jobs are set up to retry upon failure, and to generate alerts to the Automate BPA administrators.

Automate BPA transfers files to our hosted SFTP solution, which is provided by Progress. Progress is an industry leader in the FTP hosting arena and provides a solution that complies with numerous stringent regulations, including the Federal Information Security Act (FISMA) and the Personal Information Protection and Electronic Documents Act (PIPEDA). On file delivery, an automated email is sent to the appropriate client contacts to alert them that the file is ready for pickup. All transfers and pickups are tracked in searchable audit logs.

Every Harris & Harris client has unique overlay needs, so our in-house team of IT professionals tailor programs to accommodate each overlay. **Regardless of the customization needed, each program will accomplish the following:**

- Analyze every collection case file to determine if the account is a new placement or an overlay
- Extract the overlay records and match against existing records in the database
- Extract existing records in the database and identify data that should be archived in notes or separate database tables (e.g., phone numbers, addresses, etc., depending on client requirements)
- Archive selected data
- Overlaying new data onto the existing database record
- Produce exception reports on special status accounts for operations review
- Process new (non-overlay) records into the system with a new placement date

2. Work Plan for Providing Requested Services

CUBS® has built-in duplication checks which flag accounts that have already been entered into the system for a specific client and indicate whether the accounts are still active. This feature is essential to a successful overlay process.

Our IT operations team uses Automate BPA to ensure completion of both manual and automated tasks. Any IT operations team member dedicated to Court can schedule, track, and report on any file transfer related task. Be assured that **regardless of interface requirements, Harris & Harris can establish and administrate seamless and effective electronic data transfer in any format and at any frequency required by the Court.** Please see 4.3 Transition Plan below for additional information regarding our implementation including the creation of test data and test cases and the associated utilities and production.

4.3 TRANSITION PLAN

CONTRACTOR must provide a transition plan detailing how they will implement the full range of services and requirements described in this SOW within fifteen (15) business days after contract execution.

4.3 Transition Plan

Agreed. Harris & Harris offers the Court a comprehensive and proven project management approach and plan that ensures timely implementation and execution of the contract. Upon contract award, we will readily and constructively work with the Court, County, and all other designated parties to ensure seamless continuity and transition of services and a timely and compliant start date for all contract services and requirements.

Based on our experience as a current implemented contractor to the Court as well as on our understanding of the current scope of services, Harris & Harris has prepared and provided in the **Appendix** to our Technical Proposal a comprehensive **Sample Implementation Plan** that provides a comprehensive schedule of contract implementation activities including milestones and dates as predicated on a presumed start date of 7/01/2025. Our plan includes but is not limited to file exchange testing and the implementation of classroom training. Please note this is a sample plan and it can be modified accordingly.

Our implementation team chose Monday.com as the best project management software available because of **its intuitive drag-and-drop functionality, impressive customization options, and its constantly evolving feature package**, which include several time-saving AI capabilities. Monday.com is user-friendly and interactive, and it will be accessible to Court team members through assigned user logins to the project workspace. We can easily assign tasks and prioritize what is most important. Many of the project tasks have multiple sub-items and allow for tracking and completion of more specific tasks in the project plan. We can track progress, set timelines and manage work. It is completely customizable and flexible, so the workflow on any project can be shaped as needed. Routine tasks such as email reminders and project approval requests are automated.

The platform provides transparency and visibility to our clients. We will supply the Court with a login to Monday.com so that they may be able to track the progress of implementation activities on the project. Throughout the project, the Court will have access to the platform which serves as the source of truth for all decisions made regarding every aspect of the project. This enables both the Court and Harris & Harris staff to revisit all items at any time to review notes regarding decisions made. Where appropriate, our entire executive team will be available to the Court for the purposes of decision-making.

Process

The implementation process includes our professionals in Information Technology, Client Services, Account Management, Operations, and Project Management.

The initial phase of implementation begins by setting a target launch date to begin placements and communicating the status of pending and future issues. The information technology professionals from Court, County, and Harris & Harris will discuss items such as:

- File layout

2. Work Plan for Providing Requested Services

- Data mapping
- Test files
- PGP encryption
- Secure FTP sites

Other topics of discussion between the client team members and the agency team members include, but are not limited to, payment and adjustment files, suspense and cancellation files, custom reporting requirements, reconciliation, remits, invoices, system access, and settlements.

Our dedicated implementation manager will first evaluate what needs to be done to accurately plan time and resource allocation. Implementation comprises several key tasks, including:

| Implementation Table | |
|----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Scope of Project | The breadth of the project is defined. |
| Implementation Planning | The detailed schedule for implementation is described. This includes milestones, projected completion dates, and resource needs. |
| Management Orientation | Top management is briefed on current organizational status and resources needed to accomplish successful implementation. Management commits to the resources required and acknowledges the plan. |
| Resource Allocation | Resources are formally allocated and notified that they are part of the team. |
| Identification of Implementation Team | Our Implementation Manager is the point person for all implementations. Department heads from various departments within the organization are assigned to tasks associated with the implementation process. These department heads include, but are not limited to: <ul style="list-style-type: none"> ➤ Executive Operations ➤ Information Technology ➤ Client Services ➤ Collection Directors ➤ Collection Managers ➤ Analysts ➤ Director of Business Development |

Listed in the table below are critical steps that are consistently evaluated as to where we are at any time during a client implementation. This allows us to report on the status of the readiness to begin the implementation.

| Implementation Steps | |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Prepare the Infrastructure | Many solutions are implemented into a production environment. It is important that the characteristics of the production environment be accounted for. This strategy includes a review of hardware, software, communications, and desktop capacity. |

2. Work Plan for Providing Requested Services

| Implementation Steps | |
|---------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Coordinate with the organizations involved in implementation | This may be as simple as communicating effectively with our client. For IT solutions, there are typically more than several contacts within our infrastructure for each client with whom advance communication is imperative, and many of these groups may have a pivotal role in getting the solution successfully deployed. Part of the implementation work is to coordinate the work of any other groups that have a role to play. |
| Implement Training | Many solutions require users to attend training or more informal coaching sessions. This type of training is completed in advance. We believe it is important and necessary to coordinate advanced training, as information retention will help ensure successful implementation. |
| Convert the Data | Data conversion – changing data from one format to another – needs to take place once the infrastructure and the solution are implemented. |
| Install the Production Solution | Our production solution needs to be moved from development to test. We make sure all of your production components are implemented successfully, including new programming, proper client set up, reporting, databases, and program code. |

Harris & Harris has invested heavily in the setup of a **fully segregated testing environment**. This testing environment can easily send, receive, and process files without affecting production-related activity. The architecture of the testing environment mirrors the existing production environment, guaranteeing no negative impact when programs and files are moved into production. The test platform is located at the Harris & Harris Disaster Recovery facility, which is a Tier IV data center environment.

The test environment on the CUBS® Test server runs the same version of the CUBS® collection software, but with its own test databases that are separated and unconnected to the production server. The test environment is secured to only allow access to programmers involved in client implementation and administrators that manage the equipment. Programs written for the test environment are backed up daily. The data on the test environment is refreshed on a weekly basis so that the system mirrors production data.

Harris & Harris has the system and personnel resources available to create Test Data in all test phases as required. We have dedicated system resources for testing as this is an aspect that is addressed with every client implementation.

Test Data Creation

Harris & Harris analyzes the data elements of the client files to determine the test cases needed and test data. Test data is created that reflects those specific files and data that are passing to and from the client. The following test categories are covered in the setup of the test data:

1. **Business Rules:** Run test cases specific to client dictated business rules for account closure, overlay processes, payment file creation, return file codes, etc.
2. **No data:** Run test cases on blank data. Validate that the proper exception reports are generated.

2. Work Plan for Providing Requested Services

3. **Valid data set:** Create to check if application is functioning as per client requirements and valid input data is properly saved in database or outgoing files.
4. **Illegal data set:** Prepare an invalid data set of illegal data format. System should not accept data in invalid or illegal format. Validate that the proper exception reports are generated.
5. **Invalid data set:** Prepare an invalid data set to check application behavior for negative values, alphanumeric string inputs.
6. **Boundary Condition data set:** Data set containing out of range data. Identify application boundary cases and prepare data set that will cover lower as well as upper boundary set.
7. **Data set for performance, load and stress testing:** Create a large data set that exceeds 50,000 records.

Test Case Creation

For each test category listed above a set of test cases is generated. Each test case is documented to include the following information:

1. **Test Case ID:** Unique id for the case for reference purposes
2. **Test Case Statement:** This will indicate what is being tested and how.
3. **Unit To Test:** What is being tested? Specify program and inbound/outbound
4. **Assumptions:** Detail any assumptions specific to outcome
5. **Test Data:** Capture test data up to and including line of data in files.
6. **Steps To Be Executed:** listing of steps outside of programs that will generate output data.
7. **Expected Result:** Detail what should happen with test data utilized.
8. **Actual Result:** Detail results of test
9. **Pass/Fail:** Detail pass/fail of test case
10. **Comments:** Comments on expected/unexpected results and changing the test case.

Each test category will have a minimum of three test cases that will be completed. Test cases will be completed for valid conditions prior to completing test cases for invalid conditions.

Each test case is tracked in an Excel spreadsheet which details the case and related information. For each test case failure, a set of two additional test cases is generated and set for completion once the appropriate programming has been remediated. All failed test cases will provide additional detail in the comments section reflecting all possible solutions and the effect of the bug on the data/system.

All test cases will be performed by the program manager or an assigned programmer that is not responsible for the coding of the programs. Testing will be performed in the test environment during a designated testing period. During the assigned testing period, programmers will be restricted from making any modifications to programs.

In addition to the test data and test cases mentioned, the Court will be asked to perform a quality assurance review of the data mapping to ensure that mapping of fields is consistent between the CUBS® system and the Court, County, and other party systems.

2. Work Plan for Providing Requested Services

Testing Utilities

The following software and/or applications are utilized in tracking test cases/data and in the actual testing.

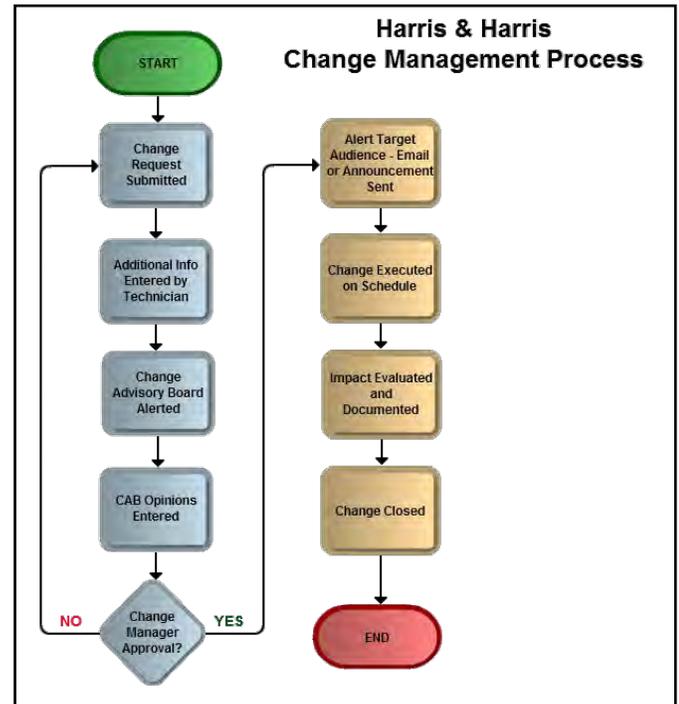

- **CUBS® test system:** Generate test data from preexisting test data
- **Excel:** Tracking of test cases and results

Move to Production

Once testing is complete, programs that are ready for production are processed onto the production server through a **Change Management process**. As part of the change request, new programs are run through a quality assurance process by the program manager to verify vendor specifics are met before they load and compile the program in production. A change management log is maintained for all changes. The log contains, but is not limited to:

- Date of submission and date of change
- Owner and custodian contact information
- Nature of the change
- Indication of success or failure

All testing shall be performed to the full satisfaction and authorized approval of the Court prior to implementation of collection activities for this contract.

6.2.1 *CONTRACTOR'S personnel must meet the following requirements:*

In addition, all proposed collection professionals who will perform services for this contract also meet (or will meet, for contract services yet to occur) all personnel requirements itemized above and will always conduct all collection services within the United States without the use of non-U.S. call centers or agents.

We acknowledge our recognized right to hire, suspend, discipline, or discharge employees as deemed necessary. We also acknowledge the right of the Court Project Manager to immediately remove from service any employee who is deemed to be performing unsatisfactorily.

6.2.2 CONTRACTOR must have the capacity to provide personnel at locations specified by COUNTY/COURT (Attachment H - court locations):

- *At the discretion of the Court, CONTRACTOR shall provide full/part-time clerical staff to various COURT locations to assist in the processing of accounts referred for collections in a manner that supports the volume of transactions processed at the location. In addition, the CONTRACTOR will provide sufficient clerical staff back-up and managerial staff as needed by COUNTY/COURT. CONTRACTOR'S staff must be trained in related aspects of CONTRACTOR'S business (e.g., CONTRACTOR'S automated systems).*

Agreed. Harris & Harris has reviewed Attachment H and asserts that we have both the current staffing and the capacity to readily staff (including reassignment, as necessary) all of the cited court locations to support each of the transaction volumes to be processed. If required, we agree to staff each location – and to continuously monitor and adjust accordingly, according to the processing needs of each – with fully qualified, fully trained, and cross-trained clerical staff who can efficiently and effectively perform every type of assignment cited below. We also offer the Court the professional capacity and infrastructure and regional resources to readily hire and train additional clerical staff to meet any increase in volumes.

- **COUNTY/COURT needs may vary. CONTRACTOR employees assigned to work at a COURT location may be reassigned to any COURT location by the COURT PM to ensure the needs of COUNTY/COURT are met. If coverage is needed, a staff replacement must be at the COURT job location within two (2) hours of being notified by COURT.**

Agreed. Harris & Harris is richly experienced with variable staffing needs for several clients, including the possibility of reassignment to provide coverage. We will determine and include as part of our operational plan an established protocol for providing spot coverage for the consideration of the Court Project Manager. This protocol will optimize reassignment across locations and will incorporate factors including but not limited to employee skill level, potential risk to existing assigned location, and proximity to location in need, including the ability to be at the location in need within two (2) hours of being notified by the Court. Harris & Harris will always make meeting this critical required timeframe the paramount factor.

- **CONTRACTOR will provide COUNTY/COURT the method for supervision of CONTRACTOR'S employees assigned to COURT locations.**

Agreed. Harris & Harris offers the Court successful experience with supervising client site employees including those assigned across multiple locations. During implementation we will discuss and determine with the Court the initial necessary staffing at each location, and we will prepare a management plan for the review and approval of the Court Project Manager. The core plan will be elastic and adaptable to accommodate any changes in staffing that are required at any time during the contract due to work volumes, reassignment to other locations, etc. At the core of this success will be a local supervisor who is skilled at managing a diverse group of staff members at multiple locations.

- **For each clerical staff, CONTRACTOR shall provide a personal computer at current industry standards and all necessary computer peripherals (e.g., printers, modems, etc.). In addition, CONTRACTOR shall provide clerical staff with all necessary office products (writing instruments, forms, file folders, fax machines as determined by COUNTY/COURT, etc.) to perform their job functions.**

Agreed. At a minimum, Harris & Harris will provide each clerical staff with this requisite office equipment and all office products necessary to perform their job functions readily and fully for this contract.

2. Work Plan for Providing Requested Services

7.0 MONITORING OF CONTRACTOR'S PERFORMANCE

7.1 PERFORMANCE

Performance shall be monitored using monthly reports discussed in Section 3.13.4 (Reporting Requirements) and evaluated quarterly. In addition, COUNTY/COURT shall monitor the CONTRACTOR'S performance to the Contract based on, but not limited to, the Performance Requirements listed on the Quality Control Plan 2024 (Attachment I) and Deliverables (Attachment J).

7.1 Performance

Agreed. Harris & Harris has read and understands this requirement, and we agree that our performance shall be monitored throughout the contract using monthly reports in full accord with Attachments I and J as provided in the RFP. As noted in our response to Section 3.13.4 (including the referenced **Sample Reports** attachment included in the **Appendix** to our Technical Proposal), Harris & Harris will provide the Court with a suite of reports on our activities on all assigned accounts as generated by a sophisticated reporting tool that can provide analytical breakdowns, customer analysis, and a variety of statistical reports, including both scheduled and ad hoc reports, for every report cited in the RFP.

During implementation we will discuss and implement into our reporting package all required reporting elements (including format, appearance, and timing) desired by the Court. Also as cited in our response to Section 3.13.4, the Court will also have **online monitoring options** available through both Curator and Client Access Web[®] as secure client portals to portfolio activity.

7.2 NON-CONFORMANCE

If CONTRACTOR performance does not conform to all requirements in this SOW and is unsatisfactory, the COURT PM shall write a Contract Discrepancy Report ("CDR"), (Attachment K) and forward it to CONTRACTOR. CONTRACTOR shall respond within five (5) working days upon notification by COURT PM and correct the discrepancy, at CONTRACTOR'S expense, if any.

COURT PM shall monitor all requirements described herein. COURT PM may from time to time provide comment on these services but will not unreasonably interfere with CONTRACTOR performance.

7.2 Non-Conformance

Agreed. Harris & Harris has read, understands, and agrees to comply with this requirement. Although we do not anticipate providing less than satisfactory or non-conforming performance to the Court at any time during this contract, we acknowledge the necessity, nature, and notification schedule of any Contract Discrepancy Report (prepared in accordance with Attachment K as provided in the RFP) to be issued. Should this circumstance arise, we will respond within five (5) working days with a corrective action plan to correct the discrepancy, to be implemented at our expense. We also acknowledge and welcome the possibility of comment from the Court Project Manager throughout our administration of the contract, and we appreciate that intervention will not otherwise unreasonably interfere with our performance.

7.3 AUDITS

2. Work Plan for Providing Requested Services

COUNTY/COURT may, at its discretion, direct or conduct Financial, Operational or other audits of the CONTRACTOR'S performance to ensure CONTRACTOR'S compliance with all requirements specified in this SOW.

7.3 Audits

Agreed. Harris & Harris has read, understands, and agrees to comply with this requirement. Should the Court determine such a need, we would direct you to contact either the Contract Project Manager or the Backup Contract Project Manager to initiate and facilitate an operational or financial audit, respectively. They will assist in all coordination of this event.

8.0 UNSATISFACTORY PERFORMANCE OF SERVICES

In the event CONTRACTOR provides less than satisfactory performance of any service, or compliance with any requirement specified in this SOW, COUNTY/COURT shall issue, within five (5) business days to CONTRACTOR, a CDR.

Additionally, COUNTY/COURT may apply one or more of the following remedies as deemed necessary:

8.1.1 COUNTY/COURT may require CONTRACTOR to implement a formal corrective action plan, which will be subject to COUNTY/COURT'S approval. The corrective action plan must include:

- The reasons for the unacceptable level of performance, or failure to provide the specified services;*
- Descriptions of the specific steps to return performance to an acceptable level; and,*
- Descriptions of monitoring methods that will be implemented to prevent recurrence.*

8.1.2 COUNTY/COURT may withhold account referrals until COUNTY/COURT determines the CONTRACTOR is providing the specified service.

8.1.3 COUNTY/COURT may exercise termination rights under the Contract between CONTRACTOR and COUNTY/COURT.

8.1.4 In the event COUNTY/COURT applies any of the above sanctions, COUNTY/COURT will notify CONTRACTOR in writing of the sanction(s) applied and the reason(s) for the sanction(s).

8.1 Contract Discrepancy Report

Agreed. Harris & Harris has read, understands, and agrees to comply with this requirement. Although we do not anticipate providing less than satisfactory performance to the Court at any time during this contract, we acknowledge the necessity, nature, and notification schedule of any **Contract Discrepancy Report** (CDR) to be issued should our performance or compliance not meet the requirements specified in the Scope of Work. Should this circumstance arise and as required by the Court, we will provide within five (5) working days (as noted and required above under 7.2 Non-Conformance) for review and approval a corrective action plan to include but not necessarily be limited to all elements stated above.

We also acknowledge and accept the possibility of additional or alternate simultaneous remedies including the withholding of account referrals (pending determination of whether we are in fact providing the required services) and/or the termination of the contract. We acknowledge that notifications for any sanctions will be provided in writing and will describe the reason for the sanction(s).

2. Work Plan for Providing Requested Services

9.0 REMEDIES

When CONTRACTOR'S performance is not in compliance with the requirements of the SOW, COURT PM shall document unsatisfactory performance and may, if CONTRACTOR'S performance remains unsatisfactory, exercise its right up to and including termination of the Contract.

9.1 Non-Compliance

Agreed. Harris & Harris has read, understands, and agrees to comply with this requirement. Overall, we do not anticipate any non-compliance with the requirements of the Scope of Work that would require the escalation described. Our full-time **Compliance Department** provides comprehensive oversight of our compliance with all applicable federal, state, and local laws and regulations and the scope of work requirements for each client, including every aspect of debtor communication and the handling of information and payments.

That said, we recognize the role of the Court Project Manager in documenting contract performance and any instances of non-compliance including unmitigated non-compliance. Should non-compliance with the requirements of the Scope of Work occur and further remain unresolved and unsatisfactory, we acknowledge the right of the Court Project Manager to effect remedies up to and including termination of the contract.

10.0 WORK QUALITY ISSUES

Questions regarding the quality and direction of work performance will normally be handled between COURT PM and CONTRACTOR, but if and when COUNTY/COURT finds that important work matters are not being properly handled by CONTRACTOR and that previous management efforts by COUNTY/COURT have failed to achieve desired results, COUNTY/COURT may exercise remedies under the Contract.

Work Quality Issues

Agreed. Harris & Harris has read, understands, and agrees to comply with this requirement. Overall, we do not anticipate the occurrence of a work quality issue that would require the escalation described. Our **ManageEngine Help Desk** software monitors and tracks operational issues for every client from the moment they are identified through resolution, ensuring **every question or problem receives real-time management attention** and remains available for trend evaluation. Automated emails are sent communicating an issue to teams affected and to those involved in the resolution process, including the assigned Client Success Executive. Automated email notifications also remind users of newly assigned issues and due dates to ensure quick and orderly responses.

That said, we fully recognize the right of the Court to exercise remedies to improve our performance. We will consistently monitor compliance with all requirements of the Scope of Work, and we acknowledge both the Court's necessity to monitor contract performance and the right to exercise remedies if we identify work quality issues.

11.0 SECURITY AND CONTROL PROCEDURES

11.1 CONTRACTOR shall apply General Accepted Accounting Principles in the management and processing of COUNTY/COURT accounts as well as preparation and maintenance of financial records and reports.

2. Work Plan for Providing Requested Services

11.1 Generally Accepted Accounting Principles

Agreed. Harris & Harris has read, understands, and agrees to comply with this requirement. We fully adhere to the highest standards of accounting transparency. As we do for all clients, we will perform the collection, accounting, deposit, and reporting of collection receipts for the Court in a manner consistent with Generally Accepted Accounting Practices (GAAP). Compliance is managed by our Chief Financial Officer and our Compliance Department and is further audited by an independent certified public accountant authorized to practice in the jurisdiction of Harris & Harris.

11.2 CONTRACTOR shall provide COUNTY/COURT a list of all pending and closed litigation, judgments, arbitrations, investigations or other controversy pending for the last five (5) years, to which CONTRACTOR or its principals were a party.

In addition, CONTRACTOR shall immediately notify COUNTY/COURT of any new litigation. The list shall at minimum contain: the case number, court venue and jurisdiction, a brief explanation of the litigation/judgment and the outcome/resolution.

11.2 Litigations / Judgments / Arbitrations / Investigations

Agreed. Harris & Harris presents **Past Five Years of Litigation** in the **Appendix** to our Technical Proposal, a list of our pending and closed litigation, judgments, arbitrations, investigations, and other pending controversies for the last five (5) years. Additionally, Harris & Harris describes below the single instance within the last five (5) years regarding penalties leveled for the performance of services similar to the services in the RFP. Following this description, we have described a second situation where we voluntarily worked with a State Department of Banking (not directly with a client) to resolve a technical issue to ensure compliance with that state's laws, for which no penalties were levied or incurred.

Washington State

On February 21, 2024, Harris & Harris reached an agreement with the Washington State Attorney General's Office ("AGO") regarding disclosure language in our letters to Washington residents.

Background:

In 2022, the AGO filed suit against Providence Health & Services-Washington; Swedish Health Services; Swedish Edmonds; and Kadlec Regional Medical Center alleging that Providence violated the Washington Charity Care Act by failing to make free or reduced cost charity care accessible to indigent patients.

The AGO subsequently issued subpoenas to Providence's current and former collection agencies, and later amended its complaint against Providence to add both Harris & Harris and Optimum Outcomes, Inc. as defendants. As to Harris & Harris, the AGO alleged that we failed to include certain disclosures on letters that were sent to Providence patients in Washington.

From the outset, Harris & Harris has refuted the AGO's allegations and fervently defended our organization. We firmly believe that our letters have always been compliant with Washington law. However, to avoid the time, expense, and uncertainty of continued litigation, Harris & Harris and the AGO engaged in negotiations which have resulted in a full and complete settlement of all claims. Important aspects of the consent decree include payment of \$1,000,000 to the AGO,

sending notices to consumers who received the letters at issue, and including specific language in letters that are sent to Washington consumers going forward.

State of Connecticut

Harris & Harris, through its companies, has been licensed in the State of Connecticut for twenty (20) years and has enjoyed a very cooperative relationship with the Department of Banking (DOB). A 2023 consent order underscored this cooperation, wherein we voluntarily agreed to resolve some technical structuring items stemming from an institutional investment in 2019. On February 2, 2023, the Banking Commissioner of the Connecticut Department of Banking (the “Commissioner”), Harris & Harris, Ltd. (“HH”), and Harris & Harris of Illinois, Ltd. (“HHIL”) entered into a consent order by which the parties agreed to resolve allegations that HH and HHIL violated Connecticut law with respect to the flow of monies collected by HHIL through HH’s trust account. Upon discovery of the issues at hand and the guidance from the DOB, the H&H companies worked with its regulatory counsel, Hinshaw & Culbertson, to resolve the matter with the Commissioner in a timely manner and to the full satisfaction of the DOB. Harris & Harris remains in good standing in Connecticut.

We provide 256-bit data encryption for data both in transit and at rest using the PGP standard and we maintain secure FTP or SFTP transfers. We also require dual factor authentication.

All employees at new hire and annually go through comprehensive security training based on their level of system access and prior to system access being authorized, to include training on red flags (identity theft) and on general data security best practices and company policies. Part of this program and training also includes how to properly escalate any security incidents to our information security team. Employees must pass security training at any instance it is required to be employed at Harris & Harris.

Please see our response to 11.4 below for a comprehensive description of our specific security policies.

11.4 CONTRACTOR shall develop and submit to COUNTY/COURT within five (5) business days of execution of the Contract, Security and Control Procedures. 11.4 Security and Control Procedures

Agreed. Harris & Harris has read, understands, and agrees to comply with the entirety of the 11.4 requirement. Upon execution of the contract, we will prepare and subsequently submit to the County/Court within five (5) business days a written ***Security and Control Procedures*** plan. This plan to ensure the safeguarding of County/Court property will include but not be limited to methods for ensuring the security of forms, case management systems, and cash handling. Harris & Harris also agrees to notify the County Project Manager of any changes to this plan within ten (10) business days of instituting a change.

Harris & Harris offers a comprehensive Security Policy that addresses data protection and controls that will continue to ensure a secure environment. We focus on meeting NIST

requirements through several process and technology solutions. In addition to the technical solutions in place and the external validation of control compliance across multiple standards, laws, and regulations, our staff members perform compliance maintenance or internal audit activities related to compliance of multiple standards including the PUB 1075/NIST based framework. Evidence is reviewed by information security staff members and management on daily, weekly, monthly, quarterly, and yearly bases as outlined by our process and control compliance needs. While our overall security policies are primarily modeled after NIST, they also include elements of other data security standards as well as being based on the holistic nature of our compliance and information security frameworks we comply with and are reviewed on an annual basis.

We believe a strong security architecture is comprised of multiple layers as well as a combination of different policies, procedures, and technical controls. This defensive in-depth approach starts at our network perimeter with multiple technologies that protect our internal systems from the outside world including technologies such as firewalls and intrusive prevention systems (IPS). Our IPS are monitored and tuned to receive threat feeds, and we have enabled geo-location blocking on all locations outside of the United States. Our firewalls are locked down for both ingress and egress traffic to the specific ports and protocols that we require for business use. In addition to the external protection solutions deployed we also filter all Web traffic to ensure that our staff members are not going to malicious Web sites and access only sites that are approved for business use. We also have Advanced Threat Protection enabled for our Office 365 users that protect against phishing attempts as well as remove malicious URL's and links from email. In addition to the technical solutions deployed at the perimeter of our environment, we also have our physical security controls that limit access to all of our facilities. All access to our facilities is controlled by our badge access systems. Access to data centers or other secured areas, such as payment processing, wire/data closets, etc. is controlled via a combination of badge and biometric access. All sites also have CCTV cameras with footage maintained for 90 days. All visitor logs processes and procedures follow the PUB 1075 requirements.

All access to critical business systems is controlled through integration with our Active Directory. Access is provisioned in our environment via RBAC (Role based access control). Anything related to Microsoft and Active Directory is controlled through group membership and role-based access to file and or system resources. Application resources are controlled in a similar fashion based on need to know or least privilege. Users are provided with unique IDs and we have tied Active Directory authentication to all major systems and applications to limit the need to manage multiple user accounts for each individual staff member. Multi-factor authentication is enabled utilizing Duo for all privileged account access. All account creation as well as modification or disabling of accounts follow standard operating procedures and approval processes and are documented by a formal ticket request in our ticketing system. All access attempts are logged and monitored through our SIEM solution. On a quarterly basis, all accounts including privileged accounts are reviewed. We do not allow shared accounts to be used in the environment. Every user (including any privileged user) is assigned their own unique credentials.

Harris & Harris hardens all systems following CIS benchmark guidelines. In addition to system hardening, all systems have FIM (File Integrity Monitoring) and Antivirus. To ensure that Harris & Harris has a limited risk profile pertaining to vulnerabilities we have implemented a robust vulnerability and patch remediation process. We perform weekly vulnerability scans across all

2. Work Plan for Providing Requested Services

internal subnets with many windows hosts having agent-based scanning enabled providing more real time updates back to our vulnerability management platform. Once vulnerabilities are identified, we patch no less than once a month. We have a dedicated patch weekend that follows the 2nd Tuesday of every month. Our patching solutions are capable of patching Microsoft and other 3rd-party products and applications. Our SIEM captures logs from all servers, network devices, workstation and other systems and the logs are retained for seven (7) years.

In addition to the technical solutions in place and the external validation of control compliance across multiple standards, laws and regulations, our staff members perform compliance maintenance or internal audit activities related to compliance of multiple standards including the PUB 1075/NIST based framework. Evidence is reviewed by information security staff members and management on a daily, weekly, monthly, quarterly, and yearly basis as outlined by our process and control compliance needs. Our security policies are primarily modeled after NIST; however, they include elements of other data security standards as well based on the holistic nature of our compliance and information security frameworks we comply with and are reviewed on an annual basis.

Network and Web Security

Harris & Harris secures and manages its data through a secure Cisco Networking environment. At the core of this infrastructure is the Cisco Adaptive Security Appliance. This system includes core features such as a world-class firewall, a hardened network structure, VPN remote security, SSL encryption, intrusion prevention and detection, and advanced anti-spam/anti-virus/anti-phishing measures.

Network

To complement our core infrastructure, we purchased the leading intrusion and prevention system available. This system provides security monitoring for network devices and host applications supporting both Cisco and other vendors. Security monitoring with this tool greatly reduces false positives by providing an end-to-end topological view of the network, which helps improve threat identification, mitigation responses, and compliance.

Key features of this security appliance include:

- Captures and gains network intelligence
- Analyzes both external and internal activity
- Leverages intelligence to identify threats
- Locks ports automatically in event of a threat
- Aggregates logs and events
- Produces over 150 reports and triggers
- Simplifies security response at Layer 2 and Layer 3 through topological graphs
- Emails IT contacts of problems or possible attacks

Web

Both of our key appliances have been integrated with Websense for full web filtering. Websense is based on best-in-class products, technologies and hosted solutions that provide integrated

network security threat defense and powerful policy-based control over our organization's web-sensitive data.

Data Encryption

Harris & Harris's data encryption policy provides guidance that limits the use of encryption to those algorithms that have received substantial public review and have been proven to work effectively. This policy dictates the procedures that must be followed when managing encryption keys and applies to all Harris & Harris employees and affiliates.

Protecting the Confidentiality of Client Information and Debtor Data

To gain access to any system, an individual using our information system must also authenticate to the network using their unique credentials. All access to critical business systems is controlled through integration with our Active Directory. Access is provisioned in our environment via role-based access control (RBAC). Anything related to Microsoft and Active Directory is controlled through group membership and role-based access to file and or system resources.

Application resources are controlled in a similar fashion based on need to know or least privilege. Multi-factor authentication is enabled utilizing Duo for all privileged account access. All account creation as well as modification or disabling of accounts follow standard operating procedures and approval processes and are documented by a formal ticket request in our ticketing system. All access attempts are logged and monitored through our SIEM solution. On a quarterly basis, all accounts including privileged accounts are reviewed.

Privileged access rights to the AIX Operating System are approved by senior management. Primary logical access control to the AIX server is provided by security provisions of the AIX operating system, which includes access to data, programs, and system utilities. The system security level requires a unique user ID and password for sign-on.

Password management controls at the network and operating system layers (e.g., minimum length, expiration requirements, complexity, etc.) have been implemented in compliance with corporate security standards. Access rights are removed or modified as necessary when employees change job functions.

Application-level security is provided by Columbia Ultimate and is administered by the IT Department. System files, utilities, authorization lists, data files, and application programs are restricted through the user's AIX profile. Users do not have update or delete access to sensitive files and are restricted by their user profiles to an initial program which directs them to the CUBS® application. If a transaction must be stored temporarily due to a loss of connectivity or similar event ("store and forward" situation), the account number and sensitive authentication data must be encrypted until connectivity is restored and the transaction can be authorized. Acceptable algorithms must be proven and publicly reviewed.

Automatic Email Encryption of Sensitive Data

To ensure message security to any destination, Microsoft Bitlocker provides a gateway to desktop encryption and authentication without needing special endpoint agents or PKI infrastructure.

Gramm-Leach-Bliley Act Compliance

2. Work Plan for Providing Requested Services

Harris & Harris is fully compliant with the Gramm-Leach-Bliley Act and has successfully undergone numerous client-required or client-performed GLBA audits with full compliance confirmed.

Data Security

Harris & Harris secures and manages its data through our secure Cisco Networking environment. At the core of this infrastructure is the Cisco Adaptive Security Appliance. This mission critical system includes:

- World Class Firewall
- Hardened Network Structure
- VPN Remote Security
- SSL – Encryption
- Intrusion Prevention Integration
- Anti-virus
- Anti-spam
- Anti-phishing
- Web Filtering Services

To complement our core infrastructure, we use the leading intrusion and prevention system available, the Cisco Monitoring Analysis and Reporting System (MARS). Cisco MARS provides security monitoring for network devices and host applications supporting both Cisco and other vendors. Security monitoring with MARS greatly reduces false positives by providing an end-to-end topological view of the network, which helps improve threat identification, mitigation responses, and compliance.

Key features of this powerful security appliance include:

- Captures and gains Network Intelligence
- Analyzes both external and internal activity
- Intelligence used to identify threats
- Intelligence used to protect and be proactive

- Topological graphs that simplify security response at Layer 2 and Layer 3
- Emails IT contacts of problems or possible attacks
- Integrates with Web Filtering Services

Both key appliances, the Cisco ASA and the Cisco MARS, have been integrated with Websense for full Web Filtering Services. Websense is based on technologies and hosted solutions that provide integrated network security threat defense and policy-based control over our Web-sensitive data. Websense is unique in the industry in allowing control of all the critical elements of Web, data, and messaging security, including:

- Who is authorized to access specific Web sites, sensitive content, or applications

2. Work Plan for Providing Requested Services

- What data is critically important to your organization and must be protected from accidental or intentional leaks
- How sensitive data is to be communicated, and how online resources can be used safely and productively by your business
- Where users are allowed to go online, and where sensitive data can be sent safely

Be assured that all data elements received and collected by Harris & Harris are maintained in a secure environment. In addition, due to extensive pre-employment checks, Harris & Harris can rely on our employees to ensure data security by carrying out our policies regarding:

- Data Storage, Retention and Disposal
- Firewall and Router Policy and Configuration Standard
- Building Security
- Credit Bureau Viewing
- Data Encryption
- Key Storage and Management
- Use of Personal Cell Phones
- Use and Access to Printers
- Use and Access of Data Storage Devices

Removable Media Policy

Harris & Harris takes great measures to ensure the safety and security of all client data. Employees are not allowed to bring personal computers or other personal electronic devices to the workplace or connect them to electronic systems unless expressly permitted to do so by the Director of IT. Those devices include but are not limited to desktop or laptop computers, USB memory sticks, iPods™ or other MP3 devices, external disk drives, CD/DVD burners, or other portable data storage devices.

Personnel are equipped with computers that prevent the hookup of storage devices, USB, serial or parallel ports to prevent unauthorized duplication of information. Only authorized and necessary personnel are equipped with computers that have peripheral connectivity. Our operating system truncates drivers' license numbers, Social Security numbers, and credit card and bank accounts to the last four digits, thus preventing unauthorized access to private financial and identifying information.

Laptop and Mobile Phone Security

SafeStor EndPoint Protection will protect our laptops in the event they are lost or stolen. Key features include:

- Provides cloud-connected data protection and security for endpoint computing environment, extending server-level coverage to incorporate laptop/desktop-level.
- Policy-based administration of endpoint environment enabled through intuitive graphical interface.
- Dashboard facilitates monitoring/reporting activities of all data-management operations.
- Enterprise data-backup/recovery solutions.

2. Work Plan for Providing Requested Services

- Backup activity is automatic and continuous in the background, without degrading machine performance.
- Source-side de-duplication, block-level technology and compression reduce transmission volume, minimize bandwidth, and accelerate the backup process while cost-effectively reducing storage load.
- Online reconnection activates automatic backup from local machine's cache to off-site storage.
- Fast data- recovery/restore process following downtime event or if machine has been compromised, destroyed, stolen or is just being replaced.
- Advanced encryption technology protects all files at rest on the hard drive, during the backup process and during file recovery.
- Port-access control prevents data leakage to a variety of external devices.
- Remote data deletion facilitates information shredding on-demand or via time trigger.
- Device tracing discourages employee thievery and develops routing information for law enforcement.
- Compliance conformity enhanced by off-site, professionally staffed, Tier IV data center having SSAE 16 (SOC 2) certification.

MaaS360 by Fiberlink will protect our mobile devices (mobile phones & Ipads) in the event they are lost or stolen. Key features include:

- Dynamic security and compliance features continuously monitor devices and take action
- Specify passcode policies
- Enforce encryption settings
- Detect and restrict jailbroken and rooted devices
- Remotely locate, lock and wipe lost or stolen devices
- Selectively wipe corporate data leaving personal data intact
- Create real-time compliance rules with automated actions
- Use geo-fencing rules to enforce location-related compliance

Physical Security

We have implemented advanced physical security enhancements to protect client data and ensure the safety of our staff. During normal business hours, every employee is required to wear and display their employee photo key card. The keycard is used to identify current employees, to allow access to designated areas, and to prevent access to non-designated areas. These keycards are distributed at the time of hire and are deactivated at the time of the employee's separation from Harris & Harris.

All access to all our facilities is controlled by our badge access systems, and badges must be worn and always displayed. Access to data centers or other secured areas, such as payment processing, wire/data closets, etc. is controlled via a combination of badge and biometric access. Our security training enforces that no badge sharing or badge accommodation (e.g., holding a secured door open for someone) is permitted. All sites also have CCTV cameras with footage maintained for at least 90 days. All data rooms that contain network equipment and cabling and all data centers meet the two barrier requirements.

2. Work Plan for Providing Requested Services

In our office locations you must go through badge doors to get to a data room or data center area with processing or networking equipment. Once you get through the first badge access point you will get to a room with a badge and biometric reader to get into the data center or wiring closet in our physical office spaces. In our co-location facility, to get to the data center floor, you need to go through an outside door to the building that has badge access only, then there is a lobby/public area. The front entrance in the public area is manned by a security guard. From there you start your journey to the data center floor. The first set of doors is badge access. Once inside the first door and it closes there is a second door that you must badge through (man trap). Then you walk down a hallway and get to the door of the data center room where our equipment is. To get into that door you need to use your badge as well as a biometric fingerprint. Once inside the data center you will make your way to our cage where only our equipment is located. To get inside our cage you need to use badge access. Once inside our cage you get to the racks with a key that Harris & Harris maintains. The cages always remain locked.

The office doors in each suite are locked, and each employee must scan their key card to gain access. Each access is monitored and logged to identify any unusual trends. Specific reports are generated using the computer system at the request of management only. These reports can be requested for specific days, by employee information, and for specific suites as needed. Our call center is also equipped with state-of-the art video surveillance and motion detection.

Access to the server room is controlled by biometrics (fingerprint reader) and key card entry. The access control unit will not unlock the door unless the fingerprint matches the authorized key card presented. Access to our payment processing suite is similarly secured by a biometric and key card reader, as well as additional video and motion detecting devices. No employee is permitted to be alone or unsupervised in this section of our workspace at any time.

During non-operation hours, all suites have an ADT alarm system set and locked dead bolt. When the night cleaning crew, maintenance crew, or an authorized Harris & Harris IT staff member is present in the suite, the door always remains deadbolted. All exterior doors remain closed and are always locked. There are no exceptions for a door being propped open. Every door must remain shut with the alarm set or deadbolt locked. All interior offices are locked and remain locked unless the cleaning service is cleaning that suite.

11.5 CONTRACTOR shall develop and maintain a written Quality Control Plan to ensure compliance with all of the CONTRACTOR'S responsibilities as set forth in this SOW. The CONTRACTOR'S initial plan shall be submitted within five (5) business days after execution of the contract. Updates shall be submitted to the COUNTY PM for approval within ten (10) business days. The Plan shall include, but not be limited to, the following information:

11.5.1 The activities to be monitored on either a scheduled or unscheduled basis, how often monitoring will be accomplished and the title of the individual(s) who will perform the monitoring.

11.5.2 Methods for identifying deficiencies in the quality of service before the level of performance becomes unacceptable and not in compliance with the contract.

11.5.3 Methods for documenting the monitoring results and, if necessary, the corrective action taken.

11.5.4 CONTRACTOR shall provide COUNTY/COURT a quarterly audit showing the results of the Quality Control Plan (Attachment I).

2. Work Plan for Providing Requested Services

11.5.5 CONTRACTOR shall have an independent audit performed over service organization controls and maintain a clean audit opinion in accordance with Service Organization Controls (SOC1) reports – formerly Statement on Auditing Standards (SAS) No. 70 Type 2 Report. This audit shall be performed annually, and the independent auditor’s report submitted to the COUNTY PM.

11.5 Quality Control Plan

Agreed. Harris & Harris has read, understands, and agrees to comply with the entirety of the 11.5 requirement. Upon execution of the contract, we will prepare and subsequently submit to the County Project Manager within five (5) business days a written **Quality Control Plan** in full accordance with Attachment I that includes but is not limited to all above stated requirements including monitoring of activities, identifying deficiencies, and documenting monitoring results (and as necessary, documenting any necessary corrective action taken). Moreover, we agree to provide quarterly audit reports that demonstrate the results of the Quality Control Plan as well as the required annual Service Organization Controls (SOC) reports.

For reference, we have provided beginning below a description of our standard Quality Control and Assurance program, to include a preliminary statement and discussion of any anticipated major difficulties and problem areas for this specific contract, together with potential or recommended approaches for their solution.

Anticipated Difficulties and Potential Solutions

Harris & Harris offers the Court the differentiating advantage of incumbency for the revenue enhancement services. With **established relationships**, existing **interface with the case management and collection management systems**, and extensive experience with the Court, we do not anticipate any significant difficulties with implementing and performing the services required under the new contract. Still, with our decades of experience in implementing projects of this size and scope, we know the biggest potential for difficulties is the potential lack of resources the client has available for the implementation while still managing the existing contract. Be assured that Harris & Harris mitigates the need for those resources as much as possible through a structured implementation process that maintains continual contact with each client’s key representatives (for this contract, the Project Director and the Project Manager). We will be in contact with these and other designated Court and County contacts on a regular basis to understand other pressures and tailor our process for our mutual benefit.

Quality Assurance and Control

Maintaining quality standards is a top priority at Harris & Harris. We have developed a sophisticated suite of metrics, processes, and reports that enable us to effectively monitor the debt collection process and continually exceed client and customer expectations. Our significant investment in the latest physical and data security measures and an unwavering adherence to the laws and regulations that govern our industry ensure that collections made on our clients’ behalf strictly adhere to all compliance standards. We constantly monitor each agent’s work queue and assignment of accounts, ensuring our staff’s ability to stay current, maintain expected goals and recoveries, and adhere to company guidelines.

Harris & Harris ensures comprehensive quality monitoring by using a combination of software and daily real-time call monitoring by supervisors and quality assurance staff. The valuable insights we collect enable us to continually analyze productivity, improve systems, and strengthen performance.

The program also analyzes every interaction for FDCPA compliance adherence, automates call scoring, and offers opportunities for coaching insights. This will provide the Court with the most up-to-date information about our call analytics process as it performs:

- Analysis for 34 standard evaluation parameters, including:
 - FDCPA compliance
 - ✓ Help Eliminating Reg F Risks
 - ✓ Right Party Contact
 - ✓ Mini Miranda

- 100% call monitoring and recording of every debtor-agent interaction
- AI-assisted scorecards, which:
 - Evaluate Calls
 - Review Performance
 - Analyze Trends
- Coaching Insights
- Customizable reporting with the touch of a button
- Improved call coverage and call efficiency

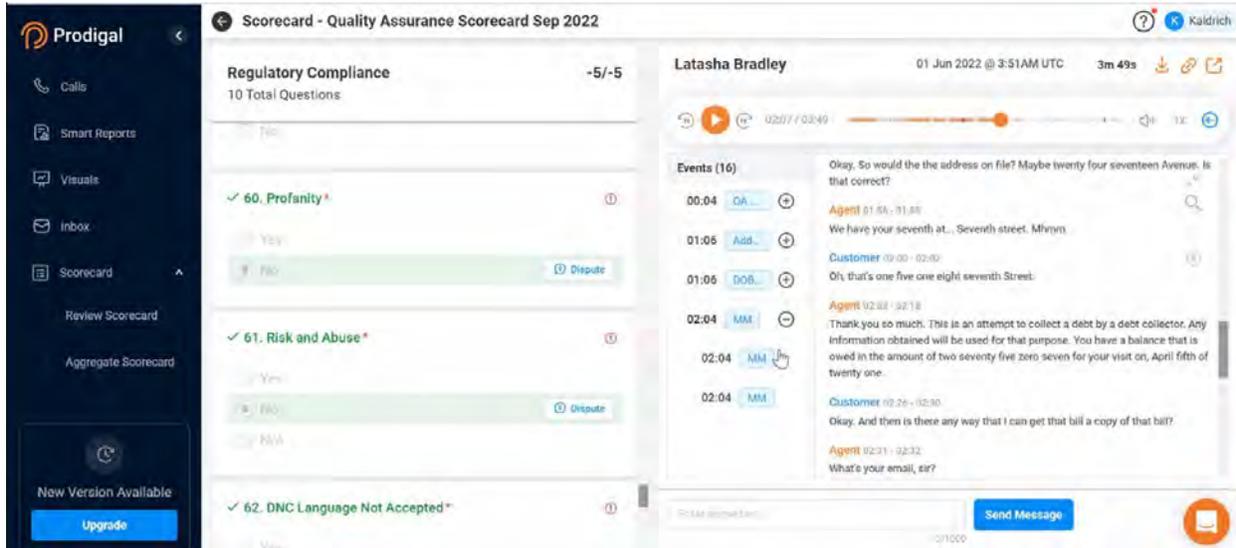

ProInsight provides a **scorecard** for each agent, which drills down on the collection agents' daily efforts, providing invaluable insight at a granular level of each agent's strengths and weaknesses. This system works in conjunction with our call recording system and evaluates the extent to which the agent provided appropriate information, updated the account for proper follow-up, suggested reasonable solutions, spent an appropriate amount of time on the telephone, and so forth. Teramind

Harris & Harris also uses **Teramind** comprehensive employee monitoring software. **Teramind** provides employee screen video recording and a live view of all our agents' activities on their computers, including screenshots every ten minutes, mouse movements, and keystroke logs. It also provides dashboard reporting to all leadership.

We use the data provided through Teramind to develop our employees through coaching and mentoring. The collected data can be used for process optimization, insider threat detection, and data loss prevention. We can detect whether employees are compliant with company and client requirements, their level of productivity, and if they are showing any risky behavior.

This powerful QA program enables:

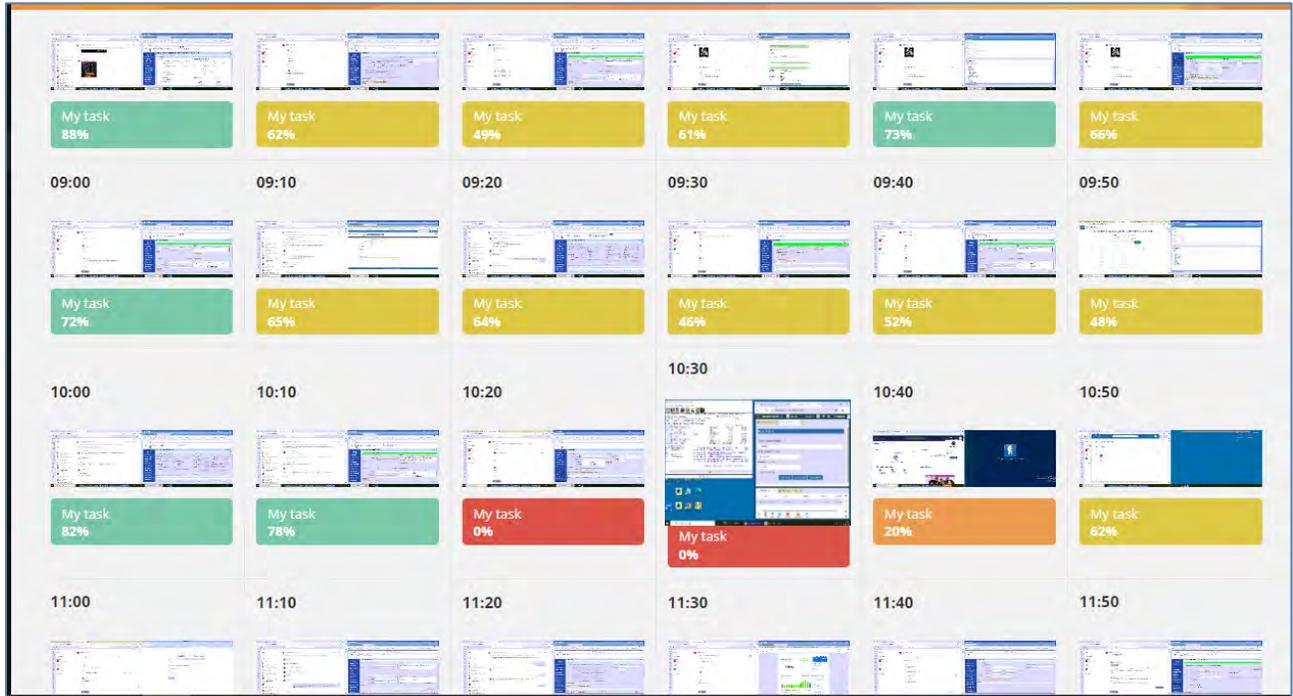

- Identification of top- and low-performing employees and analysis of their work habits
- Labeling of apps and websites employees use as productive or unproductive
- Identifies workflow bottlenecks and redundancies to streamline processes and increase productivity
- Receipt of alerts and sending messages to employees when they're being unproductive for too long

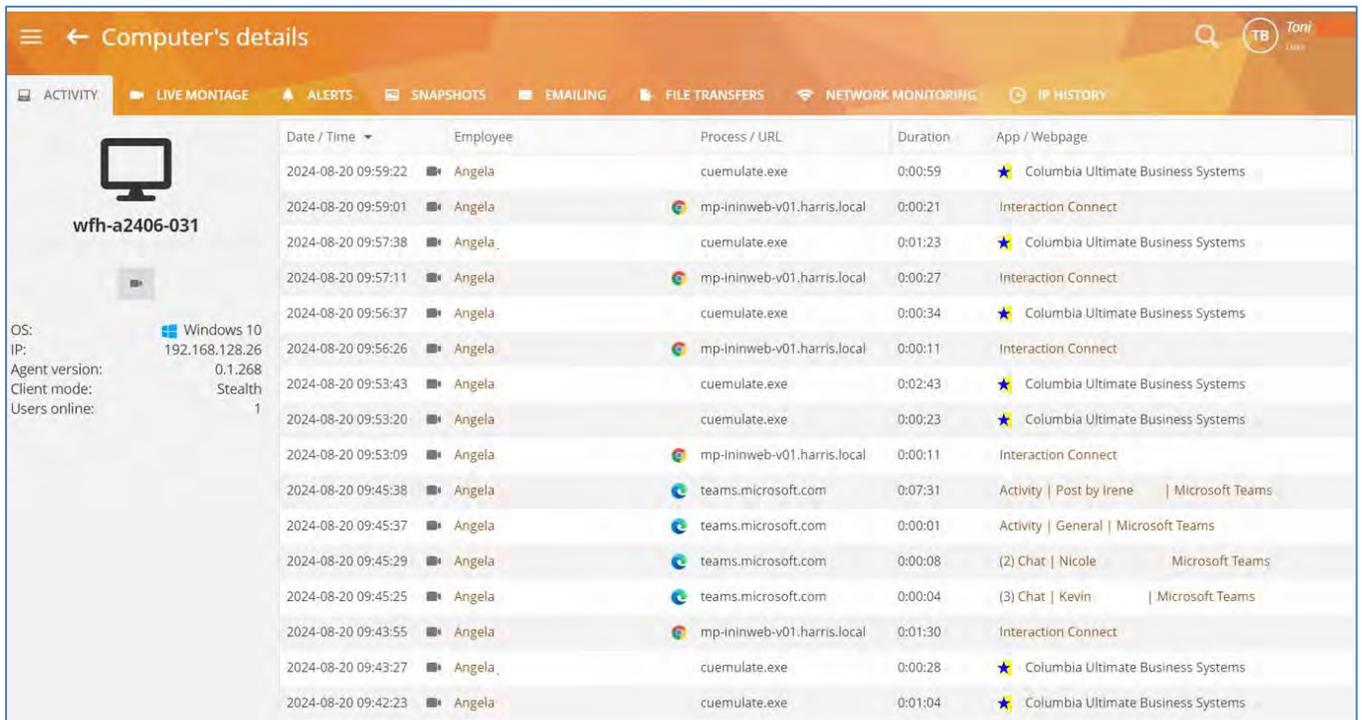

We have provided beginning below sample screenshots of the Teramind platform that provides real-time visibility into each agent's desktop activity.

This first screen below shows a gallery of snapshots of an agent's screen every ten minutes.

Teramind is also very useful in the case of a debtor complaint. The supervisor can look at the screen capture, transcript, and the keystrokes and determine what happened during the call. This functionality, in addition to access to **call recording**, helps supervisors see what actually happened.

Real-Time Call Monitoring

Harris & Harris records 100 percent of all inbound and outbound calls and can readily make these recordings available to the Court.

Our dedicated quality assurance team listens to and evaluates two calls per collection representative per month using 34-point audit criteria based on our call model. Our real-time software platform delivers the audit scores to the representative immediately upon completion of the audit to ensure the implementation of any necessary behavior change(s).

2. Work Plan for Providing Requested Services

Supervisors receive email confirmation of new audits and review the calls and areas of opportunity with the collection representative. Collection representatives must maintain an audit score of 80 percent to avoid being put on a Performance Management Plan of progressive disciplinary action. Our quality assurance program:

- Ensures that we stay in compliance with company policies and federal, state, and local laws
- Prevents legal ramifications
- Ensures that we are optimizing every opportunity to generate revenue
- Develops and cultivates proper communication skills

Each vertical has an audit form that is custom to its department. The form is to be scored with a view utilizing guidelines created by department specifics and call model. Each call is to have a simplified summary with an overview of what was done on the call as it pertains to the audit form.

In-House Random Monitoring

In random monitoring, the session is scored using a quality scoring form developed to address the specific criteria of each client. When a random monitoring session is completed, the supervisors will review the results with the representative, highlighting both positive and negative aspects, identifying areas for improvement, and discussing any training needs. To complete the session, both the agent and the supervisor sign off on the monitoring form, and it is added to the employee's permanent file. Scores are recorded and can be compiled by agent, team, or client for reporting purposes.

Side-by-Side Monitoring

Each agent receives five distinct side-by-side sessions comprised of multiple phone calls with their supervisor. The supervisor evaluates each session for accuracy, effort, and quality using criteria based on the quality standards dictated by the client in combination with Harris & Harris' internal performance standards. After scoring, the supervisor discusses the results with the agent. If the score falls below minimum standards, the agent undergoes additional training, mentoring, and coaching.

Floor Coaching

Floor Coaches, who are half-time collection agents and half-time floor coaches, represent our most experienced agents. They hover the call center floor physically and virtually to assist agents with questions, to take over calls to resolve a conflict, or to collect monies when the agent is unable to close the call.

Peer Review

Harris & Harris uses call recordings to train in the group setting as well. Our collection team joins supervisors in a group peer setting monthly. Collection staff serve as judges in a panel and score calls. We use this fun and engaging activity to share collection call strategies between our collectors and to identify areas for corrective action or improvement

Interdependence of Quality and Training

Monitoring for quality requires not only that we identify and address individual representative quality and performance issues, but that we also accurately analyze the source of quality issues

2. Work Plan for Providing Requested Services

and address them effectively through modification of our training program and curriculum. This strengthens our training program, because trainers can anticipate common problems and address them early in the training process. The result is that each successive new employee is a more effective part of the team from Day One.

Collection managers and their units meet daily to discuss issues and allow for any questions and feedback. Similarly, management teams meet regularly to discuss strategy and ways to improve performance. We approach the quality assurance process in a structured manner, enabling us to provide impeccable debtor interactions and best-in-class quality to our clients and their respective customers.

11.6 CONTRACTOR'S internal account processing shall also include a History of Activity for each account, which lists the type and date of all activities, such as letters, telephone calls, involuntary actions, etc., employed by CONTRACTOR.

11.6 Internal Account Processing

Agreed. As described in greater detail in our response to the Scope of Work, our collection platform provides the County/Court with exceptional reporting capabilities for our collection activities and account processing. **Every event associated with an account** – whether a letter sent, telephone contact (both successful and unsuccessful), payment arrangements, payment received, etc. – **is recorded in granular detail and is available for immediate review** via the online client portals of Curator and Client Access Web[®], interim review as afforded through scheduled reporting, and during the normal quality-control checks performed by management or in the course of a client or internal audit. Be assured the County/Court will have guaranteed access including 24/7/365 access online to a **History of Activity** for every account placed with Harris & Harris.

B. Insurance Requirements Applicable to Required Policies.

- (1) The cost of all insurance required by the Agreement is the sole responsibility of Contractor, and is a component part of Contractor's agreed compensation.
- (2) Contractor shall maintain the minimum insurance set forth in this section with reputable insurer(s). All insurance policies shall be placed with insurers admitted in the State of California and having an A.M. Best rating of not less than A-.
- (3) By requiring such minimum insurance, the Court will not be deemed or construed to have assessed the risks applicable to Contractor. Contractor shall assess its own risks and if it deems appropriate and/or prudent, maintain greater limits and/or broader coverage.

- (4) For full coverage, each insurance policy shall be written on an “occurrence” form, except for professional liability insurance, which may be made on a “claims made” form. If coverage is approved and purchased on a “claims made” basis, Contractor warrants continuation of coverage, either through policy renewals or the purchase of an extended discovery period, for three (3) years, without lapse, from the date of termination or expiration of the Agreement and the Court’s acceptance of all work provided under the Agreement. The retroactive date or “prior acts inclusion date” of any “claims made” policy must be no later than the date that the work commences under the Agreement.
- (5) If Contractor is an association, partnership, or other joint business venture, the basic coverage may be provided by either of the following methods:
- (a) *Separate*. Separate insurance policies issued for each individual entity, with each entity included as a named insured or as an additional insured; or
 - (b) *Joint*. Joint insurance program with the association, partnership, or other joint business venture included as a named insured.
- (6) Deductibles and Self-Insured Retentions. The deductible and/or self-insured retentions shall not limit or apply to Contractor’s liability to the Court and shall be the sole responsibility of Contractor. Contractor shall declare to the Court all deductibles and self-insured retentions that exceed \$100,000 per occurrence. Any increases in deductibles or self-insured retentions that exceed \$100,000 per occurrence are subject to the Court’s approval.
- (7) Endorsements; Additional Insureds. All required insurance policies will contain, or be endorsed to contain, the following provisions:
- (a) Additional Insureds. The State of California, the Judicial Council of California, and the Superior Court of California, County of Los Angeles, and their respective elected and appointed officials, judges, officers, and employees shall be covered as additional insureds for liability arising out of activities performed by, or on behalf of, Contractor under the Agreement. This requirement applies to Contractor’s commercial general liability policy, automobile liability policy, and, if applicable, umbrella policy.
 - (b) Primary Insurance; Waiver of Subrogation. Contractor’s insurance coverage shall be primary and non-contributory with any insurance or risk management programs covering the Court or court personnel. Contractor and its insurance carrier waive any and all rights of subrogation against the State of California, the Judicial Council of California, and the Superior Court of California, County of Los Angeles, and their respective elected and appointed officials, judges, officers, and employees.
 - (c) Separation of Insureds. Contractor’s insurance shall apply separately to each insured against whom a claim is made and/or lawsuit is brought, except with respect to the limits of the insurer’s liability.
 - (d) Notice. All policies required of Contractor shall be endorsed to provide written notice to the Court of cancellation in coverage, non-renewal, or reduction of coverage within fifteen (15) days.
- C. Failure to Maintain Insurance / Failure to Provide Certificate(s) of Insurance.
- (1) If Contractor fails to maintain adequate insurance policies conforming to the above requirements, including the appropriate certificate holder/additional insured endorsements, primary/noncontributory and waiver of subrogation clauses, and amounts and extent of coverage, Contractor shall indemnify, defend (with counsel satisfactory to the Court), and hold harmless the State of California, the Judicial Council of California, and the Superior Court of California, County of Los Angeles, and their respective elected and appointed officials, judges, officers, and employees for all claims, damages, losses, judgments, liabilities, expenses, and other costs, including court fees, litigation or settlement costs, attorneys’ fees (including attorneys’ fees incurred in enforcing this indemnification clause), arising or resulting from, or in connection with Contractor’s

performance or breach of the Agreement, notwithstanding any clause or amounts limiting Contractor's liability to the Court. Contractor's failure to maintain adequate insurance policies conforming to the above requirements may be considered a breach of the Agreement.

- (2) Before Contractor begins work, Contractor shall submit certificates of insurance to the Court's insurance compliance and tracking provider, as specified in this Agreement, attesting to the existence of adequate coverage. If the insurance expires during the term of the Agreement, Contractor shall immediately renew or replace the required insurance and provide a new current certificate of insurance and signed insurance policy endorsements. All certificates of insurance and replacement certificates of insurance are subject to the approval of the Court.
- (3) Submission of certificates of insurance (or lack thereof) and/or their approval by the Court shall not relieve Contractor of its obligation to ensure that all required insurance policies conform to all foregoing requirements, and to ensure that any exclusions contained in such policies do not unduly or unfairly restrict the coverages required by the Court. Upon the Court's request at any time, Contractor shall provide: (1) complete copies of each required policy; and (2) the same evidence of insurance for its subcontractors as the Court requires of Contractor.
- (4) If at any time, the foregoing policies become unsatisfactory to the Court, as to form or substance, or if a company issuing any such policy becomes unsatisfactory to the Court, Contractor shall, upon written notice from the Court, promptly obtain a new policy, and submit the same to the Court, with the appropriate certificates and endorsements.
- (5) If any of the required policies lapse during the Term, the Court is not required to process invoices after such lapse until Contractor provides evidence of reinstatement that is effective as of the lapse date.

20. Limitation of Liability.

The Court will not be liable to Contractor, its officers, employees, subcontractors, or third parties for any indirect, special, or consequential damages, including lost profits or revenue, arising from or relating to the Agreement, regardless whether the Court was advised of the possibility of such loss or damage. In no event will the Court's liability for direct damages arising from or related to the Agreement, for any cause whatsoever, and regardless of the form of action, whether in contract or in tort, exceed the amounts paid to Contractor by the Court under the Agreement. Neither the Court nor court personnel will be personally responsible for liabilities arising under the Agreement.

21. Loss Leader.

Contractor shall not sell or use any article or product as a "loss leader" as defined in section 17030 of the Business and Professions Code.

22. Minimum Age, Language Skills, and Legal Status of Contractor Personnel at Facility.

Contractor shall not assign employees under the age of 18 to perform work under this Agreement. All of Contractor's employees working at court facilities must be able to communicate in English. Contractor's employees must be legally present and permitted to work in the United States.

23. Modification.

No modification or change to the Agreement, including any changes to Exhibit A (Statement of Work), shall be valid without the written approval of the Court, in the form of an Amendment.

24. Non-Exclusivity.

The Agreement is non-exclusive. The Court reserves the right to perform, or have others perform the work for the Agreement. The Court further reserves the right to bid the work to others or procure the work by other means.

25. Notices.

Notices under the Agreement must be in writing. Notices may be delivered in person, via a reputable express carrier, or by registered or certified mail (postage pre-paid), or electronically (via email). Notice is effective on receipt; however, any correctly addressed notice that is refused, unclaimed, or undeliverable because of an act or omission of the party to be notified will be treated as effective on the first day that the notice was refused, unclaimed, or deemed undeliverable. Notices must be addressed to the other party's Project Director, Project Manager and Contract Analyst designated in the Standard Agreement Cover Sheet. Either party may change its address for receipt of notice by entering a different recipient and address below or by giving notice at any time to the other party in the manner permitted by this paragraph.

26. Prevailing Wages / Public Works.

- A. If this is an Agreement for a Public Work (as defined by California Labor Code §§ 1720 & 1771), Contractor, and all its subcontractors, are subject to the Prevailing Wage rules and regulations imposed by the California Labor Code, Division 2, Part 7, Chapters 1-2 (§§ 1720-1815); and the California Code of Regulations, Title 8, Division 1, Chapter 8, Subchapters 3-6 (8 CCR §§ 16000-17264). Contractor, and all its subcontractors, are registered with the Department of Industrial Relations, and are responsible for paying its workmen at least the Prevailing Rates of Wages, maintaining certified payrolls for inspection by the Division of Labor Standards Enforcement of the Department of Industrial Relations, and complying with all other applicable rules and regulations governing Public Works and Prevailing Wages. Contractor or subcontractor's failure to do so may subject it to fines, penalties, and civil suit; a ban from bidding on future Public Works projects; and misdemeanor penalties. Contractor is responsible for complying with any other applicable federal, state, and local Prevailing Wage requirements whether referenced or not.
- B. Prevailing Wage rates, as determined by the Department of Industrial Relations, can be found at: <http://www.dir.ca.gov/Public-Works/PublicWorks.html>.

27. Prior Work.

Prior work, performed by Contractor pursuant to the Court's authorization, but before execution of the Agreement, will be considered as having been performed subject to the provisions of the Agreement.

28. Prohibited Bids for End Product of the Agreement ("Follow-On Contracts").

- A. If Contractor or its affiliates provides Consulting and Direction (as defined below), Contractor and its affiliates: (i) shall not submit a bid or be awarded a subsequent contract to supply the service or system, or any significant component thereof, that is used for or in connection with any subject of such Consulting and Direction; and (ii) will not act as consultant to any person or entity that does receive a contract described in sub-section (i).
- B. "Consulting and Direction" means services for which Contractor received compensation from the Court and includes: (i) development of or assistance in the development of work statements, specifications, solicitations, or feasibility studies; (ii) development or design of test requirements; (iii) evaluation of test data; (iv) direction of or evaluation of another contractor; (v) provision of formal recommendations regarding the acquisition of Information Technology products or services; or (vi) provisions of formal recommendations regarding any of the above. For purposes of this section, "affiliates" are employees, directors, partners, joint venture participants, parent corporations, subsidiaries, or any other entity controlled by, controlling, or under common control with Contractor. Control exists when an entity owns or directs more than fifty percent (50%) of the outstanding shares or securities representing the right to vote for the election of directors or other managing authority.
- C. To the extent permissible by law, the Court may waive the restrictions set forth in this section by written notice to Contractor if the Court determines their application would not be in the Court's best interest. Except as

prohibited by law, the restrictions of this section will not apply: (i) to follow-on advice given by vendors of commercial off-the-shelf products, including software and hardware, on the operation, integration, repair, or maintenance of such products after sale; (ii) to contractors that were awarded a subcontract of the original consulting service contract that amounted to no more than ten (10) percent of the total monetary value of the original consulting services contract; or (iii) where the Court has entered into a master agreement for software or services and the statement of work at the time of Agreement execution expressly calls for future recommendations among Contractor's own products.

- D. The restrictions set forth in this section are in addition to conflict of interest restrictions imposed on public contractors by California law ("Conflict Laws"). In the event of any inconsistency, such Conflict Laws override the provisions of this section, even if enacted after execution of the Agreement.

29. Public Access to Records and Information.

- A. Rule 10.500 of the California Rules of Court sets forth comprehensive access provisions applicable to administrative records (which includes, among other things, agreements and amendments) maintained by a trial court. The Court will make identifiable administrative records available upon request, unless the records are exempt from disclosure under Rule 10.500. Please be aware that an agreement or amendment may be considered a public record and be made available to anyone who requests a copy.
- B. If an agreement or amendment contains material noted or marked by Contractor as "Confidential" and/or "Proprietary" that, under Rule 10.500 would be exempt from public disclosure, then that information will presumptively not be made available to the public. If the Court considers that under Rule 10.500 such material is not exempt from public disclosure, the material may be made available to the public, regardless of Contractor's notation or markings. If a Contractor is unsure if its confidential and/or proprietary material would fall within the disclosure exemption requirements of Rule 10.500, then it should carefully consider whether to include such information in an agreement or amendment because such information may be disclosed to the public.

30. Public Contract Code.

Part 2.5 of the California Public Contract Code (§§ 19201 – 19210), cited as the California Judicial Branch Contract Law, requires the Judicial Branch (including the Court) to comply with provisions in the Public Contract Code that apply to state agencies and departments regarding the procurement of goods and/or services. The California Judicial Branch Contract Law applies to all contracts initially entered into or amended by Judicial Branch entities (including the Court) on or after October 1, 2011.

31. Recovery of Court Costs Incurred Due to Poor Performance or Non-Performance.

Should the Court incur any costs due to Contractor poor performance or non-performance, and if these Court costs are foreseeable consequences resulting from Contractor poor performance or non-performance, the Court has the right to withhold (and keep) such amounts from any future payment(s) to Contractor. This Court right is not tied to any other Default, Breach and/or Remedy process set forth elsewhere in this Agreement.

32. Scope of Work; Acceptance; Rejection.

- A. **Scope of Work.** Contractor will perform and complete all work in compliance with the requirements of the Agreement, and to the satisfaction of the Court. Contractor shall strictly adhere to the delivery and completion schedules specified in the Statement of Work. Time, if stated as a number of days, shall mean calendar days unless otherwise specified.
- B. **Acceptance.** Notwithstanding any prior inspection or payments, all goods and services delivered hereunder shall be subject to final inspection and acceptance or rejection by the Court within a reasonable time after delivery to the Court. Until work is completed and accepted by the Court, the risk of loss or damage to the work shall remain

with Contractor. All items which are not in compliance with the specifications hereof, which are not as warranted or which are shipped late, shipped in excess or insufficient quantities, or substituted for items ordered hereunder may be rejected by the Court and returned or held at Contractor's expense and risk. No damages or extras will be allowed for unforeseen difficulties or obstructions. Payment shall not constitute an acceptance of the goods, services, or work nor impair the Court's right to inspect or any of its remedies. Contractor shall immediately refund any payment made in error.

- C. Rejection. The Court may reject any goods, services, or deliverables that: (i) fail to meet applicable requirements or acceptance criteria; (ii) are not as warranted; or (iii) are performed or delivered late. The Court's Project Manager may apply any acceptance criteria set forth in the Agreement (including timeliness, completeness, technical accuracy, and conformance to statistical, industry or marketplace standards) to determine acceptance or non-acceptance of the work.
- (1) If the work is not acceptable, the Court's Project Manager shall detail Contractor's failure to meet the acceptance criteria. Contractor shall have ten (10) business days from receipt of the Court's notification of non-acceptance to correct the failure(s) to conform to the acceptance criteria. Contractor will re-submit the work and the Court's Project Manager shall re-apply the acceptance criteria to determine its acceptance or non-acceptance. Thereafter, the parties shall repeat the process set forth in this section until Contractor's receipt of the Court's written acceptance of such corrected work; provided, however, that if the Court rejects any work on at least two (2) occasions, the Court may terminate that portion of the Agreement which relates to the rejected work at no expense to the Court.
- (2) If the Court rejects any goods, services, or other deliverables after payment to Contractor, the Court may exercise all contractual and other legal remedies, including: (i) setting off the overpayment against future invoices payable by the Court; (ii) setting off the overpayment against any other amount payable for the benefit of Contractor pursuant to the Agreement or otherwise; and (iii) requiring Contractor to refund the overpayment within thirty (30) days of the Court's request.

33. Shipping and Packing Slips.

Time is of the essence to delivery and any other performance required of Contractor. No charge for delivery, drayage, express, parcel post, packing, cartage, insurance, license fees, permits, cost of bonds, or any other purpose shall be paid by the Court unless it is expressly included on the face of the Agreement. Unless stated otherwise, shipping point for all deliveries under the Agreement shall be FOB "destination", and on "FOB Shipping Point" transactions, Contractor shall arrange for lowest-cost transportation, prepay and add freight to its invoice, and furnish supporting freight bills over \$25. If delivery is to be made by a carrier, an itemized delivery ticket must be attached to the outside of the package. Each container must be marked with the Agreement number, part number, and quantity. Any itemized packing slip bearing the Court's Agreement number as shown thereon must be left with the goods to insure their receipt.

34. Signatures; Counterparts.

- A. The signatures required for execution of the Agreement may be made by manual signature, or by digital signature that may conform to California Government Code § 16.5 and all California regulations promulgated thereunder (including California Code of Regulations, title 2, division 7, chapter 10), or by any other commercially acceptable signature method, use of which by both parties for signature and execution of the Agreement evidences consent to the validity of the method of signature used.
- B. The parties give the same validity, force, and effect to a scanned, faxed, photocopied, or other accurately reproduced signature as to an original signature.
- C. The Agreement may be executed in counterparts, each of which is considered an original.

35. Standard of Performance; Warranties.

- A. Standard of Performance. Contractor will perform all work with the requisite skill and diligence consistent with professional standards for the industry and type of work performed under the Agreement, and pursuant to the governing rules and regulations of the industry. Contractor acknowledges that the Court relies on the accuracy, competence, and completeness of Contractor's services. Contractor will efficiently use the resources or services necessary to provide the work; and provide the work in the most cost-efficient manner consistent with the required level of quality and performance. The work will be provided free and clear of all liens, claims, and encumbrances.
- B. Warranties.

(1) For a period of one (1) year, unless the Agreement or the warranties provided by a third party for goods or services procured by Contractor provide for a longer warranty period, Contractor expressly warrants that the goods and services covered by the Agreement are: 1) free of liens or encumbrances; (2) merchantable and good for the ordinary purposes for which they are used; and (3) fit for the particular purpose for which they are intended; (4) free from all defects in materials and workmanship; (5) to the extent not manufactured pursuant to detailed designs furnished by the Court, free from defects in design; and (6) conform to the requirements of the Agreement. The Court's approval of designs or specifications furnished by Contractor will not relieve Contractor of its obligations under this warranty.

- (2) Contractor agrees to indemnify, defend, and hold the Court and court personnel harmless from liability, loss, damage and expense, including reasonable attorney's fees, incurred or sustained by the Court by reason for the failure of the goods or services to conform to such warranties, faulty work performance, negligent or unlawful acts, and non-compliance with any applicable state or federal codes, ordinances, orders, or statutes, including the Occupational Safety and Health Act (OSHA) and the California Industry Safety Act. Such remedies shall be in addition to any other remedies provided by law.
- (3) Contractor represents and warrants to the Court that it owns, will own, is authorized, or will be authorized to use for its own and the Court's benefit, all intellectual property rights used and to be used in connection with providing and/or performing the work.
- (4) All warranties will inure to the Court, its successors, assigns, customer agencies, and users of the work provided hereunder. Contractor shall not take any action, or fail to perform any act that results in a warranty or representation becoming untrue. Contractor shall promptly notify the Court if any warranty or representation becomes untrue.
- (5) Unless otherwise specified, the warranties set forth in this Section commence after work has been accepted by the Court.

36. Stop Work.

- A. The Court may, at any time, by delivery of a written Stop Work Order to Contractor, require Contractor to stop any or all of the work, for up to ninety days after the Stop Work Order is delivered to Contractor, and for any further period to which the parties may agree.
- B. Upon receipt of the Stop Work Order, Contractor will immediately comply with its terms and take all reasonable steps to minimize the costs incurred to the Court during the applicable Stop Work period. Within ninety days after a Stop Work Order is delivered to Contractor, or within any mutually agreed extension of that period, the Court will either cancel the Stop Work Order or terminate the work, as provided in the Termination provisions.
- C. If a Stop Work Order is cancelled, or the period of the Stop Work Order or any extension thereof expires, Contractor will resume work. The Court may make an equitable adjustment in the delivery schedule, the

Agreement amount, or both, if (i) the Stop Work Order Increases Contractor's costs or the time required for performance; and (ii) Contractor asserts its right to an equitable adjustment within thirty days after the end of the applicable Stop Work period.

- D. If a Stop Work Order is not canceled and the work covered by the Stop Work Order is terminated other than for cause, the Court may allow reasonable costs resulting from the Stop Work Order.
- E. The Court will not be liable to Contractor for loss of profits because of any Stop Work Order.

37. Survival.

Terms that will survive termination or expiration of the Agreement include those relating to, but are not limited to: assignment, audit rights and retention of records, confidentiality, indemnification, limitation of liability, and warranties.

38. Termination.

- A. Termination for Cause. The Court may terminate the Agreement, in whole or in part, for cause, upon written notice. The Court shall be relieved of any payments, if Contractor fails to perform the requirements of the Agreement at the time and in the manner agreed. The Court may also cancel delivery immediately of all or any portion of unshipped goods or limit Contractor's work and, proportionately, Contractor's compensation. The Court may proceed with the work in any manner deemed proper. All costs to the Court arising from Contractor's default, including costs to complete or correct the work, will be deducted from any sum due to Contractor. Contractor will not be entitled to recover overhead or profit on the uncompleted portions of the work.
- B. Termination for Convenience. The Court may terminate the Agreement, in whole or in part, at any time, for any or no reason, upon written notice to Contractor. Upon receipt of notice of termination, Contractor will promptly discontinue work as specified in the Notice. The Court will pay Contractor for the work satisfactorily performed prior to the termination. Contractor will not recover overhead or profit on the uncompleted portions of the work.
- C. Termination due to Fund Non-Appropriation and/or Availability.
 - (1) The Court's obligations under the Agreement are subject to the availability of funds authorized for this work. Expected or actual funding may be withdrawn, reduced, or limited prior to the expiration or other termination of the Agreement. Funding beyond the current Appropriation Year is conditioned upon appropriation of sufficient funds to support the activities described in the Agreement.
 - (2) Upon Notice, the Court may terminate the Agreement in whole or in part, without prejudice to any right or remedy of the Court, for lack of appropriation of funds. Upon termination, the Court will pay Contractor for the fair value of work satisfactorily performed prior to the termination, not to exceed the total Agreement amount.
 - (3) In the event that budget reductions occur in any fiscal year covered by the Agreement that may cause the Court to consider terminating the Agreement, the parties agree to attempt to renegotiate in good faith the terms of the Agreement to reduce the Maximum Contract Sum in lieu of cancellation under the termination provisions of the Agreement.
- D. Effect of Termination. Upon the Termination Date:
 - (1) The Court shall be released from compensating Contractor for work, other than those Contractor satisfactorily performed before the Termination Date, and for any indirect costs. Without prejudice to the Court, Contractor shall be released from performing work.

- (2) If only a part of the Agreement is terminated by the Court such that Contractor is released from performing a portion of the work, the Court shall accordingly be released from compensating Contractor for that portion of work.
- (3) Court will have the right to take possession of any materials, equipment, and other work including partially completed work. Contractor shall return to the Court any equipment purchased or built with Court funds, with costs incurred by Contractor being reimbursed by the Court. Unless otherwise provided in the Agreement, Contractor will immediately assign to the Court all of Contractor's right, title, and interest in and to such work, related materials, work product, and any and all intellectual property rights.
- (4) Upon termination of any kind, the Court may withhold from payment any sum that the Court determines to be owed to the Court by Contractor, or as necessary to protect the Court against loss due to outstanding liens or claims of former lien holders. Unless otherwise specifically provided, any advance payments made by the Court to Contractor shall be refunded to the Court on a pro rata basis.
- (5) Contractor shall have no claim against the Court, the County of Los Angeles, the State of California, the Judicial Council, and their respective officers, employees, and agents for payment of any money or reimbursement, of any kind whatsoever, for any service provided by Contractor after the expiration or other termination of this Agreement. Should Contractor receive any such payment it shall immediately notify the Court and shall immediately repay all such funds to the Court. Payment by the Court for services rendered after expiration/termination of this Agreement shall not constitute a waiver of the Court, the County of Los Angeles, the State of California, the Judicial Council, and their respective officers, employees, and agents' right to recover such payment from Contractor. This provision shall survive the expiration or other termination of this Agreement.
- (6) Third Party or Court Services
Notwithstanding anything in this Agreement to the contrary, the Court shall have the right to perform or contract with a third party to provide any services or goods within or outside the scope of the work, including services to augment or supplement the work or to interface with the IT infrastructure of the Court. In the event the Court performs or contracts with a third party to perform any such service, Contractor shall cooperate in good faith with the Court and any such third party, to the extent reasonably required by the Court. Such cooperation shall include, without limitation, providing such information as a person with reasonable commercial skills and expertise would find reasonably necessary for the Court or a third party to perform its services relating to the work.

39. Time is of the Essence.

Time is of the essence in the performance of work by Contractor under the Agreement.

40. Waiver; Severability.

- A. Waiver of Rights. The Court's action, inaction, or failure to enforce any right or provision of the Agreement is not a waiver of its rights, and will not prevent the Court from enforcing such rights on any future occasion. A Court-specific waiver does not constitute a waiver by the Court of any earlier, concurrent, or later breach or default.
- B. Severability. The provisions of the Agreement are separate and severable. If any part of the Agreement is held invalid or unenforceable, all other parts remain valid or enforceable, unless prohibited by applicable state and federal law.
- C. Waiver of Jury Trial. To the extent enforceable under California law, each party acknowledges that it is aware of and has had the opportunity to seek advice of counsel of its choice with respect to its rights to trial by jury, and each party, for itself and its successors and assigns, does hereby expressly and knowingly waive and release all

such rights to trial by jury in any action, proceeding, or counterclaim brought by any party hereto against the other (and/or against its judges, subordinate judicial officers, officers, administrators, agents, representatives, and employees) on or with regard to any matters whatsoever arising out of or in any way connected with the Agreement and/or any other claim of injury or damage.

41. Work Site.

With respect to work delivered and/or performed on the Court's premises, Contractor has the responsibility to inform itself fully and shall assume the risk as to the physical conditions at the worksite, including as applicable: (1) the availability, location, and extent of construction and storage areas and other facilities or structures above and below ground, but not limited to gas, water, sewer, electrical, and communication utilities; (2) necessary safety precautions and safeguards; (3) work to be performed by Contractor or others; (4) rules, regulations, and requirements to be observed by Contractor in the conduct of the work. Lack of knowledge of existing conditions will not be accepted as an excuse for failure to perform the specified work, nor shall such excuse be accepted as a basis for claims or additional compensation. Contractor shall conform to any specific safety requirements as required by law or regulation. Contractor shall take any additional precautions as the Court may reasonably require for safety and accident prevention purposes. Any violation of such rules and requirements, unless promptly corrected, shall be grounds for termination of the Agreement.

42. Miscellaneous Provisions Applicable to Specific Contracting Situations.

A. Union Activities Certification.

[OPTION 1: If the Agreement is \$50,000 or under, and allows for the reimbursement of Contractor expenses]

Contractor must include with any request for reimbursement from the Court a certification that Contractor is not seeking reimbursement for costs incurred to assist, promote, or deter union organizing. If Contractor incurs costs or makes expenditures to assist, promote or deter union organizing, Contractor will maintain records sufficient to show that no reimbursement from the Court was sought for these costs, and Contractor will provide those records to the Attorney General upon request.

[OPTION 2: If the Agreement is over \$50,000, and allows for the reimbursement of Contractor expenses]

Contractor must include with any request for reimbursement from the Court a certification that Contractor is not seeking reimbursement for costs incurred to assist, promote, or deter union organizing. No Court funds received under this Agreement will be used to assist, promote or deter union organizing during the term of this Agreement (including any extension or renewal term). If Contractor incurs costs, or makes expenditures to assist, promote or deter union organizing, Contractor will maintain records sufficient to show that no Court funds were used for those expenditures and no reimbursement from the Court was sought for these costs. Contractor will provide those records to the Attorney General upon request.

[OPTION 3: If the Agreement is over \$50,000, but does not allow for the reimbursement of Contractor expenses]

No Court funds received under this Agreement will be used to assist, promote or deter union organizing during the term of this Agreement (including any extension or renewal term). If Contractor incurs costs, or makes expenditures to assist, promote or deter union organizing, Contractor will maintain records sufficient to show that no Court funds were used for those expenditures. Contractor will provide those records to the Attorney General upon request.

- B. Provisions Applicable to **Certain Services with Compensation** over \$200,000. If this is an Agreement for services, other than consulting services, with total compensation over \$200,000, Contractor shall give priority consideration in filling vacancies in positions funded by the Agreement to qualified recipients of aid under Welfare and Institutions Code § 11200 in accordance with Public Contract Code § 10353.

C. Provisions Applicable to **Commercial Office Moving Services Agreements**. If this is an agreement of more than \$2,500 with a carrier for commercial office moving services, Contractor shall abide by the requirements contained in the State Administrative Manual, section 3810, which requires Contractor to employ only drivers and supporting personnel who are under a current collective bargaining agreement or who are paid applicable prevailing wages and employed under prevailing standards and conditions of employment.

D. Provisions Applicable to **Competitively Bid Contracts; Antitrust Claims**.

If work under the Agreement was obtained by means of a competitive bid, Contractor shall comply with the requirements of Government Code sections set out below.

(1) The Government Code chapter on antitrust claims contains the following definitions:

- (a) "Public purchase" means a purchase by means of competitive bids of goods, services, or materials by the state or any of its political subdivisions or public agencies on whose behalf the Attorney General may bring an action pursuant to subdivision (c) of § 16750 of the Business and Professions Code.
- (b) "Public purchasing body" means the state or the subdivision or agency making a public purchase. See Government Code § 4550.

(2) Contractor shall assign to the Court all rights, title, and interest in and to all causes of action it may have under § 4 of the Clayton Act (15 U.S.C. § 15) or under the Cartwright Act (Chapter 2, commencing with section 16700 of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, materials, or services by Contractor for sale to the Court pursuant to the bid. Such assignment shall be made and become effective at the time the Court tenders final payment to Contractor. See Government Code § 4552.

(3) If the Court receives, either through judgment or settlement, a monetary recovery for a cause of action assigned under this chapter, Contractor shall be entitled to receive reimbursement for actual legal costs incurred and may, upon demand, recover from the Court any portion of the recovery, including treble damages, attributable to overcharges that were paid by Contractor but were not paid by the Court as part of the bid price, less the expenses incurred in obtaining that portion of the recovery. See Government Code § 4553.

(4) Upon demand in writing by Contractor, the Court shall, within one year from such demand, reassign the cause of action assigned under this part if Contractor has been or may have been injured by the violation of law for which the cause of action arose and (i) the Court has not been injured thereby, or (ii) the Court declines to file a court action for the cause of action. See Government Code § 4554.

E. Provisions Applicable to **Consulting Services**.

(1) If the Agreement provides for the payment of \$1,000 or more for consulting services, Contractor must deliver detailed performance criteria, a schedule for performance, and progress reports to the Court to allow the Court to determine whether Contractor is on the right track and the project is on schedule, to provide communication of interim findings, and to afford opportunities for airing difficulties or special problems encountered so that remedies can be developed quickly.

(2) If the Agreement provides for the payment of \$5,000 or more for consulting services, Contractor shall attach to the Agreement resumes of each Contractor participant who will exercise a major administrative role or major policy or consultative role. Contractor shall use reasonable efforts to make these participants available to perform services during the term of the Agreement.

F. Provisions Applicable to **Court-Purchased or Court-Financed Equipment**.

(1) If the Agreement provides Compensation to Contractor for a project funded through a grant, at the conclusion of the Project, title to all expendable and non-expendable personal property with a value of \$500 or more

purchased with Court funds shall vest, automatically and without further action of the parties, with the Court. If Contractor provides written certification to the Court that the property will continue to be used for grant-related purposes and the Court approves such certification in writing, the Court may permit title to all such property to remain with Contractor in accordance with the Court's written instructions. Contractor must await specific written instructions from the Court's Project Manager regarding any transfer of title or disposition.

- (2) If Compensation under the Agreement is not through grant funding and the Agreement provides for the provision of equipment purchased or built with Court funds, title to any equipment purchased or built with Court funds shall vest in the Court immediately upon payment of the purchase price. Before delivery to the Court, Contractor is responsible for loss or damage to the equipment to the extent it results from the negligent act or omission of Contractor or its directors, officers, employees, or agents, and Contractor shall make all necessary or appropriate repairs and adjustments.
 - (3) Contractor shall maintain an inventory record for each piece of equipment purchased or built with Court funds provided under the Agreement, except for a piece of equipment that (i) has a normal life expectancy of less than one (1) year, or (ii) costs less than \$5,000 and is not easy to steal. The inventory record must include the date acquired, total cost, serial number, model identification, and any other information or description necessary to identify the piece of equipment. Upon request by the Court, Contractor shall submit to the Court a copy of the inventory record.
 - (4) Upon the expiration or termination of the Agreement, or as otherwise directed by the Court, Contractor shall return such property to the Court in good condition, reasonable wear and tear expected, unless such property was not utilized, and in such case, shall be returned new and unopened from its original packaging.
- G. Provisions Applicable to **DVBE Participation Certification**. Contractor's failure to meet the DVBE commitment set forth in its bid or proposal constitutes a breach of the Agreement. If Contractor used DVBE subcontractor(s) in connection with this Agreement: (i) Contractor must use the DVBE subcontractors identified in its bid or proposal, unless the Court approves in writing replacement by another DVBE subcontractor in accordance with the terms of this Agreement; and (ii) Contractor must complete and return to the Court a post-contract certification form(<https://www.lacourt.org/generalinfo/procurement/contractspurchase.aspx>), promptly upon completion of the awarded contract, and by no later than the date of submission of Contractor's final invoice to the Court. If Contractor fails to do so, the Court will withhold \$10,000 from the final payment, or withhold the full payment if it is less than \$10,000, until Contractor submits a complete and accurate post-contract certification form. The Court shall allow Contractor to cure the deficiency after written notice of Contractor's failure to complete and submit an accurate post-contract certification form. Notwithstanding the foregoing and any other law, if after at least 15 calendar days, but no more than 30 calendar days, from the date of the written notice the Contractor refuses to comply with these certification requirements, the Court shall permanently deduct \$10,000 from the final payment, or the full payment if less than \$10,000. The post-contract certification form shall include: (1) the total amount of money Contractor received under the Agreement, (2) the total amount of money and the percentage of work Contractor committed to provide to each DVBE subcontractor; (3) the name and address of each DVBE subcontractor to which Contractor subcontracted work in connection with the Agreement; (4) the amount of money each DVBE subcontractor actually received from Contractor in connection with the Agreement and the corresponding percentage this payment comprises of the total amount of money Contractor received under the Agreement; and (5) that all payments under the Agreement have been made to the applicable DVBE subcontractors. Upon request by the Court, Contractor shall provide proof of payment for the work. A person or entity that knowingly provides false information shall be subject to a civil penalty for each violation. Contractor will comply with all rules, regulations, ordinances and statutes that govern the DVBE program, including, without limitation, Military and Veterans Code section 999.5.

- H. Provisions Applicable to **Elevator Maintenance Agreements**. If the Agreement provides for elevator maintenance, the Term of the Agreement shall be for a period of no less than five (5) years even if the Coversheet of the Agreement specifies a shorter term; however, the Agreement may be terminated during the Term in accordance with the Termination provisions contained herein.
- I. Provisions Applicable to **Federal or Federally-Assisted Contracts**.
- (1) Funding. If the Agreement is funded in whole or in part by the federal government, then:
- (a) It is mutually understood between the parties that the Agreement may have been written for the mutual benefit of both parties before ascertaining the availability of congressional appropriation of funds, to avoid program and fiscal delays that would occur if the contract were executed after that determination was made.
- (b) This contract is valid and enforceable only if sufficient funds are made available to the Court by the United States Government for the fiscal year in which they are due and consistent with any stated programmatic purpose. In addition, the Agreement is subject to any additional restrictions, limitations, or conditions enacted by the Congress or to any statute enacted by the Congress that may affect the provisions, terms, or funding of this contract in any manner.
- (c) The parties mutually agree that if the Congress does not appropriate sufficient funds for any program under which the Agreement is intended to be paid, the Agreement shall be deemed amended without any further action of the parties to reflect any reduction in funds.
- J. Provisions Applicable to **Legal Services**.
- (1) If the Agreement provides for the performance of legal services, Contractor shall adhere to any legal cost and billing guidelines, legal budgets, and legal bill or law firm audits as may be required by the Court. If the Agreement does not provide for legal representation to low-income or middle-income persons in civil, criminal, or administrative matters, Contractor shall also adhere to any litigation plans or case phasing of activities as may be required by the Court. If the Agreement does not provide for legal representation to low-income or middle-income persons in civil, criminal, or administrative matters, and also provides for Compensation (other than reimbursement of expenses) over \$50,000, Contractor shall also comply with the requirements of Business and Professions Code § 6072, which concerns the performance of pro bono legal services.
- (2) Under Business and Professions Code § 6072, Contractor agrees to make a good faith effort to provide a minimum number of hours of pro bono legal services during each year of the Agreement equal to the lesser of 30 multiplied by the number of full time attorneys in the firm's offices in California, with the number of hours prorated on an actual day basis for any contract period of less than a full year or 10 percent of the Agreement. Failure to make a good faith effort may be cause of non-renewal of the Agreement or another judicial branch or other state contract for legal services, and may be taken into account when determining the award of future contracts with the Court for legal services.
- K. Provisions Applicable to **Janitorial Services or Building Maintenance Agreements**. If the Agreement requires Contractor to perform services at a new site, Contractor shall retain for 60 days all employees currently employed at that site by any previous contractor that performed the same services at the site. Contractor shall provide upon request information sufficient to identify employees providing janitorial or building maintenance services at each site and to make the necessary notifications required under Labor Code §§ 1060 et seq.

- L. Provisions Regarding **Material Safety Data Sheets**. If some or all of the goods provided by Contractor under the Agreement are on CAL OSHA's "Hazardous Substances List," Contractor shall forward a completed Material Safety Data Sheet (MSDS) to the Court.
- M. Provisions Applicable to **Mined Mineral Agreements**. If the Agreement involves the purchase of mined minerals, Contractor shall not supply through the Agreement any sand, gravel, aggregates, or other minerals the Court may not purchase under Public Contract Code § 10295.5.
- N. Provisions Regarding **Recycled Goods**.
- (1) Unless otherwise provided in the Agreement, pursuant to Public Contract Code § 12203(d), Contractor shall use or sell only recycled products under the Agreement to the maximum extent economically feasible, but only if the fitness and quality of such recycled products are equal to non-recycled products.
 - (2) If the Agreement provides for the purchase and sale of goods specified in Public Contract Code § 12207 (for example, certain paper products, office supplies, mulch, glass products, lubricating oils, plastic products, paint, antifreeze, tires and tire-derived products, and metal products), and the percentage of Contractor's postconsumer material in these goods cannot be verified by reference to a written advertisement, including, for example, a product label, a catalog, or a manufacturer or vendor website:
 - (a) Contractor shall deliver a declaration to the Court specifying the minimum, if not exact, percentage of post-consumer material as defined in the Public Contract Code § 12200 in goods offered or sold to the Court, regardless of whether the goods meet the requirements of Public Contract Code § 12209.1;
 - (b) UNDER PENALTY OF PERJURY, the declaration shall be true and correct and will remain so until Contractor delivers any amendment of the current declaration to the Court, in which case the current declaration as amended will be true and correct; and
 - (c) If Contractor sells under the Agreement any printer or duplication cartridges that comply with Public Contract Code § 12209, Contractor shall so specify in the declaration required under this section.
- O. Provisions Applicable to **Rental Agreements**. If the Agreement provides for the rental of personal property, the Court shall have no responsibility for loss or damage to the rented equipment arising from causes beyond the Court's control. The Court is responsible for repairs and liability for damage or loss only to the extent they become necessary and result from a negligent act or omission of the Court or any court personnel. If the Agreement provides for the rental of equipment or other personal property and the Court has not expressly elected through the Agreement to maintain the equipment or other personal property, Contractor shall keep the equipment in good working order and make all necessary or appropriate repairs and adjustments without qualification.
- P. Provisions Applicable to **Small Business Preference Agreements**. If Contractor received a small business preference in connection with this Agreement, Contractor must complete and submit the Small Business Contract Report Form. Contractor assumes an express affirmative obligation to promptly notify the Court if any information on the Small Business Contract Report Form becomes inaccurate. Contractor's failure to meet the small business commitment set forth in its bid or proposal constitutes a breach of this Agreement. If Contractor is a nonprofit veteran service agency ("NVSA"), Contractor must employ veterans receiving services from the NVSA for not less than 75 percent of the person-hours of direct labor required for the production of goods and the provision of services performed pursuant to this Agreement.
- Q. Provisions Applicable to **Work by Facilities Contractors**.
- (1) **Guidelines for Contractor Conduct While Working In Court Buildings.**

These Guidelines for Contractor Conduct are subject to revision and may be modified by the Court at any time. Contractor will be notified of modifications.

- (a) Work areas are to be free of all tools, trash, material packaging, etc., and any other discarded items at the end of each shift. Contractors should take their trash with them at the end of each shift, rather than disposing of trash in court containers.
 - (b) All waste, excess materials, tools, etc. shall be removed from the areas upon completion. The areas shall be thoroughly cleaned.
 - (c) If desk items need to be moved, they must be placed back in the same location (including chairs moved to access under desk space).
 - (d) Vacuum all areas paying special attention to all drywall cutouts and/or ceiling tile debris on floor and around work areas at the end of each shift.

 - (g) Do not prop open any secure doorways. Access cards will be furnished.
 - (h) Do not modify the adjustments on any chairs or remove any chairs from any area.
 - (i) Do not use any court radio, stereo, or TV. (Contractor's crew may furnish their own radio. However, volume must be kept at a low level, as judicial and administrative staff often works after hours).
 - (j) Smoking is prohibited in all Court buildings, including any/all restrooms.
 - (k) Do not use any restrooms in judicial chambers. Only use common area restrooms.
 - (l) Do not leave company items behind once a job is complete (i.e. ladders and tools).
 - (m) Any furniture moves necessary to complete the work must be indicated during the job walk or pre-project planning. No furniture is to be moved without prior notice to the Court's Project Manager.
 - (n) For security purposes, do not allow any person(s) into your work area, or into any other Court Building area. Do not open doors to allow person(s) access into your work area, or any other Court Building area. As you go through doors, be sure to securely pull them closed behind you. Don't let person(s) come through a door along with you.
- (2) **Bonds.** The Court may require written evidence of Contractor's ability to obtain from a reputable bond company required bonds. If requested, Contractor may be asked to supply a fidelity bond covering the dishonest acts of employees or a performance bond covering the completion of work. Bond limits and reimbursement of expenses, if any, shall be determined by the Court.
- (3) **Conduct of Work.** As may be applicable, Contractor shall maintain the work site and perform the work in a manner that meets all legal requirements for the provision of a safe workplace. Contractor will ensure that all work is performed in a safe and satisfactory manner, and that all work conforms to all regulatory and industry standards. Upon completion of the work, Contractor shall remove all equipment and unused materials provided for the work, put the buildings and premises in a neat and clean condition, and do all other cleaning and washing as applicable. Further, Contractor shall comply with safety standards and provisions of applicable laws, building codes, and safety regulations issued by the California Department of Industrial Relations. Contractor shall be liable for damages arising out of injury to the Court's employees or its contractors during performance of the work, provided that the injury or damage was caused by the fault or negligence of Contractor, or by its equipment or tools.

- (4) **Contractor-Caused Damage(s).** Contractor shall repair or replace, at the option of the Court's Project Manager(s), all damage to the building, equipment, or furniture caused by its operations within five (5) working days, and preferable sooner.
- (5) **Court Policy Regarding Drugs / Alcohol / Weapons.**
- (a) Contractor agrees to advise its employees and the employees of its subcontractors and agents that it is the policy of the Court that:
- 1) The use, possession and/or distribution of illegal or unauthorized drugs, drug-related paraphernalia or weapons on the Court's premises, right-of-way, or Job Site is prohibited and the use or possession of alcoholic beverages, except where authorized by the Court's management, is also prohibited;
 - 2) Entry onto or presence on the Court's premises by any person, including Contractor, Contractor's employees, subcontractors, subcontractors' employees, contract personnel, temporary employees and visitors, constitutes consent to the Court to conduct searches, whether announced or unannounced, on the Court's premises of the person and his or her personal effects for such prohibited items, and consent to drug testing at any time while on the Court's premises;
 - 3) Any person suspected or found in violation of the policy or who refuses to permit a search or drug or alcohol test may be removed and barred from the Court's premises, at the sole discretion of the Court; and
 - 4) Contractor personnel who test positive for illegal drugs or unauthorized alcohol as a result of a test conducted on the Court premises, or upon request of the Court, will be removed from any further performance or services under this Agreement.
- (b) Contractor represents and warrants that it has established, maintains, and enforces both a Drug and Alcohol Program and an Operator Qualification Program per industry standards.
- (6) **Inspections.**
- (a) **Materials Inspections.** The Court may from time to time, at its sole good faith option, inspect and test certain materials or equipment. Therefore, in contracting for the purchase of any material or equipment that Contractor will use in the performance of the work, Contractor shall obtain for the Court from the vendor of such material or equipment the right to inspect all such material and the manufacture and fabrication thereof. Whether or not the Court conducts such inspection, the Court shall also have the right to reject all materials or equipment that, in the sole good faith discretion of the Court, fail to conform to either adequate manufacturing specifications, the specifications under which such materials or equipment were purchased or the specifications required for the performance of the work.
- (b) **Field Inspections.** Throughout the performance of the work, the Court shall have the right to designate one or more inspectors or engineers to inspect and test the work site and the progress of the work. Contractor shall cooperate with such inspectors and engineers in order that the work may be fully inspected and that the Court may at all times be fully advised of the progress of the work and the manner in which it is being performed.
- (c) **Inspection Not Acceptance.** Contractor expressly understands and agrees that any inspection by the Court pursuant to this Agreement shall be for the Court's sole benefit and shall not be deemed an acceptance by the Court of all or any portion of the materials or work so inspected. Contractor further understands and agrees that no inspection by the Court pursuant to this Agreement or approval or failure to object to any portion of the work shall relieve or release Contractor from any duties, obligations, or liabilities provided in this Agreement.

- (7) **Liens.** Contractor shall discharge at once, and hold the Court harmless from, liens or stop notices that may be filed in connection with the work. The Court may withhold payment of funds from Contractor in an amount sufficient to discharge delinquent accounts of Contractor or any of Contractor's subcontractors for which liens on the Court's or County's property have been or can be filed or for which stop notices have been or can be filed. Contractor must furnish unconditional lien releases to the Court.
- (8) **Safety Devices.** Contractor shall furnish and maintain all safety devices, e.g., signs, barricades, cones, etc. required to adequately warn and protect all persons who will be utilizing this facility during the course of the work.

The contractor will also encourage its subcontractors, if any, to post this poster in a prominent position in the subcontractor's place of business. Information and posters for printing are available at www.babysafela.org.

5. Contractor's Warranty of Adherence to County's Child Support Compliance Program

The contractor acknowledges that the County has established a goal of ensuring that all individuals who benefit financially from the County through contracts are in compliance with their court-ordered child, family and spousal support obligations in order to mitigate the economic burden otherwise imposed upon the County and its taxpayers.

If the County finds that any provisions of this section (Nondiscrimination and Affirmative Action) have been violated, such violation shall constitute a material breach of this Contract upon which the County may terminate or suspend this Contract. While the County reserves the right to determine independently that the anti-discrimination provisions of this Contract have been violated, in addition, a determination by the California Fair Employment and Housing Commission or the Federal Equal Employment Opportunity Commission that the contractor has violated Federal or State anti-discrimination laws or regulations shall constitute a finding by the County that the contractor has violated the anti-discrimination provisions of this Contract.

9. Notice to Employees Regarding the Federal Earned Income Credit

The contractor shall notify its employees, and shall require each subcontractor to notify its employees, that they may be eligible for the Federal Earned Income Credit under the federal income tax laws. 13. Compliance with County's Zero Tolerance Policy on Human Trafficking

Contractor acknowledges that the County has established a Zero Tolerance Policy on Human Trafficking prohibiting contractors from engaging in human trafficking.

If a Contractor or member of Contractor's staff is convicted of a human trafficking offense, the County shall require that the Contractor or member of Contractor's staff be removed immediately from performing services under the Contract. County will not be under any obligation to disclose confidential information regarding the offenses other than those required by law.

Disqualification of any member of Contractor's staff pursuant to this paragraph shall not relieve Contractor of its obligation to complete all work in accordance with the terms and conditions of this Contract.

14. Compliance with Fair Chance Employment Practices

Contractor shall comply with fair chance employment hiring practices set forth in California Government Code Section 12952, Employment Discrimination: Conviction History. The contractor, its employees and subcontractors acknowledge and certify receipt and understanding of the CPOE. Failure of the contractor, its employees or its subcontractors to uphold the County's expectations of a workplace free from harassment and discrimination, including inappropriate conduct based on a protected characteristic, may subject the contractor to termination of contractual agreements as well as civil liability.

16. Compliance with the County's Living Wage Program

This Contract is subject to the provisions of the County's ordinance entitled Living Wage Program as codified in Sections 2.201.010 through 2.201.100 of the Los Angeles County Code.

17. Contractor's Charitable Activities Compliance

The Supervision of Trustees and Fundraisers for Charitable Purposes Act regulates entities receiving or raising charitable contributions. The "Nonprofit Integrity Act of 2004" (SB 1262, Chapter 919) increased Charitable Purposes Act requirements. By requiring Contractors to complete the Charitable Contributions Certification, Exhibit O, the County seeks to ensure that all County contractors which receive or raise charitable contributions comply with California law in order to protect the County and its taxpayers. A Contractor which receives or raises charitable contributions without complying with its obligations under California law commits a material breach subjecting it to either contract termination or debarment proceedings or both. (County Code Chapter 2.202)

18. Most Favored Public Entity

If Contractor's prices decline, or should Contractor, at any time during the term of this Agreement, provide the same goods or services under similar quantity and delivery conditions, to the federal government, or any state, county, municipality, or district, at prices below those set forth in this Agreement, then such lower prices shall be immediately extended to the Court and the County.

19. Contractor Responsibility And Debarment

19.1 Responsible Contractor

A responsible Contractor is a Contractor who has demonstrated the attribute of trustworthiness, as well as quality, fitness, capacity and experience to satisfactorily perform the Agreement. It is the County's policy to conduct business only with responsible Contractors.

19.2 Chapter 2.202 of the County Code

The Contractor is hereby notified that, in accordance with Chapter 2.202 of the County Code, if the County acquires information concerning the performance of the Contractor on this or other contracts which indicates that the Contractor is not responsible, the County may, in addition to other remedies provided in the Agreement, debar the Contractor from bidding or proposing on, or being awarded, and/or performing work on County contracts for a specified period of time, which generally will not exceed five (5) years but may exceed five (5) years or be permanent if warranted by the circumstances, and terminate any or all existing contracts the Contractor may have with the County.

19.3 Non-Responsible contractor

The County may debar a Contractor if the Board of Supervisors finds, in its discretion, that the Contractor has done any of the following: 1) violated a term of a contract with the County or a nonprofit corporation created by the County, 2) committed an act or omission which negatively reflects on the Contractor's quality, fitness or capacity to perform a contract with the County, any other public entity, or a nonprofit corporation created by the County, or engaged in a pattern or practice which negatively reflects on same, 3) committed an act or offense which indicates a lack of business integrity or business honesty, or 4) made or submitted a false claim against the County or any other public entity.

19.4 Contractor Hearing Board

19.4.1 If there is evidence that the Contractor may be subject to debarment, the County will notify the Contractor in writing of the evidence which is the basis for the proposed debarment and will advise the Contractor of the scheduled date for a debarment hearing before the Contractor Hearing Board.

19.4.2 The Contractor Hearing Board will conduct a hearing where evidence on the proposed debarment is presented. The Contractor and/or the Contractor's representative shall be given an opportunity to submit evidence at that hearing. After the hearing, the Contractor Hearing Board shall prepare a tentative proposed decision, which shall contain a recommendation regarding whether the Contractor should be debarred, and, if so, the appropriate length of time of the debarment. The Contractor and the County shall be provided an opportunity to object to the tentative proposed decision prior to its presentation to the County Board of Supervisors.

19.4.3 After consideration of any objections, or if no objections are submitted, a record of the hearing, the proposed decision, and any other recommendation of the Contractor Hearing Board shall be presented to the County Board of Supervisors. The County Board of Supervisors shall have the right to modify, deny, or adopt the proposed decision and recommendation of the Contractor Hearing Board.

19.4.4 If a Contractor has been debarred for a period longer than five (5) years, that Contractor may after the debarment has been in effect for at least five (5) years, submit a written request for review of the debarment determination to reduce the period of debarment or terminate the debarment. The County may, in its discretion, reduce the period of debarment or terminate the debarment if it finds that the Contractor has adequately demonstrated one or more of the following: 1) elimination of the grounds for which the debarment was imposed; 2) a bona fide change in ownership or management; 3) material evidence discovered after debarment was imposed; or 4) any other reason that is in the best interests of the County.

1.3.2 County/Court Control of Accounts

Linebarger understands the County/Court retains the right to modify the types of accounts referred and to determine which vendor will receive the account. We understand the County/Court will retain all rights to assign, alter, recall, and all other actions for every account. Linebarger is skilled in working with clients in their use of the FTB COD or TIP programs and DMV license holds or suspension of collection services. Linebarger undergoes independent audits to verify our security and control requirements using NIST, PCI, and SSAE 16 [American Institute of CPA's (AICPA)] standards.

National Institute of Standards and Technology Security Standards (NIST)

As a result of a firmwide effort to maximize the already excellent security of our IT systems, in July 2005, Linebarger received its NIST Compliance Letter based upon the NIST 800 series special publications, which provide guidance on developing and implementing a comprehensive computer security program. These documents assist organizations that process “Sensitive but Unclassified (SBU) information.”

The certification process involves an extensive review of every aspect of the firm's information systems security, including disaster recovery, intrusion detection, physical plant security, and virus protection. The firm undergoes NIST compliance verification annually.

Payment Card Industry Compliance (PCI)

Linebarger holds PCI Level 1 Merchant and PCI Level 1 Service Provider certifications. We treat all information and personal data connected with the collection of client accounts as confidential and protect it throughout its life cycle in our systems. Linebarger undergoes an annual PCI assessment of our controls as a Merchant and a Service Provider. An Attestation of Compliance (AOC) and Report on Compliance (ROC) confirms the controls comply with the PCI standards. Only a PCI Qualified Security Assessor (QSA) can issue a PCI Level 1 ROC. An Approved Scanning Vendor (ASV) also conducts a quarterly scan of our technical environment to test our systems' security against the PCI standards. Any deficiencies in PCI standards result in an automatic failure of PCI compliance. Linebarger undergoes annual certifications.

Linebarger has reviewed the 18 elements of Professional Practices Management System (PPMS) program for compliance. Linebarger's current security and process controls meet or exceed the PPMS requirements.

Statement on Standards for Attestation Engagements SSAE16/18 Audits

Linebarger undergoes multiple SSAE16/18 audits of our Service Organizational Controls (SOC) to comply with the reporting requirements for various clients throughout the year. These audits ensure

that Linebarger maintains compliance with the American Institute of CPA's (AICPA) control standards. Each audit consists of verifying and testing our physical, logical, procedural, and technical controls against the AICPA standards for Service Organizations. The process consists of visual inspections, personnel interviews, and policy evaluations. An independent auditor generates a SOC 1 report to document the findings. The report includes all noted deficiencies and a Corrective Action Plan (CAP) if needed, with a set date to remediate. Our last audit confirmed that Linebarger has the necessary controls to ensure that we meet all control objectives.

Linebarger also undergoes audits for SOC 2 and SOC 3. The firm is in full compliance with all requirements to meet these standards as well.

TECHNOLOGY CERTIFICATIONS

Network Security

Within our computer network, ITG develops and deploys strict security protocols to protect clients' data from both external and internal threats:

- > **Endpoint protection:** All Linebarger systems utilize commercial antivirus software. In addition to antivirus software, Advanced Endpoint Protection (AEP) software protects against unknown malware, exploits, and zero-day threats.
- > **Continuous monitoring to prevent intrusion:** A next-generation firewall (NGFW) provides protection at the firm's external perimeter. An Intrusion Prevention System (IPS) also monitors traffic to/from the firewall as an additional layer of protection.
- > **Automated monitoring and notifications:** ITG monitors all Linebarger systems for availability and unusual behavior. They rely on out-of-band systems for logging, real-time alerts, and automated notifications.
- > **Close monitoring of internet communications:** Our system collects information on all inbound and outbound internet traffic.
- > **256-bit end node-to-end node data encryption:** We maintain several virtual private network (VPN) connections, which provide the necessary speed and security.
- > **Password protection:** Access to the firm's computer network requires a unique user ID and password created using "strong" criteria: at least eight characters, a mixture of uppercase and lowercase letters, at least one number, and at least one special character. All users must change their passwords every 90 days. The system does not allow users to reuse recent passwords.
- > **Security at each end node:** Limited, secure end node access protects law firm communications. Each end node has a dedicated IP address, and our end node routers send audit logs to our centralized log server, creating a record of all transmissions.

- > **Access on a strict need-to-know basis:** Once a client's data resides within the Linebarger system, a secure login and password unique to that client prevents accidental or intentional intrusion. We provide the login and password only to those firm employees who need direct access to client data, effectively isolating the client's account data from other system data.
- > **Centralized IT operations:** We will maintain all electronic data associated with the Court project at Linebarger's ITG colocation facility. Located in San Antonio, Texas, this facility's extensive physical and network safeguards protect the information and hardware maintained at this location. Linebarger maintains a leased 10Mbps dedicated connection for all data transfers and data communications with clients.

Secure Data Transfers

Linebarger's ITG division takes extraordinary steps to guarantee security during transmission of client data:

- > **SFTP:** Linebarger's system supports SFTP as a protocol for secure file transfers
- > **Web SSL:** We support HTTPS file transfers through a secure webpage. All data transfers and logons occur within a 256-bit encrypted SSL session
- > **IPSec Tunnel:** Our systems utilize secured FTP or VPN tunnels with a minimum of AES-256 encryption
- > **PGP encryption:** We support the use of PGP for encrypting files that are emailed. Encrypted messages and a user's key work in conjunction with scrambling algorithms so only the intended recipient can decrypt the data

Controlled Destruction of System Outputs

Linebarger follows established procedures for identifying and securely destroying confidential information. Secure physical media is stored in PCI-compliant locked containers for weekly on-site destruction. All containers remain under Linebarger control at all times. Linebarger employees monitor all on-site destruction and receive a certificate of destruction. We employ IT Asset Disposition (ITAD) processes for secure hard drive, memory, and media destruction. Linebarger provides chains of custody and certificates of destruction.

Credit card and debit card payments are available to debtors and accepted by Linebarger with no convenience fee charged or assessed to the debtor. Our online payment portal is found at lgbswebpayments.com.

Linebarger will always work with delinquent account holders to find a reasonable payment plan that fits with the delinquent account holder's budget. The goal is to keep the delinquent account holder compliant rather than having him/her fall off the plan. There is no benefit in establishing plans that are destined to default. Following is a sample poverty guideline we utilize for various client contracts.

10. Uses local, regional, state, or national skip tracing or locator resources or services to locate delinquent debtors.

Linebarger utilizes numerous skip tracing services that work together to offer an overall excellent skip tracing result for our clients. Because of the size of our operations, we are able to take advantage of economies of scale with regard to our skip tracing methodologies. In this regard, our skip tracing efforts are continuous, as opposed to being handled on a routine basis (such as monthly). We obtain excellent skip tracing results faster than our competitors, which allows us to translate new debtor information into resolved accounts and revenue flow for your Court. Monthly skip-tracing sweeps are conducted through a waterfall system, with 16.5 million searches average per month in 2024.

Our 2024 skip sweep for California TIP transmission produced the following:

| Participating Courts | | |
|----------------------|----------------|-----------------|
| Alameda | Fresno | Marin |
| Calaveras | Humboldt | Napa |
| Contra Costa | Kings | San Luis Obispo |
| Del Norte | Los Angeles | San Mateo |
| El Dorado | Lake | Solano |
| | | Yolo |
| TOTAL | 109,163 | |

We send the pre-intercept letter during the month of October for all courts who participate in the program.

Please see pages 76 for our skip trace database flowchart.

11. Uses an automated dialer or automated distribution system to manage telephone calls.

Linebarger utilizes the latest technologies and telephone dialer systems in the industry. The efficiencies gained in managing calls through an automated dialer system provide enormous benefit and account resolution advantages for our clients. During our busiest season, Linebarger contact centers nationwide receive an average of 10,000 calls per day. Our capacity and capabilities are virtually limitless – and fully scalable to any need that your Court referral volume warrants.

12. Uses Employment Development Department employment and wage information to collect delinquent debt.

Linebarger is willing and able to coordinate and communicate with the Employment Development Department (as appropriate and authorized) for wage information to help collect delinquent debt.

Collection Process and Approach

Linebarger has crafted a systematic, efficient collection process designed to optimize revenue for our clients, which we tailor to your receivables portfolio and the regulatory environment in which you operate. From day one, we collaborate with you to develop effective communication strategies to engage your delinquent account holders, offering value-added legal services that typical collection agencies cannot provide. With over four decades of experience, our proven, client-focused process has fostered exceptional customer loyalty and results.

Initial Steps

As an established vendor, there will be little to no downtime. We are constantly looking for ways to improve communication. As such, Linebarger's implementation plan will include:

- > Continue collection services uninterrupted
- > Implement all new requests, reporting, and aspects of the new contract

- > Meet, in-person, with various court locations assigned to the firm – we were unable to do this during COVID. This would be in full coordination and with approval of the Court Project Director.
 - o General question and answer time
 - o Introductions
 - o Goal setting
 - o Special requests

If selected as the sole vendor, the court would see little impact from the transition due to the established process for:

- > Placements, payments, adjustments and cancellations
- > Court date scheduling
- > Letters based on account type
- > Tax intercept interface
- > COD interface
- > JCC report

The key aspects of our collection program, including the phases of project implementation and a detailed data processing flowchart, are presented on the following pages followed by an in-depth description of each step.

FINAL DRAFT

Our Proven Recovery Process

The following is a generic description of our systematic process for collecting delinquent government receivables. We designed our collection system to support our clients' needs, and we can modify it to address your specific requirements.

Account Preparation

The process begins with your transfer of delinquent accounts to our data processing platform. We segregate every account and assign a unique identification code to each one. Every address is verified as deliverable and standardized to comply with United States Postal Service (USPS) specifications. We transfer all accounts with phone numbers to our collector inventory for telephone contact.

Every delinquent account holder is different and therefore the account handling varies based on the situation. Linebarger will work all accounts, regardless of the balance or contact ability score. We will provide repayment options, based on the delinquent account holder's income relative to the poverty level and determined by the Court. All account interactions will put customer service tantamount to anything else.

Process Overview for the Court

Upon account listing from the Court, in most cases the following account flow is in place:

\$0 - \$150

1. Bankruptcy and deceased scrub
2. NCOA update
3. Skip-trace for new address if none provided
4. Send initial placement notice
5. Call account every third day

\$150.01 - \$300

1. - 5. above
6. Second collection notice
7. Consider garnishment action if delinquent account holder refuses to pay

\$300.01 - and over

1. - 7. above
8. Third collection notice

Monthly basis

- > At the first of each month, a sweep is done of all open accounts to locate a new address, phone, asset, DRL and plate data, in states where permitted
- > Manual skip-tracing is done by collectors as needed when the batch routines do not return information

- > The process is repeated as required
- > If a new address is found through the skip-tracing efforts, a letter is mailed.
- > If a new phone is found through the skip-tracing efforts, the phone number is added to the outbound dialing efforts
- > Accounts must have a signed client authorization, refusal to pay, identified asset(s), and be assigned more than 30 days prior to garnishment action. This is a general process and subject to change based on client requirements.

Annual basis

- > Letter on open accounts eligible for TIP

Additional work treatment

- > Special requests are also directed by the Call Center Management team throughout the year

Recalling and Reactivating Accounts

You maintain control over all referred accounts and may recall any account at any time. All collection activity ceases immediately, and we return the account along with a returned account report. You may also deactivate or reactivate an account for collection, depending upon the status of payments from the delinquent account holder or of judicial actions affecting the account. We do not transfer inactive accounts to dialer campaigns or the mailing queue.

Contact by Mail and Phone

Prior to the first attempt to contact delinquent account holders, we seek your approval of demand letter content, contact center scripts, and our proposed communication schedule. Once that is complete, our system will generate an initial letter which, typically:

- > Advises the delinquent account holder that the Court has placed the account with our law firm
- > Provides a variety of contact options (all free of charge) for the delinquent account holder to reach us to discuss payment
- > Includes a payment coupon and return remittance envelope to encourage prompt payment

We have included examples of our Court specific notices in Exhibit A.

If the delinquent account holder does not respond, follow-up letters are sent according to the previously agreed upon letter schedule. We record any returned letters marked “undeliverable” and our automated skip-tracing process begins. If there is a forwarding address, we update the information in our system and send a new letter to that forwarding address.

In tandem with our mailing process, our contact center begins making calls to accounts that have phone numbers. If we capture a telephone number associated with the account through incoming calls or skip-tracing, we use that phone number to make future calls on the account.

NOTE: Every telephone contact complies with all applicable federal and state regulations, as well as your policies regarding such contact. Additionally, each time we reach a delinquent account holder,

the collector confirms the individual's identity and clearly identifies themselves as an employee of the law firm under contract with the Court.

A dedicated toll-free number is assigned to your project for the [delinquent account holders'] convenience. Linebarger includes this number in all correspondence and phone conversations with the Court's delinquent account holders.

An interactive voice response system (IVR) assists delinquent account holders who call the toll-free number designated to the Court's project. This system operates 24 hours a day for the convenience of after-hours callers.

The system presents callers with several options:

- > Make credit card payments
- > Hold for forwarding to a specific collector (maximum wait time of 30 seconds)
- > Leave a message for a specific collector or leave a general message for an individual collector the next morning. We return all calls no later than the following business day.

Client Information Pop-Up

All information is stored in a client information window, which is readily accessible to collection staff every time they access an account. This ensures the delinquent account holder receives the same information regardless of who they speak to from our collection team. Information specific to the Court will be stored in this window so that our team can properly advise individuals. Specific screens can be set up based on the Court's accounts.

Omnichannel Communication

Omnichannel communication enables Linebarger to employ the most up-to-date strategies for contacting and maintaining communication with delinquent account holders. Our IT experts continually fine-tune these strategies using the latest developments in analytics and artificial intelligence (AI).

Key Components of Omnichannel

Utilizing multi-channel integration, we incorporate various communication channels, such as phone calls, text messaging, email, and chat, to ensure they connect seamlessly for our clients. The central database for delinquent account holder information provides consistent and accurate communication across all channels.

Automated workflows send reminders, follow-ups, and notifications on our clients' desired channels. Data analytics track the performance of each channel and make informed decisions about optimizing communication strategies.

These processes and data allow us to effectively engage delinquent account holders, while maintaining compliance with relevant laws and regulations. With specialized dialing, text, and emails, Linebarger can contact delinquent account holders through their preferred communication channels and provide a personalized and efficient experience.

Benefits of Omnichannel

Omnichannel increases the chances of reaching delinquent account holders, resulting in higher debt recovery rates and greater delinquent account holder satisfaction. Streamlining communication across multiple channels boosts efficiency and productivity, ensuring all communications adhere to legal and regulatory requirements, reducing the risk of non-compliance. Utilizing AI technology with Omnichannel communications extends 24/7 availability to delinquent account holders.

MMS Functionality

Linebarger's communication channels include phone calls, SMS (a text of up to 160 characters), MMS (a text that includes text, images, and a website link), and email. Our MMS texting promises to offer individuals a visually guided experience, reducing pain points for delinquent account holders, increasing response rates, and allowing for a smooth self-service experience. Our industry data shows an increase in penetration rate success.

Data Privacy

Linebarger encrypts all data at rest and in motion using the latest encryption algorithms.

Security

All employees receive annual information security training via LGBS University, the firm's online training portal.

Customer service providers and those who handle sensitive delinquent account holder information receive additional, detailed training. The firm requires employees to complete approximately one hour of cybersecurity training annually. Covered topics include:

- > Emails and messaging
- > Strong passwords
- > Phishing
- > Keeping information/passwords secure
- > Locking PCs

Antivirus software is installed on all desktops, servers, firewalls, and internet email gateways. Our antivirus software utilizes signatures, but also heuristics for behavior-based anomalies. The antivirus software is dynamically updated in real-time utilizing data from global Security Operations Centers (SOC) and threat researchers.

FINAL DRAFT

Incoming Communications

If a delinquent account holder calls us with questions or concerns, we note the activity in our system and respond as appropriate and/or seek your review. If a delinquent account holder writes us, we scan the letter, note it in our system, and forward the correspondence to you for review. If there is a need for attorney intervention due to the nature of the communication, the contact center manager advises the appropriate Linebarger attorney, and we inform you that the matter has escalated.

Collection Outcomes

Securing payment in full is Linebarger's first priority. However, our collectors will help delinquent account holders determine if they have the financial resources to pay in full by talking them through a personal financial evaluation that includes the advantages of and strategies for full payment.

Other Outcomes

There are many reasons why a delinquent account holder cannot pay a debt, even in installments. Our collection activities often discover circumstances that restrict collections. In each of these cases, we will follow your instructions and/or seek clarification. Such instances include:

- > Bankruptcy
- > Disputes
- > Inability to pay due to extreme hardship
- > Incarceration
- > Death
- > Settlements
- > Qualified for Ability to Pay program

Bankruptcy: Typically, government-related fees and fines are exempt from bankruptcy discharge. If a delinquent account holder has filed for bankruptcy protection, Linebarger suspends all collection activity to comply with the automatic stay provisions afforded to bankruptcy petitioners. We notify the Court of the bankruptcy, monitor the case, and once it is closed, we will resume collections if that is the appropriate course of action.

Disputes: When a delinquent account holder disputes the amount or validity of an outstanding delinquency, we cease collection activity and seek confirmation from you that we have all the documentation necessary to verify the legitimacy of the delinquency and the amount owed. With your permission, we forward that documentation to the delinquent account holder. If the individual provides evidence that may invalidate the delinquency, we will work with you to review that evidence. We then either close out the account if the delinquent account holder is correct, resume collection activity if not, or recommend further enforcement options should the delinquent account holder continue to refuse to accept the legitimacy of the delinquency.

Inability to pay: If we determine that a delinquent account holder faces a significant personal or financial hardship, we forward the account to you for review and cease all collection activity during this review period.

Incarceration: If we discover a delinquent account holder is incarcerated, we cease collection activity and refer the account to you for review. Collection options may include seeking payment from a spouse in the case of a joint liability or resuming collections once we learn of the individual's release. We maintain records of the individual's place of incarceration, anticipated release date, and location of assets.

Death: If a delinquent account holder is deceased, we suspend collection activity and secure public records to validate the death. If you direct us to do so, we determine if there is a surviving spouse or an estate with sufficient resources to satisfy the delinquent account and resume collections.

Settlements: Unless authorized by you and by the law, we do not discuss the prospect of a compromise settlement with any delinquent account holder. If you authorize such a settlement, we collaborate with you to develop a compromise agreement for the delinquent account holder. We monitor the payments to ensure they meet the terms of the agreement. If the delinquent account holder misses two consecutive payments, we reinstate the full amount of the debt and resume collection action unless otherwise directed by you.

Ability to Pay

Once the Court has determined a defendant is eligible for the ability to pay program, the account will be updated in our system and returned to LASC as directed.

Assisting Individuals with Special Needs

We staff our contact centers so we can be responsive to delinquent account holders with a variety of needs. We are well equipped to accommodate delinquent account holders with hearing or visual impairments using methods and technology that enable our contact center personnel to communicate directly and reliably with them.

Assisting Bilingual Delinquent Account Holders

Many of our professional collectors are bilingual or multilingual, and we have translation assistance available in cases where we do not have staff with the requisite language skills. Our firm utilizes an interpreter service that provides more than 10,000 interpreters in 240 languages. Our collectors simply dial a toll-free number, select the desired language, and include the interpreter/operator on the call so that all communication is recorded, and the delinquent account holders' questions are answered. Our interpreter service works with various government entities such as courts and corrections, employment and labor, and public health.

Bankruptcy Services

When an individual or a business files for bankruptcy, ordinary procedures utilized to collect delinquent court fees and fines may no longer be used. Federal law expressly prohibits any continued attempt by creditors to collect from a bankrupt customer by any means other than the procedures specifically set forth in the United States Bankruptcy Code.

It is our belief that a strong bankruptcy program is a major pillar to effective collection services. Without such services, the biggest cases can be lost. There have been many instances where entities we do not represent have not been paid through the course of a bankruptcy while our clients have been successful in recovering amounts due.

To ensure effective bankruptcy representation, we maintain a separate bankruptcy collection department. The firm-wide bankruptcy department is headed by Partner David Aelvoet. Assisting him are multiple dedicated professionals including nine attorneys and over 30 paralegal and clerical staff support our bankruptcy attorneys. Although not every fee or fine in bankruptcy justifies the expenditure of time and money, when large amounts of delinquent debts that meet the Court's threshold wind up in bankruptcy, we are ready, willing, and able to pursue them throughout the United States.

Linebarger's Professional Contact Centers

Linebarger operates seven professional contact centers across the country, staffed with 188 professionals. These centers rely on state-of-the-art technology for managing all inbound and outbound call campaigns. During peak times, Linebarger contact centers nationwide receive an average of 10,000 calls per day. We update and maintain our systems daily to ensure our collectors are given the support they need while making and/or receiving a continuous stream of calls.

Linebarger's Gig Harbor Contact Center

The Gig Harbor contact center, with backup support from the San Antonio contact center, will conduct the Court's dialer campaigns and respond to all delinquent account holder calls and communication methods for your accounts.

Virtualized Contact Centers

The two virtualized sites enable calling hours from 5:00am to 7:00pm PST Monday through Friday with additional weekend hours. The Court benefits from this process by having coverage for every call that is received, targeted calling campaigns, security of data, and uninterrupted services.

Linebarger relies on virtualized contact center functionality when the load on one center exceeds capacity. These virtualized sites enable us to offer extended calling hours with additional weekend hours. This system also assures our clients that our contact center operations will have little to no downtime in the event of a natural disaster, as they are in different geographic regions throughout the U.S. and unlikely to be affected by the same circumstances. All data is securely managed and maintained by our IT teams over these virtualized networks.

Call Recording

The firm recognizes the need to monitor and record telephone calls for quality control and training purposes. Linebarger integrates its predictive dialer with our collection software system. This system is capable of recording all conversations between delinquent account holders and Customer Services Agents (CSAs). Digital recordings are available to the Court upon request.

We record all calls to protect your interests and the interests of your delinquent account holders. Calls are recorded in discrete tracks, allowing the Court to listen to the collection agent, the delinquent account holder, or both.

These recordings also assist us in better training our collectors and ensuring quality control. We maintain our recordings online for one year and then archive them to offline storage for an additional five years. While the general information of each call is recorded, we do not record credit card information.

Contact Center Capabilities

We are experienced in dealing with call volume fluctuations and manage these events through contact center strategies, technology, and more trained personnel. Our dialer system has 667 lines available for inbound, predictive, message blasting, and internal transfers, across all Linebarger contact centers, with inbound calls ranked as the highest system priority. Our system offers multiple options for inbound callers to select from, based upon client criteria, including self-service, callback, website service, and voicemail for a callback if the caller leaves a message.

Interactive Voice Support

An interactive voice response system will assist callers who use the toll-free number. The system presents callers with several options, including hold for forwarding to a specific agent (maximum wait time of 30 seconds), leave a message for a specific agent, or leave a general message to be forwarded to the appropriate agent the next morning. All calls are returned no later than the following business day.

Payment Management

Just as we customize our collection processes to meet your needs and expectations, we do the same with respect to handling payments. Our goal is to make payment as convenient as possible for the delinquent account holder. For example, all Linebarger collection notices include a detachable payment coupon and a return envelope as well as a link to our payment portal, lgbswebpayments.com.

Convenient Payment Options

If you specify that all payments go to your payment center and a delinquent account holder sends payment to us in error, we date-stamp it, document its receipt, and immediately forward it to you. If additional payments are required, we advise the delinquent account holder of the balance owed and provide the correct mailing address for payments. In the event that you ask us to process some or all payments, we provide multiple payment options in addition to traditional payment by mail. We accept:

- > Checks by phone – The delinquent account holder provides bank account information over the phone to process a payment immediately. We forward the payment to you within 5 to 7 business days to ensure there are sufficient funds in the account to cover the payment.
- > Credit cards – The delinquent account holder provides credit card information either by phone or via our website. All of our contact centers accept credit card payments 24 hours a day through our IVR system. Our credit card merchant processes funds on a daily basis meaning you receive your funds within 48 hours.
- > Mobile device payments – The Linebarger payment website is compatible with mobile devices, allowing delinquent account holders to make payments using a credit card, debit card, or an Automated Clearing House (ACH) transaction.

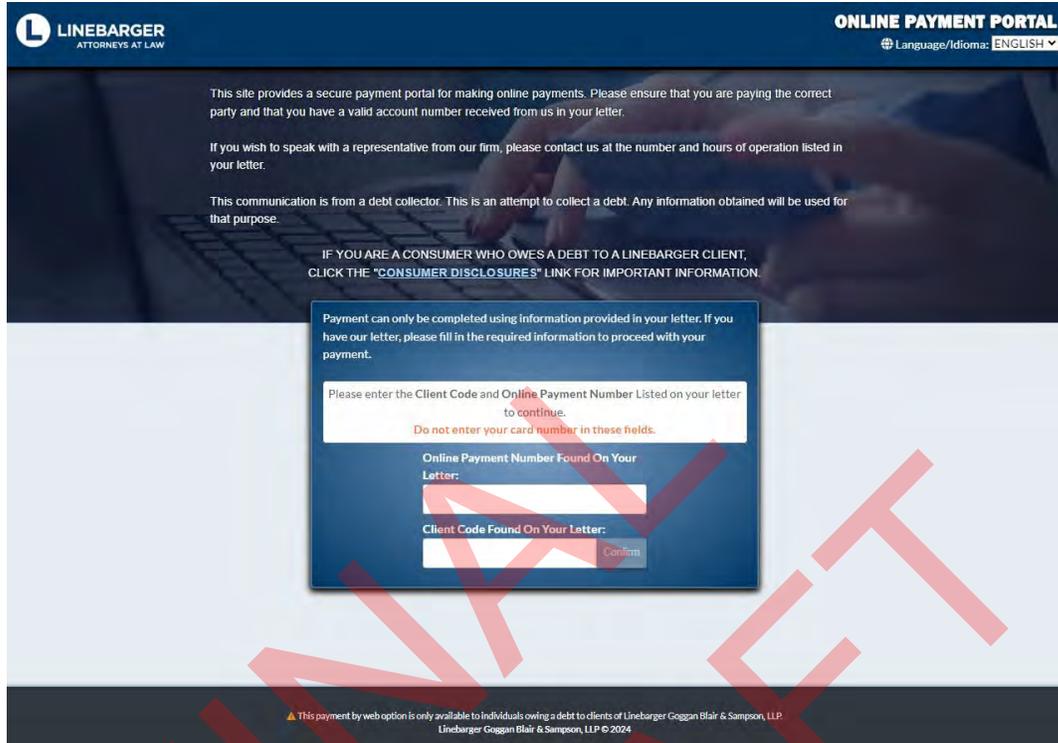

Linebarger meets the payment method requirements outlined within the Court's Scope of Work, item 3.4.3.

Online Payment Portal

Linebarger's online payment portal (lgbswebpayments.com) allows delinquent account holders access to their account balance(s) in real-time 24 hours per day, 7 days per week, and 365 days per year. The real-time balance includes any pending payments and adjustments to reduce the need to speak to a Customer Service Representative. All website traffic is securely transmitted using the latest encryption algorithms, ensuring privacy of information. Linebarger's online portal is PCI compliant as we are PCI Level 1 Certified as a Merchant and Service Provider.

To enhance the delinquent account holder experience and to increase accessibility, the payment portal website dynamically adjusts for the optimal view on any desktop, laptop, or mobile device. Linebarger's secure, real-time online payment portal collected payments from 136,000 delinquent account holders resulting in \$23 million of previously uncollected debt in 2024.

The payment portal has the capability of Spanish or English translation with a click of a button. All letters include a link to our free payment portal, lgbswebpayments.com. Users can also pay with Canadian credit cards.

Customer Support for Online Payments

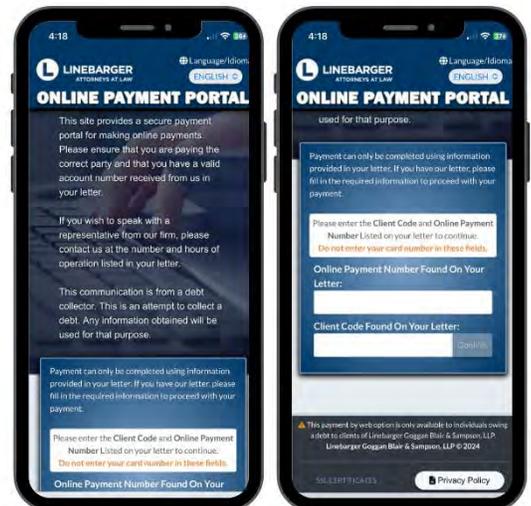

The delinquent account holder is instructed to contact Linebarger at the number provided on their letter for help. This ensures they reach the correct contact center to help them with questions on their accounts.

Mobile-Device Compatible Payment Website

Linebarger’s Fines & Fees Payment website is compatible with mobile devices, allowing delinquent account holders to pay their accounts using credit cards, debit cards, or ACH transactions from their smart phones. If the Court’s payment website is compatible with our mobile application, we could point delinquent account holders to the Court webpage to expedite payments.

No app is required in order to use Linebarger’s mobile portal (lgbswebpayments.com). When you visit the website using your mobile device, it automatically directs you to the mobile portal.

This portal works with a host of mobile devices. Our web portal automatically detects the presence of a mobile device and

provides the same menus and content as our regular website, but in a format customized to display on mobile device, making it easier to read and use.

Our most recent release features:

- > Viewing the website in English or Spanish with a simple click of a button
- > Accepting credit cards issued in Canada
- > Providing enhanced security features to ensure the highest level of PCI compliance

Payment Processing

Should you elect to have Linebarger handle payment processing, we can do so either through our national payment center or via a third-party financial institution (lockbox). In both cases, we handle all payments in a secure environment and document all activities. We have over 20 years of experience in lockbox services. We report daily totals to you and transfer funds to your depository account(s) on a schedule set by you.

Overpayments are handled per your instructions. We treat underpayments as partial payments and collection efforts will continue for the remaining balance. If a delinquent account holder sends an improper amount or falls more than 10 days late in making a payment, the collector will follow up with the delinquent account holder via phone. Payments received on closed accounts will be handled in the manner determined during the implementation phase.

Whether we process payments at our national payment center or via a lockbox, our procedures will provide you with full accountability and security. We segregate important control functions in such a way as to safeguard your funds and ensure that there can be no single point of failure in the process. Moreover, we utilize an internal audit team and an audit committee to maintain an effective control system. These systems offer security with an easy payment experience for our clients and their constituents.

National Payment Processing Center (PPC)

Once payments are received at the PPC, they are digitally imaged and deposited into separate trust accounts. Using the attached coupons or other identifying markers, the payments are coded to delinquent account holder accounts in our CUBS system so credit is given to each payer's account(s). Each trust account is separate and apart from other trust and non-trust, accounts owned, controlled or accessed by the firm.

At the end of each business day, our accounting employees at the PPC compare the daily transactions in our CUBS system with the daily deposit. Once reconciled, they submit a file to our Austin headquarters that outlines what to pay each client out of their respective trust funds. Our PPC does not have the ability to disburse funds, which is an important security feature. Payments are made through our Austin headquarters' Accounting office, which transmits payments to each client via ACH or check, depending on each client's wishes. Payment files are transmitted from our Fees and Fines division (from our CUBS system) to our clients so each client understands what was received by each payer on a given day.

Reports: Documenting and Reporting Collection Activity

We thoroughly understand the need for transparency with respect to our work on your behalf. That is why we document all collection activity as it occurs as well as feedback, instructions, or other commentary from management with respect to all accounts.

We work with you to tailor our monthly reporting schedule and provide the details in the format you desire. A typical suite of reports might include:

- > Collection reports that enable you to review collections through a number of filters including type of offense, year, placement month, etc. (These reports also provide collection percentages, number and value of accounts undergoing collection activities, total accounts collected, and other performance data)
- > Account activity reports that document the total number and value of all accounts, their referral dates, and their status at the time the report is prepared. This can include both active accounts, resolved accounts, and recalled accounts
- > Payment management reports that provide status of payments made through Linebarger's payment systems
- > Custom reports that enable you to examine or publish the data in a multitude of ways. We understand that, as a public entity, you need to report revenue-related data to other elected and appointed officials, the media, your constituents and others and will work with you to prepare suitable reports
- > History report – customized to meet the Court's exact requirements

We have provided sample reports in Exhibit C.

Work Plan

A sample work plan is provided below and outlines the activities involved with the process for recovery of outstanding delinquent accounts.

| Sample Work Plan |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Account Preparation: Transferred accounts are loaded into a fully secure, client-specific segment of our data processing system. Mail and telephone collection efforts begin at the same time.</p> |
| <p>Mail Contact: We transfer accounts with verified addresses to our demand letter inventory. The Court approves the letters, telephone scripts, and the mailing schedule during the contract implementation period.</p> <p>Within days, the system generates an initial letter on our firm's letterhead. Typical letters:</p> <ul style="list-style-type: none"> > Advise that the account has been placed with our law firm, which is under contract with the Court > Provide contact information, including our toll-free telephone number > Include a detachable payment coupon, return envelope, and information on our web payment portal |

Follow-up Letters: Our series of demand letters (sent on a schedule determined by the Court) continues if the delinquent account holder fails to respond.

Undeliverable Mail: Undeliverable mail is processed and forwarded for skip-tracing. Once we receive updated addresses, we mail the new demand letters.

Incoming Letters: We handle letters from delinquent account holders per your instructions. Linebarger attorneys respond when the situation warrants a response from an attorney.

Telephone Contact: Our system distributes accounts continuously to collectors who verify the delinquent account holder's identity, confirm basic account information, and attempt collection. Collectors work to resolve accounts through payment-in-full, installment agreement, or legal enforcement as requested by the Court.

As our first priority, we always seek payment in full. To accomplish this, our collectors help delinquent account holders evaluate their financial resources, review the advantages of payment in full, and help them develop strategies that enable a single, in-full payment. We will discuss installment or other payment options only if authorized by the Court.

Omnichannel: If desired, we will implement a strategy to reach delinquent account holder by email, text, chat, or any communication method that is indicated as their preferred channel. Automated workflows can send reminders, follow-ups, and notifications on our clients' desired channels. Data analytics track the performance of each channel and make informed decisions about communication strategies, while seamlessly integrating multiple communication channels to interact with delinquent account holders in a consistent and coordinated manner.

Skip-Tracing: When an account does not include a phone number or when a collector finds that the listed address or phone number is incorrect, we forward the account to our skip-tracing vendors for updated information.

Processing and Tracking Payments: We offer a variety of payment options for your delinquent account holders, including our online payment portal, mobile payments, debit/credit cards, checks, money orders, and more. Based on your specific needs and preferences, we provide a comprehensive suite of services to ensure all payment requirements are met. Our dedicated in-house national payment processing center ensures secure handling and tracking of all transactions. Additionally, our robust reporting services offer detailed tracking and confirmation of payments, with real-time account access available through our Client View system. If you elect to have payments directed to you, we will confirm and report frequently to ensure accurate balances and correct payment notations.

Documenting/Reporting Collection Activity: Our system documents all collection activities as they occur. We document all activities, including managers' feedback and instructions for collectors' review and action.

We provide reports according to each client's preferred schedule and format. This includes reports on collection activity and payments/deposits and reports showing collections by placement type, account collection history, total cases collected, and more. We can also provide any special reports our clients need.

2.3 CONTRACTOR SERVICE REQUIREMENTS

Linebarger is willing and able to meet the requirements set forth in RFP section 2.3. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

Linebarger will produce all reports required by the Court within Section 3.13.4 and will deliver them according to the timeline and format established by the Court.

Sample reports are provided in Exhibit C.

We will conduct the following collection activities, pursuant to the contract, in accordance with all applicable State and Federal consumer and collection practice laws:

- > Obtain and maintain appropriate licenses, approvals, permits and authorizations required by applicable laws throughout term of contract. Linebarger will be responsible for all fees, costs and taxes associated with obtaining such licenses, approvals, permits, and authorizations.
 - o Linebarger is licensed to collect delinquent receivables in throughout the United States. We also believe that we retain and maintain all necessary and appropriate licenses, approvals, permits and authorizations required by law to conduct our business on behalf of your Court. In the event we identify any requirements that are not currently met, we will immediately obtain and maintain these requirements throughout the term of the contract. Linebarger will be responsible for associated fees, costs and taxes.
- > Linebarger will provide the Court a list of all pending and closed regulatory violations or non-compliances (e.g., Fair Debt Collection Practices Act (FDCPA), California Fair Debt Collection Practices Act (CFDCPA), UDAPP violations under Frank-Dodd Wall Street Reform and Consumer Protection Act, and the Consumer Financial Protection Bureau (CFPB) for the last five (5) years. In addition, Linebarger will immediately notify the Court of any new violations or instances of non-compliance. As a law firm that focuses on government debt collections, we have extensive understanding of and experience with federal, state, and local collections law, and we have an outstanding record of compliance. After 49 years of providing professional collection services to our clients, we have never had an FTC violation or FDCPA judgment levied against us for violating collection laws or regulations in the history of our firm. This record is not accidental, but rather the result of a combination of managerial commitment, selective recruiting, intense training and zealous quality control. In short, Linebarger has been in full compliance with all applicable laws, regulations, and ethical standards, and will continue to remain in compliance.
 - o Linebarger will maintain and provide a list of pending and closed regulatory violations or non-compliances as required by the RFP and contract; and will immediately notify the Court of any new violations or instances. Linebarger's historical record of maintaining compliance is impressive – and is a result of affirmative action to maintain the highest levels of compliance.

Collection success will be provided in the format and frequency defined by the Court. We will report the collection success rate and gross recovery rate on a monthly basis. Please see Exhibit C, Sample Reports

3.0 CONTRACTOR'S SPECIFIC SERVICE REQUIREMENTS

3.1 COLLECTIONS VIA MAIL

All content in letters sent to Court debtors from Linebarger will be pre-approved by the Court Project Manager. Upon notice of contract award, our implementation team will meet with Court team members to discuss every implementation issue, including the collection letter series. We will draft letter content around your Court requirements and preferences. A California licensed attorney will review the letters to ensure they comply with all applicable laws and regulations. Following initial drafting, the letters will be sent through our internal legal standards review process wherein our internal committee, consisting of in-house lawyers with letter content drafting expertise, will review your Court's letter series for legal content (such as complying with applicable laws and regulations) and consistency with necessary procedural efficiency (such as making sure correct addresses and phone numbers are in the correct letters, etc.). The typical letter process includes sending an initial placement notice with the tax intercept notice, a second notice, third notice and annual notice if the account will be referred to FTB TIP. Once a payment plan is established, a confirmation is mailed followed by a payment plan default letter should the account become delinquent. These letters are sent in English and Spanish on the reverse side.

Upon an initial approval from the legal standards committee review, the letter series is submitted to your Court team for final review, confirmation of accuracy and approval. Once letters are approved by your Court team members, we will move the letters into production and mailing of letters to debtors.

Linebarger has an approved letters series in place for the Court and can adapt these letters to fit the new contract. We will not use or display the official seal or logo of the Court on any letters.

Please see Exhibit A: Letter Samples

3.1.2 CONTRACTOR shall employ "skip-tracing" to obtain current debtor address and phone number.

Linebarger will employ skip-tracing to track down missing debtor contact information. For ease of proposal evaluator review and to avoid over-duplication of mundane content, our full skip-tracing processes are described a few pages below in Section 3.2, beginning on page 74 within this chapter.

3.1.3 First Delinquency Letter

Linebarger will meet or exceed the requirements in RFP Section 3.1.3.

Accounts received from the Court are uniquely coded and sent to the National Change of Address (NCOA) database for address verification and then CASS-certified to meet U. S. Postal Service mailing

requirements for address standardization. We also perform a delivery-point validation (DPV) process at this time to ensure that the address is an actual deliverable address and not a vacant lot or non-existent address. This minor and seemingly insignificant, but invaluable process, allows initial letters to arrive to debtors at their correctly addressed location without delay.

Accounts with verified addresses are automatically transferred to the law firm's demand letter inventory queue, where the initial letter is immediately generated. Printing the demand letter on the law firm's letterhead impresses upon the debtors the gravity of his or her obligation to pay the delinquent amount owed.

In accordance with the terms of the RFP, each letter will:

- > Identify our firm and advise the debtor that the account has been placed with our law firm, which is under contract with the Court
 - o Debtors routinely respond with more urgency to a letter from a law firm than to a letter from a non-law firm collection agency
- > Inform the debtor of the origin of the debt and the current amount owed
 - o Linebarger letters clearly set forth all available information identifying the nature of the delinquent receivable. By including all available information in the written communication, debtors are less likely to be confused by vague or insufficient language. Removing all debtor questions within the written communication results in a higher likelihood of payment and resolution; and a lower probability of complaints.
- > Advise of the consequences of continued non-compliance, such as possible driver's license suspension, wage garnishment and State tax refund intercept, if applicable
 - o Linebarger letters will include factual reference to any remedy that is available to your Court that debtor may face for non-compliance.
- > Describe payment options available such as installment payment plans
 - o Linebarger letters will provide description of all payment options available to debtor in a manner intended to encourage payment and positive account resolution.
- > Describe how payment may be remitted
 - o Linebarger letters will describe all available payment remittance alternatives available to debtor. We understand that the ultimate goal of our efforts is to obtain payment and resolve the account. In this regard, ease and simplicity in accepting and processing debtor payment is paramount to the goal.
- > Explain that a debtor with an Infraction/Misdemeanor with Unadjudicated Bail, Sanctions, Juror Sanction, Child Custody Evaluation or other accounts as approved by the Court who wish to dispute the debt must schedule a court appearance
 - o Linebarger letters will clearly provide explanation to debtors of their right and ability to dispute their debt through court appearance. As lawyers and officers of the court, we fully understand and appreciate the importance of court accessibility in appropriate matters.

We will work with your Court to protect debtor rights in a manner consistent with Court policy and directive.

- > List a toll free (e.g., “800”) telephone number, which allows debtors to remit payment, schedule a court appearance and/or obtain general information
 - o Linebarger letters will all provide a toll-free telephone number that will allow debtors to contact our offices to discuss any account matter, including allowing remittance of payment, scheduling a court appearance and/or to obtain general information relating to their account.
- > Provide a return envelope for the submission of payment
 - o Linebarger letters will include a return envelope, along with a detachable, bar-coded payment coupon to allow debtors to easily remit payment by mail.
- > List the Linebarger web page address, which allows debtors to remit payment
 - o Linebarger letters will provide information instructing debtors on how to remit payment on their account through the Linebarger web page payment portal.

The following sample letter is provided purely as an example of content and form that may be used for your Court collection efforts. During implementation, the exact letter content and form will be developed and customized specifically for each separate debt type and remedy available.

Please see Exhibit A: Letter Samples

No Use of Court Seal or Logo

Linebarger will not use or display the official seal or logo of the Court on any of its letterheads or other communications with any debtor for any reason.

3.1.4 Follow-up Letters

Debtors who fail to make payment or otherwise do not respond by the 31st day following the date of mailing will be issued a second letter, provided the debtor has a valid address. Thereafter, follow-up letters will be sent to debtors with valid addresses on a schedule allowed or required by California Penal Code Section 1463.007 or until debt is satisfied in full. Please see Exhibit A: Sample Letters. We have included the primary suite of letters and included additional samples: FTB TIP, 2nd notice, 3rd notice, payment plan confirmation, and payment plan default.

Linebarger will mail the pre-intercept notice on behalf of the court each October.

3.1.5 Additional Letters

Linebarger will issue additional letters on a schedule allowed or required by California Penal Code Section 1463.007 or as needed, with the approval of the Court.

3.1.6 Spanish Language Version of Letters

All correspondence we send on behalf of the Court will be provided in both English and Spanish.

3.2 SKIP TRACING

Skip-Tracing

Linebarger has provided a detailed outline of our collection process and the timeframe of collection activities within this response. **We never stop working your accounts.** Throughout this process we incorporate weekly legal sweeps, monthly skip-trace sweeps, and annual letter sweeps.

One of the numerous advantages of selecting Linebarger as your law firm for delinquent collections is our unwavering commitment to working every account. We do not engage in selective practices or prioritize easy to collect accounts. Instead, we tenaciously pursue all accounts and persistently seek out delinquent account holders. This commitment holds significant importance. As a collections law firm, our purpose is to locate delinquent account holders and facilitate resolution of their accounts, a process that may unfortunately extend over months or even years. However, ceasing our efforts to locate these delinquent account holders would render us unable to fulfill our mission.

As we identify delinquent account holders who have insufficient or inaccurate information that prevents successful communication, we initially pursue skip-tracing efforts through a batch process. Due to the volume of accounts we manage, our skip-tracing process is continuous – we do not store up accounts that are submitted only when we have reached a certain minimum volume. Accounts without sufficient contact information are pushed continuously through the process. By using this perpetual process, we are able to obtain updated contact information as soon as it becomes available.

We contract with several premium tiered vendors to locate delinquent account holders. We skip in excess of 16.5 million accounts on a monthly basis. We also review our batch skip-tracing system periodically to rank database skip-trace vendors according to performance and send accounts to the highest performing vendors.

Historically, we find that by using multiple skip-tracing vendors, we can more effectively locate delinquent account holders. and validate the accuracy of a skip vendor's data. Linebarger will relentlessly skip-trace accounts until a good address is discovered.

Our collectors access national skip-tracing databases for every state, city, and zip code to obtain phone numbers using delinquent account holders addresses. Our skip-trace vendors provide search information on a wide variety of variables including last known address to new geographic locations.

In addition to our automated batch skip-tracing process, our tenured professional collection staff perform well above and beyond the level of a typical collection agent. Our collection staff is inquisitive by nature and understand with focused particularity the exact information needed to assist a delinquent account holder in moving toward positive resolution.

A delinquent account holder's conversation with our collection staff results in significant amounts of valuable information – and through this exchange, our collection staff is able to educate, assist, and guide a delinquent account holder toward affirmative resolution.

Asset identification and location are critical components of a successful collection program. Our automated asset location system utilizes a number of vendors which search multiple databases, seeking places of employment, open bank accounts, real property, and other tangible assets. In addition to automated asset location efforts, our collection staff employs numerous skip-tracing tools and techniques to complete any necessary manual skip-tracing or asset location functions. As assets are identified and confirmed, Linebarger immediately moves forward, implementing legal enforcement methods to satisfy the delinquent account holder's obligation (if approved and authorized by the Court). Our collection staff is tenacious and operates on a near-private-investigator level as they handle accounts for our clients. The end result is that the delinquent account holder's obligations are resolved at an impressive level.

California Skip Sweep for TIP

Our 2024 skip sweep for California TIP transmission produced the following:

We send the pre-intercept letter during the month of October for all courts who participate in the program.

Letter Sweeps

Strategic and annual letter sweeps are conducted for all accounts that have not had recent activity. Meanwhile, our contact center places calls to accounts with telephone numbers. If contact information is found to be incorrect, our full skip-trace process is implemented.

Out-of-State and Canadian Debtors

Linebarger has direct access to Department of Motor Vehicles (DMV) records and information in 46 states and the District of Columbia, including California. Linebarger has extensive experience in obtaining DMV data in California as well as other States as a result of our toll road and parking collection programs. We also have strategic relationships with Canadian entities to obtain access to vehicle registrations in Canada and to perform Canadian debt collection services in those instances where Court debtors have moved out of the country.

Linebarger has the ability to locate Registered Owner of Vehicles (ROV) through Department of Motor Vehicle (DMV) access in 40 states, the District of Columbia, and Puerto Rico. Our firm protects all data provided by our clients and that obtained through location efforts, and communication with the customer.

3.3 CONTACTS VIA TELEPHONE

3.3.1 Skip-Tracing

In the event the Court is unable to provide phone numbers for various debtor accounts, Linebarger will follow the general steps described in section 3.2, Skip-Tracing, to obtain current phone number information. Our skip tracing processes do include obtaining a “phone append” search to obtain phone number information that is available through the search effort.

3.3.2 Telephone Calls

In tandem with our mailing process, our Contact Centers will make calls to those accounts that have phone numbers. If we capture a telephone number associated with the account through incoming calls or skip-tracing, we will use that phone number to make future calls on the account. We can also provide email notifications as part of our collection service. Our Chief Compliance Officer, Lori Gruver, will approve these email notifications to ensure that they meet all requirements for FDCPA compliance and Court policies and regulations. Our Gig Harbor and San Antonio full service Contact Centers will be designated to this contract.

NOTE: All telephone contacts comply with all applicable federal and state regulations, as well as your policies regarding such contact. Moreover, each time we reach a debtor, the collector will confirm that individual's identity and clearly identify themselves as an employee of the law firm under contract with the Court.

For the debtors' convenience, we assign a toll-free number to your project. Linebarger includes this number in all correspondence and phone conversations with the Court's debtors.

An interactive voice response system (IVR) assists debtors who call the toll-free number associated with the Court's contract. This system operates 24 hours-a-day for the convenience of after-hours callers.

The system presents callers with several options:

- > Make credit card payments
- > Hold for forwarding to a specific collector (maximum wait time of 30 seconds)
- > Leave a message for a specific collector, or leave a general message for an individual collector the next morning

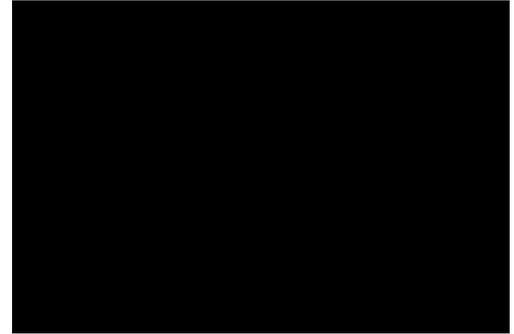

We return all calls no later than the following business day.

Customer Follow-up & Reporting

To provide a record and reporting trail that collection attempts are being made, every case worked has a tickler (work again date) field that must be populated before a collector is able to exit out of that case. These ticklers are time- and date-stamped for follow-up either manually or with a system-generated response. To assure that we address all accounts timely, several reports track our process. In specific instances (i.e., those requiring immediate follow-up), a supervisor will transfer that case to his or her ownership and personally seek to resolve the issue or request. Once resolved, the supervisor transfers the case back to the responsible person or group.

Main Dialer Features for Linebarger Contact Centers

We maintain our recordings on-line for one year and then archive them to off-line storage for an additional five years. While the general information of each call is recorded, we do not record credit card information.

3.3.3 Compliance When Making Contact

Linebarger aims for zero complaints. For example, from October to December 2024 there were a total of three complaints and these were resolved by providing additional information. All calls and communication with debtors – both inbound and outbound calls - will be made in strict compliance with all applicable rules and regulations governing collection practices in the United States. The focus on customer service will be paramount in all collection attempts.

Collector Training Program

Linebarger's collector training program consists of two parts: new hire training for employees in their first two weeks with the firm; and ongoing training for all employees, regardless of tenure. Collectors undergo 80 hours of training before they work independently. Contact Center managers maintain training records for every employee.

New Hire Training Check-off Sheet

Our New Hire Training Check-off Sheet summarizes the collector training process.

With assistance from senior managers and experienced collectors, Linebarger’s trainers lead newly hired collectors through a rigorous five-phase education and examination process:

Phase 1: Laws and Regulations and Company Policies

Training shall include a minimum of sixteen (16) hours on FDCPA, more restrictive state collection law, and other law relating to the collections industry.

Following initial training on the FDCPA, state collection laws, and other collection laws, new collection employees are tested on the materials covered.

The minimum acceptable test score is 90 percent; all employees receive follow-up training on any incorrect answers. Any employee that fails to meet the minimum score receives additional training and another opportunity to pass the test.

Phase 2: FDCPA, Telephone Techniques and System Training

Trainees continue their study of the FDCPA using a computer-based training program developed by the American Collectors' Association (ACA). Instructors review final exam results with trainees, fully explaining correct answers to any missed questions. Two ACA training tools are used to teach collectors appropriate telephone techniques: Professional Telephone Collection Techniques, an interactive software package; and Advanced Telephone Collecting, a DVD package that includes worksheets.

Collectors receive thorough training on the firm's customized computer system. Trainees first take Computer-Based Training (CBT) lessons with instructors, and then complete on-the-job training (OJT) within their assigned units.

Phase 3: Court-Specific Training

Training that focuses on the Court's needs and circumstances ensures compliance with its procedures and policies and regulations governing its activities, as well as understanding the nature of the delinquencies owed the Court.

Phase 4: Hands-On Collection Training

Each trainee works with a trainer, a manager, and a senior non-management collector in rotation to ensure the trainee understands and learns the use of proper collection techniques. Each trainee is closely monitored to ensure compliance with Linebarger's standards of operation and FDCPA requirements.

Phase 5: Mentoring

Linebarger's new employee training concludes with an on-the-job mentoring program. In addition to an immediate supervisor, each new collector is assigned to a senior employee and taken "under his wing" to sharpen skip tracing skills, telephone techniques, and overall knowledge of the Court receivables. Such mentoring enhances performance and minimizes complaints.

Designated Trainers

At each of Linebarger's Contact Centers, an individual is designated to provide training activities. These include frequent special sessions on systems upgrades and collection tools enhancements, and presentations on collection topics such as regulatory changes.

Educational Materials

Linebarger maintains membership in many of the industry's professional organizations, and uses their videos and other educational materials in its ongoing training programs.

External Training

Linebarger encourages employees to participate in external training opportunities. Employees bring information from such courses and seminars back to the firm for the benefit of managers and collectors alike.

Group Discussions

Periodic, interactive discussions inform collectors and other employees about changes in operating procedures, laws, and regulations. To ensure that fair treatment of each debtor is part of the normal course of business for every Linebarger collector, we monitor phone calls for compliance and professionalism. We also monitor system actions to ensure collectors follow correct procedures for account documentation. Collectors are generally monitored a minimum of several hours each month.

Onscreen Displays

On the job, onscreen displays reinforce collectors' training by highlighting restrictions, guidelines and operating procedures specific to a particular client. Such reminders help the collector comply with the laws and regulations of the client's state, as well as applicable federal laws.

Regulatory Updates

The firm's attorneys and collection supervisors monitor changes in laws and regulations related to the accounts receivable management industry. They provide regular updates to employees to ensure continued compliance. Sources of information used to monitor changes in applicable collection laws and regulations include the following:

- > Linebarger's Governmental Affairs and Compliance Divisions
- > American Collectors Association (ACA) – the collection industry's leading professional trade organization
- > *Legal Bulletin* – tracks legislation and regulation changes at the federal and state level
- > *ACA Advocate* – provides information on court cases relating to the collection industry, including interpretation of decisions
- > *Currents* – newsletter providing up-to-date legislative and regulatory information
- > *Cred-Alert* – credit agency information as it relates to the collection industry
- > *Collection Agency Report* – monthly newsletter for collection agency management
- > *Collections and Credit Risk* – periodical for the credit and collections industry
- > Continuing Legal Education Seminars
- > *Inside ARM.com* – periodical for the credit and collections industry
- > *Collector Magazine* – trade publication for consumer-based collection organizations
- > Seminars, conferences and contacts with a network of industry professionals

As stated, after establishing telephone contact with a debtor our collectors clearly identify themselves as employees of a law firm under contract with the Court. Collectors then confirm the debtor’s identity, and verify current address, telephone numbers, and place of employment prior to expanding the conversation and moving the matter toward a mutually positive resolution.

Example of working all accounts

Our contract with the Oregon Judicial Department: We have 199,385 accounts, 72 in a legal status, and only two are in a suspended “stop work” status. Linebarger works and re-works all accounts. This results in more return for our clients and a much higher resolution rate for all accounts assigned.

Monitoring Work Efforts

It is imperative that we monitor work efforts on a daily basis. Both our agents and supervisors rely on the collector bucket report below throughout the day. This allows us to identify outliers, monitor trends and be pro-active in working with our agents to be well rounded.

In addition to the daily monitoring, walking around, listening to agents calls and other tools available, we also monitor the inventory management.

Inventory management

We consider factors that affect rate, and respond accordingly. The following represents scenarios where a situation could affect rate and our response to that situation.

| Factors Affecting Liquidation Rate | Response |
|------------------------------------|-----------------------------------|
| Mail return | Additional skip tracing |
| Percentage of letters | Letter sweep |
| Skip trace attempts | Skip sweep |
| Inbound % | Skip, letter, and outbound sweeps |
| Outbound % | Dialer sweep |

We also review and adjust staffing levels to maximize response times and performance levels.

| Targets |
|--------------------------------|
| 1,500 ACR |
| Agent to supervisor ratio 10:1 |

| Other Remedies |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Recovery rates are monitored via the placement activity, liquidation, performance, set-up, and monthly collection activity. Each of these factors contributes to better collection results and ensures a higher level of customer service for the Court and debtors. Key performance indicators include:

- > Liquidation by batch
- > Net placement and collected percentage
- > Liquidation by account type
- > Resolution rate
- > Mail return percentage
- > Canceled amount percentage
- > Letters mailed
- > Address/phone updates
- > Inbound phone activity

Collector pledge

Linebarger has adapted our collection practices to ensure that social justice is carried out. Our collectors work with customers and abide by the collector pledge every day. In addition, each collector is required to post this pledge at their desk for reference during their daily work.

We incorporate the ACA Collector Pledge into our initial training, signed by all employees, and emphasized in our daily work.

*“I believe every person has worth as an individual.
I believe every person should be treated with dignity and respect.
I will make it my responsibility to help consumers find ways to pay their just debts.
I will be professional and ethical.
I will commit to honoring this pledge.”*

Linebarger utilizes a compassionate approach to collections. We develop a positive working relationship with every individual assigned. Payment plans are negotiated based on income level and number of family members. Courteous service is required of all of our employees. Supervisors and managers listen to calls daily to make sure that each defendant is treated with respect.

Clients Reap Benefits of Quality Control Program

Although fully integrated into all of the firm's activities, Linebarger's quality control program is nearly invisible to our clients. Nonetheless, clients see the results:

- > Few complaints from debtors
- > Excellent recovery rates achieved
- > Outcomes that justify and honor our clients' trust

3.3.4 Communicating with debtors with Special Needs

Assisting Special Needs Individuals

We staff our Contact Centers so that we can be responsive to debtors with a variety of needs. We can accommodate debtors with hearing or visual impairments with equipment that enables our Contact Center personnel to communicate directly and reliably with them.

Assisting Bilingual Debtors

More than 60 percent of our professional collectors are bilingual or multilingual, and we have translation assistance available in cases where we do not have staff with the requisite language skills. Our firm utilizes an interpreter service that allows us access to more than 10,000 interpreters in 240 languages. Our collectors simply dial a toll-free number, select the language and include the interpreter/operator on the call so that all communication is recorded and the debtors' questions are answered.

Our interpreter service works with various government entities such as courts and corrections, employment and labor, and public health. Translation services will be provided in Spanish, Chinese, Armenian, Korean, and Vietnamese, as well as other languages as needed.

3.3.5 Follow-up Telephone Calls

For debtors who are non-compliant, Linebarger collection staff will maintain contact with each debtor by attempting initiation of at least one phone contact per month. During the telephone call, our collection agents will:

- > Identify our firm
- > Inform the debtor of the origin of the debt and the amount owed
- > Advise debtor of the consequences of continued noncompliance, such as driver's license suspension, wage garnishments, State tax refund intercept and/or asset seizures or liens
- > Describe payment options including installment payment plans
- > Describe how payments may be remitted
- > Explain that a debtor with an Infraction/Misdemeanor with Unadjudicated Bail, Sanction, Juror Sanction, Child Custody Evaluation or other accounts as approved by the Court who wish to dispute the debt, must schedule a court appearance

Every communication from Linebarger to Court debtors will be made with the intention and goal of moving the matter toward positive resolution. This resolution not only serves the needs of the Court, but also provides positive and meaningful resolution and closure of an outstanding court matter for the debtor.

3.4 DEBTOR PAYMENT OPTIONS/METHODS OF PAYMENT

3.4.1 Flexible Payment Plans

Following are the payment plan options our collection staff currently utilize under the Court's contract:

ONE THIRD DOWN

For PRP plans, only accounts under client # CACOLASCTN should be set on PRP plan.DO NOT set up other client #s on PRP plans.

PRP PLANS ARE A ONE TIME SHOT. IF THEY DEFAULT THERE IS NO CATCHING UP AND NO SECOND CHANCE FOR A PRP PLAN

The Debtor can set up a license releasing plan with 1/3 down and the balance paid in 4 monthly payments.

**** Use XLRP to set PRP plan ****

When setting PRP plans all CACOLASCTN accounts must be included. The debtor cannot pick and

choose some and not others. Do not include any other client numbers in PRP plan.

The PRP needs to be set the day the down payment is being made.

All voluntary (non PRP plans) should be PAY status and can include accounts from all client #s

If the account is in SWC, we can set up the PRP/voluntary payment plan for CACOLASCTN or a voluntary payment plan for other client codes. If the debtor wants a court date for an SWC account, refer them back to the court.

While our initial goal and effort is to obtain full resolution of Court accounts through payment in full, Linebarger recognizes the simple fact that a number of debtors are simply unable to make payment in full. As we communicate with Court debtors to explore every option for resolution of their account and determine from a review of the debtor's finances that full payment is not immediately possible due to financial hardship or difficulties, we are always happy to negotiate flexible alternative payment plans that meet the needs of debtor as well as follow Court guidelines (if allowed by the Court). In establishing any alternative payment plan, we will not charge interest or fees to debtors for this service.

When an alternative payment plan is established, a payment plan letter is generated and sent to the debtor confirming the terms and Court-specific requirements. The letter also provides clear instruction on making the payments and complying with the terms of the arrangement.

Accounts with payment plans are placed in our system's installment agreement queue for automatic monitoring and tracking payment compliance. Both the system and the collector monitor payments until the delinquent amount is paid in full. In the event payment is not made in compliance with the arrangement, collection efforts resume immediately to obtain payment and continuing compliance.

Linebarger will always work with delinquent account holders to find a reasonable payment plan that fits with the delinquent account holder's budget. The goal is to keep the delinquent account holder compliant rather than having him/her fall off the plan. There is no benefit in establishing plans that are destined to default. Following is a sample poverty guideline we utilize for various client contracts.

3.4.3 Forms of Payment

Our goal is to offer simple, attractive and convenient payment options to debtors that encourage payment and account resolution. Linebarger never charges a convenience fee.

For the debtor's convenience, Linebarger may accept, at a minimum, the following types of payments through various means including:

Convenient Payment Options

If you specify that all payments go to your payment center and a delinquent account holder sends payment to us in error, we date-stamp it, document its receipt, and immediately forward it to you. If additional payments are required, we advise the delinquent account holder of the balance owed and provide the correct mailing address for payments. In the event that you ask us to process some or all payments, we provide multiple payment options in addition to traditional payment by mail. We accept:

- > Checks by phone – The delinquent account holder provides bank account information over the phone to process a payment immediately. We forward the payment to you within 5 to 7 business days to ensure there are sufficient funds in the account to cover the payment.
- > Credit cards – The delinquent account holder provides credit card information either by phone or via our website. All of our contact centers accept credit card payments 24 hours a day through our IVR system. Our credit card merchant processes funds on a daily basis meaning you receive your funds within 48 hours.
- > Mobile device payments – The Linebarger payment website is compatible with mobile devices, allowing delinquent account holders to make payments using a credit card, debit card, or an Automated Clearing House (ACH) transaction.

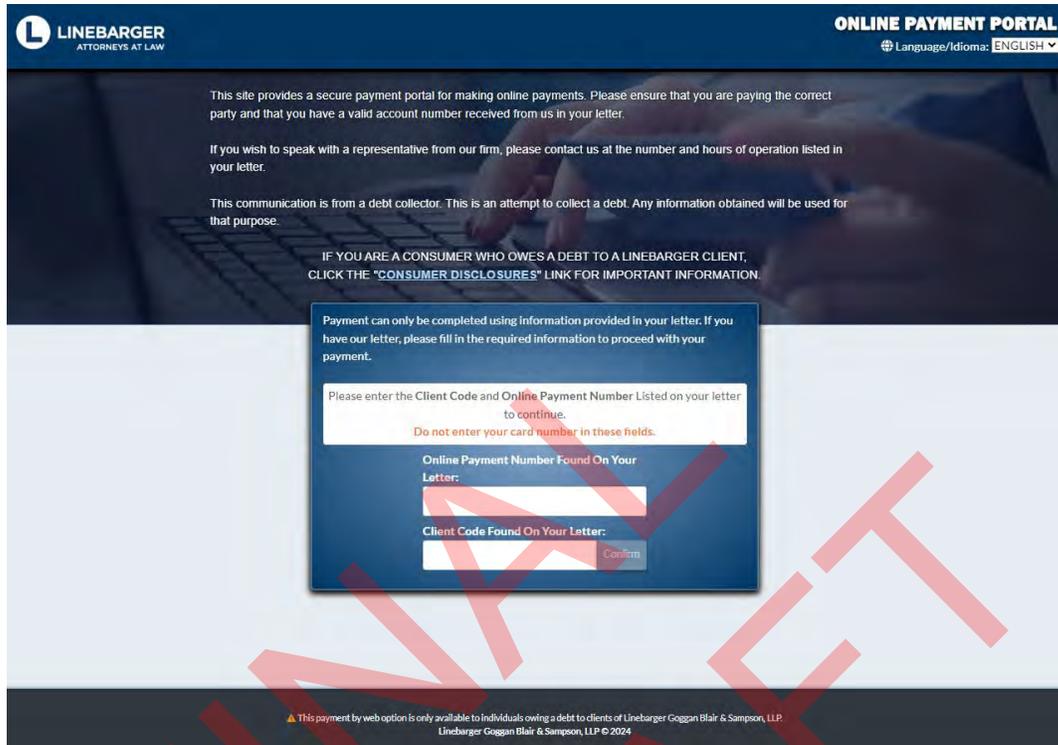

Linebarger meets the payment method requirements outlined within the Court's Scope of Work, item 3.4.3.

Online Payment Portal

Linebarger's online payment portal (lgbswebpayments.com) allows delinquent account holders access to their account balance(s) in real-time 24 hours per day, 7 days per week, and 365 days per year. The real-time balance includes any pending payments and adjustments to reduce the need to speak to a Customer Service Representative. All website traffic is securely transmitted using the latest encryption algorithms, ensuring privacy of information. Linebarger's online portal is PCI compliant as we are PCI Level 1 Certified as a Merchant and Service Provider.

To enhance the delinquent account holder experience and to increase accessibility, the payment portal website dynamically adjusts for the optimal view on any desktop, laptop, or mobile device. Linebarger's secure, real-time online payment portal collected payments from 136,000 delinquent account holders resulting in \$23 million of previously uncollected debt in 2024.

The payment portal has the capability of Spanish or English translation with a click of a button. All letters include a link to our free payment portal, lgbswebpayments.com. Users can also pay with Canadian credit cards.

Customer Support for Online Payments

The delinquent account holder is instructed to contact Linebarger at the number provided on their letter for help. This ensures they reach the correct contact center to help them with questions on their accounts.

Mobile-Device Compatible Payment Website

Linebarger’s Fines & Fees Payment website is compatible with mobile devices, allowing delinquent account holders to pay their accounts using credit cards, debit cards, or ACH transactions from their smart phones. If the Court’s payment website is compatible with our mobile application, we could point delinquent account holders to the Court webpage to expedite payments.

No app is required in order to use Linebarger’s mobile portal (lgbswebpayments.com). When you visit the website using your mobile device, it automatically directs you to the mobile portal.

This portal works with a host of mobile devices. Our web portal automatically detects the presence of a mobile device and

provides the same menus and content as our regular website, but in a format customized to display on mobile device, making it easier to read and use.

Our most recent release features:

- > Viewing the website in English or Spanish with a simple click of a button
- > Accepting credit cards issued in Canada
- > Providing enhanced security features to ensure the highest level of PCI compliance

3.4.4 Payment Plan Statement

Linebarger will provide a statement and a return envelope to debtors who have established a monthly payment plan. The statement will inform the debtor of the amount paid to date, the remaining balance, the minimum amount due, and the payment due date. Should the debtor default on the payment plan, a payment plan default notice will be mailed.

3.4.5 Personal Checks

We will ensure that when a debtor submits a personal check at one of our local business offices and a receipt is issued to debtor, the case number or Linebarger account number, receipt number, and debtor's last name appear on the check. Linebarger proposes a 5-day holdover on personal checks as is currently in place.

3.4.6 In-Person Receipts

Linebarger will provide each debtor a receipt for all payments received in person at one of our local business office(s).

3.4.7 Accepting Payments via the Internet

As noted early in this response, to encourage debtors to make full and prompt payments, Linebarger relies on a variety of convenient, secure electronic payment methods – such as checks by phone, credit or debit card payments by phone, and credit or debit card payments via our internet payment portal, and mobile payment application. We do not charge a convenience fee to debtors for any of the electronic payment options that we make available to them. Payment history can also be viewed through this system.

3.5 COURT APPEARANCES

As a law firm and as lawyers, we have a full understanding and appreciation for the importance and necessity of the legal process and a debtor’s right to a court hearing.

This process not only allows a debtor an opportunity to have his or her matter properly adjudicated, but also insures and protects that debtor’s constitutional due process rights.

As lawyers and “Officers of the Court”, we hold an inherent understanding of, and duty to, the Court (and the entire court system). There is no one more inherently qualified to uphold and administer the requirements of this RFP section than a collection vendor partner such as Linebarger.

Linebarger team members have direct and relevant experience in handling this very activity of scheduling court appearances on behalf of the Court and at the request of the Court’s debtors. Upon notice of contract award and during implementation meetings with the Court staff, we will develop the customized and preferred protocols that your court wishes to implement and utilize. We are confident in our ability to handle this function in an efficient and effective manner.

3.5.1 Court Appearances

Linebarger will allow debtors to set a court appearance as directed by the County/Court. Linebarger will work with the slots allotted to us to assign court appearances. This process is currently in place for the Court. We will adapt to the Court’s request for additional slots and moving locations. We will report the appointments on a daily basis so the Court can update their records. For example, on traffic failure to appear cases, a debtor retains the right to an arraignment/hearing. Therefore, upon request by a debtor, Linebarger will:

- > Allow a debtor to schedule a court hearing, pursuant to Court policy, on the following types of accounts: Traffic Failure to Appear, Civil Sanctions, Juror Sanctions and Child Custody Evaluations.
 - o For any matter in which a debtor retains the right to an arraignment/hearing (and for any matter that the Court allows or authorizes a debtor to appear for hearing to expedite the judicial process or provide convenience to the debtor), and upon request by a debtor, Linebarger will allow and assist debtor in scheduling a court appearance.
- > Schedule a court appearance on a day and time which has already been established by the Court (the Court may provide Linebarger with dates and times for each location, as needed.)
 - o We understand that your court will provide a schedule of pre-established court appearance dates, times and locations that are available. Linebarger will assist debtor in scheduling a court appearance on an appropriate date, time and location. Linebarger and team members to be assigned for your court project have experience in handling this particular court appearance hearing process.
- > Linebarger will be responsible to transfer a data file electronically of all court dates, court locations, and debtor phone numbers to the court’s case management systems and separate electronic system as designated by the County/Court known as the Court Appearance Reminder System (CARS). CARS places automated reminder calls to debtors that have pre-scheduled a court date through Linebarger.
 - o Upon scheduling a court appearance with a debtor, Linebarger will transfer an electronic data file with the relevant and necessary information to the Court’s CARS system. Linebarger and team members to be assigned to your Court project have experience in handling this process.

- > If appropriate and with express debtor consent, Linebarger will notify debtor of court date and account balance via text messaging.
 - o Linebarger has the capability to communicate with appropriate parties via text messaging. If appropriate, and with the express consent of debtor (and when all other compliance measures are met), Linebarger will notify debtor of their court date and account balance.
- > Upon scheduling a court appearance, immediately suspend all collection activity until the County/Court requests that it be resumed.
 - o Linebarger will suspend all collection activity immediately upon a debtor scheduling a court appearance. This suspension of activity will remain until the County and/or Court directs that activity is to resume.
- > Debtors who are referred with either Adjudicated Infractions/Misdemeanors or Adjudicated Misdemeanors/Felonies accounts do not retain the right to an arraignment. Linebarger will refer debtors requesting an Ability-To-Pay Hearing to the Court.
 - o Linebarger understand that debtors with adjudicated matters generally no longer retain the right to a court appearance.

We have current procedures and processes in place to appropriately handle adjudicated matters. Linebarger will refer debtors requesting an Ability-To-Pay Hearing to the Court.

3.6 DEBTOR FAILURE TO COMPLY WITH NOTICES OF DELINQUENCY AND TELEPHONE CALLS

The ability to pursue available remedies against debtors who fail or refuse to comply with collection efforts that allow a voluntary resolution provides a necessary and desirable enforcement mechanism. As a law firm, and as lawyers, we have the ability to move from routine collection efforts to involuntary action without delay, when appropriate. All such action will be handled internally by in-house Linebarger lawyers and legal staff. Your Court will experience no delay, because Linebarger need not refer the account to an outside law firm for handling this remedy.

Likewise, because legal actions are not referred out to a law firm or lawyer who may be unknown to your Court, all communication pathways and contact points remain directly between the Court and your Linebarger contact point. The Court retains full awareness of the process; maintains consistent information flow and communication pathways, and full control over the process. Your Court and staff begin and end with the same contact point for any and every action taken by Linebarger on your behalf.

Linebarger continues to work accounts referred to TIP. If an account is with COD, we will update the status and COD representatives make the outbound contact. For both programs. Linebarger personnel are available to assist inbound callers.

3.6.1 Involuntary Payment Actions

Upon a Judicial Order from the Court, Linebarger will initiate involuntary payment actions on debtors who fail to pay or establish a payment plan or satisfy their debt. The County/Court will provide a listing of types of accounts that are subject to involuntary payment actions.

Linebarger employee and California-licensed attorney Nancy Su has extensive experience in handling involuntary payment actions in Courts across the State, including the Los Angeles County Superior Courts. In the event your debtor has moved from the California jurisdiction, Linebarger has in-house lawyers and the ability to pursue involuntary actions in the state in which your court's debtor has relocated. We understand most involuntary payment actions will flow through COD.

Based upon the list and criteria received from your Court, Linebarger will pursue appropriate involuntary action. All necessary processes for pursuit of involuntary action are currently in place and exist in the Linebarger arsenal, and can be integrated and incorporated immediately in the process for your Court.

3.6.2 Recalcitrant Debtors

Linebarger will perform the following steps for recalcitrant debtors with accounts identified by the County/Court that are subject to involuntary payment actions that fail to establish a payment plan or satisfy their debt:

- > Complete the required paperwork and obtain the appropriate court orders to enforce a civil judgment for the actions listed in this SOW.
- > Institute one or more of the following actions:
 - o bank levy
 - o wage garnishment
 - o repossession of property, including vehicle
 - o real property liens

Linebarger is willing and able to meet the requirements set forth in RFP section 3.6.2. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your Court.

3.6.3 Associated Costs

Any and all associated costs incurred in instituting the actions listed above will be paid by Linebarger and reimbursed by the debtor upon collection of the debt. The County/Court will only pay commission on the referred amount and not on any associated collection costs.

Linebarger is willing and able to meet the requirements set forth in RFP section 3.6.3. We understand that in some jurisdictions, there will be statutory authority in favor of your Court (as a

governmental entity) for the waiver of some costs and filing fees. We will follow appropriate and applicable law in this regard.

Linebarger has current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

3.7 ACCOUNT MANAGEMENT

3.7.1 Withdrawal of Account

Linebarger understands that your county and court is the “owner” of the accounts being referred for collection efforts. The Court may withdraw any transferred account at any time, including accounts that meet the following conditions:

- > Account referred in error
- > Account dismissed by a judicial officer
- > Debtor is incarcerated
- > Debtor is deceased
- > Account is referred to other agency for continued collection efforts

3.7.2 Handling of Recalled Accounts

Linebarger is willing and able to meet the requirements set forth in RFP section 3.7.2. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your Court.

Upon notification of a withdrawn account in writing, email or other means of electronic messaging from the County or Court (if such action is taken), Linebarger will remove the withdrawn account from our system within two (2) business days of receipt of notice from the Court. Accounts withdrawn will be electronically transmitted from Linebarger to the Court according to specifications by the Court.

Upon notice from the County or Court of account withdrawal, Linebarger will immediately cease all collection activity and close the account. A list of closed accounts will be maintained by Linebarger.

We understand that the Court reserves the right to take actions deemed necessary to recover debt from an account that has been withdrawn from Linebarger, and that in the event that the Court withdraws an account, our firm will have no claim or right to compensation on any outstanding balance subsequently recovered by the Court, one of its agents, or another service provider on such accounts.

3.7.3 Accounts Deemed Inactive/Uncollectible

Linebarger understands the concept and goal of Section 3.7.3 and will comply with the terms. While Linebarger never unilaterally defines or identifies an account as uncollectible per se, we will work with your court to determine relatively strictly defined attributes that will allow us to evaluate individual accounts according to your Court’s preferences.

At least every 60 days, Linebarger will evaluate each account and decide as to whether collection activity should cease. Defining attributes for accounts deemed uncollectible are:

- > Missing or inaccurate contact information including phone number and address
- > Missing or inaccurate driver's license number
- > No contact with debtor for the past consecutive six months
- > Inactivity and no payment on account for the past consecutive six months

We will provide the Court with a monthly report on all accounts deemed uncollectible according to the defined attributes, including age of referral. During implementation, we will also discuss with your Court's implementation team potential strategies to improve resolution and collection on accounts that may not squarely meet defining attributes to be considered uncollectible.

In the event an account has been deemed uncollectible and returned to the Court, Linebarger will have no right to compensation on any outstanding balance subsequently recovered by the Court, one of its agents, or another service provider.

3.7.4 Transfer of Accounts Deemed Inactive or Uncollectible

Linebarger will work with the court on discharge from accountability cases. We can compile a list of recommended accounts. Linebarger will follow the court's order to close cases once the discharge is approved. Linebarger understands the County or Court reserves the right to take actions deemed necessary for an account that has been deemed inactive or uncollectible, including, but not limited to referral to the California FTB or other collection entity. We will return accounts that have been requested back within 10 business days as instructed. We understand the scope of accounts to be returned to the County/Court include, but are not limited to:

- > Any account meeting the criteria in Section 3.7.3 "Accounts Deemed Inactive / Uncollectible"
- > Any account referred to Linebarger for a period exceeding 12 months from the referral date that has not been transferred to FTB-COD pursuant to Section 3.7.4
- > Any account that Linebarger has referred to FTB Interagency Intercept Collection pursuant to Section 3.7.5 that remains unresolved.
- > All accounts referred to Linebarger for a period exceeding 12 months from the referral date that have no payment on the account for the past consecutive 90 days.

3.7.5 Transfer of accounts to Franchise Tax Board (FTB), Court Ordered Debt (COD)

Typically, Linebarger works accounts for at least six months before referral to COD. There are currently over 104,000 accounts with COD for LASC.

- > Linebarger will interface with the California FTB and COD programs. We have extensive experience working with the FTB, COD and TIP programs. Processes are in place to facilitate this service.
- > Upon direction from the County/Court, Linebarger will transmit selected collection inventory to the FTB COD for additional collection efforts. We understand the Court reserves the right to process referrals directly to FTB.
- > Immediately upon transfer, we will transmit account information to up the Court collection management system.
- > Upon referral of an account to the FTB COD, Linebarger will cease all collection activity on the account but, at a minimum, remain responsible for the following:
 - o Linebarger will electronically send and receive account information to FTB COD in a format agreed upon by the County/Court and FTB COD.
 - o Payment information received by Linebarger from FTB COD will be electronically transmitted to the County/Court. Linebarger will be responsible for updating our collection system and transmitting payment information to the County/Court using the process described in Section 3.10 – Transmission of Account Information.
 - o Linebarger will notify defendants advising them that Linebarger is no longer pursuing collections and the account has been referred to FTB COD.
 - o We understand that upon approval from the County/Court, Linebarger may be required to refund to the debtor any over-collected amount received from FTB COD.
 - o Linebarger will be responsible for all costs associated with programming identification, transfer and separate reporting of accounts referred to the FTB COD.

3.7.6 Collections Transfer of accounts to Franchise Tax Board (FTB), Interagency Intercept Collections (Tax Intercept)

There are currently over 60,000 cases referred for TIP. Linebarger does extensive skiptracing to qualify additional accounts each year.

3.8 PROCESSING DEBTOR PAYMENTS

Collecting payments and funds on behalf of our clients is the pinnacle of our collections process. It is always the goal of Linebarger to offer the broadest range of simple and convenient payment options to your Court debtors that will encourage debtors to make payment and resolve their accounts.

As a necessary corollary to collecting the funds, there must also exist back-end office processes and procedures that effectively and safely transition the money from the debtor to Linebarger, and ultimately from Linebarger to your court.

Just as we offer your court debtors numerous convenient options, we are also capable of handling fund processing in alternative ways based on your court's preference and needs.

Based upon your court's presumed preference as reflected in the RFP, we confirm our ability to process payments in full compliance. In the event your court may wish to consider alternative options in this regard, we are willing and able to discuss alternative solutions that meet your needs.

Our law firm, IT technology and security teams, and internal accounting teams all have significant experience in the appropriate handling of large volumes of payment instruments totaling extremely high dollar amounts. We currently have in place numerous payment processing procedures and protocols to meet the customized needs of our varied client base. We have no reservations with regard to our ability to handle and process payments and transfer of funds as required by your county and your court.

Payment Card Industry Compliance (PCI)

Linebarger holds PCI Level 1 Merchant and PCI Level 1 Service Provider certifications. We treat all information and personal data connected with the collection of Court accounts as confidential and protect it throughout its life cycle in our systems. Linebarger undergoes an annual Payment Card Industry (PCI) assessment of our controls as a Merchant and a Service Provider. An Attestation of

Compliance (AOC) and Report on Compliance (ROC) confirms the controls comply with the PCI standards. Only a PCI Qualified Security Assessor (QSA) can issue a PCI Level 1 ROC. An Approved Scanning Vendor (ASV) also conducts a quarterly scan of our technical environment to test our systems' security against the PCI standards. Any deficiencies in PCI standards result in an automatic failure of PCI compliance. Linebarger undergoes annual certifications.

Statement on Standards for Attestation Engagements SSAE16/18 Audits

Linebarger undergoes multiple SSAE16/18 audits of our Service Organizational Controls (SOC) to comply with the reporting requirements for various clients throughout the year. These audits ensure that Linebarger maintains compliance with American Institute of CPA's (AICPA) control standards.

Each audit consists of physical, logical, procedural, and technical controls against the AICPA standards for Service Organizations. The process consists of visual inspections, personnel interviews, and policy evaluations. An independent auditor generates a SOC 1 Type 2 report to document the findings. The report includes all noted deficiencies and a Corrective Action Plan (CAP) if needed, with a set date to remediate. Our last audit confirmed that Linebarger has the necessary controls to assure that we meet all control objectives.

3.8.1 Transfer of Funds

Linebarger is willing and able to meet the requirements set forth in RFP section 3.8.1. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your Court.

Upon notice of contract award and before collections commence, Linebarger will establish a separate bank account designated solely for processing debtor payments under the Court's Contract. All financial instruments and payments received as debtor payments will be deposited by Linebarger staff into this bank account as soon as received but no later than the close of the business day of receipt.

- > Each business day, Linebarger team members who are highly trained and bonded will prepare an accounting of all debtor payments received on that day, and reconcile the account for any adjustment. Except in the event where payments are unidentified, all payments are updated in the Linebarger system within one business day.
- > Linebarger has a system in place to determine unidentified cases and that process will be followed as unidentified cases occur.
- > All funds will be deposited in the Linebarger bank account as soon as received and no later than the close of business day of receipt.
- > By the tenth (10th) business day of each month, Linebarger will submit to the County/Court a copy of the prior month's banking statement for the applicable Linebarger bank account (official copy from our bank account). We can adjust this frequency at the request of the Court.
- > We understand that the County will establish and have sole ownership over the designated County bank account.

As a relatively general overview of our payment processing capabilities, we offer the following with regard to our banking procedures as well as our payment processing facility. Banking procedures are designed to provide the County and Court with full accountability and security through all stages of the operation. Throughout the process daily grand totals and client totals are recorded and verified to ensure that every payment is completely processed. The law firm segregates important control functions throughout its internal control processes to safeguard client funds. The law firm also utilizes an internal audit team and an Audit Committee to maintain an effective control system.

Linebarger is highly experienced in working with Automated Clearing House (ACH) transfers. This is a routine daily process in which we rely on state-of-the-art technology and highly trained and bonded staff to ensure that transfers are fast and accurate. We will ensure that all transfers equal the sum of all the payments on the daily payment report, including unidentified payments, other collections not on the payment report, less non-sufficient funds check amounts for that date. The dates of the ACH transfer and payment report will match. We have no reservations in our ability to handle the necessary and required ACH transfer and reporting processes, regardless of volume.

3.8.3 Unidentified payments

Linebarger is willing and able to meet the requirements set forth in RFP section 3.8.3. Linebarger currently has processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your Court.

Unidentified payments will be researched and handled by Linebarger team members as per the Court's instructions as defined in this RFP. Linebarger team members will deposit funds from unidentified payments into the designated Linebarger Bank Account on a daily basis; and said funds will be ACH-transferred into the Los Angeles County Court bank account.

Linebarger team members will attempt to identify all unidentified payments within thirty (30) calendar days of payment being received. If Linebarger cannot ultimately identify payment(s) within 30 calendar days of payment receipt, by the fifth (5th) business day of each following month we will provide the County and Court with a report listing unidentified payments and attach any documents received with the payment (e.g., mailing envelope, enclosures). No refunds will be issued by our firm on unidentified cases.

We understand that Linebarger will not receive compensation on unidentified cases.

3.8.4 Incorrect Account Payments and Adjustments

Linebarger is willing and able to meet the requirements set forth in RFP section 3.8.4. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

In the event that Linebarger applies payment to an incorrect account or case, we will provide the County/Court with a daily report listing the correct case where the payment should be applied. If payment should be refunded, Linebarger will provide supporting documentation.

If our firm transfers funds that are determined not to belong to a Court referral, we will provide documentation and submit a written request for refund.

If Linebarger believes that an adjustment to the Los Angeles County Court bank account is necessary, we will inform the County and Court of the following:

- The amount in dispute
- The reasons for the adjustments
- Copies of any documentary evidence that supports Linebarger's claim

3.8.5 Cashier Variances / Discrepancies in Amounts Collected and Received

Linebarger is willing and able to meet the requirements set forth in RFP section 3.8.5.

Linebarger will be responsible for all cashier variances, losses and other discrepancies between amounts collected and received by our firm, such as shortages, counterfeit bills, etc. Linebarger will reimburse the Court for cashier variances, losses and any other discrepancies between amounts collected and received by Linebarger on the day of collection.

In the event a debtor's personal check is returned as non-sufficient funds (NSF) or because the checking account is closed, Linebarger will attempt to recover these funds. We understand that we may assess a returned check fee not to exceed \$25 on returned checks.

If we are unable to recover the funds within thirty (30) calendar days, we may request recovery of funds through submission of a Deposit Reconciliation by listing the NSF amount(s).

On matters relating to NSF and returned checks, Linebarger will submit to the Court a detailed NSF report by individual court locations that includes, at minimum, the following:

- > Defendant name
- > Citation/case number
- > NSF amount
- > Receipt number

3.8.8 Credit Card Fees, Collection Costs, etc.

Linebarger does not charge a convenience fee to debtors for any of the electronic payment options that we make available to them. This is a policy we adhere to for all of our clients, as we believe it encourages payment from debtors by removing any real or perceived barrier to account resolution.

We understand the only exception to this RFP section 3.8.8 policy is the recalcitrant debtors with accounts identified by the County/Court that are subject to involuntary payment actions that fail to establish a payment plan or satisfy the debt described in RFP section 3.6.2.

3.8.9 Segregation of Accounts

Linebarger is willing and able to meet the requirements set forth in RFP section 3.8.9. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

Linebarger will segregate all accounts referred by the Court from all other Linebarger client accounts (as described and consistent with Section 3.8.1 – Transfer of Funds). All information relating to the accounts referred and assigned will be kept confidential and will not be open to examination for any purpose not directly connected with the servicing of the accounts by Linebarger. Linebarger will track accounts by court locations and account category. (Refer to Section 1.3.1 – Referral Data).

Linebarger will meet or exceed any necessary internal control procedures required to service the needs of your Court.

Linebarger will tailor its internal control processes to properly service and provide security over the collection activities for your Court system. Our firm possesses the skill and experience to provide this tailored response to your needs.

Responses below are meant to provide general information, and should Linebarger be awarded the contract, we will work with you to provide more specific control documentation before the contract is implemented.

3.8.10.1 Cash Handling and Record Keeping Duties

Linebarger understands the importance of segregating duties to properly fulfill its fiduciary role. It has an extensive fiduciary accounting operation whereby the payment receipt, record keeping and reconciliation functions are maintained as separate as possible.

Payment handling and record keeping functions will be assigned to separate personnel. Cash received will be receipted timely and put in a safe or other secure location, as agreed upon with the County.

3.8.10.2 Restrictive Endorsements

Linebarger will restrictively endorse checks and money orders once the mail is opened each day. Payments will be logged into a Control Log showing the date of payment, payment instrument (e.g., check, money order, cash), debtor's name, amount received, case number (if available) and payment instrument number. The Control Log will be reviewed and signed by a supervisory employee.

Payments will be posted to the Linebarger computer system, and a system generated receipt report will be matched to the Control Log and signed by a supervisor. The checks or money orders will be locked in a secure location with restricted access until they are deposited during or at the end of the day.

Linebarger will commit to having the two mail openers initial a reconciliation of the actual cash and checks received to two adding machine tapes of the receipts. If Linebarger deems another methodology to be more beneficial, it will have the method approved by the Court before implementing.

3.8.10.3 Walk-In Payments

Walk-in payments will be receipted in the presence of the debtor by a Linebarger employee who does not have the ability to post collections to debtor accounts. For walk-in payments, a Cashier will ask the person to sign in at the front desk for identification purposes and provide the person making the payment with a receipt which identifies the account, the entity identified on the account, the date, amount and method of payment. If payment is made by check, the receipt will also include the check number.

Payments received by us on-site will be couriered via a qualified contracted courier or a Linebarger employee who does not have cash handling duties or access to accounting records. The method of transporting deposits can be tailored to the Court's specific requirements.

A separate set of employees in our Fees and Fines Accounting department will be responsible for reconciling the system's receipt log to the daily deposit amount to provide added assurance that receipted monies have been deposited.

3.8.10.4 Mail and Walk-in Payments

Mail will be opened by at least two employees in order to document and cross-check the number of mailed-in payments. These employees will not have access to the accounting records and will not be collectors. The employees who open the mail will forward payments to Payment Processors, who will deposit the funds via electronic deposit into the bank or through another agreed upon method, such as a courier service.

3.8.10.5 Receipts

Linebarger will use receipts that are electronically system generated and controlled, but in the event of system incapacity, we will offer pre-numbered, multi-part forms with copies for the debtor and accounting offices, as well as one to be retained as a control copy. Each copy will be marked for distribution. Receipts will be issued by Linebarger clerical/administrative staff and not by Linebarger collectors.

Issued receipts will be numerically controlled and kept in a secure place. Office management staff will maintain accountability for receipt stock and used and voided receipts.

Receipts will be used in numerical order.

3.8.10.6 Cash Handling

Information obtained from the debtor during the payment process will be used for posting purposes. As stated previously, a receipt will be issued to the debtor, and cash will be locked in a secure location until it is couriered off-site.

Postdated checks and payment instruments will not be deposited earlier than the date of the check or as authorized by the consumer/paying party.

Upon receipt of a postdated check, the Fees and Fines Accounting Department will hold the deposit of the check until the date of the check. Post-dated checks will be retained for safekeeping by the accounting department until the date of the check. Accounting shall maintain a permanent tracking log of postdated checks. Any unidentified post-date and NSF checks will be accounted for on a separate log that provides a complete audit trail.

3.8.10.7 Reconciliation

The office management staff will reconcile the amount of mail and walk-in payments to the total deposit each day either by comparing the system-generated receipt log to the deposit amount or via a manual process whereby the office management staff compares a copy of the mail-in and walk-in payment calculator tapes to the amounts deposited. Methodology depends on the Court's preference.

Post-dated checks will be considered as part of the reconciling process and forwarded to our Fees and Fines Accounting department for tracking and ultimate resolution.

3.8.10.8 Internal Controls

Linebarger will submit written internal control procedures to the Court Project Manager "Court PM" prior to commencement of the contract. Written internal control procedures will be maintained and periodically updated as necessary. Linebarger personnel will be instructed in said procedures at least annually. Office management staff will continuously monitor operations to ensure compliance with these regulations. New employees will be instructed on these procedures within the first two (2) weeks of hire.

3.9.4 Debtor Refunds

Linebarger is willing and able to meet the requirements set forth in 3.9.4. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your Court. We understand that the Los Angeles Superior Court will have the sole authority to issue debtor refunds and to determine whether a refund is due. If Linebarger believes that a refund should be issued to a debtor, Linebarger will provide the Court with the following information:

- > Debtor's name, receipt and account numbers
- > Amount in dispute
- > Reasons for the refund
- > Supporting documentation

We understand that the County/Court will not compensate Linebarger for services if the County/Court refunds the entire amount of collected money to a debtor.

In the event of a partial refund, the Collection Fee will be adjusted to the amount of collected money retained by the County/Court.

3.9.5 Customer Service

As continually stated throughout this proposal, Linebarger's overall success and performance on behalf of our client is rooted in our customer service. Our collection professionals deal solely with debtors who owe money to government entities or courts.

As a result, we treat debtors in a manner consistent with maintaining the reputation and public image of your county and court – always emphasizing dignity and respect in our communications. This customer service applies not only to debtor communications relating directly to a debtor’s outstanding matter with the Court, but also to those communications in which a debtor may express a complaint or concern in their dealings with us. Jason Neufeldt will serve as the Contract Manager providing daily service to the Court. He has extensive experience working with the Court as well as multiple California Superior Court clients. He is excited about the opportunity to service the Court.

3.9.5.1 Complaints – Debtor Comment Line

Our goal is no complaints. From October to December 2024 there were 3 complaints in total. Linebarger is willing and able to meet the requirements set forth in RFP section 3.9.5.1. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your Court.

Linebarger will maintain a toll-free telephone message line so that customers may leave voice mail messages regarding our firm’s customer service. All voice mail messages received will be transcribed verbatim and supplied to the County Project Manager each month.

All voicemail messages/surveys will be retained for five (5) years and be available for review by County/Court as requested. All associated fees for this service will be borne by Linebarger.

Linebarger is willing and able to meet the requirements set forth in RFP section 3.9.5.1. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your Court.

Our firm’s culture is one of zero tolerance for valid complaints, and management vigorously investigates all complaints made against any member of our staff.

We take all debtor allegations seriously and follow a systematic approach to addressing and resolving complaints. Individually and collectively, we do everything possible to eliminate complaints and mitigate their consequences, protecting our clients’ reputations as well as our own.

None of our clients have ever terminated a contract with our firm due to inappropriate collection activities by our employees. For that outstanding record we credit our rigorous, ongoing training program, which produces collectors who project an attitude of calm professionalism in every interaction with debtors.

According to the requirements of this RFP, Linebarger’s complaint process will be tailored as needed to ensure that we satisfactorily meet the Court’s requirements, including the following:

- > In the event Linebarger receives any verbal complaint (as defined in RFP Section 3.9.5.1), we will immediately notify the Court PM by telephone or email. The verbal notification will be followed in writing within three (3) business days.

- > In the event Linebarger receives any written complaint, we will immediately notify the Court PM by telephone or email, and provide the Court PM with a copy of the written complaint within three (3) business days of receipt.
- > Linebarger will promptly investigate all complaints and provide a written report to the Court PM regarding the disposition of each verbal and written complaint within fourteen (14) business days of receiving the complaint. At a minimum the report will include the following:
 - o A copy of the complaint (if applicable)
 - o Identification by name of Linebarger employee(s)
 - o Results of the investigation
 - o A statement describing the corrective action taken to resolve and avoid a reoccurrence of such a complaint, if applicable
 - o A response letter to the customer when directed by the Court PM, if applicable

A Complaint Tracking Log (in the form and format reflected in RFP Attachment A) and a system to track complaints to the individual accounts and Linebarger employee(s) handling the account will be maintained, with a copy of the log being provided to the Court PM each month covering the prior month's activities.

Responding to Better Business Bureau (BBB) Complaints

Linebarger has maintained an active membership and A+ rating with the BBB since November 2011. While the individuals filing complaints with the BBB are not our direct clients, they are constituents of the entities we serve. Several assigned employees handle BBB issues for the firm and track every complaint to make sure that we investigate and respond promptly to each instance filed with the BBB nationwide. Our goal is to help these individuals and reflect positively on our clients. When we receive a BBB complaint, our team takes the following steps to address the matter.

- > They identify the correct law office to investigate the matter
- > They then forward the complaint to the attorney, collection personnel and our Compliance Division
- > The attorney and collection team investigate the matter, including:
 - o review any phone conversations with the consumer
 - o pull all letters and system records that identify attempts to locate or contact the individual
 - o contact the client for additional information to confirm the consumer's position or request documentation the consumer seeks
- > Once all information is collected, the attorney/collection manager develops the written response for filing
- > The BBB team files the response

Our diligent responses and tracking of issues has resulted in a consistently positive rating from the Better Business Bureau.

Responding to Consumer Financial Protection Bureau (CFPB) Complaints

We have a team assigned to receive, monitor, and respond to all CFPB complaints nationwide. This team ensures that Linebarger responds to all CFPB complaints appropriately and promptly.

When responding to a CFPB Complaint, Linebarger follows the process outlined for responding to Better Business Bureau (BBB) complaints, with the exception that the CFPB team files the final response with the CFPB and the response is mailed directly to the complainant.

The Complaint Process

Because collection activities involve complex interactions with debtors, our most experienced collectors supervise the collection floor at all times, ready to assist with any difficult situation that develops in the course of a phone call. These highly trained front-line personnel are able, in most circumstances, to mitigate the debtor's frustration and successfully resolve the matter at hand. When the debtor remains unsatisfied and files a complaint, Linebarger's formal complaint process is triggered.

Formal Complaint Process

Phase 1: The collection floor supervisor reviews the complaint, whether made in writing or verbally over the telephone. We record notes in the collection system to document the complaint details.

Phase 2: If the complaint appears to be valid, the collection floor supervisor flags the account and launches an investigation, gathering relevant information and correspondence, reviewing account files, and interviewing the collector against whom the complaint was filed and, if necessary, the debtor. The collector may also write a memo describing the incident.

Phase 3: Within 24 hours of completing the investigation, Linebarger will notify the client of the complaint if the client was involved with the initial complaint or if the complaint is of a magnitude that warrants notification. The project manager and attorney with contract oversight will also be informed. An explanatory memo, notes from the interview, a copy of the collection activity notes for the account, and all relevant correspondence will be forwarded to the Court at that time. The employee's personnel file will also record the complaint made.

Phase 4: Linebarger takes corrective action. Depending on the nature of the complaint, the employee completes special training to reinforce knowledge of collection procedures and techniques, receives additional supervision, or we may choose to terminate the employee.

Phase 5: If the Court was involved in the initial complaint or we notified them of a complaint, the firm will send the Court an updated copy of all documentation associated with the complaint, including a copy of its final response to the debtor and a description of corrective actions.

Debtor Ombudsman

Because we understand that having an account turned over to collections can be difficult and confusing for your debtors, and that our actions have a direct bearing on the Court's image, we will continuously work to avoid complaints. Our goal is to ensure that we work with debtors to resolve delinquent accounts in a positive, professional, and courteous manner at all times.

To meet this goal, our Ombudsman, Angela Crawford, will investigate and address any complaints that may arise for the Court's contract. Ms. Crawford's primary purpose is to work diligently with debtors to investigate any complaints and diffuse negative situations by providing prompt, detailed responses to debtor inquiries. She will work to help them better understand the basis for the delinquent account and resolve it in a manner consistent with the Court's business policy and public relations goals. Ms. Crawford will be immediately available to respond to any inquiries. Debtors can ask to speak with her during any call and directly access the ombudsman via email with a link from our website. She can be reached at Angela.Crawford@lgbs.com or 253.432.8582.

A key responsibility of the ombudsman will be to track and escalate complaints when necessary. A log will be maintained including the date, debtor name, collector name, basis of complaint, date resolved, and how resolved. The escalation will vary based on the severity of the complaint. Linebarger will take every complaint seriously. These reports will be available for review by the Court at any time.

Level One - Situational complaints

- > Documented in log for future reference
- > No further escalation

Level Two - Behavioral complaints

- > Documented in log for future reference
- > Escalated to Contact Center Manager Jon Boquist, for review
- > Additional training and supervision to ensure behavior has been corrected

Level Three - Threat to escalate to the Court or regulatory personnel

- > Documented in log for future reference
- > Reported to attorney Nancy Su and General Counsel and Capital Partner Lori Gruver, for review
- > Escalated to Contact Center Manager Jon Boquist, for review
- > Findings sent to the Court

Level Four - Potential violation of law

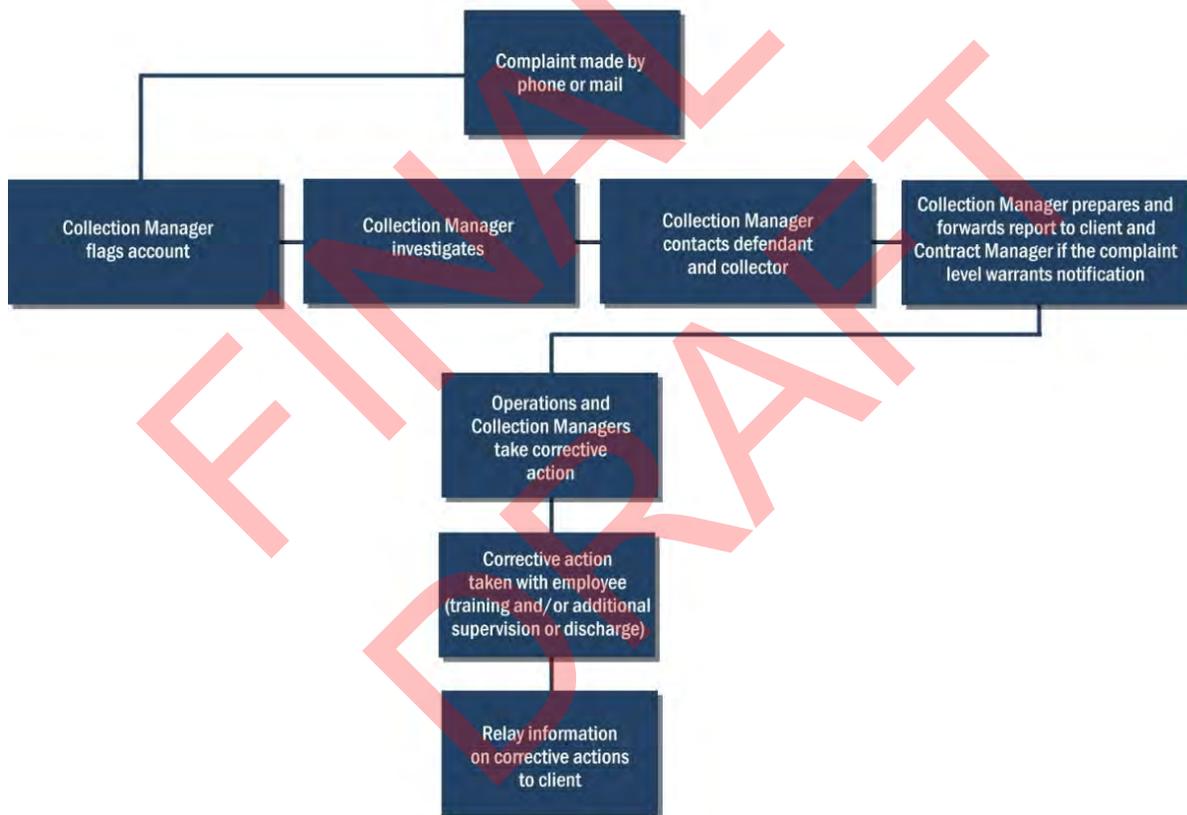

- > Documented in log for future reference

- > Immediately reported to attorney Nancy Su and General Counsel and Capital Partner Lori Gruver, for review
- > Escalated to Contact Center Manager and Director of Operations Renee Linnabary, for review
- > Findings sent to the Court

Our firm’s culture is one of zero tolerance for valid complaints; management vigorously investigates all complaints made against any member of our staff. We take all debtor allegations seriously and follow a systematic approach to address and resolve complaints.

Individually and collectively, we do everything possible to eliminate complaints and mitigate their consequences, protecting our clients’ reputations as well as our own.

3.9.6 Dispute of the Outstanding Balance

Linebarger is willing and able to meet the requirements set forth in RFP section 3.9.6. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

When a debtor disputes the bail on an Infraction/Misdemeanor with Unadjudicated Bail, we will verify the case records with Revenue Enhancement Unit. Upon verification, we will continue with collection activities. If the debtor continues to dispute, Linebarger will inform the debtor that they may schedule a court appearance to dispute the balance/amount. If and when a debtor schedules a court appearance, collection activities will be immediately suspended – and only resumed when directed by the County/Court.

3.9.7 Claim of Death

Linebarger is willing and able to meet the requirements set forth in RFP section 3.9.7. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

If it is determined that a debtor is deceased, we will suspend collection activity and secure appropriate records to validate this determination. Upon receipt of a certified copy of a death certificate, we will forward the County/Court a copy of the correspondence and the certified copy of the death certificate and deem the account uncollectible.

We will verify claims of death that do not have a certified copy of a death certificate against the Social Security Administration Master Death File. If you wish to direct us to do so, we will attempt to determine if there is a surviving spouse or an estate with sufficient resources to satisfy the delinquent account through resumed collections.

3.9.8 Claim of Incarceration

Linebarger is willing and able to meet the requirements set forth in RFP section 3.9.8. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

In the event the debtor submits documentary evidence that indicates that the debtor is incarcerated, we will forward to the County/Court a copy of the correspondence and the documentary evidence. We will cease collection activity if the debtor is determined to be incarcerated 364 days or less. We will resume activity at the end of the incarceration period. If a debtor is incarcerated for 365 days or more we will place the account in an uncollectible status and return to the County/Court.

3.10 TRANSMISSION OF ACCOUNT INFORMATION

Linebarger knows that data accuracy and integrity is the foundation upon which every aspect of our collection process is driven. Our dedication to technology products and services, as well as maintaining a staff of more than 160 highly trained and skilled technology professionals is uncommon in the industry. Our professional staff leverages the products and services at their disposal so that our client experience is second to none. Throughout implementation, and

throughout the entire contract term, you can be assured that Linebarger will have live staff to assist in any issue – technology-related or otherwise.

3.10.1 Data Transmissions

Linebarger is willing and able to meet the requirements set forth in RFP section 3.10.1. As an existing contractor for tertiary services, we have many of the Court’s interfaces currently in place.

Upon contract award, our Linebarger implementation team will meet with Court implementation staff to develop and build a robust and incomparable system interface to allow efficient and accurate data transmission capabilities. The interface from the Court to the Linebarger Columbia Ultimate Business Systems (CUBS) collection software system will be completed at no cost to your court. The interface will provide functionality to include all referral, update, and recall files and all custom reports requested by the Court.

Data transmissions will be processed by real-time application programming interface (API) and/or an automated batch process by electronic file transfers. Our 160+ member IT team is familiar with nearly every database management system and every data transmission process and protocol.

This familiarity will allow Linebarger to develop a functional interface with each case management product. The fact that your Court has existing data transmission capabilities developed to transmit data with an outside collection vendor will make any development and transition easy; as Linebarger IT staff will be able to adapt and implement quickly based off existing processes. Of course, at the time of implementation and development, if there are functionality issues that do not currently exist that the Court would like to incorporate, our IT staff is able to include that requested upgrade into your process.

We understand that we will receive data and information from the Court from multiple automated case management and information systems using multiple file layouts. Based on our ability to quickly implement and adapt our systems to work with numerous systems and various file layouts – both from existing court processes or building an interface from the ground up - we are confident in our ability to immediately work with all the automated case management and information systems that the Court uses, including but not limited to:

- > Tyler Technologies’ Enterprise Justice case manager - source of Infractions and Misdemeanors with Adjudicated and Unadjudicated Bail and Fine accounts and child custody evaluation fees.
- > Journal Technologies eCourt case management – source of civil, juror and attorney sanctions.

As payments from debtors are received, our interface and data transmission programs will push payment information for entry into the appropriate case management system.

- > Payment information from accounts referred via Enterprise Justice will be entered into the case management system.
- > Payment information from accounts referred via eCourt will be entered into the case management system.

Linebarger will provide daily back-up provisions for electronic data. Linebarger will modify data transmission specifications, procedures, and protocols when requested by the Court.

Similarly, Linebarger strives to make every experience between County and Court staff simple and meaningful. Minimizing any burden on Court personnel is another value-added service that we are proud to provide to our clients. In this regard, we fully intend to implement a reporting and invoicing process that provides accuracy and efficiency in every respect.

3.12.1 Invoices

Linebarger is willing and able to meet the requirements set forth in 3.12.1. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

As a part of our overall implementation process, our team members will meet with appropriate Court staff to determine the exact details and protocols that need to be included in the invoicing process. We will modify existing processes and/or will build new processes customized to your needs and preferences.

As a part of the customized invoicing process, Linebarger will invoice only for collection fees for services that have resulted in the remittance of financial instruments (e.g., cash, checks, credit card remittances, etc.) to Linebarger and subsequent deposit of the financial instruments into the designated County Bank Account.

Linebarger will be compensated only for services that result in the collection of revenue. County/Court will not compensate Linebarger for activities on accounts or expended services in the event payment from debtor is not obtained.

Linebarger invoice amounts will be generated and calculated in accordance with the formula provided in the RFP: $\text{Commission Rate (\%)} \times \text{total collections deposited in to the designated County Bank Account during the period of the invoice}$. Invoices will be submitted by Linebarger each month by the 5th business day of the month for the prior month's deposits to the designated County Bank Account. The invoice will be presented in compliance with RFP Section 3.13.1 – Cycle for Submission of Invoices. We understand that an invoice without the required information will not be approved for payment.

Properly submitted invoices will be submitted by Linebarger for written approval of the Court PM prior to payment of invoices; and the County/Court will not be liable or responsible for any payment prior to such written approval. We understand that approval for payment will not be unreasonably withheld, and in no instance will such approval take more than three (3) weeks from receipt of properly prepared invoices by the Court PM.

3.12.2 Payment on Accounts with a Court Appearance after referral

Linebarger is willing and able to meet the requirements set forth in RFP section 3.12.2. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

We are familiar with this process and understand that in the event a debtor appears in court and subsequently pays the debt, Linebarger will be compensated based on the amount that is adjusted (e.g., if a debtor's balance is reduced from \$550.00 to \$350.00 at a court appearance, and payment is made, the Collection Fee will be based on the new court ordered amount).

3.12.3 Dismissed Accounts

Linebarger is willing and able to meet the requirements set forth in RFP section 3.12.3. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

We are familiar with this process and understand that Linebarger will not receive compensation on any account that has been dismissed or suspended at a court appearance wherein a subsequent court fee has been imposed or otherwise dismissed or suspended by judicial order. Linebarger will not receive compensation on an account where community service has been granted in lieu of fine.

3.12.4 Failure to Pay Accounts

Linebarger is willing and able to meet the requirements set forth in RFP section 3.12.4. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court. We are familiar with this process and understand that Linebarger will not receive compensation on an account in the event a debtor fails to pay the debt after a court appearance.

The County/Court reserves the right to take actions deemed necessary to recover debt from a debtor who has failed to pay after a court appearance. Linebarger will not receive compensation in the event that the County/Court, one of its agents, or another service provider, recovers revenue on a debtor who failed to pay the debt after a court appearance.

3.12.5 Partial Payments/Prorated Fees

Linebarger is willing and able to meet the requirements set forth in RFP section 3.12.5. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

Our Commission Rate will be based on the amount of gross revenue collected. For example, if a partial payment is made, commission will only be paid on the partial payment amount.

3.12.6 Payment on Accounts Deemed Uncollectible, or Withdrawn by County/Court

Linebarger is willing and able to meet the requirements set forth in 3.12.6. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

The County/Court will not compensate Linebarger for an account collection if the debtor's payment, in whole or part, is received by the County/Court, one of its agents, another service provider, or Linebarger after an account has been returned by Linebarger to the County/Court as Uncollectible, or for accounts withdrawn by the County/Court.

3.12.7 Accounts with NSF Checks

Linebarger is willing and able to meet the requirements set forth in RFP section 3.12.7. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

Linebarger will not receive compensation for services in the event a debtor submits an NSF check or chargeback on a debit/credit card transaction. Bank imposed NSF check fees charged to Linebarger may be added (maximum of \$25.00) to the account balance, and we may attempt to collect bank-imposed fees after the Court referral amount is satisfied. Linebarger will not receive compensation from the County/Court on NSF check fees charged to Linebarger, and we will not transmit or pass bank-imposed fees to the County/Court.

Linebarger is not entitled to commission on bank-imposed fees.

3.13 REVENUE RECOVERED BY CONTRACTOR

Linebarger is willing and able to meet the requirements set forth in RFP section 3.13. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

Linebarger will not deduct its fee directly from any collected revenue. Linebarger will receive payment from the County/Court by submitting an invoice as identified in Section 3.12 of the Statement of Work section of this RFP.

3.13.1. Cycle for Submission of Invoices

Linebarger is willing and able to meet the requirements set forth in RFP section 3.13.1. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

Linebarger will submit an invoice once per month, or on any alternative schedule desired or directed by the Court. Invoices will only include collection fees for services that have resulted in the remittance of financial instruments (e.g., cash, checks, credit card remittances, etc.) to Linebarger, and subsequent deposit of the financial instruments into the designate County Bank Account.

Invoices will correspond with, and include an itemized list of the ACH transfers into the County Bank Account made during the billing cycle.

The invoice will be itemized by case and include, at a minimum, the following information:

- > Case number
- > Client code
- > Date paid
- > Debtor name
- > Amount referred
- > Amount paid on the invoice
- > Total amount paid to date
- > Linebarger's commission cost on current payment
- > Linebarger's total commission cost charged to date

Linebarger is willing and able to meet the requirements set forth in RFP section 3.13.2. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

Linebarger's invoices will not include accounts that were set for a court appearance. In the event revenue is collected by the Court on accounts that were set for a court appearance, Linebarger will provide supporting documentation of the payment as instructed by the County/Court. County/Court will determine the total amount to be compensated for each monthly billing cycle, and will compensate Linebarger accordingly.

3.13.3 Invoices which include Accounts with NSF Checks, Chargebacks or Accounts with a Debtor Refund

Linebarger is willing and able to meet the requirements set forth in RFP section 3.13.3. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your Court.

The County/Court will not compensate Linebarger for services provided on accounts with NSF checks, chargebacks, or debtor refunds. In the event of a partial refund, the County/Court will remit to Linebarger a collection fee that is adjusted to the amount of collected money retained by the County/Court. In the event invoices include accounts with NSF checks, chargebacks, or debtor refunds, the County/Court will deduct the amounts of the NSF checks, chargebacks, or the debtor refunds from the invoice.

In the event Linebarger is compensated for accounts with NSF checks, chargebacks, or debtor refunds, the County/Court will deduct the appropriate remitted amount from Linebarger's next invoice.

3.13.4 Reporting Requirements

As an incumbent, the reports area already in place. Should any changes be required, we will gladly comply. Linebarger is willing and able to meet the requirements set forth in RFP section 3.13.4. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

Based on the data and information that we receive from your court at the time of referral, as well as data and information accumulated during the course of our collection activities, we are able to generate nearly any manner of report that your court may want or need.

Our standard system-generated reports are vast and broad – any of our reports may be customized based on content and layout preferences. In addition to the standard reporting library, we are also able to create and generate customized reports and ad hoc reports as needed.

As an incumbent vendor, we have currently approved Court reports in place. We can tailor any report to meet the needs of the Court. Sample reports are provided as Exhibit C of this proposal, and are provided purely as examples of content and layout options that are available. Our overall goal will be to develop a full bevy of customized reports that will be informative to the Court, while at the same time being visually pleasing.

At a minimum, Linebarger will generate and provide the following reports to the County/Court no later than the tenth business day of each month:

- > A summary listing of accounts by account type referred in a given month;
- > A summary description of account activity and status. This report should include, but may not be limited to the following: case, status, amount due, amount paid, balance, collection activities and court appearances;
- > A summary description of month-to-date and year-to-date performance. This report should include, but may not be limited to: amount referred, amount collected, amount outstanding, amount adjudicated by the court, rate of collection, open accounts and paid accounts;
- > The number of accounts with civil assessment added to the fine/bail;
- > The number of debtors that paid their account in full within ten (10) days of Linebarger's first collection letter;
- > Gross and net placements and gross revenue collected;
- > The number of court dates set by the Linebarger by individual court location;
- > The number of installment plans received and initially set up;
- > The average installment payment amount;
- > The number of calls made by Linebarger;
- > The number of calls received by Linebarger;
- > The number of collection letters sent by Linebarger;
- > The number of letters returned undeliverable;
- > A detailed listing of all accounts deemed to be uncollectible;
- > On an as-needed basis, provide a report, which lists all currently active accounts for which collection is still being pursued.

The format and appearance of the above reports will be determined by the County/Court. In addition, the County/Court reserves the right to request additional ongoing and or ad hoc reports as deemed necessary.

3.13.5 Judicial Council of the Court (JCC) Report

Linebarger is willing and able to meet the requirements set forth in RFP section 3.13.5. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court. In addition to the annual requirement, Linebarger also provides this report quarterly.

We are familiar with the annual reporting requirement and have experience handling this function and preparing the necessary annual report documents as required in the JCC Collection Reporting Template format. On an annual basis, the Superior Courts of the State of California and the Counties of the State of California are required to complete and submit to the JCC a Collections Reporting Template with aggregate referred and collected amount for all court and county collections programs to which a contractor is providing collections services. We are familiar with the calculation methodology for computing success and collection rates and are also familiar with the annual late August reporting deadlines.

We are confident in our ability to assist your court in complying with the State of California reporting requirements listed in the RFP. At no additional costs to the County/Court, Linebarger will provide the required data to the County/Court. This will include the Collections Reporting Data provided in RFP Attachment F, as well as any subsequent data that becomes necessary.

The sum of all the payments listed on the payment report will equal the amount transferred via ACH into the designated County Bank Account, the sum of all the payments on the electronic file and/or payment tapes.

The payment report will provide a detailed list of all debtors who paid, including, but not limited to the following elements:

- > Receipt number
- > Client code
- > Account number
- > First and last names
- > Type of financial instrument used to make payment (e.g., cash, checks, credit cards, etc.)
- > Amount paid

The payment report will be sorted by receipt number and include grand totals for the number of accounts paid and the amounts collected. In the event no payments were received, Linebarger will submit a payment report, which indicates that no payments were received.

3.14.4 Legal Actions After Termination

Linebarger is willing and able to meet the requirements set forth in RFP section 3.14.4. Any legal actions in progress at the time of contract termination will be provided to the County/Court within fifteen (15) days of termination. Because legal actions and matters pending in court require compliance with legal requirements and ethical obligations (many of which exist to protect the client), we will work with your court to make certain any post-termination requirements are met.

3.14.5 Reports and Invoices After Termination

Linebarger is willing and able to meet the requirements set forth in RFP section 3.14.5. We have current processes in place that are consistent with the requirements of this RFP that will be seamlessly integrated and incorporated as processes for your court.

Within forty-five (45) days of termination of this contract, Linebarger will submit to the County/Court its termination claim and invoice, in the form and with the certification and reports prescribed by the County/Court. If Linebarger fails to submit its termination claim and invoice within the time allowed, the County/Court may determine, on the basis of information available to the County/Court, the amount, if any, due to Linebarger in respect to the termination. Such determinations will be final. After such determination is made, the County/Court will pay Linebarger the amount so determined.

We will house and maintain all records related to our contract performance for a minimum of five (5) years after contract termination at our office(s). The County/Court will have the right to inspect these records at any time within this five (5) year period.

3.15 COLLECTION AMNESTY PROGRAM

Government entities and Courts may incorporate debt reduction or amnesty type programs based on their needs. We have worked with numerous entities in cooperating and participating in these programs. While we rarely are involved in the front-end conceptual development of the policies or parameters of these programs (as they are generally created at the internal policy level within the government entity or court), we have always been able to adapt our collection efforts to incorporate the various programs and provide assistance.

We are happy to work with the County/Court to create or carry out any debt reduction programs it considers necessary. Linebarger has implemented a variety of activities to promote greater awareness and enhanced opportunities to boost revenue and debtor payments for many of our more than 2,500 clients nationwide.

Many amnesty programs outline a reduction in the collection fee and waiving interest. If desired, Linebarger would consider a flat fee for accounts resolved during the amnesty period for our role in using the dialer to contact debtors and helping publicize the program. The project team will meet with Court officials, including the bench, if requested to devise a program that will garner the best results if the County/Court elects to provide an amnesty program.

One such program was implemented for the Colorado E-470 Public Highway Authority in 2010. Our law firm worked with E-470 to create a reduced-fee program for the Colorado E-470, which was changing its fee structure and overhauling how it billed tollway users without ExpressToll transponders. The program reduced penalties for violators, which allowed the Colorado E-470 to move cleanly to this new billing program.

Our law firm managed this reduced-fee program by: programming existing violator accounts to eliminate the penalties, developing a specialty mailing, responding to questions from Colorado E-470 reduced-fee program users, performing outbound call campaigns, and monitoring the program's success.

We have worked with other clients on amnesty programs and other measures to encourage debt resolutions, and we will work closely with the Court to develop innovative ideas that will prompt payments from debtors, such as changes in notice mailing schedules, specialized media campaigns, or any other concepts that will benefit the Court and its constituents.

Parameters for Court Amnesty Programs

As directed by the County/Court, Linebarger will segregate and perform collection activity on accounts eligible for amnesty. We will accept only the amount authorized/specified by the County/Court as full payment.

Linebarger will segregate and process payments received during the amnesty program in the same manner as described in RFP Section 3.8 and/or as required by Judicial Council guidelines. Also, as required by Judicial Council guidelines, Linebarger will provide the required reporting of data of the Amnesty Program to the County/Court. Linebarger will be compensated only on the amount collected.

We have a large backup of staff with both Los Angeles Superior Court and decades of California court experience that will be available to assist as needed. This is a top priority contract and will have superior support at all times.

We understand collections: With experience spanning more than four decades, we fully comprehend the nuances of the collection process. We know how to achieve outstanding results for our clients.

We appreciate the complexities of public service: Because the majority of our clients are from the public sector, our firm fully grasps the challenges public servants face in recovering delinquent monies owed by the citizens they also serve.

We train our collectors: Training is an integral part of the firm's activities and is a key to our high productivity and low incidence of complaints.

To each employee at every level of employment, we emphasize not only the letter of the law, but also the intent and spirit behind it.

We know the law: Our lawyers are both qualified and experienced to evaluate the legal basis of our client's claim and address the vast array of defenses offered by debtors, some of whom are simply attempting to avoid payment.

To retain qualified, dedicated staff and thus maintain a stable collection operation, Linebarger creates a supportive and encouraging environment for its collectors. We offer a competitive wage and benefits package because we recognize the importance of having responsible, educated, mature individuals working with both our clients and their debtors. Linebarger will respond within five (5) working days upon notification by Court PM and correct the discrepancy, at Linebarger's expense, if any.

The Court PM will monitor all requirements described herein and may, from time to time, provide comment on these services, but will not unreasonably interfere with Linebarger performance.

7.3 AUDITS

The County/Court may, at its discretion, direct or conduct Financial, Operational or other audits of Linebarger's performance to ensure our firm's compliance with all requirements specified in this SOW. One member of the team holds a professional registration as a Certified Internal Auditor.

The Internal Audit Department is separate from the management team for the Court project and monitors firm operations to ensure contractual compliance in accounting, human resources, and administrative processes.

Working under the International Standards for the Professional Practice of Internal Auditing (ISPIIA), as promulgated by the Institute of Internal Auditors (IIA), the firm's Internal Audit Department regularly conducts operational and investigative audits of the firm's offices and significant operations. Audits are scheduled based on an annual audit plan approved by the Audit and Ethics Committee that is developed using a risk-based approach. Additionally, the CFO and the Internal Audit team meet periodically to review certain parts of the Firm's operations and determine whether additional reviews should be performed and reported to the Audit Committee.

Department staff members report to the Director of Internal Audit, who reports directly to the Audit Committee, a subset of the firm's Management Committee. The Audit Committee meets regularly to discuss internal audit reports and significant business and control processes of the Firm. The Chief Financial Officer and Chief Operating Officer also attend the Audit Committee meetings.

The Internal Audit Department determines whether controls implemented by Operations Management are adequate to ensure:

- > Employees' and collector actions conform to policies, standards, procedures
- > Programs, plans, and objectives are achieved
- > Quality and continuous improvement are promoted in the firm's internal control processes
- > Funds are collected and disbursed accurately and in a timely fashion

The firm utilizes the company to perform annual Service Organization Control (SOC 1) reports on its Information Technology controls related for its ACT software system (tax system) and for its Fees and Fines collection system located in San Antonio, Texas. Occasionally, our firm also utilizes other reputable regional CPA firms to report about other processes within the organization.

Audit Trails

Our system supports audit functions for collection activities and associated data. We can generate an extensive group of management and collection reports to document work performed and remittances processed on the accounts within Court's portfolio.

Authorized Court employees shall be permitted, during normal business hours, to audit and examine the books of accounts, reports, and records pertaining directly to the collection activity related to this contract. All collection activities are recorded in real time as the activity occurs, including both system and personnel updates. Management reviews and instructions are also recorded in the account's history log for employee review and action.

Linebarger utilizes several computer operating systems that allow the firm to customize what events are collected. Based on the requirements of each client and in conjunction with Linebarger security policies, the programmer develops audit criteria unique to each database, system, and/or application. These audit logs are maintained by each system.

The activity screen for our customized Columbia Ultimate Business System (CUBS) collection software shows the current amount due, including interest and collection cost. All collection or skip-tracing activity is recorded by the collector for each account. Collection managers can review collector activity on all accounts to assure that they are providing quality customer care and performing all necessary steps to collect the delinquency.

Linebarger's 175-member IT team coupled with our extensive technology resources allows for the capacity to process all accounts proposed under this contract as a sole-contractor. Security is our focus and the following demonstrates the lengths our firm undergoes to ensure data security and confidentiality of records.

Data Backups

Data replication occurs in real-time to our Disaster Recovery (DR) location, with a separate backup every night to capture a snapshot of the daily activities. We use FIPS 140-2 compliant cryptography with additional safeguards and controls through PCI DSS Level 1 and IRS 1075 standards & guidelines to ensure that all [Client Name abbreviated] data is fully protected at rest and in transit. We retain data backups dependent upon client requirements, regulatory, and company standards. We verify all backups for consistency to confirm that data restoration is not required.

Data Archives

In addition to data backups, our Enhanced Electronic File Transfer (EFT) System archives transferred data in real time. This system identifies client data uploaded to our EFT System and uniquely archives it to a separate directory. These archived copies help to protect and quickly reconcile any data a client may have accidentally deleted, overwritten, or uploaded in error.

Linebarger also employs a unique solution called SyncIQ, which enables us to implement a remote disk archiving solution for disaster recovery using asynchronous data replication. With this solution, the replication process occurs every six hours. This process replicates all client-archived data changes from our Local Enterprise SAN Storage Solution to our remote Disaster Recovery location. The system will never delete the data at our Disaster Recovery location unless expressly authorized by a client, regulatory requirements, or company standards.

Data and System Security

Security is the number one priority with any client’s data. Linebarger uses a combination of physical, technical, and administrative controls to ensure the confidentiality, integrity, and availability of data. We are equipped to secure communication between Linebarger and our clients, ensuring data confidentiality and integrity en route to source or destination systems. Linebarger uses industry-standard protocols, including but not limited to SFTP, HTTPS, FTPS, IKE, IPSEC, and PGP, to protect data in transit. Data can be transmitted directly using these protocols via our Secure Enhanced File Transfer system and/or through IKE/IPsec VPN tunnels. Linebarger can accommodate the County’s requirements using Pretty Good Privacy (PGP) tools and utilities if there is a need to encrypt data prior to transmittal.

As a complementary component, Linebarger employs a state-of-the-art Storage Area Network (SAN) comprised of all-flash arrays that implement in-line data at rest encryption (DARE) and self-encrypting drive (SED) technologies. This architecture protects data at rest once loaded onto our systems, preventing unauthorized read or write access.

Personnel Certifications

Our Chief Technology Officer holds certifications as an Information Systems Security Professional (CISSP), Information Security Manager (CISM), and Project Manager (PMP). He oversees the firm’s IT security requirements, implementing administrative, technical, and physical safeguards to protect assets. He also develops policies and procedures to ensure Firm operations meet all IT security requirements.

Security Standards

We have current communication capability to interface with the Court's case management and collection management systems and to transmit relevant collection data in a frequency deemed acceptable by the Court. Such operations are already working to the satisfaction of our more than 2,600 government clients nationwide.

The firm has strict data security procedures in place –The combination of ISO 27001/27002 and NIST 800-53/171 standards are mapped out for a common foundation, while also building upon the specific requirements of each. These frameworks are part of our core infrastructure used to achieve our PCI Level 1, SOC 1, SOC 2, SOC 3, and IRS 1075 security certifications. Linebarger continually monitors and adheres to changes in cybersecurity frameworks to ensure our security posture meets the highest standards. Linebarger undergoes independent audits to verify our security and control requirements using NIST, PCI, and SSAE 16 [American Institute of CPA's (AICPA)] standards.

National Institute of Standards and Technology Security Standards (NIST)

As a result of a firmwide effort to maximize the already excellent security of our IT systems, in July 2005, Linebarger received its NIST Compliance Letter based upon the NIST 800 series special publications, which provide guidance on developing and implementing a comprehensive computer security program. These documents assist organizations that process "Sensitive but Unclassified (SBU) information."

The certification process involves an extensive review of every aspect of the firm's information systems security, including disaster recovery, intrusion detection, physical plant security, and virus protection. The firm undergoes NIST compliance verification annually.

Payment Card Industry Compliance (PCI)

Linebarger holds PCI Level 1 Merchant and PCI Level 1 Service Provider certifications. We treat all information and personal data connected with the collection of client accounts as confidential and protect it throughout its life cycle in our systems. Linebarger undergoes an annual PCI assessment of our controls as a Merchant and a Service Provider. An Attestation of Compliance (AOC) and Report on Compliance (ROC) confirms the controls comply with the PCI standards. Only a PCI Qualified Security Assessor (QSA) can issue a PCI Level 1 ROC. An Approved Scanning Vendor (ASV) also conducts a quarterly scan of our technical environment to test our systems' security against the PCI standards. Any deficiencies in PCI standards result in an automatic failure of PCI compliance. Linebarger undergoes annual certifications.

Linebarger has reviewed the 18 elements of Professional Practices Management System (PPMS) program for compliance. Linebarger's current security and process controls meet or exceed the PPMS requirements.

Statement on Standards for Attestation Engagements SSAE16/18 Audits

Linebarger undergoes multiple SSAE16/18 audits of our Service Organization Controls (SOC) to comply with the reporting requirements for various clients throughout the year. These audits ensure that Linebarger maintains compliance with the American Institute of CPA's (AICPA) control standards. Each audit consists of verifying and testing our physical, logical, procedural, and technical controls against the AICPA standards for Service Organizations. The process consists of visual inspections, personnel interviews, and policy evaluations. An independent auditor generates a SOC 1 report to document the findings. The report includes all noted deficiencies and a Corrective Action Plan (CAP) if needed, with a set date to remediate. Our last audit confirmed that Linebarger has the necessary controls to ensure that we meet all control objectives.

Linebarger also undergoes audits for SOC 2 and SOC 3. The firm is in full compliance with all requirements to meet these standards as well.

TECHNOLOGY CERTIFICATIONS

Network Security

Within our computer network, ITG develops and deploys strict security protocols to protect clients' data from both external and internal threats:

- > **Endpoint protection:** All Linebarger systems utilize commercial antivirus software. In addition to antivirus software, Advanced Endpoint Protection (AEP) software protects against unknown malware, exploits, and zero-day threats.
- > **Continuous monitoring to prevent intrusion:** A next-generation firewall (NGFW) provides protection at the firm's external perimeter. An Intrusion Prevention System (IPS) also monitors traffic to/from the firewall as an additional layer of protection.
- > **Automated monitoring and notifications:** ITG monitors all Linebarger systems for availability and unusual behavior. They rely on out-of-band systems for logging, real-time alerts, and automated notifications.
- > **Close monitoring of internet communications:** Our system collects information on all inbound and outbound internet traffic.
- > **256-bit end node-to-end node data encryption:** We maintain several virtual private network (VPN) connections, which provide the necessary speed and security.
- > **Password protection:** Access to the firm's computer network requires a unique user ID and password created using "strong" criteria: at least eight characters, a mixture of uppercase and lowercase letters, at least one number, and at least one special character. All users

must change their passwords every 90 days. The system does not allow users to reuse recent passwords.

- > **Security at each end node:** Limited, secure end node access protects law firm communications. Each end node has a dedicated IP address, and our end node routers send audit logs to our centralized log server, creating a record of all transmissions.
- > **Access on a strict need-to-know basis:** Once a client's data resides within the Linebarger system, a secure login and password unique to that client prevents accidental or intentional intrusion. We provide the login and password only to those firm employees who need direct access to client data, effectively isolating the client's account data from other system data.
- > **Centralized IT operations:** We will maintain all electronic data associated with the Court project at Linebarger's ITG colocation facility. Located in San Antonio, Texas, this facility's extensive physical and network safeguards protect the information and hardware maintained at this location. Linebarger maintains a leased 10Mbs dedicated connection for all data transfers and data communications with clients.

Secure Data Transfers

Linebarger's ITG division takes extraordinary steps to guarantee security during transmission of client data:

- > **SFTP:** Linebarger's system supports SFTP as a protocol for secure file transfers
- > **Web SSL:** We support HTTPS file transfers through a secure webpage. All data transfers and logons occur within a 256-bit encrypted SSL session
- > **IPSec Tunnel:** Our systems utilize secured FTP or VPN tunnels with a minimum of AES-256 encryption
- > **PGP encryption:** We support the use of PGP for encrypting files that are emailed. Encrypted messages and a user's key work in conjunction with scrambling algorithms so only the intended recipient can decrypt the data

Controlled Destruction of System Outputs

Linebarger follows established procedures for identifying and securely destroying confidential information. Secure physical media is stored in PCI-compliant locked containers for weekly on-site destruction. All containers remain under Linebarger control at all times. Linebarger employees monitor all on-site destruction and receive a certificate of destruction. We employ IT Asset Disposition (ITAD) processes for secure hard drive, memory, and media destruction. Linebarger provides chains of custody and certificates of destruction.

Facilities Security

All collection operations occur in secure facilities, using strict quality control methods that have protected our clients' data for over four decades.

13. Default and Remedies.**A. Default.** Unless otherwise provided, a default exists under the Agreement if:

- D. Specific Performance for Breach of Confidentiality. Contractor understands that a default of the provisions in the section entitled "Confidential Information; Publicity" will result in irreparable damage for which no adequate remedy will be available. Accordingly, injunctive or other equitable relief is a remedy that the Court will be entitled to seek.

14. Dispute Resolution.

The Court and Contractor will attempt, in good faith, to resolve any disputes informally. Such dispute must be submitted in writing within ten (10) calendar days of the earliest incident of dispute. Contractor will meet with the Court's Project Manager or other designated representative to discuss the matter and any actions necessary to resolve a dispute.

- C. Continued Performance of Work. Pending final resolution of any dispute, Contractor agrees to proceed diligently with the performance of the work, including work associated with the dispute, unless otherwise directed by the Court. Contractor's failure to diligently proceed in accordance with the Court's instructions will be considered a material breach of the Agreement.

15. Entire Agreement.

- A. Headings or captions to the provisions of the Agreement are solely for the convenience of the parties, are not part of the Agreement, and will not be used to interpret or determine the validity of the Agreement.
- B. Negotiated Agreement. The Agreement was negotiated between the parties, and neither party "prepared" the Agreement for purposes of California Civil Code § 1654. Any ambiguity will not be construed against the drafter, but rather the terms and provisions will be given a reasonable interpretation.
- C. The Agreement, including all documents incorporated by reference, constitutes the entire and final understanding of the parties regarding the matter, and supersedes and terminates any and all prior or contemporaneous negotiations, representations, understandings, discussions, offers, proposals, or agreements between the parties, whether written or oral, express or implied, relating in any way to this matter, and is mutually binding on the parties in accordance with its terms.
- D. No agent, representative, employee or officer of either the Court or Contractor has the authority to make, or has made, any oral statement, agreement or representation, in connection with the Agreement, which in any way can be deemed to modify, add to and detract from, or otherwise change or alter its terms and conditions. No subsequent purchase order, invoice, click-through or shrink-wrap agreement, or similar document containing conflicting terms and conditions issued by Contractor in conjunction with the performance of any party's duties and/or obligations due under the Agreement, shall be permitted to modify or contradict any of the terms and conditions of the Agreement.

This indemnity applies regardless of the theory of liability on which a claim is made or a loss occurs. This indemnity will survive the expiration or termination of this Agreement, and acceptance of any goods, services, or deliverables. Contractor shall not make any admission of liability or other statement on behalf of an indemnified party or enter into any settlement or other agreement which would bind an indemnified party, without the Court's prior written consent, which consent shall not be unreasonably withheld; and the Court shall have the right, at its option and expense, to participate in the defense and/or settlement of a claim through counsel of its own choosing. Contractor's duties of indemnification exclude indemnifying a party for that portion of losses and expenses that are finally determined by a reviewing court to have arisen out of the sole negligence or willful misconduct of the indemnified party.
- B. Contractor's obligation to defend, indemnify, and hold the Court and court personnel harmless is not limited to, or restricted by, any requirement in the Agreement that Contractor procure and maintain insurance policies.

19. Insurance Requirements.

The Agreement shall specify whether the insurance requirements of Section 19.1 or Section 19.2 apply. Unless the Agreement expressly calls for specific coverage(s) set forth in Section 19.2, the insurance requirements of Section 19.1 shall apply.

- (4) For full coverage, each insurance policy shall be written on an “occurrence” form, except for professional liability insurance, which may be made on a “claims made” form. If coverage is approved and purchased on a “claims made” basis, Contractor warrants continuation of coverage, either through policy renewals or the purchase of an extended discovery period, for three (3) years, without lapse, from the date of termination or expiration of the Agreement and the Court’s acceptance of all work provided under the Agreement. The deductible and/or self-insured retentions shall not limit or apply to Contractor’s liability to the Court and shall be the sole responsibility of Contractor. Contractor shall declare to the Court all deductibles and self-insured retentions that exceed \$100,000 per occurrence. Any increases in deductibles or self-insured retentions that exceed \$100,000 per occurrence are subject to the Court’s approval.
- (7) Endorsements; Additional Insureds. All required insurance policies will contain, or be endorsed to contain, the following provisions:
- (a) Additional Insureds. The State of California, the Judicial Council of California, and the Superior Court of California, County of Los Angeles, and their respective elected and appointed officials, judges, officers, and employees shall be covered as additional insureds for liability arising out of activities performed by, or on behalf of, Contractor under the Agreement. This requirement applies to Contractor’s commercial general liability policy, automobile liability policy, and, if applicable, umbrella policy.
 - (b) Primary Insurance; Waiver of Subrogation. Contractor’s insurance coverage shall be primary and non-contributory with any insurance or risk management programs covering the Court or court personnel. Contractor and its insurance carrier waive any and all rights of subrogation against the State of California, the Judicial Council of California, and the Superior Court of California, County of Los Angeles, and their respective elected and appointed officials, judges, officers, and employees.

- (2) Before Contractor begins work, Contractor shall submit certificates of insurance to the Court's insurance compliance and tracking provider, as specified in this Agreement, attesting to the existence of adequate coverage. If the insurance expires during the term of the Agreement, Contractor shall immediately renew or replace the required insurance and provide a new current certificate of insurance and signed insurance policy endorsements. All certificates of insurance and replacement certificates of insurance are subject to the approval of the Court.
- (3) Submission of certificates of insurance (or lack thereof) and/or their approval by the Court shall not relieve Contractor of its obligation to ensure that all required insurance policies conform to all foregoing requirements, and to ensure that any exclusions contained in such policies do not unduly or unfairly restrict the coverages required by the Court. Upon the Court's request at any time, Contractor shall provide: (1) complete copies of each required policy; and (2) the same evidence of insurance for its subcontractors as the Court requires of Contractor.
- (4) If at any time, the foregoing policies become unsatisfactory to the Court, as to form or substance, or if a company issuing any such policy becomes unsatisfactory to the Court, Contractor shall, upon written notice from the Court, promptly obtain a new policy, and submit the same to the Court, with the appropriate certificates and endorsements.

- A. If this is an Agreement for a Public Work (as defined by California Labor Code §§ 1720 & 1771), Contractor, and all its subcontractors, are subject to the Prevailing Wage rules and regulations imposed by the California Labor Code, Division 2, Part 7, Chapters 1-2 (§§ 1720-1815); and the California Code of Regulations, Title 8, Division 1, Chapter 8, Subchapters 3-6 (8 CCR §§ 16000-17264). Contractor, and all its subcontractors, are registered with the Department of Industrial Relations, and are responsible for paying its workmen at least the Prevailing Rates of Wages, maintaining certified payrolls for inspection by the Division of Labor Standards Enforcement of the Department of Industrial Relations, and complying with all other applicable rules and regulations governing Public Works and Prevailing Wages. Contractor or subcontractor's failure to do so may subject it to fines, penalties, and civil suit; a ban from bidding on future Public Works projects; and misdemeanor penalties. Contractor is responsible for complying with any other applicable federal, state, and local Prevailing Wage requirements whether referenced or not.
- B. Prevailing Wage rates, as determined by the Department of Industrial Relations, can be found at: <http://www.dir.ca.gov/Public-Works/PublicWorks.html>.

27. Prior Work.

Prior work, performed by Contractor pursuant to the Court's authorization, but before execution of the Agreement, will be considered as having been performed subject to the provisions of the Agreement.

28. Prohibited Bids for End Product of the Agreement ("Follow-On Contracts").

- A. If Contractor or its affiliates provides Consulting and Direction (as defined below), Contractor and its affiliates: (i) shall not submit a bid or be awarded a subsequent contract to supply the service or system, or any significant component thereof, that is used for or in connection with any subject of such Consulting and Direction; and (ii) will not act as consultant to any person or entity that does receive a contract described in sub-section (i).
- B. "Consulting and Direction" means services for which Contractor received compensation from the Court and includes: (i) development of or assistance in the development of work statements, specifications, solicitations, or feasibility studies; (ii) development or design of test requirements; (iii) evaluation of test data; (iv) direction of or evaluation of another contractor; (v) provision of formal recommendations regarding the acquisition of Information Technology products or services; or (vi) provisions of formal recommendations regarding any of the above. For purposes of this section, "affiliates" are employees, directors, partners, joint venture participants, parent corporations, subsidiaries, or any other entity controlled by, controlling, or under common control with Contractor. Control exists when an entity owns or directs more than fifty percent (50%) of the outstanding shares or securities representing the right to vote for the election of directors or other managing authority.
- C. To the extent permissible by law, the Court may waive the restrictions set forth in this section by written notice to Contractor if the Court determines their application would not be in the Court's best interest. Except as

prohibited by law, the restrictions of this section will not apply: (i) to follow-on advice given by vendors of commercial off-the-shelf products, including software and hardware, on the operation, integration, repair, or maintenance of such products after sale; (ii) to contractors that were awarded a subcontract of the original consulting service contract that amounted to no more than ten (10) percent of the total monetary value of the original consulting services contract; or (iii) where the Court has entered into a master agreement for software or services and the statement of work at the time of Agreement execution expressly calls for future recommendations among Contractor's own products.

- D. The restrictions set forth in this section are in addition to conflict of interest restrictions imposed on public contractors by California law ("Conflict Laws"). In the event of any inconsistency, such Conflict Laws override the provisions of this section, even if enacted after execution of the Agreement.

29. Public Access to Records and Information.

- A. Rule 10.500 of the California Rules of Court sets forth comprehensive access provisions applicable to administrative records (which includes, among other things, agreements and amendments) maintained by a trial court. The Court will make identifiable administrative records available upon request, unless the records are exempt from disclosure under Rule 10.500. Please be aware that an agreement or amendment may be considered a public record and be made available to anyone who requests a copy.
- B. If an agreement or amendment contains material noted or marked by Contractor as "Confidential" and/or "Proprietary" that, under Rule 10.500 would be exempt from public disclosure, then that information will presumptively not be made available to the public. If the Court considers that under Rule 10.500 such material is not exempt from public disclosure, the material may be made available to the public, regardless of Contractor's notation or markings. If a Contractor is unsure if its confidential and/or proprietary material would fall within the disclosure exemption requirements of Rule 10.500, then it should carefully consider whether to include such information in an agreement or amendment because such information may be disclosed to the public.

30. Public Contract Code.

Part 2.5 of the California Public Contract Code (§§ 19201 – 19210), cited as the California Judicial Branch Contract Law, requires the Judicial Branch (including the Court) to comply with provisions in the Public Contract Code that apply to state agencies and departments regarding the procurement of goods and/or services. The California Judicial Branch Contract Law applies to all contracts initially entered into or amended by Judicial Branch entities (including the Court) on or after October 1, 2011.

31. Recovery of Court Costs Incurred Due to Poor Performance or Non-Performance.

Should the Court incur any costs due to Contractor poor performance or non-performance, and if these Court costs are foreseeable consequences resulting from Contractor poor performance or non-performance, the Court has the right to withhold (and keep) such amounts from any future payment(s) to Contractor. This Court right is not tied to any other Default, Breach and/or Remedy process set forth elsewhere in this Agreement.

32. Scope of Work; Acceptance; Rejection.

- A. Scope of Work. Contractor will perform and complete all work in compliance with the requirements of the Agreement, and to the satisfaction of the Court. Contractor shall strictly adhere to the delivery and completion schedules specified in the Statement of Work. Time, if stated as a number of days, shall mean calendar days unless otherwise specified.
- B. Acceptance. Notwithstanding any prior inspection or payments, all goods and services delivered hereunder shall be subject to final inspection and acceptance or rejection by the Court within a reasonable time after delivery to the Court. Until work is completed and accepted by the Court, the risk of loss or damage to the work shall remain

with Contractor. All items which are not in compliance with the specifications hereof, which are not as warranted or which are shipped late, shipped in excess or insufficient quantities, or substituted for items ordered hereunder may be rejected by the Court and returned or held at Contractor's expense and risk. No damages or extras will be allowed for unforeseen difficulties or obstructions. Payment shall not constitute an acceptance of the goods, services, or work nor impair the Court's right to inspect or any of its remedies. Contractor shall immediately refund any payment made in error.

- C. Rejection. The Court may reject any goods, services, or deliverables that: (i) fail to meet applicable requirements or acceptance criteria; (ii) are not as warranted; or (iii) are performed or delivered late. The Court's Project Manager may apply any acceptance criteria set forth in the Agreement (including timeliness, completeness, technical accuracy, and conformance to statistical, industry or marketplace standards) to determine acceptance or non-acceptance of the work.
- (1) If the work is not acceptable, the Court's Project Manager shall detail Contractor's failure to meet the acceptance criteria. Contractor shall have ten (10) business days from receipt of the Court's notification of non-acceptance to correct the failure(s) to conform to the acceptance criteria. Contractor will re-submit the work and the Court's Project Manager shall re-apply the acceptance criteria to determine its acceptance or non-acceptance. Thereafter, the parties shall repeat the process set forth in this section until Contractor's receipt of the Court's written acceptance of such corrected work; provided, however, that if the Court rejects any work on at least two (2) occasions, the Court may terminate that portion of the Agreement which relates to the rejected work at no expense to the Court.
 - (2) If the Court rejects any goods, services, or other deliverables after payment to Contractor, the Court may exercise all contractual and other legal remedies, including: (i) setting off the overpayment against future invoices payable by the Court; (ii) setting off the overpayment against any other amount payable for the benefit of Contractor pursuant to the Agreement or otherwise; and (iii) requiring Contractor to refund the overpayment within thirty (30) days of the Court's request.

33. Shipping and Packing Slips.

Time is of the essence to delivery and any other performance required of Contractor. No charge for delivery, drayage, express, parcel post, packing, cartage, insurance, license fees, permits, cost of bonds, or any other purpose shall be paid by the Court unless it is expressly included on the face of the Agreement. Unless stated otherwise, shipping point for all deliveries under the Agreement shall be FOB "destination", and on "FOB Shipping Point" transactions, Contractor shall arrange for lowest-cost transportation, prepay and add freight to its invoice, and furnish supporting freight bills over \$25. If delivery is to be made by a carrier, an itemized delivery ticket must be attached to the outside of the package. Each container must be marked with the Agreement number, part number, and quantity. Any itemized packing slip bearing the Court's Agreement number as shown thereon must be left with the goods to insure their receipt.

34. Signatures; Counterparts.

- A. The signatures required for execution of the Agreement may be made by manual signature, or by digital signature that may conform to California Government Code § 16.5 and all California regulations promulgated thereunder (including California Code of Regulations, title 2, division 7, chapter 10), or by any other commercially acceptable signature method, use of which by both parties for signature and execution of the Agreement evidences consent to the validity of the method of signature used.
- B. The parties give the same validity, force, and effect to a scanned, faxed, photocopied, or other accurately reproduced signature as to an original signature.
- C. The Agreement may be executed in counterparts, each of which is considered an original.

35. Standard of Performance; Warranties.

- A. Standard of Performance. Contractor will perform all work with the requisite skill and diligence consistent with professional standards for the industry and type of work performed under the Agreement, and pursuant to the governing rules and regulations of the industry. Contractor acknowledges that the Court relies on the accuracy, competence, and completeness of Contractor's services. Contractor will efficiently use the resources or services necessary to provide the work; and provide the work in the most cost-efficient manner consistent with the required level of quality and performance. The work will be provided free and clear of all liens, claims, and encumbrances.
- B. Warranties.

(1) For a period of one (1) year, unless the Agreement or the warranties provided by a third party for goods or services procured by Contractor provide for a longer warranty period, Contractor expressly warrants that the goods and services covered by the Agreement are: 1) free of liens or encumbrances; (2) merchantable and good for the ordinary purposes for which they are used; and (3) fit for the particular purpose for which they are intended; (4) free from all defects in materials and workmanship; (5) to the extent not manufactured pursuant to detailed designs furnished by the Court, free from defects in design; and (6) conform to the requirements of the Agreement. The Court's approval of designs or specifications furnished by Contractor will not relieve Contractor of its obligations under this warranty.

- (2) Contractor agrees to indemnify, defend, and hold the Court and court personnel harmless from liability, loss, damage and expense, including reasonable attorney's fees, incurred or sustained by the Court by reason for the failure of the goods or services to conform to such warranties, faulty work performance, negligent or unlawful acts, and non-compliance with any applicable state or federal codes, ordinances, orders, or statutes, including the Occupational Safety and Health Act (OSHA) and the California Industry Safety Act. Such remedies shall be in addition to any other remedies provided by law.
- (3) Contractor represents and warrants to the Court that it owns, will own, is authorized, or will be authorized to use for its own and the Court's benefit, all intellectual property rights used and to be used in connection with providing and/or performing the work.
- (4) All warranties will inure to the Court, its successors, assigns, customer agencies, and users of the work provided hereunder. Contractor shall not take any action, or fail to perform any act that results in a warranty or representation becoming untrue. Contractor shall promptly notify the Court if any warranty or representation becomes untrue.
- (5) Unless otherwise specified, the warranties set forth in this Section commence after work has been accepted by the Court.

36. Stop Work.

- A. The Court may, at any time, by delivery of a written Stop Work Order to Contractor, require Contractor to stop any or all of the work, for up to ninety days after the Stop Work Order is delivered to Contractor, and for any further period to which the parties may agree.
- B. Upon receipt of the Stop Work Order, Contractor will immediately comply with its terms and take all reasonable steps to minimize the costs incurred to the Court during the applicable Stop Work period. Within ninety days after a Stop Work Order is delivered to Contractor, or within any mutually agreed extension of that period, the Court will either cancel the Stop Work Order or terminate the work, as provided in the Termination provisions.
- C. If a Stop Work Order is cancelled, or the period of the Stop Work Order or any extension thereof expires, Contractor will resume work. The Court may make an equitable adjustment in the delivery schedule, the

Agreement amount, or both, if (i) the Stop Work Order Increases Contractor's costs or the time required for performance; and (ii) Contractor asserts its right to an equitable adjustment within thirty days after the end of the applicable Stop Work period.

- D. If a Stop Work Order is not canceled and the work covered by the Stop Work Order is terminated other than for cause, the Court may allow reasonable costs resulting from the Stop Work Order.
- E. The Court will not be liable to Contractor for loss of profits because of any Stop Work Order.

37. Survival.

Terms that will survive termination or expiration of the Agreement include those relating to, but are not limited to: assignment, audit rights and retention of records, confidentiality, indemnification, limitation of liability, and warranties.

38. Termination.

- A. Termination for Cause. The Court may terminate the Agreement, in whole or in part, for cause, upon written notice. The Court shall be relieved of any payments, if Contractor fails to perform the requirements of the Agreement at the time and in the manner agreed. The Court may also cancel delivery immediately of all or any portion of unshipped goods or limit Contractor's work and, proportionately, Contractor's compensation. The Court may proceed with the work in any manner deemed proper. All costs to the Court arising from Contractor's default, including costs to complete or correct the work, will be deducted from any sum due to Contractor. Contractor will not be entitled to recover overhead or profit on the uncompleted portions of the work.
- B. Termination for Convenience. The Court may terminate the Agreement, in whole or in part, at any time, for any or no reason, upon written notice to Contractor. Upon receipt of notice of termination, Contractor will promptly discontinue work as specified in the Notice. The Court will pay Contractor for the work satisfactorily performed prior to the termination. Contractor will not recover overhead or profit on the uncompleted portions of the work.
- C. Termination due to Fund Non-Appropriation and/or Availability.
 - (1) The Court's obligations under the Agreement are subject to the availability of funds authorized for this work. Expected or actual funding may be withdrawn, reduced, or limited prior to the expiration or other termination of the Agreement. Funding beyond the current Appropriation Year is conditioned upon appropriation of sufficient funds to support the activities described in the Agreement.
 - (2) Upon Notice, the Court may terminate the Agreement in whole or in part, without prejudice to any right or remedy of the Court, for lack of appropriation of funds. Upon termination, the Court will pay Contractor for the fair value of work satisfactorily performed prior to the termination, not to exceed the total Agreement amount.
 - (3) In the event that budget reductions occur in any fiscal year covered by the Agreement that may cause the Court to consider terminating the Agreement, the parties agree to attempt to renegotiate in good faith the terms of the Agreement to reduce the Maximum Contract Sum in lieu of cancellation under the termination provisions of the Agreement.
- D. Effect of Termination. Upon the Termination Date:
 - (1) The Court shall be released from compensating Contractor for work, other than those Contractor satisfactorily performed before the Termination Date, and for any indirect costs. Without prejudice to the Court, Contractor shall be released from performing work.

- (2) If only a part of the Agreement is terminated by the Court such that Contractor is released from performing a portion of the work, the Court shall accordingly be released from compensating Contractor for that portion of work.
- (3) Court will have the right to take possession of any materials, equipment, and other work including partially completed work. Contractor shall return to the Court any equipment purchased or built with Court funds, with costs incurred by Contractor being reimbursed by the Court. Unless otherwise provided in the Agreement, Contractor will immediately assign to the Court all of Contractor's right, title, and interest in and to such work, related materials, work product, and any and all intellectual property rights.
- (4) Upon termination of any kind, the Court may withhold from payment any sum that the Court determines to be owed to the Court by Contractor, or as necessary to protect the Court against loss due to outstanding liens or claims of former lien holders. Unless otherwise specifically provided, any advance payments made by the Court to Contractor shall be refunded to the Court on a pro rata basis.
- (5) Contractor shall have no claim against the Court, the County of Los Angeles, the State of California, the Judicial Council, and their respective officers, employees, and agents for payment of any money or reimbursement, of any kind whatsoever, for any service provided by Contractor after the expiration or other termination of this Agreement. Should Contractor receive any such payment it shall immediately notify the Court and shall immediately repay all such funds to the Court. Payment by the Court for services rendered after expiration/termination of this Agreement shall not constitute a waiver of the Court, the County of Los Angeles, the State of California, the Judicial Council, and their respective officers, employees, and agents' right to recover such payment from Contractor. This provision shall survive the expiration or other termination of this Agreement.
- (6) Third Party or Court Services

Notwithstanding anything in this Agreement to the contrary, the Court shall have the right to perform or contract with a third party to provide any services or goods within or outside the scope of the work, including services to augment or supplement the work or to interface with the IT infrastructure of the Court. In the event the Court performs or contracts with a third party to perform any such service, Contractor shall cooperate in good faith with the Court and any such third party, to the extent reasonably required by the Court. Such cooperation shall include, without limitation, providing such information as a person with reasonable commercial skills and expertise would find reasonably necessary for the Court or a third party to perform its services relating to the work.

39. Time is of the Essence.

Time is of the essence in the performance of work by Contractor under the Agreement.

40. Waiver; Severability.

- A. Waiver of Rights. The Court's action, inaction, or failure to enforce any right or provision of the Agreement is not a waiver of its rights, and will not prevent the Court from enforcing such rights on any future occasion. A Court-specific waiver does not constitute a waiver by the Court of any earlier, concurrent, or later breach or default.
- B. Severability. The provisions of the Agreement are separate and severable. If any part of the Agreement is held invalid or unenforceable, all other parts remain valid or enforceable, unless prohibited by applicable state and federal law.
- C. Waiver of Jury Trial. To the extent enforceable under California law, each party acknowledges that it is aware of and has had the opportunity to seek advice of counsel of its choice with respect to its rights to trial by jury, and each party, for itself and its successors and assigns, does hereby expressly and knowingly waive and release all

such rights to trial by jury in any action, proceeding, or counterclaim brought by any party hereto against the other (and/or against its judges, subordinate judicial officers, officers, administrators, agents, representatives, and employees) on or with regard to any matters whatsoever arising out of or in any way connected with the Agreement and/or any other claim of injury or damage.

41. Work Site.

With respect to work delivered and/or performed on the Court's premises, Contractor has the responsibility to inform itself fully and shall assume the risk as to the physical conditions at the worksite, including as applicable: (1) the availability, location, and extent of construction and storage areas and other facilities or structures above and below ground, but not limited to gas, water, sewer, electrical, and communication utilities; (2) necessary safety precautions and safeguards; (3) work to be performed by Contractor or others; (4) rules, regulations, and requirements to be observed by Contractor in the conduct of the work. Lack of knowledge of existing conditions will not be accepted as an excuse for failure to perform the specified work, nor shall such excuse be accepted as a basis for claims or additional compensation. Contractor shall conform to any specific safety requirements as required by law or regulation. Contractor shall take any additional precautions as the Court may reasonably require for safety and accident prevention purposes. Any violation of such rules and requirements, unless promptly corrected, shall be grounds for termination of the Agreement.

42. Miscellaneous Provisions Applicable to Specific Contracting Situations.

A. Union Activities Certification.

[OPTION 1: If the Agreement is \$50,000 or under, and allows for the reimbursement of Contractor expenses]

Contractor must include with any request for reimbursement from the Court a certification that Contractor is not seeking reimbursement for costs incurred to assist, promote, or deter union organizing. If Contractor incurs costs or makes expenditures to assist, promote or deter union organizing, Contractor will maintain records sufficient to show that no reimbursement from the Court was sought for these costs, and Contractor will provide those records to the Attorney General upon request.

[OPTION 2: If the Agreement is over \$50,000, and allows for the reimbursement of Contractor expenses]

Contractor must include with any request for reimbursement from the Court a certification that Contractor is not seeking reimbursement for costs incurred to assist, promote, or deter union organizing. No Court funds received under this Agreement will be used to assist, promote or deter union organizing during the term of this Agreement (including any extension or renewal term). If Contractor incurs costs, or makes expenditures to assist, promote or deter union organizing, Contractor will maintain records sufficient to show that no Court funds were used for those expenditures and no reimbursement from the Court was sought for these costs. Contractor will provide those records to the Attorney General upon request.

[OPTION 3: If the Agreement is over \$50,000, but does not allow for the reimbursement of Contractor expenses]

No Court funds received under this Agreement will be used to assist, promote or deter union organizing during the term of this Agreement (including any extension or renewal term). If Contractor incurs costs, or makes expenditures to assist, promote or deter union organizing, Contractor will maintain records sufficient to show that no Court funds were used for those expenditures. Contractor will provide those records to the Attorney General upon request.

- B. Provisions Applicable to **Certain Services with Compensation** over \$200,000. If this is an Agreement for services, other than consulting services, with total compensation over \$200,000, Contractor shall give priority consideration in filling vacancies in positions funded by the Agreement to qualified recipients of aid under Welfare and Institutions Code § 11200 in accordance with Public Contract Code § 10353.

C. Provisions Applicable to **Commercial Office Moving Services Agreements**. If this is an agreement of more than \$2,500 with a carrier for commercial office moving services, Contractor shall abide by the requirements contained in the State Administrative Manual, section 3810, which requires Contractor to employ only drivers and supporting personnel who are under a current collective bargaining agreement or who are paid applicable prevailing wages and employed under prevailing standards and conditions of employment.

D. Provisions Applicable to **Competitively Bid Contracts; Antitrust Claims**.

If work under the Agreement was obtained by means of a competitive bid, Contractor shall comply with the requirements of Government Code sections set out below.

(1) The Government Code chapter on antitrust claims contains the following definitions:

- (a) "Public purchase" means a purchase by means of competitive bids of goods, services, or materials by the state or any of its political subdivisions or public agencies on whose behalf the Attorney General may bring an action pursuant to subdivision (c) of § 16750 of the Business and Professions Code.
- (b) "Public purchasing body" means the state or the subdivision or agency making a public purchase. See Government Code § 4550.

(2) Contractor shall assign to the Court all rights, title, and interest in and to all causes of action it may have under § 4 of the Clayton Act (15 U.S.C. § 15) or under the Cartwright Act (Chapter 2, commencing with section 16700 of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, materials, or services by Contractor for sale to the Court pursuant to the bid. Such assignment shall be made and become effective at the time the Court tenders final payment to Contractor. See Government Code § 4552.

(3) If the Court receives, either through judgment or settlement, a monetary recovery for a cause of action assigned under this chapter, Contractor shall be entitled to receive reimbursement for actual legal costs incurred and may, upon demand, recover from the Court any portion of the recovery, including treble damages, attributable to overcharges that were paid by Contractor but were not paid by the Court as part of the bid price, less the expenses incurred in obtaining that portion of the recovery. See Government Code § 4553.

(4) Upon demand in writing by Contractor, the Court shall, within one year from such demand, reassign the cause of action assigned under this part if Contractor has been or may have been injured by the violation of law for which the cause of action arose and (i) the Court has not been injured thereby, or (ii) the Court declines to file a court action for the cause of action. See Government Code § 4554.

E. Provisions Applicable to **Consulting Services**.

(1) If the Agreement provides for the payment of \$1,000 or more for consulting services, Contractor must deliver detailed performance criteria, a schedule for performance, and progress reports to the Court to allow the Court to determine whether Contractor is on the right track and the project is on schedule, to provide communication of interim findings, and to afford opportunities for airing difficulties or special problems encountered so that remedies can be developed quickly.

(2) If the Agreement provides for the payment of \$5,000 or more for consulting services, Contractor shall attach to the Agreement resumes of each Contractor participant who will exercise a major administrative role or major policy or consultative role. Contractor shall use reasonable efforts to make these participants available to perform services during the term of the Agreement.

F. Provisions Applicable to **Court-Purchased or Court-Financed Equipment**.

(1) If the Agreement provides Compensation to Contractor for a project funded through a grant, at the conclusion of the Project, title to all expendable and non-expendable personal property with a value of \$500 or more

purchased with Court funds shall vest, automatically and without further action of the parties, with the Court. If Contractor provides written certification to the Court that the property will continue to be used for grant-related purposes and the Court approves such certification in writing, the Court may permit title to all such property to remain with Contractor in accordance with the Court's written instructions. Contractor must await specific written instructions from the Court's Project Manager regarding any transfer of title or disposition.

- (2) If Compensation under the Agreement is not through grant funding and the Agreement provides for the provision of equipment purchased or built with Court funds, title to any equipment purchased or built with Court funds shall vest in the Court immediately upon payment of the purchase price. Before delivery to the Court, Contractor is responsible for loss or damage to the equipment to the extent it results from the negligent act or omission of Contractor or its directors, officers, employees, or agents, and Contractor shall make all necessary or appropriate repairs and adjustments.
 - (3) Contractor shall maintain an inventory record for each piece of equipment purchased or built with Court funds provided under the Agreement, except for a piece of equipment that (i) has a normal life expectancy of less than one (1) year, or (ii) costs less than \$5,000 and is not easy to steal. The inventory record must include the date acquired, total cost, serial number, model identification, and any other information or description necessary to identify the piece of equipment. Upon request by the Court, Contractor shall submit to the Court a copy of the inventory record.
 - (4) Upon the expiration or termination of the Agreement, or as otherwise directed by the Court, Contractor shall return such property to the Court in good condition, reasonable wear and tear expected, unless such property was not utilized, and in such case, shall be returned new and unopened from its original packaging.
- G. Provisions Applicable to **DVBE Participation Certification**. Contractor's failure to meet the DVBE commitment set forth in its bid or proposal constitutes a breach of the Agreement. If Contractor used DVBE subcontractor(s) in connection with this Agreement: (i) Contractor must use the DVBE subcontractors identified in its bid or proposal, unless the Court approves in writing replacement by another DVBE subcontractor in accordance with the terms of this Agreement; and (ii) Contractor must complete and return to the Court a post-contract certification form(<https://www.lacourt.org/generalinfo/procurement/contractspurchase.aspx>), promptly upon completion of the awarded contract, and by no later than the date of submission of Contractor's final invoice to the Court. If Contractor fails to do so, the Court will withhold \$10,000 from the final payment, or withhold the full payment if it is less than \$10,000, until Contractor submits a complete and accurate post-contract certification form. The Court shall allow Contractor to cure the deficiency after written notice of Contractor's failure to complete and submit an accurate post-contract certification form. Notwithstanding the foregoing and any other law, if after at least 15 calendar days, but no more than 30 calendar days, from the date of the written notice the Contractor refuses to comply with these certification requirements, the Court shall permanently deduct \$10,000 from the final payment, or the full payment if less than \$10,000. The post-contract certification form shall include: (1) the total amount of money Contractor received under the Agreement, (2) the total amount of money and the percentage of work Contractor committed to provide to each DVBE subcontractor; (3) the name and address of each DVBE subcontractor to which Contractor subcontracted work in connection with the Agreement; (4) the amount of money each DVBE subcontractor actually received from Contractor in connection with the Agreement and the corresponding percentage this payment comprises of the total amount of money Contractor received under the Agreement; and (5) that all payments under the Agreement have been made to the applicable DVBE subcontractors. Upon request by the Court, Contractor shall provide proof of payment for the work. A person or entity that knowingly provides false information shall be subject to a civil penalty for each violation. Contractor will comply with all rules, regulations, ordinances and statutes that govern the DVBE program, including, without limitation, Military and Veterans Code section 999.5.

- H. Provisions Applicable to **Elevator Maintenance Agreements**. If the Agreement provides for elevator maintenance, the Term of the Agreement shall be for a period of no less than five (5) years even if the Coversheet of the Agreement specifies a shorter term; however, the Agreement may be terminated during the Term in accordance with the Termination provisions contained herein.
- I. Provisions Applicable to **Federal or Federally-Assisted Contracts**.
- (1) Funding. If the Agreement is funded in whole or in part by the federal government, then:
- (a) It is mutually understood between the parties that the Agreement may have been written for the mutual benefit of both parties before ascertaining the availability of congressional appropriation of funds, to avoid program and fiscal delays that would occur if the contract were executed after that determination was made.
- (b) This contract is valid and enforceable only if sufficient funds are made available to the Court by the United States Government for the fiscal year in which they are due and consistent with any stated programmatic purpose. In addition, the Agreement is subject to any additional restrictions, limitations, or conditions enacted by the Congress or to any statute enacted by the Congress that may affect the provisions, terms, or funding of this contract in any manner.
- (c) The parties mutually agree that if the Congress does not appropriate sufficient funds for any program under which the Agreement is intended to be paid, the Agreement shall be deemed amended without any further action of the parties to reflect any reduction in funds.
- J. Provisions Applicable to **Legal Services**.
- (1) If the Agreement provides for the performance of legal services, Contractor shall adhere to any legal cost and billing guidelines, legal budgets, and legal bill or law firm audits as may be required by the Court. If the Agreement does not provide for legal representation to low-income or middle-income persons in civil, criminal, or administrative matters, Contractor shall also adhere to any litigation plans or case phasing of activities as may be required by the Court. If the Agreement does not provide for legal representation to low-income or middle-income persons in civil, criminal, or administrative matters, and also provides for Compensation (other than reimbursement of expenses) over \$50,000, Contractor shall also comply with the requirements of Business and Professions Code § 6072, which concerns the performance of pro bono legal services.
- (2) Under Business and Professions Code § 6072, Contractor agrees to make a good faith effort to provide a minimum number of hours of pro bono legal services during each year of the Agreement equal to the lesser of 30 multiplied by the number of full time attorneys in the firm's offices in California, with the number of hours prorated on an actual day basis for any contract period of less than a full year or 10 percent of the Agreement. Failure to make a good faith effort may be cause of non-renewal of the Agreement or another judicial branch or other state contract for legal services, and may be taken into account when determining the award of future contracts with the Court for legal services.
- K. Provisions Applicable to **Janitorial Services or Building Maintenance Agreements**. If the Agreement requires Contractor to perform services at a new site, Contractor shall retain for 60 days all employees currently employed at that site by any previous contractor that performed the same services at the site. Contractor shall provide upon request information sufficient to identify employees providing janitorial or building maintenance services at each site and to make the necessary notifications required under Labor Code §§ 1060 et seq.

- L. Provisions Regarding **Material Safety Data Sheets**. If some or all of the goods provided by Contractor under the Agreement are on CAL OSHA's "Hazardous Substances List," Contractor shall forward a completed Material Safety Data Sheet (MSDS) to the Court.
- M. Provisions Applicable to **Mined Mineral Agreements**. If the Agreement involves the purchase of mined minerals, Contractor shall not supply through the Agreement any sand, gravel, aggregates, or other minerals the Court may not purchase under Public Contract Code § 10295.5.
- N. Provisions Regarding **Recycled Goods**.
- (1) Unless otherwise provided in the Agreement, pursuant to Public Contract Code § 12203(d), Contractor shall use or sell only recycled products under the Agreement to the maximum extent economically feasible, but only if the fitness and quality of such recycled products are equal to non-recycled products.
 - (2) If the Agreement provides for the purchase and sale of goods specified in Public Contract Code § 12207 (for example, certain paper products, office supplies, mulch, glass products, lubricating oils, plastic products, paint, antifreeze, tires and tire-derived products, and metal products), and the percentage of Contractor's postconsumer material in these goods cannot be verified by reference to a written advertisement, including, for example, a product label, a catalog, or a manufacturer or vendor website:
 - (a) Contractor shall deliver a declaration to the Court specifying the minimum, if not exact, percentage of post-consumer material as defined in the Public Contract Code § 12200 in goods offered or sold to the Court, regardless of whether the goods meet the requirements of Public Contract Code § 12209.1;
 - (b) UNDER PENALTY OF PERJURY, the declaration shall be true and correct and will remain so until Contractor delivers any amendment of the current declaration to the Court, in which case the current declaration as amended will be true and correct; and
 - (c) If Contractor sells under the Agreement any printer or duplication cartridges that comply with Public Contract Code § 12209, Contractor shall so specify in the declaration required under this section.
- O. Provisions Applicable to **Rental Agreements**. If the Agreement provides for the rental of personal property, the Court shall have no responsibility for loss or damage to the rented equipment arising from causes beyond the Court's control. The Court is responsible for repairs and liability for damage or loss only to the extent they become necessary and result from a negligent act or omission of the Court or any court personnel. If the Agreement provides for the rental of equipment or other personal property and the Court has not expressly elected through the Agreement to maintain the equipment or other personal property, Contractor shall keep the equipment in good working order and make all necessary or appropriate repairs and adjustments without qualification.
- P. Provisions Applicable to **Small Business Preference Agreements**. If Contractor received a small business preference in connection with this Agreement, Contractor must complete and submit the Small Business Contract Report Form. Contractor assumes an express affirmative obligation to promptly notify the Court if any information on the Small Business Contract Report Form becomes inaccurate. Contractor's failure to meet the small business commitment set forth in its bid or proposal constitutes a breach of this Agreement. If Contractor is a nonprofit veteran service agency ("NVSA"), Contractor must employ veterans receiving services from the NVSA for not less than 75 percent of the person-hours of direct labor required for the production of goods and the provision of services performed pursuant to this Agreement.
- Q. Provisions Applicable to **Work by Facilities Contractors**.
- (1) **Guidelines for Contractor Conduct While Working In Court Buildings.**

These Guidelines for Contractor Conduct are subject to revision and may be modified by the Court at any time. Contractor will be notified of modifications.

- (a) Work areas are to be free of all tools, trash, material packaging, etc., and any other discarded items at the end of each shift. Contractors should take their trash with them at the end of each shift, rather than disposing of trash in court containers.
 - (b) All waste, excess materials, tools, etc. shall be removed from the areas upon completion. The areas shall be thoroughly cleaned.
 - (c) If desk items need to be moved, they must be placed back in the same location (including chairs moved to access under desk space).
 - (d) Vacuum all areas paying special attention to all drywall cutouts and/or ceiling tile debris on floor and around work areas at the end of each shift.
 - (e) Use caution when removing and installing ceiling tiles. Any damage resulting in mishandled ceiling tiles will be the responsibility of Contractor to replace.

 - (g) Do not prop open any secure doorways. Access cards will be furnished.
 - (h) Do not modify the adjustments on any chairs or remove any chairs from any area.
 - (i) Do not use any court radio, stereo, or TV. (Contractor's crew may furnish their own radio. However, volume must be kept at a low level, as judicial and administrative staff often works after hours).
 - (j) Smoking is prohibited in all Court buildings, including any/all restrooms.
 - (k) Do not use any restrooms in judicial chambers. Only use common area restrooms.
 - (l) Do not leave company items behind once a job is complete (i.e. ladders and tools).
 - (m) Any furniture moves necessary to complete the work must be indicated during the job walk or pre-project planning. No furniture is to be moved without prior notice to the Court's Project Manager.
 - (n) For security purposes, do not allow any person(s) into your work area, or into any other Court Building area. Do not open doors to allow person(s) access into your work area, or any other Court Building area. As you go through doors, be sure to securely pull them closed behind you. Don't let person(s) come through a door along with you.
- (2) **Bonds.** The Court may require written evidence of Contractor's ability to obtain from a reputable bond company required bonds. If requested, Contractor may be asked to supply a fidelity bond covering the dishonest acts of employees or a performance bond covering the completion of work. Bond limits and reimbursement of expenses, if any, shall be determined by the Court.
- (3) **Conduct of Work.** As may be applicable, Contractor shall maintain the work site and perform the work in a manner that meets all legal requirements for the provision of a safe workplace. Contractor will ensure that all work is performed in a safe and satisfactory manner, and that all work conforms to all regulatory and industry standards. Upon completion of the work, Contractor shall remove all equipment and unused materials provided for the work, put the buildings and premises in a neat and clean condition, and do all other cleaning and washing as applicable. Further, Contractor shall comply with safety standards and provisions of applicable laws, building codes, and safety regulations issued by the California Department of Industrial Relations. Contractor shall be liable for damages arising out of injury to the Court's employees or its contractors during performance of the work, provided that the injury or damage was caused by the fault or negligence of Contractor, or by its equipment or tools.

- (4) **Contractor-Caused Damage(s).** Contractor shall repair or replace, at the option of the Court's Project Manager(s), all damage to the building, equipment, or furniture caused by its operations within five (5) working days, and preferable sooner.
- (5) **Court Policy Regarding Drugs / Alcohol / Weapons.**
- (a) Contractor agrees to advise its employees and the employees of its subcontractors and agents that it is the policy of the Court that:
- 1) The use, possession and/or distribution of illegal or unauthorized drugs, drug-related paraphernalia or weapons on the Court's premises, right-of-way, or Job Site is prohibited and the use or possession of alcoholic beverages, except where authorized by the Court's management, is also prohibited;
 - 2) Entry onto or presence on the Court's premises by any person, including Contractor, Contractor's employees, subcontractors, subcontractors' employees, contract personnel, temporary employees and visitors, constitutes consent to the Court to conduct searches, whether announced or unannounced, on the Court's premises of the person and his or her personal effects for such prohibited items, and consent to drug testing at any time while on the Court's premises;
 - 3) Any person suspected or found in violation of the policy or who refuses to permit a search or drug or alcohol test may be removed and barred from the Court's premises, at the sole discretion of the Court; and
 - 4) Contractor personnel who test positive for illegal drugs or unauthorized alcohol as a result of a test conducted on the Court premises, or upon request of the Court, will be removed from any further performance or services under this Agreement.
- (b) Contractor represents and warrants that it has established, maintains, and enforces both a Drug and Alcohol Program and an Operator Qualification Program per industry standards.
- (6) **Inspections.**
- (a) **Materials Inspections.** The Court may from time to time, at its sole good faith option, inspect and test certain materials or equipment. Therefore in contracting for the purchase of any material or equipment that Contractor will use in the performance of the work, Contractor shall obtain for the Court from the vendor of such material or equipment the right to inspect all such material and the manufacture and fabrication thereof. Whether or not the Court conducts such inspection, the Court shall also have the right to reject all materials or equipment that, in the sole good faith discretion of the Court, fail to conform to either adequate manufacturing specifications, the specifications under which such materials or equipment were purchased or the specifications required for the performance of the work.
- (b) **Field Inspections.** Throughout the performance of the work, the Court shall have the right to designate one or more inspectors or engineers to inspect and test the work site and the progress of the work. Contractor shall cooperate with such inspectors and engineers in order that the work may be fully inspected and that the Court may at all times be fully advised of the progress of the work and the manner in which it is being performed.
- (c) **Inspection Not Acceptance.** Contractor expressly understands and agrees that any inspection by the Court pursuant to this Agreement shall be for the Court's sole benefit and shall not be deemed an acceptance by the Court of all or any portion of the materials or work so inspected. Contractor further understands and agrees that no inspection by the Court pursuant to this Agreement or approval or failure to object to any portion of the work shall relieve or release Contractor from any duties, obligations, or liabilities provided in this Agreement.

- (7) **Liens.** Contractor shall discharge at once, and hold the Court harmless from, liens or stop notices that may be filed in connection with the work. The Court may withhold payment of funds from Contractor in an amount sufficient to discharge delinquent accounts of Contractor or any of Contractor's subcontractors for which liens on the Court's or County's property have been or can be filed or for which stop notices have been or can be filed. Contractor must furnish unconditional lien releases to the Court.
- (8) **Safety Devices.** Contractor shall furnish and maintain all safety devices, e.g., signs, barricades, cones, etc. required to adequately warn and protect all persons who will be utilizing this facility during the course of the work.
- (9) **Scheduling Work.** All work shall be scheduled with the Court's Project Manager or his/her designee before starting the assigned project.

The contractor acknowledges that the County places a high priority on the implementation of the Safely Surrendered Baby Law. The contractor understands that it is the County's policy to encourage all County contractors to voluntarily post the County's "Safely Surrendered Baby Law" poster in a prominent position at the contractor's place of business. The contractor will also encourage its subcontractors, if any, to post this poster in a prominent position in the subcontractor's place of business. Information and posters for printing are available at www.babysafela.org.

5. Contractor's Warranty of Adherence to County's Child Support Compliance Program

The contractor acknowledges that the County has established a goal of ensuring that all individuals who benefit financially from the County through contracts are in compliance with their court-ordered child, family and spousal support obligations in order to mitigate the economic burden otherwise imposed upon the County and its taxpayers.

6. **Employment Eligibility Verification**

The contractor warrants that it fully complies with all Federal and State statutes and regulations regarding the employment of aliens and others and that all its employees performing work under this Contract meet the citizenship or alien status requirements set forth in Federal and State statutes and regulations. The contractor shall obtain, from all employees performing work hereunder, all verification and other documentation of employment eligibility status required by Federal and State statutes and regulations including, but not limited to, the Immigration Reform and Control Act of 1986, (P.L. 99-603), or as they currently exist and as they may be hereafter amended. The contractor shall retain all such documentation for all covered employees for the period prescribed by law.

The contractor shall indemnify, defend, and hold harmless, the County, its agents, officers, and employees from employer sanctions and any other liability which may be assessed against the contractor or the County or both in connection with any alleged violation of any Federal or State statutes or regulations pertaining to the eligibility for employment of any persons performing work under this Contract.

7. **Fair Labor Standards**

See Exhibit C1, Section 16.

8. **Nondiscrimination and Affirmative Action**

The contractor certifies and agrees that all persons employed by it, its affiliates, subsidiaries, or holding companies are and shall be treated equally without regard to or because of race, color, religion, ancestry, national origin, sex, age, physical or mental disability, marital status, or political affiliation, in compliance with all applicable Federal and State anti-discrimination laws and regulations.

The contractor shall take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to race, color, religion, ancestry, national origin, sex, age, physical or mental disability, marital status, or political affiliation, in compliance with all applicable Federal and State anti-discrimination laws and regulations. Such action shall include, but is not limited to: employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.

The contractor certifies and agrees that it will deal with its subcontractors, bidders, or vendors without regard to or because of race, color, religion, ancestry, national origin, sex, age, physical or mental disability, marital status, or political affiliation.

The contractor shall allow County representatives access to the contractor's employment records during regular business hours to verify compliance with the provisions of this Paragraph 8.28 (Nondiscrimination and Affirmative Action) when so requested by the County.

If the County finds that any provisions of this section (Nondiscrimination and Affirmative Action) have been violated, such violation shall constitute a material breach of this Contract upon which the County may terminate or suspend this Contract. While the County reserves the right to determine independently that the anti-discrimination provisions of this Contract have been violated, in addition, a determination by the California Fair Employment and Housing Commission or the Federal Equal Employment Opportunity Commission that the contractor has violated Federal or State anti-discrimination laws or regulations shall constitute a finding by the County that the contractor has violated the anti-discrimination provisions of this Contract.

9. Notice to Employees Regarding the Federal Earned Income Credit

The contractor shall notify its employees, and shall require each subcontractor to notify its employees, that they may be eligible for the Federal Earned Income Credit under the federal income tax laws. Such notice shall be provided in accordance with the requirements set forth in Internal Revenue Service Notice No. 1015.

10. Prohibition Against Inducement or Persuasion

Notwithstanding any provision to the contrary, the contractor and the County agree that, during the term of this Contract and for a period of one year thereafter, neither party shall in any way intentionally induce or persuade any employee of one party to become an employee or agent of the other party. No bar exists against any hiring action initiated through a public announcement.

11. Warranty of Compliance with County's Defaulted Property Tax Reduction Program

Contractor acknowledges that County has established a goal of ensuring that all individuals and businesses that benefit financially from County through contract are current in paying their property tax obligations (secured and unsecured roll) in order to mitigate the economic burden otherwise imposed upon County and its taxpayers.

Unless contractor qualifies for an exemption or exclusion, contractor warrants and certifies that to the best of its knowledge it is now in compliance, and during the term of this contract will maintain compliance, with Los Angeles County Code Chapter 2.206.

12. Time Off for Voting

The contractor shall notify its employees, and shall require each subcontractor to notify and provide to its employees, information regarding the time off for voting law (Elections Code Section 14000). Not less than ten (10) days before every statewide election, every contractor and subcontractors shall keep posted conspicuously at the place of work, if practicable, or elsewhere where it can be seen as employees come or go to their place of work, a notice setting forth the provisions of Section 14000.

13. Compliance with County's Zero Tolerance Policy on Human Trafficking

Contractor acknowledges that the County has established a Zero Tolerance Policy on Human Trafficking prohibiting contractors from engaging in human trafficking.

If a Contractor or member of Contractor's staff is convicted of a human trafficking offense, the County shall require that the Contractor or member of Contractor's staff be removed immediately from performing services under the Contract. County will not be under any obligation to disclose confidential information regarding the offenses other than those required by law.

Disqualification of any member of Contractor's staff pursuant to this paragraph shall not relieve Contractor of its obligation to complete all work in accordance with the terms and conditions of this Contract.

14. Compliance with Fair Chance Employment Practices

Contractor shall comply with fair chance employment hiring practices set forth in California Government Code Section 12952, Employment Discrimination: Conviction History. Contractor's violation of this paragraph of the Contract may constitute a material breach of the Contract. In the event of such material breach, County may, in its sole discretion, terminate the Contract.

15. Compliance with the County Policy of Equity

The contractor acknowledges that the County takes its commitment to preserving the dignity and professionalism of the workplace very seriously, as set forth in the County Policy of Equity (CPOE) (<https://ceop.lacounty.gov/>). The contractor further acknowledges that the County strives to provide a workplace free from discrimination, harassment, retaliation and inappropriate conduct based on a protected characteristic, and which may violate the CPOE. The contractor, its employees and subcontractors acknowledge and certify receipt and understanding of the CPOE. Failure of the contractor, its employees or its subcontractors to uphold the County's expectations of a workplace free from harassment and discrimination, including inappropriate conduct based on a protected characteristic, may subject the contractor to termination of contractual agreements as well as civil liability.

16. Compliance with the County's Living Wage Program

This Contract is subject to the provisions of the County's ordinance entitled Living Wage Program as codified in Sections 2.201.010 through 2.201.100 of the Los Angeles County Code.

17. Contractor's Charitable Activities Compliance

The Supervision of Trustees and Fundraisers for Charitable Purposes Act regulates entities receiving or raising charitable contributions. The “Nonprofit Integrity Act of 2004” (SB 1262, Chapter 919) increased Charitable Purposes Act requirements. By requiring Contractors to complete the Charitable Contributions Certification, Exhibit O, the County seeks to ensure that all County contractors which receive or raise charitable contributions comply with California law in order to protect the County and its taxpayers. A Contractor which receives or raises charitable contributions without complying with its obligations under California law commits a material breach subjecting it to either contract termination or debarment proceedings or both. (County Code Chapter 2.202)

18. Most Favored Public Entity

If Contractor’s prices decline, or should Contractor, at any time during the term of this Agreement, provide the same goods or services under similar quantity and delivery conditions, to the federal government, or any state, county, municipality, or district, at prices below those set forth in this Agreement, then such lower prices shall be immediately extended to the Court and the County.

19. Contractor Responsibility And Debarment

19.1 Responsible Contractor

A responsible Contractor is a Contractor who has demonstrated the attribute of trustworthiness, as well as quality, fitness, capacity and experience to satisfactorily perform the Agreement. It is the County’s policy to conduct business only with responsible Contractors.

19.2 Chapter 2.202 of the County Code

The Contractor is hereby notified that, in accordance with Chapter 2.202 of the County Code, if the County acquires information concerning the performance of the Contractor on this or other contracts which indicates that the Contractor is not responsible, the County may, in addition to other remedies provided in the Agreement, debar the Contractor from bidding or proposing on, or being awarded, and/or performing work on County contracts for a specified period of time, which generally will not exceed five (5) years but may exceed five (5) years or be permanent if warranted by the circumstances, and terminate any or all existing contracts the Contractor may have with the County.

19.3 Non-Responsible contractor

The County may debar a Contractor if the Board of Supervisors finds, in its discretion, that the Contractor has done any of the following: 1) violated a term of a contract with the County or a nonprofit corporation created by the County, 2) committed an act or omission which negatively reflects on the Contractor’s quality, fitness or capacity to perform a contract with the County, any other public entity, or a nonprofit corporation created by the County, or engaged in a pattern or practice which negatively reflects on same, 3) committed an act or offense which indicates a lack of business integrity or business honesty, or 4) made or submitted a false claim against the County or any other public entity.

19.4 Contractor Hearing Board

19.4.1 If there is evidence that the Contractor may be subject to debarment, the County will notify the Contractor in writing of the evidence which is the basis for the proposed debarment and will advise the Contractor of the scheduled date for a debarment hearing before the Contractor Hearing Board.

19.4.2 The Contractor Hearing Board will conduct a hearing where evidence on the proposed debarment is presented. The Contractor and/or the Contractor's representative shall be given an opportunity to submit evidence at that hearing. After the hearing, the Contractor Hearing Board shall prepare a tentative proposed decision, which shall contain a recommendation regarding whether the Contractor should be debarred, and, if so, the appropriate length of time of the debarment. The Contractor and the County shall be provided an opportunity to object to the tentative proposed decision prior to its presentation to the County Board of Supervisors.

19.4.3 After consideration of any objections, or if no objections are submitted, a record of the hearing, the proposed decision, and any other recommendation of the Contractor Hearing Board shall be presented to the County Board of Supervisors. The County Board of Supervisors shall have the right to modify, deny, or adopt the proposed decision and recommendation of the Contractor Hearing Board.

19.4.4 If a Contractor has been debarred for a period longer than five (5) years, that Contractor may after the debarment has been in effect for at least five (5) years, submit a written request for review of the debarment determination to reduce the period of debarment or terminate the debarment. The County may, in its discretion, reduce the period of debarment or terminate the debarment if it finds that the Contractor has adequately demonstrated one or more of the following: 1) elimination of the grounds for which the debarment was imposed; 2) a bona fide change in ownership or management; 3) material evidence discovered after debarment was imposed; or 4) any other reason that is in the best interests of the County.

19.4.5 The Contractor Hearing Board will consider a request for review of a debarment determination only where 1) the Contractor has been debarred for a period longer than five (5) years; 2) the debarment has been in effect for at least five (5) years; and 3) the request is in writing, states one or more of the grounds for reduction of the debarment period or termination of the debarment, and includes supporting documentation. Upon receiving an appropriate request, the Contractor Hearing Board will provide notice of the hearing on the request. At the hearing, the Contractor Hearing Board shall conduct a hearing where evidence on the proposed reduction of debarment period or termination of debarment is presented. This hearing shall be conducted and the request for review decided by the Contractor Hearing Board pursuant to the same procedures as for a debarment hearing.

19.4.6 The Contractor Hearing Board's proposed decision shall contain a recommendation on the request to reduce the period of debarment or terminate the debarment. The Contractor Hearing Board shall present its proposed decision and recommendation to the County Board of Supervisors. The County Board of Supervisors shall have the right to modify, deny, or adopt the proposed decision and recommendation of the Contractor Hearing Board.

19.5 Subcontractors of Contractor

These terms shall also apply to Subcontractors of County Contractors.

20. Termination For Non-Adherence Of County Lobbyist Ordinance

Contractor, and each County Lobbyist or County Lobbying firm as defined in County Code Section 2.160.010 retained by the Contractor, shall fully comply with the County's Lobbyist Ordinance, County Code Chapter 2.160. Failure on the part of the Contractor or any County Lobbyist or County Lobbying firm retained by the Contractor to fully comply with the County's Lobbyist Ordinance shall constitute a material breach of this Agreement, upon which the County, through the Court, may in its sole discretion, immediately terminate or suspend this Agreement.

21. Injury and Illness Prevention Program

Contractor will be required to comply with the State of California's Cal OSHA's regulations. California Code of Regulations Title 8 Section 3203 requires all California employers to have a written, effective Injury and Illness Prevention Program (IIPP) that addresses hazards pertaining to the particular workplace covered by the program.

22. Campaign Contribution Prohibition Following Final Decision in Contract Proceeding

Pursuant to [Government Code Section 84308](#), Contractor and its Subcontractors, are prohibited from making a contribution of more than \$500 to a County officer for twelve (12) months after the date of the final decision in the proceeding involving this Contract. Failure to comply with the provisions of [Government Code Section 84308](#) and of this paragraph, may be a material breach of this Contract as determined in the sole discretion of the County.

END OF COUNTY SPECIAL PROVISIONS

Creating a Closed-Caption Television Policy within the Probation Department

The December 11, 2024, Order amending the Stipulated Judgment (Amended Order) between the California Department of Justice (DOJ) and the Los Angeles County Probation Department (Department) requires the Department to implement a Closed-Caption Television (CCTV) Review Protocol, and the Office of Inspector General (OIG) to review CCTV footage from two randomly selected days per month to see if the Department is complying with this CCTV Review Protocol. However, the Probation Department has not yet finalized its CCTV Review Protocol, so it is unavoidably out of compliance with this requirement. Despite the lack of this Review Protocol, the OIG reviews Department CCTV footage at least two days per month to see if documentation on use-of-force incidents aligns with CCTV footage and to review footage for any inappropriate use of force.

In their monthly report for March 2025¹, the OIG reviewed two cases from Los Padrinos and two cases from Barry J. Nidorf via CCTV footage and found that all four cases demonstrated deficiencies in the Department’s processes and documentation

related to use of force. The OIG found that the Department's physical incident reports (PIRs) did not reflect accurate use of Oleoresin Capsicum (OC) spray after reviewing the CCTV footage, and these inconsistencies in the PIRs, as well as inappropriate use of OC spray, were not identified by supervising staff. The OIG also found that sections of safe crisis management incident review packets were missing, and that there were inaccuracies in those reports as well.

CCTV footage provides departments with the opportunity to investigate and determine the truth behind incidents of concern. CCTV footage can be used to confirm or deny allegations, can be used to ensure that policies are being followed, and can be used to confirm both youth and staff are being protected. It is important that the Department develops a CCTV Review Protocol related to the review of CCTV footage, especially for use-of-force incidents. It is also important that part of this Review Protocol include random audits of the CCTV footage and that all staff are adequately trained on the policy. A CCTV Review Protocol would enable the Department to not only comply with the requirements of the California DOJ Stipulated Judgment, but also to improve practices related to use of force and documentation.

I, THEREFORE, MOVE that the Board of Supervisors direct the Chief Probation Officer to report back, in writing, in 60 days with the following:

1. A plan to develop a Closed-Caption Television (CCTV) Review Protocol that includes the following:
 - a. Consideration of best practices from other jurisdictions related to CCTV policies and procedures in juvenile facilities;
 - b. The use of internal random audits of CCTV footage to ensure accurate

- documentation of any incident, like uses of force; and
- c. A protocol for reviewing CCTV footage after an injury is sustained by a youth, service provider, or staff member to ensure protocols were properly followed and the incident was documented appropriately.
2. A plan and timeline to implement the protocol and train employees on it.

3 **II. AMENDMENTS TO JUDGMENT PARAGRAPHS 35, 36, 45, 53, 54, 55, 56, 58, AND 59**

4 6. Judgment **Paragraph 35** is amended such that it now provides, in its entirety, as
5 follows: “This Judgment will be overseen by a Monitor who will be provided timely
6 access to information and documents to ensure compliance with this Judgment and
7 whose reasonable costs and expenses, as set forth in Paragraph 37, will be paid by the
8 County. The Monitor will oversee conditions of confinement, as well as compliance
9 with and implementation of this Judgment and any subsequent Amendments. The
10 Monitor will be assisted by at least three Subject Matter Experts (SME) who will
11 evaluate provisions related to their expertise and advise the Monitor. The first SME
12 will be an expert in behavioral health services (hereinafter, Behavioral Health SME).
13 The second SME will be an expert in medical access (hereinafter, Medical Access
14 SME). The third will be an expert in education, educational transition and after-care
15 services, and career technical and post-secondary education programming in the
16 juvenile hall context (hereinafter, Education SME). The Monitor will be Michael
17 Dempsey. Effective September 1, 2024, the Behavioral Health SME will be Dr.
18 Monique Khumalo. Effective September 1, 2024, the Medical Access SME will be Dr.
19 Khandra Tyler-Beynum. The Education SME will be Dr. Peter Leone. The Monitor, in
20 consultation with the appropriate SME, will review and approve the policies,
21 procedures, and protocols specified in the substantive provisions of this Judgment and
22 the Detailed Plan.”

23 7. Judgment **Paragraph 36** is amended such that it now provides, in its entirety, as
24 follows: “The Monitor, Behavioral Health SME, and Medical Access SME will be
25 selected by mutual agreement of the Parties. The Education SME will be selected by

28 follows: “The Monitor will provide reports on the status of compliance with the

1 Judgment on at least a semi-annual basis until termination of the Judgment. The
2 reports will include a finding of Substantial Compliance, Partial Compliance, or Non-
3 Compliance on each substantive provision of this Judgment, Detailed Plan task, and
4 First and Second Amendments to the Judgment, to the extent these provisions remain
5 subject to reporting under Judgment paragraph 56. For any provision or task with a
6 finding other than Substantial Compliance, the Monitor, after consultation with the
7 County, will provide detailed written direction, consistent with the Judgment, Detailed
8 Plan, and any Amendments to the County to achieve Substantial Compliance. At least
9 60 days before the anticipated filing of each report, the Monitor will provide the
10 Parties with a draft copy and a reasonable opportunity to respond within 30 days. To
11 the extent the County believes that any information in the report is confidential, the
12 County may provide the Monitor and the Attorney General with information about the
13 specific language that it believes should be redacted in the final report along with its
14 response above. For purposes of this paragraph, confidential information is
15 information that would disclose the identity of a youth. The Monitor will consider the
16 Parties' responses and make appropriate changes before submitting a final report to
17 the Parties. The Attorney General shall file the Monitor's reports with the County's
18 redactions under this paragraph with this Court but will not file the document under
19 seal. If the Court requests or orders the Parties to file an unredacted report, the
20 Attorney General shall do so on behalf of the Parties. For any provision or task within
21 the Detailed Plan that received a finding other than Substantial Compliance, the
22 Monitor may in his discretion require that the County provide the Monitor, within 60
23 days of the Monitor's request or at such other later time as the Monitor deems
24 appropriate, a Corrective Action Plan for Monitor review and approval for any such
25 provision or task, addressing the County's plans to come into Substantial Compliance,
26 including a timeline, and incorporating or otherwise addressing any applicable
27 direction the Monitor provided in his report.”
28

- 1 9. Judgment **Paragraph 53** is amended such that it now provides, in its entirety, as
2 follows: “The Behavioral Health SME will have access to observe or review
3 individual behavioral health treatment sessions, and the Medical Access SME will

5 County’s implementation of and compliance with this Judgment, only with the express
6 permission of the youth and/or the youth’s parent or guardian as required by law.”

13 follows: “The Medical Access SME will have access to only de-identified medical
14 records, and the Behavioral Health SME will have access only to de-identified
15 behavioral health records, for purposes of assessing compliance with this Judgment,
16 unless there is a particularized need related to an individual youth.”
- 17 12. Judgment **Paragraph 56** is amended such that it now provides, in its entirety, as
18 follows: "Upon the Monitor's conclusion that the County has achieved and maintained
19 Substantial Compliance with any substantive provision(s) and/or individual task from
20 the Detailed Plan for a period of 12 consecutive months ("Compliance Period"), that
21 provision or task will be deemed completed and the Monitor will no longer assess or
22 report on that provision, and the County will no longer be required to provide
23 compliance or proof of practice documentation after a provision or task is no longer
24 being assessed. Where the Monitor concludes that the County has achieved and
25 maintained Substantial Compliance for the entirety of the Compliance Period with a
26 substantive provision or task of the Judgment or the Amendments, as described
27 immediately above, at one facility but not another, the Monitor will no longer assess
28

1 or report on that provision or task for the Juvenile Hall where Substantial Compliance
2 has been achieved."

3 13. Judgment **Paragraph 58** is amended such that it now provides, in its entirety, as
4 follows: "If a Party objects to the Monitor's determination as to whether the County
5 has achieved and maintained Substantial Compliance as set forth in Paragraph 56, the
6 objecting party shall provide its rationale for that objection in writing to the other
7 Party and the Monitor. If the Monitor does not agree with the objection, the Parties
8 and the Monitor shall engage in the dispute resolution process described in Section
9 XVI of the Judgment."

10 14. Judgment **Paragraph 59** is amended such that it now provides, in its entirety, as
11 follows: "This Judgment and the Court's jurisdiction will automatically terminate once
12 all substantive provisions of the Judgment have been deemed complete as set forth in
13 paragraphs 56 and 57. The Attorney General will file a joint order to terminate
14 jurisdiction within 10 business days of the automatic termination."

15 **III. COMPOSITION AND AUTHORITY OF MONITORING TEAM**

16 15. The Monitor shall continue to issue monthly reports to the Parties as to compliance
17 with the First Amendment until the County reaches Substantial Compliance with those
18 provisions and their corresponding Detailed Plan tasks. The County shall be required
19 to consider any written guidance contained in the monthly reports to remedy the
20 County's noncompliance or partial compliance with those provisions or their
21 corresponding Detailed Plan tasks, and incorporate or otherwise address such guidance
22 in any Corrective Action Plan the County submits in response to the Monitor's semi-
23 annual reports pursuant to Judgment paragraph 45, as amended above, for the
24 Monitor's review and approval.

25 16. The County shall continue to work with the Data SME to develop data systems that
26 will effectively support the County's compliance efforts and operations, including
27 adopting the Guard1 system or an equivalent system for tracking data related to
28 paragraph 24(c) of the Judgment by December 31, 2024, and working on the

1 development of monthly reports containing data sufficient to assess the County's
2 compliance with the Judgment, consistent with the requirements of and compliance
3 measures set forth in the Detailed Plan and Amendments, and as directed by the
4 Monitor.

5 17. If, by June 30, 2025, the County has not achieved Substantial Compliance with the
6 Judgment provisions and corresponding Detailed Plan Tasks identified in the
7 Probation Department DOJ Compliance Action Plan attached hereto as Exhibit A, the
8 monitoring team shall—without further order of this Court—expand to include one
9 Deputy Monitor for Los Padrinos Juvenile Hall. The parties will meet to discuss
10 whether a Deputy Monitor is necessary for Barry J. Nidorf Secure Youth Treatment
11 Facility prior to June 30, 2025. The Monitor will make final decision whether a
12 Deputy Monitor is necessary for Barry J. Nidorf Secure Youth Treatment Facility. The
13 Deputy Monitors shall be selected by the Monitor subject to mutual agreement of the
14 Parties and will report directly to the Monitor. If practicable, the Deputy Monitors
15 shall reside in the Los Angeles area and, if they do not, the County will not be
16 obligated to pay for their lodging expenses. The hourly rate of the Deputy Monitors
17 will not exceed the rate paid by the County to the Monitor. The Deputy Monitors shall
18 have a collaborative relationship and ongoing communication with facility
19 superintendents and the Compliance Team Lead, and shall engage in daily check-ins
20 and joint problem-solving to address identified issues with facility leadership. The
21 Deputy Monitors shall be on site no less than four days per week, at varying hours of
22 the day so that they can see the operations of different shifts, and shall provide direct
23 reports weekly to the Monitor and the County. The County shall be provided the
24 Deputy Monitors' weekly schedule at least one week in advance. The County is not
25 responsible for providing any equipment or electronics to the Deputy Monitors. The
26 parties agree that the Deputy Monitors will be onsite for six months and, during that
27 time, will focus on the County's compliance with the Detailed Compliance Action
28 Plan elements and any other Judgment provisions or Detailed Action Plan tasks the

1 Monitor deems necessary. Due to the expected cost to the County, after six months,
2 the Monitor will re-assess, with input from the parties, whether continued use of the
3 Deputy Monitors is necessary and/or helpful. The Monitor's determination is final.

4 **IV. USE OF FORCE AND YOUTH SAFETY**

5 18. By January 30, 2025, the County shall review and amend all relevant policies to
6 address excessive force and youth-on-youth violence either instigated or tolerated by
7 staff and provide such revised policies to the Monitor for review and approval. The
8 County's review will consider whether existing policies contain appropriate protocols
9 to expeditiously investigate allegations of such misconduct and place staff on leave
10 during such investigation, and appropriately provide that any staff found to be
11 involved in such an incident shall be subject to discipline up to and including
12 discharge, shall be reported to child abuse and outside law enforcement agencies as
13 required by law, including the Child Abuse and Neglect Reporting Act, Penal Code
14 section 11164 et seq., and that Probation shall consider referral for prosecution.

- 15 a. On August 12, 2024, the Attorney General's office provided revisions to
16 DSB 609/SYTF 609 (Reduction of Youth-On-Youth Violence (YOYV)),
17 DSB 1000/SYTF 1000 (Physical Interventions), DSB 1500/SYTF 1500
18 (Prison Rape Elimination Act), DSB 1917/SYTF 1917 (Child Abuse
19 Reporting), DSB 2341/SYTF 2431 (Staff Investigations), and the
20 Supplemental Disciplinary Guidelines to implement paragraph 15. The
21 County shall consider these proposed revisions when conducting its review.
- 22 b. The County's Office of Inspector General (OIG) will report to the Monitor,
23 on a monthly basis, the number of new Internal Affairs referrals, number of
24 open cases, and aggregate data on investigation outcome.
- 25 c. Substantial Compliance requires: (i) email distribution list shows that 98% of
26 staff were sent notice of any revised policies by November 30, 2024; (ii)
27 Monitor approval of training, including a training schedule, on revised
28

1 policies; (iii) Monitor verification that the County is implementing the
2 approved policies; and (iv) monthly reporting to the Monitor.

3 19. The County has provided the Monitor the plan for camera installation at Los Padrinos
4 Juvenile Hall, and the Monitor previously approved it. The Monitor shall again review
5 the plan and provide the County with any comments he has regarding camera
6 coverage, as reflected in this plan, by no later than November 20, 2024. The County
7 will consider any comments the Monitor has provided, and revise the installation plan
8 as appropriate. Once the plan has been implemented and cameras installed, the
9 Monitor may conduct an in-person "blind-spot" analysis of Los Padrinos Juvenile Hall
10 to determine whether video camera coverage is not available in certain locations,
11 including youth cells and the medical unit, and provide his findings to the County
12 within two weeks thereafter. The County shall consider the Monitor's comments,
13 discuss any concerns and requests for revision with the Monitor, and add additional
14 cameras per the Monitor's final direction.

15 20. The County has previously provided the Monitor a CCTV Review Protocol. By
16 December 30, 2024, the County shall provide the Monitor a finalized CCTV Review
17 Protocol for Monitor review and approval. The County shall implement the protocol
18 and take steps to ensure sufficient staff is assigned and appropriately trained to
19 conduct this review.

- 20 a. OIG will select two random days a month to audit compliance with
21 Probation's CCTV Review Protocol. The audit shall include review of the
22 random days' paperwork and video footage, and assessment of whether
23 footage has been tampered with and whether incidents that may violate the
24 law, Judgment, and/or policy have been properly identified and elevated.
- 25 b. Substantial Compliance requires OIG verification to the Monitor, on a
26 monthly basis, that the County is compliant with the protocol. Systemic
27 findings and recommendations from OIG's reports to the Monitor under this
28

1 paragraph will be included, as appropriate, in OIG's existing reports required
2 by the Judgment.

3 21. By October 31, 2024, the County will create a stand-alone "anti-retaliation" policy and
4 provide to the Monitor for review and approval. By November 15, 2024, the Monitor
5 will provide any feedback. By January 1, 2025, the County will issue the anti-
6 retaliation policy. The policy shall be aligned with best practice and the County shall
7 consider, at a minimum, requirements that all staff who are under investigation for
8 credible allegations of abusive or unlawful conduct be immediately removed from the
9 facility pending the outcome of the investigation and interim protections for youth that
10 include ensuring that youth have no contact with such staff are implemented. The
11 County also shall consider the Attorney General's office comments provided on DSB
12 1000/SYTF 1000 (Physical Interventions), DSB 1500/SYTF 1500 (Prison Rape
13 Elimination Act), DSB 1706/SYTF 1706 (Ombudsman), and DSB 1917/SYTF 1917
14 (Child Abuse Reporting) in drafting its anti-retaliation policy.

15 a. Substantial Compliance requires: (i) email distribution list shows that 98% of
16 staff were sent the stand-alone anti-retaliation policy within 10 days of
17 issuance of the policy; and (ii) Monitor approval of training, including a
18 training schedule, on the policy.

19 22. By November 15, 2024, the County shall employ at each facility under this Judgment
20 an onsite Ombuds staff person from Probation's Office of the Ombudsman. The Office
21 of the Ombudsperson shall report to Probation executives independently from the
22 operational chain of command. The County shall provide the Monitor by November
23 15, 2024, the duties and responsibilities of the onsite Ombuds staff person(s) for the
24 Monitor's review and approval.

25 a. The County has confirmed that the Ombuds staff persons will attend the
26 United States Ombudsperson Association's New Ombudsman Training on
27 November 18-22, 2024.
28

- 1 b. A Senior Probation Director shall assume the duties of the Bureau Chief as
2 described in Judgment paragraph 18.
- 3 c. Substantial Compliance requires: (i) Monitor confirmation that approved
4 individuals have been hired; (ii) Monitor approval of job duties; (iii) Monitor
5 confirmation that the Ombuds staff persons have received the necessary
6 training; (iv) Monitor approval of an infographic with information about the
7 Ombuds staff persons, including all contact information, and it is posted in
8 each Unit and in the orientation and intake area; (v) information regarding
9 and contact information for the Ombuds staff persons is included in the youth
10 handbook; and (vi) verification that the onsite Ombuds staff person is present
11 and appropriately performing their duties during three consecutive separate
12 in-person visits to the facilities.

13 23. By October 31, 2024, for Monitor review and approval, the County shall revise its
14 Juvenile Hall DSB 700 - Searches policy regarding room searches to set forth
15 requirements to ensure that youths' belongings that are not contraband or otherwise
16 inconsistent with County policy are maintained in a secure bag marked with the
17 youth's name, not destroyed or removed from the Juvenile Halls, and returned to the
18 youth upon release. The County shall continue to require that all searches of youths'
19 persons or belongings, regardless of the individual or team conducting the search,
20 comply with the County's Juvenile Hall policies, procedures, and directives pertaining
21 to searches of youths' persons and belongings and with the law.

22 24. All staff assigned to supervise youth at Los Padrinos Juvenile Hall and Barry J. Nidorf
23 Secure Youth Treatment Facility, including any Special Enforcement Operations
24 (SEO) staff, shall have completed Juvenile Corrections Officers Core (JCOC) course
25 as required under Penal Code Section 6035 and Title 15 section 1322. The JCOC
26 Course is approved by the State and includes searches. The County will ensure any
27 SEO staff working or providing support in the facilities will have the JCOC course
28 training which includes searches prior to working inside the facilities. All staff

1 assigned to search youth in the Juvenile Halls shall be required to annually review and
2 follow the County's Juvenile Hall policy DSB 700 – Searches, which pertains to
3 searches of youths' belongings and persons.

4 25. OIG will review compliance with Probation's search policy in the Juvenile Halls,
5 including by conducting a random review of a representative sample of searches and
6 assessing whether searches were conducted within policy and consistent with law and
7 were fully and accurately documented. OIG will report its findings to the Monitor and
8 include them, as appropriate, in OIG's existing reports required by the Judgment
9 during the term of this Judgment.

10 a. Substantial Compliance requires OIG determines that 90% of searches
11 reviewed are in compliance with policy and law.

12 26. By November 30, 2024, the County shall hire and maintain any additional outside
13 contractors necessary to supplement those required by paragraph 10 of the First
14 Amendment. Any new outside contractors shall be reviewed and approved by the
15 Monitor, receive the Monitor-approved training, and be employed until such time as
16 the County can demonstrate to the Monitor that it has adequate staff with appropriate
17 training and expertise to conduct the initial review and staff its Internal Affairs unit.
18 The parties have agreed that backlogged use of force incidents need not be subject to
19 secondary review by attorneys.

20 a. By October 15, 2024, the County will submit to the Monitor the County's
21 Chief Executive Officer's analysis for the creation of new Internal Affairs
22 (IA) classification for the Probation Department.

23 b. Substantial Compliance requires: 100% of the backlog is eliminated by
24 December 15, 2024.

25 27. By November 15, 2024, the County shall provide to the Monitor for review and
26 approval a plan for ensuring that all use-of-force incidents are timely reviewed and
27 appropriately investigated, such that backlogs of un-reviewed incidents do not
28 continue to accumulate. The County will identify any staff (a) still employed as of

1 October 9, 2024, and (b) involved in a use of force policy violation incident between
2 2022 through the present, which was (c) referred to IA by first level reviewers or an
3 independent committee; and (d) yet declined by IA for review. All such incidents shall
4 be re-referred to IA and IA shall review. Any future incidents involving the same staff
5 will be assessed by the FIRST Team for patterns or repeat behaviors that require
6 corrective or disciplinary action.

7 a. Upon the Monitor's approval, the County shall implement the plan within 30
8 days. Until such time as the Monitor confirms that the plan is fully
9 implemented and the backlog is eliminated, the requirements of Paragraph 25
10 remain in effect.

11 b. Substantial Compliance requires: (i) Monitor approval of the plan; (ii)
12 Monitor verification that the County is implementing the plan; (iii) 90% of

16 Juvenile Hall use-of-force incident investigations.

17 28. The County has provided the Monitor for a plan, including a training video, for
18 training staff on the use of the temporary cold-water decontamination showers
19 described in paragraph 8 of the First Amendment. The Monitor has reviewed and
20 approved the plan and the training video. The Compliance Team shall conduct
21 monthly compliance checks to assess whether the temporary cold-water
22 decontamination showers are charged, whether staff have been properly
23 decontaminating youth for all O.C. spray incidents. As of September 27, 2024, the
24 County has installed eye wash stations in the sinks in each unit at Los Padrinos. The
25 County will continue to explore all humane alternative decontamination avenues
26 pending the completion of cold water shower installation. The County shall verify
27 alternative decontamination avenues with the Monitor prior to usage.
28

- 1 a. Substantial Compliance requires monthly audits by the Compliance Team
- 2 provided to the Monitor, and Monitor verification that youth are timely and
- 3 properly decontaminated in at least 93% of instances in which youth are

- 8 shall include all of the elements required by Paragraphs 17 and 20 of the First
- 9 Amendment and mechanisms for increasing the use of the CIT team to reduce
- 10 incidents of violence.
- 11 a. Substantial Compliance requires: (i) Monitor approval of the plan; (ii)
- 12 Monitor verification that the County is implementing the approved enhanced
- 13 CIT team plan; and (iii) Monitor review of random sample of use of force
- 14 incidents demonstrates that in 90% of instances in which the CIT team was
- 15 not employed, there was not sufficient time for the CIT team to be called to
- 16 prevent escalation of the incident.
- 17 31. By November 30, 2024, the County shall develop and issue a post order documenting
- 18 enhanced security at Juvenile Hall entries, including use of canines, pat-downs where
- 19 probable cause exists, use of security specialists to conduct entry searches, and
- 20 consideration of the implementation of low-radiation body scanners, and a timeline for
- 21 implementation of enhanced security measures.
- 22 a. The County shall submit its proposed post order to the Monitor for review
- 23 and approval by November 30, 2024.
- 24 b. Upon the Monitor’s approval, the County shall issue the post order within
- 25 one business day.
- 26

27 ² The First Amendment provide for the creation and implementation of a “CARE team.”
28 The County, with Monitor approval, has renamed the CARE team the “Critical Incident Team” or
“CIT.”

- 1 c. Substantial Compliance requires: (i) Monitor approval of the post order and
2 any updates the County makes to it thereafter; (ii) email distribution list
3 shows that 98% of current staff were sent notice of the post order by
4 December 20, 2024; and (iii) Monitor verification that the County is
5 implementing the post order.

6 **V. JOINT MEDICAL TRANSPORTATION PLAN**

7 32. By November 30, 2024, the County shall provide to the Monitor for review and
8 approval a revised draft of the Joint Medical Transport Plans for Barry J. Nidorf
9 Secure Youth Treatment Facility and Los Padrinos Juvenile Hall required under
10 paragraph 6 of the First Amendment. As required by paragraph 6 of the First
11 Amendment, the Joint Medical Transport Plans shall be developed jointly by the heads
12 of the Probation Department, the Department of Mental Health, and Juvenile
13 Correctional Health Services, shall be in writing, and shall incorporate a quality-
14 assurance review process and weekly collection and review of data in a form that shall
15 also be provided to the Monitor, the Behavioral Health SME, and the Medical Access
16 SME on a biweekly basis.

17 33. The County acknowledges that it remains out of compliance with paragraph 6 of the
18 First Amendment, which required the implementation of Joint Medical Transportation
19 Plans. If the County fails to provide the Monitor with its revised proposed Joint
20 Medical Transport Plans by November 30, 2024, or if the Monitor determines that the
21 County has failed to implement the Joint Medical Transport Plans within 30 days of
22 approval, the County shall deposit \$100 into an interest-bearing account for each
23 additional day that it fails to provide the Monitor with its proposed Joint Medical

9 by the Monitor.

10 **VI. STAFFING**

12 review and approval, which shall address staff recruitment and retention, staff
13 wellness, minimum staffing levels and regular adjustment of such levels to ensure it is
14 balanced and adequate for actual daily population consistent with the staffing relief
15 plan attached hereto as Exhibit B, and a plan for addressing callouts and other abusive
16 leave practices. The County shall also provide, for review and approval by the
17 Monitor, daily staffing data sheets that include the number of staff assigned to each
18 unit, the number of youth on each unit, the minimum mandatory and full staffing
19 numbers for each unit, and the number of call-outs, no-call no-shows, and staff on
20 light duty. Upon the Monitor's approval of the form of the daily data sheets, the
21 County shall provide the daily staffing data sheets on a weekly basis to the Monitor
22 and to the Attorney General's office.

Probation Department DOJ Compliance Action Plan

This proposal intends to adopt a more targeted approach that prioritizes emergent provisions critical to the safety and security of the youth in our care. By employing a strategic targeted approach, we will attempt to enhance our efficiency and effectiveness in achieving and implementing the numerous provisions outlined in the settlement agreement. Also, by focusing our resources and efforts on the most critical areas, we can address high-impact issues first, streamline our processes, and optimize resource allocation. With this approach, we will be better equipped to meet the agreed compliance requirements in a coordinated and timely manner, ultimately leading to more sustainable and successful outcomes.

This plan in no way reduces existing compliance efforts on other provisions but merely highlights an increased focus on these high priority provisions. We believe that an increased focus on these provisions should have a positive impact on compliance efforts with numerous other provisions.

Technical Assistance

Moving forward, technical assistance meetings will be more efficient and effective by being organized to target and address specific tasks associated with one of the five identified provisions. This focused approach will allow for a more streamlined process, ensuring that each meeting is purpose-driven and directly contributes to advancing compliance for each identified provision. By focusing on particular provisions during each session, we can enhance collaboration, reduce redundancy, and achieve more meaningful outcomes within a shorter timeframe.

Technical assistance meetings will be scheduled on a monthly basis or as needed to provide consistent support for the ongoing development and implementation of key tasks. Each meeting will involve identified Subject Matter Experts (SMEs) who will contribute their specialized knowledge and experience to assist in developing plans, processes, or procedures related to a specific provision. Additionally, we will continue to provide relevant updates to the status of all the provisions as required by the Judgement, ensuring that all participants and the Monitor are informed of the latest progress and any emerging challenges. This focused approach will ensure that each meeting is purposeful and aligned with the goal of each provision.

Action Plan

This action plan outlines a comprehensive approach for our department to collaborate closely with the monitor and subject matter experts to address specific high-need areas of our Detailed Plan referenced in the California Department of Justice Stipulated Judgement. In collaboration with the Monitor, our efforts will prioritize the following provisions:

- 1) **XII. Education, Transition, and After-Care**
- 2) **IV. (Joint Stipulation) Medical Transportation**

- 3) **VI. Use of Force and Youth Safety/VII. Joint Stipulation Care and Yes Team**

The department aims to take a comprehensive approach to achieve and sustain compliance. The completion of the audit and assessment for each provision will also help establish a more precise and accurate timeline for achieving compliance. The department is proposing a twelve-month timeline, **from January 1, 2025, through December 31, 2025**, to achieve significant and sustainable compliance with the abovementioned provisions.

Los Angeles County’s Application for the State Proposition 47 Cohort 5 Grant Program

In November 2014, California voters approved Proposition 47 (Prop 47), which reduced certain non-violent, non-serious drug and property crimes from felonies to misdemeanors. The removal of felonies from the criminal records of many residents reduced significant barriers to employment, healthcare services, education, and other social services, including housing. It also decreased the incarceration rate, which resulted in significant cost savings for the State of California (State). The statute directed that State savings from Prop 47 be used specifically for mental health and substance use treatment; truancy and dropout prevention among K- 12 public school students; and victim services. Assembly Bill 1056, enacted in October 2015, added additional priorities for these savings including housing-related assistance and community-based supportive services such as job skills training, case management and civil legal services.

Since 2017, Los Angeles County (County) has been awarded three Prop 47 grants from the Board of State and Community Corrections (BSCC), first to the Department of Health Services’ Office of Diversion and Reentry’s (ODR) Reentry Division, then to the Justice, Care, and Opportunities Department (JCOD) once ODR’s Reentry Division transitioned to JCOD in November 2022. Following the issuance of each Request for

Proposal (RFP), the Los Angeles County Board of Supervisors (Board) passed a motion directing ODR, in collaboration with key County, City of Los Angeles, and community partners, to lead the development of an innovative Prop 47 grant proposal, including by creating a Local Advisory Committee for robust stakeholder engagement. On April 11, 2025, the BSCC issued a fifth RFP for Prop 47 grants for a grant period of October 1, 2025, through June 30, 2029. The RFP focuses on the same priorities and eligible populations as previous cohorts, with an added emphasis on funding for treatment programs that serve individuals charged with the new “treatment-mandated felony” offense under Proposition 36 (Prop 36).

Since April 2018, the Reentry Intensive Case Management Services (RICMS) program has provided case management and service navigation to improve behavioral health, physical health, and wellbeing for justice-involved individuals. JCOD contracts with 24 community-based organizations to operate the program, and 34,000 individuals have been served since its inception. Since 2021, the Skills and Experience for the Careers of Tomorrow (SECTOR) program has provided job skills training and employment services to connect participants with opportunities in Los Angeles’ high-growth sectors that offer career pathways and family-sustaining wages. JCOD contracts with eight community-based organizations to provide the services and nearly 3,000 participants have been served. JCOD also operates the Rapid Diversion Program (RDP), which was originally launched in 2019 as pilot by the LA County Public Defender’s Office. RDP is a pre-plea diversion program which serves individuals with a mental health diagnosis or substance use disorder. RDP has diverted over 3,000 individuals and had over 1,000 graduations since inception. JCOD’s Prefiling Diversion Program, which launched in 2021, diverts individuals detained for non-serious and non-violent

misdemeanors and felonies to community supports. If individuals complete their program, their charges are not filed.

In November 2024, California voters approved Prop 36, which partially reversed Proposition 47 by reclassifying certain petty theft and drug offenses as felonies, requiring some individuals who previously served their sentences at the County level to serve them in State prison, and creating a new treatment-mandated felony charge requiring participation in drug treatment programs for eligible defendants. It is expected that Prop 36 will increase State prison populations, and, therefore, will reduce the savings generated, and funding available to Counties from Prop 47. The Chief Executive Office (CEO) recently reported back¹ to the Board that, while it is too soon to fully understand the impacts on Prop 47 funding as a result of Prop 36, it is expected that Prop 47 funding will be significantly impacted, with a reduction of up to 74 percent in savings. This in turn would reduce available funding for Prop 47 funded programs.

In light of this new landscape, and the current fiscal outlook facing the County, JCOD proposes to use Cohort 5 grant funding, if awarded, to sustain RICMS and SECTOR services and to partner with other Departments and JCOD programs to meet the diverse needs of JCOD's clients. To address a gap in care management for veterans, JCOD would partner with the Department of Military and Veterans Affairs (MVA) to provide RICMS services specific to justice involved veterans. It would also be used to support diversion for individuals impacted through Prop 36, through allocation of RICMS and SECTOR slots to individuals referred through JCOD's RDP and Pre-Filing Diversion Program.

¹ Understanding the Fiscal Impact of Proposition 36 on County Programs, April 30, 2025: https://file.lacounty.gov/SDSInter/bos/bc/1183069_043025_ReportBackonFiscalImpactofProposition36onCountyPrograms_bm.pdf

The RFP also requires the creation or continuation of a Prop 47 Local Advisory Committee (LAC) comprising of a broad range of stakeholders from the communities impacted by the proposal to inform the development and implementation of the grant project. The current LA County and City Joint Local Advisory Committee (JLAC) has met regularly since the implementation of the first grant in 2016 and, with its diverse membership, is well-positioned to continue its role providing oversight of the grant project and coordinating across Prop 47 grantees within Los Angeles.

Considering the potential devastating loss of funding due to Prop 36, JCOD, on behalf of Los Angeles County, should apply for Prop 47 grant funding from the Board of State and Community Corrections (BSCC) to continue funding the Reentry Intensive Case Management Services (RICMS) program and the Skills and Experience for the Careers of Tomorrow (SECTOR) program, and to support JCOD's Rapid Diversion Program (RDP) and Pre-Filing Diversion Program (PFDP).

I, THEREFORE, MOVE that the Board of Supervisors:

1. Direct the Director of the Justice, Care and Opportunities Department (JCOD), or their designee, to submit the Los Angeles County application for Cohort 5 of the Proposition 47 Request for Proposals that continues to focus on the priority areas identified in the Prop 47 Town Hall meetings and incorporates stakeholder feedback gathered through ongoing Joint Local Advisory Committee (JLAC) meetings.
2. In the event that the County is awarded Prop 47 funds by the Board of State and Community Corrections (BSCC), authorize the Director of JCOD or their designee, to do the following, subject to prior review and approval as to form by County Counsel:
 - a. Accept the grant and manage implementation of the program;

- b. Sign and execute the BSCC Grant Award Agreement and all other necessary documents to accept the award, effective upon execution; and
 - c. Execute any future amendments to the Grant Award Agreement and all other related documents.
- 3. Delegate authority to the Director of JCOD or their designee to retain and execute a new agreement with a consultant to perform data collection and evaluation services during the term of the Proposition 47 Program grant, and amendments to the agreement, at a cost not to exceed ten percent of the total grant award from BSCC, subject to prior review and approval as to form by County Counsel.
- 4. Delegate authority to the Director of JCOD or their designee to execute new agreements and amendments to existing agreements with community-based organizations that are necessary to implement the Los Angeles County Proposition 47 Program, subject to prior review and approval as to form by County Counsel.

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, CA 90012

Dear Supervisors:

**REQUEST FOR DELEGATED AUTHORITY TO THE CHIEF EXECUTIVE OFFICER
TO NEGOTIATE AND EXECUTE A LOAN AGREEMENT WITH THE LOS ANGELES
REGIONAL INTEROPERABLE COMMUNICATIONS SYSTEM AUTHORITY
APPROVE APPROPRIATION ADJUSTMENT FY 2024-25
(ALL DISTRICTS) (3-VOTES)**

SUBJECT

Request for delegated authority to the Chief Executive Officer (CEO), or her designee, to negotiate and execute a proposed loan agreement (funding agreement) with the Los Angeles Regional Interoperable Communications System Authority (LA-RICS), to allow the LA-RICS Authority to continue to operate its Land Mobile Radio System (LMR) unencumbered and without further risk of claims resulting from the 12 year period to design, construct and implement the LMR System, and to approve an appropriation adjustment. The County of Los Angeles (County) is a member agency in the LA-RICS Authority's Joint Powers Authority, of which the LA-RICS Authority undertook the construction of the LMR System to benefit public safety users in the region. The LMR System is an important public safety communications system for the Fire Department (Fire), Sheriff's Department (Sheriff) and other LA-RICS users, and successfully provided critical public safety communications for the County during the recent January windstorm and fires event.

IT IS RECOMMENDED THAT THE BOARD:

1. Find that this action is not a project under, or is otherwise exempt from, the California Environmental Quality Act (CEQA) because the activity is not included in the definition of a project under section 21065 of the Public Resources Code and is an administrative activity of government that is exempt from CEQA, pursuant to State CEQA Guidelines section 15378(b);
2. Find that supporting the operations of the LA-RICS Authority through the contemplated loan will serve a public purpose pursuant to Government Code section 26227;
3. Direct and delegate authority to the CEO, or her designee to, within the next 15 days:
 - a. Negotiate, on behalf of the County, a loan of \$23 million from the County to the LA-RICS Authority for resolution of claims related to the LMR System so that the system can remain unencumbered and continue to support public safety operations, subject to reasonable terms, including repayment over a 15-year period plus interest at the County's treasury pool interest rate;
 - b. Upon successful negotiation of the loan terms and after approval as to form by County Counsel, execute a funding agreement with LA-RICS Authority on behalf of the County substantially similar to Enclosure A; and
 - c. Upon execution of a loan agreement, approve an appropriation adjustment that transfers \$23 million within the County General Fund from the Judgement and Damages budget to the obligated fund balance Nonspendable for LT Loans Rec-LARICS Settlement (15 Yr) for the loan from County to the LA-RICS Authority.
4. Authorize the CEO to administer the funding agreement on behalf of the County for the duration of the repayment period; and
5. Delegate authority to the CEO, or her designee, to execute amendments to the funding agreement to effectuate any needed changes or modifications; add or revise provisions; and to terminate the funding agreement, either in whole or in part; all with approval as to form by County Counsel.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The County is the largest member agency in the LA-RICS Authority since its formation as a Joint Powers Authority (JPA) in 2009. In 2012, the LA-RICS Authority awarded a contract to Motorola Solutions, Inc. to design, construct and implement the LMR System. The LMR System was completed and achieved final acceptance in November 2023. Fire and Sheriff have since replaced the primary use of their end-of-life legacy systems with the LMR System.

The LMR System is a robust public safety grade system made up of a 58-site network, many of which are located on County-owned and/or controlled property. The LMR System was designed for county-wide coverage and has a huge capacity for interoperability, while withstanding environmental and artificial threats. Each LMR site location is designed to withstand high winds and earthquakes, and utilizes an emergency backup generator in the event permanent power goes out because of a weather or fire event. For these reasons, the LMR System was able to remain online and operational for Fire and Sheriff during the January 2025 windstorms and fires.

As is typical with construction projects, and given that it took 12 years to complete the LMR System, delay claims arose along the way between the LA-RICS Authority and Motorola Solutions, Inc. Now that the LMR System is completed, it is to the benefit of the LA-RICS Authority and the County, as the largest user of the LMR System, to ensure that the LMR System remains unencumbered and free from claims that may impact its continual operation. Since the LA-RICS Authority has limited funds, given that it has been in the construction phase over the last 12 years, a loan from the County is necessary.

The loan will draw interest payments for the County annually at the County Treasury Pool rate deposited into a budget unit managed by the CEO, upon Board approval, over the 15-year loan term. Assisting the LA-RICS Authority in this manner is not atypical, given that the County has provided assistance and services to the LA-RICS Authority since its inception. Most recently, on April 15, 2025, the Board approved an agreement for the Internal Services Department to be reimbursed up to \$43 million for providing facilities maintenance and auxiliary services to the LA-RICS Authority for the LMR System. The JPA is also staffed by County personnel from Sheriff, Fire, Internal Services, Probation and other departments, with the JPA reimbursing the County for personnel via a previously Board-approved services agreement. County Counsel also serves as its legal counsel, and the Auditor-Controller as its fiscal agent.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

The recommended action supports the County's Strategic Plan, North Star 3, Realize Tomorrow's Government Today, and North Star 2, Focus Area Goal C, Public Safety, Strategy ii, Operational Enhancement. The recommendation action supports enhancing organizational and administrative operations, and training of public safety entities, to better serve the community. The modern LMR System will enhance user operations by transforming their public safety communications through the integration of voice and data technologies that allow interoperable communication in any form, using any type of device, on any frequency, in all areas throughout the greater Los Angeles region on a single, modern platform with exceptional reliability.

FISCAL IMPACT/FINANCING

The funding for the \$23 million loan was set aside in the Judgement and Damages budget. Upon Board approval of the appropriation adjustment, the total interest to be received by the County for the \$23 million loan over the entire term of 15 years shall be deposited into Nondepartmental Special Accounts and principal payments shall offset the loan. The enclosed appropriation adjustment will transfer \$23 million from the Judgements and Damages budget to the obligated fund balance Nonspendable for LT Loans Rec-LARICS Settlement (15 Yr) within the County General Fund (Enclosure B).

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The proposed loan to the LA-RICS Authority is authorized by Government Code section 26227, which permits the Board to appropriate and expend money to fund programs to meet the social needs of the population of the County, including but not limited to, the areas of law enforcement and public safety.

ENVIRONMENTAL DOCUMENTATION

The recommended actions are not subject to the CEQA because they do not constitute a project according to Section 15378 of CEQA.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The recommended action will not affect any current services and will not compromise public safety missions or disrupt vital, existing communication services to the County.

SYSTEM AUTHORITY

This Funding Agreement ("**Agreement**") is entered into on _____, 2025 ("**Effective Date**") by and between the County of Los Angeles ("**County**") and the Los Angeles Regional Interoperable Communications System Authority ("**LA-RICS Authority**"). The County and LA-RICS Authority are jointly referred to herein as the "Parties," and individually as "Party."

WHEREAS, LA-RICS Authority is a California joint powers authority formed under California Government Code section 6500 et seq., whose purpose is to engage in regional and cooperative planning and coordination of governmental services to establish a wide-area interoperable public safety communications network known as the LA-RICS' Land Mobile Radio System ("**LMR System**");

WHEREAS, County, as a member agency in LA-RICS Authority, desires to support the efforts of LA-RICS Authority and its continued operation of the LMR System for the benefit of public safety first and secondary responders who use the system for their critical communications needs in Los Angeles County;

WHEREAS, LA-RICS Authority's Board of Directors ("**Governing Board**") has approved a settlement with Motorola Solutions Inc. ("**MSI**"), its contractor who designed and built the LMR System, and of which such settlement will be funded with a loan from the County in the amount of \$23 million;

WHEREAS, the County Board of Supervisors ("**Board**") approved a loan of \$23 million to the LA-RICS Authority so that the LMR System remains unencumbered for use by public safety first and secondary responders for their communications needs; and

WHEREAS, the Board authorized the County's Chief Executive Officer, or designee ("**CEO**") to enter into an agreement with the LA-RICS Authority for the loan amount of \$23 million at the interest rate and loan terms set forth herein.

NOW, THEREFORE, in consideration of the mutual promises, covenants and conditions set forth herein, the Parties agree as follows:

1. **APPROVED FUNDING.** County will provide LA-RICS Authority a loan of Twenty-Three Million Dollars (\$23,000,000.00) (“**Loan**”) subject to the terms and conditions specified below:
 - a. Disbursal of the full Loan amount from County will be delivered to the LA-RICS Authority within fifteen (15) days of the Effective Date of this Agreement. The Loan will be used by the LA-RICS Authority for resolution of all issues with MSI related to the LMR System.
 - b. LA-RICS Authority will repay the Loan, including variable interest accrued on the Loan based on the County's yearly treasury pool rate, each year for the next fifteen (15) years as set forth below, with repayment to be completed in full by no later than June 30, 2040:
 - i. Years 1 through 5: LA-RICS Authority will make a variable interest-only payment for each respective year covering the period from July 1 through June 30. In addition, the first payment for Year 1 will also include any interest owed from the date that the principal is paid to the LA-RICS Authority through June 30, 2025.
 - ii. Years 6 through 15: LA-RICS Authority will pay the County \$2.3M each year for ten (10) years towards the original loan principal, plus the variable interest payment based on the County's yearly treasury pool rate for the respective year. The annual principal payment in Years 6 through 15 is structured as 1/10th of the total Loan amount to ensure an even principal payment amount is paid annually over the ten (10) years.
 - iii. LA-RICS Authority may make additional principal payments at any time during the repayment term of this Loan, which will shorten the 15-year term.
 - iv. The outstanding Loan balance will bear interest at the yearly County treasury pool rate in effect from the date that principal is paid to LA-RICS Authority until the date of repayment to the County. Interest will accrue daily based on the outstanding principal loan amount.
 - v. County will invoice LA-RICS Authority yearly in arrears for the amount owed in each prior year covering the period from July 1 through June 30. LA-RICS Authority will thereafter have forty-five (45) days to pay such invoice.
 - d. LA-RICS Authority's failure to make the payment specified in this Section 1 (Approved Funding) will constitute an event of default. Upon occurrence of this event of default, the entire outstanding Loan amount, accrued interest, and all reasonable County costs of collection, including but not limited to, attorneys fees and costs, will automatically become immediately due and

payable. LA-RICS Authority understands and acknowledges the County is statutorily permitted to offset any delinquent amounts against any amount reciprocally owing pursuant to California Government Code section 907.

2. **TERM.** The term of the Agreement will commence upon the Effective Date and terminate when the Parties' obligations under the Agreement are fully satisfied as determined by the County.
3. **REPORTING.** LA-RICS Authority will notify the County when it has released the Loan funds to MSI in exchange for a full and final settlement and release of the LA-RICS Authority and its member agencies. LA-RICS Authority agrees to maintain financial accounts, documents, and records consistent with Generally Accepted Accounting Principles as prescribed by the Governmental Accounting Standards Board and to make them available to the County for inspection. LA-RICS Authority also agrees to retain such financial accounts, documents, and records in compliance with the approved records retention policy of LA-RICS Authority.

At any time during this Agreement or at any time within five (5) years after the repayment of the Loan, authorized representatives of the County may conduct an inspection of LA-RICS Authority records to verify that the Loan expenditures were used for the purpose specified in this Agreement.

4. **INDEMNIFICATION.** In contemplation of the provisions of California Government Code section 895.2 imposing certain tort liability jointly upon public entities solely by reason of such entities being Parties to this Agreement, as defined by California Government Code section 895. The Parties hereto, as between themselves, pursuant to the authorization contained in California Government sections 895.4 and 895.6, will each assume the full liability that would be imposed upon it, or any of its officers, agents or employees by law for injury caused by negligent or wrongful act or omission occurring in the performance of this Agreement to the same extent that such a liability would be imposed in the absence of California Government Code section 895.2. To achieve the above-stated purpose, each Party indemnifies and holds harmless the other Party for any loss, cost, or expense that may be imposed upon such other Party solely by virtue of California Government Code section 895.2. The Parties agree to indemnify, defend and hold harmless each other against any and all liability, expense and claims arising from their respective acts or omissions. The provisions of California Civil Code section 2778 are made hereof as if fully set forth.
5. **AMENDMENTS.** Except as otherwise provided herein, any amendment(s) to this Agreement will be at the mutual consent of the County and LA-RICS Authority and will be executed by an authorized designee of both the County and LA-RICS Authority, and approved as to form by County Counsel.
6. **DISPUTE RESOLUTION.** Whenever the County and LA-RICS Authority disagree as to any matter governed by this Agreement, the dispute resolution process set forth in this Section will govern. Until the dispute is resolved or unless this Agreement

is terminated by its terms, LA-RICS Authority will repay the Loan amount, accrued interest, and all reasonable County costs of collection to the County as set forth in this Agreement.

If after thirty (30) days, the Parties cannot resolve any dispute, either Party may give the other Party a written request for a meeting between LA-RICS Authority's authorized representatives and the County's CEO for the purpose of resolving a disagreement between the Parties.

If such meeting is requested, the meeting will be held within ten (10) business days of the receipt of such request. If after the meeting between the LA-RICS Authority's authorized representative and the County's CEO the dispute between the Parties is not resolved, the dispute may be submitted to the LA-RICS Authority's Governing Board and separately to the County Board, subject to compliance with applicable Ralph M. Brown Act requirements.

- 7. ASSIGNMENTS.** LA-RICS Authority will not assign its rights or delegate its duties under this Agreement, or both, whether in whole or in part, without the prior written consent of the County, in its sole discretion, and any attempted assignment or delegation without such consent will be null and void.

For purposes of this Section, the County consent will require a written amendment to this Agreement, which is formally approved and executed by the Parties. In the event a transfer, exchange, assignment, or divestment results in a change in the person or entity with majority control of LA-RICS Authority at the time of execution of this Agreement, such disposition is an assignment requiring the prior written consent of County in accordance with applicable provisions of this Agreement.

- 8. NOTICES AND APPROVALS.** All notices and approvals will be directed to and made by the following representatives of the Parties via U.S. Mail with a copy sent to the e-mail address provided below:

GOVERNMENT BODY OF THE CONSOLIDATED FIRE PROTECTION DISTRICT OF
LOS ANGELES COUNTY:**

1. Authorize the Internal Services Department (ISD), as the County's Purchasing Agent, to proceed with the sole source purchase of 69 Bravo's existing automation system from Sabe at an approximate cost of \$290,000.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The District is requesting approval to purchase the existing automation system at 69 Bravo, which is necessary to support critical operational functions of the District's Air and Wildland Division and ensure continued effectiveness in fire suppression efforts. The District relies on specialized equipment and infrastructure to support emergency operations, including automated systems that enhance response capabilities. The automation system is critical to the suppression of wildland fires in the communities of Malibu, Topanga, Fernwood, and the surrounding developments in the Santa Monica Mountains. The District seeks to acquire this system as a sole source purchase to avoid any potential interruptions in serving its constituents.

The automation system was purchased and installed by Sabe prior to the District's acquisition of the property on February 21, 2025. It is significantly more efficient for the District to purchase the existing equipment directly from Sabe, rather than the District purchasing a similar system at a higher cost. This approach avoids unnecessary operational disruptions and ensures cost-effective continuity of critical fire suppression capabilities. If the District were to purchase elsewhere, the existing equipment would need to be uninstalled, which would create a gap in coverage while obtaining new equipment.

The automation system manages the water levels of the water tanks located at 69 Bravo which are used by aerial firefighting resources during critical fire incidents. The automation system allows remote access to turn on or off the sprinkler system, monitor water capacity to five tanks, turn on or off pumps, and increase the pump flow rate without personnel physically at the location to manually fill or manage the water tanks. This level of control and automation enables 69 Bravo to provide a reliable source of water that can be utilized during wildfires. Additionally, the automated system provides a streamlined refilling process thereby increasing the District's effectiveness in responding to and extinguishing wildland fires.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

Approval of the recommended actions is consistent with the County's Strategic Plan North Star Focus Area Goal A, Strategies i: Customer Service: Support departmental efforts to improve customer service and to enhance efficiency and responsiveness to meet the needs of all residents.

FISCAL IMPACT/FINANCING

The District, as a Special District, is funded independently from the County's General Fund, and relies primarily on property tax revenue to provide essential fire protection and life safety services.

Sufficient funding is available in the District's Fiscal Year 2024-25 Final Adopted Budget to purchase existing automation equipment.

There is no impact to net County cost.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

In accordance with County Policy No. 5.015 (Timely Submission of Contracts for Board Approval), this purchase meets the criteria of being a critical nature and urgent for the protection of public health and safety.

ENVIRONMENTAL DOCUMENTATION

The recommended actions are exempt from the CEQA pursuant to Section 15061 (b)(3) of the CEQA Guidelines as it addresses incidental matters related to the provision of services, and thus it will not have a significant effect on the environment.

IMPACT ON CURRENT SERVICES

Approval of the recommendations will ensure that the District maintains its ability to respond effectively to wildfires and other emergencies, minimizing delays and ensuring the availability of critical infrastructure.

CONCLUSION

Upon approval by your Honorable Board, please instruct the Executive Officer to return an adopted stamped copy of this letter to the following office:

SOLE SOURCE REQUEST QUESTIONNAIRE

It is the policy of the County to solicit the maximum number of bids/proposals for a commodity or service from the largest relevant market and to select vendors on a competitive basis.

There are certain acquisitions which, when in the best interest of the County, can only be obtained from a sole source. Sole source acquisitions must be justified in sufficient detail to explain the basis for suspending the usual competitive procurement process.

NOTE: Please refer to Procedure P-3700 of the ISD Purchasing Policies and Procedures Manual.

DOCUMENTATION FOR SOLE SOURCE JUSTIFICATION MUST INCLUDE RESPONSES TO THE FOLLOWING QUESTIONS:

1. What is being requested?
Automation system for the 69 Bravo helispot.
2. Why is the product needed – how will it be used?
The automation system is vital to the wildland operation in the area, the automation system allows remote access to turn on or off the sprinkler system, monitor water capacity to five tanks, turn on or off pumps, and increase the pump flow rate without personnel physically at the location to manually fill or manage the water tanks. This level of control and automation enables 69 Bravo to provide a reliable source of water that can be utilized during wildfires. Additionally, the automation system provides a streamlined refilling process thereby increasing the District's effectiveness in responding to and extinguishing wildland fires.
3. Is this "brand" of product the only one that meets the user's requirements? If yes, what is unique about the product?
This product is already at the 69 Bravo property and by purchasing it from the previous owner the District will avoid any interruptions in operations, which could thereby impact provision of wildland service.
4. Have other products/vendors been considered? If yes, which products/vendors have been considered and how did they fail to meet the user's requirements?
No, as replacement of the automation system would interrupt critical wildland operations in the area.
5. Will purchase of this product avoid other costs, e.g. data conversion, etc. or will it incur additional costs, e.g. training, conversion, etc.?
Yes, purchase of this system eliminates the need to purchase the same system and find an interim solution to avoid interruption of service.
6. Is the product proprietary or is it available from various dealers? Have you verified this?
The automation system was purchased and installed prior to the District purchasing the property and due to operational need, would not be reasonable to replace without interrupting wildland operations.
7. Reasonableness of Price: Does the County obtain a percentage discount or special discount not available to the private sector?
The vendor has offered a 28% discount to the County.

8. What is the dollar value of existing equipment and the Purchase Order No. for the existing equipment?

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS

The District implements the Hazardous Waste Generator/Tiered Permitting, Hazardous Materials Handler, CalARP, and APST Programs under the auspices of the Los Angeles County Certified Unified Program Agency (CUPA).

State law and County Code allow for the recovery of the necessary and reasonable costs to administer these programs. The County Code requires these fees to be adjusted annually. Your Honorable Board established annual fees and adjustment provisions for each of these programs to recover the costs of implementation. Cost recovery hourly rates were also established for emergency responses and site mitigation oversight.

Fee Adjustment

The annual fee adjustments established in accordance with the provisions in the County Code will allow the District to incorporate all anticipated changes in salaries and benefits for FY 2025-26. The fee adjustments will align the fees with the estimated costs of operation, as well as facilitate the single fee billing process mandated by the CUPA and by establishing fair and equitable fees to be billed in FY 2025-26.

The annual adjustment provisions established in the County Code utilize a fee methodology that was initially established by your Board in 1996. The proposed adjustments incorporate changes in program costs that result from changes in salaries, employee benefits and overhead rates, and the number of regulated facilities falling within each fee category. Similarly, annual adjustments to cost recovery rates reflect changes in District costs to administer those services.

Ordinance Changes

The Ordinance amendments (Enclosure B) will involve changes in the fee amounts for all programs implemented by the District.

Implementation of Strategic Plan Goals

Approval of the recommended actions is consistent with the County's Strategic Plan North Star 3, E. Data-Driven Decision Making to continually assess and strengthen our efficiency and effectiveness, maximize and leverage resources, ensure fiscal responsibility, and hold ourselves accountable.

FISCAL IMPACT/FINANCING

Fees are apportioned in accordance with program costs to ensure recovery of District operating costs. A combination of fees and direct cost recovery billing for specific services offsets current program costs. The proposed revisions in the annual fees (Enclosure A) for the Hazardous Waste Generator/Tiered Permitting, Hazardous Materials Handler, CalARP, and APST Programs will allow recovery of the necessary and reasonable costs to implement the programs.

There is no impact on net County cost.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The fee revisions will be effective in all areas under the jurisdiction of the CUPA for FY 2025-26. The cities of Los Angeles and Santa Monica will generate fee invoices in July 2025 for FY 2025-26 for the Hazardous Waste Generator/Tiered Permitting Program, and Orange County will generate annual fee invoices in July 2025 for FY 2025-26 for the Hazardous Materials Handler and CalARP program facilities in the City of La Habra. These agencies are awaiting any changes in our fee schedule prior to generating invoices.

California Health and Safety Code Sections 25404.5(a)(2) and (3), grant authorization to the governing body of the local Certified Unified Program Agencies to establish fees to recover the necessary and reasonable program costs. The Auditor-Controller has reviewed and approved the cost basis and fee adjustments.

California Health and Safety Code, Chapter 6.11, Section 25404.1.1 allows a unified program agency to enforce violations within its jurisdiction and impose administrative penalties, including fees.

This request for approval of the revised fees is made after compliance with all public notification and hearing requirements as specified in Sections 6062 and 66018 of the California Government Code. Proposed ordinance language changes have been approved as to form by County Counsel.

ENVIRONMENTAL DOCUMENTATION

The annual adjustments are exempt from the CEQA pursuant to Public Resources Code Section 21080(b)(8) and Section 15273 of the CEQA Guidelines because they involve fees to recover operating costs.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The approval of the annual fee adjustments for the Hazardous Waste Generator/Tiered Permitting, Hazardous Materials Handler, CalARP, APST Programs, and for the cost recovery rates will serve to establish the reasonable and necessary fees for FY 2025-26, facilitate the fiscal year billing process mandated by the CUPA, and assure full recovery of program implementation costs. The annual adjustments fairly allocate changes in program costs to regulated facilities while maintaining the integrity of the original fee methodologies.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The enclosed ordinance, when adopted, will update the LRA FHSZ to include Moderate, High and revise the Very High FHSZs within the District's jurisdiction.

On March 24, 2025, the California Department of Forestry and Fire Protection (CAL FIRE) rolled out the updated FHSZ maps that reflect current wildfire risks for the LRA. These revised maps consider factors such as fire history, vegetation, terrain, typical fire weather patterns, and ember cast. The revised maps categorize areas into three hazard levels of Moderate, High, and Very High, and indicate which communities are among these classifications within the LRA of Los Angeles County. Previously, the LRA FHSZ maps only indicated Very High FHSZ.

Implementation of Strategic Plan Goals

The recommended action aligns with the Strategic Plan Goal - North Star 2, Focus Area Goal for Sustainability - Climate Health strategies are affected by the LRA FHSZ maps update. The goal is to mitigate climate change and build resilient communities. The updated maps showing Moderate, High, and Very High FHSZs may determine new construction requirements and structural upgrades that prioritize home hardening to address the increasing threat of wildfire in the wildland-urban interface.

FISCAL IMPACT/FINANCING

The number of defensible space inspections and fuel modification plan reviews will increase due to the increased number of parcels in the Very High FHSZ that will be affected by the newly issued maps. In 2021, your Board approved an inspection fee of \$151.00 per parcel (beginning 2024) for all declared improved parcels. The California Health & Safety Code, Section 14902, allows the recovery of inspection program costs. The inspection fee is intended to offset the District's costs to keep the Defensible Space Inspection Program cost neutral. The addition of the Moderate and High FHSZ will be analyzed for future inclusion to the Defensible Space Inspection Program.

There is no impact to net County cost.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

In accordance with Government Code 51178, the State Fire Marshal identifies areas in the State as Moderate, High, and Very High FHSZs based on consistent statewide criteria and on the severity of fire hazard that is expected to prevail in those areas. Moderate, High, and Very High FHSZs are based on fuel loading, slope, fire weather, ember cast, and other relevant factors including areas where winds have been identified by the Office of the State Fire Marshal as a major cause of wildfire spread.

Government Code 51179 requires a local agency to designate, by ordinance, Moderate, High, and Very High FHSZs in its jurisdiction within 120 days of receiving recommendations from the State Fire Marshal.

Furthermore, as required by Government Code 51179(c), confirmation of the adopted ordinance shall be sent to CAL FIRE within 30 days of adoption.

ENVIRONMENTAL DOCUMENTATION

The adoption of this ordinance is exempt from the CEQA pursuant to the Public Resources Code Section 21080(b)(8) and Sections 15273 and 15061(b)(3) of the CEQA guidelines because it involves fees to recover operating costs.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The revision of the Very High FHSZ within the LRA, may require additional defensible space inspections and fuel modification plan reviews for the District. A preliminary estimate shows that approximately 100,000 parcels will be added to the LRA. The District will evaluate the impact to the workload and will address any expansion through the budget process.

CONCLUSION

Upon approval by the Board of Supervisors, please instruct the Executive Officer to return the adopted stamped copy of the letter and enclosures to the following office:

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

**HEARING ON 2024-2025 COUNTY OF LOS ANGELES HAZARDOUS VEGETATION
AND DEFENSIBLE SPACE ABATEMENT ENFORCEMENT CHARGES
(ALL DISTRICTS) (3-VOTES)**

SUBJECT

In Los Angeles County, abatement of hazardous vegetation (weeds, brush, and neglected landscaping), rubbish abatement, and defensible space enforcement are primarily a joint enforcement and clearance effort between the Department of Agricultural Commissioner/Weights and Measures (ACWM) and the Consolidated Fire Protection District of Los Angeles County (District). The State law pursuant to which both programs operate requires that your Board hold a public hearing for property owners whose properties will be assessed charges for hazardous vegetation and/or defensible space abatement.

**IT IS RECOMMENDED THAT THE BOARD, ACTING AS THE GOVERNING BODY OF
THE CONSOLIDATED FIRE PROTECTION DISTRICT OF LOS ANGELES COUNTY
AND AS THE BOARD OF SUPERVISORS:**

1. Confirm the 2024-2025 ACWM hazardous vegetation abatement costs, in the total amount of \$XXXXXXX, are to be assessed to owners of designated parcels of land.
2. Confirm the 2024-2025 District defensible space abatement costs, in the total amount of \$19,544,170.00, are to be assessed to owners of improved parcels.
3. Instruct the Auditor-Controller (A-C) to post the hazardous vegetation and defensible space abatement costs as direct assessments against the respective parcels of land as they appear on the current property tax assessment roll.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Annual abatement of hazardous vegetation is a critical component of the overall fire prevention infrastructure throughout most of Los Angeles County. Your Board's confirmation of hazardous vegetation, rubbish, and defensible space abatement charges enables ACWM and the District to recover costs from properties upon which such costs were incurred in performing hazardous vegetation or rubbish abatement, and enforcement actions in support of defensible space, as authorized by State Law.

The properties, which are both improved and unimproved (vacant), were declared by prior Board resolution to contain, or have the potential to contain, public nuisances due to hazardous vegetation or rubbish.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

This action supports the County Strategic Plan goals through the following strategies:

- North Star 2: Foster Vibrant and Resilient Communities - Focus Area Goal A.: Public Health – Strategy i.: Population Based Health – Removal of overgrown weeds, neglected vegetation, and illegal dumping contributes to the health and safety of residents within many of the County’s diverse communities.
- North Star 3: Realize Tomorrow’s Government Today - Focus Area Goal G.: Internal Controls and Processes – Strategy i.: Maximize Revenue and Strategy ii.: Manage and Maximize County Assets – Conducting nuisance abatement pursuant to the statutory authority of the California Health and Safety Code that allows ACWM and the District to respond to hazards posed by weeds, brush, and rubbish more quickly and effectively than when using other nuisance abatement procedures. It also allows complete cost recovery for ACWM’s and the District’s role in this critical public safety function.

FISCAL IMPACT/FINANCING

There is no impact on net County cost.

Approval of this action will allow ACWM to recover its expenses for abatement costs, including clerical functions such as mailings, boundary determination, data entry, etc. It will allow the District to recover its expenses for abatement costs, including clerical functions such as mailings, boundary determination, data entry, etc., and costs for abatement and enforcement activities beyond the annual inspection program for property owners who fail to comply with two official notices to abate hazards.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Properties identified by inspection to contain weeds, brush, neglected landscaping, or rubbish in violation of the Los Angeles County Fire Code Section 325.2.1, or upon which these same items were otherwise a public nuisance, were the subject of enforcement actions or direct abatement activities pursuant to the authority of the California Health and Safety Code Sections 13879, and 14875 through 14922, inclusive.¹ These statutes require the Board to pass a resolution and hold a Public Hearing, which took place in January and March of 2024 and February and March of 2025, respectively. In addition, Section 14905 requires ACWM and the District to keep an account of the cost of abatement on each separate parcel of land and render an itemized report (Report), in writing, to your Board. Attached are the itemized Reports for ACWM and the District.

Pursuant to Section 14906, before the Report is submitted to your Board for confirmation, a copy must be posted for at least three days on or near the Board’s

¹ Unless otherwise specified, all statutory references refer to the Health and Safety Code.

chamber door with a notice of the time when it will be submitted to your Board for public hearing on the confirmation.

Once confirmed by your Board, a copy of the Report must be submitted to the A-C on or before August 10, 2025. The A-C will enter the amounts of the respective assessments against the respective parcels of land as they appear on the current assessment roll.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The recovery of costs incurred from enforcement or abatement of hazardous vegetation and rubbish is vital for the ongoing related operations for both ACWM and the District.
