

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY Non-ICU (Med/Surg/SDU/Telemetry) CENSUS: LA County 911 Receiving Hospitals (n=70)

Licensed Non-ICU Beds: ~17,000 Reported Surge Capacity on 4/15/20: 11,482

Estimated 2018 Population: 10,284,981

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

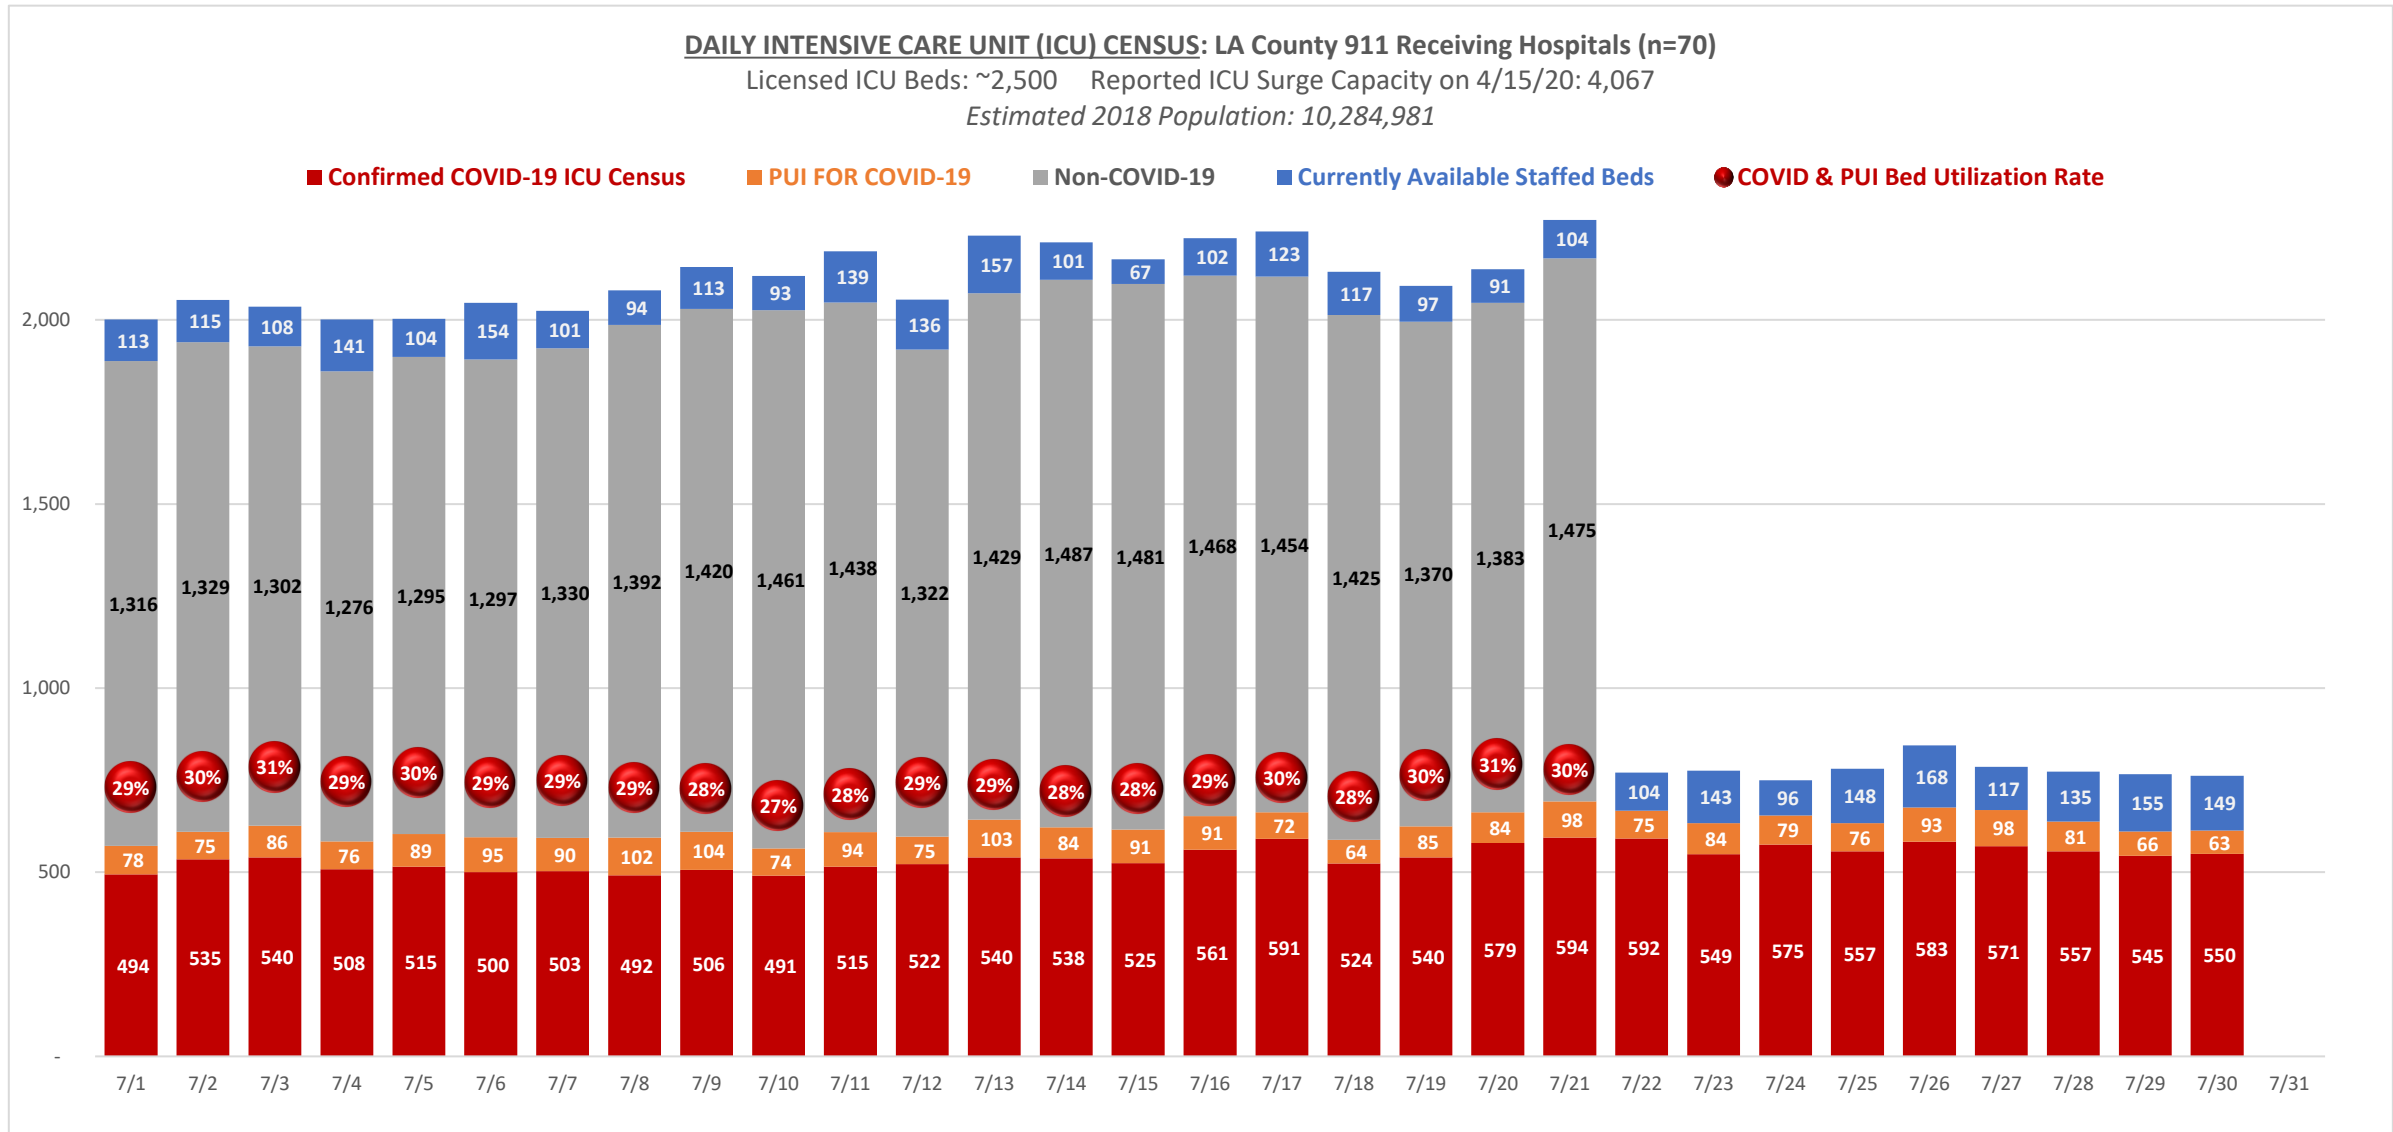

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

CHART 1A-LA

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

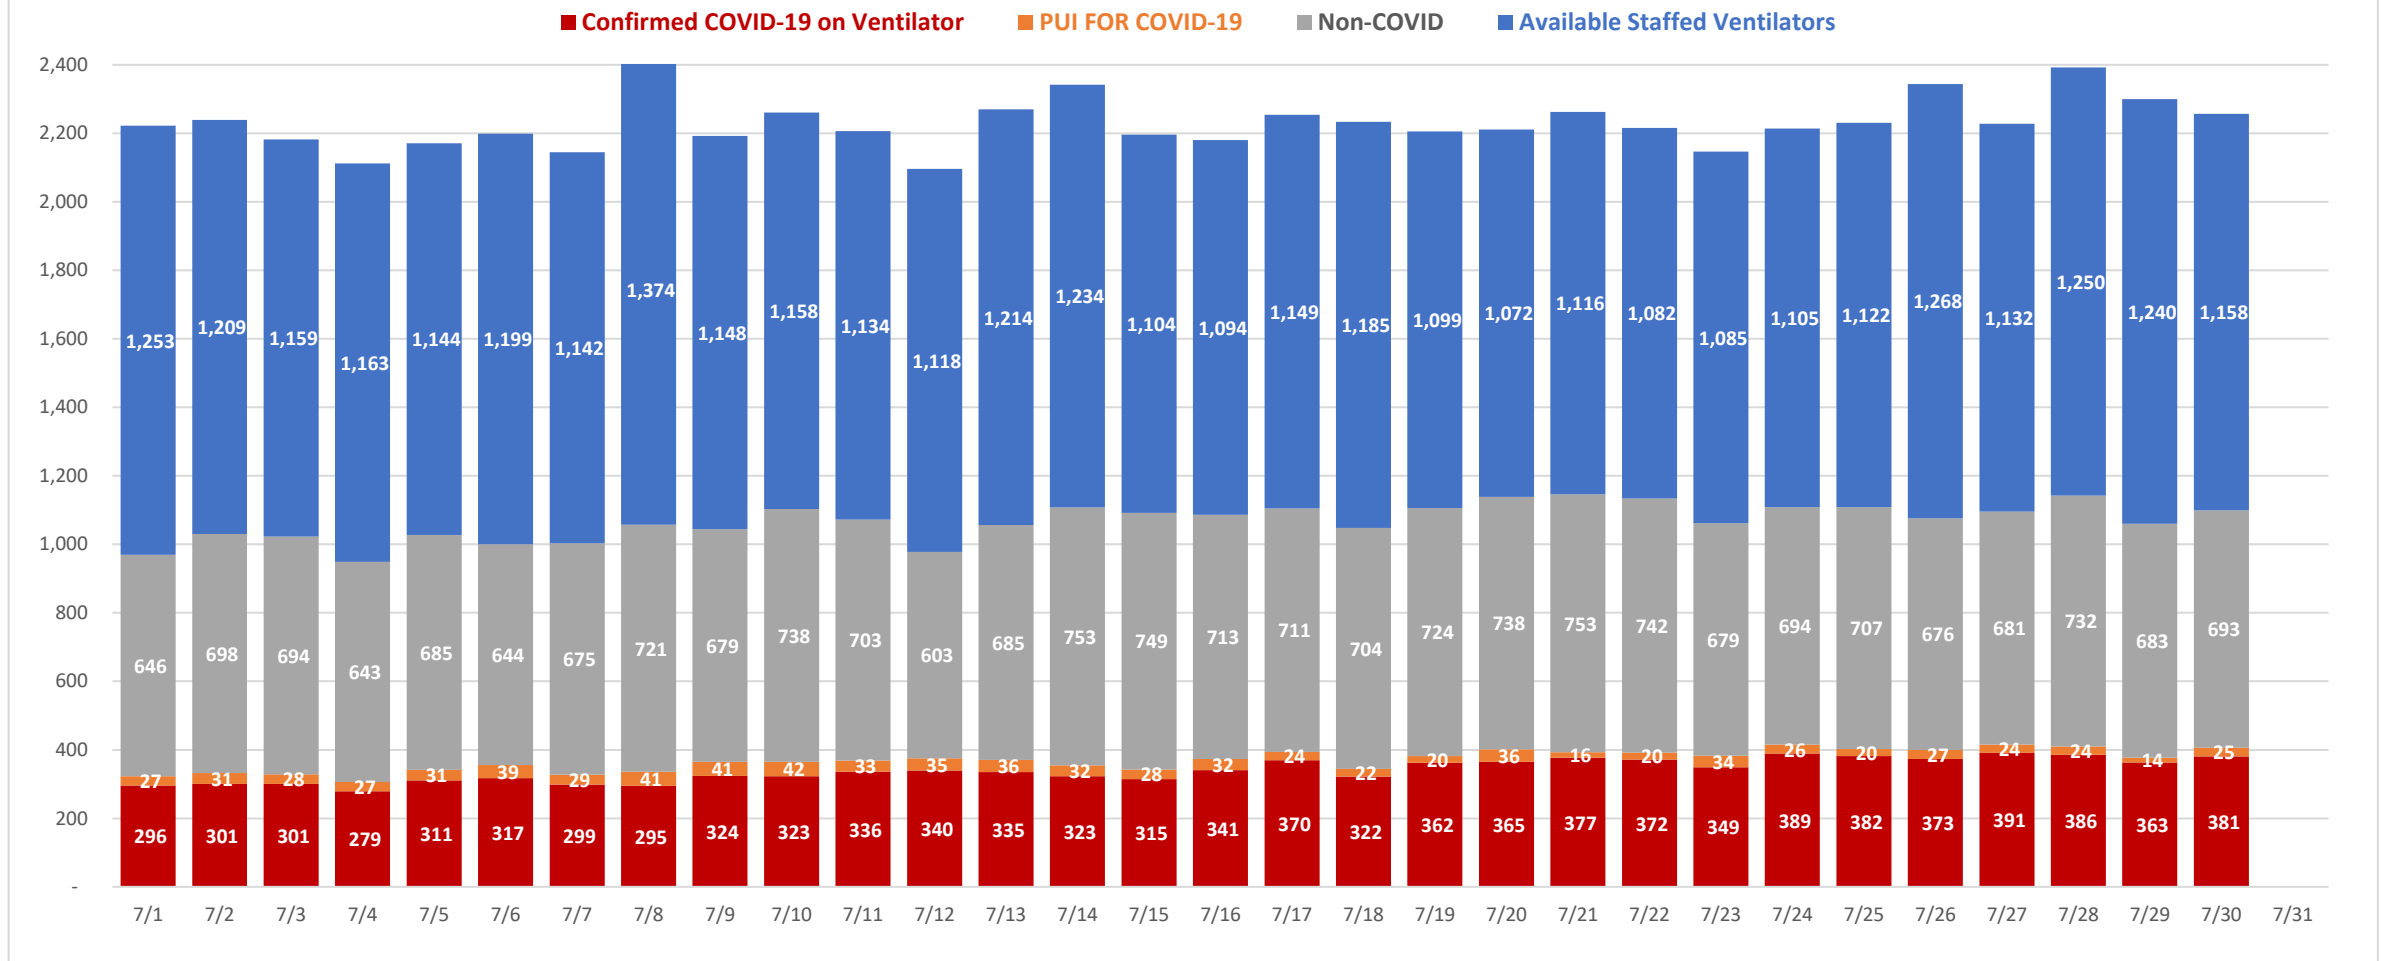

CHART 1B-LA

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY CENSUS OF PATIENTS ON MECHANICAL VENTILATION: LA County 911 Receiving Hospitals (n=70)

Reported Surge Capacity on 4/15/20 for Mechanical Ventilation: 3,199

Estimated 2018 Population: 10,284,981

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

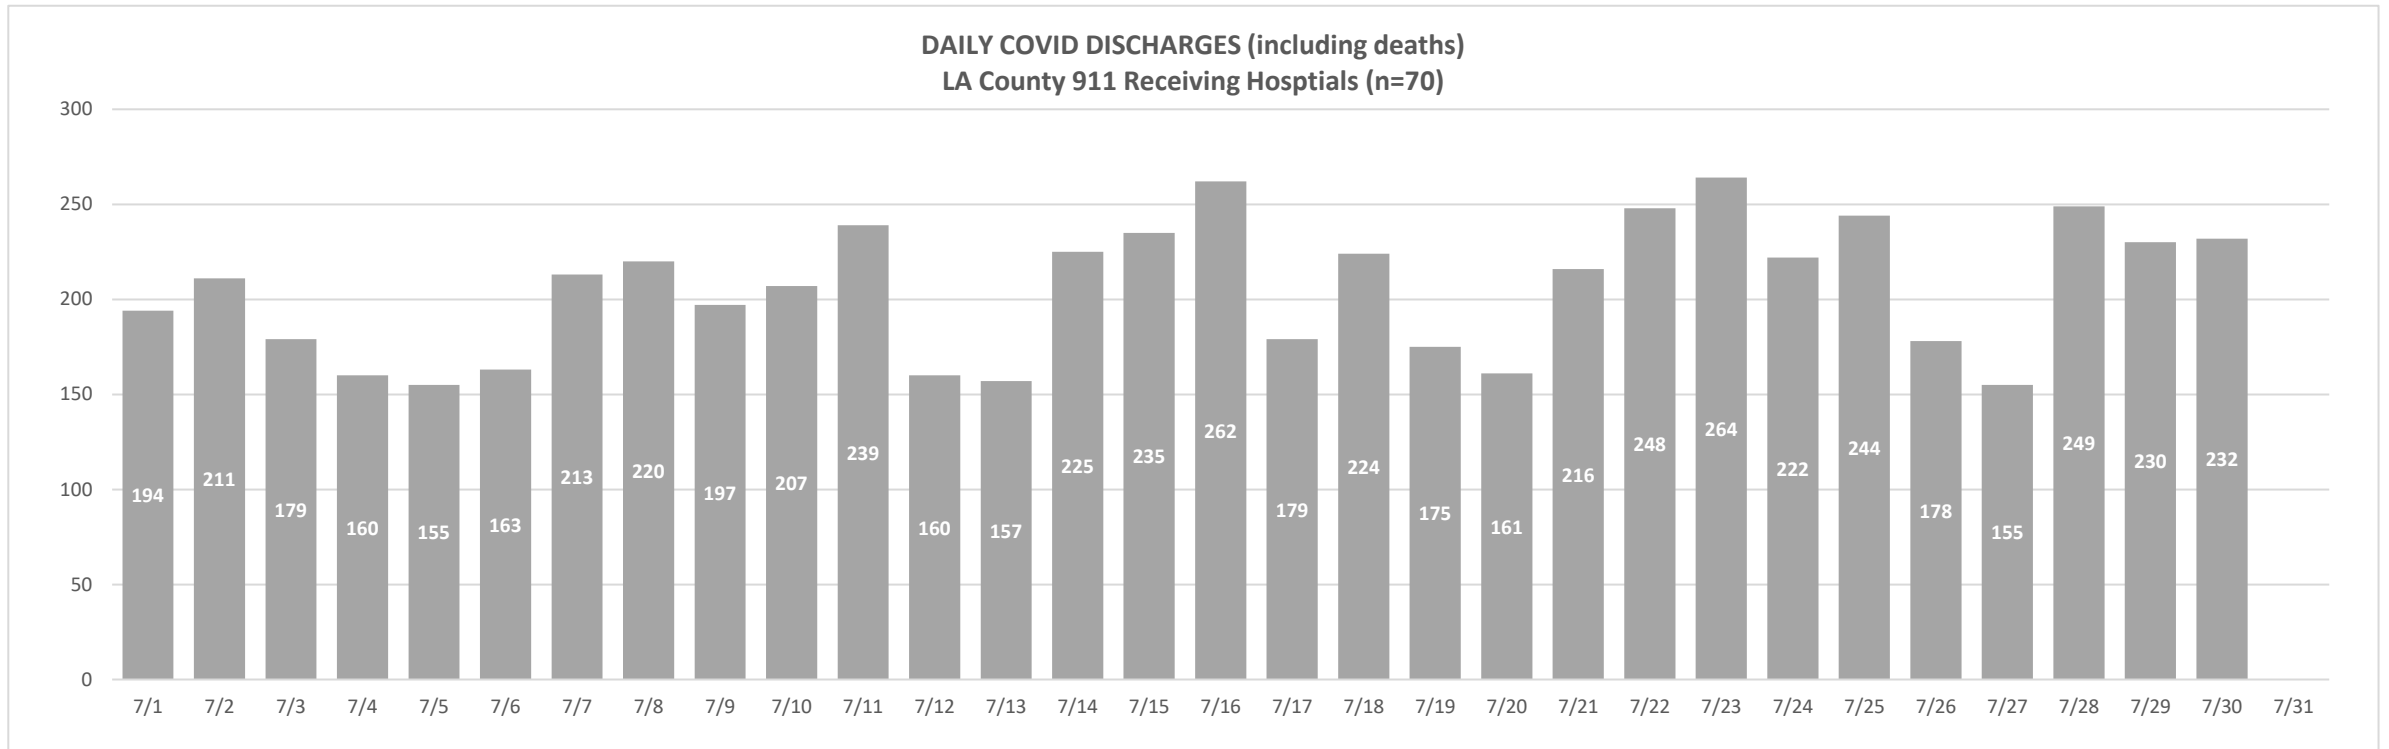

CHART 1F-LA

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

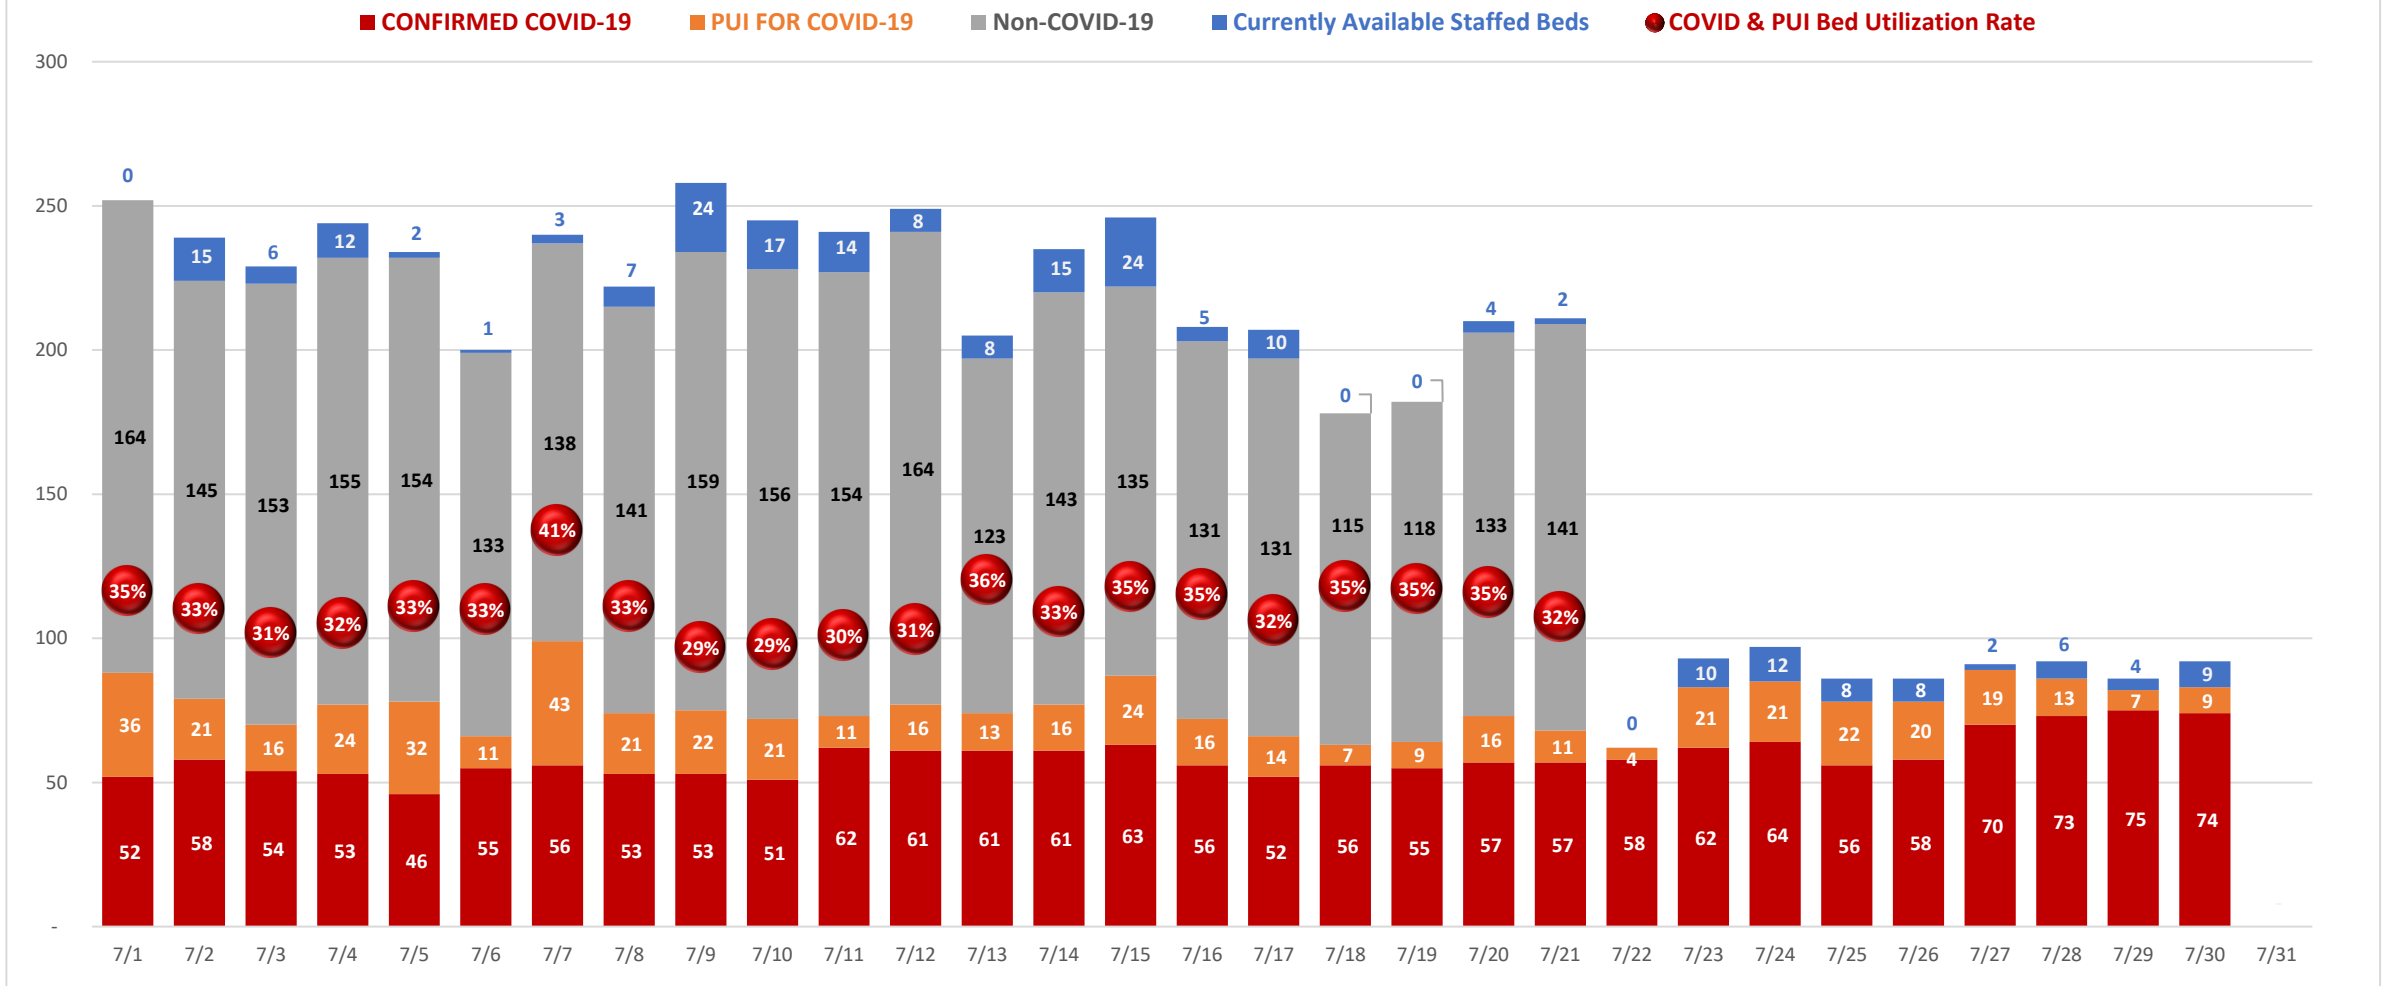

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY Non-ICU (Med/Surg/SDU/Telemetry) CENSUS: ANTELOPE VALLEY - NEWHALL REGION (3 Hospitals)

Licensed Non-ICU Beds: ~740 Reported Surge Capacity on 4/15/20: 700

Estimated 2018 Population: 683,792

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

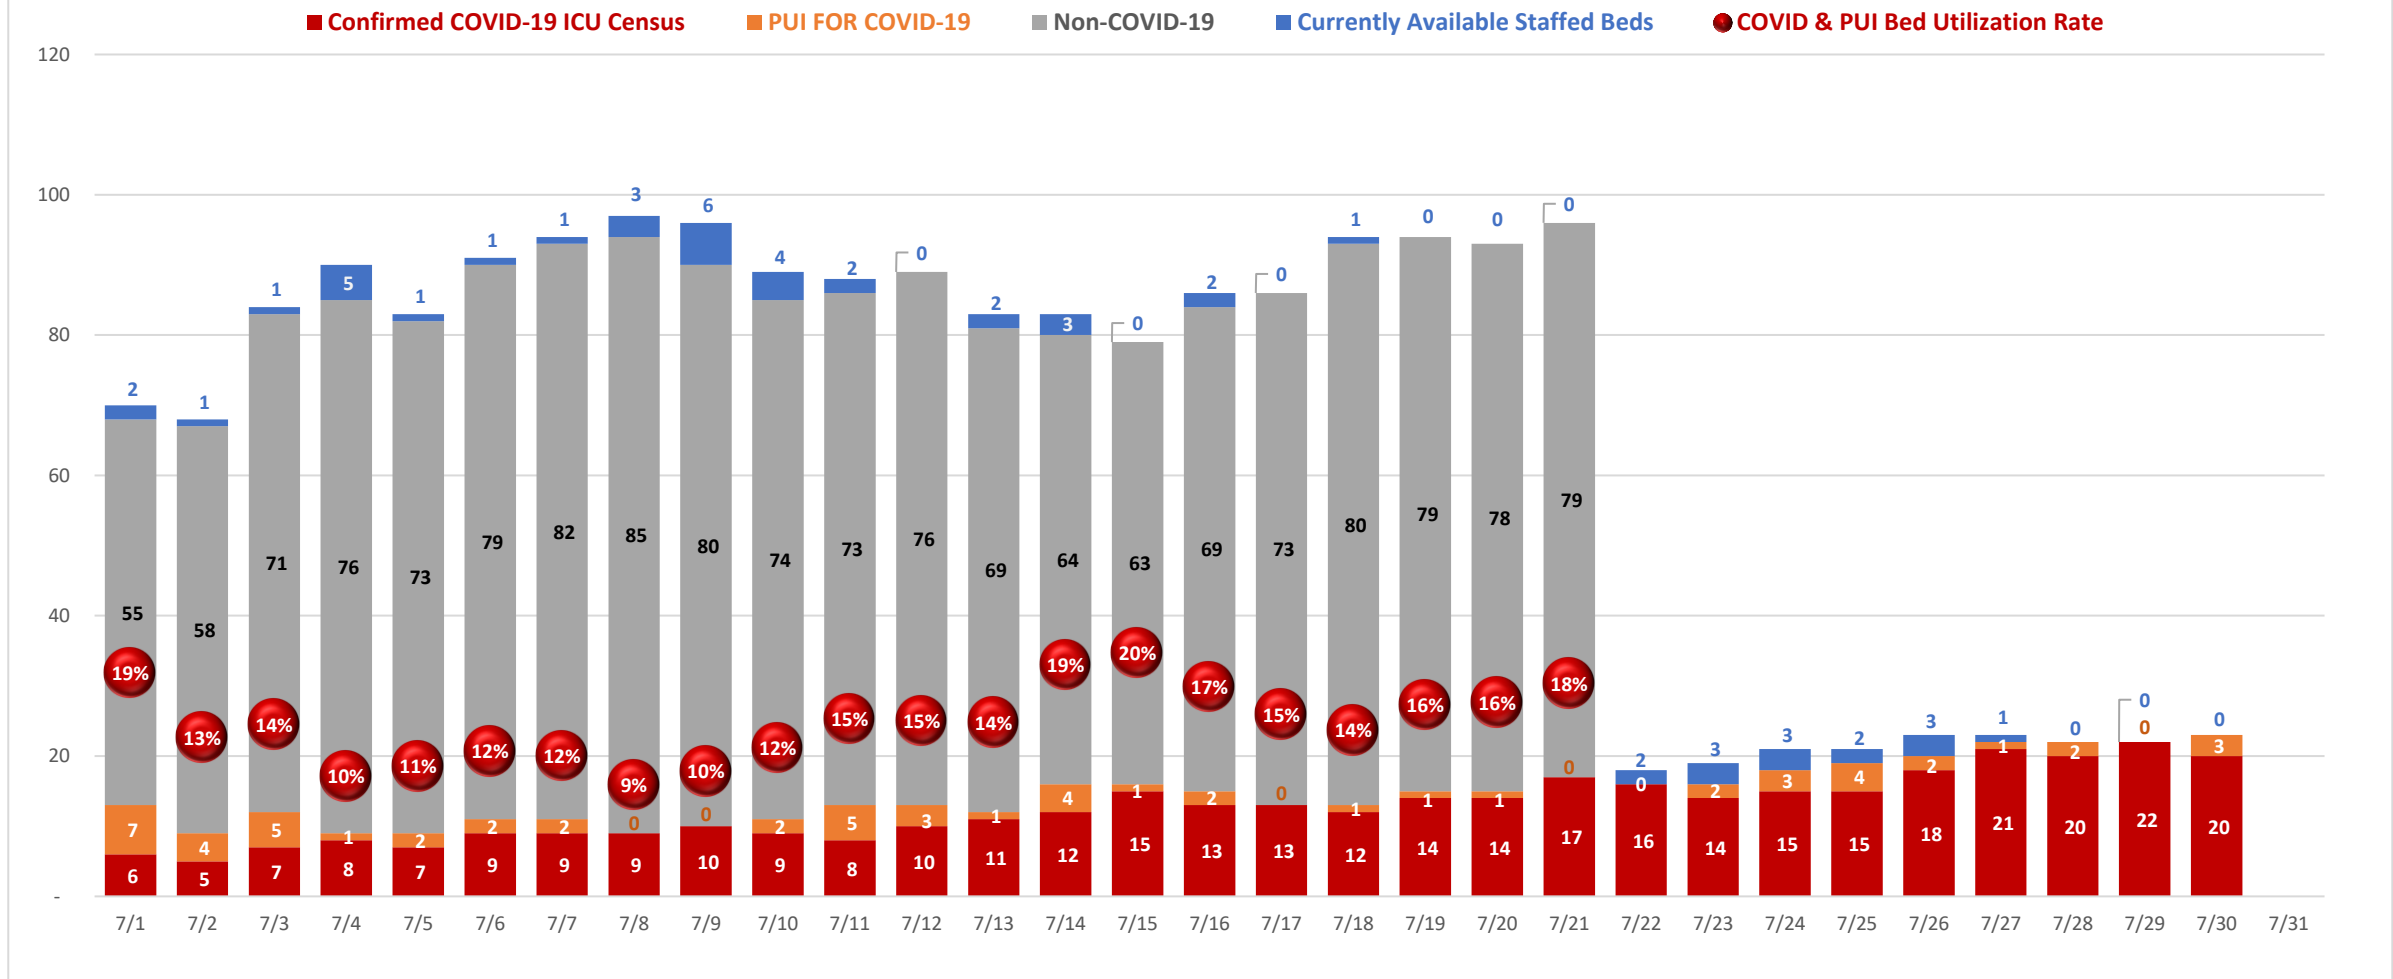

CHART 2A-AV

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY INTENSIVE CARE UNIT (ICU) CENSUS: ANTELOPE VALLEY - NEWHALL REGION (3 Hospitals)

Licensed ICU Beds: ~63 Reported Surge Capacity on 4/15/20: 400

Estimated 2018 Population: 683,792

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

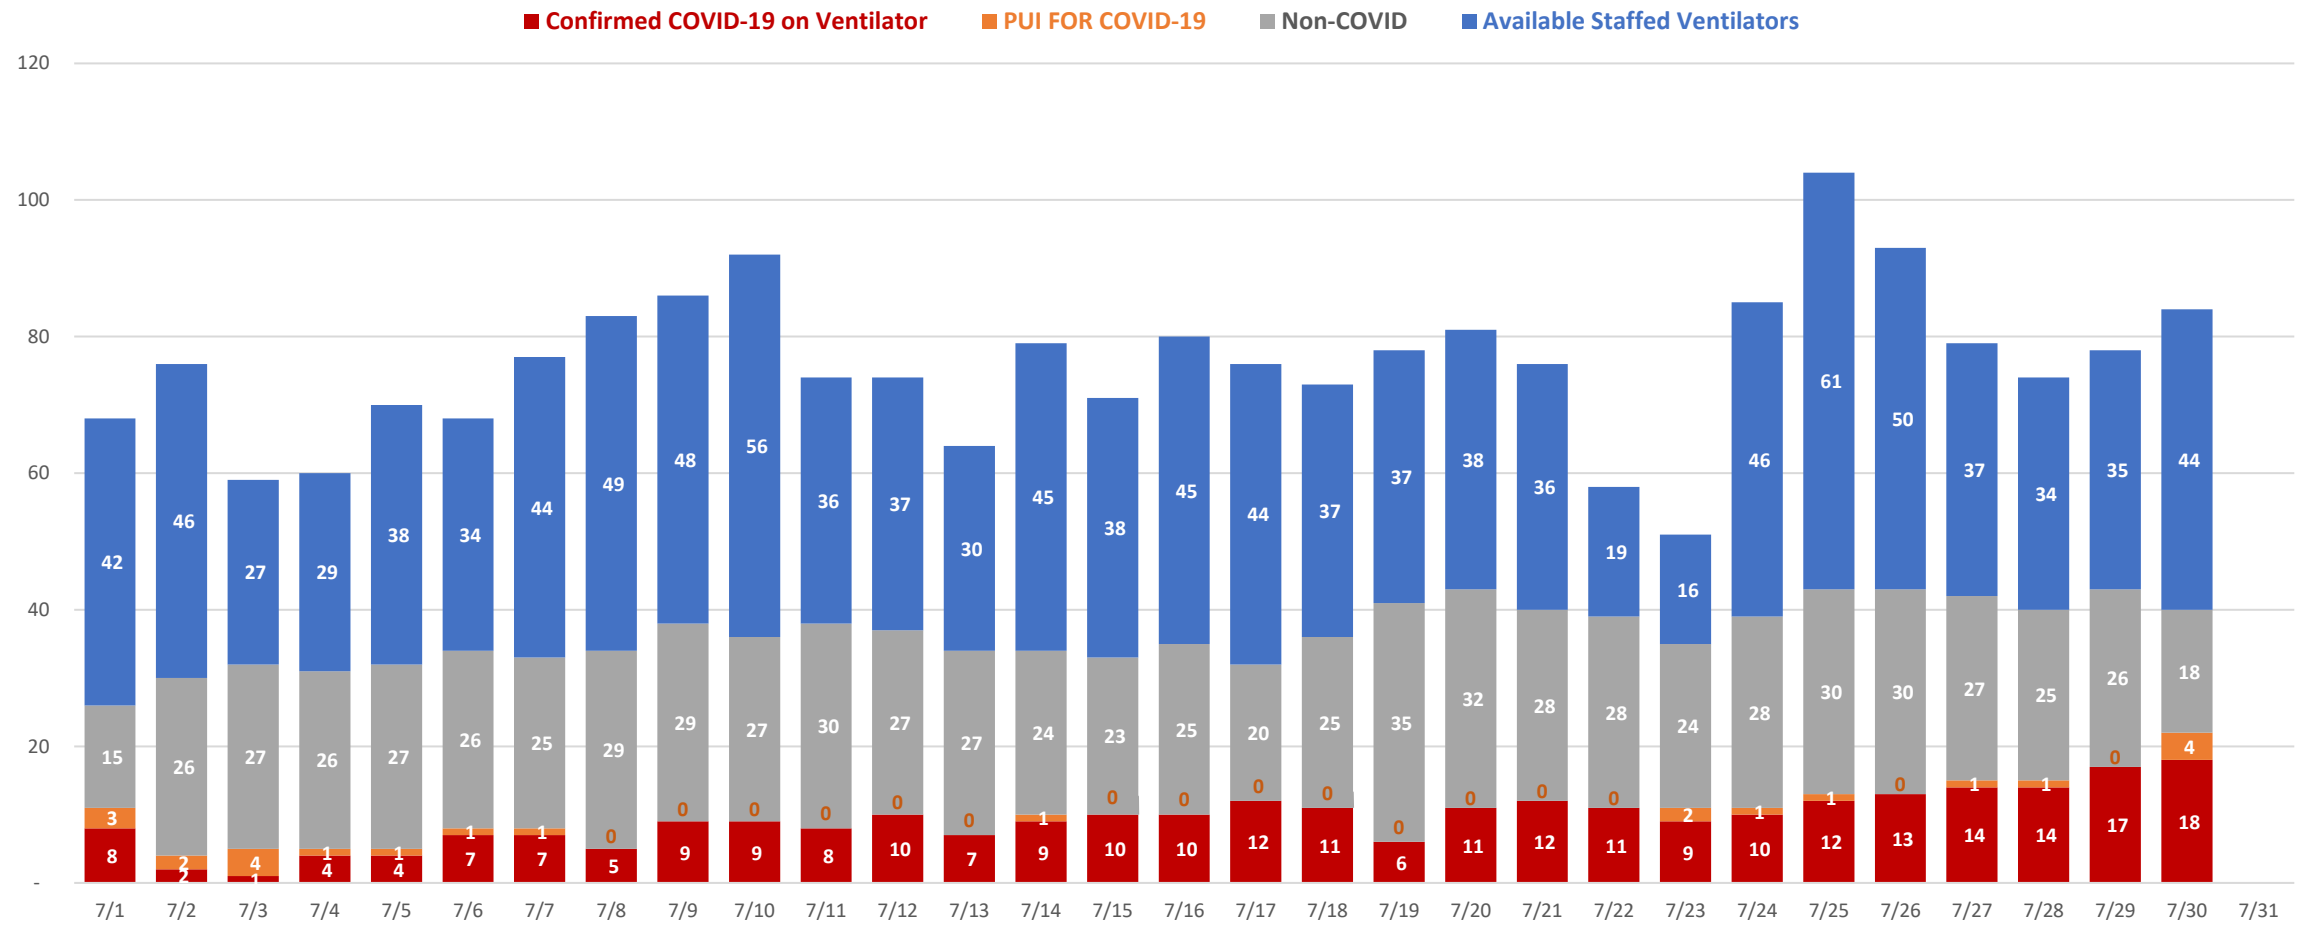

CHART 2B-AV

**Los Angeles County Emergency Medical Services Agency
COVID-19 HOSPITAL ASSESSMENT REPORT**

DAILY CENSUS OF PATIENTS ON MECHANICAL VENTILATION: ANTELOPE VALLEY - NEWHALL REGION (3 Hospitals)

Reported Surge Capacity on 4/15/20 for Mechanical Ventilation: 156

Estimated 2018 Population: 683,792

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

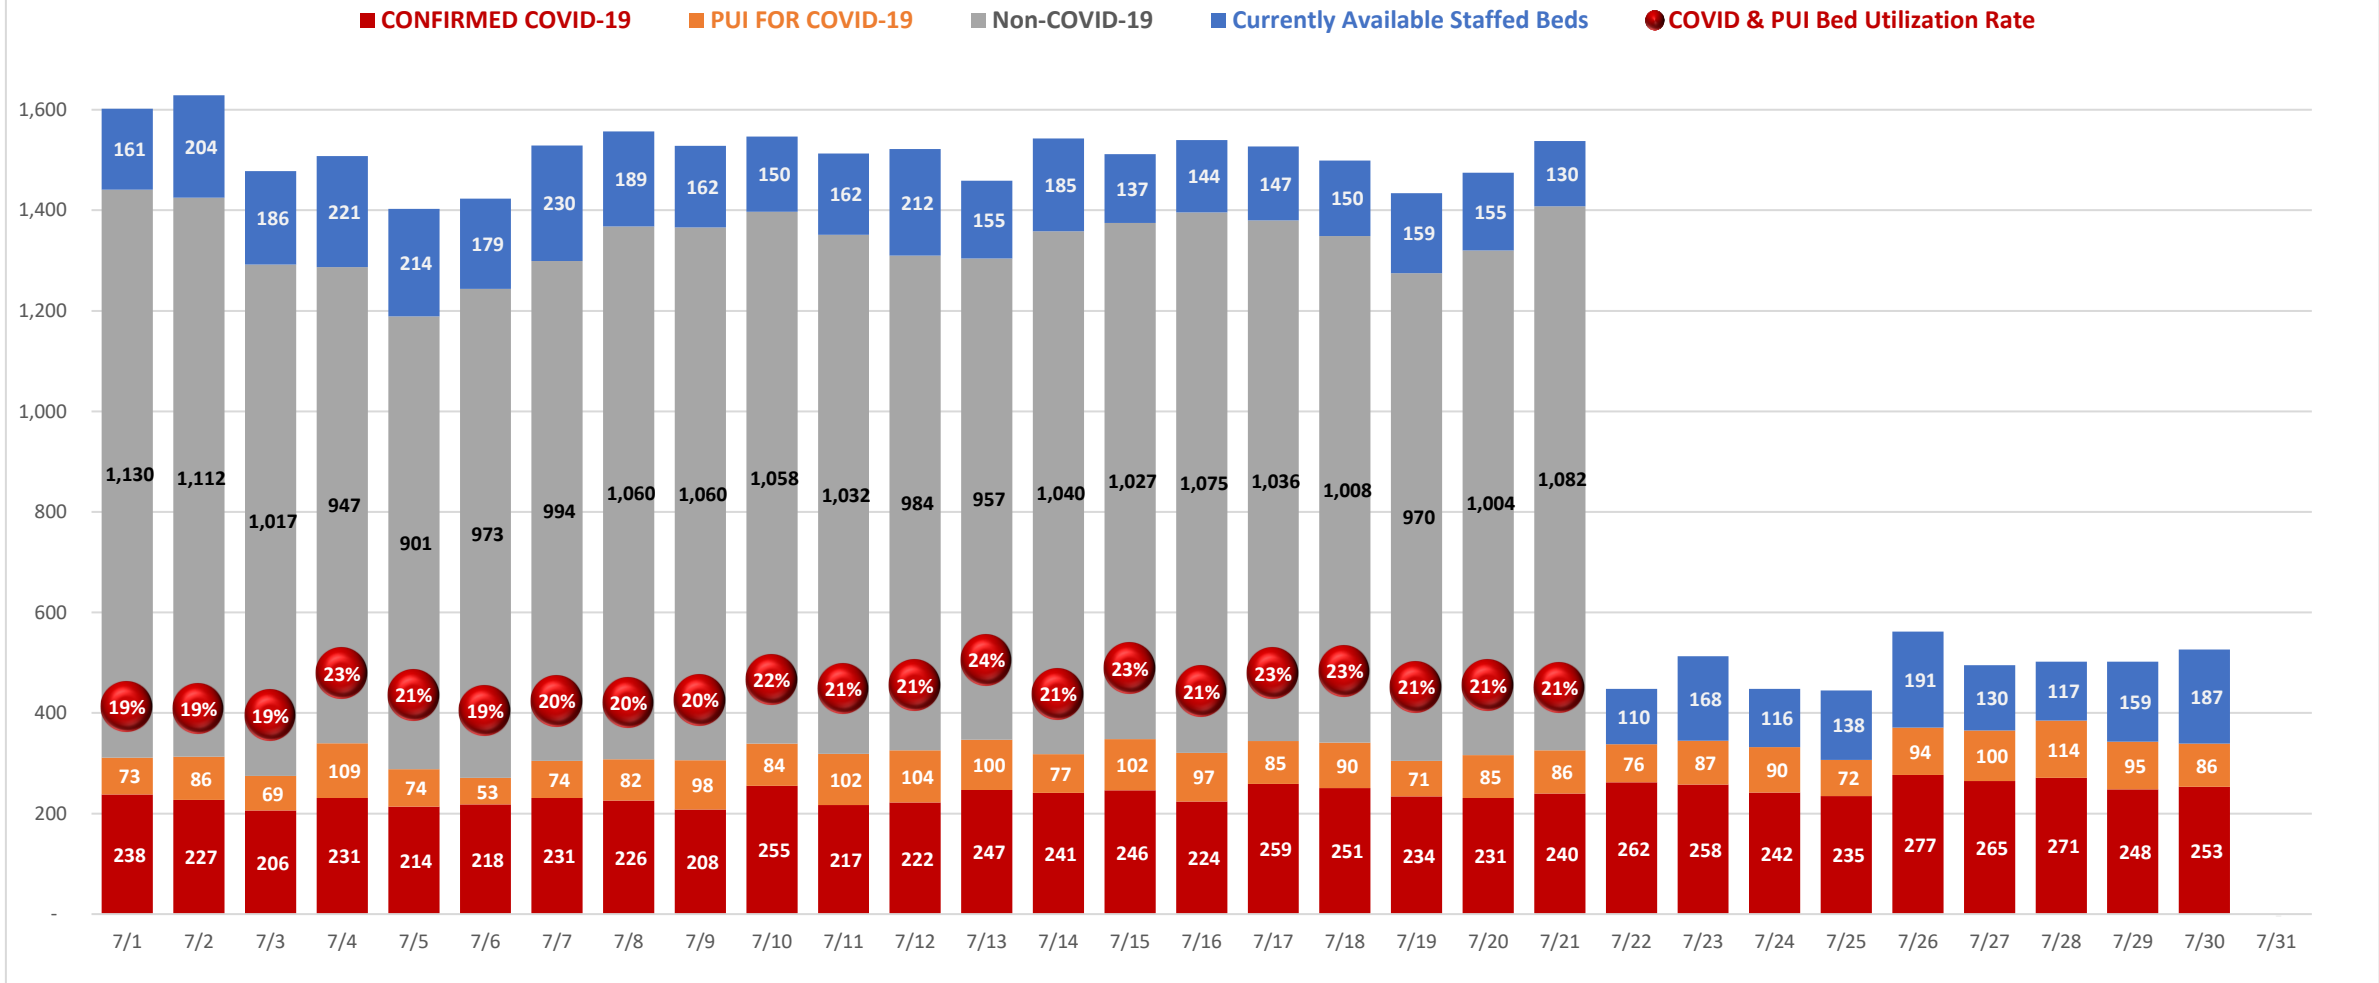

CHART 2C-AV

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY Non-ICU (Med/Surg/SDU/Telemetry) CENSUS: SAN FERNANDO VALLEY REGION (16 Hospitals)

Licensed Non-ICU Beds: ~3,500 Reported Surge Capacity on 4/15/20: 2,945

Estimated 2018 Population: 2,050,913

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

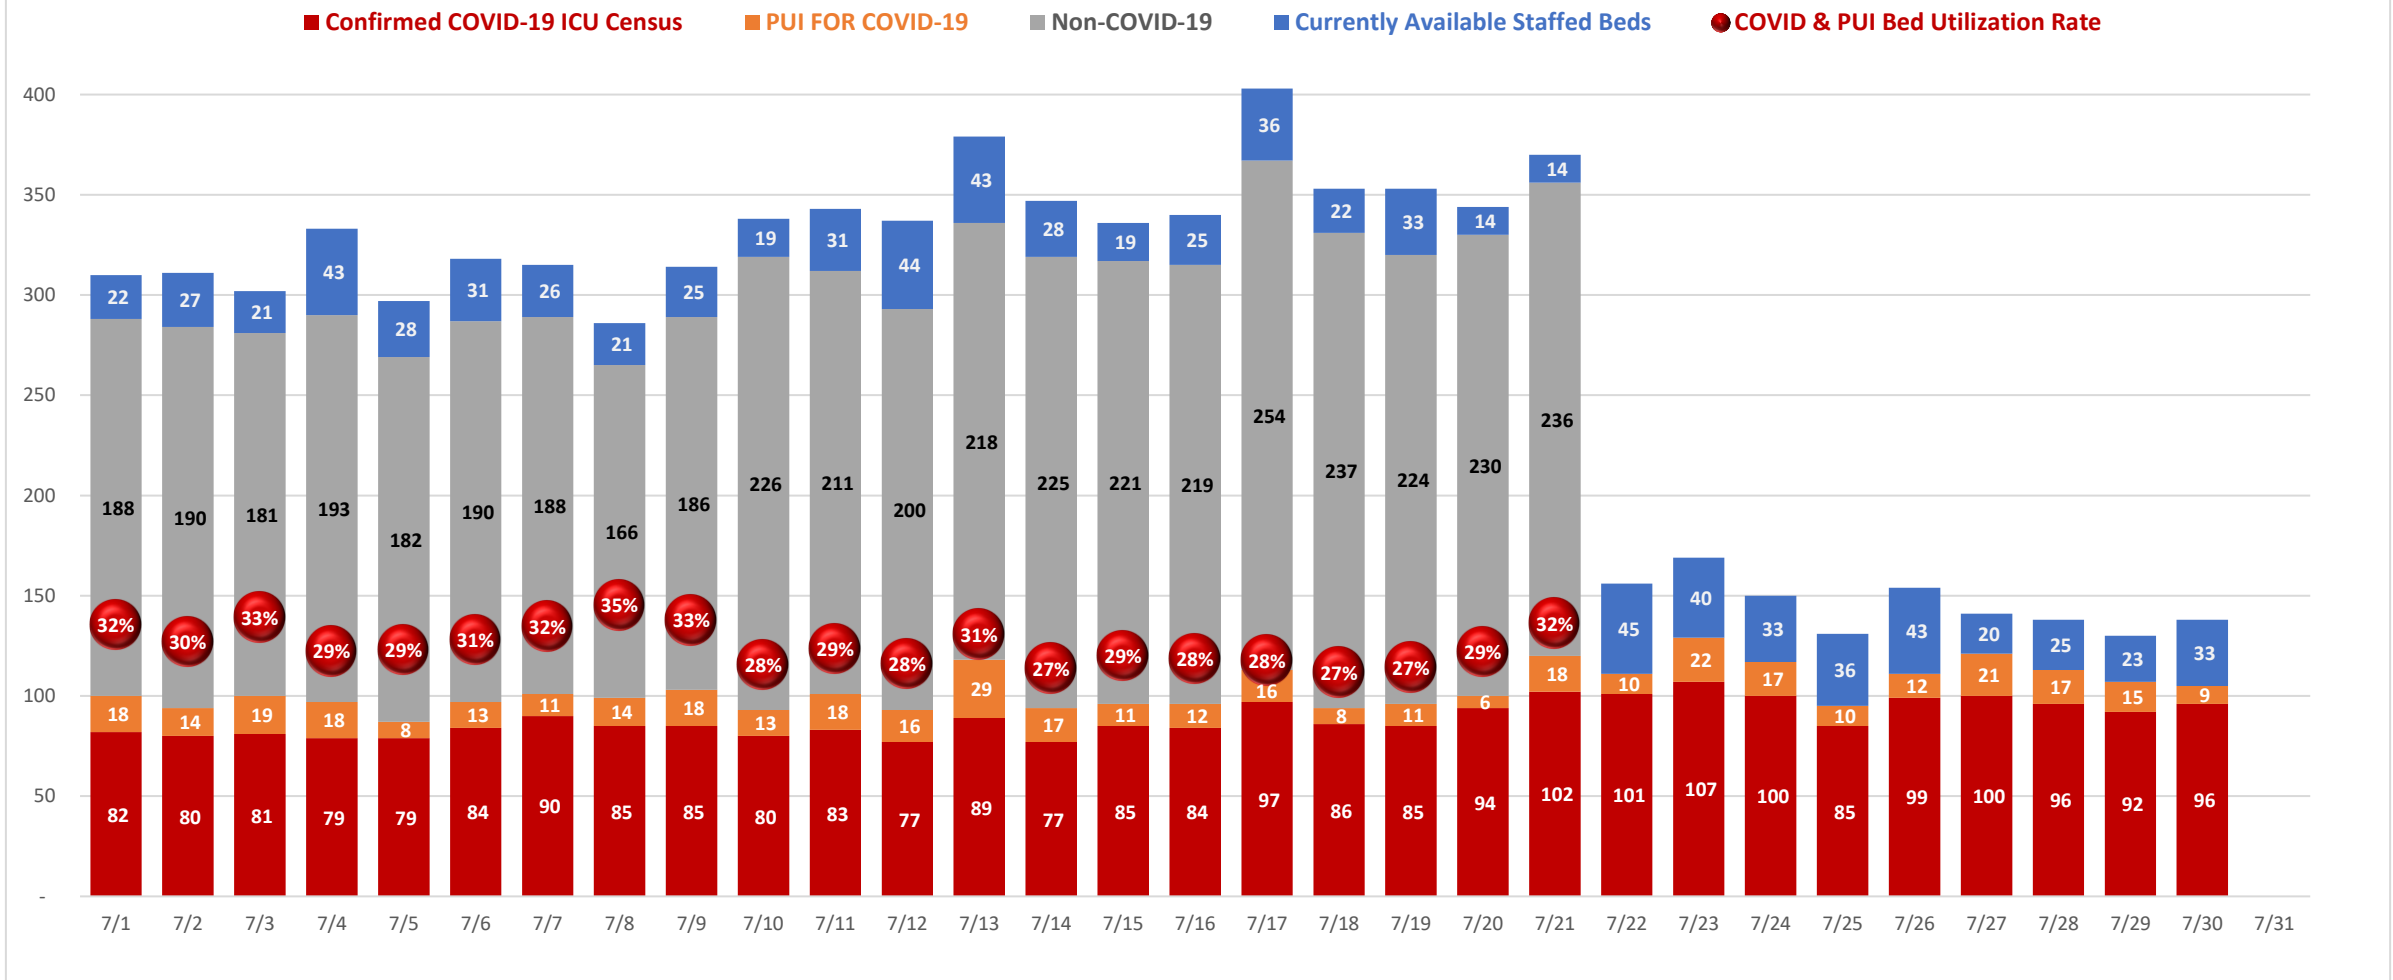

CHART 3A-SF

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY INTENSIVE CARE UNIT (ICU) CENSUS: SAN FERNANDO VALLEY REGION (16 Hospitals)

Licensed ICU Beds: ~480 Reported Surge Capacity on 4/15/20: 634

Estimated 2018 Population: 2,050,913

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

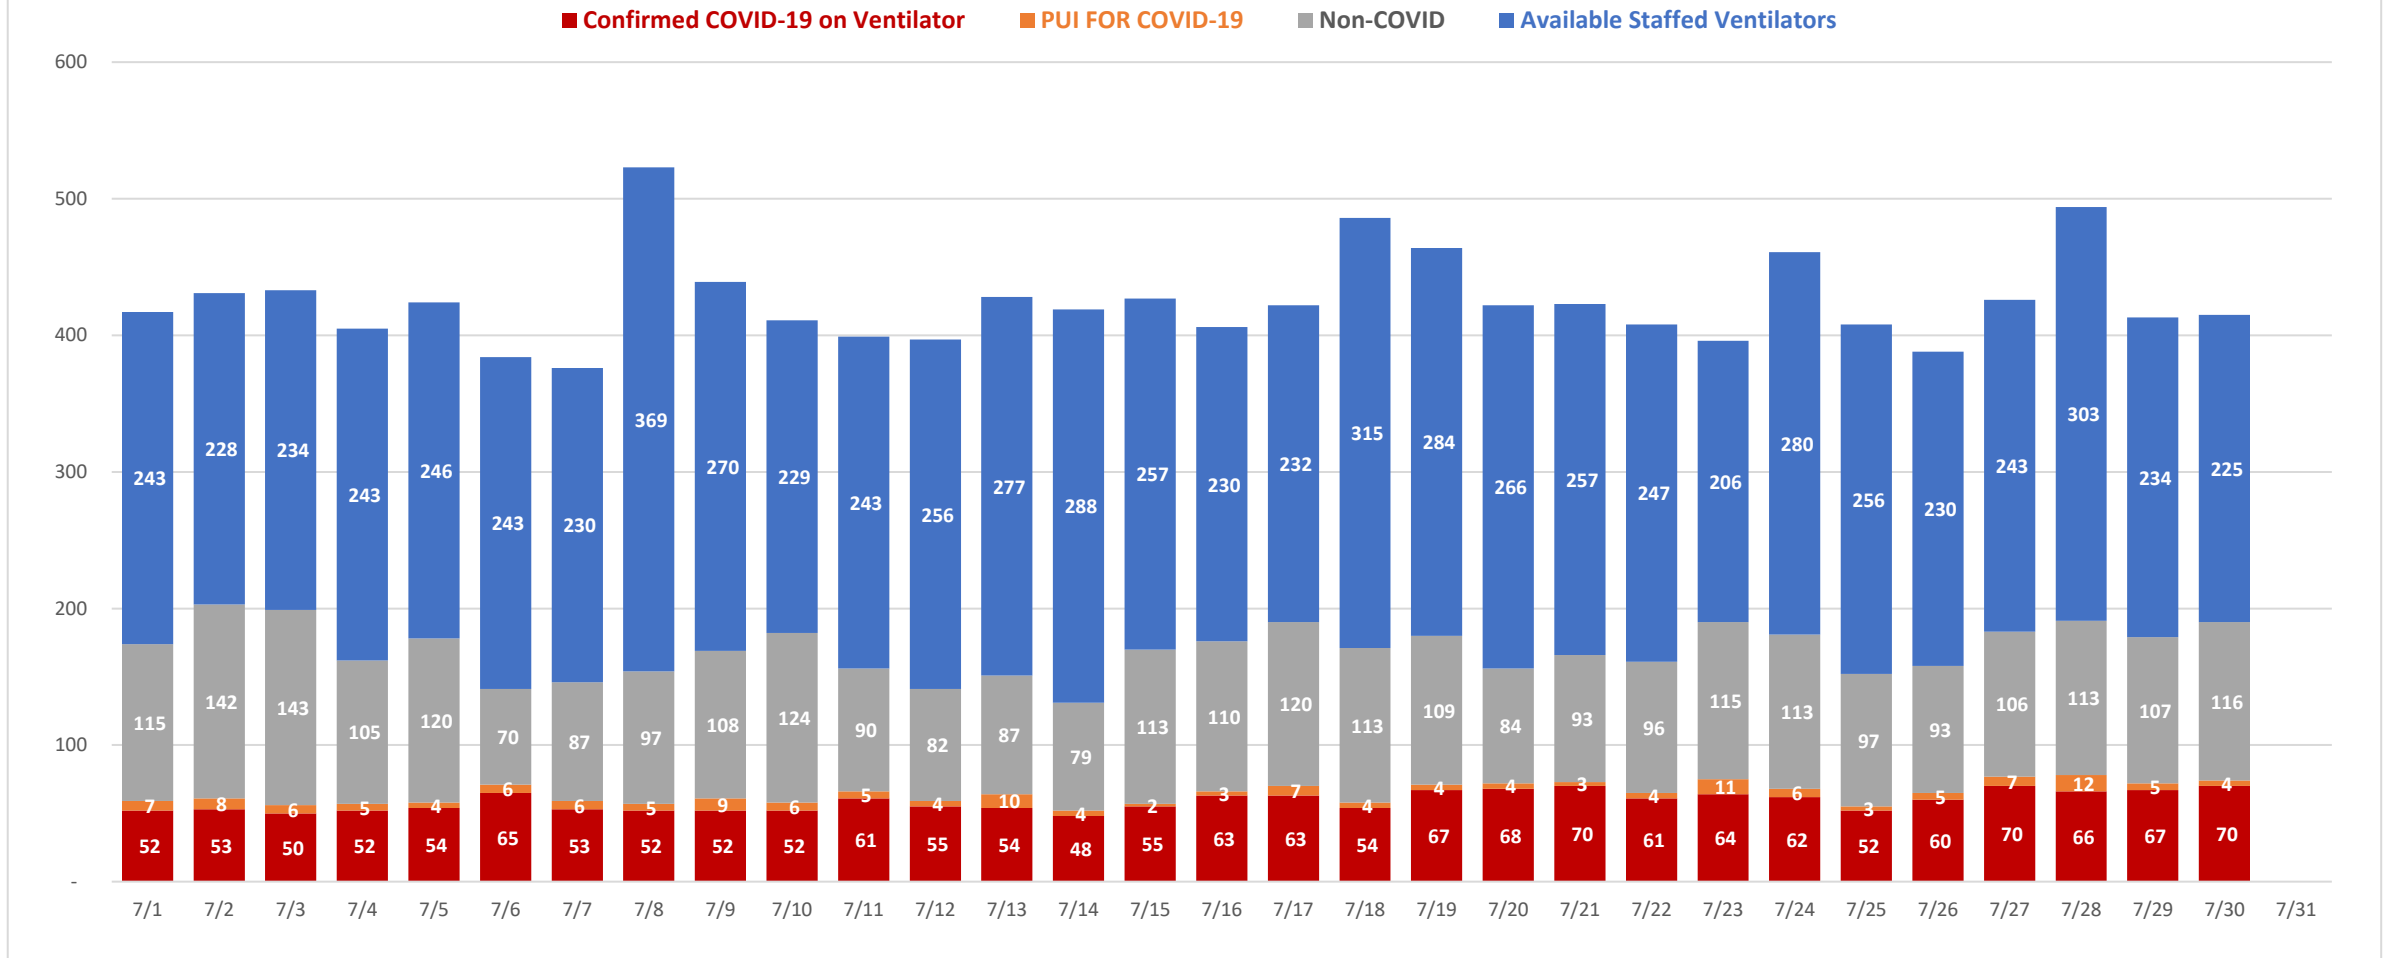

CHART 3B-SF

**Los Angeles County Emergency Medical Services Agency
COVID-19 HOSPITAL ASSESSMENT REPORT**

DAILY CENSUS OF PATIENTS ON MECHANICAL VENTILATION: SAN FERNANDO VALLEY REGION (16 Hospitals)

Reported Surge Capacity on 4/15/20 for Mechanical Ventilation: 535

Estimated 2018 Population: 683,792

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

CHART 3C-SF

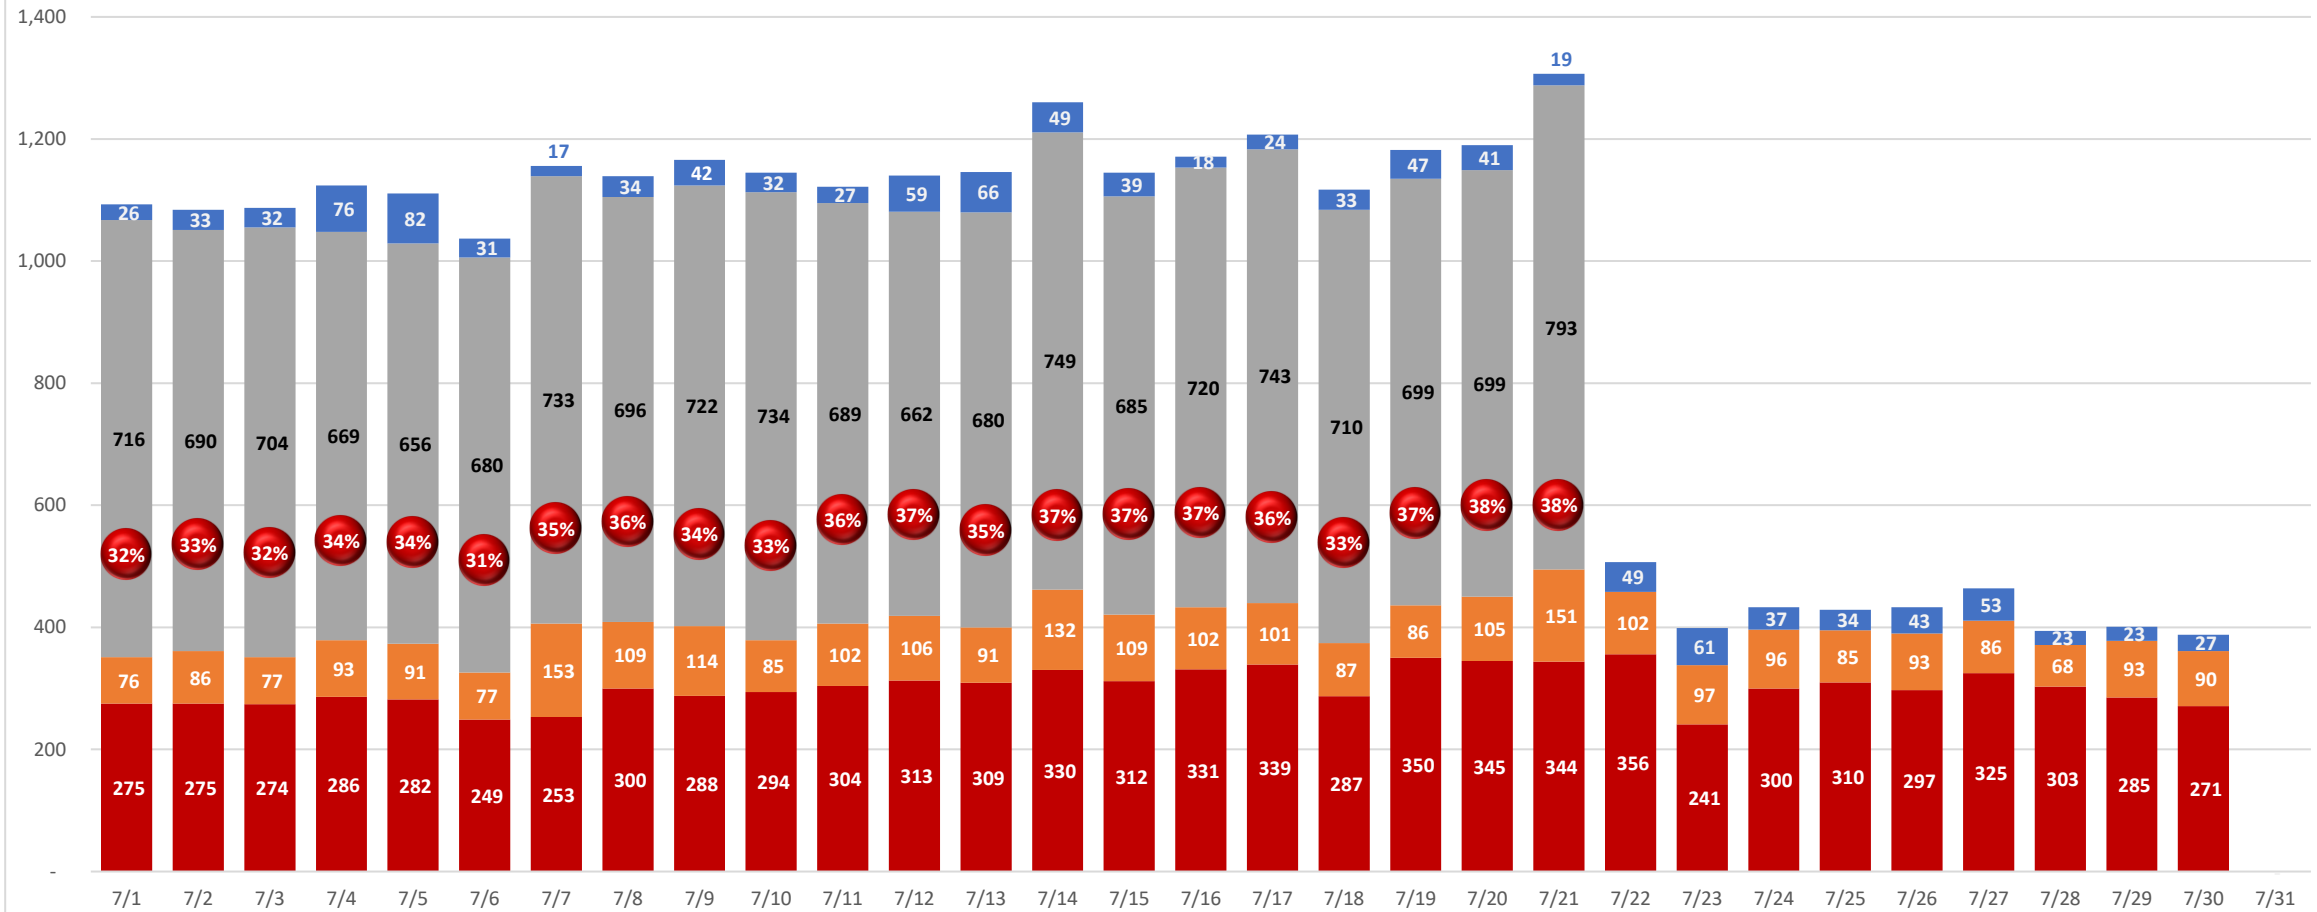

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY Non-ICU (Med/Surg/SDU/Telemetry) CENSUS: SAN GABRIEL VALLEY REGION (13 Hospitals)

Licensed Non-ICU Beds: ~2,400 Reported Surge Capacity on 4/15/20: 1,317

Estimated 2018 Population: 1,625,382

■ CONFIRMED COVID-19
 ■ PUI FOR COVID-19
 ■ Non-COVID-19
 ■ Currently Available Staffed Beds
 ● COVID & PUI Bed Utilization Rate

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

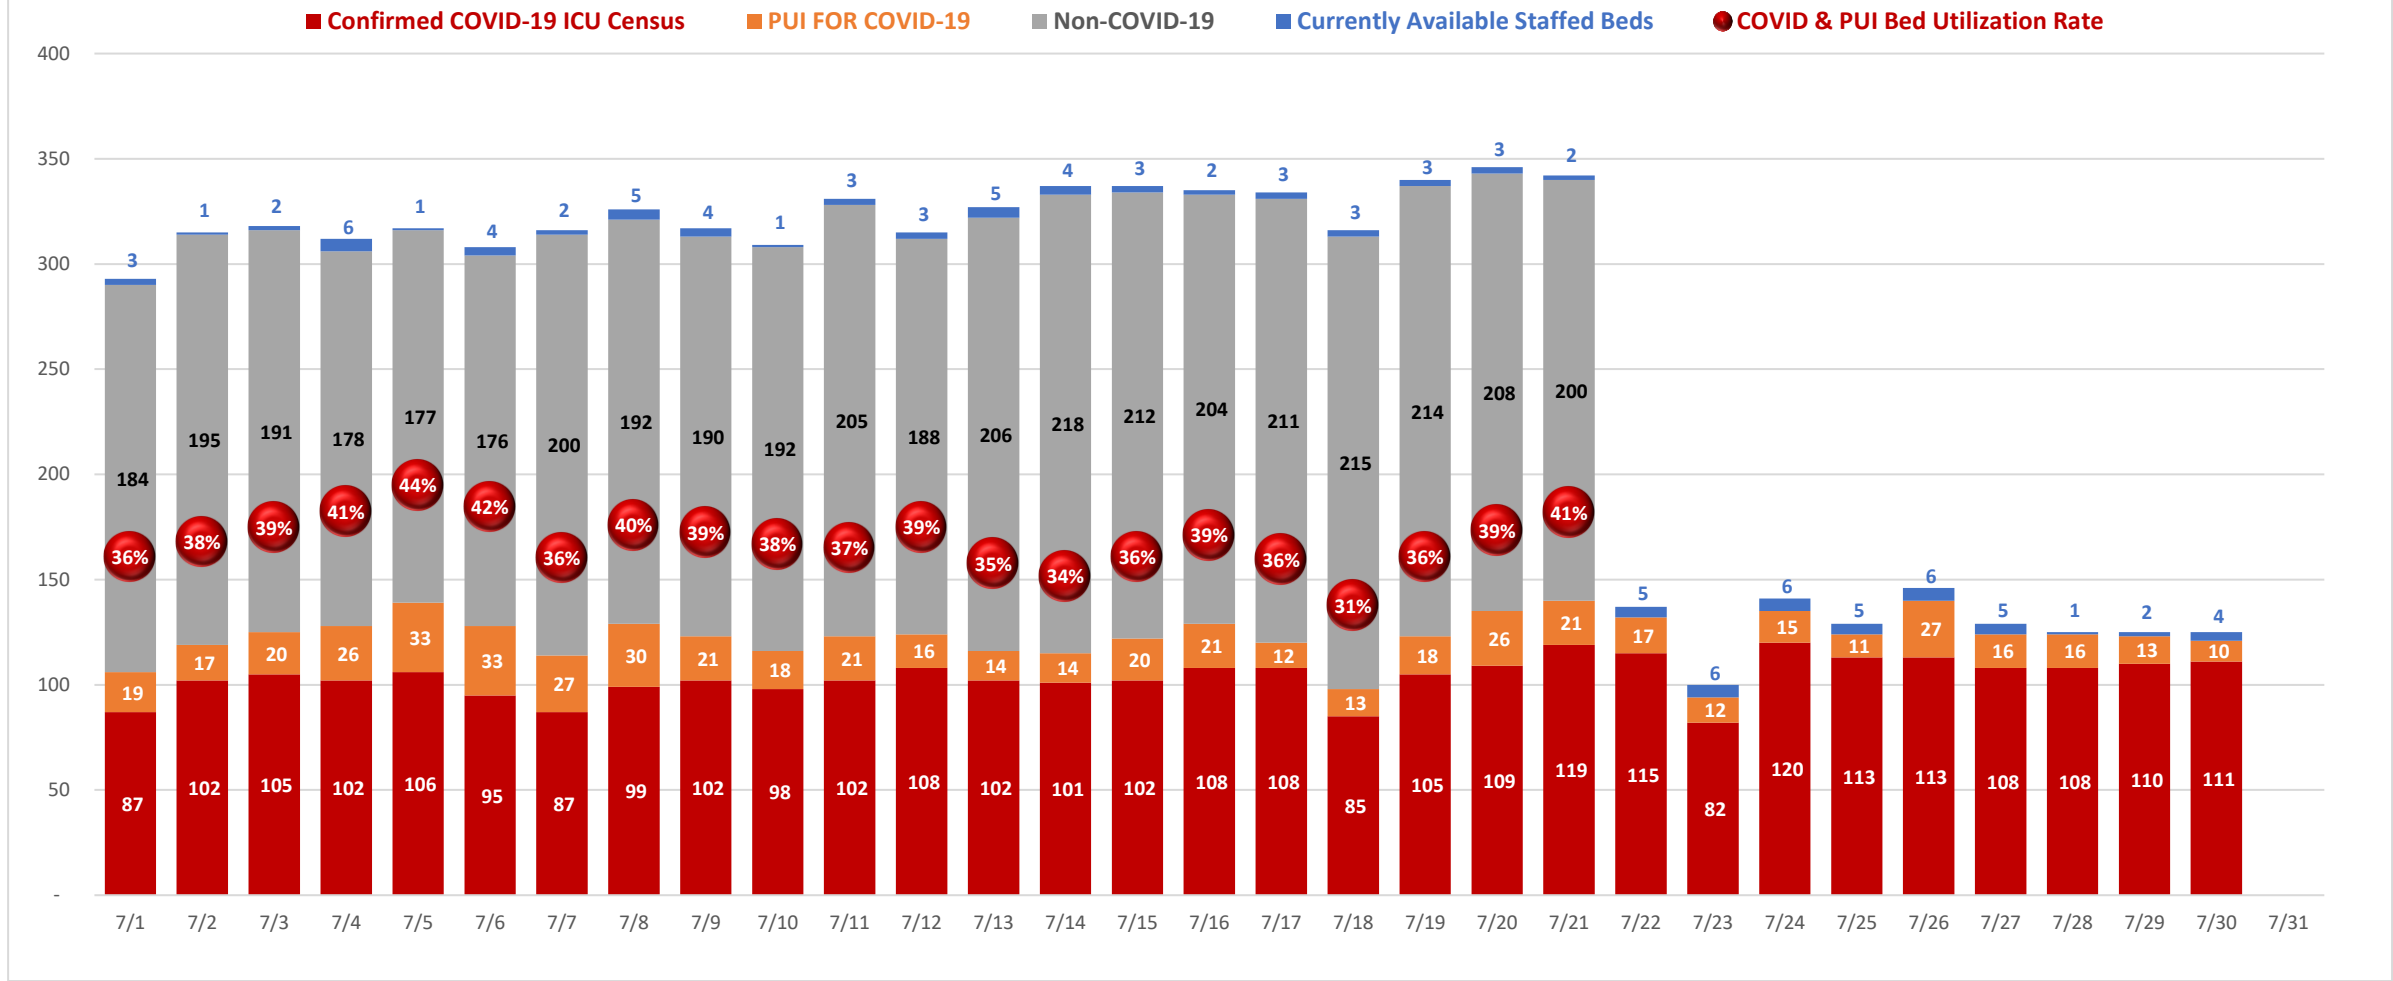

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

CHART 4A-SG

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY INTENSIVE CARE UNIT (ICU) CENSUS: SAN GABRIEL VALLEY REGION (13 Hospitals)

Licensed ICU Beds: ~290 Reported Surge Capacity on 4/15/20: 320
Estimated 2018 Population: 1,625,381

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

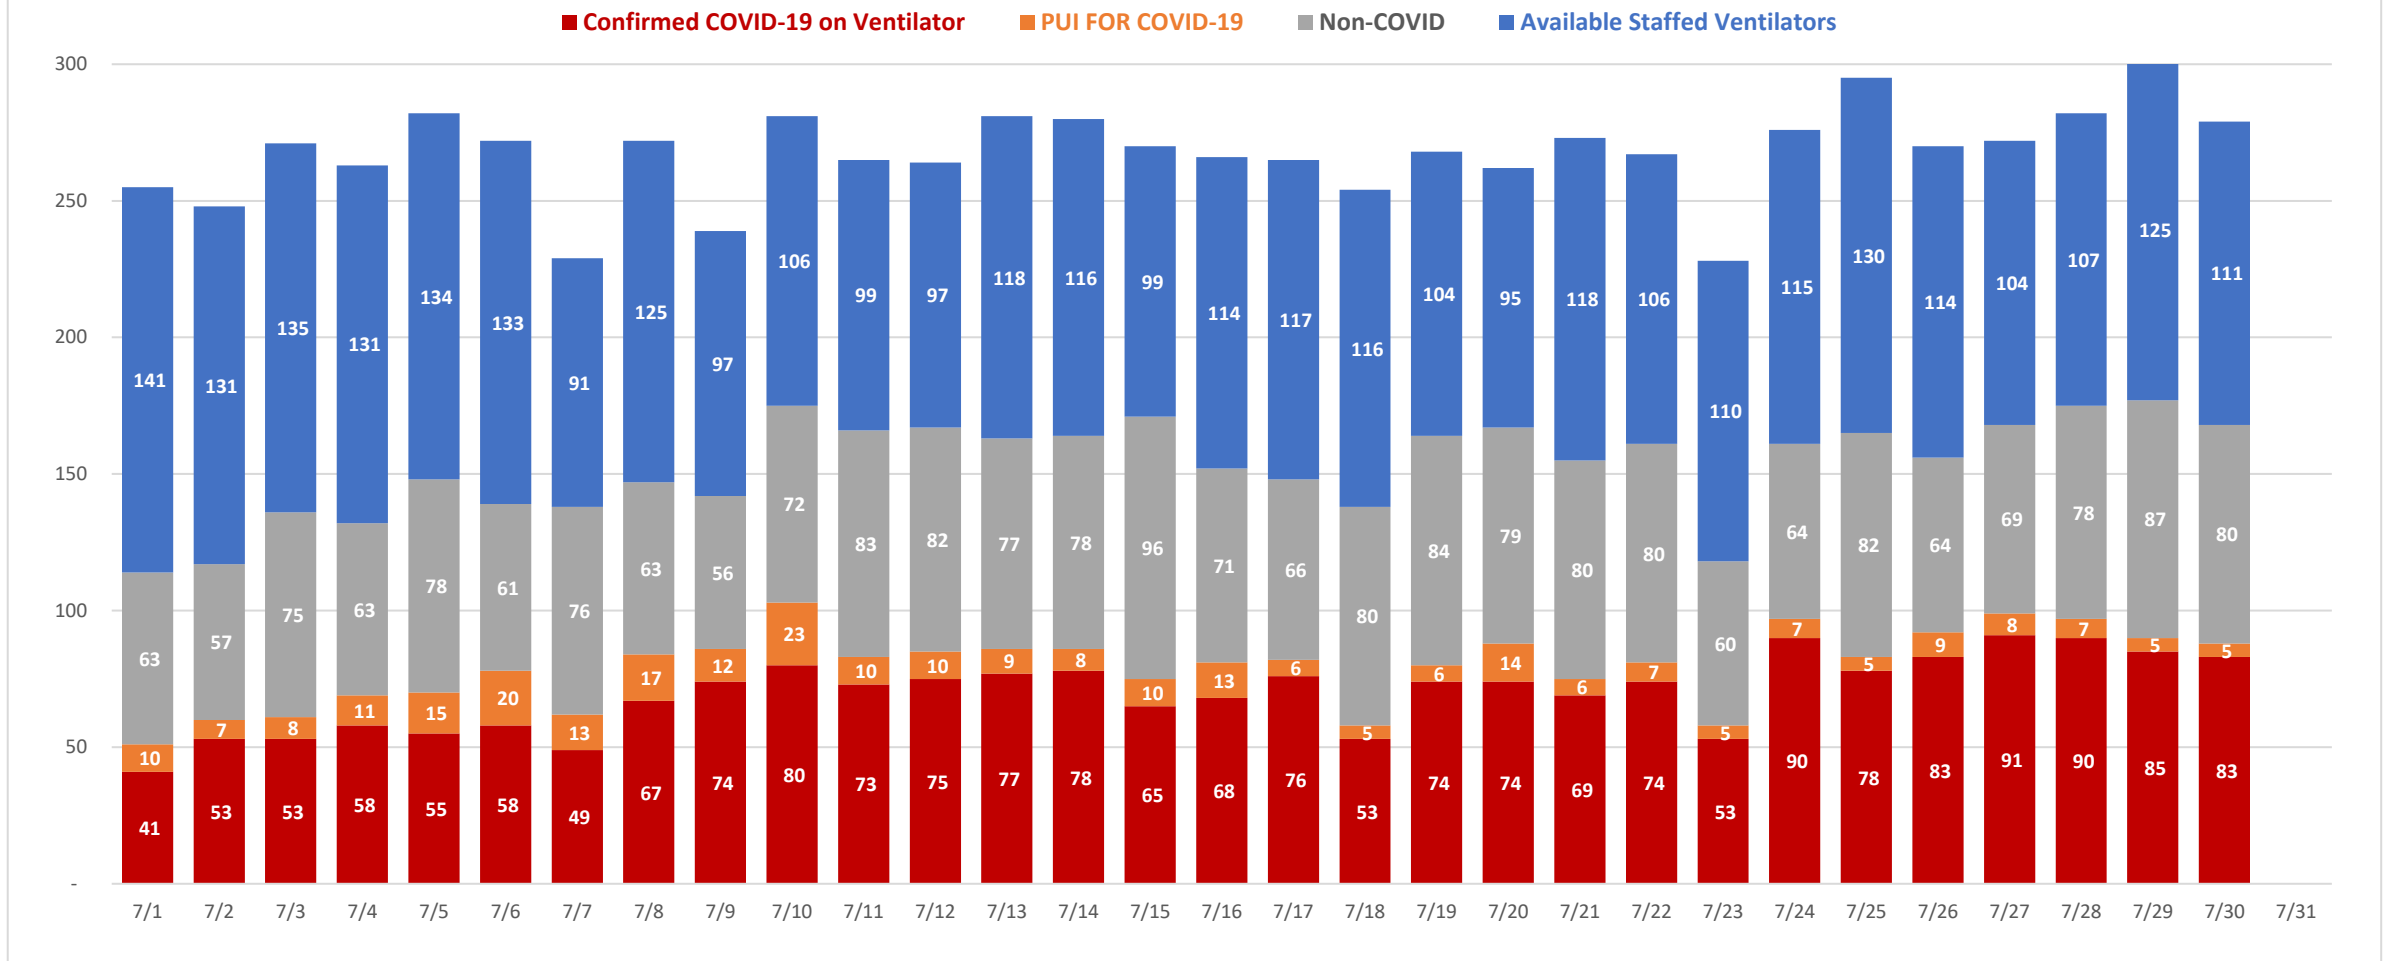

CHART 4B-SG

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY CENSUS OF PATIENTS ON MECHANICAL VENTILATION: SAN GABRIEL VALLEY REGION (13 Hospitals)

Reported Surge Capacity on 4/15/20 for Mechanical Ventilation: 388

Estimated 2018 Population: 1,625,381

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

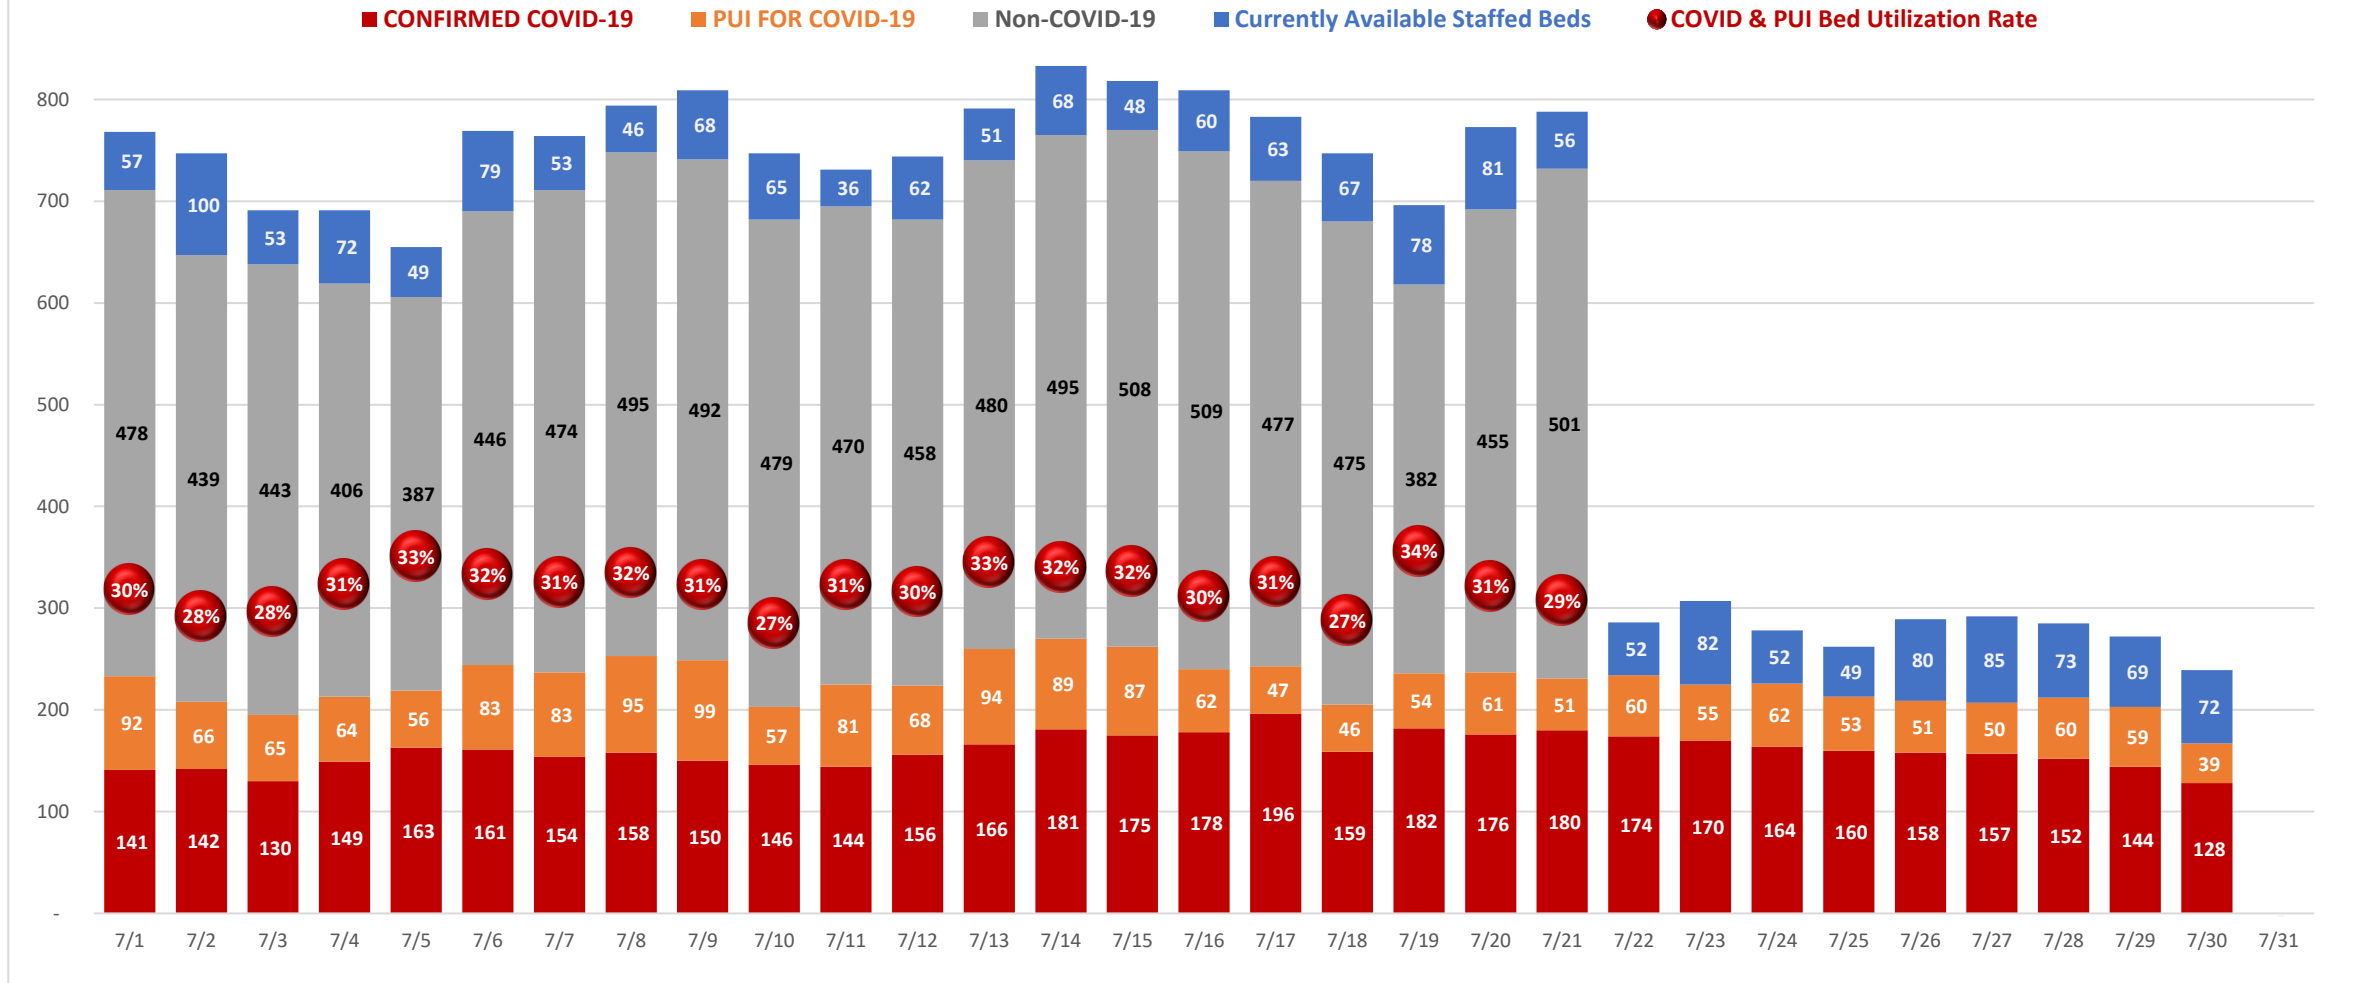

CHART 4C-SG

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY Non-ICU (Med/Surg/SDU/Telemetry) CENSUS: EAST REGION (8 Hospitals)

Licensed Non-ICU Beds: ~1,700 Reported Surge Capacity on 4/15/20: 921

Estimated 2018 Population: 678,004

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

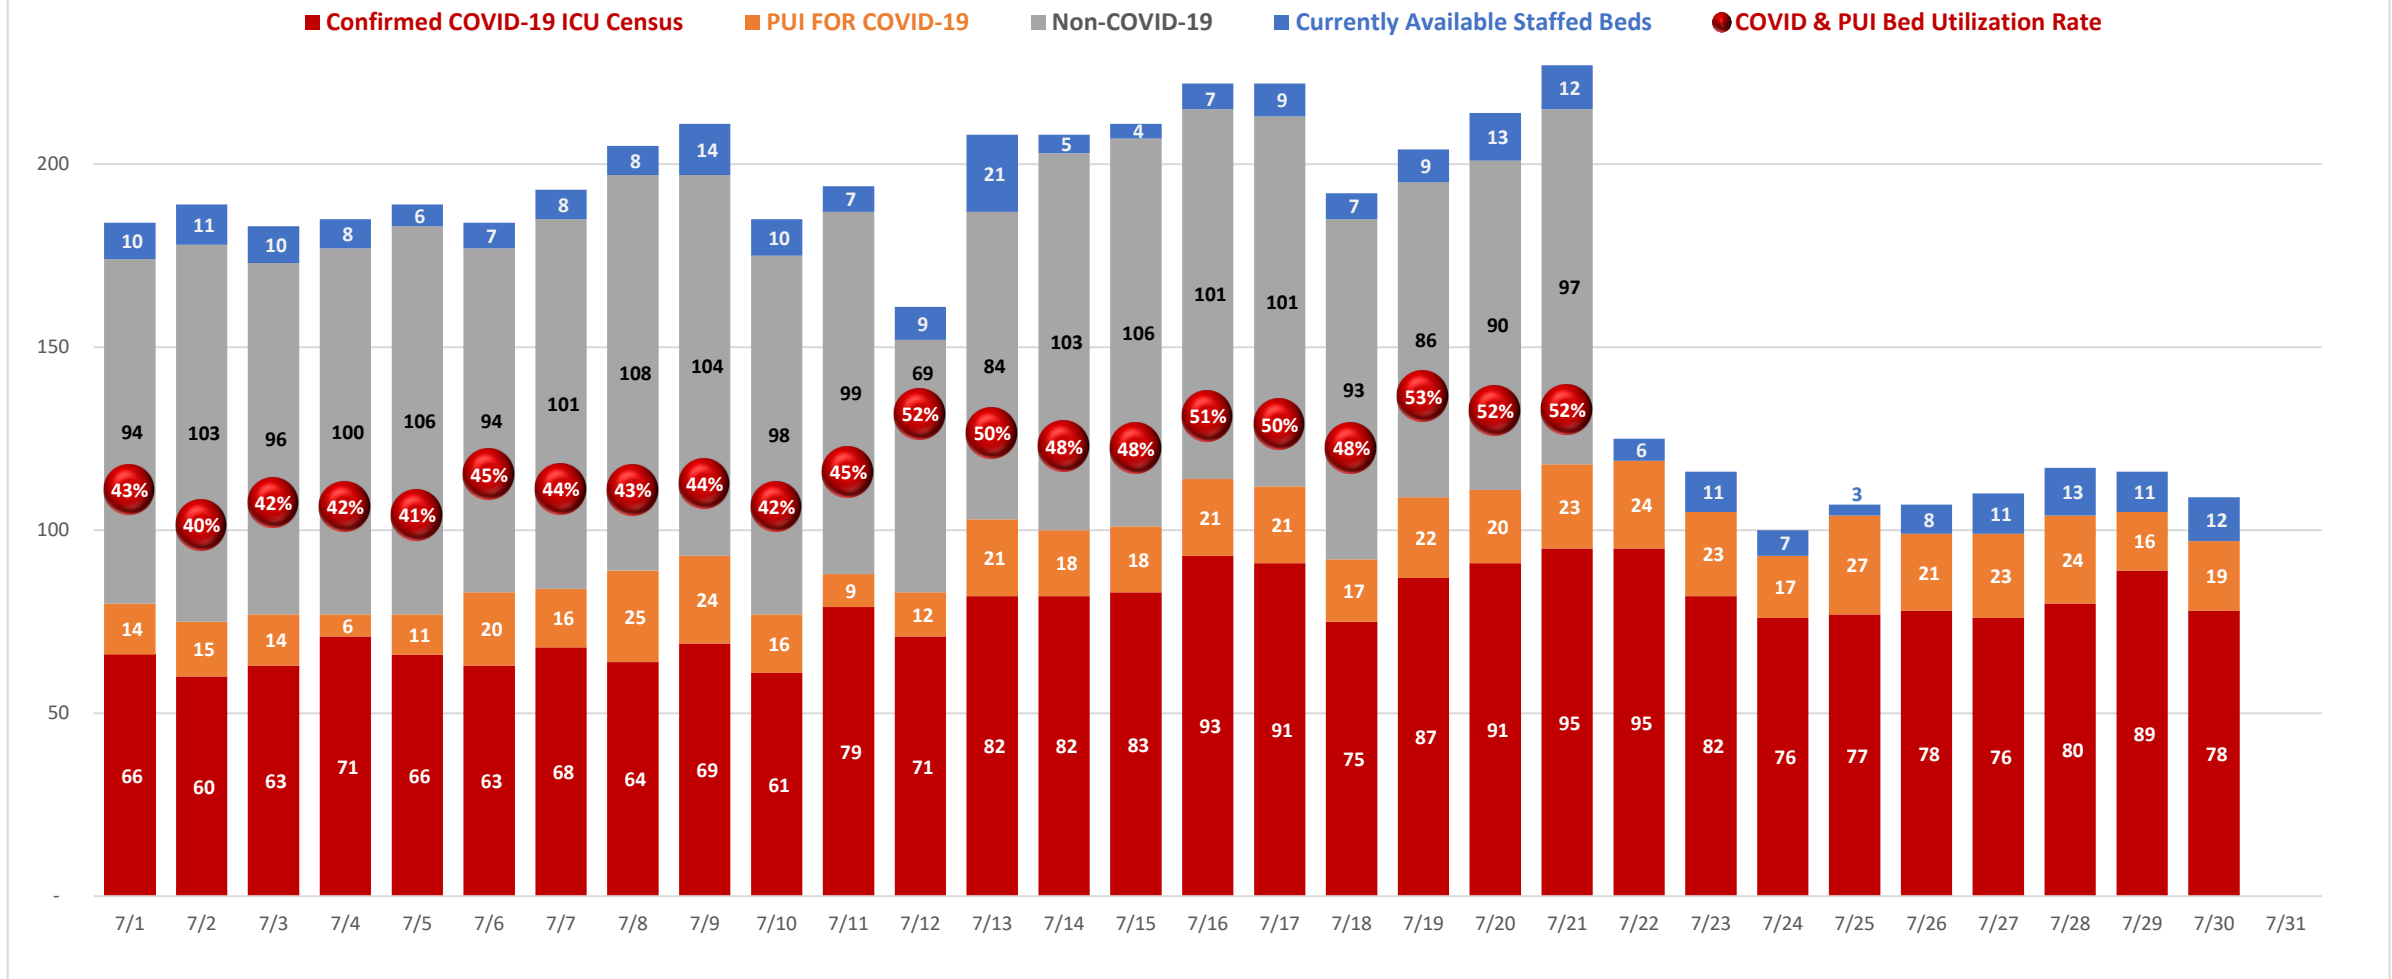

CHART 5A-ER

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY INTENSIVE CARE UNIT (ICU) CENSUS: EAST REGION (8 Hospitals)

Licensed ICU Beds: ~240 Reported Surge Capacity on 4/15/20: 360

Estimated 2018 Population: 678,004

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

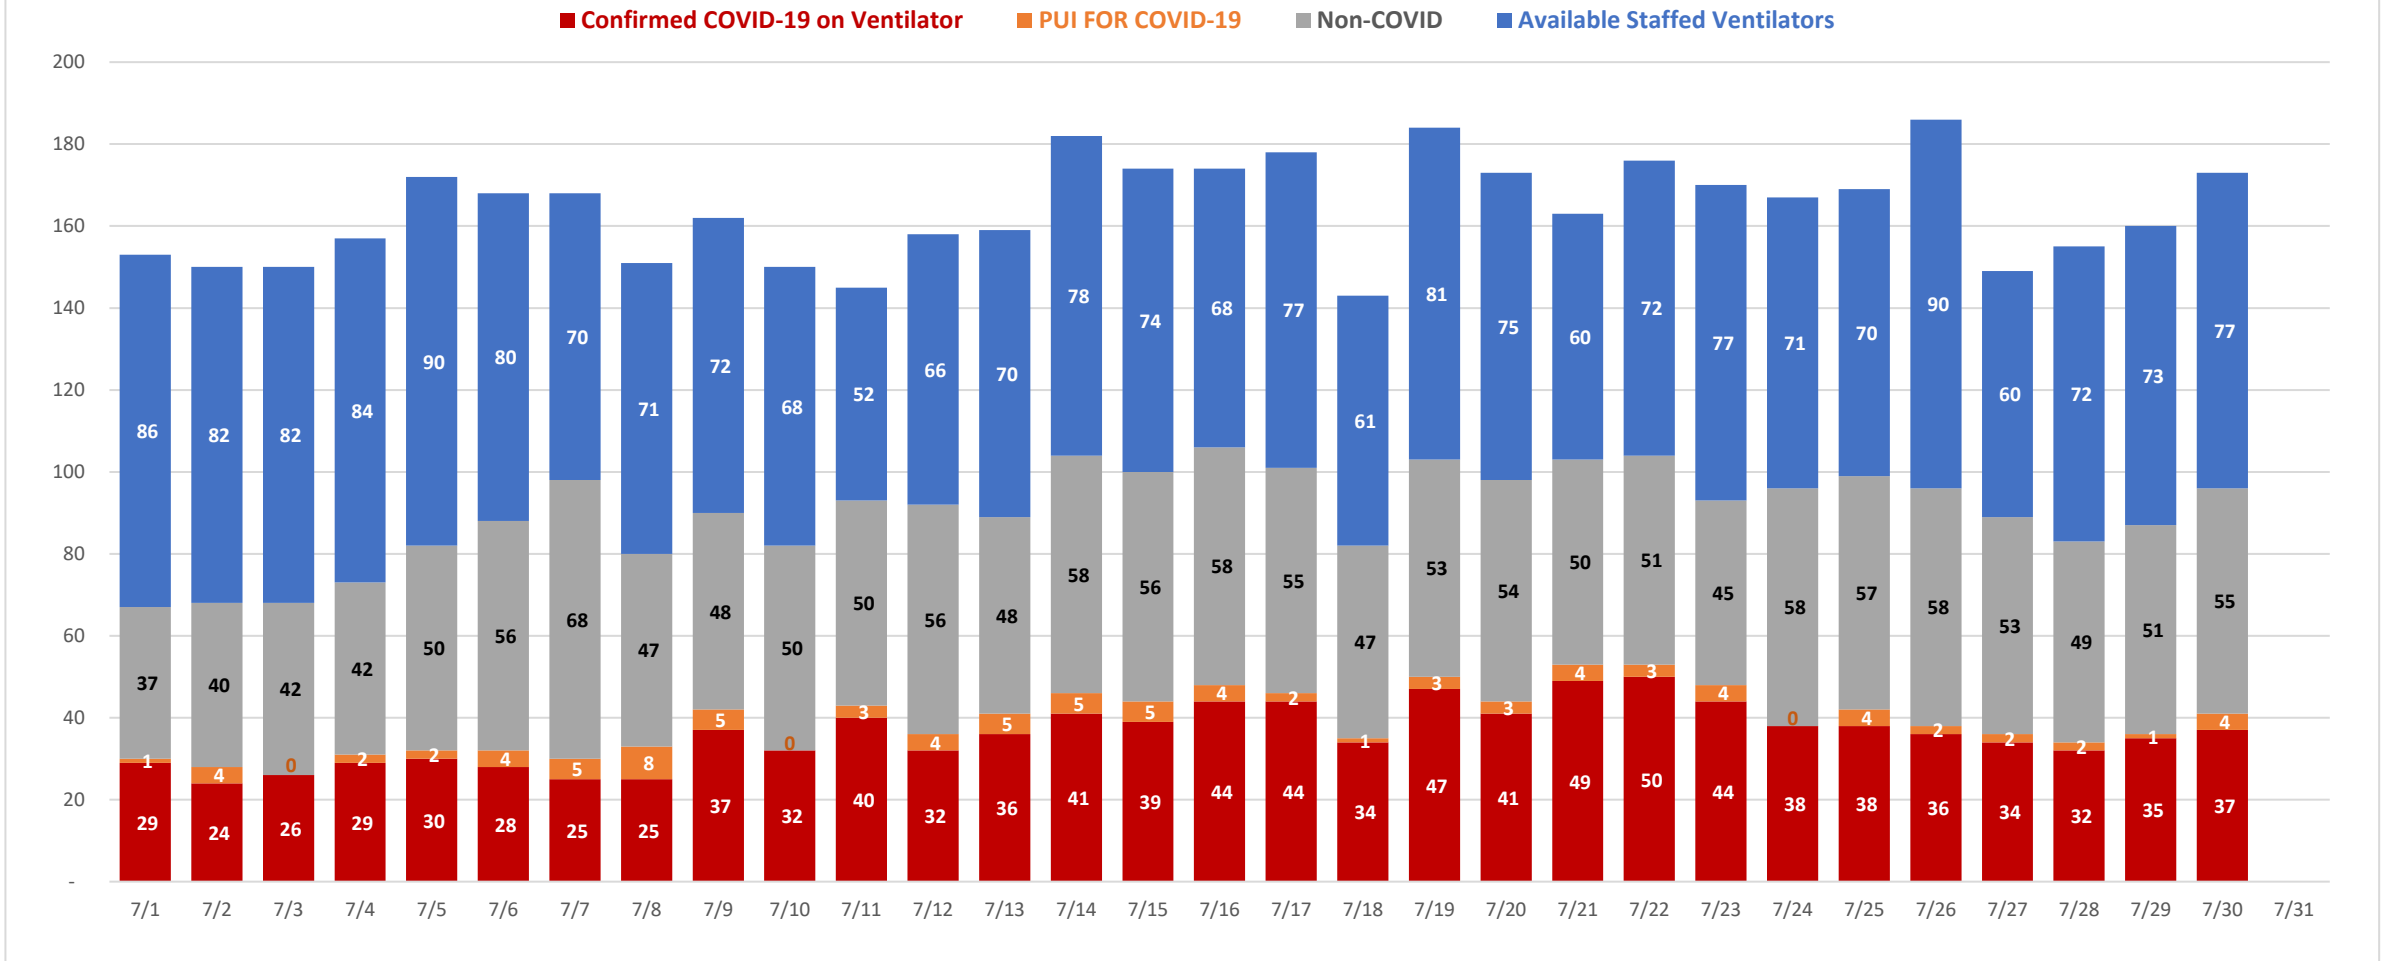

CHART 5B-ER

**Los Angeles County Emergency Medical Services Agency
COVID-19 HOSPITAL ASSESSMENT REPORT**

DAILY CENSUS OF PATIENTS ON MECHANICAL VENTILATION: EAST REGION (8 Hospitals)

Reported Surge Capacity on 4/15/20 for Mechanical Ventilation: 162

Estimated 2018 Population: 678,004

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

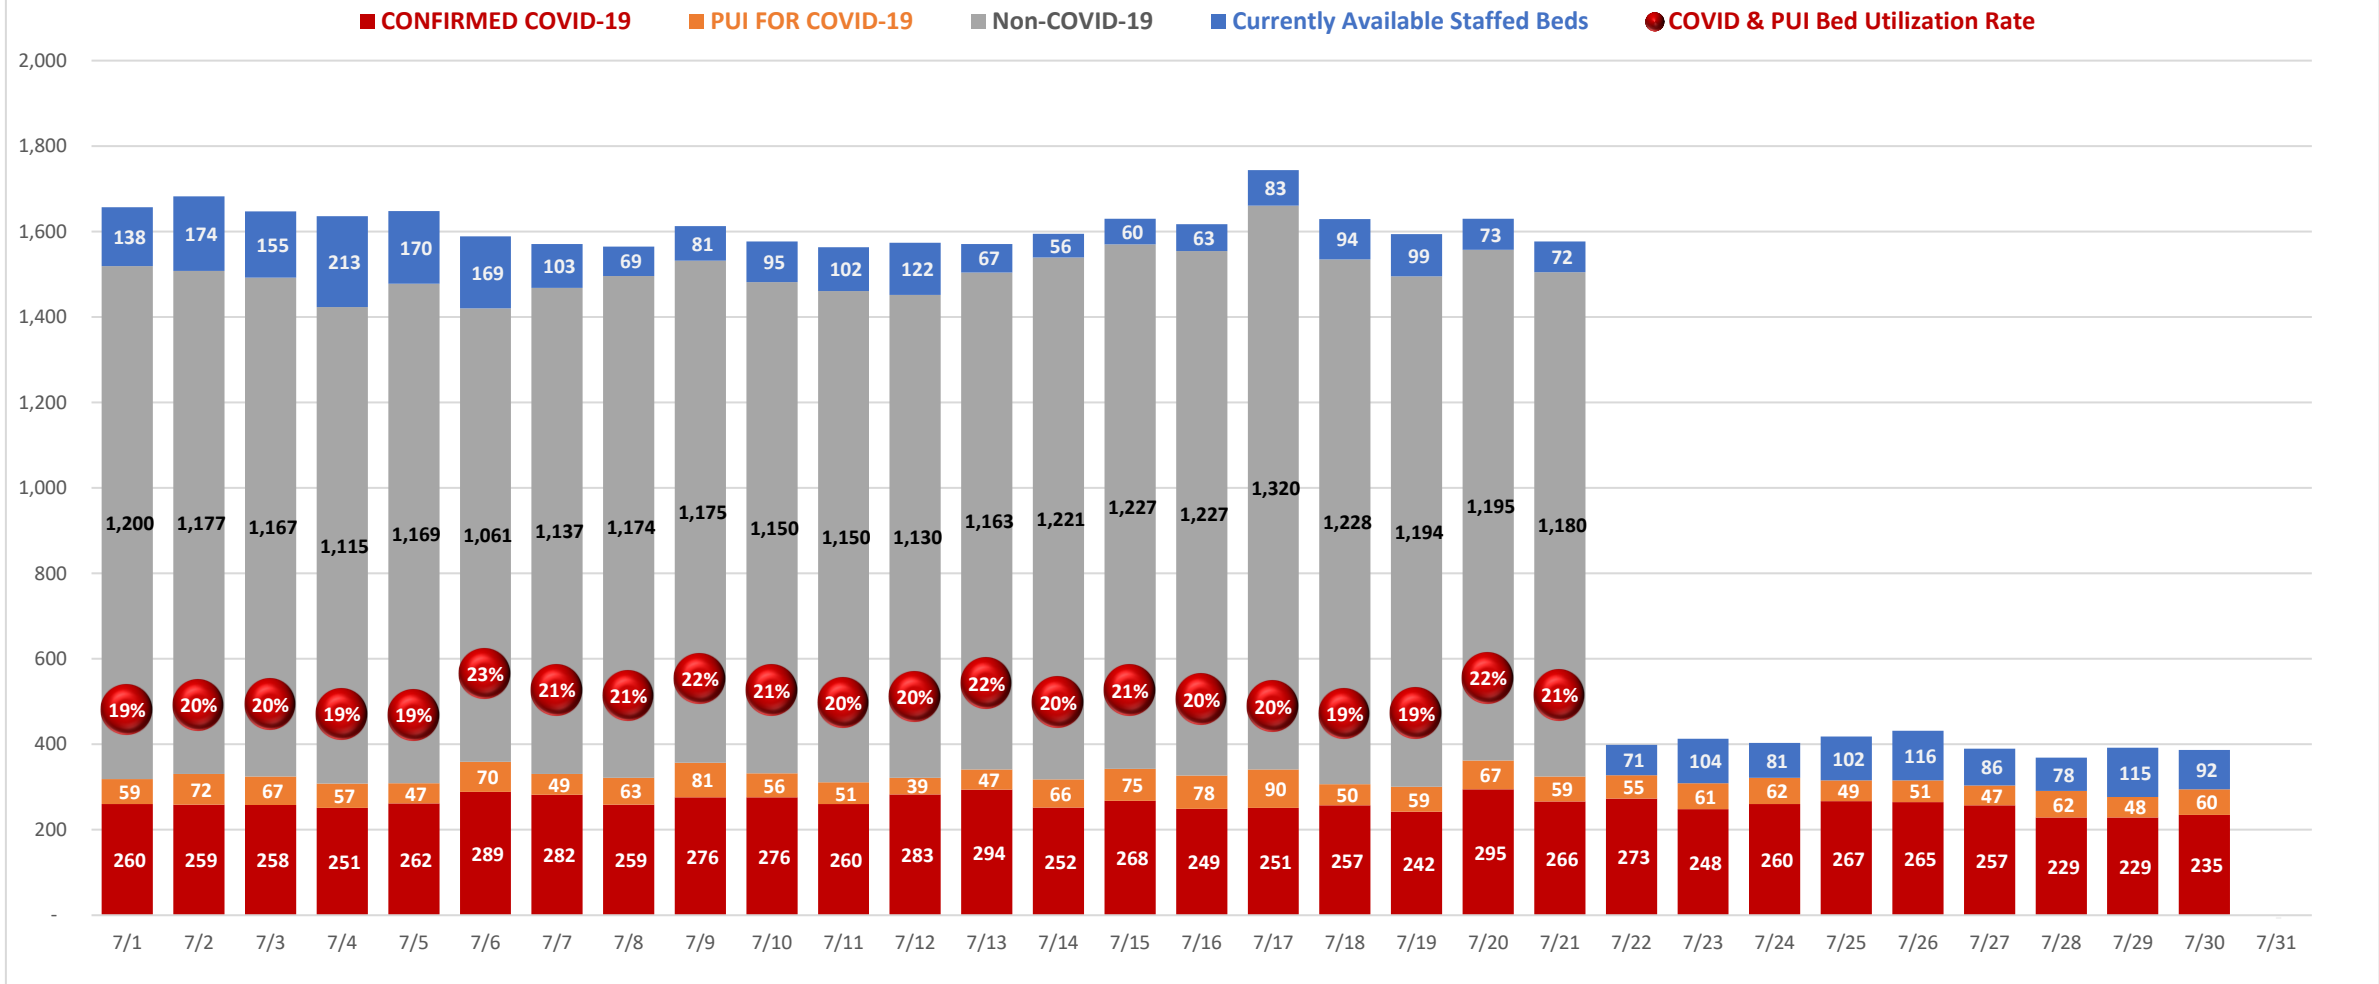

CHART 5C-ER

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY Non-ICU (Med/Surg/SDU/Telemetry) CENSUS: METRO REGION (11 Hospitals)

Licensed Non-ICU Beds: ~3,100 Reported Surge Capacity on 4/15/20: 3,273

Estimated 2018 Population: 2,570,407

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

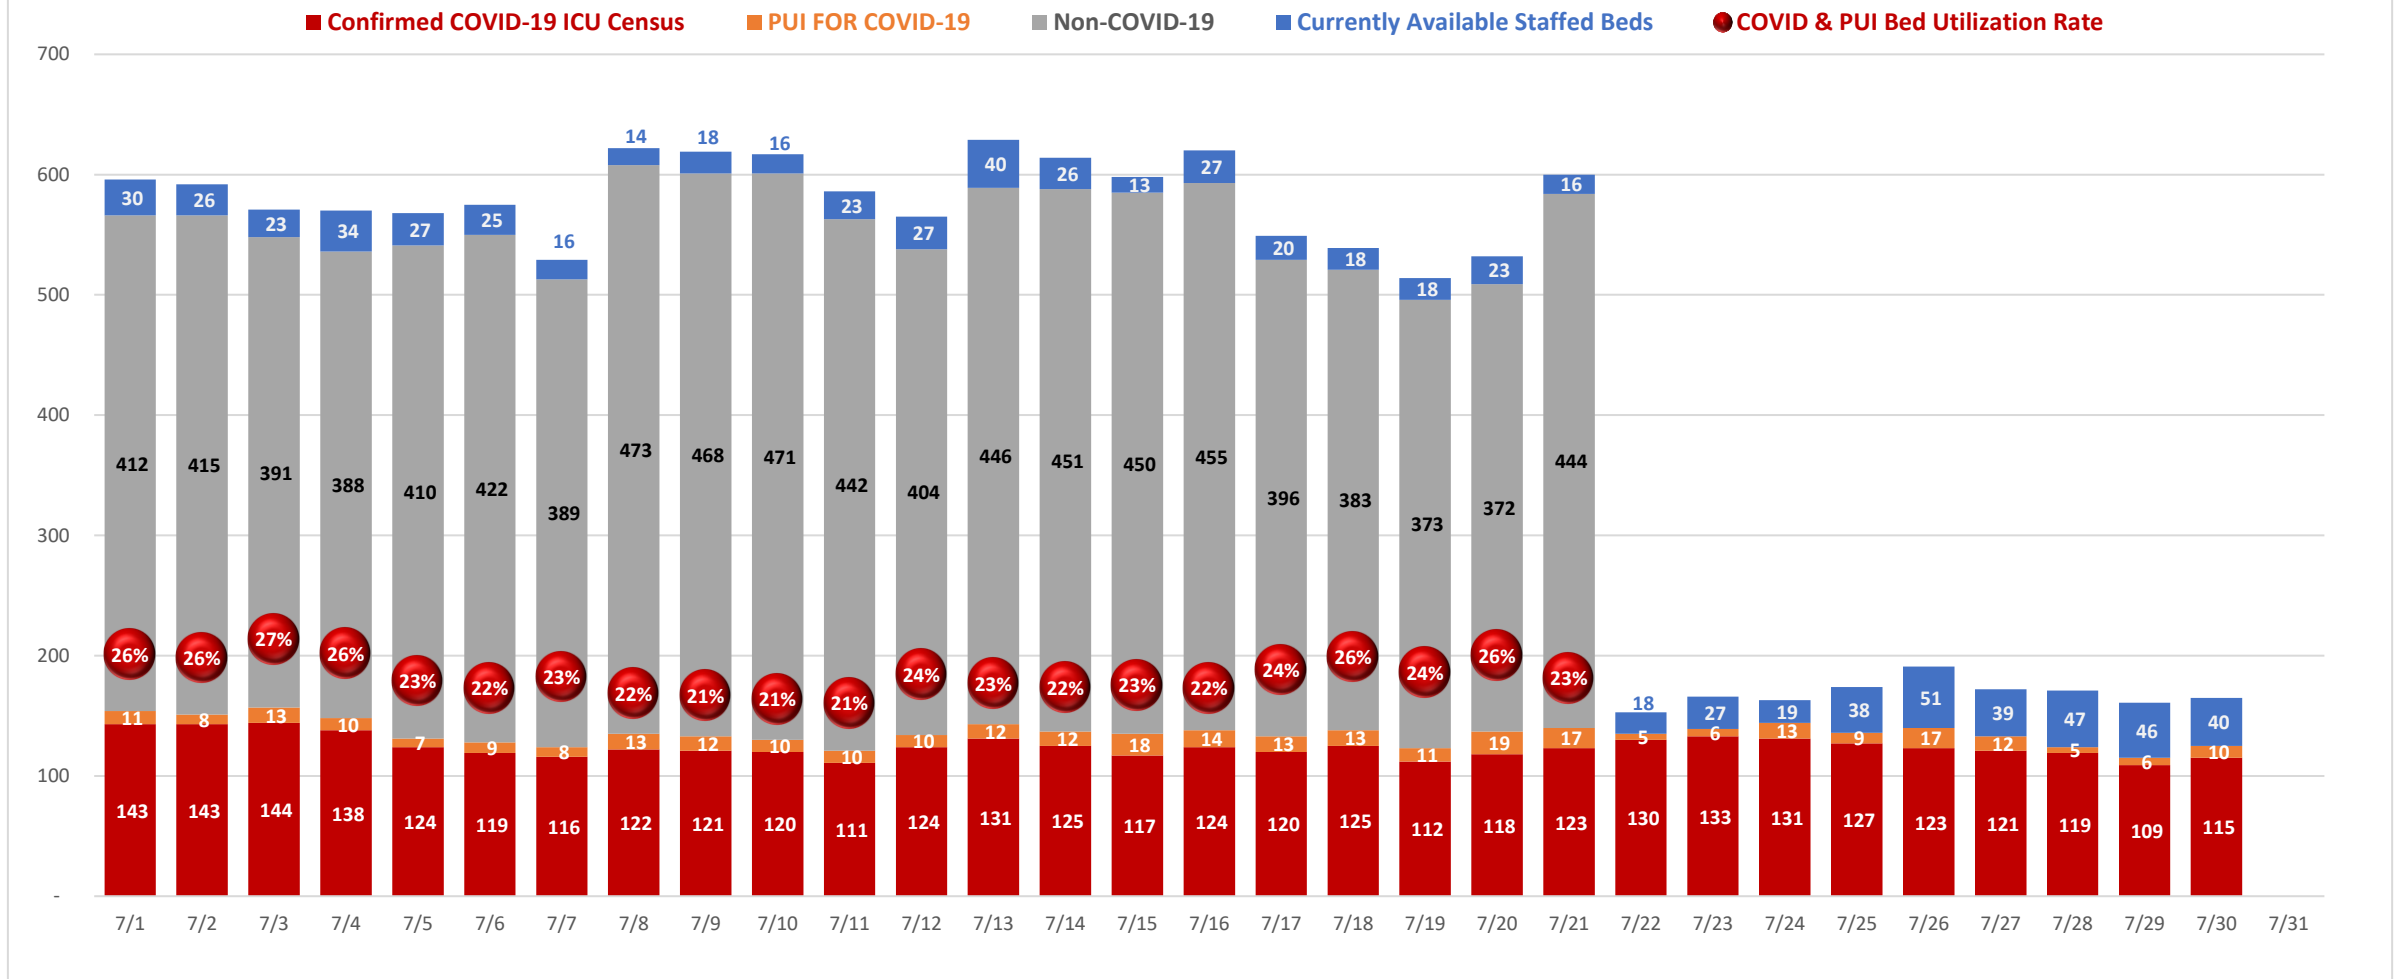

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

CHART 6A-MR

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY INTENSIVE CARE UNIT (ICU) CENSUS: METRO REGION (11 Hospitals)
 Licensed ICU Beds: ~620 Reported Surge Capacity on 4/15/20: 3,273
 Estimated 2018 Population: 2,570,407

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

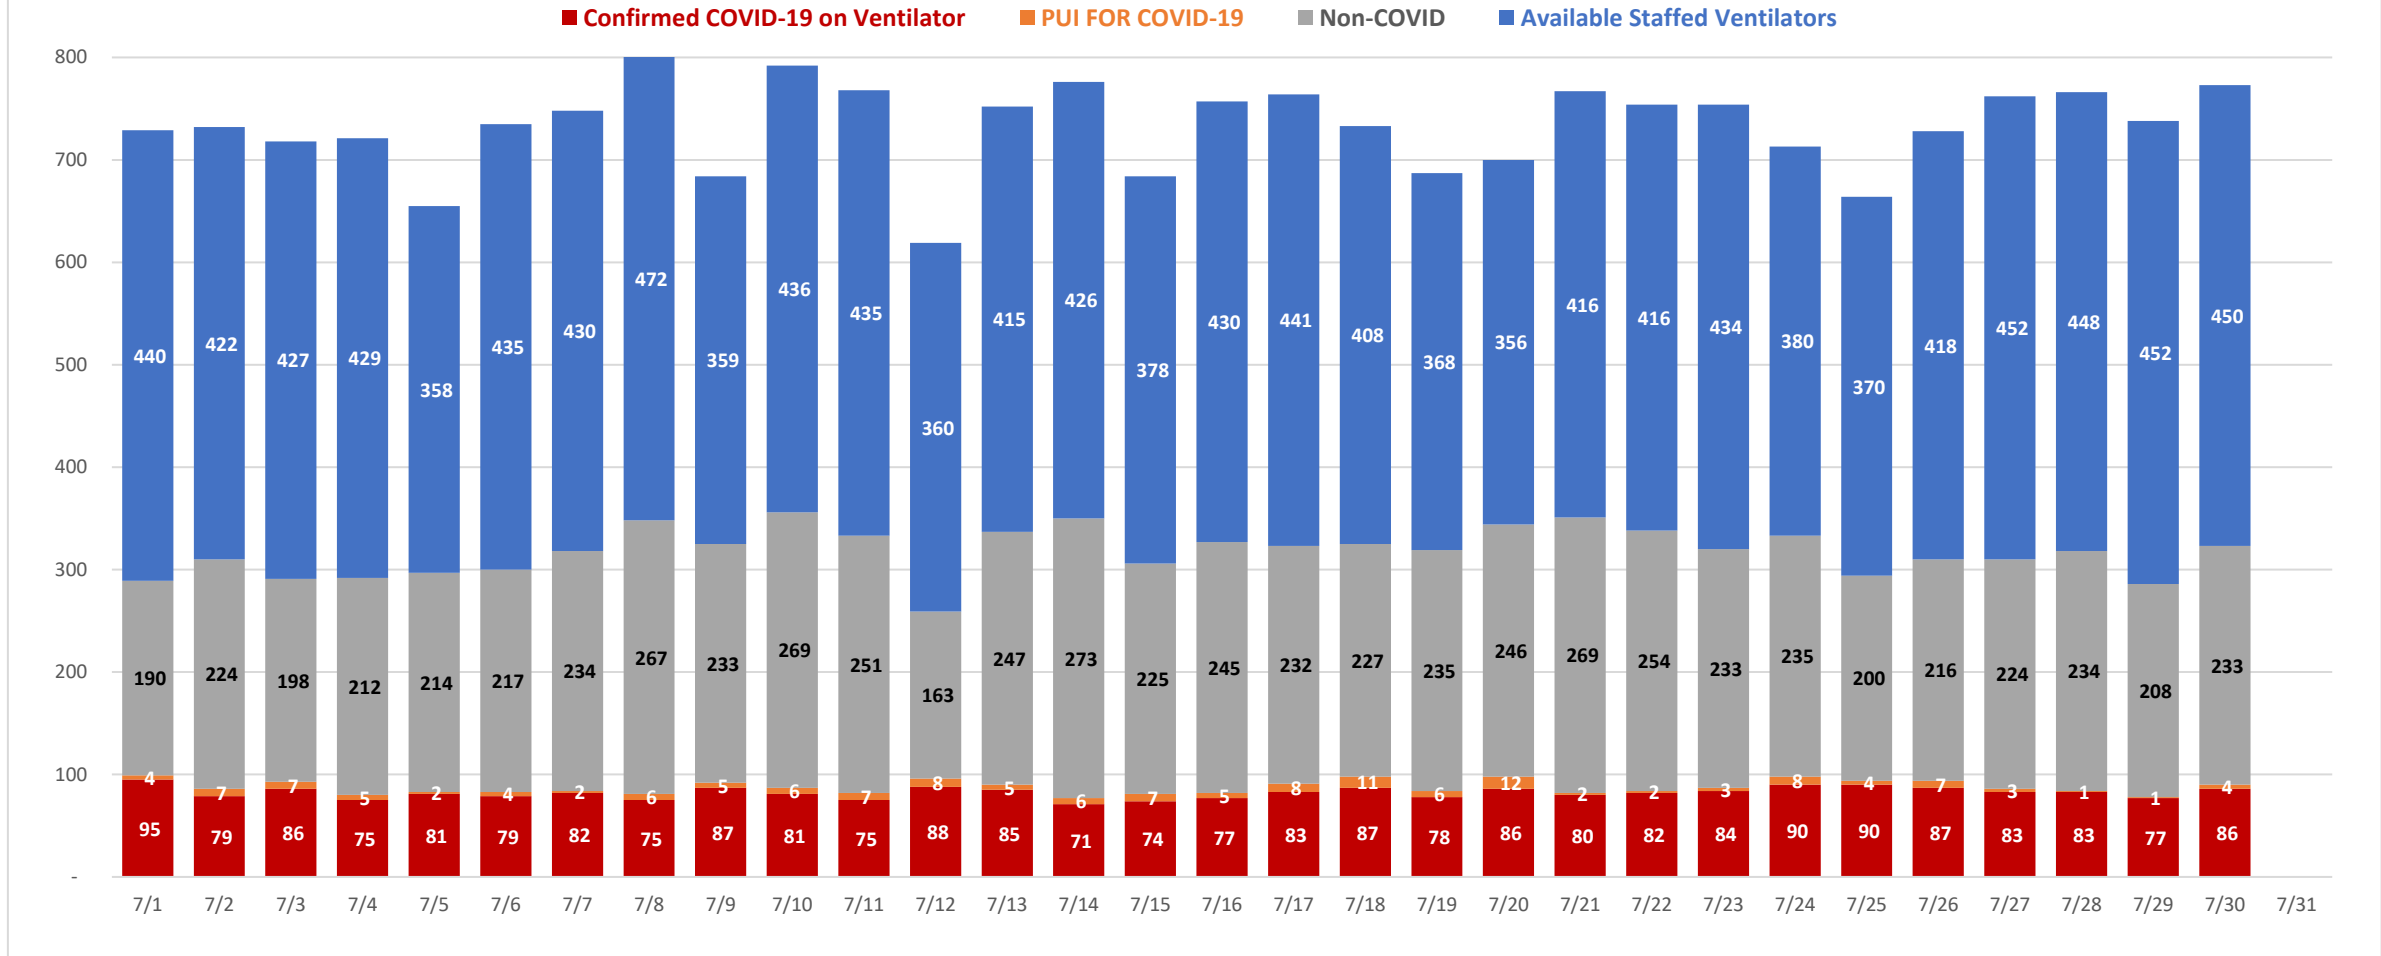

CHART 6B-MR

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY CENSUS OF PATIENTS ON MECHANICAL VENTILATION: METRO REGION (11 Hospitals)

Reported Surge Capacity on 4/15/20 for Mechanical Ventilation: 1,080

Estimated 2018 Population: 2,570,407

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

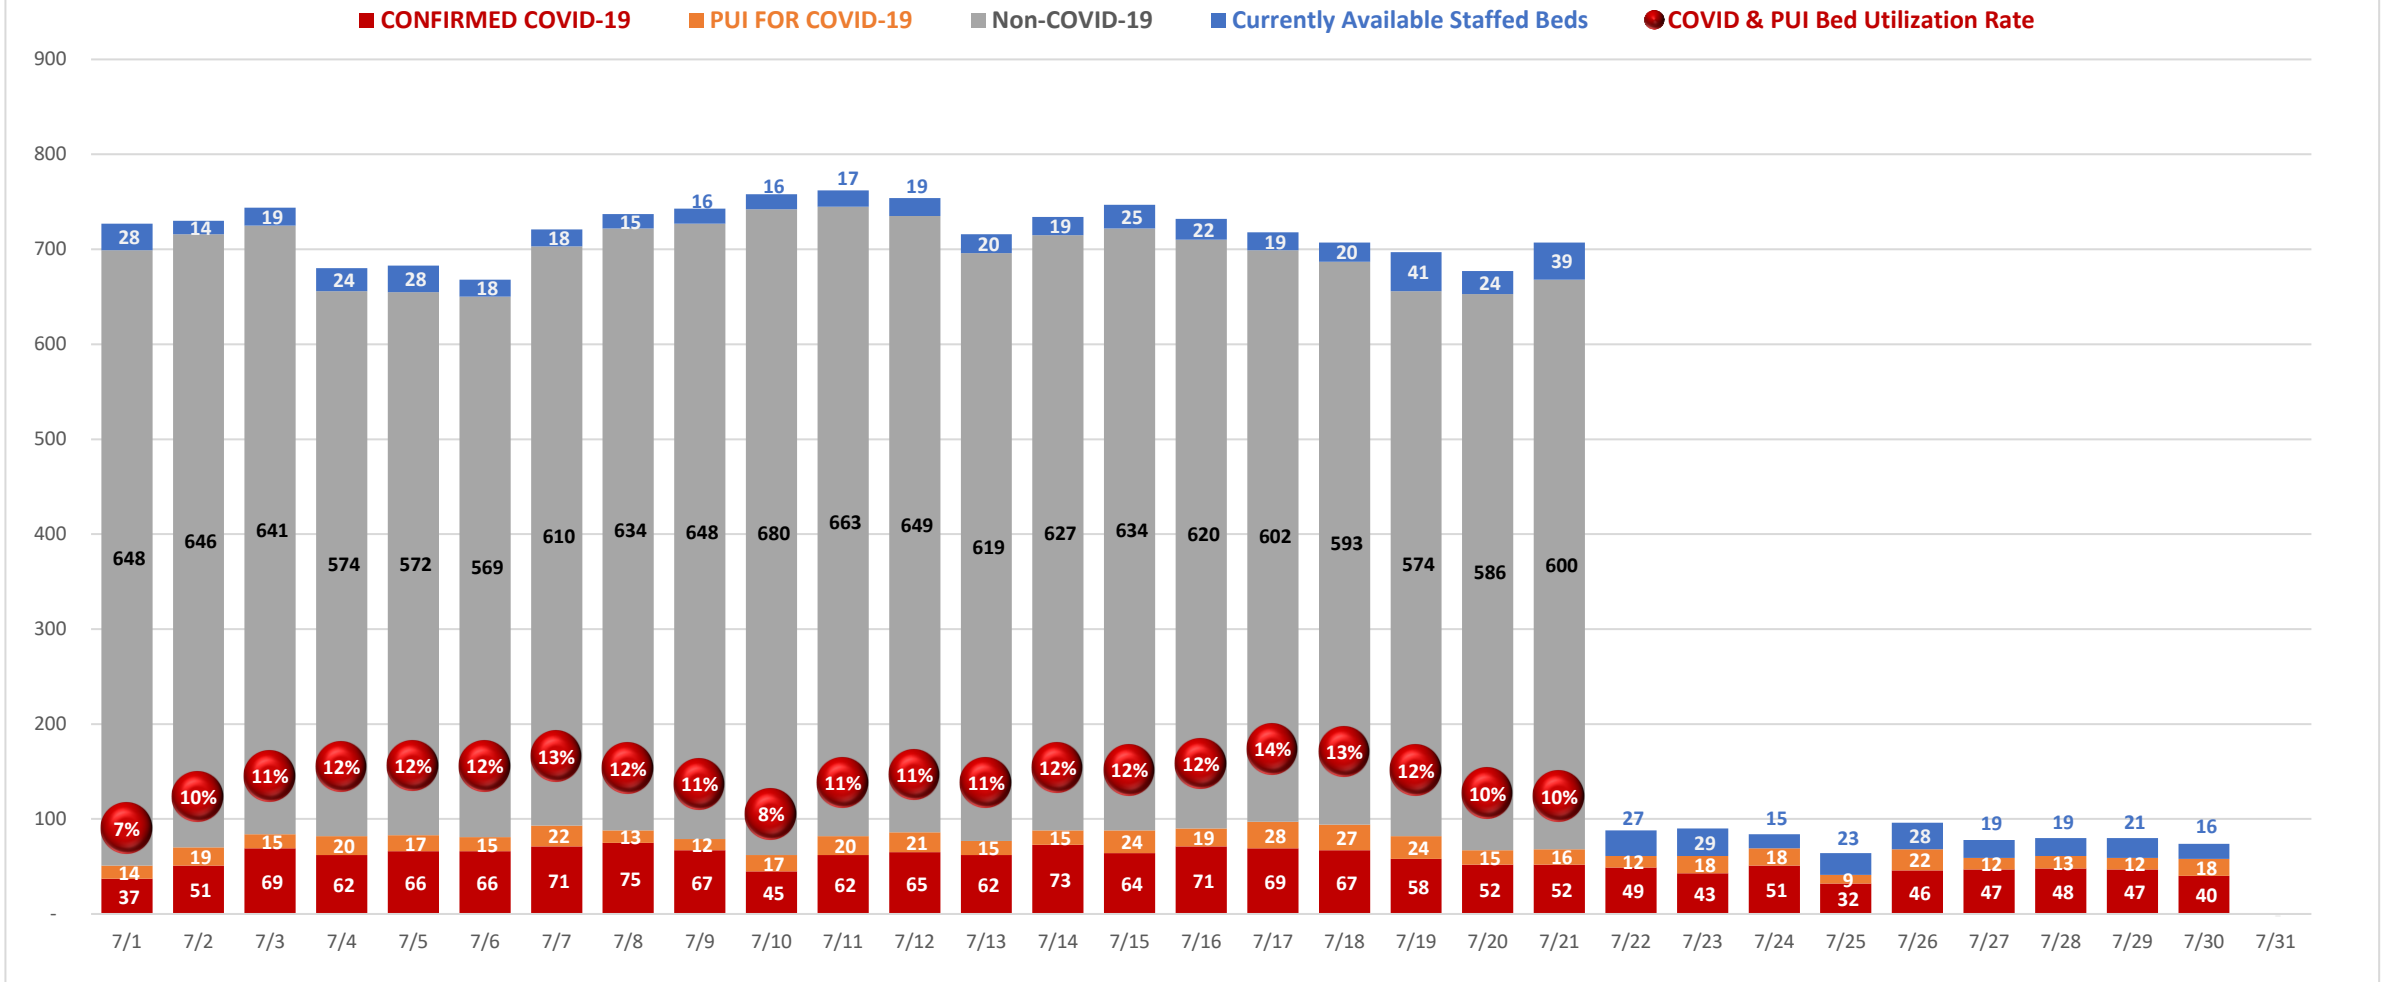

CHART 6C-MR

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY Non-ICU (Med/Surg/SDU/Telemetry) CENSUS: WEST REGION (6 Hospitals)

Licensed Non-ICU Beds: ~1,300 Reported Surge Capacity on 4/15/20: 1,159

Estimated 2018 Population: 363,737

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

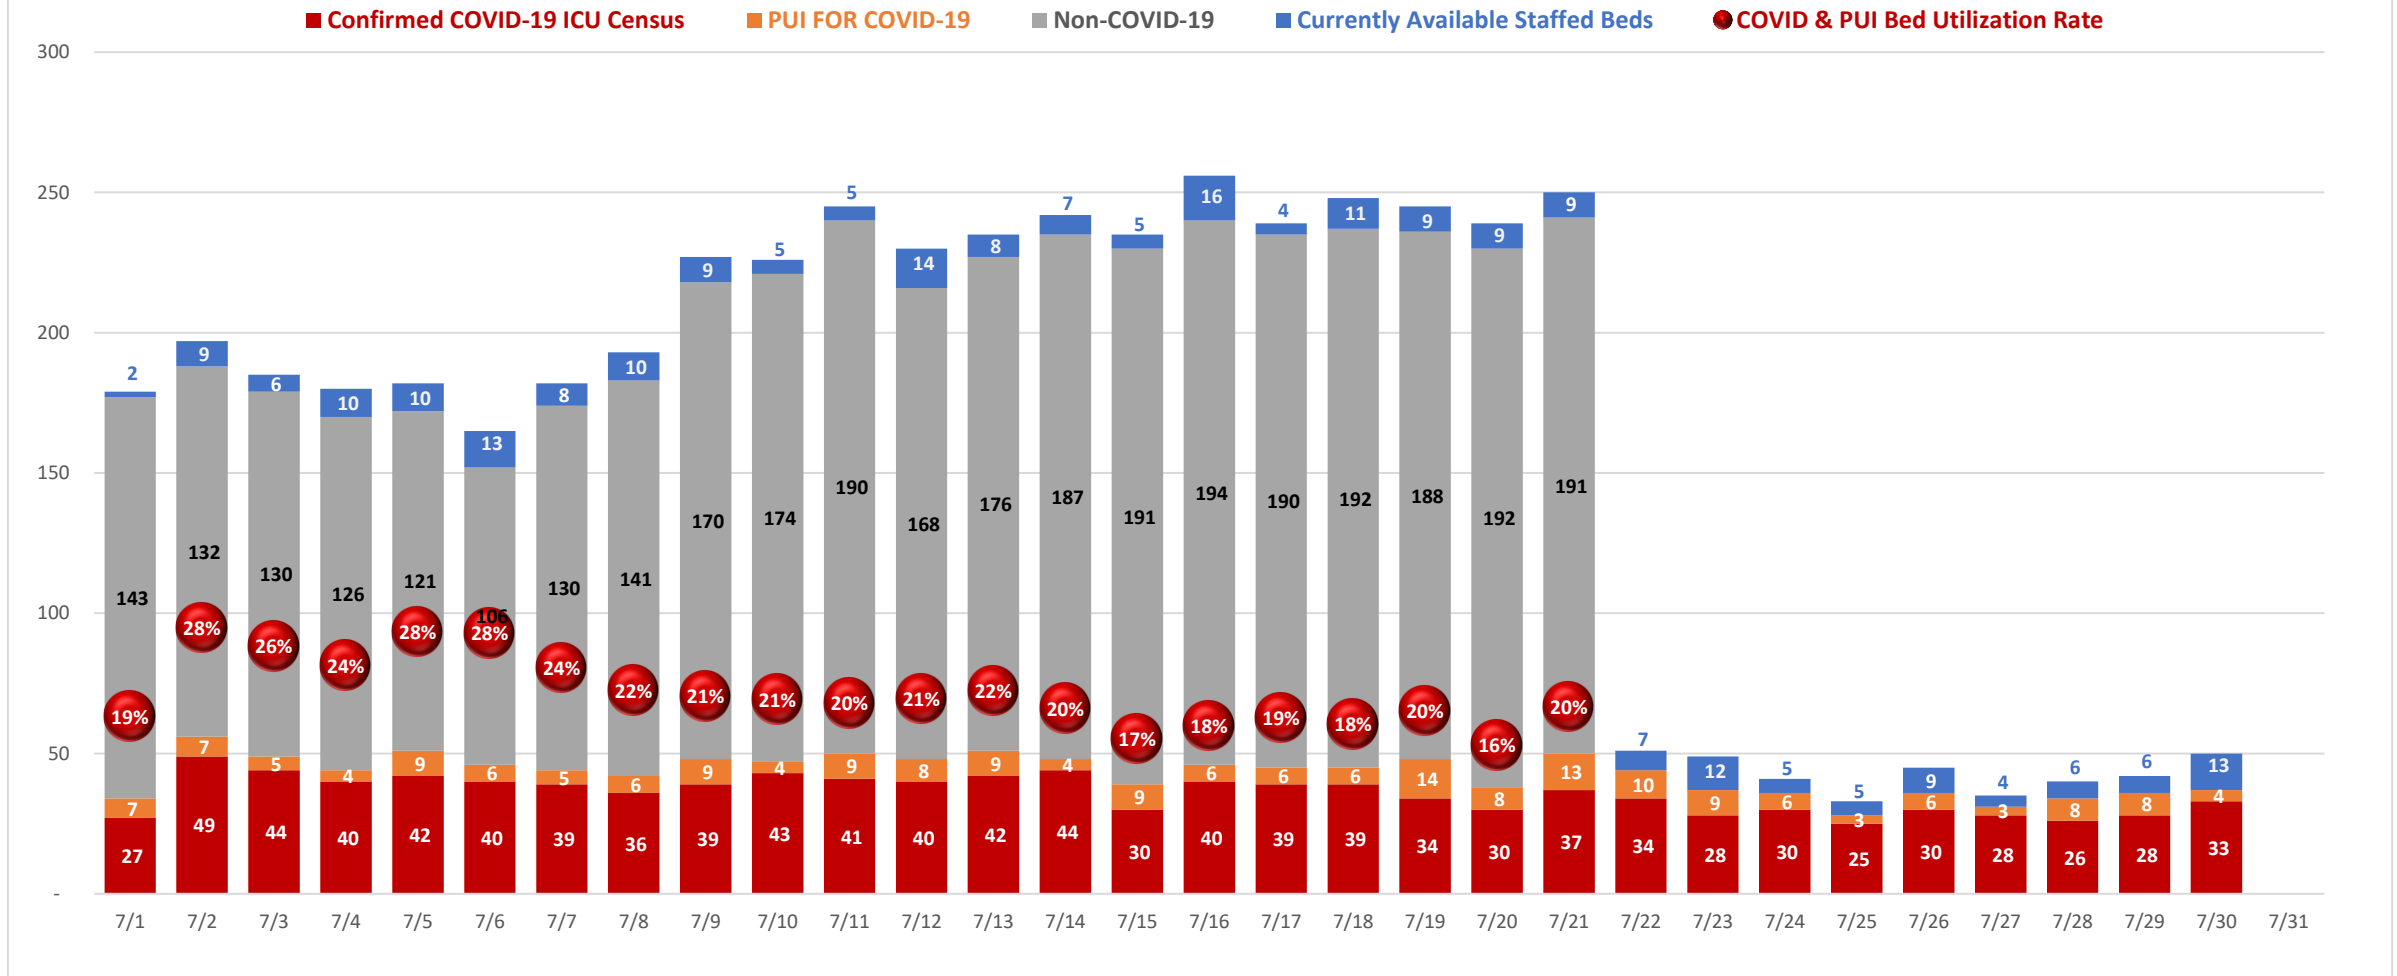

CHART 7A-WR

Los Angeles County Emergency Medical Services Agency COVID-19 HOSPITAL ASSESSMENT REPORT

DAILY INTENSIVE CARE UNIT (ICU) CENSUS: WEST REGION (6 Hospitals)

Licensed ICU Beds: ~240 Reported Surge Capacity on 4/15/20: 577

Estimated 2018 Population: 363,737

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

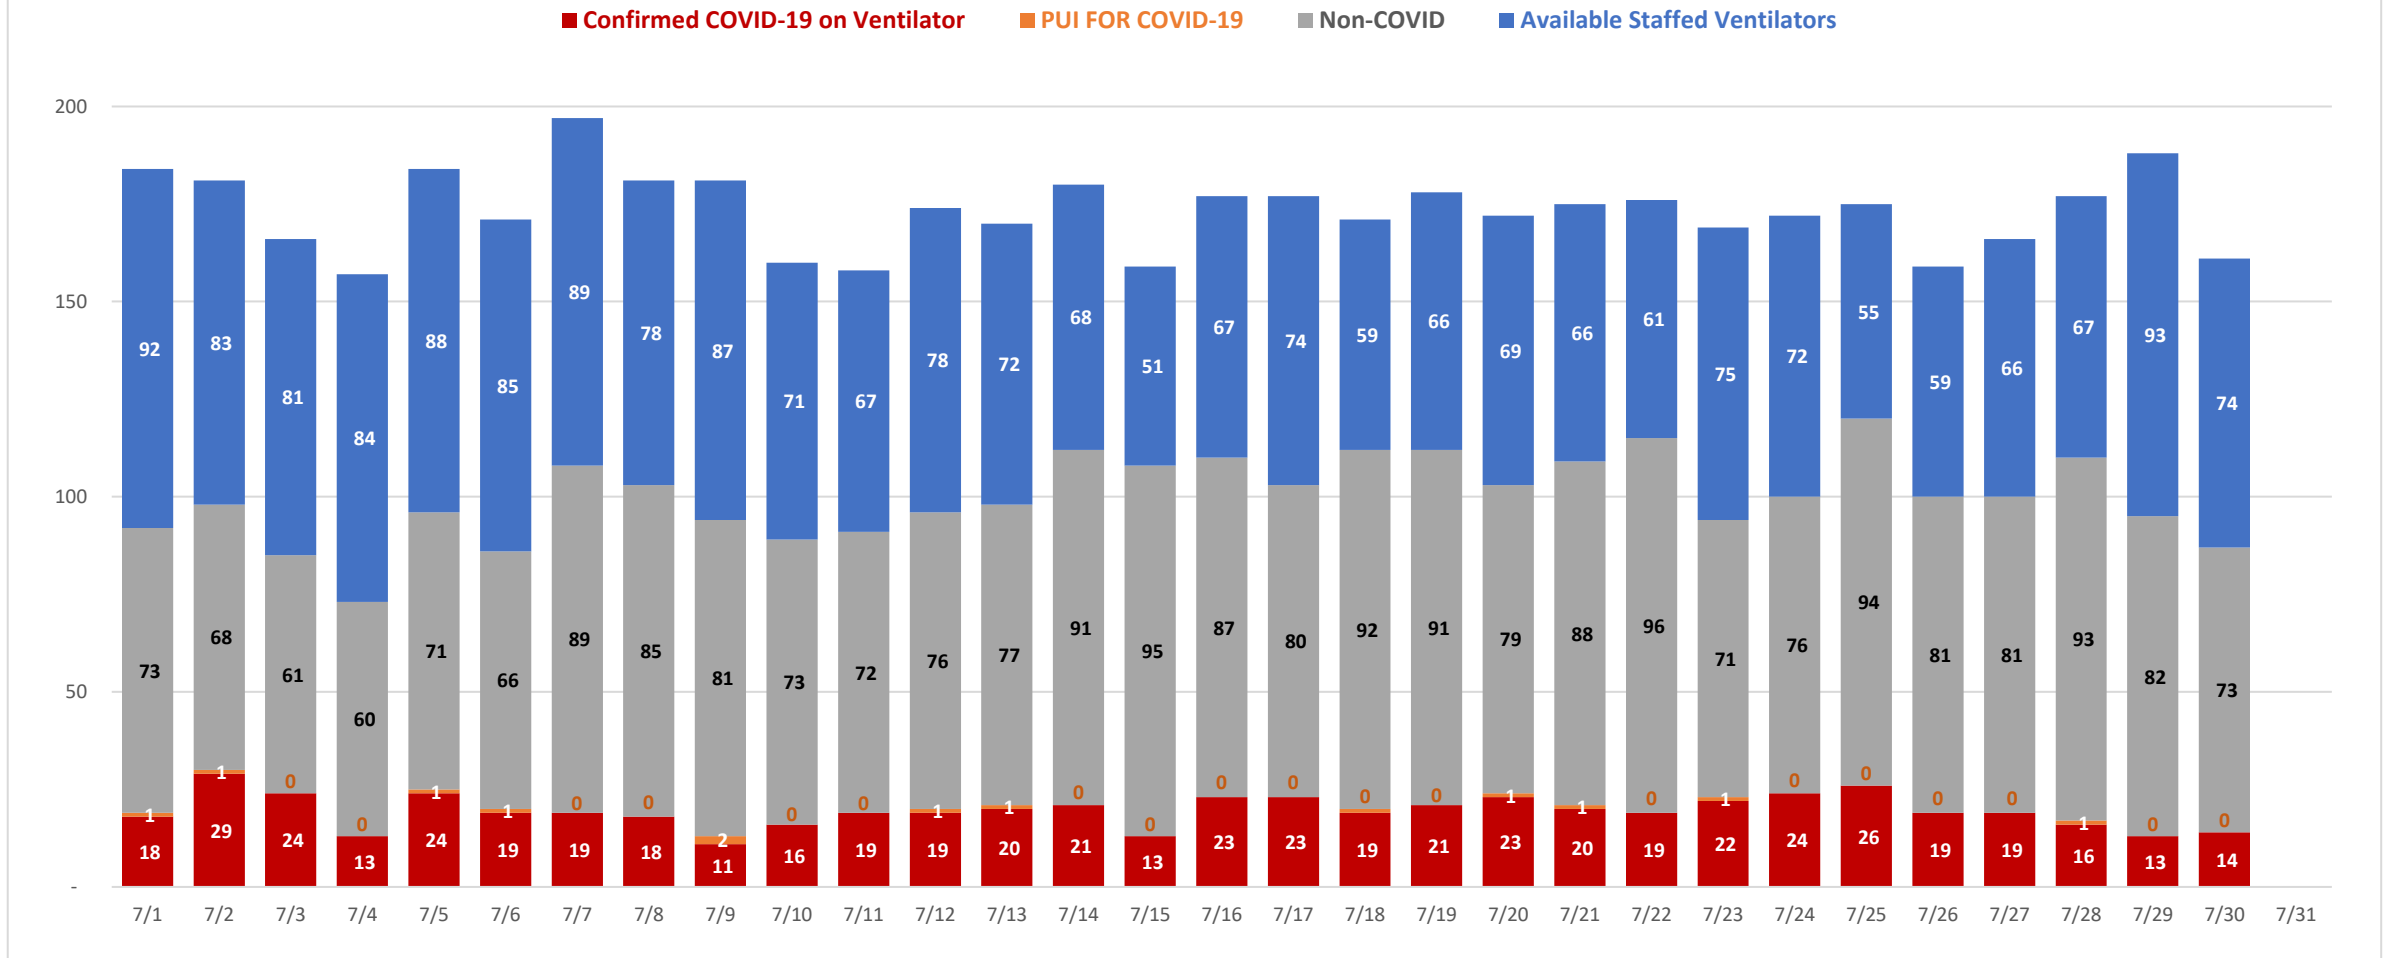

CHART 7B-WR

**Los Angeles County Emergency Medical Services Agency
COVID-19 HOSPITAL ASSESSMENT REPORT**

DAILY CENSUS OF PATIENTS ON MECHANICAL VENTILATION: WEST REGION (6 Hospitals)

Reported Surge Capacity on 4/15/20 for Mechanical Ventilation: 180

Estimated 2018 Population: 363,737

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.

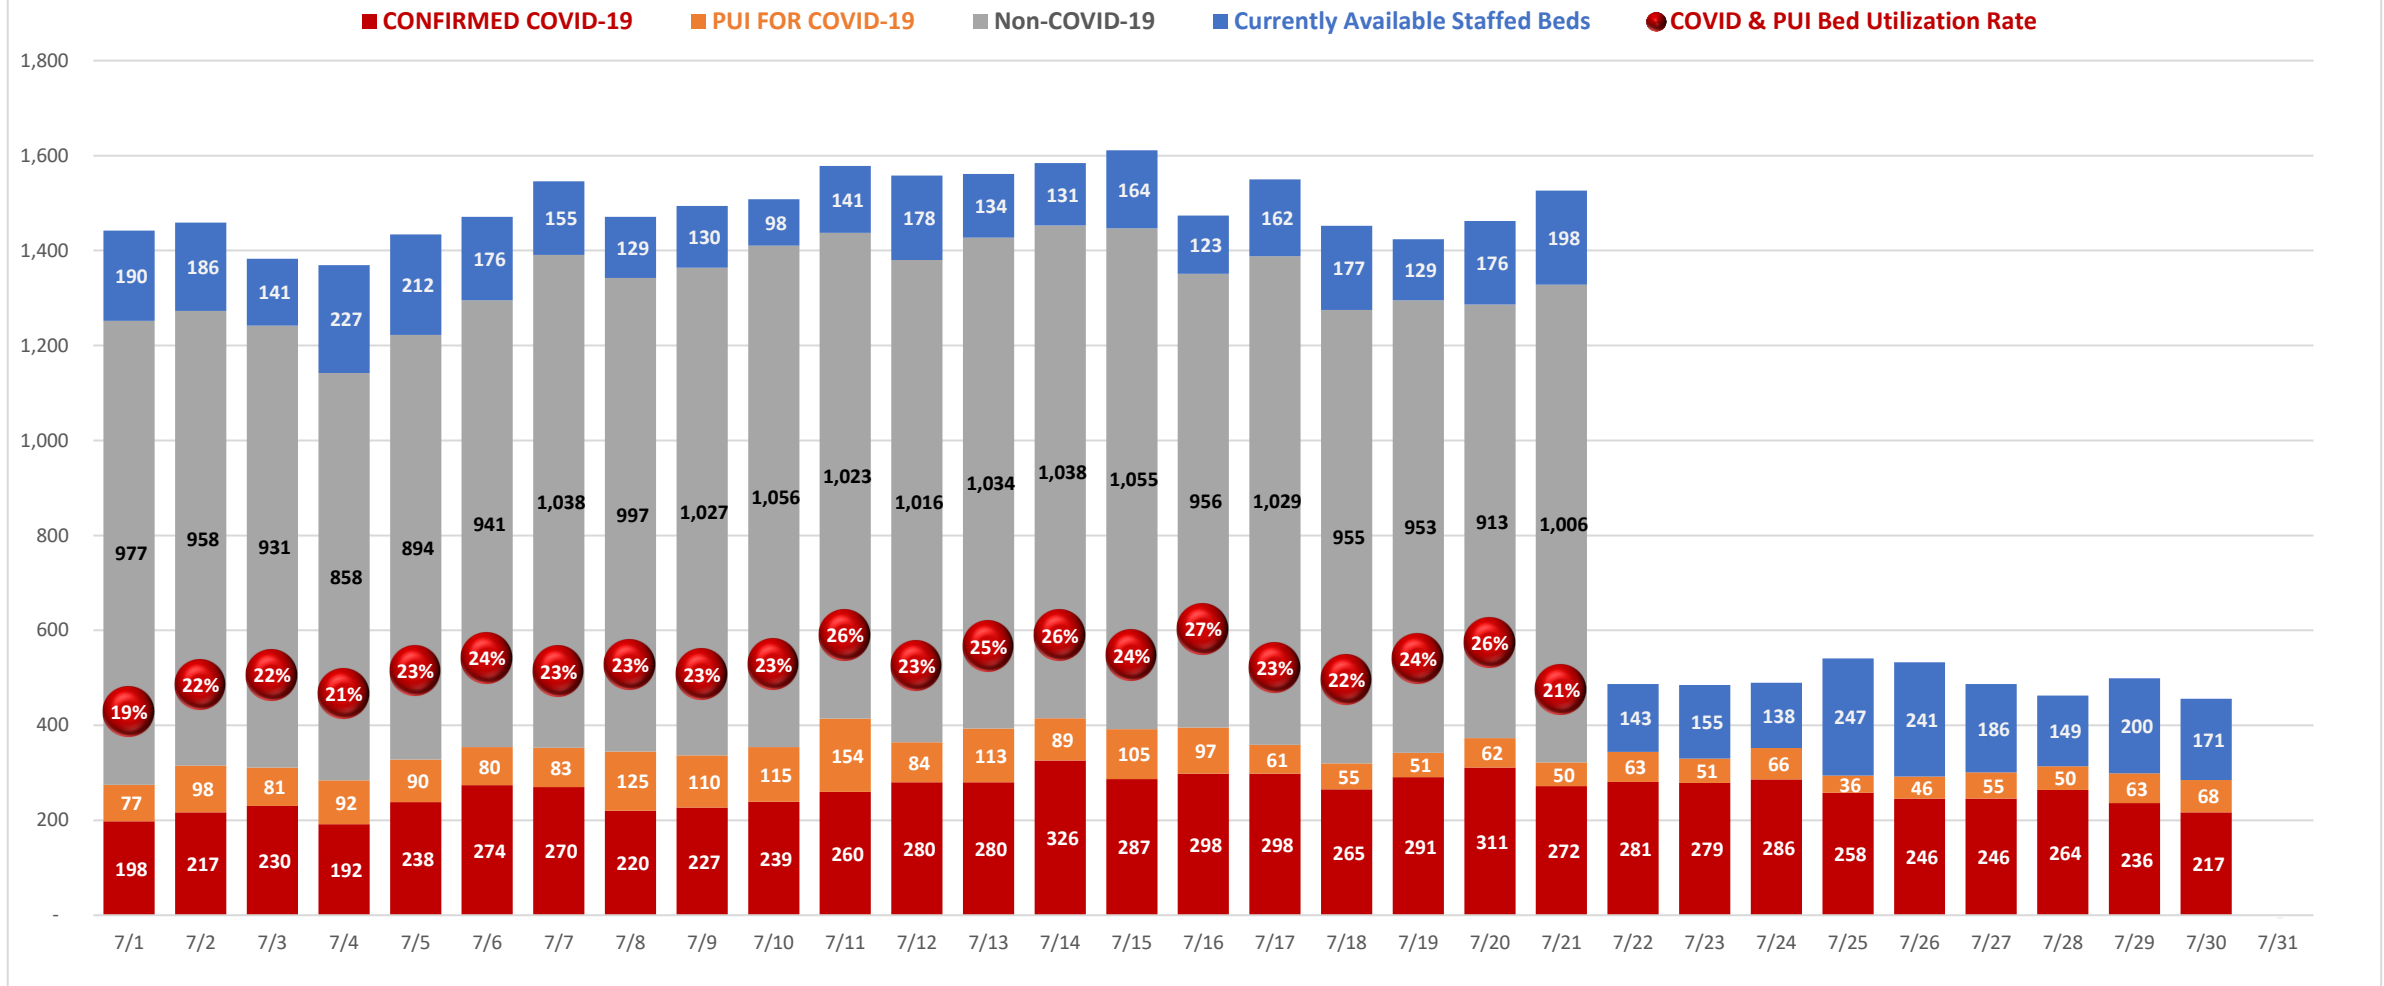

CHART 7C-WR
