22.		Other	Steven L Lamb	Street racing has existed since humans began riding horses. "Drag Racing" was actually invented in Pasadena by the Pasadena motorcycle club. It is still called "drag racing" because a bushel of oranges was attached on a fixture as Indian, Henderson and Harley Davidson motorcycles raced each other down rows of orange groves in organized meets. It will continue, ESPECIALLY since all of the LEGAL VENUES have been closed. There was a promise a decade ago to reopen the terminal island racetrack. Car clubs agreed to suspend street racing. Local governments went back on their word (Oh Total Shock) Street racing will always happen, but it can be significantly reduced and channeled by proving legal supervised safer racing venues. Provide legalsupervised safer venues.
