

REVISED MOTION BY SUPERVISORS HILDA L. SOLIS

August 12, 2025

AND JANICE HAHN

Toy Loan Appreciation Month

Play activity is an essential factor to every child’s early development. It builds communication skills, stimulates brain development and encourages imagination. One of the most effective play activities involve toys. Building blocks, games, dolls, action figures all contribute to a child’s well-being and growth.

Since 1935, the Toy Loan Program has made it possible for children who may not have toys of their own, to participate in toy borrowing, giving them access to a resource so critical to their development.

More than 2 million children have taken part in Toy Loan over the Program’s 90-year history, and it continues to be a source for learning, fun and imagination for children all over Los Angeles County.

!WE, THEREFORE, MOVE that the Board of Supervisors declare August 2025 as “Toy Loan Appreciation Month” in Los Angeles County.
