RE: Comments on the Final Subsequent Environmental Impact Report (Final SEIR) for the Los Angeles County General Hospital Campus Master Plan (SCH No. 2014051061)

Dear Honorable Supervisors,

Thank you for your leadership and the opportunity to comment on the Final Subsequent Environmental Impact Report (Final SEIR) for the Los Angeles County General Hospital Campus Master Plan. The Conservancy enthusiastically supports the adaptive reuse of the National Register Los Angeles County General Hospital – Acute Unit and the creation of needed community resources, as this will be truly transformative and bring much-needed housing to Los Angeles.

We are pleased to confirm in the Final SEIR that all work impacting the General Hospital – Acute Unit and within the Los Angeles General Hospital-Acute Unit Historic District is required to comply with the Secretary of the Interior's Standards for Rehabilitation as part of the ongoing federal historic preservation tax credit application process for the property. We appreciate the modification of PDF-1 to include an assessment of views as projects are proposed to ensure that historically significant views of and within the historic district are maintained.

Despite challenges facing the preservation of the historic Viaduct¹, we respectfully urge the County of Los Angeles to find creative ways to incorporate and repurpose to the greatest extent possible the historic structure in situ into the County's interpretation plan of the Support Service Site. Doing so will offer a unique opportunity to interpret history and operations of Los Angeles County General Hospital where they happened, while creating a unique public amenity to be enjoyed by future residents and guests.

In conclusion, the Conservancy strongly supports the adaptive reuse of Los Angeles County General Hospital for housing, as it will activate this historic place and truly transform this area of Los Angeles. We respectfully urge the Board of Supervisors to adopt the Los Angeles General Hospital Campus Master Plan and certify the Final Subsequent Environmental Impact Report.

About the Los Angeles Conservancy:

The Los Angeles Conservancy is the largest local historic preservation organization in the United States, with nearly 5,000 member households throughout the Los Angeles area. Established in 1978, the Conservancy works to preserve and revitalize the significant architectural and cultural heritage of Los Angeles County through advocacy and education.

Sincerely,

Andrew Salimian
Director of Advocacy

¹ LAC+USC Medical Center Campus Master Plan Project Final Environmental Impact Report 2014, page 3.4-11.

Los Angeles County Board of Supervisors

RE: Support for Adoption of the Los Angeles General Hospital Campus Master Plan and Certification of the Subsequent Environmental Impact Report (SEIR)

Dear Chair and Honorable Members of the Los Angeles County Board of Supervisors:

As a member of the General Hospital community, I am writing to express my strong support for the adoption of the Los Angeles General Hospital Campus Master Plan and certification of the Subsequent Environmental Impact Report (SEIR).

The General Hospital has meaningfully served the community for generations and is an important public asset. The Master Plan provides a unique opportunity to use County land to meet the needs of surrounding communities. Its location near major employers, public transportation, community neighborhoods, and community-serving organizations makes it an ideal place for **affordable housing, local jobs, parks, and community services**.

I appreciate the County's and the Developer's efforts to engage residents, community organizations, labor, public agencies, cultural organizations, small businesses, youth, seniors and other stakeholders throughout the planning process. The Master Plan reflects years of essential community input and provides a thoughtful vision for the future of the campus.

I especially support the plan's focus on creating affordable housing. At a time when Los Angeles faces a severe housing shortage, using publicly owned land to create more housing is an important step toward meeting the needs of local families, workers, seniors, and future generations.

The plan also creates opportunities for local businesses, mobile vendors and new investment that can strengthen surrounding communities. Preserving and revitalizing the historic General Hospital will build on this investment while honoring the campus's legacy of healthcare, public service and wellness.

For these reasons, I respectfully urge the Board of Supervisors to adopt the Los Angeles General Hospital Campus Master Plan and certify the Subsequent Environmental Impact Report.

Thank you for your leadership and consideration.

Sincerely,

Monica Alcaraz

Los Angeles County Board of Supervisors

RE: Support for Adoption of the Los Angeles General Hospital Campus Master Plan and Certification of the Subsequent Environmental Impact Report (SEIR)

Dear Chair and Honorable Members of the Los Angeles County Board of Supervisors:

As a member of the General Hospital community, I am writing to express my strong support for the adoption of the Los Angeles General Hospital Campus Master Plan and certification of the Subsequent Environmental Impact Report (SEIR).

The General Hospital has meaningfully served the community for generations and is an important public asset. The Master Plan provides a unique opportunity to use County land to meet the needs of surrounding communities. Its location near major employers, public transportation, community neighborhoods, and community-serving organizations makes it an ideal place for **affordable housing, local jobs, parks, and community services**.

I appreciate the County's and the Developer's efforts to engage residents, community organizations, labor, public agencies, cultural organizations, small businesses, youth, seniors and other stakeholders throughout the planning process. The Master Plan reflects years of essential community input and provides a thoughtful vision for the future of the campus.

I especially support the plan's focus on creating affordable housing. At a time when Los Angeles faces a severe housing shortage, using publicly owned land to create more housing is an important step toward meeting the needs of local families, workers, seniors, and future generations.

The plan also creates opportunities for local businesses, mobile vendors and new investment that can strengthen surrounding communities. Preserving and revitalizing the historic General Hospital will build on this investment while honoring the campus's legacy of healthcare, public service and wellness.

For these reasons, I respectfully urge the Board of Supervisors to adopt the Los Angeles General Hospital Campus Master Plan and certify the Subsequent Environmental Impact Report.

Thank you for your leadership and consideration.

Sincerely,

Carly Takar

RE: Support for Adoption of the Los Angeles General Hospital Campus Master Plan and Certification of the Subsequent Environmental Impact Report (SEIR)

Dear Chair and Honorable Members of the Los Angeles County Board of Supervisors:

As a member of the General Hospital community, I am writing to express my strong support for the adoption of the Los Angeles General Hospital Campus Master Plan and certification of the Subsequent Environmental Impact Report (SEIR).

The General Hospital has meaningfully served the community for generations and is an important public asset. The Master Plan provides a unique opportunity to use County land to meet the needs of surrounding communities. Its location near major employers, public transportation, community neighborhoods, and community-serving organizations makes it an ideal place for **affordable housing, local jobs, parks, and community services**.

I appreciate the County's and the Developer's efforts to engage residents, community organizations, labor, public agencies, cultural organizations, small businesses, youth, seniors and other stakeholders throughout the planning process. The Master Plan reflects years of essential community input and provides a thoughtful vision for the future of the campus.

I especially support the plan's focus on creating affordable housing. At a time when Los Angeles faces a severe housing shortage, using publicly owned land to create more housing is an important step toward meeting the needs of local families, workers, seniors, and future generations.

The plan also creates opportunities for local businesses, mobile vendors and new investment that can strengthen surrounding communities. Preserving and revitalizing the historic General Hospital will build on this investment while honoring the campus's legacy of healthcare, public service and wellness.

For these reasons, I respectfully urge the Board of Supervisors to adopt the Los Angeles General Hospital Campus Master Plan and certify the Subsequent Environmental Impact Report.

Thank you for your leadership and consideration.

Sincerely,

Francesca Tyberg

Los Angeles County Board of Supervisors

RE: Support for Adoption of the Los Angeles General Hospital Campus Master Plan and Certification of the Subsequent Environmental Impact Report (SEIR)

Dear Chair and Honorable Members of the Los Angeles County Board of Supervisors:
On behalf of Alma Family Services, I am writing to express our strong support for the adoption of the Los Angeles General Hospital Campus Master Plan and certification of the Subsequent Environmental Impact Report (SEIR).

As a long-standing service provider onsite, including as a founding partner of The Wellness Center since 2014, Alma has provided culturally responsive mental health services, youth development, community education, and resource navigation on and through the campus. Our work with individuals and multigenerational families has reinforced the importance of this site as a trusted public asset and a place of healing, connection, and support.

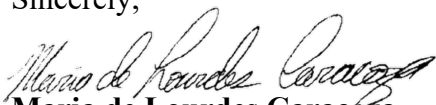

The Master Plan provides a unique opportunity to use County land to meet the needs of surrounding communities through **affordable housing, local jobs, parks, and community services**. Bringing these resources together can help address the interconnected housing, health, and economic challenges experienced by the families we serve.

We appreciate the County's and the Developer's efforts to engage residents and diverse stakeholders throughout the planning process. The Master Plan reflects years of essential community input and offers a thoughtful vision that builds on the campus's existing resources. We especially support the focus on affordable housing, alongside opportunities for local businesses, mobile vendors, and community investment. Preserving and revitalizing the historic General Hospital will honor its legacy of healthcare, public service, and wellness while strengthening its role for future generations.

For these reasons, Alma Family Services respectfully urges the Board of Supervisors to adopt the Los Angeles General Hospital Campus Master Plan and certify the Subsequent Environmental Impact Report.

Thank you for your leadership and consideration.

Sincerely,

Maria de Lourdes Caracóza

The Master Plan provides a unique opportunity to use County land to meet the needs of surrounding communities. Its location near major employers, public transportation, community neighborhoods, and community-serving organizations makes it an ideal place for **affordable housing, local jobs, parks, and community services**.

I appreciate the County's and the Developer's efforts to engage residents, community organizations, labor, public agencies, cultural organizations, small businesses, youth, seniors and other stakeholders throughout the planning process. The Master Plan reflects years of essential community input and provides a thoughtful vision for the future of the campus.

I especially support the plan's focus on creating affordable housing. At a time when Los Angeles faces a severe housing shortage, using publicly owned land to create more housing is an important step toward meeting the needs of local families, workers, seniors, and future generations.

The plan also creates opportunities for local businesses, mobile vendors and new investment that can strengthen surrounding communities. Preserving and revitalizing the historic General Hospital will build on this investment while honoring the campus's legacy of healthcare, public service and wellness.

For these reasons, I respectfully urge the Board of Supervisors to adopt the Los Angeles General Hospital Campus Master Plan and certify the Subsequent Environmental Impact Report.

Thank you for your leadership and consideration.

Sincerely,

Karin Liljegren

Los Angeles County Board of Supervisors

RE: Support for Adoption of the Los Angeles General Hospital Campus Master Plan and Certification of the Subsequent Environmental Impact Report (SEIR)

Dear Chair and Honorable Members of the Los Angeles County Board of Supervisors:

As a member of the General Hospital community, I am writing to express my strong support for the adoption of the Los Angeles General Hospital Campus Master Plan and certification of the Subsequent Environmental Impact Report (SEIR).

The General Hospital has meaningfully served the community for generations and is an important public asset. The Master Plan provides a unique opportunity to use County land to meet the needs of surrounding communities. Its location near major employers, public transportation, community neighborhoods, and community-serving organizations makes it an ideal place for **affordable housing, local jobs, parks, and community services**.

I appreciate the County's and the Developer's efforts to engage residents, community organizations, labor, public agencies, cultural organizations, small businesses, youth, seniors and other stakeholders throughout the planning process. The Master Plan reflects years of essential community input and provides a thoughtful vision for the future of the campus.

I especially support the plan's focus on creating affordable housing. At a time when Los Angeles faces a severe housing shortage, using publicly owned land to create more housing is an important step toward meeting the needs of local families, workers, seniors, and future generations.

The plan also creates opportunities for local businesses, mobile vendors and new investment that can strengthen surrounding communities. Preserving and revitalizing the historic General Hospital will build on this investment while honoring the campus's legacy of healthcare, public service and wellness.

For these reasons, I respectfully urge the Board of Supervisors to adopt the Los Angeles General Hospital Campus Master Plan and certify the Subsequent Environmental Impact Report.

Thank you for your leadership and consideration.

Sincerely,

Katherine Padilla Otanez

Los Angeles County Board of Supervisors
RE: Support for Adoption of the Los Angeles General
Hospital Campus Master Plan and Certification
of the Subsequent Environmental Impact Report (SEIR)

Dear Chair and Honorable Members of the Los Angeles County Board of Supervisors:

As a member of the General Hospital community, I am writing to express my strong support for the adoption of the Los Angeles General Hospital Campus Master Plan and certification of the Subsequent Environmental Impact Report (SEIR).

Through my involvement as a founding partner with The Wellness Center, a member of the Health Innovation Community Partnership (HICP), and a participant in collaborative efforts serving the campus and surrounding communities, I have worked alongside residents and partners to identify opportunities to enhance quality of life. These experiences have demonstrated the value of connecting healthcare and mental health services with the everyday resources families need to thrive.

The General Hospital has meaningfully served the community for generations. Its location near major employers, public transportation, neighborhoods, and community-serving organizations makes it an ideal place for affordable housing, local jobs, parks, and community services. The Master Plan offers an opportunity to strengthen these connections and address barriers that affect health, stability, and opportunity.

I appreciate the County's and the Developer's efforts to engage diverse stakeholders throughout the planning process. The resulting vision reflects years of essential community input and the shared commitment to a campus that remains responsive to surrounding communities. I especially support the plan's focus on affordable housing, complemented by opportunities for local businesses, mobile vendors, and new investment. Preserving and revitalizing the historic General Hospital will honor its legacy while expanding its capacity to support community wellness for future generations.

For these reasons, I respectfully urge the Board of Supervisors to adopt the Los Angeles General Hospital Campus Master Plan and certify the Subsequent Environmental Impact Report.

Thank you for your leadership and consideration.
Sincerely,

SOMOS LAW GROUP

304 South Broadway, Suite 350
Los Angeles, CA 90013

October 14, 2026

Los Angeles County Board of Supervisors

RE: Support for Adoption of the Los Angeles General Hospital Campus Master Plan and Certification of the Subsequent Environmental Impact Report (SEIR)

Dear Chair Hilda L. Solis, Supervisor Holly J. Mitchell, Supervisor Lindsey P. Horvath, Supervisor Janice Hahn, and Supervisor Kathryn Barger:

We, Somos Group, write in strong support of the adoption of the Los Angeles General Hospital Campus Master Plan and certification of the Subsequent Environmental Impact Report (SEIR).

Somos Group has had the opportunity to support the project team throughout the planning and environmental review process by providing environmental review, land use, and real estate strategy services. In that capacity, we assisted in evaluating potential environmental impacts, reviewing technical studies and reports, identifying feasible mitigation measures, and helping guide compliance with applicable environmental review requirements. Through this work, we recognize the importance of thoughtful and comprehensive planning that balances meaningful community investment with environmental responsibility.

For generations, Los Angeles General Hospital has served as an important public institution and community asset. The Master Plan presents a rare opportunity to reimagine the campus in a manner that honors its historic significance while responding to the evolving needs of surrounding communities. Its proximity to major employers, public transportation, established neighborhoods, and community-serving organizations makes it an ideal location for affordable housing, employment opportunities, open space, and essential community services.

We also commend the County and the development team for their extensive efforts to engage residents, community organizations, labor representatives, public agencies, cultural organizations, small businesses, youth, seniors, and other stakeholders throughout the planning process. The Master Plan comes at a particularly critical time as Los Angeles continues to face a severe housing shortage. Publicly owned land presents an invaluable opportunity to expand housing opportunities for local families, workers, seniors, and future generations. By proposing approximately 3,200 residential

units, including affordable housing, the Master Plan represents a significant step toward addressing this need. The project also creates opportunities for local businesses, mobile vendors, and new investment that can strengthen the surrounding community. Equally important, the preservation and revitalization of the historic General Hospital building will honor the campus's longstanding legacy of healthcare, public service, and community wellness.

Based on our participation in the environmental review process and familiarity with the project's planning objectives, we believe that the Master Plan presents a well-considered framework for redevelopment that thoroughly evaluates environmental effects and incorporates measures to address potential impacts. We observed a deliberate and extensive environmental review process that included technical studies, public review opportunities, and consideration of potential environmental impacts and mitigation measures. In our view, the SEIR serves as an important informational document that supports informed decision-making regarding the proposed Master Plan.

For these reasons, Somos Group strongly urges the Board of Supervisors to adopt the Los Angeles General Hospital Campus Master Plan and certify the Subsequent Environmental Impact Report.

Thank you for your leadership and consideration.

In solidarity, ..

Dear Chair and Honorable Members of the Los Angeles County Board of Supervisors:

As a member of the General Hospital community, I am writing to express my strong support for the adoption of the Los Angeles General Hospital Campus Master Plan and certification of the Subsequent Environmental Impact Report (SEIR).

The General Hospital has meaningfully served the community for generations and is an important public asset. The Master Plan provides a unique opportunity to use County land to meet the needs of surrounding communities. Its location near major employers, public transportation, community neighborhoods, and community-serving organizations makes it an ideal place for **affordable housing, local jobs, parks, and community services**.

I appreciate the County's and the Developer's efforts to engage residents, community organizations, labor, public agencies, cultural organizations, small businesses, youth, seniors and other stakeholders throughout the planning process. The Master Plan reflects years of essential community input and provides a thoughtful vision for the future of the campus.

I especially support the plan's focus on creating affordable housing. At a time when Los Angeles faces a severe housing shortage, using publicly owned land to create more housing is an important step toward meeting the needs of local families, workers, seniors, and future generations.

The plan also creates opportunities for local businesses, mobile vendors and new investment that can strengthen surrounding communities. Preserving and revitalizing the historic General Hospital will build on this investment while honoring the campus's legacy of healthcare, public service and wellness.

For these reasons, I respectfully urge the Board of Supervisors to adopt the Los Angeles General Hospital Campus Master Plan and certify the Subsequent Environmental Impact Report.

Thank you for your leadership and consideration.

Sincerely,

Richard Zaldivar 10/15/2026

Los Angeles County Board of Supervisors

RE: Support for Adoption of the Los Angeles General Hospital Campus Master Plan and Certification of the Subsequent Environmental Impact Report (SEIR)

Dear Chair and Honorable Members of the Los Angeles County Board of Supervisors:

As a board member of Alma Family Services we provide over a hundred thousand units of service such as mental health, gang intervention/diversion, youth programming family strengthening and other vital social services including supportive services to hundreds of families with children with developmental disabilities, as a member of the General Hospital community, and a founding member of Health Innovation Community Partnership: I am writing to express my strong support for the adoption of the Los Angeles General Hospital Campus Master Plan and certification of the Subsequent Environmental Impact Report (SEIR).

For generations the Historic General Hospital has been a beacon of hope for our community and this restoration and adaptive reuse will serve our community for many more generations as a thriving hub and the County's most important asset! **As this project blooms it will provide affordable housing, increase local job opportunities and access to even more community services like the ones Alma is providing around town in neighboring communities.**

I have served on local committees in planning ahead for this project and appreciate the County's and the Developer's efforts to engage residents, community organizations, labor, public agencies, cultural organizations, small businesses, youth, seniors and other stakeholders throughout the planning process. The Master Plan reflects years of essential community input and provides a thoughtful vision for the future of the campus.

Our families have asked for affordable housing and using publicly owned land to create more housing is an important step toward meeting the needs of local families, workers, seniors, and future generations. This is an investment in our future, preserving and revitalizing the historic General Hospital will build on this investment while honoring the campus's legacy of healthcare, public service and wellness.

I respectfully urge the Board of Supervisors to adopt the Los Angeles General Hospital Campus Master Plan and certify the Subsequent Environmental Impact Report.

Sincerely,

Yolanda Duarte-White Board Chair Alma Family Services

Los Angeles County Board of Supervisors

RE: Apoyo para la Adopción del Plan Maestro del Campus del Hospital General de Los Ángeles y Certificación del Informe de Impacto Ambiental Posterior (SEIR)

Estimada Presidenta y Honorables Miembros de la Junta de Supervisores del Condado de Los Ángeles:

Como miembro de la comunidad del Hospital General, escribo para expresar mi firme apoyo a la adopción del Plan Maestro del Campus del Hospital General de Los Ángeles y la certificación del Informe de Impacto Ambiental Posterior (SEIR).

El Hospital General ha proveído servicios valiosos a la comunidad durante generaciones y constituye un importante activo público. El Plan Maestro ofrece una oportunidad única para aprovechar terrenos del condado a fin de satisfacer las necesidades de las comunidades circundantes. Su ubicación, cerca de fuentes de empleo importantes, transporte público, vecindarios y organizaciones de servicio a la comunidad, lo convierte en un lugar ideal para **viviendas asequibles, empleos locales, parques y servicios comunitarios**.

Aprecio los esfuerzos del Condado y del Desarrollador para involucrar a los residentes, organizaciones comunitarias, trabajadores, agencias públicas, organizaciones culturales, pequeñas empresas, jóvenes, personas mayores y otras partes interesadas durante todo el proceso de planificación. El Plan Maestro refleja años de aportes esenciales de la comunidad y proporciona una visión reflexiva para el futuro del campus.

Apoyo especialmente el enfoque del plan en la creación de viviendas asequibles. En un momento en que Los Ángeles enfrenta una grave escasez de viviendas, utilizar terrenos de propiedad pública para crear más viviendas es un paso importante para satisfacer las necesidades de familias, trabajadores, personas mayores y futuras generaciones locales.

El plan también crea oportunidades para empresas locales, vendedores ambulantes e inversiones nuevas que pueden fortalecer las comunidades circundantes. Preservar y revitalizar el Hospital General histórico aprovechará esta inversión y al mismo tiempo honrará el legado de atención médica, servicio público y bienestar del campus.

Por estas razones, les insto respetuosamente como Junta de Supervisores a adoptar el Plan Maestro del Campus del Hospital General de Los Ángeles y certificar el Informe de Impacto Ambiental Posterior (SEIR).

Gracias por su liderazgo y consideración.

Sinceramente,

Alejandro Castro Lopez

关于：支持采纳洛杉矶总医院园区总体规划并认证后续环境影响报告（SEIR）

尊敬的洛杉矶县监事会主席及各位尊敬的委员：

作为洛杉矶总医院的一员，我写这封信是为了表达我对通过洛杉矶总医院园区总体规划和后续环境影响报告（SEIR）认证的强烈支持。

综合医院为社区服务了几代人，是一项重要的公共资产。总体规划提供了一个独特的机会，可以利用县属土地来满足周边社区的需求。由于其地理位置优越，靠近主要雇主、公共交通、社区和社区服务机构，因此是**经济适用房、本地就业机会、公园和社区服务的理想之地**。

我赞赏郡政府和开发商在整个规划过程中努力让居民、社区组织、劳工、公共机构、文化组织、小企业、青年、老年人和其他利益相关者参与其中。总体规划体现了多年来社区的重要意见，并为校园的未来发展提供了深思熟虑的愿景。

我尤其支持该计划注重建造经济适用房。在洛杉矶面临严重住房短缺之际，利用公共土地建造更多住房是满足当地家庭、工人、老年人和子孙后代需求的重要一步。

该计划还为当地企业、流动商贩和新的投资创造了机会，从而可以加强周边社区。保护和振兴这座历史悠久的综合医院，将巩固这项投资，同时传承该院区在医疗保健、公共服务和健康方面的传统。

基于这些原因，我 恳请监事会采纳洛杉矶总医院园区总体规划并批准后续环境影响报告。

感谢您的领导和体谅。

谨启，

King Cheung

**RE: Apoyo para la Adopción del Plan Maestro del Campus del Hospital General de Los Ángeles y
Certificación del Informe de Impacto Ambiental Posterior (SEIR)**

Estimada Presidenta y Honorables Miembros de la Junta de Supervisores del Condado de Los Ángeles:

Como miembro de la comunidad del Hospital General, escribo para expresar mi firme apoyo a la adopción del Plan Maestro del Campus del Hospital General de Los Ángeles y la certificación del Informe de Impacto Ambiental Posterior (SEIR).

El Hospital General ha proveído servicios valiosos a la comunidad durante generaciones y constituye un importante activo público. El Plan Maestro ofrece una oportunidad única para aprovechar terrenos del condado a fin de satisfacer las necesidades de las comunidades circundantes. Su ubicación, cerca de fuentes de empleo importantes, transporte público, vecindarios y organizaciones de servicio a la comunidad, lo convierte en un lugar ideal para **viviendas asequibles, empleos locales, parques y servicios comunitarios**.

Aprecio los esfuerzos del Condado y del Desarrollador para involucrar a los residentes, organizaciones comunitarias, trabajadores, agencias públicas, organizaciones culturales, pequeñas empresas, jóvenes, personas mayores y otras partes interesadas durante todo el proceso de planificación. El Plan Maestro refleja años de aportes esenciales de la comunidad y proporciona una visión reflexiva para el futuro del campus.

Apoyo especialmente el enfoque del plan en la creación de viviendas asequibles. En un momento en que Los Ángeles enfrenta una grave escasez de viviendas, utilizar terrenos de propiedad pública para crear más viviendas es un paso importante para satisfacer las necesidades de familias, trabajadores, personas mayores y futuras generaciones locales.

El plan también crea oportunidades para empresas locales, vendedores ambulantes e inversiones nuevas que pueden fortalecer las comunidades circundantes. Preservar y revitalizar el Hospital General histórico aprovechará esta inversión y al mismo tiempo honrará el legado de atención médica, servicio público y bienestar del campus.

Por estas razones, les insto respetuosamente como Junta de Supervisores a adoptar el Plan Maestro del Campus del Hospital General de Los Ángeles y certificar el Informe de Impacto Ambiental Posterior (SEIR).

Gracias por su liderazgo y consideración.

Sinceramente,

Angela Gutierrez
