Next Meeting: January 12, 2022

County of Los Angeles CHIEF EXECUTIVE OFFICE

Kenneth Hahn Hall of Administration 500 West Temple Street, Room 713, Los Angeles, California 90012 (213) 974-1101 http://ceo.lacounty.gov

January 24, 2023

The Honorable Board of Supervisors County of Los Angeles 383 Kenneth Hahn Hall of Administration 500 West Temple Street Los Angeles, CA 90012

Dear Supervisors:

FISCAL YEAR 2023-24 HOMELESS INITIATIVE FUNDING RECOMMENDATIONS (ALL DISTRICTS) (3 VOTES)

SUBJECT

Approve the Fiscal Year (FY) 2023-24 Homeless Initiative funding recommendations and adjustments to the Board approved FY 2022-23 Homeless Initiative funding plan.

IT IS RECOMMENDED THAT THE BOARD:

- 1. Approve FY 2023-24 Measure H funding in the amount of \$513,194,000 and conditionally approve State Homeless Housing, Assistance and Prevention Program (HHAP) Round 4 funding in the amount of \$82,328,000 included in the funding recommendations for Measure H-eligible Homeless Initiative (HI) strategies as described in Attachment 1. The State HHAP Round 4 funding will be contingent upon authorization by the State Business, Consumer Services and Housing Agency.
- 2. Authorize the Chief Executive Officer, or her designee, to submit any and all documents required or deemed necessary or appropriate to secure the HHAP Round 4 funds, to enter into, execute, and deliver a Standard Agreement for HHAP Round 4 funding in an amount not to exceed \$82,328,000, and accept the HHAP Round 4 funds from the State.
- Approve FY 2022-23 one-time Measure H carryover funding in the amount of \$23,202,000 and all prior-year HHAP carryover funding, to be used to continue implementation of selected Measure H and HHAP-funded strategies in FY 2023-24 as described in Attachment 1.

- 4. Approve the use of \$73,035,000 in one-time Measure H fund balance to be allocated for one-time investments in the FY 2022-23 and FY 2023-24 Homeless Initiative spending plan for the Measure H funded strategies to support various projects including Local Solutions Fund, specialized outreach, encampment resolution, interim housing, permanent housing, and homeless delivery system enhancements as described in Attachment 2.
- 5. Delegate authority to the Chief Executive Officer, or her designee, to: 1) reallocate, if necessary, Measure H and/or HHAP funding that has been approved for a specific strategy under the Homeless Initiative's legacy homelessness strategies framework, to the new strategy(ies) under the County's New Framework to End Homelessness; the reallocation shall not exceed the Board approved funding; and 2) adjust the maximum funding amount by no more than 10 percent for any Board approved strategy under the County's New Framework to End Homelessness.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

New Framework to End Homelessness in Los Angeles County

On April 20, 2021 (Item 43-C), the Board of Supervisors (Board) directed the CEO and its partners to reassess the Homeless Initiative strategies that were developed in 2016 at the outset of the County's Homeless Initiative (HI). The reassessment process included an extensive community engagement process and the thorough analysis of reports, performance data, evaluations and research. The resulting recommendations and report on the New Framework to End Homelessness (New Framework) were submitted to the Board on April 11, 2022. Although the County's efforts to address homelessness since the HI was established have resulted in tens of thousands of people exiting homelessness to permanent housing, finding shelter in interim housing, and accessing a range of supportive services, the number of people experiencing homelessness (PEH) has continued to grow. Through the Board-directed process to reassess the HI strategies, research and analysis found that this growth has largely been driven by the increasing size of a subset of PEH - those who face significant barriers and as a result are "persistently underserved" – and the lack of permanent housing options available to them. With this lack of housing, persistently underserved PEH have trouble exiting the homeless response system, instead languishing in interim housing for extended periods of time or remaining unsheltered.

On May 3, 2022 (Item 26), the Board approved a motion directing the CEO and its partners to implement the New Framework to End Homelessness in Los Angeles County (New Framework). The funding recommendations presented herein reflect the principles and priorities of the New Framework.

With the goal of better serving the persistently underserved, as well as all PEH, and increasing permanent housing exits, the New Framework is divided into five categories of actions: (1) Coordinate, (2) Prevent, (3) Connect, (4) House, and (5) Stabilize. The New Framework is being implemented by three key system partners: the Homeless Rehousing System, Mainstream Government Systems, and Participation of Cities. Within the Homeless Rehousing System, strategies focus on the core system components of prevention, outreach, interim housing, permanent housing, and supportive services with focused efforts to serve persistently underserved PEH to reduce the number of people falling into this category. Within the Mainstream Government Systems, strategies seek to establish a true no wrong door approach that advances equity, prioritizes at-risk households, and effectively prevents homelessness, especially first-time homelessness. With cities, the strategies focus on encampment resolution and co-investment in permanent and interim housing.

<u>Accelerated Funding Recommendations Process</u>

On May 17, 2022, Item 79-G directed HI to submit the proposed FY 2023-24 HI funding recommendations to the Board in January 2023 including an analysis of any programs or services that will be impacted by the funding recommendations and the recommended transition plan for those programs or services. In addition, HI was directed to submit recommendations to the Board in January 2023 for midyear budget adjustments to FY 2022-23 strategies to align with the New Framework and the proposed FY 2023-24 funding recommendations.

On August 2, 2022, HI shared with the Board its timeline and process to develop final proposed FY 2023-24 HI Funding Recommendations aligned to the New Framework.

In August and September 2022, HI conducted meetings with HI lead departments/agencies and Homeless Rehousing System service providers to assess and prioritize potential program and administrative changes to consider as part of FY 2022-23 mid-year budget adjustments and FY 2023-24 Funding Recommendations to implement the New Framework.

In September and October 2022, HI held a total of eighteen (18) virtual community listening sessions across the County comprised as follows:

- 8 sessions in each of the County's Service Planning Areas;
- 2 sessions with individuals with lived homelessness experience;
- 1 countywide Spanish-language session; and
- 7 sessions with various cities and Councils of Governments.

The purpose of these Community Listening Sessions was the following: 1) to discuss the New Framework; 2) gather community feedback on the potential program and administrative changes identified by Homeless Rehousing System lead departments, agencies, and service providers; and 3) listen and learn from community stakeholders and identify their insights to inform the FY 2023-24 HI Funding Recommendations ultimately proposed to the Board.

In October and November 2022, HI worked with lead departments and agencies to evaluate community and stakeholder feedback gathered during the listening sessions and incorporate the feedback into draft proposed FY 2023-24 HI Funding Recommendations.

On November 8, 2022, HI publicly released the draft proposed FY 2023-24 HI Funding Recommendations, which initiated a two-week public comment period and included a public information webinar. The detailed webinar PowerPoint and the submitted public comments are available to view and download at the HI website. As part of the public release, an initial set of program and administrative changes was released aligned to the New Framework and intended to strengthen the focus of the Homeless Rehousing System on increasing permanent housing exits.

On November 30, 2022, HI lead departments and agencies participated in a final meeting to discuss the public comments received and to consider any potential changes to the funding recommendations.

A summary of recommended programmatic and administrative changes to the Homeless Rehousing System resulting from the stakeholder and community engagement process and aligned with the New Framework are described in Attachment 3. The changes include increasing mental health, substance use disorder, and Activities of Daily Living services for PEH who are unsheltered and who are interim and permanent housing; increasing exits to permanent housing through increased housing navigation, increased access to market rate housing to maximize use of tenant based rental subsidies, and enhancements to the time limited subsidy program; increasing communication and coordination between cities and Councils of Government and the outreach teams, interim housing providers, and permanent housing providers that provide services within their jurisdiction; assessing reimbursement rates paid to homeless services; and streamlining contracts and contract administration. The FY 2023-24 HI Funding Recommendations are responsive to these recommendations. In addition, Attachment 3 identifies several other funding streams that will be braided and leveraged with HI funding to implement the changes including Managed Care Organization Housing and Homelessness Incentive Program, Housing and Urban Development Continuum of Care Notice of Funding

Opportunity for Unsheltered Homelessness, Mental Health Services Act, and CalAIM funding.

FY 2023-24 HI Funding Recommendations

Recommendation 1 requests Board approval of the combined total of \$595,522,000, comprised of \$513,194,000 in FY 2023-24 Measure H funding and \$82,328,000 in State HHAP Round 4 funding described in Attachment 1. The State HHAP Round 4 funding will be contingent upon authorization by the State Business, Consumer Services and Housing Agency. These funds will support the County and partners' efforts to implement the New Framework approved by the Board in Spring 2022. Reflective of the priorities identified in the New Framework, the Measure H and HHAP funding recommendations propose increased investments in permanent housing. This is consistent with the New Framework's goal of increasing the number of people exiting the Homeless Rehousing System to permanent housing which will then increase the flow through interim housing and the number of unsheltered PEH who can be served in interim housing. The proposed investments also prioritize serving those with the greatest barriers, including by continuing to grow the supply of permanent supportive housing, where the most vulnerable PEH can receive intensive case management services, mental health services, and substance use disorder services. Further, the funding recommendations continue to expand investments in partnerships with cities and Councils of Government, fostering local solutions and increasing collaboration to increase the availability of housing throughout all regions of the County.

Recommendation 2 requests delegated authority for the CEO, to submit any and all documents required or deemed necessary or appropriate to secure the HHAP Round 4 funds, to enter into, execute, and deliver a Standard Agreement for HHAP Round 4 funding in an amount not to exceed \$82,328,000, and accept the HHAP Round 4 funds from the State.

Recommendation 3 requests Board approval of up to \$23,202,000 in one-time FY 2022-23 Measure H carryover and all prior-year HHAP carryover funding for various programs in which the Chief Executive Office has identified need for funding to be carried over from FY 2022-23 to complete one-time programming or to pay prior year invoices from the Los Angeles Homeless Services Authority after the Auditor-Controller's year end close deadline as described in Attachment 1.

Recommendations 4 requests Board approval to allocate \$73,035,000 in one-time Measure H fund balance from FY 2021-22 to homeless programs listed in Attachment 2. These programs were selected for one-time funding because they were included in recent Board motions where the CEO-HI was directed to identify funding sources for these

programs and/or identified by the CEO-HI as key unfunded programs or commitments that would strengthen implementation of critical aspects of the New Framework. The \$73,035,000 Measure H fund balance is mainly attributed to LAHSA's lower expenditure rate for FY 2021-22 resulting from prioritizing the spending of one-time emergency funding sources, such as Coronavirus Relief Funds and the Emergency Solutions Grant for Coronavirus, as they have strict expenditure deadlines.

Recommendations 5 requests delegated authority for the CEO, or her designee to 1) reallocate, if necessary, Measure H and/or HHAP funding that has been approved for a specific strategy under the Homeless Initiative's legacy homelessness strategies framework, to the new strategy(ies) under the County's New Framework to End Homelessness; the reallocation shall not exceed the Board approved funding; and 2) adjust the maximum funding amount by no more than 10 percent for any Board approved strategy under the County's New Framework to End Homelessness.

The recommendations provide the CEO with necessary authority to implement actions necessary to transition from the County's implementation of the HI legacy strategies originally approved by the Board in February 2016, to the New Framework approved by the Board on May 3, 2022.

Since its inception, Measure H has been allocated, budgeted, and tracked via the County's legacy Homeless Initiative strategies. As the CEO implements the County's New Framework, which will allow the County to focus on program pillars that will prioritize specific needs of the homelessness delivery system, the way that the County homelessness funding is tracked will shift from the current strategy-based design.

The Chief Executive Office is currently working on the budget structure and Chart of Accounts design for the County's New Framework and plan to roll out the new budget structure to departments receiving Measure H or HHAP revenue before the start of FY 2023-24 to ensure all funding is being budgeted and tracked according to the County's New Framework design. This recommendation will allow the CEO the delegated authority to administratively shift any prior year funding currently allocated to the legacy strategies to the appropriate and necessary framework pillar in the upcoming fiscal year.

This recommendation provides necessary delegated authority to adjust funding allocation level by no more than 10% for any Board approved strategy under the County's New Framework. Delegated authority would be utilized by the CEO, or her designee, for any programmatic need that may arise during a given fiscal year in which there is a necessary need to shift Board approved funding within the County's New Framework. Any adjustments to Board approved strategy under the County's New Framework would be subject to availability of funding.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

The recommended actions are in compliance with County Strategic Plan, Goal 1-Make Investments That Transform Lives and Goal 2-Foster Vibrant and Resilient Communities.

FISCAL IMPACT/FINANCING

There is no net County cost impact from these recommendations.

County Budget Process

Upon Board approval of the funding recommendations, the CEO will incorporate the approved Measure H and State HHAP Round 4 funding inclusive of requested Measure H and HHAP carryover from FY 2021-22 and FY 2022-23, into the FY 2022-23 mid-year budget adjustment and the FY 2023-24 Budget. These budget changes will provide appropriation authority for the various departments to continue implementing the Measure H framework.

Measure H Revenue

The California Board of Equalization began collecting the Measure H quarter-cent sales tax from businesses and consumers on October 1, 2017.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

On December 6, 2016, the Board approved an Ordinance to place Measure H on the March 7, 2017, countywide ballot, which proposed a quarter-cent sales tax for a period of 10 years to fight homelessness. Additionally, the Ordinance emphasized accountability by requiring the following:

Independent Audit

An independent auditor to annually report on the amount of revenue collected and expended and the status of the projects and services funded. Under the guidance of the Auditor-Controller, the independent auditor has completed the FY 2017-18, FY 2018-19, FY 2019-20, and FY 2020-21 audits in compliance with the ordinance requirement. The FY 2021-22 audit is scheduled for release at the end of December 2022.

Citizens' Oversight Advisory Board

The Citizens' Oversight Advisory Board (COAB) is comprised of five members, with one member nominated by each Supervisorial District and appointed by the Board. The COAB's role is to ensure public accountability for Measure H funds. All COAB meeting minutes and charts on Measure H expenditures are available at http://homeless.lacounty.gov/oversight.

HHAP Round 4 Application Public Notice Requirement

On October 21, 2022, the California Interagency Council on Homelessness (Cal ICH) released a Local Homelessness Action Plan and Application Template for local jurisdictions to use to develop their HHAP Round 4 applications for submission. As described in the application template, State Health and Safety Code Section 50220.8(b)(4) requires each local jurisdiction to agendize specific sections of their HHAP Round 4 application at their local governing board meeting to provide an opportunity for public comment. In addition, given the compressed HHAP Round 4 application timeline, Cal ICH is allowing local jurisdictions to agendize their applications at a meeting of their governing boards after Cal ICH's November 29, 2022, application submission deadline. Attachment 4 includes the required sections of the HHAP Round 4 application the County submitted by the November 29, 2022, application deadline.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Approval of the funding recommendations for Measure H strategies will affirm the County's commitment to combat and prevent homelessness in Los Angeles County by investing in proven strategies and seeking new and innovative solutions to the many issues that contribute to homelessness.

Respectfully submitted,

Fesia A. Davenport Chief Executive Officer

LOS ANGELES COUNTY HOMELESS INITIATIVE - FY 2023-24 FUNDING RECOMMENDATIONS

The following chart presents funding allocations for Homeless Initiative strategies approved by the Board of Supervisors in FY 2022-23 as well as the proposed funding allocations for FY 2023-24. Only Measure H and State Homeless Housing, Assistance and Prevention Program funding are represented in the amounts below.

STRATEGY	FY 2022-23 TOTAL FUNDING ALLOCATION	FY 2023-24 TOTAL FUNDING RECOMMENDATION	EXPLANATION OF VARIANCE FROM FY 2022-23				
	COORDINATE						
LAHSA Coordinated Entry System	\$14,124,000	\$14,083,000	Funding allocation proposed maintains service levels comparable to those in FY 2022-23.				
CEO Coordinated Entry System \$319,000 \$0		\$0	No additional funding needed in FY 2023-24 as one-time program needs were met in FY 2022-23.				
		PREVENT					
LAHSA Problem Solving	\$55,000	\$598,000	Increase in funding reflects an expansion of Problem Solving for individual adults and families and continuation of funding for transition age youth.				
LAHSA Targeted Prevention	\$16,902,000	\$19,534,000	Increase in funding reflects an increase in the Homeless Prevention program for individual adults and families to respond to an increasing number of cases and an increase in the average cost per case.				
DCFS Targeted Prevention	\$800,000	\$800,000	No change.				

STRATEGY	FY 2022-23 TOTAL FUNDING ALLOCATION	FY 2023-24 TOTAL FUNDING RECOMMENDATION	EXPLANATION OF VARIANCE FROM FY 2022-23			
	CONNECT					
LAHSA Coordinated Outreach	\$11,572,000	\$10,437,000	Decrease in funding reflects the shift of the Coordinated Entry System Outreach Teams to the Department of Health Services to administer.			
DHS Coordinated Outreach	\$26,784,000	\$30,296,000	Increase in funding reflects adjustments to create alignment across MDTs funded by different funding streams, Board-approved Cost of Living Adjustment (COLA) increases, and the shift of the Coordinated Entry System Outreach Teams from LAHSA to the Department of Health Services to administer.			
DPH Coordinated Outreach	\$756,000	\$975,000	Increase in funding reflects Board-approved COLA increases.			
DHS Jail-In Reach	\$2,091,000	\$2,086,000	Funding allocation proposed maintains service levels comparable to those in FY 2022-23.			
LASD Jail-In Reach	\$494,000	\$521,000	Increase in funding reflects Board-approved COLA increases.			
LAHSA Navigation	\$16,357,000	\$17,744,000	Increase in funding reflects an increase in the average cost per client served and an increase in Housing Navigation slots to support unsheltered people experiencing homelessness.			

STRATEGY	FY 2022-23 FY 2023-24 TOTAL FUNDING ALLOCATION RECOMMENDATION		EXPLANATION OF VARIANCE FROM FY 2022-23
		HOUSE	
LAHSA Interim Housing	\$75,071,000 \$64,171,000 (Measure H) \$10,900,000 (State HHAP)	\$72,611,000	Decrease in funding reflects a shift to alternate funding sources for the operation of multiple "A Bridge Home" interim housing sites and the transition of three Project Homekey sites from interim housing to permanent supportive housing.
DHS Interim Housing	\$81,604,000 \$65,006,000 (Measure H) \$16,598,000 (State HHAP)	\$79,683,000 \$63,851,000 (Measure H) \$15,832,000 (State HHAP)	Decrease in funding reflects reduction of one-time interim housing capital improvements funding. There is also an adjustment for Board-approved COLA increases.
DMH Interim Housing	\$163,000	\$226,000	Increase in funding reflects Board-approved COLA increases.
DPH Interim Housing	\$11,062,000	\$11,110,000	Increase in funding reflects Board-approved COLA increases.
LAHSA Time-Limited Subsidies	\$50,040,000	\$57,142,000	Increase in funding reflects an increase in the number of households who will be served, an increase in average cost per client served, and the expiration of one-time funding that had supported the program.
DPSS Time-Limited Subsidies	\$3,620,000	\$3,620,000	No change.
DHS Permanent Supportive Housing	\$128,310,000 \$98,181,000 (Measure H) \$30,129,000 (State HHAP)	\$156,444,000 \$98,181,000 (Measure H) \$58,263,000 (State HHAP)	Increase in funding reflects an increase in the number of ICMS slots needed to accommodate the new project based PSH buildings and tenant based PSH vouchers/rental subsidies that will be coming online in FY 23-24 and an increase in funding for rental subsidies which were funded with one time funding that is no longer available.
DMH Permanent Supportive Housing	\$13,121,000	\$15,838,000	Increase in funding reflects an increase in clients to be served due to the new project based PSH buildings and tenant based PSH vouchers/rental subsidies that will come online in FY 23-24, an increase in DMH staff to accommodate the program expansion, and Board approved COLA increases.

STRATEGY	FY 2022-23 TOTAL FUNDING ALLOCATION	FY 2023-24 TOTAL FUNDING RECOMMENDATION	EXPLANATION OF VARIANCE FROM FY 2022-23
		HOUSE (cont.)	
DPH Permanent Supportive Housing	\$2,224,000	\$3,053,000	Increase in funding reflects an increase in clients to be served due to the new project based PSH buildings and tenant based PSH vouchers/rental subsidies that will come online in FY 23-24.
LAHSA Transitional Housing for Special Populations	\$17,682,000 \$9,449,000 (Measure H) \$8,233,000 (State HHAP)	\$18,212,000 \$9,979,000 (Measure H) \$8,233,000 (State HHAP)	Increase in funding reflects the annualization of partial year funding allocated in FY 22-23 for the Housing Financial Assistance for Transition Age Youth pilot.
LACDA Housing Acquisition	\$15,268,000	\$13,852,000	Decrease in funding reflects an adjustment for the number of tenant-based permanent support housing federal vouchers that are estimated to be available in FY 23-24.
LAHSA Housing Acquisition	\$12,447,000	\$17,003,000	Increase in funding reflects funding needed to maintain current service levels for the Housing Location program as one-time funding supporting the program will be exhausted in FY 22-23.

^{*}In the FY22-23 Measure H Funding Recommendations, the Board delegated authority to the Chief Executive Officer, or her designee, to carry forward Measure H fund balances, as necessary, from one fiscal year to a subsequent fiscal year for use in strategies supporting the maintenance of continuous multi-year agreements with local jurisdictions that are administering homeless services programs, including contracts, memoranda of understanding, or funding agreements. The Chief Executive Officer, or her designee, shall work in consultation with the Auditor-Controller's Office to ensure the appropriate monitoring of Measure H fund balances supporting local jurisdiction agreements needing multi-year carryover of Measure H funding. Given the CEO's delegated authority, the amounts reflected in the Cities, Council of Government and Continuum of Care rows are being included just for reference for the Board.

MEASURE H ONE-TIME INVESTMENTS FY 2022-23 AND FY 2023-24

The following chart represents an allocation plan for one-time investments into the FY 2022-23 and FY 2023-24 Homeless Initiative spending plan for projects in recently approved Board motions where the Chief Executive Office—Homeless Initiative (CEO-HI) was directed to identify funding sources for these projects or which were identified by the CEO-HI as critical unfunded programs or commitments that would strengthen implementation of the New Framework to End Homelessness in Los Angeles County.

Homeless Initiative Fiscal Year 2023-24 Funding Recommendations Process Community Stakeholder Input (Draft 11/7/22)

Community and Stakeholder Engagement Process

Background

- In late-Spring 2022 the Homeless Initiative (HI) in partnership with LA County's Homeless Rehousing System
 agencies and departments, the community, and other stakeholders, began developing plans to implement the
 New Framework to End Homelessness in Los Angeles County approved by the Board of Supervisors (the
 Board).
- At the same time the HI also began planning the development of draft Fiscal Year 2023-24 HI Funding Recommendations to support implementation of the New Framework. The Board directed HI to submit the draft FY 2023-24 Funding Recommendations to the Board by January 2023 for consideration.

Community and Stakeholder Engagement Process

- In September and October 2022, the HI conducted the following 18 Community Listening Sessions:
 - o 8 Service Planning Area (SPA) Sessions, one in each SPA
 - 7 City/Councils of Government (COG) Sessions, one in each COG area
 - 2 Sessions with People with Lived Expertise
 - 1 Countywide Session in Spanish
- Simultaneously, from August through October 2022 the HI conducted 8 additional stakeholder planning meetings.
 - 1 Homeless Service Provider (Executive Director) Meeting
 - 5 Homeless Rehousing System Lead Agency planning meetings
 - 3 HI Strategy Lead Department/Agency Meetings

This document summarizes the most common recommended changes to the Homeless Rehousing System elevated during the Community and Stakeholder Engagement Process described above, and what actions the County proposes to take to be responsive to those recommendations.

Outreach		
Stakeholder Recommendations	County Response	
1. Increase the number of outreach teams that can serve clients with complex health, mental health, and substance use disorder conditions, as well as clients who need assistance with Activities of Daily Living (ADL).	1. The Homeless Initiative is identifying funding to increase the number of Department of Mental Health (DMH) Homeless Outreach and Mobile Engagement (HOME) teams and Department of Health Services (DHS) Multi-Disciplinary Teams (MDTs). The existing and expanded teams will be able to serve an increased number of clients with physical health, mental health, and substance use disorder conditions. The teams will also be able to assess for ADL needs and connect clients to caregiving services, In-Home Supportive Services, and Enriched Residential Care. In addition, DHS is implementing four new mobile medical clinics that will provide clinical services to unsheltered clients countywide.	
2. Increase outreach to encampments.	2. The expanded HOME and MDT teams will be able to serve more clients, including clients in encampments. In addition, the DHS mobile clinics will provide medical and behavioral health services to patients directly in encampments.	
3. Provide outreach teams and clients with more support for housing navigation and more housing placement options.	3. The draft Fiscal Year (FY) 2023/24 Homeless Initiative Funding Recommendations include increased funding for LAHSA to fund housing navigation for unsheltered people experiencing homelessness. In addition, the Housing and Urban Development Continuum of Care Notice of Funding Opportunity for Unsheltered Homelessness can increase housing support for unsheltered people countywide. If awarded, up to \$3 million in funding will be utilized to provide housing navigation services to assist unsheltered people to navigate all steps in the housing process. Another \$3.3 million will be used for tenant-based rental assistance to house unsheltered individuals in Permanent Supportive Housing.	
4. Increase the number of people with lived expertise on outreach teams.	4. DMH and the Department of Public Health (DPH) are both in the process of increasing the number of people with lived expertise through the Medi-Cal Peer Support Services Specialist Program. This program provides peer certification, which will allow people with lived expertise to become billable Medi-Cal providers for a defined set of services. In addition, DMH is exploring the implementation of salary bonuses for Peer Certification and field-based positions. DHS requires that each MDT have at least 1 team member with lived expertise. With the expansion of the MDTs, there will be a corresponding increase in the number of staff with lived expertise on the teams. LAHSA's Access and Engagement (A&E) Department prioritizes hiring individuals with lived expertise during their interview process. Currently, 25% of A&E staff reported having lived experience. LAHSA continues to promote the growth and development of these staff by implementing a Professional Development Program that provides outreach workers the opportunity to enhance their skills and knowledge in focused areas, opening doors for long-term growth.	

Outreach		
Stakeholder Recommendations	County Response	
5. Assess reimbursement rates for outreach to ensure they cover the full cost of providing the scope of services and provide competitive wages to address recruitment and retention challenges.	5. The Homeless Initiative will convene a working group to analyze and make recommendations on reimbursement rates for outreach services.	
6. Implement flexible multi-year contracts with service providers to ease contract administration burden and to enable providers to be more responsive to changes in unsheltered homelessness and evolving client needs.	6. The Homeless Initiative is working with LAHSA and County departments to identify any delegated authorities or contractual changes that are needed by LAHSA or County departments to implement flexible multi-year contracts.	
7. Increase communication and coordination between cities and Councils of Government (COG) and the outreach teams, interim housing providers, and permanent housing providers that provide services within their jurisdiction.	7. The Homeless Initiative has undergone a staffing reorganization to create a unit that is specifically dedicated to strengthening collaborative partnerships with cities and COGs. In addition, LAHSA continues to expand the Governmental Affairs and Community Relations Unit, which has dedicated staff to work with community stakeholders including cities, COGs, and coalitions across the County. The Homeless Initiative will include LAHSA and County departments in future quarterly convenings with cities and COGs to support increased communication and collaboration and will facilitate more frequent meetings if needed.	

Ir	nterim Housing
Stakeholder Recommendations	County Response
1. Increase support and services for clients in interim housing who have more complex health, mental health, and substance use disorder conditions, as well as clients who need assistance with Activities of Daily Living.	1. The Homeless Initiative is partnering with Medi-Cal Managed Care Plans and DHS, DMH, and DPH to implement Enhanced Care Assessment Teams that will assess clients for a full array of medical, behavioral, functional, and social service needs to inform appropriate housing placements and service connections. The assessments will include assessing for ADL needs and connecting clients to caregiving services, IHSS, and enriched residential care. In addition, DMH is seeking Mental Health Services Act (MHSA) funding to further expand the Enhanced Care Assessment Teams. DPH will work with interim housing funders to identify interim housing sites with a high need for substance use disorder treatment services and coordinate field-based services at these identified sites.
2. Provide interim housing providers and clients with more housing navigation services.	2. In FY 2022/23 LAHSA both expanded the number of Housing Navigation slots available within the system and enhanced eligible and allowable Housing Navigation services (funding can be used for financial assistance, including application fees, security deposits, and landlord incentives). In addition, LAHSA began to prioritize Housing Navigation resources for people in interim housing. Providing Housing Navigation to interim housing clients will enhance flow through the system as interim housing clients exit more quickly to permanent housing. The draft FY 2023/24 Homeless Initiative Funding Recommendations include increased funding for Housing Navigation to increase the number of slots and to cover increasing costs of programming and service delivery.
3. Establish interim housing sites that can do 24/7 intakes to support after hours outreach and engagement efforts.	3. DHS is opening the first interim housing site in Los Angeles that will accept clients 24/7. The site is scheduled to open in November 2022. The Homeless Initiative will work closely with DHS, outreach teams, first responders, and other stakeholders to monitor the utilization and impact of this interim housing site to inform the timeline and plan for expansion to additional sites.
4. Assess reimbursement rates for interim housing to ensure they cover the full cost of providing the scope of services and address recruitment and retention challenges.	4. The Homeless Initiative is partnering with LAHSA, DHS, and DMH to contract with an entity to conduct an interim housing cost analysis that will be used to inform potential rate changes. The cost analysis will consider site locations, size, population served, required services, and staffing needs.
5. Implement flexible multi-year contracts with service providers to ease contract administration burden and to enable providers to be more responsive to changes in unsheltered homelessness and evolving client needs.	5. The Homeless Initiative is working with LAHSA and County departments to identify any delegated authorities or contractual changes that are needed by LAHSA or County departments to implement flexible multi-year contracts.

Pe	ermanent Housing
Stakeholder Recommendations	County Response
Increase mental health and substance use disorder services at permanent housing sites.	1. The Homeless Initiative currently funds DHS Intensive Case Management Services, DMH Housing Supportive Services Program (HSSP), and DPH Substance Abuse Prevention and Control Client Engagement and Navigation Services (CENS) for clients in permanent supportive housing. The Homeless Initiative will convene a work group with DHS, DMH, DPH, and permanent supportive housing providers to ensure that existing resources are being fully utilized, identify any service gaps, and identify opportunities to enhance or increase services. In addition, DMH is seeking MHSA funding to expand their ability to assist clients that are at risk of eviction due to hoarding issues which may result in unhealthy and unsafe environments and may place the unit at risk of not passing inspection by the Housing Authority.
2. Increase capacity to assess the ADL needs of people in permanent housing and to connect them to ADL services and IHSS as needed.	2. DHS hopes to expand its ADL support for PSH clients under the Personal Care and Homemaker Services (PCHS) Community Supports available through CalAIM. By contracting for PCHS with Los Angeles County's six managed care plans, DHS hopes to increase capacity for PSH residents to gain access to in-home caregiving services until IHSS is approved and an IHSS worker is secured.
3. Increase the ability of clients in permanent supportive housing to access Department of Public Social Services (DPSS) benefits and services and the CBEST benefits advocacy program.	3. All DHS Intensive Case Management Service (ICMS) providers are expected to connect participants to benefits and other resources available to them, including DPSS and CBEST services. DHS operates both the PSH ICMS and CBEST programs and will continue to monitor data to identify PSH ICMS who are likely eligible for disability benefits and connect them to CBEST supports, as appropriate.
4. Strengthen the capacity, operations, safety, and security at existing project-based permanent housing sites.	4. The Homeless Initiative will convene a workgroup including DHS, DMH, DPH, Los Angeles County Development Authority, Los Angeles Housing Department, Public Housing Authorities, developers, and permanent supportive housing service providers to identify the factors that are impacting permanent supportive housing operations and potential solutions.
5. Increase access to market rate housing by expanding the use of "master-leasing," landlord engagement, and/or other incentives.	5. The Homeless Initiative is partnering with Medi-Cal Managed Care Plans, LAHSA, and DHS to expand housing acquisition programs, including the DHS Flexible Housing Subsidy Pool Master Rental Services Agreement (MRSA) program and the LAHSA Resident and Property Support Services (RPSS) program. In addition, the draft FY 23-24 Homeless Initiative Funding Recommendations include increased funding for LAHSA's RPSS and Housing Location program.

Permanent Housing						
Stakeholder Recommendations	County Response					
6. Make improvements to the time-limited subsidies program to smooth client transitions to other permanent housing options and to implement contract terms that increase the housing supply for the time-limited subsidy program.	6. The Homeless Initiative is working with LAHSA to identify any delegated authorities or contractual changes that are needed for LAHSA to implement contract terms that provide the flexibility needed to be responsive to the needs of clients and that support increased housing placements through the time-limited subsidy program.					
7. Assess reimbursement rates for Intensive Case Management Services to ensure they cover the full cost of providing the scope of services and address recruitment and retention challenges.	7. The Homeless Initiative is partnering with LAHSA and DHS to contract with an entity to conduct an ICMS cost analysis. The cost analysis will be used to inform potential rate changes.

Table 4. Outcome Goals

Outcome Goal #1a: Reducing the number of persons experiencing homelessness.

Goal Statement:

By the end of the performance period, HDIS data for the **LA CoC** will show **81,485** total people accessing services who are experiencing homelessness annually, representing **807** more people and a **1% increase** from the baseline.

*Please be sure to copy and paste the goal statement from this application template to Cognito, and only update the fields in [brackets].

Goal Narrative:

The Los Angeles CoC continues to expand outreach, interim housing, and permanent housing programs which we predict will allow us to slightly increase the # of people experiencing homelessness annually that we can serve. There is some uncertainty around this measure because while we are expanding services we are also losing critical one time pandemic federal funding through programs like ESG-CV and Emergency Housing Vouchers that will diminish our capacity to continue some programs at the same time that we are expanding others.

Baseline Data:	0	utcome Goals July 1, 2022 - June	3 July 1, 2022 - June 30, 2025		
Annual estimate of number of people accessing services who are experiencing homelessness	Change in # of People	Change as % of Baseline	Target Annual Estimate of # of people accessing services who are experiencing homelessness		
*Actual baseline to be provided by Cal ICH from HDIS: can use local data as placeholder in the meantime 80,678	807	1%	81,485		
Underserved Population	ns and Populations Disproportionate	ly Impacted by Homelessness			
Describe any underserved and/ or disproportionately impacted population(focus on related to this Outcome Goal and how this focus has been informed assessment:	Describe the trackable data goal(s) related to this Outcome Goal: Note: Meeting the trackable data goals for the underserved populations is not required for eligibility for Bonus Funds.				
Given the high rate of Black, AIAN, and Transgender people experiencing homelessne homelessness including first time homelessness, we will focus on reducing this population are committed to equity and justice, and are continuing to work to ensure that service informed, and that we are working to serve higher percentages of overrepresented groverrepresentation of marginalized and disproportionally impacted groups.	focused on meeting the needs of the A LAHSA committed to work to create be: AIAN populations as well as the transger *Adding at least one training on AIAN-Training Academy to improve services for *Adding at least one training on transge Centralized Training Academy to improve experiencing homelessness *Implementing two AIAN-specific prograpermanent housing the LA CoC will add one additional good KPIs which showed that only 15% of Latin	ck of homeless services/programs that are culturally AN population and the transgender population. st practices for providers working with and serving nder community, including: culturally sensitive programming to our Centralized or AIAN people experiencing homelessness ender-culturally sensitive programming to our ve services and outcomes for Transgendered people arms to increase AIAN access to services and exits to In HHAP 4 Il based on the findings of the 2022 HC and System nos experiencing homelessness moved from interim CoC will seek to increase this to the current system			

Outcome Goal #1b. Reducing the number of persons experiencing homelessness on a daily basis.

Goal Statement:

By the end of the performance period, data for the LA CoC will show 48,063 total people experiencing unsheltered homelessness daily, representing 485 fewer people and a 1% reduction from the baseline.

*Please be sure to copy and paste the goal statement from this application template to Cognito, only updating the fields in [brackets].

Goal Narrative:

The Los Angeles CoC originally projected in our HHAP 3 Local Homeless Action Plan that we would not be able to decrease the # of people experiencing unsheltered homelessness daily. In September we released the 2022 Point-in-Time Count that showed 45,878 people experiencing unsheltered homelessness as compared to 46,090 people experiencing unshletered homelessness in the 2020 Point-in-Time Count. While this data is promising, the LA CoC strongly encourages Cal ICH to not measure progress toward Local Homeless Action Plans and Outcome Goals using the Point-in-Time Count as a measure. The LA CoC found that the reductions in the # of people experiencing unsheltered homelessness were likely caused by a reduction in people falling into homelessness as a result of eviction moratiums and federal rental assistance programs. Some eviction moratiums have already expired and the remaining moratoriums will expire in 2023. Many rental assistance programs have already ended. The loss of these critical protections and programs cannot be made up by the homeless response system which will also experience a reduction in funding in 2023.

Baseline Data:	0	Outcome Goals July 1, 2022 - June 30, 2025				
Daily Estimate of # of people experiencing unsheltered homelessness	Change in # of People	Change as % of Baseline	Target Daily Estimate of # of people experiencing unsheltered homelessness			
*Actual baseline to be provided by Cal ICH trom HDIS: can use local data as placeholder in the meantime 48,548	485	-1%	48,063			
Underserved Population	ns and Populations Disproportionate	ly Impacted by Homelessness				
Describe any underserved and/ or disproportionately impacted population (focus on related to this Outcome Goal and how this focus has been informed assessment:	Describe the trackable data goal(s) related to this Outcome Goal: Note: Meeting the trackable data goals for the underserved populations is not required for eligibility for Bonus Funds.					
Black, Hispanic/Latino, and American Indian people are overrepresented in the home in outreach and homeless programs to ensure they are served and housed.	In HHAP 3 the LA CoC focused on expa *Adding an equity permanent housing *Adding an equity housing placement t *Ensuring Black and AIAN representation In HHAP 4 the LA CoC will focus on the 1 Latino Homelessness Working Group	goal				

Outcome Goal #2. Reducing the number of persons who become newly homeless.

Goal Statement:

By the end of the performance period, HDIS data for the **LA CoC** will show total people become newly homeless each year, representing **366 fewer** people and a **1% reduction** from the baseline.

*Please be sure to copy and paste the goal statement from this application template to Cognito, only updating the fields in [brackets].

Goal Narrative:

The Los Angeles CoC saw a 19% decrease in the # of people becoming homeless between 2018 and 2020, but we recognize that there were many economic factors impacting the # of people who fall into homelessness that were negatively impacted during the COVID-19 pandemic. As stated above, LA is predicting a significant impact from expiring eviction moratoriums in 2023. Los Angeles's 2022 Point-in-Time Count showed that these impacts are being disproportionately felt by hispanic/Latino and immigrant populations in LA.

	0	Outcome Goals July 1, 2022 - June 30, 2025					
Baseline Data: Annual Estimate of # of people who become newly homeless each year	Change in # of People	Change as % of Baseline	Target Annual Estimate of # of people who become newly homeless each year

Inding problem solving and prevention including: tion are utilized in Most Disadvantaged Communities nty's Office of Diversion and Reentry and Public viding reentry service used organizations OC tenant retention Itional goal to expand problem solving to three					

Outcome Goal #3. Increasing the number of people exiting homelessness into permanent housing.

Goal Statement:

By the end of the performance period, HDIS data for the LA CoC will show 9,266 total people people exiting homelessness into permanent housing annually, representing 679 more people and a 8% increase from the baseline.

*Please be sure to copy and paste the goal statement from this application template to Cognito, only updating the fields in [brackets].

Goal Narrative:

The Los Angeles CoC will achieve an 8% increase on this System Performance Measure, but also requests the ability to provide supplemental data to CallCH on permanent housing placements. This System Performance Measure does not capture the majority of the LA CoC's permanent housing placements for three reasons. 1) The LA CoC has worked closely with mainstream systems to expand the supply of permanent supportive housing in LA including significant investments in permanent supportive housing from public housing authorities, the County Department of Health Services and the County Department of Mental Health. In order to secure these investments these systems required that permanent supportive housing developers and service providers enter their performance data into data systems outside of the LA CoC's HMIS. The LA CoC is working closely with the County to create a data warehouse of County data systems and HMIS data, but this data will live outside the LA CoC's HMIS, meaning that it will not be captured by HDIS. 2) The LA CoC has worked closely with the California Policy Lab to create System Key Performance Indicators that measure rapid rehousing and permanent supportive housing placements and has found that data for permanent housing placements is more accurate when data elements not included in this System Performance Measure are included such as record of rapid rehousing rental payments. Homeless service providers are not provided the funding they need to provide 100% accurate data in HMIS and, as result, it is the responsibility of the CoC to constantly be analyzing HMIS data to see how to improve data collection including looking at all measures of permanent housing placements to measure performance. 3) Because resources for rapid rehousing and permanent supportive housing are not scaled to meet the need of people experiencing homelessness in the LA CoC, the CoC utilizes a broad range of housing options to get as many permanent housing placements as possible, including strategies like problem solving, shared housing, shallow subsidy, affordable housing and mainstream voucher programs. We recognize that programs like the Emergency Housing Voucher program are not supportive housing because these vouchers are often not paired with services. As a result, we do not categorize these permanent housing placements as rapid rehousing or permanent supportive housing and they are not captured by this System Perfomance Measure. The LA CoC requests the opportunity to provide supplemental data on permanent housing placements to CallCH to demonstrate the full reflection of permanent housing placements by the CoC, which was closer to 20,000 placements in 2021.

Baseline Data:	0	utcome Goals July 1, 2022 - June	e 30, 2025

Outcome Goal #4. Reducing the length of time persons remain homeless.

Goal Statement:

By the end of the performance period, HDIS data for the **LA CoC** will show **170** days as the average length of time that persons are enrolled in street outreach, emergency shelter, transitional housing, safehaven projects and time prior to move-in for persons enrolled in rapid rehousing and permanent housing programs annually, representing **11 fewer days** and a **6% reduction** from the baseline.

*Please be sure to copy and paste the goal statement from this application template to Cognito, only updating the fields in [brackets].

Goal Narrative:

The LA CoC has set a strategic goal to reduce unsheltered homelessness in Los Angeles and our critical strategy to achieve this goal is to increase permanent housing placements from interim housing and reduce the length of time that people experiencing homelessness utilize interim housing before placement into permanent housing. Implementation of this strategy is being supported by the dedication of housing navigation resources to all interim housing programs in Los Angeles County and a team of technical advisors who are supporting interim housing programs to increase their capacity to get interim housing participants document-ready for permanent housing placement. The CoC is also monitoring data quarterly to ensure that housing navigation is being assigned and is resulting in successful permanent housing placements for specific populations including Black and Hispanic/Latino interim housing participants.

	Outcome Goals July 1, 2022 - June 30, 2025		
Baseline Data: Average length of time (in # of days) persons enrolled in street outreach, emergency shelter, transitional housing, safehaven projects and time prior to move-in for persons enrolled in rapid rehousing and permanent housing programs	Change in # of People	Change as % of Baseline	Target Average length of time (in # of days) persons enrolled in street outreach, emergency shelter, transitional housing, safehaven projects and time prior to move-in for persons enrolled in rapid rehousing and permanent housing programs
*Actual baseline to be provided by Cal ICH trom HDIS: can use local data as placeholder in the meantime 181	11 days	-6%	170 days
Underserved Population	ns and Populations Disproportionate	ly Impacted by Homelessness	
Describe any underserved and/ or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:		Describe the trackable data goal(s) related to this Outcome Goal: Note: Meeting the trackable data goals for the underserved populations is not required for eligibility for Bonus Funds.	
		In HHAP 3 the LA CoC focused on expanding equity efforts including: * Reducing the number of days veterans experience homelessness by meeting with the VA 12 times per year to coordinate services * Ensuring Housing Navigation connected proportionally to Black PEH to increase permanent housing outcomes for Black PEH. * Tracking equity data on a quarterly basis In HHAP 4 the LA CoC will continue the goals above and ensure that at least 500 Black and Hispanic/Latino PEH in interim housing are assisted by housing navigation to successfully move into permanent housing per year	

Outcome Goal #5. Reducing the number of persons who return to homelessness within two years after exiting homelessness to permanent housing. Goal Statement:

By the end of the performance period, HDIS data for the **LA CoC** will show **10%** of people return to homelessness within 2 years after having exited homelessness to permanent housing, representing a **1% reduction** from the baseline.

*Please be sure to copy and paste the goal statement from this application template to Cognito, only updating the fields in [brackets].

Goal Narrative:

Baseline data on returns to homelessness in the LA CoC showed a 3% increase in returns to homelessness from 2018 to 2020. The LA CoC is committed to reversing this trend and ensuring that returns to homelessness do not include more than 10% of people who have exited homelessness to permanent housing. The LA CoC will focus on improving this measure for Black Indigenous Pepople of Color in permanent housing programs. The LA CoC uses our System Key Performance Indicators to monitor this data quarterly for returns at 6 months, 12 months, and 24 months. Our data shows that there is a high rate of rapid rehousing exits to unknown destination for some populations. The LA CoC will provide technical assistance to rapid rehousing providers to ensure that no more than 5% of any racial or ethnic population in rapid rehousing programs exit to an unknown destination.

	Outcome Goals July 1, 2022 - June 30, 2025		
Baseline Data: % of people who return to homelessness within 2 years after having exited homelessness to permanent housing	Change in % of People	Change as % of Baseline	Target % of people who return to homelessness wihtin 2 years after having exited homelessness to permanent housing
*Actual baseline to be provided by Cal ICH from HDIS: can use local data as placeholder in the meantime 6%	1%	-1%	10%
Underserved Populations and Populations Disproportionately Impacted by Homelessness			
Describe any underserved and/ or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:		Describe the trackable data goal(s) related to this Outcome Goal: Note: Meeting the trackable data goals for the underserved populations is not required for eligibility for Bonus Funds.	
		In HHAP 3 the LA CoC focused on expanding equity efforts including: * Tracking and publishing data quarterly on BIPOC tenant retention in permanent housing, including the AIAN population * Creating a training for case managers on tenant rights In HHAP 4 the LA CoC will continue the goals above and will provide technical assistance to Rapid Rehousing providers to ensure that no more than 5% of Rapid Rehousing clients of any racial or ethnic population exit to unknown destinations	

Outcome Goal #6. Increasing successful placements from street outreach.

Goal Statement:

By the end of the performance period, HDIS data for the **LA CoC** will show **4,563** total people served in street outreach projects exit to emergency shelter, safe haven, transitional housing, or permanent housing destinations annually, representing **338 more** people and a **8% increase** from the baseline.

*Please be sure to copy and paste the goal statement from this application template to Cognito, only updating the fields in [brackets].

Goal Narrative:

The LA CoC is focused on increasing permanent housing placements through the assignment of housing navigation. Housing navigation supports have already been assigned to all interim housing sites and we are now working on implementing assignment of housing navigation for people experiencing unsheltered homelessness by providing housing navigation and rapid rehousing for access centers.

	Outcome Goals July 1, 2022 - June 30, 2025		
Baseline Data: Annual # of people served in street outreach projects who exit to emergency shelter, safe haven, transitional housing, or permanent housing destinations.	Change in # of People	Change as % of Baseline	Target Annual Estimate of # of people served in street outreach projects who exit to emergency shelter, safe haven, transitional housing, or permanent housing destinations.

Eligible Use Category Intended to be Supported with HHAP-4	Approximate % of TOTAL HHAP-4 ALLOCATION to be sed on this Eligible Use (%)	Approximate % of TOTAL HHAP-4 ALLOCATION to be used under this Eligible Use as part of the Youth Set Aside? (%)	Activities to be Supported with HHAP-4	How is this a strategic use of HHAP-4 resources that will address needs and gaps within the homelessness response system?	How were these decisions to invest HHAP-4 into these activities informed by the planned uses of other state, local, and/or federal funding sources (as documented in the Landscape Analysis in Part 1)?
Interim Housing	19%		Interim Housing includes: 1) Stabilization Housing - Funding supports 24-hour interim housing beds with resource linkages and case management for people with more complex health and/or behavioral health conditions who need a higher level of onsite supportive services; 2) Recuperative Care - Funding supports 24-hour interim housing beds with resource linkages and case management for people with more complex health and/or behavioral health conditions who need medical oversight and a higher level of onsite supportive services.	new interim housing beds created and/or enhanced through utilization of local Measure H funding and prior	Over the past year, LA County Homeless Initiative has begun a comprehensive funding analysis including the identification and strategic assessment of all Federal, State, and Local funding administered by our County Departments and homeless/housing partners. Based on our initial assessment, including the review of requirements and expenditure horizons for each of those funding sources, and service gaps identified during our New Framework implementation planning, we have begun the work with our County Department/ Agency partners to shift and braid specific funding to cover specific aspects of our total homeless/housing services system. Within this comprehensive approach to funding we are taking, we have determined we need to invest HHAP 4 funding to cover growth in our Interim Housing and Permanent Supportive Housing portfolio.
Permanent Supportive Housing	71%	0%	Permanent Supportive Housing includes: 1) Intensive Case Management Services (ICMS) - Funding supports ICMS which is a wrap-around service delivery model in which case managers are assigned to support clients with every stage of the housing stabilization process. ICMS provides Permanent Supportive Housing (PSH) clients with a range of tailored services designed to meet the individual's needs including outreach and engagement; intake and assessment; housing navigation; housing stabilization and connections to emergency financial assistance to avoid evictions; linkages and reterrals to inpatient, outpatient, and specialty care services; benefits establishment; vocational assistance; etc. 2) Rental Subsidies and Tenancy Support Services - Funding supports locally funded rental subsidies for a subset off PSH clients and Tenancy Support Services which includes move-in assistance, crisis intervention, health and safety visits, unit habitability inspections, support with reasonable accommodations, administration of timely rental payments, and coordination with landlords to address unit or tenancy issues.	Intensive Case Management Services provided in our existing and new Permanent Supportive Housing units. Permanent Supportive Housing continues to be a significant need for many of the persons expereinencing homelessness	Over the past year, LA County Homeless Initiative has begun a comprehensive funding analysis including the identification and strategic assessment of all Federal, State, and Local funding administered by our County Departments and homeless/housing partners. Based on our initial assessment, including the review of requirements and expenditure horizons for each of those funding sources, and service gaps identified during our New Framework implementation planning, we have begun the work with our County Department/ Agency partners to shift and braid specific funding to cover specific aspects of our total homeless/housing services system. Within this comprehensive approach to funding we are taking, we have determined we need to invest HHAP 4 funding to cover growth in our Permanent Supportive Housing and Interim Housing portfolios.
Transitional Housing for Transition Age Youth	10%	1070	Transitional Housing for Transition Age Youth (TAY) - Funding supports Housing First, low-barrier, harm reduction-based transitional housing for TAY and is part of a crisis response program that provides safe, client-driven supportive services and access to 24-hour interim housing for young people (ages 18-24).	HHAP-4 funding will support the operation of TAY specific transitional housing because TAY is among the fastest growing sub-populations within our total homeless population.	The decision to use HHAP-4 funding to fund TAY transitional housing was made, in part based on the comprehensive funding analysis LA County is conducting as described in the preceding rows.
