County Budget

FISCAL YEAR ENDING JUNE 30, 1956

LOS ANGELES COUNTY
CALIFORNIA

Published by Order of
BOARD OF SUPERVISORS

Compiled Under the Supervision of
J. M. LOWERY, Auditor-Controller

PREFACE

In accordance with the provisions of Sections 29000 to 29171, inclusive, of the Government Code, the Board of Supervisors herewith presents to the taxpayers of Los Angeles County, the

COUNTY BUDGET

for the fiscal year beginning July 1, 1955, and ending June 30, 1956, adopted by a resolution of this Board on June 28, 1955.

This Budget has been compiled in accordance with statutory provisions and shows the amounts that have been approved for Salaries and Wages, Maintenance and Operation and Capital Outlay for the various departments of the County Government; and for the requirements of the Special Districts within the County whose affairs and funds are under the supervision and control of the County Board of Supervisors.

Also included are statements exhibiting estimates of the revenues other than taxes that are expected to accrue during this fiscal period and the source thereof, and other available funds that are to be applied in the financing of this Budget.

As a matter of general information to the public, and in response to requests for such information, there has been added to each departmental budget an explanatory note giving a brief synopsis of the work performed by the department or the purpose for which the appropriation was made. To those who desire more specific information with respect to the various functions, it is suggested that your communication be addressed to the head of the department.

Respectfully submitted,

BOARD OF SUPERVISORS,
LOS ANGELES COUNTY.

ARTHUR J. WILL
CHIEF ADMINISTRATIVE OFFICER

County of Los Angeles

May 3, 1955

Honorable Board of Supervisors
County of Los Angeles
501 Hall of Records

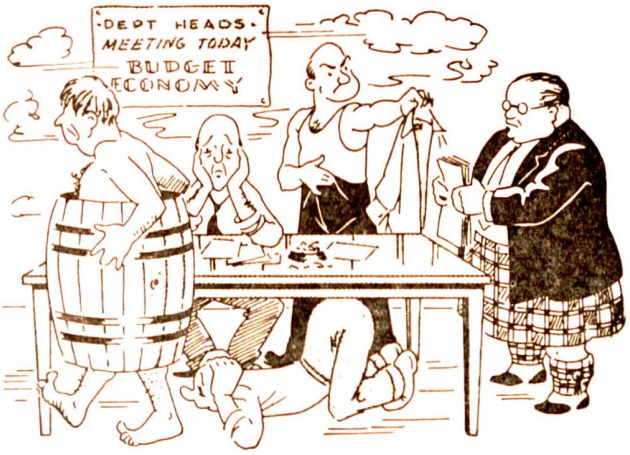

Gentlemen:

SUBJECT: 1955-56 BUDGET RECOMMENDATIONS

Presented herewith for the consideration of your Honorable Board are the recommendations for appropriations, reserves, and estimates of revenue to be incorporated in the 1955-56 preliminary budget. The analysis of the departmental requests and the compilation of these estimates have presented an unusually difficult problem this year because of the necessity for a detailed analysis of the many bills presented to the State Legislature, the transfer of several highly experienced members of the staff to other departments, the utilization of other members of the staff for special projects such as Air Pollution and the Population Dispersal Survey, and the inability to recruit qualified replacements. Nevertheless, through long hours of concentrated effort, each individual request has been subjected to a very careful screening, and the recommendations presented herein represent the minimum amounts which will permit the departments to render the required level of service to the taxpayers of this County. In each case, the recommendations have been thoroughly reviewed with the department head and members of his staff and, with but few exceptions, complete agreement has been reached.

The department heads have been well aware that the 1955-56 budget would present serious financing problems. This matter has been a major source of discussion at the last two quarterly meetings of all department heads. Their knowledge of the problem produced requests from which they had already carefully screened

non - essentials, and was a major factor in making it possible to effect the further substantial reductions recommended herein.

For the past several years, it has been possible to present to your Board a budget which could be financed with a much lower tax rate than had been anticipated. For the coming fiscal year, there are a number of financing elements, not related to the normal growth of the County, which will necessarily result in a substantial increase in the tax levy. Of major importance are such items as the necessity for adjustments in salaries to comply with provisions of the Charter, the mandatory increase in contributions to the Retirement System, additional funding for the construction of the Superior-Municipal Courts Building, the polio immunization program, the added emphasis on Air Pollution Control, the increase in requirements to fund the bonded indebtedness, and the substantial reduction in net surplus which will be available from current year operations.

The total of all General County Appropriations and Reserves will be $355,522,260, an increase of $36,495,-095, or 11.4%. However, $4,581,500 of this amount represents a new item for the purchase of land for the construction of buildings to be financed by the Retirement Association, and is completely offset by revenue. With the elimination of this "wash" item, the net increase is $31,913,595, or 10%. Of this amount, $3,823,500 will be available from increases in revenues over and above that required to offset surplus decreases. Nevertheless, the net increase in the tax levy will be $28,-090,095, an increase of 22.8%.

Obviously, a substantial increase in the tax rate will result. There are a number of factors which have made it unusually difficult to estimate what that rate will be. Several legislative proposals now before the State Legislature would, if enacted, produce a large reduction in tax levy requirements. The probable balances of Capital Projects appropriations are difficult

to estimate because of the intense activity in the field of construction. Nevertheless, we have made the best possible appraisal of these elements and, on the basis of a normal increase in the assessed valuation, it is estimated that the recommended budget will require a tax rate of $2.0538, an increase of 27.6 cents over that of the current fiscal year. Insofar as can be determined at this time, the recommended budget which will be financed by that tax rate includes all of the financing requirements which might be carried into the final budget, and the final tax rate should not exceed this figure and may be somewhat lower.

Obviously, the increase in tax levy requirements is the result of a number of factors which have a varying effect. Some of the more important of these are discussed in the following paragraphs.

ASSESSED VALUATION

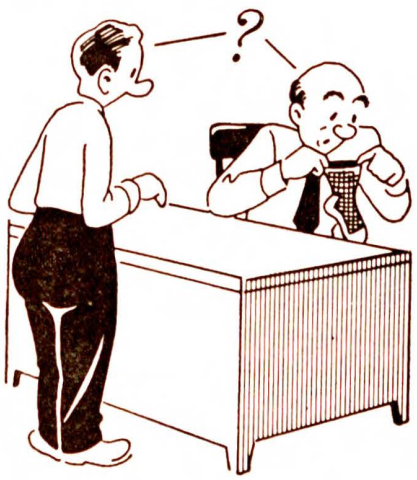

The estimated tax rate contained herein is based on a percentage increase in assessed valuation equal to that realized last year. The 1954-55 assessed valuation represented an increase of 7%, and there appears to be no reason for anticipating any substantial change in this trend. Some reduction is anticipated in downtown valuations in sections where no new construction has taken place, but the re-evaluation of some of the outlying residential and business areas to reflect actual increases in market values, and the picking up of the valuations on new construction, are expected to produce a continuation in the trend of assessed valuation increases. Should the actual increase be more or less than 7%, the tax rate will be affected accordingly.

SALARY ADJUSTMENTS

All recent salary surveys made by private industries and by governmental jurisdictions, including the joint survey in which the County participates, indicate that salaries and wages in industry are continuing to

rise slowly. The 1955 salary survey, recently completed, indicates that the average increase has been approximately 3% in the past 12 months. This is the same pattern as was reflected by surveys in 1953 and 1954.

On the basis of the 1953 survey, the salaries of approximately 75% of the County employees were adjusted effective July 1, 1953. The 1954 survey, which reflected another increase of approximately 3%, did not justify a full schedule salary adjustment for most classifications. On the basis of the survey, those employees who had not received an increase in 1953 were granted a one schedule increase effective June 1, 1954. Exclusive of the adjustment of inequities, this was the last revision of salary rates.

The 3% increase indicated by the 1955 survey will now necessitate the granting of salary adjustments to most of the classifications which did not receive adjustments in 1954. While there will be a few exceptions, on the basis of the survey, the general average will again be approximately 5%, or a one schedule increase, and will affect about 75% of the County's employees.

The Los Angeles City Administrative Officer has made recommendations to the City Council which, if approved, will result in 68% of the City employees receiving salary increases on July 1. The State of California did not increase any salaries last year, and, as a result, the State Personnel Board has asked the Legislature for sufficient funds to make salary adjustments for most State personnel. The Federal Government, which has not increased salaries since 1951, is now considering a general adjustment of from 7½% to 10% for all employees. An evaluation of the contemplated increases for County employees, which are funded in the recommended Salary Fund Unappropriated Reserve, indicates that Los Angeles County, by following the 1955 salary survey, will maintain parity with private industry, as required by the Charter, and with the other large public agencies.

AIR POLLUTION

The appropriation for the Air Pollution Control District represents one of the major increases in departmental appropriations. Your Board has been constantly advised that the research and enforcement programs in the District were being highly accelerated to the end that an early solution to the problem could be found. The Southern California Air Pollution Foundation and the Air Pollution Control Officer have both advised your Board that substantial appropriations for research purposes would be required in order to solve this complex problem. Enforcement measures have been stepped up, and the employment of a substantial number of additional enforcement officers has already been authorized.

The recommendations for the Air Pollution Control District for the coming fiscal year represent still further expansion in this enforcement program, and contain a substantial amount for further research in that field. The scope of the research program cannot be determined at this time, but funds must be made available for any program for which a necessity is indicated during the coming year.

COURTS

No particular problem exists with respect to the basic organization and staffing pattern for the various municipal courts. The Inferior Court Reorganization Plan has become well established, and significant changes are not anticipated.

Probable effects of pending legislation include funding for an ad-

ditional judge for each of 4 courts, for the construction of 2 additional courtrooms, and for an adjustment in judges' salaries. However, judicial salary increases will be offset by additional revenue which will result from an increase in municipal court filing fees, provided by the same bill.

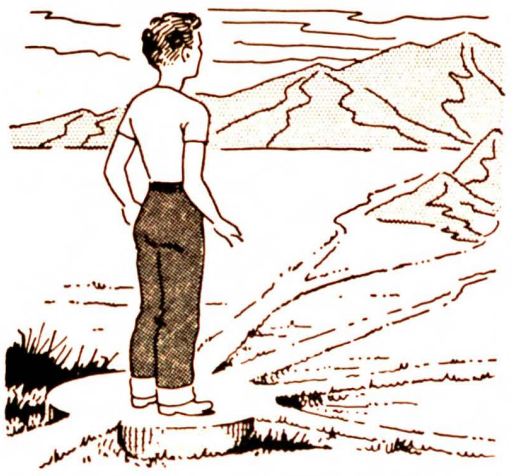

This office anticipates another conflict with municipal court judges over salaries for clerk and marshal attaches. If the courts are successful in their salary requests to the State Legislature, the County will be required to fund these increases in the final budget. It again appears that the only long term approach to establishing municipal court attache salaries on a prevailing wage basis is to renew efforts in Sacramento for legislative changes to place control of these salaries, as well as the number of positions, in the hands of the local boards of supervisors.

The Superior Court has indicated complete agreement with the recommendations herein.

PROBATION DEPARTMENT

The case load serviced by the Probation Department continues to increase at a rate much faster than population. The requirements to service the anticipated case load at existing standards will require 86.4 additional positions, or an increase of 11.7%. The Probation Officer has for the past year indicated the urgent necessity for revision of work load standards for his probation officers, in order to provide a more adequate service. It was anticipated that at least a partial revision of these "yardsticks" would be recommended in 1955-56. Because of the over-all financing problems, and particularly the substantial increase in staff required because of the Probation Department case loads, it has been impossible to recommend any revision.

The Probation Officer has been assured, however, that, to the extent the recommended appropriation for his department will permit, if any, the allowance of additional personnel will be recommended during the year in order to begin the lowering of case loads per probation officer.

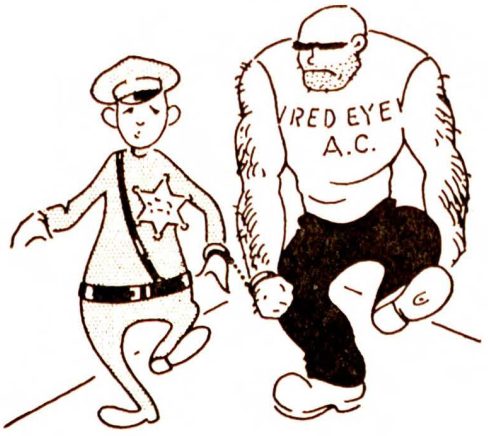

JUVENILE HALLS

The 1955-56 budget will reflect, for the first time, the full operating capacity of the new Juvenile Hall facilities in downtown Los Angeles. All of the new units have been completed, and only minor items remain unfinished in the program of rehabilitating the older structures. The necessity to provide year-around staffing for the enlarged institution produces a substantial increase in appropriation requirements for this facility.

The new Juvenile Hall at Rancho Los Amigos is expected to get under construction early in 1955-56. The first operating expenditures will be reflected in the 1956-57 budget. However, a General Fund appropriation to provide the financing for desired additions to the basic structure which will be provided by the bond issue is included in the recommended Capital Projects appropriation.

SHERIFF

The Sheriff's budget presents a particular problem this year in that the original requests by the various divisions were most carefully screned by the department at the administrative level and still, as presented, represented an increase of almost 25%. The requested increase is exceptionally well justified. With the utmost co-

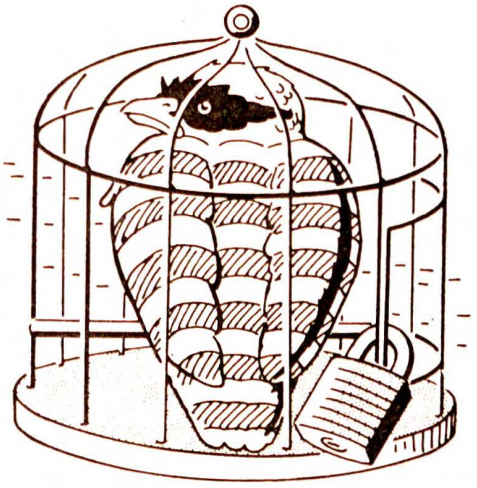

operation of the Sheriff, the Undersheriff, and his division heads, it has been possible to recommend to your Board a budget containing less than half of the requested increase. It must be emphasized, however, that, in many fields, nationally recognized standards for police staffing cannot be met without further substantial increases in personnel.

The situation is particularly acute insofar as the Patrol Division is concerned. It has been necessary to recommend 70 additional deputies in this division to provide additional car shifts essential to the protection of the citizens.

Included in the factors which will bring about improved efficiency without a material increase in cost are the establishment of a Planning and Research Section for long range planning and administrative research, a new Industrial Relations Detail in the Detective Bureau to centralize responsibility for operations in relation to labor grievances, jurisdictional disputes, and strikes, and a new Headquarters Detail, also in the Detective Bureau, to provide immediate and concentrated investigation in those areas and upon those offenses where it is believed the greatest effect can be achieved. The recommndations also provide for one of two helicopters requested, to increase the effectiveness of the Aero Detail.

The Sheriff has submitted a request for expansion of his Narcotics Detail by the addition of 32 employees. While there can be no doubt that this increase of approximately 95% would be effective in controlling narcotics, it is believes to be of sufficient importance to be presented as a policy matter for determination by your Board, and is not included in the recommendations.

JAILS

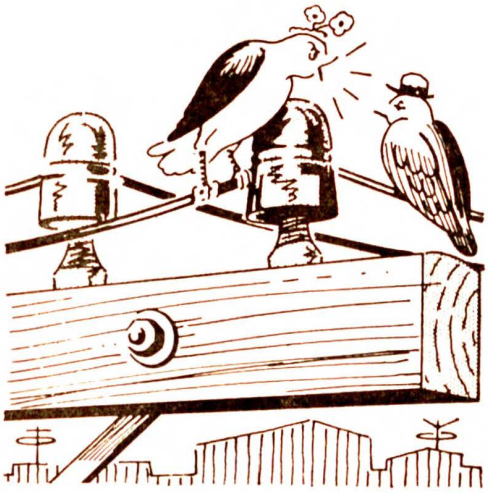

While limited appropriations are included for necessary improvements to the jail system, the only substantial increase in jail capacity from pro-

jects in process will be that realized with completion of the new Maximum Security Unit at Wayside Honor Rancho. It must be called to the attention of your Board, however, that this addition will not be available until 1956-57, that the prisoner population in the various jails will again present a critical housing problem prior to the completion of this new facility, and that the new unit, when completed, will not provide relief for more than about two years. Planning for substantial expansion of jail facilities must be a matter of top priority. Studies on this matter will be completely reviewed and brought up-to-date and a report submitted to your Board early in 1955-56. It apears at this time that it may be necessary to plan for the earliest possible construction of a major addition to the main jail and the possible construction of a women's facility. A bond issue proposal for 1956 may be a necessity. To provide for interim relief, some expansion of existing facilities will most certainly be required.

PARK AND RECREATION

The recommendations for this department provide for approximately the same level of service as now being rendered, with the exception of the Play Leader program in the schools. Under the formula by which these play leaders are provided, substantial increases in personnel will be necessary because of new schools which qualify for the program. In terms of recreational benefits per dollar expenditure, this is a most advantageous operation, since it provides a very valuable community recreational service which would otherwise necessitate the expenditure of large sums for physical playground facilities. Other personnel increases result from the expansion of regional facilities during the current fiscal year, and from the necessity for proper staffing of the departmental service and housekeeping functions.

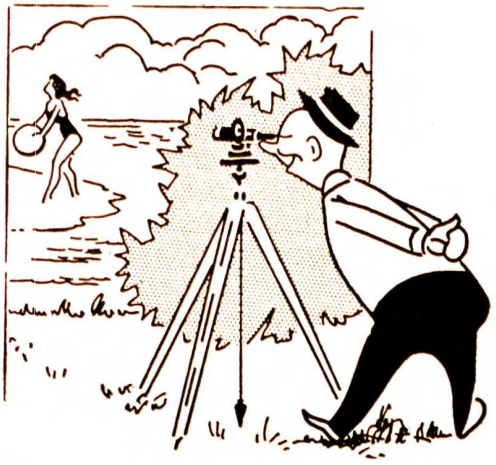

Funds are provided in the Capital Project appropriation to meet some of the more pressing needs for additional construction in regional facilities and to continue development programs in effect in the current fiscal year.

DEPARTMENT OF COMMUNICATIONS

During 1955-56, the new Department of Communications has assumed jurisdiction over all of the activities upon which the establishment of the department was based. Some of these activities were financed in the departmental budgets in 1954-55, and their transfer now reflects as an increase in the appropriation of the Department of Communications. In addition to assuming these added functions, rapid progress is being made in the improvement of the County's communication facilities, particularly, telephone service. Installations already made and others contemplated for the very near future will have some effect on the monthly telephone bills, but will eliminate almost all of the complaints which have been received regarding the County's telephone service.

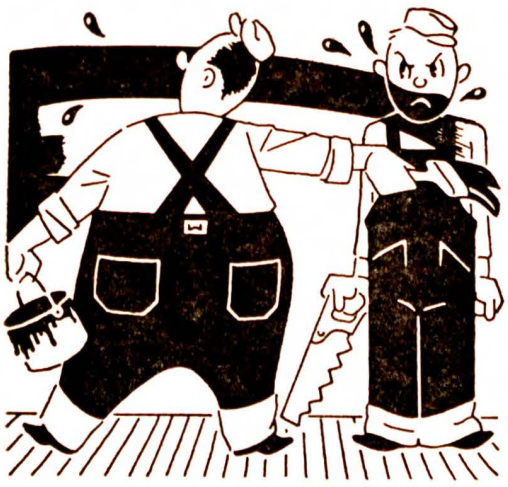

COUNTY ENGINEER

It has been necessary to recommend substantial increases in the budget for the County Engineer. Your Board will recall that, several times during the past year, additional positions for the County Engineer have been created by resolution upon recommendation of this office. Even with this additional personnel, the County Engineer has not been able to keep pace

with the demands of the County's construction program. While additional personnel for the coming year has been held to a minimum, it has been necessary to provide funding for the 93 positions authorized during the current year, and for certain additional positions essential to balance the operation of the department.

Subsequent to the adoption of the preliminary budget, the County Engineer and representatives of this office will attempt to set definite schedules of completion for every project in the 1955-56 construction program, and to determine the staff requirements and to accomplish all budgeted items. During 1954-55, the construction program has fallen even further behind, and it is intended to take whatever steps are necessary in 1955-56 to substantially complete the entire budgeted program. Should it be necessary to recommend additional personnel for this purpose, no additional appropriations will be required, since the entire cost thereof is already included in the appropriations for Capital Projects.

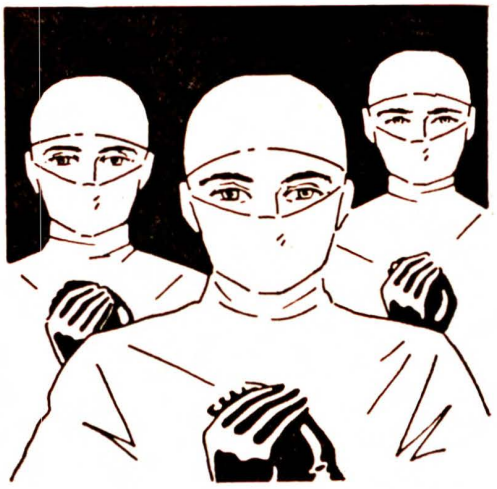

MECHANICAL DEPARMENT

The increase in the Mechanical Department appropriation reflects the additional maintenance costs which are incurred as existing structures become more obsolete, as well as those accompanying the utilization of added space, both County-owned and rented. Also included is a substantial amount to meet the requirements for space alterations required by the reassignment of space to departments. A primary factor in the total appropriation for this department is the increase in janitor and maintenance services for the outlying administrative areas, particularly the various court buildings which have been constructed in recent years.

CHARITIES - INSTITUTIONS

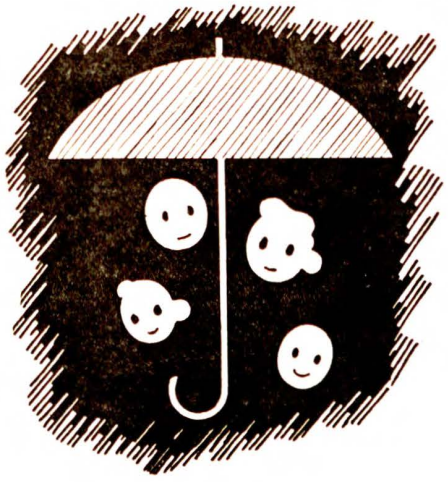

Continuous improvements in medical care are constantly shortening hospital stay for most types of patients. Thus, through greater turnover, the five County hospitals—without any significant expansion of

existing facilities—are actually providing care for a much greater number of individual patients, despite a declining daily average in-patient load. In the two general hospitals, Los Angeles County General Hospital and Harbor General Hospital, admissions have increased 26% in the past five years, and births have increased 51%.

Hospital costs per patient day are becoming increasingly expensive. This is partially because of the recognition being given to the therapeutic value and economic advantages of home care rather than institutional care during the convalescent and less expensive treatment period.

With the opening of the new Communicable Diseases Hospital in April, 1955, and the earlier opening of the Post-Polio Unit at Rancho Los Amigos, this County is undoubtedly the best equipped in the country to combat communicable diseases. The community can look on this institution with a great deal of pride. At the same time, medical advancements, particularly in the field of polio, indicate the possibility that, in the not too distant future, it may not be required for the purpose for which it was constructed, but may be used for the treatment of other types of disease.

PUBLIC ASSISTANCE

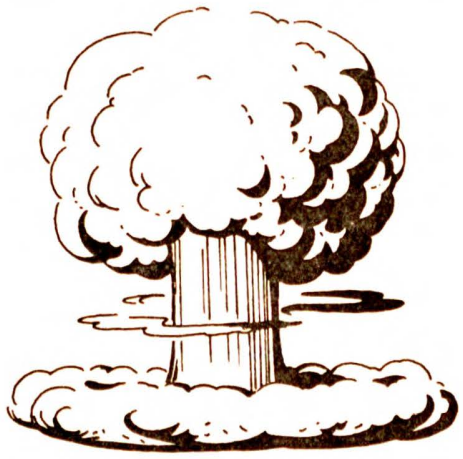

The net County requirements for the public assistance programs and their administration reflect a rather substantial increase. In 1954-55, these appropriations were held to an absolute minimum in anticipation of decreasing case loads and reduced case costs. The latest case load trends indicate that the 1954-55 requirements of

General Relief and Aid to Needy Children programs, which are the most costly to the County, will be well in excess of budgeted appropriations and will necessitate supplemental funding. For 1955-56, the aid programs are based strictly on current trends and experience.

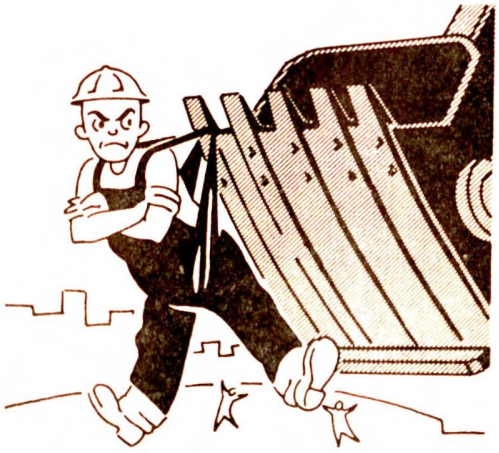

The over-all increase in appropriations is only 1.1%, due primarily to a very substantial reduction in the Old Age Assistance case load, of which cost the County bears only a small percentage. However, the net County cost for all of the public assistance programs will increase by $2,010,622, or 7½%, and reflects the trend in the Aid to Needy Children program, of which approximately 21% is borne by the County, and in General Relief, which is a full County responsibility.

CIVIL DEFENSE-DISASTER RELIEF

The 1954-55 preliminary budget for Civil Defense-Disaster Relief included funding for only the 5 positions comprising the basic administrative structure. At the time of adopting the final budget, a request for personnel, supplies and equipment for conducting a population dispersal survey was presented as a policy matter and approved by your Board, in the amount of $69,000.

For 1955-56, Civil Defense is budgeted at the same level of service as that originally provided in the 1954-55 preliminary budget. The recommendations provide $66,152 for the basic civil defense structure, and $161,938 in various departmental budgets for activities directly related to the Civil Defense-Disaster Relief effort. In addition, the Director of Civil Defense has requested $35,046 to continue the population dispersal survey for six months, and $72,926 to expand and intensify service at the local community level. The expansion of the civil defense activities and the continuation of the population dispersal survey are considered to be policy matters for determination by your Board, and the Director of Civil Defense wishes to discuss his request prior to adoption of the preliminary budget.

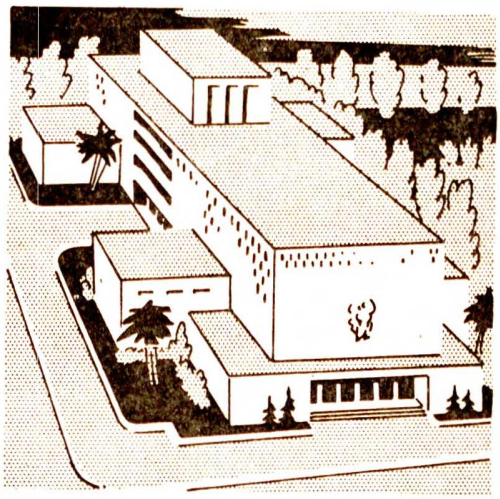

CAPITAL PROJECTS

The total requirements of $21,765,497 for General Fund Capital Projects is an increase of $3,674,999 over the appropriation in the final 1954-55 budget. However, of this amount, $4,581,-500 is for the purchase of land for buildings to be financed by the Retirement Association, and is completely offset by revenue. The appropriations are included in the recommended budget so that, in the event condemnation is required, the County's right of eminent domain can be utilized.

The recommended amount also includes $6,192,251 for projects budgeted in the current fiscal year which cannot be completed and which must be re-appropriated. The carry-over of certain other projects will also be required, but, at this time, it is not known which specific ones will go to contract this year. The General Fund Unappropriated Reserve includes funding to cover the estimated amount of these additional carry-over projects.

In general, the recommended appropriations for new projects are restricted to those on which commitments have been made, and to the funding of land acquisition and plans for projects to be constructed in 1956-57. The net appropriation for new projects is $10,991,746, an increase of $899,680 over 1954-55.

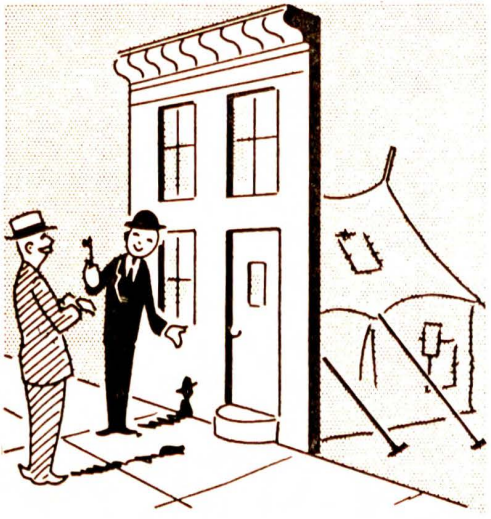

SUPERIOR-MUNICIPAL COURTS BUILDING

By the end of the coming fiscal year, the new Superior-Municipal Court Building will be approximately 50% complete, and the County will be well on the way to obtaining its first courthouse since the 1933 earthquake. An ad-

ditional appropriation of $2,000,000 is included in the recommendations to increase currently available funds for the construction and equipping of this structure. Pending actual award of contract, the total requirements are unknown. Any additional funding which will be required can be provided in the 1956-57 budget.

HARBORS AND MARINA

During the current fiscal year an engineering services contract for an economic survey and a preliminary design of the proposed Marina was approved by your Board. Also during the current fiscal year, $2,000,000 was allocated by the State of California as a contribution toward this project. Federal appropriations for the same purpose appear to be forthcoming. In order to utilize these funds from the State and Federal levels, it is necessary for the County to provide additional funding for its share of the cost of proposed improvements. Accordingly, the recommendations provide for an additional $250,000 to be placed in the Accumulative Capital Outlay Fund for this purpose. This will bring the total of available funds, after financing of the Engineering Services Contract, to $450,000.

RENT EXPENSE

The necessity to rent additional quarters to house County activities pending the construction of additional facilities, and the increase in rates for leases which have expired, necessitates an increase in the appropriation for Rent Expense of $241,259. No reduction in this appropriation appears likely until such time as major structures now in the planning stage are completed.

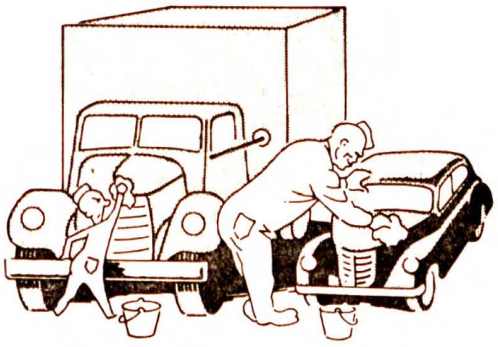

RETIREMENT FUND

The appropriation for the County's contribution to the Retirement Fund reflects the third and final step

of the increased contribution rate required as a result of the last actuarial survey. Subject, of course, to the results of the next actuarial survey, which will be started during this coming fiscal year, future appropriations for this purpose will require adjustment only to the extent of additional personnel and salary adjustments.

MOTOR VEHICLES

While the appropriation for Fire Apparatus and Motor Vehicles reflects an increase of $213,600, this increase is partially offset by additional revenue in the amount of $140,400. During the current year, the Purchasing Agent has experimented with the disposal of replaced automobiles by auction sale, rather than by trade-in. The results of the experiment indicate clearly that this policy is a financial advantage and should be continued. Under the trade-in method, the amount of the trade-in is retained in the appropriation and is available for expenditure, but the proceeds of the auction sales accrue to revenue and are not expendable.

The total recommendation provides for a net increase of only $73,200 over the current fiscal year, but will be sufficient to purchase the necessary vehicles. In 1954-55, the Purchasing Agent secured extremely favorable bids on passenger cars on a quantity basis, and anticipates similar favorable prices in 1955-56. The reduction in purchase cost further increases the economic advantages gained from the lower depreciation and operating costs per mile through earlier replacement.

ROAD DEPARTMENT

Each year the problem of financing urgently required road construction becomes more acute. The additional maintenance requirements for the existing

system are increasing at a faster rate than are available revenues, and the amount available for new construction becomes less and less adequate. In 1955-56, this condition is further accentuated by the fact that the reduction in available surpluses more than offsets the increase in revenues, and appropriations for 1955-56 are actually less than those in the current year. This indicates the fact that the Road Department is making rapid strides toward the elimination of its backlog of construction projects, and that, within the next few years, virtually all appropriations in each year's budget will either be expended or encumbered during the year.

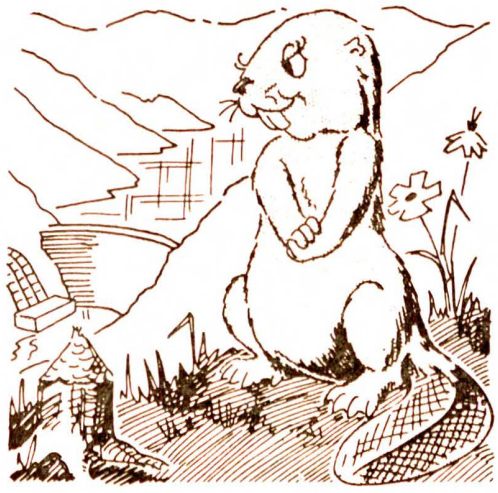

In addition to its normal maintenance and construction program, the Road Department is now faced with two major problems. The first is the financing of a new administration building for which plans are in preparation, and which is urgently needed to provide for the space requirements of the Road Department, and in turn to permit the County Engineer to utilize space now being occupied by the Road Department. The second is the necessity to plan for the County's share of the financing which will be required to realign and improve the streets in the immediate vicinity of the Civic Center, which must be accomplished prior to the completion of the new Superior-Municipal Courts Building and the Administration Building. No financing for either of these problems is permissible in 1955-56 because of the limitation of available funds.

PUBLIC LIBRARY

For the past two years, the budget of the Public Library has been

based on an 8 cent tax levy. Actually, the 1953-54 tax rate was $.0765, and the 1954-55 rate was $.0831. Commitments for the construction of new branches, together with requirements for salary adjustments and circulation needs, will not permit a satisfactory level of operation during the coming fiscal year at an 8 cent rate. The recommendations are based on an 8½ cent rate, and still provide only for a minimum level of service and for financing of only a portion of the additional branches on which definite commitments have been made in 1955-56. However, normal surpluses and decreased requirements for salary adjustments in future years should permit a more liberal level of both service rendered and construction without a further increase in the tax rate.

FLOOD CONTROL

The increase in financing requirements for the Flood Control District is almost entirely offset by additional surplus and revenues, and it is estimated that the total tax rate for all activities will increase by only $.0045. However, the appropriations do not reflect the full growth of the department, as a major portion of its activity is being directed toward storm drain projects which are financed from bond funds and are, therefore, not reflected in the budget. During 1955-56, the program of storm drain plan checking will be accelerated by approximately 50% to insure the completion of the over-all program on schedule.

An important aspect of the 1955-56 budget is that a greater proportion of County funds will be advanced or expended on Federal projects. The recent completion of two major Federal Flood Control projects in Southern California will result in the release of additional Federal funds for expenditure on channels within the Los Angeles drainage system. This shift of Federal funds to smaller construction projects will require an accompanying increase in financial participation by the Flood Control District.

POLICY ITEMS

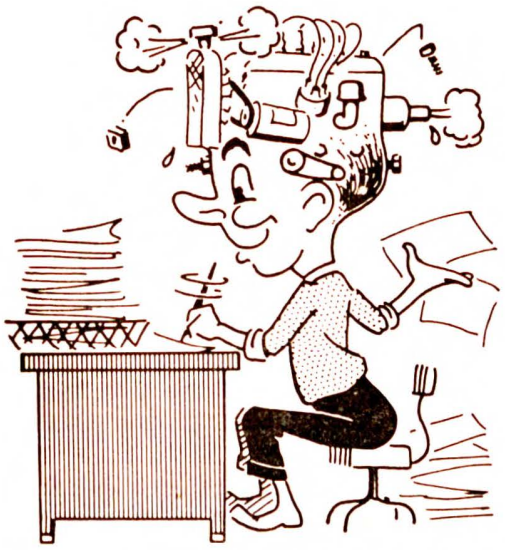

As in past years, the recommendations for the appropriations entitled Exploitation, Exposition, and Aid to Other Governments as Authorized by Law are intended only as suggestions for the guidance of your Board. Each of the individual appropriations included therein is considered to be subject to policy determination. Should any revisions be desired, it is suggested that they can be made either at the time of adopting the preliminary budget, or when the final budget is adopted at the close of the public hearings.

Two items involving departmental requests, not included in the recommendations, are also submitted for policy determination—the request of the Sheriff for expansion of his Narcotics Detail by 32 positions, and the request of the Director, Civil Defense for continuation of the population dispersal survey and expansion of service at the local community level.

ELECTRONIC DATA PROCESSING

As authorized by your Board, this office is proceeding with its analysis of the feasibility and economics of an "Electronic Data Processing Machine" installation. In the earlier stages of this very complex analysis, emphasis is being placed on the field of assessing, billing, collecting, and apportioning property taxes. The study, which had to be interrupted by budget analysis needs of this office, had reached a point where sufficient data was available to indicate substantial potential savings and improvement of service.

It is planned to pursue this study most aggressively in the forthcoming year, not only in relation to the tax assessing and collecting procedures, but other operations as well. The counting of ballots and the accounting for payrolls and welfare payments appear to be fruitful areas for application of this incredibly fast and most flexible type of machine installation.

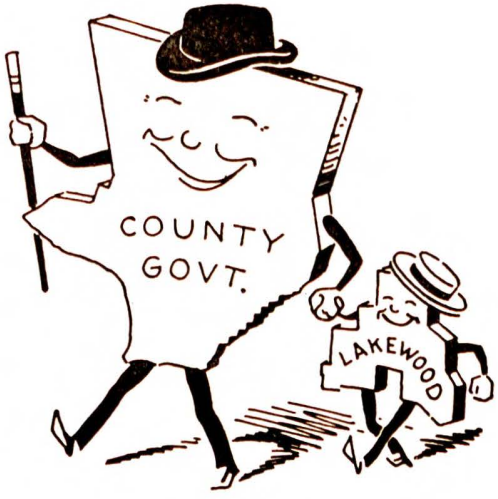

With the cooperation of the department heads involved and the electronics engineers of the Communications Department, a specific program of action, including anticipated savings which will result, will be presented to your Board during the coming fiscal year.

BOND ISSUES

In the past year, the voters approved bond issues for the Maximum Security Unit at Wayside Honor Rancho, the new Juvenile Hall facility at Rancho Los Amigos, and the Osteopathic Hospital. All three of these projects will be under construction during the coming fiscal year. The requirements to fund the interest payments and bond redemption for these issues, together with the issues for the present Juvenile Hall and the Communicable Diseases Hospital, will necessitate an increase of $912,701 in financing requirements. The Interest and Sinking Fund appropriations provide for principal payments on all bond issues except those for the new Maximum Security Unit, for which bonds are expected to be dated after June 30. The 1956-57 requirements for General County bond issues will be slightly larger because of the inclusion of a principal payment for this issue, but in succeeding years should reduce as the outstanding bonds mature.

CITY OF LAKEWOOD

The budget provides for the continued performance by County departments of municipal functions requested by the City of Lakewood. The unique features of the County-Lakewood arrangement were mentioned in last year's budget message to your Board. This office is pleased to report that the Lakewood partnership plan with

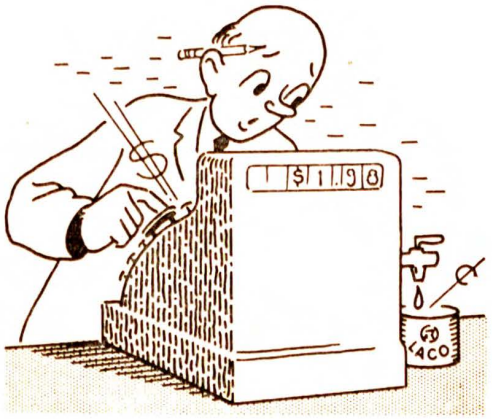

County government has prospered and is operating smoothly and satisfactorily. Aside from the national interest created by this arrangement and its continued study and observation by other units of government throughout the state and the nation, the most common comment received is one of amazement at the utter lack of conflict and operational complications between the City and the various County operating departments. This is due in no small way to the excellent services and cooperative attitude manifested through County department heads and their operating personnel.

All municipal-type services received by the City of Lakewood are fully reimbursed, including both direct and indirect cost. These reimbursements appear as revenue items offsetting the cost of services for Lakewood as included in the various departmental budgets.

LEGISLATION

The preliminary budget does not reflect the effects of any legislation now under consideration in Sacramento. There is ample opportunity to include any necessary changes in the final budget, at which time a more accurate determination of legislative enactment will be possible. Some of the major programs under legislative consideration, such as the water problem and the Governor's tax program, will have no effect on County finances. The primary legislative proposals which would be reflected in the budget are the sales tax, the repeal of the Torrens Title law, and the mental health program sponsored by this County.

It now appears that any legislation designed to permit the counties the privilege of levying a sales tax on a permissive basis only, will fail to pass. This unfortunate circumstance results from an impasse between the League of California Cities and the Supervisors Association over county rights to levy a sales tax in the cities. Favorable action on the sales tax legislation would have provided a potential source of some ten million dollars per year through a one per cent tax in the unincorpor-

ated area, and at least an additional fifteen million dollars under a one-fourth of one per cent tax in the incorporated area.

Repeal of the Land Title law (Torrens Act) is assured, reflecting legislative execution of the authority granted by favorable vote of the people in amending the State Constitution at the last general election. This will eliminate the duties of the Registrar of Titles, a separate unit in the Recorder's Office. Hereafter, the Recorder will assume the responsibility of recording all documents. Elimination of land title registration activities will permit a reduction in the final budget of 25 positions and $92,275.

The mental health program, sponsored by the County, has passed the Assembly Committee on Social Welfare, and has been referred to the Assembly Ways and Means Committee, where its consideration will be postponed until after state budget matters have been determined. Should the program be finally enacted, it will result in a savings of approximately 3 million dollars to the County. However, even if the County's program of revising commitment and treatment procedures and of establishing a new category of seniles is not enacted, there is a very good chance for passage of companion legislation permitting Federal participation in categorical aid grants and in state subsidies for institutional care for the aged and blind. This would result in increased revenue to the County in the approximate amount of $500,000.

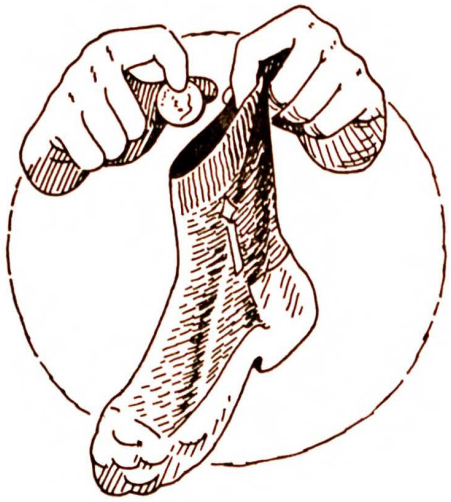

Other minor items of legislation affect process serving fees, court filing fees, and inheritance tax fees collected by the Treasurer. If successful, these legislative items will result in some minor revenue increases to the County.

While legislation has been proposed to provide state subsidies for the construction of probation camps and juvenile homes, as well as state subsidies for the care of non-resident tuberculars, it is far too early in the

session to accurately determine their chances of final enactment.

Legislative proposals for financing alcoholic clinics have not crystallized sufficiently to permit the budgeting of funds for this program. The alternative proposals under consideration—operation of state clinics or permissive authority for County supported ones—would have a significant effect on financing requirements.

UNAPPROPRIATED RESERVES

There is included herein a Salary Fund Unappropriated Reserve of $7,487,000 to fund the requirements for adjustments in salary rates in accordance with the salary survey. Subsequent to adoption of the new Salary Ordinance, the funding requirements of the individual departments will be computed and adjustments will be recommended to your Board for incorporation in the final budget, which will eliminate the necessity for the reserve.

The General Fund Unappropriated Reserve of $8,205,787 includes items which could not be specifically allocated in detail in departmental appropriations prior to adoption of the preliminary budget. The major portion thereof, $7,637,683, represents Capital Projects which it is estimated will not go to contract this year, and which will have to be rebudgeted in 1955-56. Any variation in this figure at the time of adopting the final budget will be exactly offset by variations in available surplus and will not affect the tax levy.

This reserve includes $500,000 for the polio immunization program, the complete details of which have not yet been developed. The cost estimate of $500,000 is made by Dr. Gilbert on the basis of injections to an estimated 110,000 children in the first and second grades of all public, private, and parochial schools in the area under the jurisdiction of the County Health Department. This involves 41 of the 46 incorporated

cities and all the unincorporated area of the County. It is anticipated that the detailed program will be developed prior to the adoption of the final budget and the proper adjustments can be recommended within the departmental appropriation, with the elimination of the item in the Unappropriated Reserve.

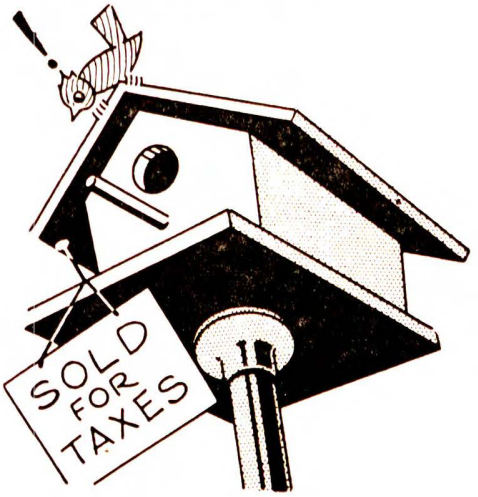

The remainder of the General Fund Unappropriated Reserve, $68,-104, is to fund the estimated costs of adjustments in the board and care rates for children in institutions under the jurisdiction of the Bureau of Public Assistance and the Probation Department. An annual survey of board and care rates is made by this office, and recommendations for revisions to conform to results of that study will be presented to your Board in the near future.

GENERAL RESERVE

The General Fund General Reserve is recommended at the same low figure as in the current year, $1,000,000. This should be adequate until such time as the budgeted Capital Project program can be substantially accomplished within the budget year. At such time, it will be necessary to recommend an increase in the General Reserve to cover contingencies. It should be borne in mind that this Reserve Fund, the only emergency fund available without the cancellation of specific appropriations, is less than one-third of one per cent of the total General County budget requirements.

The General Reserve of $1,000,000 in the Accumulative Capital Outlay Fund is the amount which has been accumulated as an Insurance Reserve, and is considered to be adequate to cover any likely loss to County structures through disaster. The General Reserves for the

Interest and Sinking Funds are to meet bond issue interest and principal payments which become due prior to the first collection of taxes.

RESERVE FOR DELINQUENCY

In 1953-54, it was necessary to establish a delinquency reserve of 3½%, instead of the normal 2%, to cover the possible loss of tax revenue from protested assessments of aircraft inventories utilized in Federal contracts. The additional 1½% has been impounded. In 1954-55, these inventories were substantially reduced and the necessary delinquency reserve was 2½%, of which approximately 20% was again for the purpose of covering protested assessments. For the coming fiscal year the delinquency provision is the same as last year—2½%. Except for the protested assessments, the requirement would be 2%.

AVAILABLE SURPLUS

Current estimates of available surplus indicate a reduction of $1,642,526 in the amount which will be available from the current year's budget to finance 1955-56 operations. Were it not for the fact that construction of many major capital projects has been necessarily deferred, the available surplus would be much lower. The estimated net available surplus, after financing carry-over capital projects, will be $7,474,028 less than that of 1954-55. Major items effecting this decrease were the unusually severe curtailment of 1954-55 appropriations, the optimistic estimates of revenue included in the 1954-55 budget, and the $3,000,000 reduction in the 1954-55 General Reserve. This reduction in net available surplus alone represents 11.1 cents of the estimated increase in the tax rate.

REVENUE

The estimated revenues which will be available to finance the County's operations reflect a very substan-

tial increase. The major factor in the increase is the $4,581,500 representing reimbursement which will be received from the Retirement Fund for the purchases of land on which buildings to be financed by that fund will be constructed. This amount is exactly offset by appropriations. Also included is $1,478,760 representing reimbursements from the Retirement Fund for the cost of architectural contracts for the Administration Building, the new Hall of Records, and the Central Heating Plant, which have been previously financed from the General Fund.

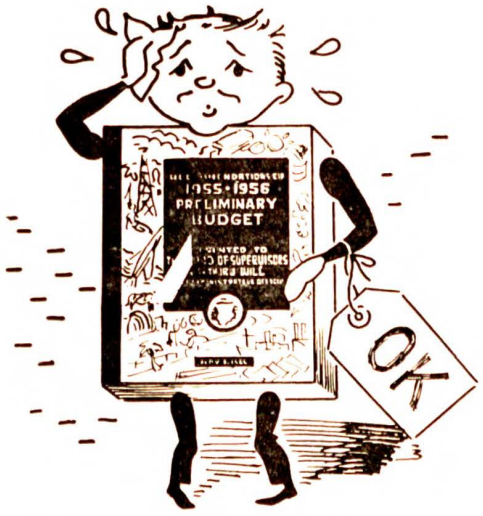

Other revenue increases reflect the added activities of County departments, particularly those of a revenue producing nature, such as the County Engineer, Recorder, etc. Revenue from Subventions and Grants will not be substantially increased; primarily because of the rather sharp reduction in the aged aid case load, the cost of which is 92% reimbursable by the State and Federal Governments.

AGREEMENT OF DEPARTMENT HEADS

As has been the case for the past several years, the recommended budget is presented with almost 100% agreement of the department heads involved, as indicated by signed stipulation sheets on file with the Clerk of the Board. The Chairman of the Retirement Board is out of the City and could not be reached for indication of his agreement or disagreement with the recommended County Employees Retirement Fund appropriation, which does not provide for the inclusion of the $1,000,000 deducted from the 1954-55 request. He may desire to make a

presentation to your Board prior to the adoption of the final budget. The Sheriff has indicated his agreement with the recommended apropriations, but asks that you be advised of his willingness to discuss with your Board his request for an increase of 32 positions in the Narcotics Detail, if you so desire. The only matter upon which a department head has indicated a specific desire to appear before your Board is that of Civil Defense, which is considered to be a policy item, and involves a continuation of the population dispersal survey and an expansion of local community service. The Director of Civil Defense will be in attendance at the time the preliminary budget recommendations are presented.

ADOPTION OF THE PRELIMINARY BUDGET

The Administrative Code requires that the printed preliminary budget be available before the first of June and that public hearings begin on or before June 10. In the interim period, this office will review the status of legislative proposals which will affect the appropriation and revenue requirements of this budget, and will review with the department any circumstances which have arisen subsequent to our analysis of the budget requests, and which should be reflected in the final budget. Recommendations for the adjustment of salaries will be presented to your Board for consideration and adoption as the 1955-56 Salary Ordinance. Prior to the close of the public hearings, this office will present the recommended adjustments to be effected in the various departmental appropriations. The Unappropriated Reserves will be eliminated, since the items provided for therein will be included in these adjustments.

In order to insure compliance with the calendar established by the Administrative Code, and to allow the Auditor-Controller sufficient time for the compilation of figures and the preparation of copy for the printer, it is essential that the 1955-56 preliminary budget be adopted at the earliest possible date. It is therefore

RECOMMENDED:

That your Board immediately hear the presentations of the department heads who may wish to appear, and who will be in attendance at the time these recommendations are presented; and that, after such hearing, your Board order such changes as desired, adopt the recommendations as revised as the preliminary budget for 1955-56, order the publication of the necessary notice, and instruct the Auditor-Controller to proceed with the printing.

APPRECIATION

I must commend, to your Board, the department heads for their very cooperative attitude in regard to the recommended reductions from their requests. In each succeeding year, these department heads are becoming more and more painstaking in screening their requests to a minimum before formal presentation. The fact that substantial reductions can still be recommended after this careful screening clearly indicates the extent to which the department heads have cooperated in holding the tax levy for 1955-56 to a minimum.

As previously stated, the task of analyzing the various departmental requests and preparing these recommendations for presentation to your Board was especially difficult this year because of the limited available staff in this office. I am deeply gratified with the unselfishness of my staff in giving so generously of their time, and with the efficiency with which these analyses were made, in order that this detailed budget document might be printed and assembled for presentation to your Board.

Respectfully submitted,

ARTHUR J. WILL
Chief Administrative Officer

Board of Supervisors

Elective. General governing body of the County and of many Special Districts. As a legislative body, enacts ordinances and rules within limits prescribed by State legislation, State statutes, and the County Charter. As an executive body, administers activities of County departments and many Special Districts. Adopts County budget and fixes salaries, excluding its own and those of the municipal and superior court judges. The Chief Administrative Officer assists and recommends to the Board of Supervisors on administrative supervision and control of County affairs. The Clerk of the Board performs clerical functions for Board and a variety of related duties. Supervisors' salaries, publication of ordinances, certain advertising and reports are mandatory in this budget.

Tax Collector

Appointive. The Tax Collector is charged with the responsibility of collecting and distributing current, delinquent, and unsecured personal property taxes. Where taxes are uncollected, it is necessary to prepare a delinquent roll, advertise the list of delinquent properties and report to the State Controller all properties sold to the State for the initial year's delinquency. The Tax Collector must conduct all sales of tax deeded property after due notice to owners, and issue all deeds. Under a charter provision, the Tax Collector also acts as license collector and collects all business and regulatory licenses.

Civil Service Commission

Created by Charter, with Commissioners appointed by the Board of Supervisors. The Civil Service Commission is responsible for the following: classification and determination of the duties of all positions in the classified service, recruiting of employees, training programs for County employees, fixing standards of performance efficiency, and the handling of such inservice matters as payroll checking, transfers, leaves of absence, efficiency ratings and separations from service. The Commission also performs many of the above services for various cities, on a contract basis.

Municipal Courts -- Summary

Established pursuant to uniform system of inferior courts provided by Assembly Constitutional Amendment Number 49 approved by electorate at 1950 General Election. Regulation, procedure and jurisdiction of municipal courts are governed by Municipal and Justice Court Act of 1949, Act 1880, Deering's General Laws. Municipal courts operate in judicial districts of over 40,000 population; these districts are created by the Board of Supervisors pursuant to Act 3906, Deering's General Laws. The salaries and number of judges are established by Section 12.5, Act 5238, Deering's General Laws. The salaries and number of clerks and attaches in each municipal court are fixed by Act 4475, Deering's General Laws. All expenses of municipal courts are a charge against the County The County has no budgetary jurisdiction over the number of attaches, judges, or their salaries, nor over such mandatory expense items as interpreter's fees, jury fees, and mileage, reporting and transcribing fees, witness fees and expenses.

By General Classification	Requested	Allowed

Justice Courts

Justice Courts are established pursuant to Assembly Constitutional Amendment Number 49 approved by electorate at 1950 General Election. Regulation, procedure and jurisdiction of justice courts are governed by the Municipal and Justice Court Act of 1949, Act 1880, Deering's General Laws. Salaries for judges and attaches as well as the number of positions are fixed by the County of Los Angeles. Justice courts operate in judicial districts of 40,000 population or less as created by the Board of Supervisors pursuant to Act 3906, Deering's General Laws. All operating expenses of justice courts are a charge against the County.

Superior Court

Necessary expenditures for the operation of the Superior Court. The Code of Civil Procedure fixes the number of judges for Los Angeles County, and the Political Code fixes the salaries thereof. The salaries of various attaches of the court are fixed partly by state law and partly by the Board of Supervisors. Mandatory items include: salaries of judges; court secretary and assistants; court commissioners; jury fees and mileage; reporting and transcribing; jurors' transportation, meals and lodging; witness fees and expense; outside judges' expense.

Marshal, Municipal Courts

Established by authority of Act 4475, Deering's General Laws which creates one Marshal to serve all municipal courts established in judicial districts in Los Angeles County. The Marshal of municipal courts is appointed by a majority of the municipal court judges, and supersedes the eight marshals formerly serving each of the eight municipal courts operating prior to reorganization of the inferior court system. Executes, serves and returns all writs and processes directed to them by municipal courts or other competent authorities. Acts as bailiff of the municipal courts. Salaries of the Marshal and his attaches and the number of positions are fixed by the above statute... All expenses of the Marshal's office are a charge against the County of Los Angeles.

Recorder and Registrar of Titles

Appointive. Evidence of ownership of all land in the County and of those having liens or encumbrances upon the land are based upon the records in the Recorder's office. Duties of the Recorder are to accept for recordation or filing, to transcribe and index same, in the manner prescribed, those documents, instruments and papers and notices provided by the state law to be recorded or filed. Also, under the Health and Safety Code to register all marriage certificates and to file and index all copies of birth and death certificates. Under the Land Title Act (Torrens) the Recorder is made the Registrar of Titles, a separate and distinct department from the Recorder's, whose duties are to receive and register all instruments affecting the real property registered under this Act and to issue Certificates of Title covering same.

Public Administrator

Appointive. Administer estates if the decedent resided or had property in California and had appointed no executor by a will, and left no resident heir who would succeed to any portion of the estate, or where court directs to act. Also includes Public Guardian who acts as guardian of the person and estate of any person in the County of Los Angeles who is a patient at County institution or who is recipient of aid or who is under jurisdiction of Mental Health Department, where it appears the estate does not exceed $5,000 in probable value.

Farm Advisor

The Farm Advisor's Department gives to farmers the result of agricultural research of the University of California and the United States Department of Agriculture. Lectures, demonstrations, farm calls, letters, telephone calls, bulletins, etc., are the means used to disseminate agricultural information to the farmers. The county provides clerical and stenographic assistance, while the University of California pays the salaries of the Farm Advisor and his technical assistants.

Pound Department

The County Poundmaster operates under a county ordinance providing for the licensing of dogs and the regulation and impounding of dogs and other animals in unincorporated territory. This department also places unlicensed dogs in such shelters and pounds as are designated by the Board of Supervisors. Certain fees, fines and penalties are collected for the care of dogs and other animals at the Pound.

Charities—Rancho Los Amigos

Rancho Los Amigos is a hospital for chronic and convalescent patients of all ages, transferred from other facilities of the Department, for post acute care. This includes extended treatment of severely paralyzed post-poliomyelitis, medical and orthopedic cases, as well as those with mental disease. The appropriation covers emergency surgical service for traffic and police cases. It provides also for supplementing the income of needy sick as necessary to procure care in private sanatoria.

APPROPRIATIONS $6,682,396

Charities-Medical Research Funds

This appropriation represents donations from private, non-profit organizations for medical research, and collections from pay patients who are billed the value of professional services of Attending Staff members who donate their services to the County. By agreement between the Board of Supervisors and The Attending Staff Association, all donations and collections are deposited into the Medical Research Fund. Appropriations are made during each year from the fund by the Board of Supervisors for specific research projects.

APPROPRIATIONS $552,000

Public Welfare Commission

The Public Welfare Commission consists of nine citizens appointed by members of the Board of Supervisors. The Commission serves as both an agent of the State and of the Board of Supervisors. As an agent of the State Department of Social Welfare, its staff administers the inspection, licensing and supervision of boarding homes for children and aged where fifteen or less persons are receiving care. This program is paid for by the State. As an agent of the Board of Supervisors, the Commission inspects and reports conditions at County institutions, holds hearings and makes recommendations to the Board on applications to conduct dances, shows, operate billiard halls, and solicit funds for charity, in unincorporated areas.

Jail Store

Under supervision of the Sheriff. Self-supporting. This division, operating in accordance with the Penal Code, purchases confectionery, tobacco and tobacco users' supplies, postage and writing materials, toilet articles and supplies, etc., for sale for cash to County Jail prisoners, and provides revenue to the County General Fund to offset County costs. Profits are deposited in an "Inmate Welfare Fund", kept in the treasury of the County, and are expended by the Sheriff solely for the benefit, education and welfare of the inmates confined within the County Jail.

Detention Camps

Under supervision of the Sheriff. This unit of the Division of Corrections is designated as an integral part of the County Jail and the Sheriff's correctional system. These units were established for the purpose of providing useful employment of prisoners remanded to the custody of the Sheriff under conviction of misdemeanors by the Courts. Employment consists of building and maintaining mountain roads and trails. This appropriation provides for salaries and wages, including meals and maintenance, of Sheriff's personnel, serving as combined custodial and care and treatment officers.

Juvenile Hall

Under the direction of the Los Angeles County Probation Committee. Juvenile Hall is maintained in accordance with the Welfare and Institutions Code, to provide temporary care for delinquent and neglected children who must be held in custody pending disposition of their cases in the Juvenile Court. Non-delinquent children are kept separate from the delinquent group.

Biscailuz Center

Under supervision of the Sheriff. This unit of the Division of Corrections, designated as an integral part of the County Jail and the Sheriff's correctional system, has for its purpose the detention, in the Juvenile Facility, of juveniles, 16 to 18 years of age, pending court trial, and provides a balanced program of work, recreation and education, while so detained.

The Adult Facility has for its purpose the housing and safekeeping of adult inmates, and in addition provides care and treatment program and work and maintenance projects under the technical supervision of the Engineer and Surveyor and/or Mechanical Departments.

Public Library

As provided by the Education Code, the Library gives service to residents in the territory taxed for the purpose. The area covered includes all of the unincorporated portion of the County, 20 cities that have elected to join the County Library, and two cities and one library district under contract. Operations cover more than 160 service outlets (branches, stations and bookmobile stops) which provide reference and circulating book service for adults and children, as well as institutions under jurisdiction of the Board of Supervisors.

History, Science and Art

The Department of History, Science and Art has jurisdiction over the Los Angeles County Museum and Hancock Park, site of Rancho La Brea. Operating funds are provided entirely from County appropriations with material for exhibition provided largely from private sources. The Museum is an educational institution for the acquisition, investigation, preservation, publication, display and educational use of valuable historical, scientific or art material. Hancock Park, deeded to the County in 1923, contains the largest known source of late Ice Age flora and fauna.

Arboreta and Botanic Gardens

The Arboretum is a botanical and historical preserve that was acquired by the State and County on a matching basis in 1947. The County is obligated to maintain and develop the Arboretum under an existing lease between the County and the State of California. In conjunction with the development of the 120 acres for public use, botanical research projects are conducted on the introduction, propagation, growing, testing and demonstration of trees, grasses, and plants.

Harbors and Marina

The Department of Harbors and Marina was established by Ordinance of the Board of Supervisors effective November 1, 1954. It was created to provide administrative supervision over development maintenance and operation of small craft harbors, including negotiations with the State and Federal Governments for joint participation.

Soldier Burials

This appropriation is required by the military and Veterans Code, and covers the cost of funerals and perpetual care of graves for honorably discharged soldiers, sailors, or marines, and their widows who die without sufficient means to defray such expenses. The Federal Government provides for the burial of veterans who served honorably during time of war.

APPROPRIATION $1,950

County Fair Grounds

Through this appropriation, funds derived under authority of the Agricultural and Racing Acts and allocated by the State Division of Fairs and Expositions are made available to the County Fair Association for expenditure. The appropriation is entirely offset by revenue other than taxes and, therefore, is not reflected in the General County Tax Levy.

APPROPRIATIONS $3,000,000

Classification	EXPENDITURES Actual Prior Year 1953-54	Actual Current Year To 12-1-54	Estimated Current Year 1954-55	Requested Fiscal Year 1955-56	Allowed Fiscal Year 1955-56

TOTAL COUNTY FAIR GROUNDS	$	$	$	$3,000,000	$3,000,000

Reimbursement to Subdividers

Under authority of the Subdivision Map Act the County can acquire larger size pipe and outfall sewers, constructed outside of tracts in which sanitary sewer construction is required. The subdivider is reimbursed by the County a proportionate share of the cost incurred by additional size or length of such lines. The County, in turn, collects from the property outside the subdivision benefited by the additional sewage facilities when the sewer permits are issued.

APPROPRIATION $314,000

Classification	EXPENDITURES Actual Prior Year 1953-54	Actual Current Year To 12-1-54	Estimated Current Year 1954-55	Requested Fiscal Year 1955-56	Allowed Fiscal Year 1955-56

CHARITIES, HOSPITALS AND CORRECTIONS—Continued				
Charities—General Hospital (3)—Continued				
Garage, Waterproof Roof Deck, (7792)—To repair concrete roof which has become cracked, resulting in leaks in doctors' garage roof and producing a hazard to vehicles and users of this garage.				
.01 Roof Deck Improvements				
Waterproof forecourt over garage, including new cement (19,750± sq. ft.)			62,215	
Architectural and County Engineer services		2,000	3,000	
Total, Garage, Waterproof Roof Deck		**2,000**	**65,215**	
Interns' and Resident Physicians' Home, (7742)—To provide living quarters for doctors who must live on grounds.				
.01 Type I Five-Story Concrete Building				
Construction (130,000± sq. ft.)				
Air conditioning				
Landscaping and sprinklers				
Architectural and County Engineer services				
.02 Equipment				
Single bedrooms (250)				
Reception room				
Kitchen and dining room				
Lounge rooms (10)				
Total, Interns' and Resident Physicians' Home				
Interns' Home, Improvements, (7804)—To provide and maintain living quarters for doctors who must live on grounds.				
.01 Exit Stairway				
Laundry Building, Improvements, (7761)—To provide adequate facilities for work operations and preservation of building.				
.01 General Improvement LACO No. 825				
Plaster patching and painting			23,000	
Lighting			12,500	
Install ventilation system in press rooms			12,500	
Relocate 3 tumblers from laundry room			18,000	
Architectural and County Engineer services		5,500	2,000	
Total, Laundry Building, Improvments		**5,500**	**68,000**	
Marengo Street Entrance, Alterations, (7793)—To reduce traffic congestion caused by the narrowness of existing gate.				
.01 Marengo Street Entrance				
Widen and relocate entrance, install new gate and gatehouse, including electrical connections				
Architectural and County Engineer services				
Total, Marengo Street Entrance, Alterations

Charities—Harbor General Hospital (4)—Continued				
Patients' Dining Room, (7930)—Alterations required to bring structure up to a minimum standard.				
.01 Alterations, Dining Room, LACO No. 2098				
.02 Dining Room Tables and Aluminum Chairs				
Total, Patients' Dining Room				
Pharmacy Addition, (7955)—To provide additional area for prescription counter to relieve present congestion.				
.01 Type V addition				
Construction (2,900 ± sq. ft)				
Air conditioning				
Architectural and County Engineer services				
.02 Basic Equipment				
Total, Pharmacy Addition				
Premature Nursery Improvements, (7932)—To provide for the installation of adequate, modern equipment for the reduction of the mortality rate of premature infants. Minimum modernization and facilities provided under the program are recommended by attending staff physician.				
.01 Premature Nursery Additions and Alterations (400 ± sq. ft.)		3,000	28,000	
Repaint Exterior, Institution Buildings, (7967)—To improve the appearance and preserve County-owned property which has not been painted for several years.				
.01 Exterior Painting				
Repaint all structures				
Architectural and County Engineer services				
Total, Repaint Exterior, Institution Buildings				
Reroof Hospital Buildings and Corridors, (7972)—To replace deteriorated roofs and protect County property.				
.01 Reroofing				
"B", "C", "D", "E", and "G" Wings, all corridors, Administration Building, and 3 pump houses				
(2,400 ± squares)				
Architectural and County Engineer services				
Total, Reroof Hospital Buildings and Corridors				
Soiled Linen Sorting Room, (7968)—To replace temporary shelter for sorting contaminated linens, previously sorted by Rancho Laundry.				
.01 Addition, LACO No. 2099 (400 ± sq. ft.)

Wayside Honor Rancho (5)—Continued				
Minimum Security Unit, Inmate Barracks Replacement, (8593)—To replace existing barracks with sturdy fire-proofed structures.				
.01 Concrete Block Barrack, LACO No. 474 (2,800±sq. ft.)				
.02 Concrete Block Barrack, LACO No. 476 (2,800±sq. ft.)				
.03 Concrete Block Barrack, LACO No. 478 (2,800±sq. ft.)				
.04 Concrete Block Barrack, LACO No. 480 (2,800±sq. ft.)				
.05 Concrete Block Barrack, LACO No. 481 (2,800±sq. ft.)				
.06 Architectural and County Engineer Services				
Total, Minimum Security Unit, Inmate Barracks Replacement				
Motor Pool, Nursery Area, Toilet Facilities, (8630)—To provide adequate sanitary facilities.				
.01 Concrete Block Toilet Building (120±sq. ft.)				
.02 Water Heater, Electric (30±gal.)				
Total, Motor Pool, Nursery Area, Toilet Facilities				
Officers' Dormitory, (8637)—To provide housing for additional personnel who will be needed upon completion of second wing at Maximum Security Unit.				
.01 Two-story Building				
Concrete block construction (8,310±sq. ft.)				
Air conditioning				
Utilities				
Architectural and County Engineer services				
Total, Officers' Dormitory				
Paint Shop, (8596)—To provide necessary storage and work shop for painting and comply with Building and Safety requirements.				
.01 Paint Shop				
Concrete block building, including spray booth and utilities (2,800±sq. ft.)			2,600	
Architectural and County Engineer services				
.02 Construct and Install Spray Booth			2,700	
.03 Move Present Paint Shop to New Location			935	
.04 Provide Electric, Gas and Water Utilities			390	
Total, Paint Shop			6,625

Fire Protection Districts

By order of the Board of Supervisors, the County Forester and Fire Warden is charged with the duty of supervising all County fire protection districts, which are organized under the provisions of the Health and Safety Code. Appropriations are to cover fire prevention and suppression, rescue service, and acquisition and maintenance of district property and equipment. All funds are raised through special district taxes.

APPROPRIATIONS $7,908,830

Sewer Maintenance Districts

Sewer Maintenance Districts are formed under provisions of the Health and Safety Code or the Streets and Highways Code of the State of California. The special districts are created by the County Board of Supervisors to provide for the levy and collection of taxes to defray the expense of maintenance and operation of the sanitary sewers which have been constructed and included within the boundaries of the district. The expenditures include the cost of administration, cleaning, repairing, replacing, operating, and maintaining the sanitary sewers and appurtenances and also the contract cost of water service for sewer flushing and sewage disposal when not otherwise provided.

APPROPRIATIONS $505,300

Waterworks Districts

Under provisions of the County Waterworks District Act or Act 9123 of Deering's General Laws, the County Board of Supervisors has the responsibility for the management and operation of County Waterworks Districts; the issuance of bonds and levying of taxes; the planning and construction of improvements. Under provisions of the Administrative Code, the County Engineer is appointed Superintendent and Engineer of County Waterworks Districts. The Budgets for the Waterworks Districts, under the Jurisdiction of the Board of Supervisors, include provisions for administration, maintenance, operation and improvements, the costs of which are borne exclusively by the districts from revenues derived from the sale of water and/or levies upon the taxable property.
