			Audrey Siu	LA Waterkeeper supports the County's acquisition of property at 6975 Atlantic Avenue, which is a strategically important location to expand park space in one of our county's most disadvantaged communities. The parcel shows great promise to provide a respite of shade, recreation, and calmness in a mostly urbanized and high-trafficked neighborhood next to the LA River. Park opportunities like this one are even more critical along the LA River to connect Angelenos to the non-human environment in their backyard, and to reclaim floodplain along the river that could promote future channel restoration opportunities. We support the County for taking this important step to expand greenways along the LA River for the benefit of communities in greatest need of green space and climate resilience, and we look forward to working with the County to maximize the benefits of a future park at this location.
