

MHPS SCREENING FLOW CHART EFFECTIVE WITH DHS PIN 22-01– Attachment II

Required elements to rendering a MHPS screening whether you use a PHQ-2 or a PHQ-9

- 1) Administration of one or more MHPS questionnaires/measures as outlined in this flowchart
-- AND --
- 2) An evaluation of any participant risk factors, a need to build protective factors, and any other pertinent information revealed by participant and/or determined by rendering health care professional
-- AND --
- 3) A review of any questionnaires/measures' scores with participant as deemed applicable by rendering health care professional

At any point during the MHPS screening, a participant may be referred for a higher level of care and services. Consult with the appropriate clinical personnel at your agency. You may use the DMH Help Line at 1-800-854-7771 as an entry point for Specialty Mental Health Services in L.A. County.

Start here if using the PHQ-2

PHQ-2 provided to participant

Participant scored a 2 or less
AND MHPS Screening determined participant does not need or wants MHPS

- 1) **Document** what was covered in MHPS screening, and
- 2) Submit a claim for H0002, but **DO NOT** include the PHQ-2 score

PHQ-2 provided to participant

Participant scored a 2 or less
AND MHPS Screening determined participant would benefit from and/or wants MHPS

Participant scored a 3 or more
AND MHPS Screening determined participant does not need and/or want MHPS

Participant scored a 3 or more
AND MHPS Screening determined participant would benefit from and/or wants MHPS

Participant must now receive the PHQ-9, and the optional GAD-7

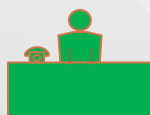

- 1) **Document** what was covered in MHPS screening which must now also include a review of the PHQ-9, (and if used, the GAD-7), and
- 2) Submit a claim for H0002 including score(s) of the PHQ-9 (and if used, the GAD-7)

Start here if using the PHQ-9

PHQ-9 provided to participant (and the optional GAD-7)

Complete MHPS screening

- 1) **Document** what was covered in MHPS screening and
- 2) Submit a claim for H0002 including score(s) of the PHQ-9 (and if used, the GAD-7)
