

Medical Control Guideline: DRUG REFERENCE – HYDROXOCOBALAMIN

CHANGE LOG

Published Date	Status	Section and Subsection Affected	Description of Chage(s)
04/01/2025	New Policy		
01/01/2026	Revision	Mechanism of Action	<ul style="list-style-type: none">Revised to “A form of vitamin B12, containing cobalt, which directly binds to cyanide and forms a non-toxic compound (cyanocobalamin) which is then excreted by the kidneys. This prevents the effects of cyanide and allows for the normal cellular use of oxygen in mitochondrial energy production”
