## Summary Corrective Action Plan

The intent of this form is to assist departments in writing a corrective action plan summary for attachment to the settlement documents developed for the Board of Supervisors and/or the County of Los Angeles Claims Board. The summary should be a specific overview of the claims/lawsuits' identified root causes and corrective actions (status, time frame, and responsible party). This summary does not replace the Corrective Action Plan form. If there is a question related to confidentiality, please consult County Counsel.

Date of incident/event:	July 16, 2020
Briefly provide a description of the incident/event:	On July 16, 2020, at approximately 11:00 a.m., the plaintiff alleges that he was riding his bicycle through the Dockweiler Beach RV Park when the wheels slipped on oily fluid that was present on the roadway and he fell to the ground sustaining fractures to his hip. As a result of the subsequent investigation, it was found that the fluid had leaked from the street sweeper that had been operated earlier by park staff.

1. Briefly describe the root cause(s) of the claim/lawsuit:

A. The sweeper brush became briefly entangled in strands of long grass that were flowing from the grassy area over the curb into the driveway.
B. Oily fluid leaked in large quantity out of the sweeper onto the roadway.
C. A lot of bicycle traffic occurred from the street (Vista del Mar at Imperial Hwy.) through the RV Park to connect to the beach bike path because that was the only paved way to connect at that location.

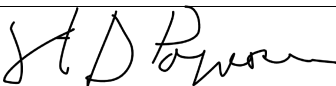

2. Briefly describe recommended corrective actions:

(Include each corrective action, due date, responsible party, and any disciplinary actions if appropriate)

<p>A.1. The Operational Services Division (OSD) is responsible for the landscaping at the Dockweiler RV Park. OSD will inspect and remove any grass present in the roadway on a weekly basis. This is an ongoing activity. The person responsible for this corrective action is John Skinner, Central District Manager.</p> <p>B.1. The operators will stop the equipment and inspect any fluid leak other than water that was purposely released to keep the dust down during sweeping. This is an ongoing activity. The person responsible for this corrective action is John Skinner, Central District Manager.</p> <p>B.2. The equipment was re-assigned to the Operational Services Division from the Community and Marketing Services Division. Though recreation office staff was trained to operate the equipment, operations staff is more suited to operate this type of equipment and is trained to identify potential mechanical issues. This action was completed in September 2020. The person taking charge of the equipment was John Skinner, Central District Manager.</p> <p>C.1. In 2021, Department of Public Works (DPW) built a connector from the beach road to the beach bike path before the entrance/exit to the RV Park to alleviate bicycle traffic through the Park. DPW was responsible for this corrective action.</p>
