

LA GENERAL DEDICATES BURN UNIT FAMILY ROOM IN HONOR OF HYON MAN (JOHN) PARK

Los Angeles General Medical Center proudly unveiled its newly refreshed Burn Unit Family & Staff Conference Room, dedicated in memory of Mr. Hyon Man (John) Park. This heartfelt project was made possible through the generosity of his daughters, Jane Park and Sun Young Park, who were deeply moved to give back after the exceptional, compassionate care their father received from LA General's Burn Unit team.

The need for a dedicated, comforting space for families surfaced during executive rounds, and the Park sisters immediately stepped forward to turn that need into reality. Their gift creates a warm, private room where families can gather, receive updates from care teams, and find support during some of the most challenging moments of their lives. It stands as a tribute both to their father's memory and to the caregivers who treated him with such dignity and skill.

For more than fifty years, LA General's Burn Unit has served as a regional leader in adult and pediatric burn care. This new conference room will support hundreds of families each year.
