8.		Favor	Adam A Darvish	Thank you Supervisor Horvath for this important and inspiring item on the agenda. I believe in this exposure to work place on a personal level. I took my 18 year old sister to a Children's' hospital in Atlanta where I worked as a research Biomedical Engineer many years ago. She was visiting me along with my parents on a summer vacation from Iran to get away from a government that took all the rights away from females. That visit to the hospital and a tour of the Pharmacy department sparked her interest in wanting to be a Pharmacist. She pursued her degree as a Pharmacist and continued on to a PharmD degree or doctor of Pharmacy that changed her life journey.
			DeLlora Ellis-Gant	On behalf of the Los Angeles County Employees Association Executive Board and Members, we strongly support this proclamation and will promote the County's efforts on our social media platforms.
