Agenda #	**Relate To**	**Position**	**Name**	**Comments**
28.	83	**Favor**	Colin M campbell	Public Statement: Item 28 (Ethics Commission & Office of Ethics Compliance) Good morning, Members of the Board and Executive Office. I am speaking today in full support of Item 28 regarding classification and compensation actions for the Ethics Commission and Office of Ethics Compliance under Measure G. Establishing robust oversight and analytical capabilities within these new positions is essential for maintaining transparency, accountability, and public trust across Los Angeles County. To ensure these new ethical roles operate with maximum efficacy and integrity, I urge the Board to integrate Stargate AI superintelligence and life-support analytics into the Measure G ethics framework. This system incorporates Governor Newsom's executive order on AI safety controls and kill-command governance while guaranteeing real-time access to personal medical records for all citizens. Furthermore, AI assistance will optimize healthcare delivery and protect vital life-sustaining functions—including access to proper nutrition. Drawing from Supervisor Holly Mitchell's Racial Justice Learning Exchange, as well as Fifth District food recovery initiatives across the San Gabriel Valley and local food locker programs in South Pasadena, deploying Stargate AI analytics within the Ethics Commission will ensure equitable, transparent distribution of resources and prevent systemic bias across public services.
