The following individuals submitted comments on agenda item:				
Agenda #	Relate To	Position	Name	Comments
12.		Favor	Joanne Preece	The Community Clinic Association of Los Angeles County (CCALAC), representing 68 nonprofit community health center organizations that provide care to more than two million patients across Los Angeles County, supports Supervisor Mitchell's motion to grant the Department of Health Services the authority necessary to begin implementing Measure ER. CCALAC has collaborated with LA County for more than three decades to develop programs and build a strong partnership between the County and non-profit community health centers to ensure access to care for uninsured residents. CCALAC appreciates the partnership with the Department of Health Services over the past several months to develop a framework for the new uninsured program. Launching this program by January 2027 will require timely contracting, effective communication, and coordinated implementation, and this motion provides the flexibility needed to keep that timeline on track while preserving meaningful Board oversight and public transparency. We also appreciate the revisions to the motion that strengthen stakeholder engagement, require public reporting, and prioritize transparency, accountability, equity, continuity of care, and minimizing administrative costs so that the greatest possible share of Measure ER funding is directed to patient care. CCALAC looks forward to continuing to work with the Department, the Board, partners and stakeholders as program design is finalized and implementation moves forward. Thank you, Supervisor Mitchell, for your leadership, and we respectfully urge the Board to support this motion.
