2024 Medical Response and Surge Exercise (MRSE)

Exercise Objectives

How to use this document: The purpose of this document is to provide sample objectives and capabilities for exercise planners to select from in designing their coalition based Medical Response and Surge Exercise (MRSE). If you do not use all the objectives, remember to remove those objectives and corresponding capabilities that do not pertain to your chosen objectives. You may also replace or add objectives that are not given as examples. (This paragraph should be removed, only capabilities and objectives with sample tasks should be included)

2017-2022 ASPR Health Care Preparedness and Response Capabilities:

Capability 1: Foundation for Health Care and Medical Readiness

Goal of Capability 1: The community has a sustainable Health Care Coalition – comprised of members with strong relationships – that can identify hazards and risks and prioritize and address gaps through planning, training, exercising, and acquiring resources.

Capability 2. Health Care and Medical Response Coordination

Goal for Capability 2: Health Care and Medical Response Coordination Health care organizations, the HCC, their jurisdiction(s), and the ESF-8 lead agency plan and collaborate to share and analyze information, manage, and share resources, and coordinate strategies to deliver medical care to all populations during emergencies and planned events.

Capability 3: Continuity of Health Care Service Delivery

Goal of Capability 3: Health care organizations, with support from the HCC and the ESF-8 lead agency, provide uninterrupted, optimal medical care to all populations in the face of damaged or disabled health care infrastructure. Health care workers are well-trained, well-educated, and well-equipped to care for patients during emergencies. Simultaneous response and recovery operations result in a return to normal or, ideally, improved operations.

Capability 4. Medical Surge

Goal for Capability 4: Health care organizations – including hospitals, emergency medical services (EMS), and out-of-hospital providers – deliver timely and efficient care to their patients even when the demand for health care services exceeds available supply. The HCC, in collaboration with the Emergency Support Function-8 (ESF-8) lead agency, coordinates information and available resources for its members to maintain conventional surge response. When an emergency overwhelms the HCC's collective resources, the HCC supports the health care delivery system's transition to contingency and crisis surge response and promotes a timely return to conventional standards of care as soon as possible.

Provider Agency and Fire Department Objectives:

Objective 1 - Maintain awareness of the common operating picture by gathering and sharing real-time information related to the emergency and situational awareness through coordination with the Medical and Health Operational Area Coordinator (MHOAC) within [insert timeframe]. (**Capability 2**)

Sample task(s): *[Remove those that you are not testing]*

- Develop information sharing procedures specific to the incident response and document these procedures for clinic staff within [XX] minutes of incident notification
- Identify and document information access and data protection procedures within [XX] minutes of incident notification

Objective 2 - Alerts and Notifications. (**Capability 2**)

Sample task(s): *[Remove those that you are not testing]*

- Access notification system – initial incident response
- Notify appropriate personnel. Ambulance supervisor attached.
- Identify ambulance staging location.

Objective 3 - Implement Plan. (**Capability 4**)

Sample task(s): *[Remove those that you are not testing]*

- Identify triggers indicating additional resources are required.
- Identify the need for backup providers.
- Identify the need for FOAC activation.
- Identify the need for service area coverage.
- Notify appropriate personnel.
- Coordinate transportation and patient destinations with ground ambulance coordinator / treatment leader.

Objective 4 - Implement FOAC for mutual aid back up providers. (**Capability 4**)

Sample task(s): *[Remove those that you are not testing]*

- Access notification system – FOAC activation by Command and Control.
- Notify appropriate personnel – Regional Notifications.
- Up-date to Medical Alert Center.
- Identify staging locations for out of county resources.

Objective 5 - MHOAC Communications and Resource Requesting (Capability 1)

Sample task(s): [*Remove those that you are not testing*]

- Establish access to communication systems (e.g., ReddiNet, VMed-28, etc....)
- Respond to pertinent polls and/or surveys received from MHOAC
- Identify needs and submit appropriate ReddiNet resource request
