- Sign up for emergency alerts: Go to alert.lacounty.gov to receive emergency notifications, including evacuation warnings and orders.
- Know the risks where you live: If you are near a hillside, canyon, recent burn area, or area that can flood, learn your flood and mudflow risk before a storm.
- Make an evacuation plan: Know where you will go and how you will get there if you need to leave quickly.
- Have supplies ready: Keep enough food, water, medications, and other essentials for up to 10 days.
- Prepare your home: Clear gutters, downspouts, and storm drains, fix roof leaks, and get sandbags before heavy rain is in the forecast.
- Consider flood insurance: Standard homeowners' insurance does not cover flood damage. Flood insurance is separate and can take at least 30 days to go into effect.
