

LOS ANGELES GENERAL MEDICAL CENTER RECOGNIZED AS A 2026 TOP HOSPITAL IN COLON SURGERY

We are thrilled to share that Los Angeles General Medical Center has been recognized as a Top Hospital in Colon Surgery by Castle Connolly for 2026. This prestigious honor highlights our commitment to delivering exceptional surgical care and achieving outstanding patient outcomes.

Castle Connolly evaluates hospitals nationwide using rigorous criteria, including mortality rates, complication rates, patient safety indicators (PSI90), failure-to-rescue rates, and the presence of Castle Connolly Top Doctors on staff. Out of more than 6,000 hospitals reviewed, Los Angeles General Medical Center stands out as a national leader in colon surgery—a testament to the expertise and dedication of our surgical teams.

At Los Angeles General Medical Center, we remain focused on advancing surgical excellence, pioneering innovative techniques, and providing the highest quality care to our patients. This recognition reaffirms our mission to ensure that our community receives the safest, most effective care possible.
