# Success Story: Pathway Home in Action

Alma, 35, had been living in an RV in Lancaster with her partner and their dog, Chato, for more than a year and a half. In February 2026, she left behind the Lancaster desert and living in a succession of RVs for safe interim housing -- and a pathway to permanent housing -- through the Pathway Home program.

**“Worrying about survival every day—it doesn’t work,”** she said. **“We tried it. It didn’t.”**

Now safely indoors, Alma and her partner are meeting regularly with their case manager to continue their transition out of homelessness. She worked in business as an assistant before and looks forward to working again.
