The Steering Committee participants were briefed on the status of LACRIS systems and ongoing projects. Latent Examiner and 10 Print classes were added to the LACRIS training schedule.

8. General Updates

The Mobile Booking Truck (MBT) is nearing completion. LACRIS, the Sheriff's Communication and Fleet Management Bureau (CFMB), and LDV (the vendor) are working together to deliver the MBT in the first quarter of 2026.

The Regional Photo System (RPS) will replace our current facial recognition system, enhancing our auditing and tattoo-matching capabilities. We should have a vendor awarded the contract in January 2026.

The Automated Biometric Identification System (ABIS) RFP was released in June 2025 with vendor proposals due November 13, 2025. This ABIS will replace the current ABIS, which is known as the Multimodal Biometric Identification System (MBIS). ABIS is ahead of schedule and is the first RFP completely written by the LACRIS Project Management Team.

LACRIS is working with the San Diego County Sheriff Department and the Orange County Sheriff's Department to explore the feasibility of joining their Take Me Home programs with LACRIS to create a Southern California Regional Take Me Home program. The Take Me Home program is similar to the My Journey Home project approved by the RAN Board to identify missing or at-risk individuals.

In early October, LACRIS hosted the 3-day California DOJ's Cal-ID in-person meeting at the Los Angeles County BTC. Representatives from the State's DOJ office and Cal-ID Managers from throughout the state were briefed on current issues impacting our Cal-ID programs. Highlights from the meeting include a presentation by the Department of Homeland Security and the FBI on how to access their biometric databases, which will be beneficial during the 2028 International Olympic Games. Additionally, LACRIS presented on the benefits of iris biometric collection, the ethical use of facial recognition, a demonstration on the importance of Livescan training, and a presentation on biometric innovations and trends.
