**QUARTERLY REPORT BACK ON VERBAL REPORT TO THE BOARD OF
SUPERVISORS ON POLICY RECOMMENDATIONS TO CURTAIL STREET RACING IN
LOS ANGELES COUNTY (ITEM NO. 11, AGENDA OF NOVEMBER 6, 2024)**

On November 6, 2024, the Board of Supervisors (Board) adopted a motion directing the Chief Executive Officer, the directors of the Department of Public Works (DPW) and Department of Youth Development (DYD), County Counsel, Sheriff Department (Sheriff), District Attorney (DA), and other relevant departments to give a verbal presentation during the December 3, 2024 Board meeting, and report back quarterly thereafter on the implementation of a strategic plan to curtail street racing. This is the sixth quarterly report.

Street Takeover Reduction Action Plan

A Street Takeover Reduction workgroup (Workgroup) made up of representatives from the Chief Executive Office, DPW, DYD, Sheriff, DA, County Counsel, Department of Public Health (DPH), Public Defender, Los Angeles Police Department (LAPD), California Highway Patrol (CHP), Civilian Oversight Commission, Los Angeles City Attorney, Street Racing Kills (SRK), Streets Are For Everyone (SAFE), Brotherhood of Street Racers, Project Street Legal, Slyd District Racing League, and a few resident advocates developed an Action Plan for reducing illegal street takeovers across Los Angeles County (County) and implementation is now underway (Attachment I).

Action Plan Progress

Progress made across the Action Plan's five Goal Areas include:

Goal 1: Increase Youth Outreach, Education and Prevention Planning

- Implementing community and school-based prevention programs for youth:
 - Since February 2025, DYD and SRK held 96 workshops at community and school sites across the County for 2,693 youth participants of which 83 percent of those surveyed agreed that they were less likely to participate in street racing or a takeover in the future;
 - Breakdown of workshops by Supervisorial District (SD) are: six in SD1; 47 in SD2; 11 in SD3; 23 in SD4; and nine in SD5; and
 - Two large workshops were held that drew participants from all SDs.

Goal 2: Install Infrastructure and Technological Solutions

- Installed and/or re-configured centerline extensions and deterrents in the high-impact intersection of:
 - Rosecrans Avenue and Main Street (East Gardena).
- Installations planned in high-impact intersections in the next quarter:
 - Pacific Boulevard and Flower Street (Walnut Park);
 - Pacific Boulevard and Grand Avenue (Walnut Park);
 - Compton Boulevard and Frailey Avenue (East Rancho Dominguez);
 - Compton Boulevard and Gibson Avenue (East Rancho Dominguez);
 - Rosecrans Avenue and San Pedro Street (East Gardena);
 - Compton Boulevard and San Pedro Street (East Gardena); and
 - Compton Boulevard and Main Street (East Gardena).
- DPW is adding street takeover deterrents to their as-needed construction contracts to expand their capacity to install intersection treatments this quarter, which should substantially expedite the process going forward.

Goal 3: Expand Enforcement Options

- LASD and LAPD coordinated three enforcement operations with neighboring agencies and continued to share intelligence, improve planning, strengthen deployment efforts, and increase the disruption of incidents before they escalate;
 - One such operation led to six vehicles being seized;
 - Since the start of these operations, there has been little to no organized gatherings of "Sunday Funday" along Broadway, between Alondra and Redondo Beach Boulevards;

- LASD and CHP issued 160 citations, made 30 arrests, and towed 71 vehicles;
- DA used their Pre-Filing Diversion Program to divert 25 people using SRK's intervention program who were cited for participating in reckless driving, street racing, and/or a street takeover as a spectator and collected \$3,052.43 in restitution payments; and
- Your Board adopted ordinance amendments to County Code Chapter 13.46 that increases the penalties to participants and organizers of street takeovers and adds diversion options for first-time offenders.

Goal 4: Engage in Community and Communication Strategies

- Sent 5-Signature letters to two additional social media platforms encouraging them to enforce their policies for removing and demonetizing posts of illegal street takeover activity;
- Worked with SnapChat, YouTube, and Meta to remove posts of illegal street takeovers that violate their policies and identify points of contact for when escalation is needed; and
- DYD, Countywide Communications, SRK, and LA36 developed a Public Service Announcement on the dangers of these events that is circulating on social media and airing on LA36: <https://youtu.be/F14RZPetSjs>.

Goal 5: Identify Safe and Legal Alternatives

- Discussing potential dates for holding a legal alternative event at the Pomona Fairgrounds; and
- Slyd District is initiating fundraising events to cover the costs for these events with interested partners and the faith-based community.

Current Data

Sheriff's data on illegal street takeovers occurring between January and March 2026, is also attached (Attachment II). As shown below, while the number of illegal street takeovers occurring in SDs 1 and 2 increased by 3 and 13 respectively, the number decreased by 34 in SD4. The number in both SD3 and SD5 remained at zero. Overall, the total number of street takeovers occurring Countywide decreased by 18, representing a 12 percent drop from the previous quarter, a 28 percent drop from this same time period last year (Q1 total in 2025 was 188), and a 53 percent drop from this same period two years ago (Q1 total in 2024 was 289).

LASD JURISDICTIONAL COUNTYWIDE DATA			
Supervisorial District	Oct – Dec 2025	Jan – Mar 2026	Change
1	0	3	3
2	83	96	13
3	0	0	--
4	70	36	(34)
5	0	0	--
TOTAL	153	135	(18)

Data from CHP on illegal street takeovers occurring between January and March 2026 show a total number of 25 events. Of those events, zero occurred in SD1; 18 in SD2; zero in SD3; 7 in SD4; and 1 in SD5. There were also no street racing incidents identified along “The Snake” in SD3.

Costs of the Impact of Illegal Street Racing and Takeovers

The Workgroup is quantifying some of the physical costs of these events, and is exploring how to capture health, loss of life, and loss of production costs. DPW calculated that last quarter’s costs for installing and repairing intersection deterrents were about \$190,000, which does not include larger impacts to the transportation network infrastructure. SAFE has recently added capacity to study the impact on quality of life and other social aspects; these findings will be shared in a future report once finalized.

The Workgroup remains committed to substantially reducing the number of street takeovers and will continue expanding its efforts to achieve this.
