

AGN. NO. ____

MOTION BY SUPERVISORS YAROSLAVSKY AND KNABE

March 29, 2011

In the aftermath of the Japan tsunami, there has been considerable interest in the development of the emergency siren warning system along the Southern California coastline.

I, THEREFORE, MOVE that the office of Emergency Management be directed to report to the Board within 30 days on the advisability and feasibility of developing a Tsunami emergency siren warning system.
