ABOUT US

The Los Angeles County Department of Health Services (DHS) is the second largest municipal health system in the nation. Through its integrated system of 25 health centers and four hospitals – and expanded network of community partner clinics – DHS annually provides direct care for 600,000 unique patients, employs over 23,000 county employees, and has an annual budget of over \$6.9 billion.

Through academic affiliations with the University of California, Los Angeles (UCLA), the University of Southern California (USC), and the Charles R. Drew University of Medicine and Sciences (CDU), DHS hospitals are training sites for physicians completing their Graduate Medical Education in nearly every medical specialty and subspecialty. In addition to its direct clinical services, DHS also runs the Emergency Medical Services (EMS) Agency and the County's 911 emergency response system. In addition, DHS manages our Community Programs, which includes Housing for Health and the Office of Diversion and Re-entry, each with a critical role in connecting vulnerable populations, including those released from correctional and institutional settings to supportive housing.
