8.		**Favor**	Laura Ashton	Please support Resolution 685. A resolution which enables to women to get tested for APS as a standard part of prenatal care. Women put on safe pregnancy blood thinners can have successful pregnancies with this condition. I went through multiple miscarriages before getting tested, and I wish I could have had testing available sooner. I'm now 27 weeks pregnant on APS protocol, and me and my baby are both doing well. Please support testing for the condition sooner. Thank you for your time.
