PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The proposed defensible space education center is in unincorporated Los Angeles County on approximately 3 acres of a 92-acre County owned parcel, with just over 18 acres managed by the Consolidated Fire Protection District, adjacent to Las Virgenes Road. This project will serve all residents in the adjacent urban and rural communities of the Santa Monica Mountains, which are entirely within the Very High Fire Severity Hazard Severity Zones (VHFHSZ) and historical fire corridors. The project will provide training on structure assessments and defensible space implementation by using printed and on-line literature along with detailed interpretive signage of specific plants, irrigation products, and structure hardening components. In addition, the site is part of an active Fire Department nursery which will provide appropriate native plants to homeowners or large groups on demand. The planned defensible space education site will combine the elements of the Santa Monica Fire Safe Alliance 'Road Map to Fire Safety', that provided detailed guidance of hazard fuel reduction practices with appropriate use of ornamental plants and the Santa Monica Mountains Community Wildland Protection Plan (SMMCWPP). The SMMCWPP was a collaboration of several federal, state, local agencies, and community groups that identified community and regional area hazardous with numerous specific mitigation strategies. The new education center will build on these past programs by incorporating their research and findings in a permanently staffed one-stop location that can host townhall meetings or provide individual guidance on a wide range of defensible space topics.

The proposed demonstration area will be centrally located in the Santa Monica Mountains at a Fire Department facility on land historically maintained for defensible space and provide a hands-on opportunity to observe native drought tolerant plants and efficient irrigation systems in a 200' defensible space along with a "hardened" structure already in place. The project will provide residents an educational opportunity to study tangible examples of applied low impact design principles in creating and maintaining defensible areas that reduce ember cast and heat exposure.

The project's goal is to educate homeowners and stakeholders about the benefits of defensible space and ember cast reduction, including brush clearance fire code requirements along with building code requirements and enhanced home hardening options for new construction and retrofits.

The site is staffed by qualified personnel skilled at training homeowners in conducting hazard assessments of structure vulnerabilities and hazardous vegetation conditions in defensible space zones. In addition, the education center will have hands-on mitigation examples and interpretive signage outlining effective strategies to include the latest developments in home hardening and demonstration areas representative of proper plant selection, spacing, selective fuel reduction, and maintenance.

Along with onsite printed materials, a Department website, Twitter and Facebook accounts will allow remote access to relevant research material and availability of the entire site through a virtual guided tour with an in-depth narrated overview of hazardous assessment mitigation measures. Use of the site by Firesafe Councils and local groups, routine public referrals by code enforcement officials, and a lower number of annual non-compliant brush clearance enforcement actions will provide the metrics for measurable outcomes.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

Approval of the recommended actions is consistent with the County's Strategic Plan, Goal No. III, Strategy III.3: Pursue Operational Effectiveness, Fiscal Responsibility and Accountability, by continually assessing our efficiency and effectiveness, maximizing and leveraging resources, and holding ourselves accountable.

FISCAL IMPACT/FINANCING

Following your Board's approval of the recommended appropriation adjustment in the amount of \$345,000, the grant will increase the Fire Department - Executive Budget Unit's Services and Supplies appropriation by \$345,000. There is a cost share amount of \$17,261.90, which will be funded by the District's Fiscal Year 2021-22 Budget.

There is no impact on net County cost.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

FEMA has provided the District with specific guidelines, reports, and expenditure procedures for the administration and management of the FP&S Grants. Unless an amendment is approved by FEMA the grant performance ends September 08, 2022.

ENVIRONMENTAL DOCUMENTATION

CEQA review is not required for this project, however, an Environmental Historical Preservation (EHP) report is currently in review by FEMA. The grant will commence upon EHP approval by FEMA.

CONTRACTING PROCESS

The District will utilize Internal Services Department (ISD) to complete the landscape installation phase of the project, \$255,000 via a Departmental Service Order (DSO). An additional \$92,000 will be used for interpretive signage, cabinetwork, hardscape, and landscape design, etc. and will be competitively solicited by the Purchasing Agent in accordance with the County's standard purchasing policies and procedures.

IMPACT OF CURRENT SERVICES (OR PROJECTS)

Approval of the recommended actions will allow this project to implement a key recommendation of the Woolsey After Action Review to develop a strategic wildfire hazard reduction plan. This project will lessen potential structure loss by reducing fire intensity and

educating homeowners on 'home hardening', while decreasing greenhouse gas emissions, promoting habitat preservation, and strengthening goodwill through partnerships with Santa Monica Mountains public agencies and private interest groups.

CONCLUSION

Upon approval by your Honorable Board, please instruct the Executive Officer to return the adopted stamped copy of this letter to the following:

Any cost allocable to a particular federal financial assistance award provided for in 2 C.F.R. Part 200, Subpart E may not be charged to other federal financial assistance awards to overcome fund deficiencies; to avoid restrictions imposed by federal statutes, regulations, or federal financial assistance award terms and conditions; or for other reasons. However, these prohibitions would not preclude recipients from shifting costs that are allowable under two or more awards in accordance with existing federal statutes, regulations, or the federal financial assistance award terms and conditions.

Article 14 Education Amendments of 1972 (Equal Opportunity in Education Act) – Title IX

Recipients must comply with the requirements of Title IX of the Education Amendments of 1972, Pub. L.
