

Los Angeles County MRSE

- Los Angeles County Medical Response Surge Exercise (MRSE)
- Scenario – Dirty bomb explosion
- Choosing how to play –
- Choose whether you want to practice shelter-in-place/surge or evacuation
- Choose activities that align with either
- Make sure to sign up for participation - <https://www.eventbrite.com/e/medical-response-and-surge-exercise-radiological-response-plan-evaluation-tickets-408045353637>
- Open ReddiNet and use to submit status and resource requests
- Complete debrief and after-action report; submit AARs to LA EMS

Los Angeles County MRSE

- Los Angeles County Medical Response Surge Exercise (MRSE)
- Participant Seminar October 11th – See handouts
- Will be held November 17th and will be the only community based functional exercise this year.
- Objectives for this year's exercise –
 - 1. Activate Incident Management Team
 - 2. Develop an Incident Action Plan
 - 3. Alert and notify response partners
 - 4. Implement Shelter-in-place or evacuation plans
 - 5. Resource Requesting

Los Angeles County MRSE

- Activate Incident Management Team –
 - Incident Commander gives appointment/vests to command staff and general staff
- Suggested General and Command Staff activations –
- Safety Officer, Operations, Planning, Logistics, Resident Services, Infrastructure, Liaison, Medical Director
 - Incident Commander opens Command Center and communicates to staff

Los Angeles County MRSE

- Develop an Incident Action Plan -
- Planning Chief and IC fill out Incident Action Plan form 200 or 201+202+203+204+215A
- All staff receive job action sheets for SIP or Evac depending on chosen objectives; if no JAS then give tasks based on EOP
- All staff complete tasks and regroup at end of operational period
- NHICS Forms - <https://www.cahfdisasterprep.com/nhics>

Los Angeles County MRSE

- Alert and notify response partners -
- <https://www.reddinet.net/app/login>
- Complete ReddiNet Service Poll
- Optional fill out resource request
- Simulate notification to other response partners (HFID, Regional Center)
- Simulate notification to families
- Simulate notification to residents

Los Angeles County MRSE

- Implement Shelter-in-place or evacuation plans -
- Assign tasks for either depending on what you want to simulate
- Use job action sheets or EOP to direct tasks
- Evaluator needs to monitor how tasks are assigned from the EOP and capture tasks needed that are not in EOP
- Ops, Resident Services, Infrastructure are walking through tasks
- If choosing Evac, then make sure staging areas are identified inside
