		Other	Rayceana R Rocha	We as residents of this community in which you all serve, deserve increased access to the information discussed at these meetings. To see the insurmountable problems continue in our communities coupled with such little public participation in these vital meetings you all dictate is a grave cause for concern. So this information needs to be more readily available, easier to understand, and promoted more to reach more people. The offices in charge of this now, if any, are failing. Please take into consideration the fact that you are all falling short up unto this point and if you are not serving the people in the position in which the people have appointed you for, then you are merely serving yourselves. Thank you.
