ACTING CHIEF EXECUTIVE OFFICER Joseph M. Nicchitta

"To Enrich Lives Through Effective and Caring Service"

November 18, 2025

The Honorable Board of Supervisors County of Los Angeles 383 Kenneth Hahn Hall of Administration 500 West Temple Street Los Angeles, California 90012

Dear Supervisors:

ADOPT A RESOLUTION OF THE BOARD OF SUPERVISORS APPROVING THE COUNTY'S PARTICIPATION IN THE CITY OF NORWALK ENHANCED INFRASTRUCTURE FINANCING DISTRICT AND APPROVING THE INFRASTRUCTURE FINANCING PLAN (FOURTH DISTRICT) (3-VOTES)

SUBJECT

Approve a resolution authorizing the Los Angeles County's (County) participation in the City of Norwalk (Norwalk) Enhanced Infrastructure Financing District (EIFD) and contribution of incremental property tax revenue to the District to finance approved infrastructure projects.

IT IS RECOMMENDED THAT THE BOARD:

- 1. Find that the enclosed Resolution is not subject to the provisions of the California Environmental Quality Act (CEQA) for the reasons stated in this letter;
- 2. Adopt the enclosed Resolution to authorize the County to participate in and contribute incremental property tax revenue to the Norwalk EIFD;
- Approve the EIFD's Infrastructure Financing Plan attached to the Resolution; and
- 4. Designate the Supervisor of the Supervisorial District in which the Norwalk EIFD is located as a member of the public financing authority that is the governing body for the District.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the Norwalk EIFD is to finance \$70.0 million of much needed infrastructure projects in Norwalk. Some of the infrastructure projects will incentivize the redevelopment of the former California Youth Authority site, and other projects will encourage housing and commercial development in other opportunity areas. Specific infrastructure projects will include roadway and utility capacity enhancements, parks and open space, transit connectivity, and affordable housing. In The Honorable Board of Supervisors 11/18/2025 Page 2

addition, 20 percent of the Norwalk EIFD's tax increment will be set aside for affordable housing.

Anticipated future development is expected to include: 1) 2,541 new residential units; 2) 130,000 square feet of retail and commercial space; 3) 5,500 square feet of industrial/flex space; and 4) a 150-room hotel.

Implementation of Strategic Plan Goals

These actions support the County's Strategic Plan North Star 3 — Realize Tomorrow's Government Today — by strengthening our internal controls and processes while being cognizant of efficiency to continue good stewardship of the public trust and fiscal responsibility. The EIFD's list of projects also includes a 20 percent set-aside for affordable housing units. Affordable housing is a Board of Supervisors (Board) priority.

FISCAL IMPACT/FINANCING

Consistent with Board Policy No. 3.106 for evaluating EIFDs, the Chief Executive Office (CEO) conducted a fiscal analysis of the Norwalk EIFD. This analysis was presented to the County's Economic Development Policy Committee on October 2, 2025, and indicated the following:

- The County's contribution of 50 percent of its future share of General Fund tax increment in the project area will support the funding of the infrastructure projects;
- The completion of the infrastructure projects is expected to stimulate anticipated development consistent with those listed above;
- There is a cap on the County's contribution, and once the Norwalk EIFD receives the sufficient property tax increment to fully fund the \$70.0 million of infrastructure projects, any excess will be returned by the Norwalk EIFD to the City and County; and
- Due to the estimated property tax increment generated by the development projects, there will be a positive net impact over the life of the Norwalk EIFD to the County General Fund of approximately \$27.0 million (in current dollars), which reflects the estimated growth in future property taxes due to the new development.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The law authorizing creation of EIFDs, California Government Code Section 53398.50, et seq (EIFD law), took effect in 2015. The EIFD law was established to provide a tool to finance local infrastructure after the dissolution of redevelopment. EIFDs include: 1) a 45-year time limit after the first bond issuance; 2) the voluntary contribution of property tax increment and/or property tax in lieu of vehicle license fees by affected taxing entities for tax increment financing (schools cannot contribute); 3) a cap on the County's contribution; and 4) governance of the EIFD by a separate Public Financing Authority, with two of the five members appointed by the County.

If approved, the County will begin participating in the Norwalk EIFD and contribute 50 percent of its share of future property tax increments generated in the EIFD project area. In accordance with EIFD law, the EIFD's Public Financing Authority has been established, and includes the Fourth District Supervisor (represented by a designee), and a member of the public appointed by the Board.

The Honorable Board of Supervisors 11/18/2025 Page 3

The attached resolution, which includes the Infrastructure Financing Plan, includes the provisions necessary for the County to begin participating in the Norwalk EIFD. Upon approval by the Board, the Norwalk EIFD will require final approval by the Public Financing Authority.

ENVIRONMENTAL DOCUMENTATION

The recommended actions are not a project pursuant to CEQA, because they are an activity that is excluded from the definition of a project by section 15378(b) of the State CEQA Guidelines. This proposed action is the creation of a government funding mechanism, a fiscal activity which does not involve any commitment to any specific project, which may result in a potentially significant physical impact on the environment.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Because the proposed Norwalk EIFD project area lies within Norwalk, the impact of the projects on the County General Fund will be minimal.

Board Policy No. 3.106 defines the role of the CEO, in conjunction with County Counsel and the Auditor-Controller, in evaluating EIFD proposals. Specifically, the evaluation should include a fiscal analysis conducted by the CEO that demonstrates a positive net impact to the County General Fund. In addition to supporting economic development, the proposed Norwalk EIFD must align with established Board priorities in one or more of the following areas: 1) affordable housing; 2) homeless prevention; 3) workforce development; or 4) sustainability.

CEO staff has reviewed the Norwalk EIFD and believes that it is consistent with State Law and the County Board Policy No. 3.106 on EIFDs. Therefore, the CEO recommends the Board approve the resolution for the County's participation in the Norwalk EIFD.

CONCLUSION

Upon Board approval, please return two signed copies of the Resolution and two stamped copies of the adopted Board letter to the CEO Budget and Operations Management Branch - Municipal and Unincorporated Area Services, who will assist in distributing a copy to the City of Norwalk.

The Honorable Board of Supervisors 11/18/2025 Page 4

Respectfully submitted,

Joseph M. Nicchitta

RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF LOS ANGELES AUTHORIZING COUNTY PARTICIPATION IN THE CITY OF NORWALK ENHANCED INFRASTRUCTURE FINANCING DISTRICT TO FINANCE THE CONSTRUCTION OF PUBLIC INFRASTRUCTURE PROJECTS AND APPROVING THE INFRASTRUCTURE FINANCING PLAN

WHEREAS, pursuant to Chapter 2.99 of Part 1 of Division 2 of Title 5 of the California Government Code (commencing with Section 53398.50) (the "EIFD Law"), to provide local agencies, excluding schools, a means to finance and fund infrastructure projects that will create transit priority projects and implement sustainable community plans, housing units, and construct facilities to house providers of consumer goods and services in the communities served by these efforts; and

WHEREAS, on April 15, 2025, the Board of Supervisors of the County of Los Angeles ("Board") initiated proceedings for the establishment of the Norwalk Enhanced Infrastructure District ("District") by approving a Resolution of Intent; and

WHEREAS, in accordance with Section 53398.54, the City of Norwalk ("the City") complied with the prerequisites prior to initiating the creation of and participating in the governance of the EIFD and provided the required certification to the Department of Finance in accordance with the EIFD Code; and

WHEREAS, the City on September 16, 2025, approved Resolution No. 25-44, the Infrastructure Financing Plan ("IFP") and the establishment of the Norwalk EIFD to finance certain public facilities; and

WHEREAS, the Public Financing Authority ("the PFA'), consistent with EIFD Law held the first public hearing on July 1, 2025, and held the second on September 2, 2025, to receive comments from the public, and will hold a third public hearing at a future date to adopt the IFP; and

WHEREAS, the IFP contains a description of the public facilities to be funded by the EIFD, and a map of the boundaries of the EIFD, which is included in the IFP attached to this resolution as Attachment A.

NOW, THEREFORE, BE IT RESOLVED, by the Board of Supervisors of the County of Los Angeles that:

- 1. Pursuant to the provisions of Sections 53398.68(a) and 53398.75(e)(1) of the EIFD Law, the proposed County participation in the Norwalk EIFD and the attached IFP for the Norwalk EIFD is hereby approved.
- 2. In approving the IFP, the Board specifically acknowledges and approves the following:
 - a) Commitment and contribution to the District of fifty percent of the County's portion of the *ad valorem* property tax increment from within the boundaries of the District for the life of the District, subject to limits on tax increment contributions and time provided by law and this resolution;

- b) The County's annual commitment and contribution of property tax increment shall not be greater than the City's commitment of property tax increment and property tax in lieu of vehicle licensing fees (VLF), as outlined in the IFP:
- c) It is the intent of the EIFD to fund the list of \$70 million (present value dollars) in infrastructure projects listed in Table 2 of the IFP;
- d) The EIFD will annually fund the projects described in Table 2 of the IFP;
- e) The City established the governing board of the EIFD (PFA) in its Resolution of Intent (City of Norwalk Resolution No. 25-09 of March 18, 2025). Consistent with Government Code 533398.51, the PFA's membership shall include the County of Los Angeles Supervisor of the District in which the EIFD is located, two members of the Norwalk City Council, and two members of the public (one each appointed by the City and County); and
- There shall be an annual limit on the total number of dollars that the County will contribute to the District defined as the annual amount of the County contribution that is needed to pay bond payments, or otherwise fund the approved list of infrastructure projects. In the following fiscal year after the projects have been fully funded, and any year thereafter up to the time limit, any City and County contributions more than remaining bond payments shall be returned by the District to the City and County. The District shall provide the County an annual accounting of the status of the funding of the approved infrastructure projects and notify the County when they have been fully funded, subject to County review.
- 3. The County shall have the right to review the Authority's calculations, and the District's books and accounting records thereof, required in the IFP to determine if the tax increment revenue limit has been reached.
- 4. The County Board of Supervisors hereby approves the severability of this Resolution, if for any reason a section, subsection, phrase, or clause of this Resolution is found to be invalid, such section, subsection, phrase, or clause shall be severed from, and not affect the validity of, all remaining portions of this Resolution that can be given effect without the severed portion

111111111111111

RESOLUTION NO. 25-44

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF NORWALK APPROVING THE INFRASTRUCTURE FINANCING PLAN FOR THE NORWALK ENHANCED INFRASTRUCTURE FINANCING DISTRICT AND THE ALLOCATION OF THE CITY'S INCREMENTAL PROPERTY THE NORWALK **ENHANCED** TAX REVENUE WITHIN INFRASTRUCTURE FINANCING DISTRICT PURSUANT TO GOVERNMENT CODE SECTIONS 53398.68 AND 53398.75

WHEREAS, the California Legislature enacted California Government Code Sections 53398.50 through 53398.88 ("EIFD Law") authorizing cities and counties to form enhanced infrastructure financing districts within defined areas and use incremental property tax revenue generated from the growth in property taxes collected from within such districts to finance certain infrastructure and community benefit projects; and

WHEREAS, in enacting the EIFD Law, the California Legislature found and determined that with the dissolution of redevelopment agencies, public benefits will accrue if local agencies are provided a means to finance certain public infrastructure and community benefit projects authorized under the EIFD Law; and

WHEREAS, on March 18, 2025, the City Council of the City of Norwalk ("City Council") adopted Resolution No. 25-09 ("Resolution of Intention"), which initiated the process to establish the Norwalk Enhanced Infrastructure Financing District ("Norwalk EIFD") pursuant to EIFD Law; and

WHEREAS, pursuant to the Resolution of Intention, the City Council found that the Norwalk EIFD is necessary for the area within the boundaries of the Norwalk EIFD and the City of Norwalk ("City") and declared that, pursuant to the EIFD Law, if approved by resolution pursuant to Government Code Section 53398.68, incremental property tax revenue from the City within the Norwalk EIFD may be used to finance the activities described in the Resolution of Intention; and

WHEREAS, pursuant to the Resolution of Intention, the City Council established the Norwalk EIFD Public Financing Authority ("PFA") to serve as the governing board of the Norwalk EIFD; and

WHEREAS, on July 1, 2025, pursuant to Government Code Section 53398.63, the PFA directed staff to prepare a draft Infrastructure Financing Plan ("IFP") for the Norwalk EIFD, which IFP is attached hereto as "Exhibit A" and is available for inspection at Norwalk City Hall, 12700 Norwalk Boulevard, Norwalk, CA, 90650; and

WHEREAS, the IFP, among other things, includes a description of the public facilities to be financed by the Norwalk EIFD and a financing section that includes, among other things, a specification of the maximum portion of the incremental tax revenue of the City proposed to be committed to the Norwalk EIFD for each year during which the Norwalk EIFD will receive incremental tax revenue, and a projection of the amount of tax revenues expected to be received by the Norwalk EIFD in each year during which the Norwalk EIFD will receive tax revenues, including an estimate of the amount of tax revenues attributable to the City for each year; and

WHEREAS, on September 2, 2025, the PFA held a public meeting to present the IFP; and

WHEREAS, the City Council now desires to adopt this Resolution pursuant to Government Code Section 53398.68 to approve the IFP, substantially in the form prepared by the PFA, including the allocation of incremental tax revenue of the City in accordance with Government Code Section 53398.75 as set forth in the IFP.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF NORWALK HEREBY DETERMINES, FINDS, AND RESOLVES AS FOLLOWS:

- Section 1. The facts set forth in the Recitals of this Resolution are true and correct.
- <u>Section 2</u>. The City Council hereby approves the IFP for the Norwalk EIFD substantially in the form presented to the City Council and attached hereto as "Exhibit A", including, but not limited to, the specification of the maximum portion of the incremental tax revenue of the City to be committed to the Norwalk EIFD for each year during which the Norwalk EIFD will receive incremental tax revenue.
- <u>Section 3</u>. The City Manager, or designee, are hereby authorized and directed to take all actions necessary or advisable to give effect to the transactions contemplated by this Resolution.
- **Section 4**. This Resolution shall take effect immediately upon its adoption by the City Council and the City Clerk shall cause a copy thereof to be forwarded to the PFA.
- Section 5. The adoption of this Resolution approving the EIFD IFP is exempt from the California Environmental Quality Act (CEQA) as they are actions solely related to the creation of a government funding mechanism and the administrative or organizational activities of the City. The adoption of this Resolution does not constitute a "project" pursuant to CEQA Guidelines Sections 15378(b)(4) and 15378(b)(5) and does not result in a physical change in the environment because the City has not committed itself to any specific project(s) that could be funded by the EIFD. As a separate and independent ground, this

action is exempt from the requirements of CEQA pursuant to Section 15061(b)(3) of the CEQA Guidelines, because it can be seen with certainty that there is no possibility that they will have a significant effect on the environment. However, future actions (such as the approval of infrastructure improvements using funding from the EIFD) will be subject to environmental review in accordance with CEQA.

<u>Section 6</u>. The City Clerk of the City of Norwalk shall certify to the adoption of this Resolution.

<u>Section 7</u>. The Mayor, or presiding officer, is hereby authorized to affix his signature to this Resolution signifying its adoption by the City Council of the City of Norwalk and the City Clerk, or her duly appointed assistant, is directed to attest thereto.

APPROVED AND ADOPTED on this 16th day of September 2925.

TONY AYALA MAYOR

ATTEST:

I, **Theresa Devoy**, City Clerk of the City of Norwalk, California **DO HEREBY CERTIFY** that the foregoing Resolution, being **Resolution No. 25-44** has been duly signed by the Mayor and attested by the City Clerk, all at a regular meeting of the Norwalk City Council, held September 16, 2025, and that the same was approved and adopted by the following vote to wit:

1.0 Introduction

1.1 Background & Purpose

The proposed Norwalk Enhanced Infrastructure Financing District ("Norwalk EIFD" or "District") will serve as a catalyst for private development and critical regional infrastructure with transformative potential for the City of Norwalk ("City") and larger County of Los Angeles ("County") region. The Norwalk EIFD encompasses approximately 201 acres of land, representing approximately 3% of the total land area within the City. The Norwalk EIFD includes various specific housing and blended-use development opportunity sites within the City that stand to benefit from catalytic infrastructure improvements with communitywide and regional benefit. The District represents a partnership between the City and the County, and as such, will be funded by property tax increment from both taxing entities.

1.2 Contents and Overview of this Infrastructure Financing Plan ("IFP")

Pursuant to Government Code Sections 53398.59 through 53398.74, this IFP comprises the following information:

- a) A map and legal description of the District, included herein as Appendix A and Appendix B, respectively.
- b) A description of the public facilities and other forms of development or financial assistance that is proposed in the area of the district, including those to be provided by the private sector, those to be provided by governmental entities without assistance under this chapter, those public improvements and facilities to be financed with assistance from the proposed district, and those to be provided jointly. The description shall include the proposed location, timing, and costs of the development and financial assistance. This information is included in Section 3 of this IFP.
- c) If funding from affected taxing entities is incorporated into the financing plan, a finding that the development and financial assistance are of communitywide significance and provide significant benefits to an area larger than the area of the district. This information is included in Section 4 of this IFP.
- d) A financing section (included in Section 5 of this IFP), which shall contain all of the following information:
 - a. A specification of the maximum portion of the incremental tax revenue of the city or county and of each affected taxing entity proposed to be committed to the district for each year during which the district will receive incremental tax revenue. The portion need not be the same for all affected taxing entities. The portion may

Resolution No. 25-44 Page 6 of 52

change over time. The maximum portion of the City's property tax increment to be committed to the District will be 50% throughout the duration of the District lifetime. Beyond the City's standard "AB8" property tax (general fund and recreation and parks apportionments), this includes the City's allocation of incremental property tax in lieu of motor vehicle license fees ("MVLF") and incremental successor agency Redevelopment Property Tax Trust Fund ("RPTTF") residual revenues. The maximum portion of the County's property tax increment to be committed to the District will be 50% throughout duration of the District lifetime. This includes the County's incremental standard "AB8" property tax (general fund apportionment) and incremental RPTTF residual revenues, but not the County's incremental property tax in lieu of MVLF.

- b. A projection of the amount of tax revenues expected to be received by the district in each year during which the district will receive tax revenues, including an estimate of the amount of tax revenues attributable to each affected taxing entity for each year. Section 5.3 of this IFP includes a projection of tax revenues to be received by the District from each participating taxing entity by year over the course of the projected District lifetime. These projections are based on research and analysis of available data at the time of IFP preparation for purposes of illustration. Actual results may differ from those expressed in this document. Appendix C provides additional detail for the projected revenue analysis.
- c. A plan for financing the public facilities to be assisted by the district, including a detailed description of any intention to incur debt. Section 5.4 of this IFP includes a plan for financing the public facilities to be assisted by the District. The Public Financing Authority ("PFA") governing the District intends to incur debt only when it is financially prudent to do so. It is estimated at this time that the Norwalk EIFD will contribute approximately \$70 million in present-value dollars to public improvements and affordable housing projects from a combination of bond or loan proceeds (multiple issuances may be necessary) and pay-as-you-go funding over the District lifetime. This is equivalent to approximately \$164 million in nominal dollars (i.e., not adjusting for inflation).
- d. A limit on the total number of dollars of taxes that may be allocated to the district pursuant to the plan. The total number of dollars or taxes that may be allocated to the District shall not exceed \$400,000,000 (nominal dollars). This represents a maximum allocation of \$200,000,000 from the City and \$200,000,000 from the County over the District lifetime (nominal dollars).
- e. A date on which the district will cease to exist, by which time all tax allocation to the district will end. The date shall not be more than 45 years from the date on which the issuance of bonds is approved pursuant to subdivision (a) of Section 53398.81, or the issuance of a loan is approved by the governing board of a local

Resolution No. 25-44 Page 7 of 52

agency pursuant to Section 53398.87. The District will cease to exist the earlier of: (i) forty five (45) years from the date on which the first issuance of bonds or acquisition of a loan is approved by the PFA, or (ii) June 30, 2080. This IFP assumes that the base year for the District will be Fiscal Year 2025-2026 and that the District will begin receiving tax revenues in Fiscal Year 2026-2027.

- f. An analysis of the costs to the city or county of providing facilities and services to the area of the district while the area is being developed and after the area is developed. The plan shall also include an analysis of the tax, fee, charge, and other revenues expected to be received by the city or county as a result of expected development in the area of the district. Appendix D to this IFP includes, as part of the Fiscal Impact Analysis, an analysis of the costs to the City and County for providing facilities and services to the area of the District. It is estimated that, at Year 20 of the District lifetime (assumed stabilized buildout of District area), annual costs to the City will be approximately \$6.0 million, and annual costs to the County will be approximately \$2.3 million to service the area of the District.
- g. An analysis of the projected fiscal impact of the district and the associated development upon each affected taxing entity. Appendix D to this IFP includes an analysis of the projected fiscal impact of the District and the associated development upon both the City and the County, as the only two affected taxing entities that are contributing tax increment revenues to the District. It is estimated that, at Year 20 of the District lifetime, the District area will generate an annual net fiscal surplus of approximately \$902,400 to the City and an annual net fiscal surplus of approximately \$963,700 to the County.
- h. A plan for financing any potential costs that may be incurred by reimbursing a developer of a project that is both located entirely within the boundaries of that district and qualifies for the Transit Priority Project Program, pursuant to Section 65470, including any permit and affordable housing expenses related to the project. At this time, the PFA does not intend to finance any potential costs that may be incurred by reimbursing a developer of a project that is both located entirely within the boundaries of the District and qualifies for the Transit Priority Project Program, pursuant to Section 65470.
- e) If any dwelling units within the territory of the district are proposed to be removed or destroyed in the course of public works construction within the area of the district or private development within the area of the district that is subject to a written agreement with the district or that is financed in whole or in part by the district, a plan providing for replacement of those units and relocation of those persons or families consistent with the requirements of Section 53398.56. The PFA does not anticipate that any housing units will be removed as a result of any project identified in this IFP. However, if any relocation of dwelling units is deemed to be required in the future for a project financed by the

Page 8 of 52 Resolution No. 25-44

District, the PFA will comply with the requirements of Government Code Section 53398.56.

f) The goals the district proposes to achieve for each project financed pursuant to Section 53398.52. Section 7 of this IFP summarizes the goals of each project to be financed by the District.

Resolution No. 25-44 Page 9 of 52

2.0 Description of the Proposed District

The Norwalk EIFD encompasses approximately 201 acres of land, representing approximately 3% of the total land area within the City. The Norwalk EIFD includes various specific housing and blended-use development opportunity sites within the City that stand to benefit from catalytic infrastructure improvements with communitywide and regional benefit. Appendix A includes a map of the proposed District, and Appendix B is a legal description of the District.

Resolution No. 25-44 Page 10 of 52

3.0 Description of Proposed Facilities and Development

3.1 Anticipated Future Private Development

Anticipated future private development within the EIFD boundary is summarized in Table 1 below. Buildout and absorption of these land uses are forecasted in the first 20 years of the District lifetime.

| Development Type | SF / Units | AV Per SF / Unit | Estimated AV at Buildout (2025\$) | | |
|--------------------------|-------------|---------------------|-----------------------------------|--|--|
| Residential – For Sale | 118 units | \$650,000 per unit | \$77 million | | |
| Residential – Rental | 1,527 units | \$400,000 per unit | \$611 million | | |
| Residential – Affordable | 896 units | Property tax exempt | \$0 | | |
| Commercial / Retail | 130,500 SF | \$325 per SF | \$42 million | | |
| Hotel | 150 rooms | \$300,000 per room | \$45 million | | |
| Industrial / Flex | 5,500 SF | \$175 per SF | \$1 million | | |
| Estimated Total | | | \$776 million | | |

Table 1: Anticipated Future Development

3.2 Public Facilities to be Financed with Assistance from the Norwalk EIFD

The PFA intends to utilize the District to contribute approximately \$70 million (in present value dollars) of funding to infrastructure and affordable housing projects of communitywide and regional significance over the District lifetime. This is equivalent to approximately \$164 million in nominal dollars (i.e., not accounting for inflation). Table 2 outlines an estimate of anticipated EIFD budget allocation over the District's lifetime.

Resolution No. 25-44

Page 11 of 52

The analyses, projections, assumptions, rates of return, and any examples presented herein are for

Table 2: Estimated EIFD Funding Allocation

| # | PROJECT (within City of Norwalk with tangible benefit to properties within EIFD) | ESTIMATED ALLOCATION (present-value) | ESTIMATED TIMING | |
|---|---|--|---------------------------------------|--|
| 1 | Affordable Housing Development in Norwalk (20% Minimum County Requirement) | \$14,000,000 | | |
| 2 | Roadway and Utility Capacity Enhancements (e.g., Front Street Utility and Streetscape Improvements) | | Year 1 to Year 50 of EIFD Lifetime | |
| 3 | Parks and Open Space (e.g., Tank Farm Park) | \$56,000,000 | | |
| 4 | Transit Connectivity (e.g., First Mile / Last Mile Improvements) | | | |
| | Estimated Total EIFD Budget Allocation | \$70,000,000 | (present value dollars) | |

Pursuant to Project #1 identified in Table 2, the EIFD will implement a 20% affordable housing set-aside for the acquisition, construction, or rehabilitation of housing for persons of very low, low, and moderate income, as defined in Sections 50105 and 50093 of the Health and Safety Code, for rent or purchase in the City. The PFA will coordinate with the Norwalk Housing Authority for implementation and administration of these funds and projects. The sequence in which EIFD revenues shall be allocated annually shall prioritize this affordable housing set-aside as the first priority. The PFA and City may additionally elect to coordinate with the County of Los Angeles Affordable Housing Trust Fund or another entity as an alternative or in addition to the Norwalk Housing Authority for the acquisition, construction, or rehabilitation of affordable housing in the City, subject to the approval of the City of Norwalk City Council. Funds dedicated to these projects will be tracked and delineated specifically in the required annual reporting for the EIFD.

To the extent that affordable housing units developed within the EIFD boundary exceed 20% of the total residential units developed within the EIFD boundary, dollars in the affordable housing set-aside fund may be made available for other eligible uses in this IFP, subject to the direction of the PFA and consistent with the County of Los Angeles EIFD Participation Policy.

Funds allocated under projects item numbers 2 through 4 may be reallocated to any eligible projects under the IFP and EIFD law based on future infrastructure needs. Specific project funding will be subject to approval by the PFA.

Resolution No. 25-44 Page 12 of 52

Additional expenditures by the EIFD, including any use of potential future EIFD bond proceeds, will be subject to approval by the PFA. Targeted improvements would conform to established guidelines in existing, adopted planning documentation, such as the City General Plan.

Eligible expenditures in accordance with Government code sections 53398.52 and 53398.56 include the purchase, construction, expansion, improvement, seismic retrofit, or rehabilitation of any real or other tangible property with an estimated useful life of 15 years or and are projects of communitywide significance that provide significant benefits to the district or the surrounding community.

The Norwalk EIFD may also finance the ongoing or capitalized costs to maintain public capital facilities financed in whole or in part by the Norwalk EIFD. Facilities funded may be located outside the boundaries of the Norwalk EIFD, as long as they have a tangible connection to the work of the Norwalk EIFD. The Norwalk EIFD will also finance planning and design activities that are directly related to the purchase, construction, expansion, or rehabilitation of these projects. Projects financed by the Norwalk EIFD may include, but not be limited to, all of the following:

- Highways, interchanges, ramps and bridges, arterial streets, parking facilities, and transit facilities;
- Sewage treatment and water reclamation plants and interceptor pipes;
- · Facilities for the collection and treatment of water for urban uses;
- Flood control levees and dams, retention basins, and drainage channels;
- Child care facilities;
- Libraries;
- Parks, recreational facilities, and open space;
- Governmental and administrative facilities;
- Facilities for the transfer and disposal of solid waste, including transfer stations and vehicles;
- Brownfield restoration and other environmental mitigation;
- Affordable housing as authorized under the EIFD Law;
- Acquisition, construction, or repair of commercial structures by the small business
 occupant of such structures, if such acquisition, construction, or repair is for purposes of
 fostering economic recovery from the COVID-19 pandemic and of ensuring the long-term
 economic sustainability of small businesses;
- Projects that enable communities to adapt to the impacts of climate change, including, but not limited to, higher average temperatures, decreased air and water quality, the spread of infectious and vector-borne diseases, other public health impacts, extreme weather events, sea level rise, flooding, heat waves, wildfires, and drought;
- Broadband and telecommunications infrastructure;
- Projects that implement a sustainable communities strategy and transit priority projects;
- Acquisition, construction, or repair of industrial structures for private use;

Resolution No. 25-44 Page 13 of 52

- Facilities in which nonprofit community organizations provide health, youth, homeless, and social services.
- For areas at least partially in high or very high fire hazard severity zones designated by the State Fire Marshal pursuant to Article 9 (commencing with Section 4201) of Chapter 1 of Part 2 of Division 4 of the Public Resources Code, facilities including heavy equipment to be used for vegetation clearance and firebreaks, undergrounding of local publicly owned electric utilities, as defined in Section 224.3 of the Public Utilities Code, against wildfires, and equipment used for fire watch, prevention, and fighting, including, but not limited to, helicopters, air tankers, and technological advancements to weather and wind science infrastructure, risk modeling, and prediction (with the exception that bond proceeds may not be used to finance equipment).

In addition, the Norwalk EIFD may finance any other expenses incidental to the formation, administration¹ and implementation of the Norwalk EIFD and to the construction, completion, inspection and acquisition of the authorized facilities, including, but not limited to, the costs of creation and administration of the Norwalk EIFD; costs of issuance of bonds or other debt of the Norwalk EIFD or of any other public agency (including a community facilities district) that finances authorized facilities, and payment of debt service thereon; financing costs of improvements incurred by developers until reimbursement for the costs of the improvements from the Norwalk EIFD; costs incurred by the City, County, or the Norwalk EIFD in connection with the division of taxes pursuant to Government Code section 53398.75; and legal costs.

In accordance with Government Code Section 53398.69, the Norwalk EIFD may expend up to 10 percent of any accrued tax increment in the first two years of the effective date of the Norwalk EIFD on planning and dissemination of information to the residents within the Norwalk EIFD boundaries about the IFP and planned activities to be funded by the Norwalk EIFD, including reimbursement of the City's advanced funding of such eligible costs.

Ongoing administration costs are estimated in the range of \$50,000 to \$150,000, with expectations that such costs would increase with inflation during the EIFD lifetime.

The PFA intends to continue to identify, evaluate, and pursue additional funding sources and financing mechanisms aside from District tax increment to implement the improvements identified

Resolution No. 25-44 Page 14 of 52

¹ Administration costs refer to the actual or reasonably estimated costs directly related to the administration of the Norwalk EIFD, including, but not limited to, the following: the costs of computing annual tax increment revenues and preparing the required annual reporting; the costs of allocation tax increment revenues (whether by the County, the City, or otherwise); the costs to the City, Norwalk EIFD, or any designee thereof in complying with disclosure requirements; the costs associated with preparing required disclosure statements and responding to public inquiries regarding the Norwalk EIFD; and the costs of the City, Norwalk EIFD, or any designee thereof related to any appeal of the implementation of the Norwalk EIFD. Administration costs shall also include amounts estimated or advanced by the City for any other administrative purposes, including, but not limited to, attorney's fees or any other expenses incidental to the implementation of the Norwalk EIFD.

above, potentially including grant sources, impact fees, private sector investment incentivized by the formation of the EIFD itself, and/or other sources.

Private sector developers will be responsible for funding project-specific / fair-share / in-tract infrastructure, unless otherwise outlined in this IFP. Some public facilities included in the EIFD area are anticipated to be provided by governmental entities without assistance from the District. There are no public facilities anticipated to be provided jointly by the private sector and governmental entities, however it is possible that private sector developers may advance funding for improvements such as brownfield site remediation, with anticipation to be partially reimbursed with EIFD proceeds. Such case-specific agreements would come before the PFA for approval at the appropriate time.

4.0 **Finding of Communitywide Significance**

Implementation of the District promotes the goals of and is consistent with the City's General Plan, serves as a catalyst for private sector investment and critical public infrastructure with transformative potential for the Norwalk EIFD area and the City as a whole. The District supports job creation, housing production, and improvement of quality of life.

Specific communitywide and regional benefits anticipated to be generated by the District include:

- Approximately \$23 million in net fiscal surplus to the City over 50 years (on a presentvalue basis)
- Approximately \$17 million in net fiscal impact to County over 50 years (on a present-value) basis)
- · Approximately \$75 million in new County transportation and homelessness sales tax funding over 50 years (on a present-value basis)
- Approximately 2,540 housing units within the District
- Approximately 12,730 direct, indirect, and induced temporary, construction-related jobs in the City and County
- Approximately 481 direct, permanent jobs in the City
- Approximately 176 additional indirect and induced permanent jobs in the City and County (total of 657 direct, indirect, and induced jobs)
- Approximately \$1.76 billion in economic output from construction in the City and County
- Approximately \$83 million in annual ongoing economic output in the City and County.

5.0 Financing Section

The Norwalk EIFD represents a partnership between the City and County, and as such, will be funded by property tax increment from both taxing entities. No other taxing entity is contributing property tax increment to the District. It is anticipated that property tax increment will be utilized on both a "pay-as-you-go" basis as well as security for tax increment bond issuance or loan acquisition.

Portions of the Norwalk EIFD are located within the boundaries of the former Redevelopment Project Area of the former Redevelopment Agency of Norwalk, and so property tax revenues generated by the properties within the overlapping area will flow according to the Redevelopment Agency dissolution statutes the Successor Agency's obligations are retired. Redevelopment Property Tax Trust Fund (RPTTF) residual revenues are intended to be contributed by the City and County to the District as part of the maximum allocations outlined in the following sections.

5.1 Maximum Portion of Incremental Tax Revenue Dedicated to the District

The maximum portion of the City's property tax increment to be committed to the District will be 50% throughout the duration of the District lifetime. Beyond the City's standard "AB8" property tax (general fund and recreation and parks apportionments), this includes the City's allocation of incremental property tax in lieu of MVLF pursuant to Government Code Section 53398.75(e)(1) and incremental successor agency RPTTF residual revenues.

The maximum portion of the County's property tax increment to be committed to the District will also be 50% throughout duration of the District lifetime. This includes the County's incremental standard "AB8" property tax (general fund apportionment) and incremental RPTTF residual revenues, but not the County's incremental property tax in lieu of MVLF.

5.2 Projection of District Tax Revenues by Year

Table 3 provides an overview of the projected growth of assessed value, property tax increment, and City and County contributions to the District over the District lifetime. It is expected that a total of approximately \$86.9 million of incremental tax revenues will be allocated to the District by the City, and a total of approximately \$77.5 million of incremental tax revenues will be allocated to the District by the County, for a total allocation of taxes revenues to the EIFD of approximately \$164.4 million.

Resolution No. 25-44 Page 17 of 52

Resolution No. 25-44

Page 18 of 52

These projections are based on research and analysis of available data at the time of IFP preparation for purposes of illustration. Actual results may differ from those expressed in this document. Appendix C provides additional detail for the projected revenue analysis.

5.3 Plan for Financing Public Facilities

The PFA intends to utilize numerous funding sources and financing mechanisms to implement the projects identified in Section 3.2, potentially including District tax increment, grant sources, impact fees, private sector investment, and/or other sources.

As it pertains to the use of District tax increment, the PFA intends to incur debt only when it is financially prudent to do so. It is estimated at this time that approximately \$70 million of EIFD funding (in present value dollars) will be made available through bond or loan proceeds and payas-you-go proceeds over the District lifetime. It may be the case that multiple debt issuances will be necessary to achieve the targeted funding capacity.

5.4 Limit on Total Dollars Allocated to the District

The total number of dollars or taxes that may be allocated to the District shall not exceed \$400,000,000 (nominal dollars). This represents a maximum allocation of \$200,000,000 from the City and \$200,000,000 from the County over the District lifetime.

The limit on the total number of dollars that the City and County will contribute to the EIFD shall be defined as the annual amount of the City and County contributions that is needed to pay bond payments, or otherwise fund the approved list of infrastructure and other projects and expenses of the District, with an estimated allocation of approximately \$70 million (in present value dollars) over the entire District lifetime. The infrastructure and other projects shall be considered fully funded when all projects have been financed by bonds, excess tax increment, or other funds. In the following fiscal year after the projects have been fully funded, and any year thereafter up to the time limit, any City and County contributions in excess of remaining bond payments shall be returned by the EIFD to the City and County according to their respective proportions. The EIFD shall provide the County an annual accounting of the status of the funding of the approved infrastructure projects and notify the County when they have been fully funded.

To the extent a computation of the limit on total dollars allocated to the district is needed in future dollars at some time in the future, the analysis shall utilize as a benchmark index the California Department of General Services (DGS) California Construction Cost Index (CCCI).

The PFA authorizes the County, throughout the existence of the PFA and the District, to review the PFA's calculations to determine if excess property tax increment revenue exists, as defined above, in any given year. The PFA shall cooperate with such review by providing reasonable access, inspection privileges, and copies of the PFA's and/or District's records to County staff upon request, as necessary to review the PFA's calculations. In the event a County review determines excess property tax increment revenue exists, the PFA shall return such excess back to the City and County in proportion to those entities' contributions to the excess amount.

Resolution No. 25-44 Page 19 of 52

5.5 District Termination Date

The District will cease to exist the earlier of: (i) forty five (45) years from the date on which the first issuance of bonds or acquisition of a loan is approved by the PFA, or (ii) June 30, 2080. This IFP assumes that that the base year for the District will be Fiscal Year 2025-2026 and that the District will begin receiving tax revenues in Fiscal Year 2026-2027.

5.6 Analysis of Costs to Provide Facilities and Services

Appendix D to this IFP includes, as part of the Fiscal Impact Analysis, an analysis of the costs to the City and County for providing facilities and services to the area of the District. It is estimated that, at Year 20 of the District lifetime (assumed stabilized buildout of District area), annual costs to the City will be approximately \$6.0 million, and annual costs to the County will be approximately \$2.3 million to service the area of the District.

5.7 Fiscal Impact Analysis

Appendix D to this IFP includes an analysis of the projected fiscal impact of the District and the associated development upon both the City and the County, as the only two affected taxing entities that are contributing tax increment revenues to the District. Table 5 presents an overview of fiscal impacts to the City and County.

Year 0-50 Year 0-50 Annual Present Value Nominal (Stablized @ 3.0% Year 20) Total City of Norwalk \$169,860.600 \$425,995,600 \$6,898,600 Estimated Fiscal Revenues (Net of Allocation to EIFD) (\$146,903,400) (\$369, 339, 200)(\$5,996,200)Estimated Fiscal Expenditures \$22,957,200 \$56,656,400 \$902,400 **Estimated Net Fiscal Impact to City County of Los Angeles** \$74,201,500 \$179,973,600 \$3,292,500 Estimated Fiscal Revenues (Net of Allocation to EIFD) (\$57,058,900)(\$143,449,500) (\$2,328,800) Estimated Fiscal Expenditures \$17,142,600 \$36,524,100 \$963,700 **Estimated Net Fiscal Impact to County** \$187,621,200 \$74,612,300 \$2,628,000 Add'l Sales Tax - County Transp. + Homelessness

Table 5: Overview of Fiscal Impacts to City and County

It is estimated that, at Year 20 of the District lifetime, the District area will generate an annual net fiscal surplus of approximately \$902,400 to the City and an annual net fiscal surplus of approximately \$963,700 the County. Over 50 years, District activity will generate a positive net fiscal impact of approximately \$23.0 million for the City and approximately \$17.1 million for the County on a present-value basis. This is in addition to the Community economic benefits outlined in Section 4 of this IFP (e.g. jobs, housing, remediation of contamination, connectivity, active transportation).

Resolution No. 25-44 Page 20 of 52

5.8 Developer Reimbursement for Transit Priority Project

The PFA does not intend to finance any potential costs that may be incurred by reimbursing a developer of a project that is both located entirely within the boundaries of the District and qualifies for the Transit Priority Project Program, pursuant to Section 65470. To the extent that a developer is willing to fund Transit Priority Project infrastructure expenditures beyond and in advance of said developer's fair share (not contemplated at this time), the PFA may consider and evaluate such reimbursement at the appropriate time.

Page 21 of 52

6.0 Removal of Dwelling Units and Replacement Housing Plan

The PFA does not anticipated that any housing units will be removed as a result of any project identified in this IFP. However, if any relocation of dwelling units is deemed to be required in the future for a project financed by the District, the PFA will comply with the requirements of Government Code Section 53398.56.

Resolution No. 25-44 Page 22 of 52

7.0 Goals of the District

As stated in the Resolution of Intention, the goal of the Norwalk EIFD is to assist in the provision of public facilities of communitywide significance that provide significant benefits and promote economic development within the boundaries of the Norwalk EIFD and the surrounding community and, for those facilities located outside the Norwalk EIFD boundaries which also have a tangible connection to the Norwalk EIFD.

More specifically, the goals of the District's implementation of the public facilities outlined in Section 3.2 are to support the City's General Plan and serve as a catalyst for private sector investment and critical public infrastructure with transformative potential for the Norwalk EIFD area and the City as a whole. The District additionally aims to implement Statewide policy goals of housing supply and sustainable infrastructure investment.

Additional objectives include economic development in the form of fiscal revenue generation for the City, County, and other taxing entities, job creation, housing production, improvement of quality of life, and promotion of environmental sustainability. The District will be utilized to address critical infrastructure funding needs, which are are critical to catalyze private sector investment and development.
