SUBJECT: **REPORT BACK ON MOTION BY SUPERVISORS  
HILDA L. SOLIS AND JANICE HAHN –  
RESPONDING TO WORKFORCE AND  
ECONOMIC IMPACT OF FEDERAL  
IMMIGRATION ENFORCEMENT IN LOS  
ANGELES COUNTY (ITEM NO. 51-C OF  
SUPPLEMENTAL AGENDA OF JUNE 17, 2025)**

On June 17, 2025, your Board of Supervisors (Board) adopted a motion introduced by Supervisors Hilda L. Solis and Janice Hahn directing the Director of the Department of Economic Opportunity (DEO) to:

1. Collaborate with applicable entities and report back in writing within 15 days with an assessment that will, at minimum, produce the following data regarding federal immigration enforcement in LA County:
  - a) Economic impact on small businesses due to loss of workforce including identification of the most impacted areas and most impacted types of businesses in the County of Los Angeles.
  - b) Economic impact of property damage and imposed curfews; and
  - c) Identify available supportive services for impacted small businesses and ways to make services available in a manner that is responsive to their language and immigration needs.
2. Identify the most impacted industrial sectors by connecting with labor unions and other applicable entities.

3. Identify the most impacted industrial sectors by connecting with labor unions and other applicable entities.
4. Continue to report back in writing on a monthly basis thereafter through December 2025 on datapoints identified in Directive 1.
5. Delegate authority to the Director of DEO or their designee to enter into contracts not to exceed \$150,000 with the Los Angeles County Economic Development Corporation (LAEDC) for data and analysis needed in Directives 1-3, subject to approval as to form by County Counsel; and ensuring that data are protected and do not include identifiable information that may put individuals, systems and organizations at risk.
6. Collaborate with the Department of Consumer and Business Affairs' (DCBA) Office of Immigrant Affairs (OIA), Small Business Commission, and the Los Angeles County Workforce Development Board to convene impacted County departments and community stakeholders for a listening session to further inform Directive 1.
7. Collaborate with OIA and DCBA's Office of Labor Equity, in consultation with County Counsel, to develop a rapid response communication strategy for impacted businesses and workers that would facilitate access to legal aid, resources for impacted workers with rental concerns, mental health resources and, when feasible, financial resources. The strategy should, at minimum, include the following:
  - a) Produce and disseminate video webinars covering the information provided in live webinars, in English and the languages spoken by the impacted business owners, on a media platform that offers online privacy tools.
  - b) Develop a printable toolkit for small businesses and workers that includes resources to address the legal rights for small businesses; in collaboration with Department of Mental Health include information and resources to address employee stress and anxiety; and create a toolkit or module that meets the unique needs of street vendors.
  - c) Direct relevant community organizations funded by DEO to provide outreach to street vendors regarding resources, "Know Your Rights" cards and toolkit.
8. Include the OIA's "Know Your Rights" information in Youth@Work curriculum going forward; and collaborate with community-based organizations and relevant entities to extend Youth@Work opportunities such as expanding work hours from the current 150 hours to 400 hours to support youth and transitional-aged youth that have become the bread winners of their households due to separation from parental figures.
9. Partner with the Los Angeles County Office of Education (LACOE), Los Angeles Unified School District, Los Angeles Community Colleges, and other relevant schools to disseminate the information in Directive 6 to students and their parents and care

providers.

10. Partner with the Chief Executive Office Center for Strategic Partnerships (CEO-CSP) and philanthropy to identify funding for a DEO-led business interruption fund for small businesses impacted Countywide due to loss of workforce and/or curfews imposed due to federal immigration enforcement activity, and to identify supplemental funding for Directive 6.
11. Partner with CEO-CSP and philanthropy to identify funding for local community-serving organizations to provide cash-assistance for impacted workers and youth/transitional-aged youth that have become head of household.
12. Report back in writing in 30 days and in 60 days on Directives 4-9.
13. Direct the Chief Executive Office's Legislative Affairs and Intergovernmental Relations branch to advocate in support of state-level measures for impacted businesses and workers.

### **Update on Directives One (1) through Four (4)**

#### **Economic Analysis, Including Most Impacted Sectors**

On July 3, 2025, DEO executed a contract with the Los Angeles County Economic Development Corporation (LAEDC) for analysis of the economic impacts of federal immigration enforcement efforts in Los Angeles County from June 6<sup>th</sup> through December 2025. The scope with LAEDC includes: a 15-Day rapid assessment as foundational analysis and to finalize the workplan; data collection of business and worker impacts, including data gathering, convenings, surveys and interviews; sectoral and geographic impact profiling to analyze how economic losses are distributed across sectors, occupational groups, and communities; an analysis of curfew and property damage impacts; and monthly monitoring and updates to provide ongoing tracking of economic recovery and additional impacts through December 2025.

For this 15-Day report, LAEDC has provided a preliminary assessment to quantify and understand the economic impacts of the recent immigration enforcement activities across Los Angeles that affect small businesses, key industries, workers, and households—especially those in immigrant and mixed-status communities. Included in this initial report are preliminary findings (Attachment). Key findings include:

- **Impacted Businesses in the Downtown Curfew Area:** The curfew area in Downtown Los Angeles has potentially impacted a total of 19,461 businesses and these businesses employ a total of 253,713 workers, representing about 6.5% of the County's average monthly employment.
- **Impacted Sectors in the Downtown Curfew Area:** Retail Trade was the most impacted industry with a total of 3,707 businesses (18%). This was followed by Professional,

Scientific, and Technical Services with 3,492 businesses (17%), Wholesale Trade with 2,448 businesses (12%), and Other Services (except Public Administration) with 1,242 businesses (6%).

- **Property Damage:** While there is currently little publicly available data on vandalism and property losses, the Los Angeles City Controller estimates that to date, federal enforcement actions have cost Los Angeles taxpayers \$1.4 million for cleaning up damage to public property.
- **Neighborhoods:** The highest concentrations of foreign-born individuals are found in the San Gabriel Valley, Central and South Los Angeles, and the San Fernando Valley. The highest percentages of residents who are foreign born or have not become U.S. citizens and those without legal immigration status are seen in neighborhoods such as Pico-Union, Westlake, Koreatown, Boyle Heights, and parts of El Monte, South Los Angeles, and the San Fernando Valley.
- **Workforce:** The Pew Research Center estimates that as of 2022 there are 1,450,000 unauthorized immigrant workers in California representing 7.2% of the state's labor force. In addition, the super sectors in Los Angeles County that likely have the greatest concentrations of unauthorized immigrant workers, and therefore most likely to be disproportionately impacted by enforcement-related disruptions, include construction, manufacturing, professional and business services, and leisure and hospitality, as well as other services.

## Update on Directive Five

### Stakeholder Convenings

Regarding the stakeholder convenings, on July 3, 2025, OIA and DEO held a meeting with the Countywide Immigration Task Force (CIFIC) to evaluate how recent immigration enforcement actions are impacting County services and operations. The CIFIC includes the most impacted County departments, including Consumer and Business Affairs (DCBA), Mental Health (DMH), Children and Family Services (DCFS), Public Social Services (DPSS), Public Health (DPH), Health Services (DHS), Aging and Disabilities (AD), and the County Library. These departments provided robust and insightful input during the meeting that will help shape the first 30-day report.

OIA and DEO also plan to hold additional meetings with the CIFIC and other relevant County departments and commissions, with findings to be shared in upcoming monthly reports.

In parallel, DEO and OIA will partner with LAEDC to begin engaging academic, community, business, and nonprofit stakeholders over the next 30 days and beyond. Insights from those sessions will also be included in future reports.

County Departments and Commissions, the OIA and DEO will begin these convenings on July 3, 2025, with the Countywide Immigration Task Force (CIFIC) to assess how the recent immigration enforcement activities affect their services and operations. The CIFIC includes DCBA, the LA

County Department of Mental Health (DMH), Department of Children and Family Services (DCFS), Department of Public Social Services (DPSS), Department of Public Health (DPH), Department of Health Services (DHS), Department of Aging and Disabilities (AD), DAD, and the County Library. Their insights will inform the first 30-day report back. OIA and DEO anticipate hosting additional sessions with County departments and commissions, with findings to be included in future monthly reports. In addition, DEO and OIA/DCBA will work with LAEDC to begin convening identified academic, community, business, and non-profit stakeholders over the next 30 days and beyond, with findings to be included in future monthly reports.

### **Update on Directive Six**

DEO and OIA are supporting a rapid-response communication strategy, including webinars and a toolkit for businesses and workers, while engaging with DCBA, the California Governor's Office of Business and Economic Development (GO-BIZ), and key legal partners to collaborate on toolkit development and a public information campaign.

While in development, DEO is actively promoting current OIA Know Your Rights workshops and resources at [oia.lacounty.gov](http://oia.lacounty.gov) on social, newsletter, and other channels. OIA, along with County Counsel and various community-based partners like the Coalition for Humane Immigrant Rights (CHIRLA), RepresentLA, LA Bar Association, and Public Counsel have held over 20 Know Your Rights workshops since June 4<sup>th</sup> for individuals, businesses, and nonprofits, with 1,900 virtual and in-person attendees to date.

### **Additional Directive Progress**

In addition, DEO is actively working with Board Offices, County Departments, the City of LA, philanthropy and other partners on other Directives and initiatives highlighted in the motion, which includes a program design and fundraising strategy for a business interruption fund for impacted small businesses, potential expansion of Angeleno Cards countywide to provide cash assistance to impacted workers, and a design and timeline for Youth@Work to reach impacted households.

### **Conclusion**

DEO will submit 30- and 60-Day reports on progress on all Directives, as well as provide monthly updates on the economic impact analysis covered under Directives 1-4. If you have any questions, please contact me, or your staff may contact Gary Smith at [gsmith@opportunity.lacounty.gov](mailto:gsmith@opportunity.lacounty.gov).

## Preliminary Economic Impacts of Federal Immigration Enforcement in Los Angeles County

July 1, 2025

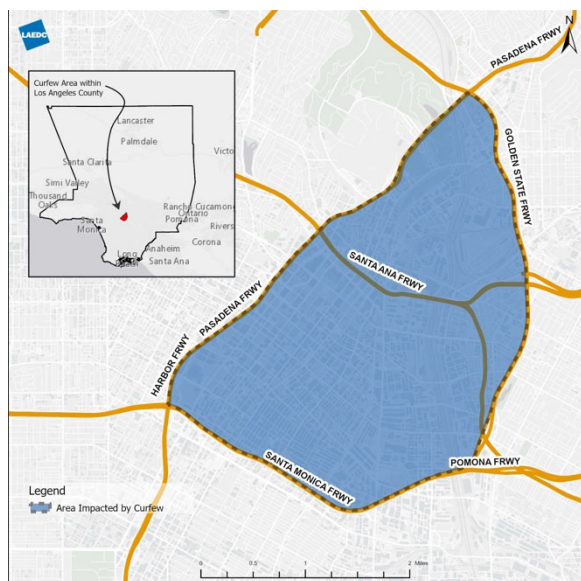

In June 2025, the federal government intensified its enforcement of national immigration policies, particularly in Los Angeles County, through increasingly aggressive efforts to arrest and detain unauthorized immigrants. Agents from the Department of Homeland Security (DHS) targeted individuals in retail sites, day labor locations, carwashes, and a variety of other workplaces and settings. Additionally, as residents of the County protested these enforcement actions, the federal government heightened tensions by deploying approximately 4,000 California National Guard troops and 700 U.S. Marines to Los Angeles ostensibly to protect federal buildings and otherwise provide support to DHS. This escalation essentially resulted in larger and more widespread protests across the County, some of which led to the imposition of a curfew in Downtown Los Angeles (see **Exhibit 1**).

These immigration enforcement actions have significantly impacted the businesses and workforce in Los Angeles County in a number of ways: First, they have reduced the labor force in the County by detaining some workers and by instilling fear in others, forcing them to stay home or otherwise remain in hiding. Second, they have reduced spending on goods and services in the County as undocumented and immigrant families stay at home for fear of being targeted. Third, the protests surrounding these enforcement actions have in some cases resulted in vandalism and property losses to businesses. Finally, the curfew in Downtown Los

Angeles as well as protests have led to business disruptions by preventing many businesses from operating.

### Exhibit 1

#### Curfew Area in Downtown Los Angeles

The Institute for Applied Economics (IAE) at the Los Angeles Economic Development Corporation (LAEDC) has begun an analysis of the economic impacts of federal immigration enforcement efforts in Los Angeles County. The purpose is to quantify and understand the cascading economic effects across small businesses, key industries, informal work sectors, and households—especially those in immigrant and mixed-status communities—resulting from these enforcement efforts. Developing real-time, localized data can help guide County response efforts and direct supportive interventions.

## Curfew Area in Downtown Los Angeles

Based on business-level data from Dun & Bradstreet, **IAE estimates that the curfew in Downtown Los Angeles potentially impacted a total of 19,461 businesses.** The concentration of potentially affected businesses is shown in the map in **Exhibit 2**. Each point in the map represents a business location, while the heatmap shows business density, with the highest concentrations in the central and southwestern parts of the curfew zone. These areas include key commercial corridors that support a large number of small and locally owned businesses.

The 19,461 businesses represent approximately 3.3% of all business establishments in the County.<sup>1</sup> However, **IAE also estimates that these businesses employ a total of 253,713 workers, representing about 6.5% of the County's average monthly employment.** This means that the curfew, while intended to address public safety concerns, may have disrupted economic activity in one of Los Angeles's most commercially active neighborhoods.

**Exhibit 3** shows the largest impacted industries by the number of businesses, while **Exhibit 4** highlights the distribution across these industries. It indicates that Retail Trade was the most impacted industry with a total of 3,707 businesses (18%). This was followed by Professional, Scientific, and Technical Services with 3,492 businesses (17%), Wholesale Trade with 2,448 businesses (12%), and Other Services (except Public Administration) with 1,242 businesses (6%). Many of the businesses in Professional, Scientific, and Technical Services are located in the Downtown high rises.

**Exhibit 3**

### Largest Impacted Industries by Number of Businesses

NAICS Sector	Industry Description	Businesses
44-45	Retail Trade	3,707
54	Professional, Scientific, and Tech Services	3,492
42	Wholesale Trade	2,448
81	Other Services (except Public Admin)	1,242
72	Accommodation and Food Services	1,141
31-33	Manufacturing	1,057
52	Finance and Insurance	979
56	Administrative and Support Services	975
53	Real Estate and Rental and Leasing	873
62	Health Care and Social Assistance	817
---	Other	3,863
<b>Total</b>		<b>19,461</b>

**Exhibit 4**

### Distribution of Businesses in Impacted Industries

<sup>1</sup> U.S. Bureau of Labor Statistics, Quarterly Census of Employment and Wages, Los Angeles County, 3<sup>rd</sup> Quarter, 2024

**Exhibits 5 and 6** present the largest impacted industries by the number and distribution of employees. They show that the largest impacted industry is Public Administration, with 46,479 employees (18%). This is not surprising given the high concentration of government facilities in Downtown. Second is Professional, Scientific, and Technical Services with 37,047 employees (15%), followed by Retail Trade with 32,133 employees (13%), Finance and Insurance with 25,196 employees (10%), and Manufacturing with 18,063 employees (7%).

**Exhibit 5****Largest Impacted Industries by Number of Employees**

NAICS Sector	Industry Description	Employees
92	Public Administration	46,479
54	Professional, Scientific, and Tech Services	37,047
44-45	Retail Trade	32,133
52	Finance and Insurance	25,196
31-33	Manufacturing	18,063
72	Accommodation and Food Services	14,979
42	Wholesale Trade	13,610
62	Health Care and Social Assistance	10,677
56	Administrative and Support Services	9,690
48-49	Transportation and Warehousing	8,445
---	Other	37,394
<b>Total</b>		<b>253,713</b>

**Exhibit 6****Distribution of Employees in Impacted Industries**

Some of these businesses experienced vandalism and property losses in addition to disruptions. While there currently is little publicly available data on vandalism and property losses, the Los Angeles City Controller estimates that federal enforcement actions so far have cost Los Angeles taxpayers \$1.4 million for cleaning up damage to public properties.<sup>2</sup>

## Impacted Businesses in Los Angeles County

The broader economic impacts of federal immigration enforcement across Los Angeles County will depend on multiple factors. One factor is demographics. Based on data from the U.S. Census Bureau's American Community Survey, **Exhibit 7** shows the share of residents in each census tract of Los Angeles County who were born outside the United States.<sup>3</sup> Foreign-born individuals play a central role in the county's economic, cultural, and civic life. The highest concentrations are found in the San Gabriel Valley, Central and South Los Angeles, and the San Fernando Valley. In these areas, the foreign-born

**Exhibit 7****Percent of Population Who is Foreign Born**

<sup>2</sup> <https://x.com/lacontroller/status/1936144809166860374>

<sup>3</sup> U.S. Census Bureau, American Community Survey 2023 5-Year Estimates, Table B05002

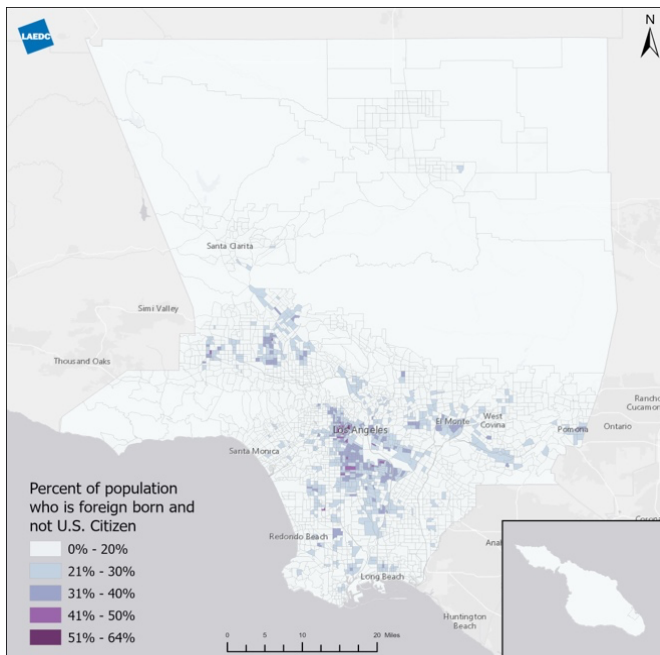

population often exceeds 50%, reflecting long-standing immigrant communities and recent patterns of migration.

While these neighborhoods are home to diverse, resilient communities, the concentration of foreign-born residents may also draw increased attention from federal immigration authorities. This can create added concern for residents and service providers in areas where large numbers of people may be affected by enforcement activity.

**Exhibit 8** focuses on the share of residents who are foreign born and have not become U.S. citizens. This includes lawful permanent residents, individuals on temporary visas, and those without legal immigration status. The highest percentages are seen in neighborhoods such as Pico-Union, Westlake, Koreatown, Boyle Heights, and parts of El Monte, South Los Angeles, and the San Fernando Valley. While some of these areas overlap with high foreign-born concentrations in Exhibit 7, the overall percentages are lower, indicating that many foreign-born residents in the county have gone on to naturalize.

#### Exhibit 8

Percent of Population Who is Foreign Born and Not a U.S. Citizen

Communities with higher shares of non-citizen residents may face additional challenges related to immigration enforcement. These can include increased fear, reluctance to access services, and disruptions to family and community life. The presence of a large non-citizen population may also influence the need for legal aid, language access, and public information efforts.

A second factor that will shape the broader economic impacts of federal immigration enforcement across Los Angeles County is the distribution of businesses and industries that are more likely to employ immigrants or unauthorized individuals. The Pew Research Center estimates that as of 2022 there are 1,450,000 unauthorized immigrant workers in California representing 7.2% of the state's labor force.<sup>4</sup> They also note that unauthorized immigrants make up a relatively larger share of the civilian workforce in some industries than others, such as agriculture and construction. Unauthorized immigrant workers are also found in greater numbers in the leisure and hospitality industry, in some services and in manufacturing. In California in 2022, construction was the industry with the most unauthorized immigrant workers while agriculture was the industry with the largest percentage of workers who are unauthorized immigrants.

<sup>4</sup> Pew Research Center, "What we know about unauthorized immigrants living in the U.S.," *Short Reads*, July 22, 2024

**Exhibit 9** shows the industrial super sectors in Los Angeles County that likely have the greatest concentrations of unauthorized immigrant workers.<sup>5</sup> These five super sectors will be disproportionately impacted by disruptions. Combined, these vulnerable sectors represent a total of 177,690 establishments and employ nearly 1.8 million payroll workers in the County. They also are responsible for nearly \$34 billion in total quarterly payroll, or more than \$135 billion annually. Consequently, significant disruptions to the operations in these industries could have severe impacts on the County's economy.

**Exhibit 9****Quantifying Industries with Largest Concentrations of Unauthorized Workers, Los Angeles County**

NAICS Super Sector	Industry Description	Establishments	Employees	Quarterly Payroll (thousands)
23	Construction	19,945	151,121	\$3,162,973
31-33	Manufacturing	12,495	309,144	\$6,900,778
54-56	Professional and Business Services	66,548	638,016	\$15,302,258
71-72	Leisure and Hospitality	47,340	537,647	\$6,334,996
81	Other Services	31,362	151,933	\$2,105,682
<b>Subtotal</b>		<b>177,690</b>	<b>1,787,861</b>	<b>\$33,806,687</b>

## Supportive Services for Impacted Small Businesses

Small businesses throughout Los Angeles County that are impacted by past and ongoing federal immigration enforcement actions might require supportive services as a result. **Exhibit 10** below provides a preliminary list of available supportive services for impacted small businesses that are also sensitive to language and information needs. The organizations included in **Exhibit 10** will continue to be updated on a regular basis.

**Exhibit 10****Inventory of Supportive and Legal Services for Immigrants in Los Angeles**

Category	Organization	Services Provided	Contact Information
Legal Aid & Referrals	Immigrant Defenders Law Center (ImmDef)	Deportation defense, removal defense for detained individuals, children, veterans	213-833-8283 (24/7 hotline)
