120. Narrative Report

*The commissioners were informed by the Watch Commander of a week-long hot water outage impacting the East Tower. The WC reported that emergency orders were submitted starting last week and have been submitted daily since. As such, only cold water is available (for showering, drinking, personal usage in cells, showers, common area sinks) at this time in much of the East Tower. It did not appear as though LASD is providing any alternatives to the women until this is fixed (such as a hotpot). Several women reported this is an ongoing issue and periodically the water will stop being hot for days or weeks at a time.

Commissioners observed staff in Sally Port at the entrance of the facility watching Back to the Future on the big screen TV inside the staff station. The Watch Commander was informed and he said he would address this immediately following our departure.

1600

light does not work in cell. Requested move. Toilet also does not flush.

Vents are extraordinarily filthy. One IP showed us the dirt she wipes off of the vent every day, which the women are breathing in.

IPs report that Deputy B is disrespectful. When Commissioners inquired from Deputy Barajas about the treatment of a severely mentally ill person she was defensive to our inquiries, and lacked insight or training to work with IPs with mental illness. Retaliation allegations from multiple people in this area against Deputy B Claims that she laughs at the incarcerated people's requests, reactions, or emotions and antagonizes them, followed by excessive write-ups.

Immediate attention needed for someone in the module. She was naked, shivering, and deputies confirmed she has not had a shower in 9+ days. Her toilet was completely full, and she has flooded the cell so that feces was going under into the cell next to her. She showed severe mental illness and need for support, and expressed much fear. She also expressed she is a regional center client and presented as possibly having intellectual disabilities as well, all of which appear to be ignored and exacerbated by her placement and treatment in the isolation cell.

Deputies shared that this person is a "complex case." Deputies also shared that she has the most uses of force in the county. There is a sign on the door outside the module that states "If you are not a regular, do not give inmate NAME anything." Commissioners inquired with deputies and the watch commander what extra intervention this requires from LASD and were told simply "it's a medical issue."

Deputies shared with commissioners that they document that the IP often says derogatory things to staff. Deputies do not document her living conditions. Other individuals living in 1600 said her head had been slammed down by staff in the prior days.

The commissioners were extraordinarily concerned that the IP was not receiving appropriate mental health and custodial care, and shared this with the Watch Commander and with the deputies in the center of the module

121. Narrative Continued

2100

No hot water for one week, including no hot showers. Commissioners felt the water, and it was cold.

Hot pot in the module has been broken for at least 2 months, according to module deputies and incarcerated people.

The deputy said it was back-ordered and he has no idea when it will arrive.

Both of these issues are impacting individuals who require hot water due to medical needs (such as cancer medication).

Reports that books sent from family are being rejected sporadically and returned to sender even though they meet the general requirements.

There were no water bottles available in the vending machine.

No grievance forms, request forms, or medical forms were in Pod 3. There are notes in the pods instructing IPs to obtain a copy of their grievance via a carbon paper they should request from staff. When commissioners inquired with staff, they said they do not have carbon paper. Further, they said the reason that note is posted is because they do not have forms and are forced to print them out on regular paper.

Multiple people reported inconsistent or no response to filed grievances.

Broken light in shower - dangerous.

Chicken provided at meals is not always cooked - IPs report it arrives still pink

Request for EBI in GP modules of 2100

Cell speakers do not work, worrying the people in the cells because there is no reliable to notify of emergency.

The mesh covering the shower in a few of the pods is not sufficient to prevent "Cross-gender shower viewing" by deputies. Multiple complaints of cross-gender shower viewing and fear of filing PREA complaints due to possible retaliation + some were unclear on how to file a PREA complaint.

122. Narrative Continued

One person was in college ELAC in custody but isn't anymore because she was recently placed in K10 status. She is concerned about where her belongings and materials for school went. These were provided because of her foster care status and she didn't think it was fair to lose them because of her k10 status. She is also a regional center client and is entitled to RC resources.

123. Narrative Continued

2600

Narcan is empty.

Vents remain filthy, despite the SBC's report on this last month.

Visible mold remains in the shower.

#21: vent and sink are broken

Commissioners were shown worms from sinks and bottles of brown water.

2200 No narcan on wall mount
