

EPILEPSY ASSESSMENT SERVICES

Rancho Los Amigos National Rehabilitation Center is accredited by the NAEC as a level 4 epilepsy center. Level 4 epilepsy centers have the professional expertise and facilities to provide the highest level medical and surgical evaluation and treatment for patients with complex epilepsy. This includes psychological assessments to assist in evaluating for potential co-morbid psychological conditions and to provide treatment recommendations such as outpatient psychotherapy.

Pre-surgical neuropsychological epilepsy testing can be done during an outpatient appointment to evaluate a patient's current level of cognitive functioning and clarify potential risks for surgical resection. Our clinicians can provide assessments for English speaking and Spanish speaking patients. Appropriateness of use of interpreters for other languages is determined on a case by case basis.

For further information about these services, please contact the Psychology Department at 562-385-8181.
