Summary Corrective Action Plan

The intent of this form is to assist departments in writing a corrective action plan summary for the settlement documents developed for the Board of Supervisors and/or the County of Los Angeles Claims Board. The summary should be a specific overview of the claims/lawsuits' identified root causes and corrective actions (status, time frame, and responsible party). This summary does not replace the Corrective Action Plan form. If there is a question related to confidentiality, please consult County Counsel.

Date of incident/event:	April 14, 2023
Briefly provide a description of the incident/event:	On April 14, 2023, A 58 year old male patient underwent a complicated hernia repair procedure at Martin Luther King, Junior - Outpatient Center. After being discharged, the patient experienced abdominal pain. The following day, the patient went to an outside facility where it was discovered that he had suffered a bowel perforation as a result of the hernia repair procedure. The patient had to undergo two surgical procedures to repair the perforation.

1. Briefly describe the **root cause(s)** of the claim/lawsuit:

<ul style="list-style-type: none"> • The surgeon relied on imaging reports from a non-DHS hospital. Actual images of these studies were not available to the surgeon for review. The surgeon could have taken steps to obtain the images or should have obtained additional imaging before scheduling the surgery. • During the surgery, the surgeon became aware that the surgery was technically more complex than anticipated. The surgeon should have considered transferring the patient to a hospital for observation after completion of the surgery. • The surgeon did not document pertinent past medical history and past surgical history in the H&P note on 6/1/22. Specifically, the surgeon did not document the date of the preceding appendectomy performed at the MLK Community Hospital. <p>Additional findings addressed in the CAP: The ASC nursing protocol requires nurses to call the patient for a follow-up check within 72 hours or the next business day after a weekend or holiday following surgery or a procedure. When the patient does not answer the call, the protocol required nurses to send a written follow up reminder via mail.</p>
--

2. Briefly describe recommended corrective actions:
(Include each corrective action, due date, responsible party, and any disciplinary actions if appropriate)

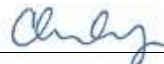

<ul style="list-style-type: none"> • Using the Just Culture evaluation process, all appropriate personnel actions were taken including formal counseling. Additional remediation includes monitoring the surgeon including random audits of the providers notes to ensure that the surgeon reviews outside images and medical records when indicated. • The ASC Nursing Protocol for post operative follow-up was updated. If the nurse is unable to reach the patient on their phone, an additional attempt is to be made to the patient's emergency contact.
