Are there any regulations requirement for maintaining Eye Wash and Oxygen Tank?

Haw often do the eye wash station and oxygen tank have to be maintained, and inspected? Is there an OSHA requirement for the dental office to log the maintenance and inspection?

Melanie Judy melan e judy@cda org 916.554.4914

There are maintenance requirements for plumbed eyewash stations and storage requirements for oxygen tanks. The CAL/OSHA regulations regarding both of these items can be found in Title 8 of the California Code of Regulations. For eyewash stations it states in part:

"(e) Maintenance. Plumbed eyewash and shower equipment shall be activated at least monthly to flush the line and to verify proper operation. Other units shall be maintained in accordance with the manufacturer's instructions."

Please see links to each of the sections pertaining to these items:

Emergency Eyewash and Shower Equipment: http://www.dir.ca.gov/title8/5162 html Compressed gases and Air Equipment: http://www.dir.ca.gov/title8/4650 html

CDA Practice Support Experts

You have questions. We have answers. While this site is a great vehicle to answer your practice support questions, there are naturally times when you'd rather speak directly with a human being. And at CDA, we have five of the finest. These are the folks who develop the content you'll find on ada.org and they're available to give you the perspective and information you need to make smart decisions.

Denise Martinez, Manager of CDA Practice Support

Denise brings over 20 years of experience in the dental industry. Beginning her career as an RDA in private practice, she joined a large dental benefit plan organization where she spent 17 years having her skills. She brings a wealth of experience in claims processing, dental Medicaid fraud investigation, administration of government plans and implementation of HIPAA regulations, as well as experience as an expert witness in court cases for the state. However, Denise's true expertise cames from her time spent in provider relations presenting and organizing dental benefit seminars. Her true passion is alleviating and resolving member concerns with claims and contracting issues.

Greg Alterton, Dental Benefits Plan Specialist

916 554 5384

Specializing in third-party payer issues, Greg assists members with issues pertaining to dental benefits. He has worked extensively in government relations, including as a legislative analyst for Blue Shield of California and as policy director for HealthNet. He also presents for CDA on dental benefit issues in workshops hosted by local dental societies and at CDA Presents continuing education conferences.

Michelle Corbo, PHR, PHRca, Employment Practices and Practice Management Analyst

As the content guru for the Practice Support website for the past seven years, Michelle knaws a thing or two about its resources, but her expertise doesn't stop there. With a strong background in private practice and more than ten years of experience in both Peer Review and Practice Support, she's a repository of knowledge

regarding what dental practices need, especially in the areas of employment practices and practice management.

Melanie Judy, Practice Support Administrator

Melanie brings eight years of diverse dental experience, starting in high school after completing the 49er Regional Occupational Program in Dental Assisting. After graduating college with a degree in business, she worked for a large dental company for four years, starting in customer service then maving to a technology advisor position. Switching to a different side of dental, Melanie joined CDA in 2013 as a membership representative. Today, she brings her smile, passion and enthusiasm for managing valuable resources as she manages all things content on the Practice Support website.
