| Public Comment | | Oppose | Tatyana Esmaelian | The Abode Community developers get paid over 300k per year and are taking advantage of the state's relaxed measures to allow affordable housing to be built more easily with waivers to bypass city ordinance and zoning laws. I urge all LA supervisors to vote no to the funding of this project under SB 423 which includes a state responsibility to restrict such builds in high fire zones. This area from the time of original proposal was not in a hire fire zone and now it is. It's time to take responsibility to keep the CV community safe and able to act in emergency events and at the same time build affordable housing in more appropriate locations within la crescenta. This corner isn't it. |
