123. Narrative Report

Purpose of Inspection: To assess the availability of Narcan and the familiarity of staff and incarcerated persons with its use and location.
Locations Visited: 1300 (FIP), 1400, 2100, 2300, 3100, 1700, 3500, 2700, 2800
Findings by Location

1300 (FIP)

Cells 1301 and 1302: Sink has been stopped up for two weeks and requires a plumber.
Cell 1302: Ceiling leak reported.
Cell 1303: No hot water.
Cell 1304, Cell #18: Toilet broken, with waste floating inside, unresolved for over one month.
Cell #4: Sink not draining for over one month, despite multiple complaints submitted.
Medical/Deputy Relations: Incarcerated individuals report unclear escalation paths between routine request forms and urgent medical needs. Two examples reported:
An individual with a cracked tooth reported daily pain for eight days before being seen.
A woman with a visibly swollen ear received no response to a medical request or in-person appeals to a nurse for two days.
Worms, flies, ants, and other small insects reported in sinks and near drains; reports of spider bites in cells.

1400

Shower drapes were added in cell 1401.
Narcan and menstrual products were accessible.
Trustees were observed cleaning human biohazards, including feces, without proper PPE, across multiple units.
Trustees are not consistently provided with adequate PPE — some were given short gloves; no masks were provided.

3100

Cell #37: Toilet not flushing.

2100

The center deputy unit's line of sight into all modules is obstructed by papers covering the windows, which are also not clean.
The vending machine had only one bottle of water remaining.
Narcan is not present in living areas; only one unit is available, located at the entrance.

2104

Cell #21: Sink stopped up and emitting a strong odor.
No soap has been available outside of commissary for two weeks. Women unable to pay (no funds on their books) are left without soap; some were observed with only tiny slivers of bar soap remaining, while empty cells nearby had full, unused bars.
No inmate grievance forms were available in the module; a posted sign states they must be requested from staff.
Flies were observed coming from the drain of the main living-area sink, which also had no soap in the dispenser.
Reports of maggots in the shower.
Reports of food arriving undercooked, including half-raw chicken and undercooked potatoes, and a cockroach found in pasta the previous week.
Reports of ant and spider bites.
Cell #44: Foul odor from toilet; reports that water quality varies between clear and discolored.
Reports that phone lines are difficult to hear due to static; a spoon has been attached to a radio antenna in an attempt to improve reception.
Reports of a denied visit from a rabbi, and of books being turned away when sent in by families.
A specific report that a deputy has denied one individual access to grievance forms, shortened her programming time, and treated her with greater disregard than others in the module.

2300

Filthy floor and living space observed post-dinner service in HOH Pod 1.
No Narcan available inside the pods.

IRC

Clothing rolls did not include thermal layers; the area was notably cold.
One individual, who reported being anemic, was shivering in a cell while waiting to be seen by medical. Deputies declined to provide a blanket, citing a 1–2 hour wait for a nurse.

1702

Discolored water visible coming from the main sink in the living area.
Worms observed in the sink; when reported to a sergeant, Sergeant Ghosan responded that "worms are healthy for you."
Visible, thick mold in the bathrooms, including red mold. The shower has no ventilation. The bathroom was reportedly treated in recent days, but substantial visible mold remained; the commissioner's eyes began watering upon entry.
To be properly treated, this bathroom would need to be evacuated during remediation.
Women are not provided proper PPE to clean these spaces themselves.
Reports of a woman developing bronchitis and worsened lung symptoms attributed

124. Narrative Continued

Plumbing & Water System Failures
Locations: 1300/1301–1304, 2104, 1702, 3500, 2700, 3100
Pattern: Persistent clogged/non-draining sinks, broken toilets, no hot water, discolored water — unrepaired for weeks to months.
Examples: Toilet with waste inside unresolved 1+ month (1304); sink clogged 1+ month despite complaints (1300); no hot water (1300, 2700); water runs brown with no bottled water provided except to pregnant women (2700).
Recommended action: Emergency work orders for standing complaints; interim bottled-water protocol for all residents during outages, not only pregnant women.

Mold & Ventilation Hazards
Locations: 1702, 3500, 2700, 2800
Pattern: Visible mold (including red and bright green) in bathrooms, showers, and vents, linked to reported respiratory illness.
Examples: Thick red mold in 1702 bathroom despite recent treatment; reported bronchitis from bathroom fungus; moldy vents (3500, 2700); mildew on shower ceiling (2800).
Recommended action: Full remediation with unit evacuated during treatment; replace flooded/moldy carpet; provide respiratory PPE for anyone assigned cleaning duties.

Pest Infestation
Locations: Nearly all modules visited
Pattern: Worms, gnats, flies, ants, spiders in sinks/drains/cells; insects in food.
Examples: Worms in sinks (1702, 3500, 2700, 2800); maggots in shower (2104); roach in pasta (2104); spider/ant bites (1300, 2104).
Recommended action: Facility-wide pest control contract review and structural sealing of drains/entry points.

PPE & Trustee Safety
Locations: 1400, facility-wide cleaning duties
Pattern: Trustees assigned to clean human biohazards without adequate PPE.
Examples: Trustees cleaning feces with only short gloves and no masks (1400); no PPE for women cleaning mold (1702).
Recommended action: Mandatory PPE provisioning policy before assigning biohazard or mold-cleaning tasks to incarcerated individuals.

Medical Access & Response Delays
Locations: 1300, IRC, 1702
Pattern: Gap between routine request forms and timely response for acute needs.
Examples: Cracked tooth, 8 days before being seen; swollen ear, no response for 2 days; anemic woman denied a blanket during a 1–2 hour wait for a nurse; woman incorrectly sent to isolation without a sheet developed a back abscess.
Recommended action: Clear acute-symptom triage/escalation path separate from routine forms is clear to nurses and deputies in modules

Hygiene & Basic Supply Access
Locations: 2104
Pattern: Soap unavailable outside commissary for two weeks; access tied to ability to pay.
Examples: Women with no funds left without soap while unused bars sat in empty cells; no grievance forms without staff request.
Recommended action: Provide a baseline of hygiene supplies independent of commissary funds; audit grievance-form access compliance.

125. Narrative Continued

Narcan Availability Inconsistency
Locations: 2100, 2300 (contrasted with 1400)
Pattern: Inconsistent placement
Examples: Accessible in 1400; only one unit at 2100's entrance, none in living areas; none inside 2300 pods. Many areas with Narcan available but not available for all.
Recommended action: Standardize Narcan placement and familiarity training across all modules, including trustees.

Food Safety & Quality
Locations: 2104, 2700
Pattern: Undercooked/contaminated food, expired milk.
Examples: Half-raw chicken, undercooked potatoes, roach in pasta; moldy food and expired milk (2700).
Recommended action: Food-service/vendor safety audit with follow-up verification.

Facility Infrastructure & Safety Hazards
Locations: 2100, 2104, 3500, 2800
Pattern: Physical hazards and equipment failures.
Examples: Dangerous exposed light closed Shower #3 (3500); staticky phones/broken radio (2104); obstructed deputy sightlines (2100); shower visibility unimproved (2800).
Recommended action: Prioritize safety-hazard work orders; restore deputy monitoring sightlines.

Programming & Rights Access
Locations: 2104
Pattern: Denial of religious visitation and reading materials; a specific staff-conduct complaint.
Examples: Denied rabbi visit; books turned away from families; deputy reported to deny grievance forms and shorten programming for one individual.
Recommended action: Review religious/mail-access policy compliance; investigate the specific conduct complaint.

Staff Responsiveness & Culture
Locations: 1702
Pattern: Dismissive response to a reported health/safety condition.
Examples: Sergeant told a resident that "worms are healthy for you."
Recommended action: Staff training and accountability on responsiveness to health/safety complaints.
