

LA GENERAL MEDICAL CENTER RECOGNIZED AS A FORBES TOP HOSPITAL FOR 2026

LA General Medical Center has been named one of Forbes Top Hospitals for 2026—a national recognition highlighting hospitals delivering high-quality, high-value care across the country.

Selected from more than 5,000 hospitals nationwide, LA General earned this distinction following a comprehensive evaluation by Forbes that examined patient outcomes, clinical best practices, value of care, and patient experience. This recognition places LA General among a select group of hospitals recognized on a national stage.

This honor reflects the work happening across our campus every day. From direct patient care to behind-the-scenes support, teams across the organization play a critical role in ensuring patients receive safe, compassionate, and equitable care. Every interaction and improvement contributed to this achievement.

We are proud to celebrate this milestone with our staff. This recognition belongs to you and highlights the impact LA General continues to make for our patients and the communities we serve.
