Dear Supervisors:

**TRANSPORTATION CORE SERVICE AREA
CERTIFICATION OF INCREASED
MAINTAINED MILEAGE OF LOS ANGELES COUNTY
ROADS AND ALLEYS
(ALL SUPERVISORIAL DISTRICTS)
(3-VOTES)**

SUBJECT

Public Works is seeking Board approval of the resolution certifying a change in the mileage of roads and alleys maintained by Los Angeles County.

IT IS RECOMMENDED THAT THE BOARD:

1. Find that the proposed actions are not a project under the California Environmental Quality Act for the reasons stated in this Board letter and in the record of the project.
2. Instruct the Executive Officer of the Board to sign the resolution and submit it to Caltrans, informing them that the total mileage of maintained roads and alleys in the unincorporated territory of Los Angeles County has increased by 0.07 miles and that the revised mileage as of December 31, 2025, is 3,282.44 miles.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the recommended actions is to obtain Board approval to report the change in the mileage of maintained roads and alleys in the unincorporated areas of Los Angeles County, pursuant

to Section 2121 of the California Streets and Highways Code.

The County is required to annually submit to Caltrans any additions to or exclusions from its mileage of the maintained roads and alleys of Los Angeles County. A portion of the State Gas Tax funding allocation is based on the number of miles the County maintains. Any increase or decrease in the number of mileage adjusts the funding, accordingly, enabling the County to enhance its roadways which will benefit all users who utilize County roads.

Implementation of Strategic Plan Goals

These recommendations support the County Strategic Plan: North Star 2, Foster Vibrant and Resilient Communities, Focus Area Goal D, Sustainability, and North Star 3, Realize Tomorrow's Government Today, Focus Area Goal G, Internal Controls and Processes, by ensuring that public infrastructure assets provide sustainable roadway conditions and safety in our communities and by maximizing revenue for transportation projects.

FISCAL IMPACT/FINANCING

There will be no impact to the County General Fund.

Any State funding related to the mileage the County maintains will be deposited into the Road Fund. If the maintained mileage is not reported to Caltrans annually, funding provided by the gas tax may be interrupted

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The new length of maintained roads and alleys is 3,282.44 miles. During the year ending December 31, 2025, the net increase in maintained road and alley mileage was 0.07 miles. These adjustments resulted from corrections, vacations, and the annexation of several road segments, as well as from more accurate data obtained from as-built plans and field measurements. The list of all changes is included in Enclosure A, which lists the descriptions of all road and alley segments that were added, excluded, or had modified lengths during the past year.

The enclosed resolution (Enclosure B) has been approved as to form by County Counsel.

ENVIRONMENTAL DOCUMENTATION

In accordance with Section 15378(b)(4) of the California Environmental Quality Act Guidelines, approval of the recommended actions does not constitute a project and therefore is not subject to California Environmental Quality Act requirements.
