TO: Design Control Board

FROM: Gary Jones, Director

**SUBJECT: ITEM 3A – PARCEL 50 – MARINA WATERSIDE LLC / WATERSIDE SHOPPING CENTER – DCB #25-004-C – CONSIDERATION OF EXTERIOR IMPROVEMENTS**

Item 3A on your agenda is a submittal from Marina Waterside, LLC (Applicant) seeking approval of site improvements to the Waterside Shopping Center located at 4700 Admiralty Way on Parcel 50.

## PROJECT OVERVIEW

### Background

On June 18, 2025, your Board approved a series of site improvements for the Waterside Shopping Center which included repainting the Building B and C exterior facades, replacement of existing low walls at the intersections of Lincoln Boulevard with Mindanao and Fiji Way, renovation of two existing trash enclosures, and landscape improvements. On December 17, 2025, your Board approved changes to the project scope, including modifications to paint colors and proposed plantings. The Applicant has returned to your Board for review of additional exterior improvements.

### Existing Conditions

Parcel 50 is a 10.6 acre site developed as the “Waterside Shopping Center” which includes four buildings, labeled as Buildings A through D in the Applicant’s plans, with over 30 tenant spaces providing a variety of retail and dining options. The existing building exteriors feature decorative window treatments, wrought iron balconies, awnings, and a paint scheme that includes blue, gray, beige, and white color tones.

### Proposed Project

The proposed project consists of exterior building improvements, including repainting, installation of new awnings, and modifications to previously approved paint colors and awning fabrics.

## BUILDING DESIGN

### Exterior Finishes, Color, and Materials

The Applicant proposes to repaint the exterior of Ralph’s (Building A). The proposed color palette includes beige, white, and cream tones. Exterior finish materials for building trims, stucco, and columns would include *Sherwin Williams Shoji White 7042*, *Pearly White*

*7009, Accessible Beige 7036, and Farrow & Ball Tallow 203*, all of which were approved by your Board in June 2025, with the exception of *Sherwin Williams Shoji White 7042*.

The Applicant also proposes to modify the locations of the proposed paint colors within the previously approved palette for Buildings B and C. These colors include *Farrow & Ball Match Stick 2013, Farrow & Ball Wimborne White 239, Farrow & Ball Tallow 203, Sherwin Williams Pearly White 7009, Sherwin Williams Accessible Beige 7036, Farrow & Ball All White 2005, Farrow & Ball Slipper Satin 2004, Sherwin Williams Shoji White 7042, and Olympic Solid Stain Drift*, all of which were approved by your Board in June 2025, with the exception of *Sherwin Williams Shoji White 7042* and *Olympic Solid Stain Drift*.

The Applicant also proposes to modify the awning fabrics proposed for this project. Awnings on Buildings B and C would include previously approved fabrics of *Sunbrella Black 6008* and *Sunbrella Manhattan Classic 4789*, as well as the newly proposed fabrics of *Sunbrella Silica Dune 6059* and *Saulea Basalto 2327*. In addition, the Applicant would install two new awnings at the entrance doors of Building A in *Sunbrella Silica Dune 6059*.

## **SITE DESIGN**

### **Exterior Improvements**

The Applicant proposes to paint the 6' tall concrete block walls of the trash enclosures in *Farrow & Ball Wimborne White 239*. The previously approved color for these walls was *Farrow & Ball Tallow 203*. The applicant also proposes to repaint the existing regrinded stucco curb/wall along the intersections of Mindanao Way and Fiji Way in *Sherwin Williams Accessible Beige 7036*. The previously approved color for this wall was *Farrow & Ball Matchstick 2013*.

## **STAFF REVIEW**

Staff finds that the changes to the project scope are generally consistent with the Marina del Rey Design Guidelines and would not significantly deviate from the previously approved palette. The proposed awnings on the Building A exterior would contribute to the "village" feel of the shopping center and reflect the character of the surrounding storefronts with similar awnings. The proposed project would contain pops of color that create visual interest and avoid extended lengths of flat uniform surfaces (DG 197).

**Staff recommends APPROVAL of DCB #25-004-C, subject to the following conditions:**

- 1) No change shall be made to the approved design without written approval from the Department of Beaches and Harbors Planning Division staff.**
- 2) No substantial change shall be made to the approved design without the written consent of the Design Control Board.**

**SUBJECT: ITEM 4A – PARCEL 125 – MARINA CITY CLUB – DCB #26-004 –  
CONSIDERATION OF EXTERIOR REPAINTING**

Item 4A on your agenda is a submittal from Marina City Club (Applicant), seeking approval for exterior repainting. The project is located on Parcel 125I at 4333 Admiralty Way.

## **PROJECT OVERVIEW**

### Existing Conditions

Parcel 125I is developed as the “Marina City Club” which consists of three 16-story residential towers, a 3-story apartment building, parking structure, and a recreational deck. Marina City Club is located north of Basin E, south of Admiralty Way, and east of the Ritz-Carlton.

### Proposed Project

The Applicant proposes to repaint the exterior of the residential towers, apartment building, parking structure, and recreational deck.

## **BUILDING DESIGN**

### Exterior Colors

The Applicant proposes to paint the exterior façade of each structure in a cool tone color palette, including *SW7636 Origami White* on the balconies and structural columns, *SW 7641 Colonnade Gray* and *SW 9170 Acier* on the building walls and trim, *SW 0048 Bunglehouse Blue* on the outward facing doors, and *SW 6990 Caviar* on outside railings.

## **STAFF REVIEW**

Staff finds that the proposed project is consistent with the Marina del Rey Design Guidelines. Existing building colors include a palette of warm terracotta colors. The updated color palette consists of more neutral gray, white, and charcoal tones, and is representative of the Marina del Rey Design Guidelines Design Objective 1b, which encourages designs that complement the unique surrounding waterfront environment. In addition, the proposed project would contain pops of color that create visual interest and avoid extended lengths of flat uniform surfaces (DG 197).

**Staff recommends APPROVAL of DCB #26-004, subject to the following conditions:**

- 1) No change shall be made to the approved design without written approval from the Department of Beaches and Harbors Planning Division staff.**
- 2) No substantial change shall be made to the approved design without the written consent of the Design Control Board.**
