

LA GENERAL DEPARTMENT OF NEUROLOGY

Congratulations to Dr. Rumyar V. Ardakani on His Selection to the AAN Emerging Leaders Program!

A note of recognition from the Los Angeles General Medical Center Department of Neurology.

Rumyar V. Ardakani, MD
2026 AAN Emerging Leaders Program Selectee
Department of Neurology, LA General Medical Center

LA General Medical Center is proud to celebrate a well-deserved honor for one of our own. **Rumyar V. Ardakani, MD**, of the Department of Neurology, has been selected for the prestigious **American Academy of Neurology (AAN) Emerging Leaders Program**.

This highly competitive, national program identifies neurologists early in their careers who show exceptional promise as future leaders in the field. Participants spend a year building leadership skills alongside some of the top minds in neurology from across the country, gaining mentorship, professional development, and a broader network of peers dedicated to advancing patient care.

What This Means for LA General

Dr. Ardakani looks forward to collaborating with neurology leaders nationwide and bringing those insights back to LA General — strengthening our county health system and elevating neurologic care for the diverse communities we serve.

This recognition reflects not only Dr. Ardakani's individual talent and dedication, but also the caliber of care and commitment to excellence that defines our Department of Neurology and LA General Medical Center as a whole.

Join Us in Celebrating Dr. Ardakani

Please join us in congratulating Dr. Ardakani on this outstanding achievement. We are excited to see the impact he will bring to our patients, our teams, and our community as

he grows into this next chapter of leadership.

Congratulations, Dr. Ardakani — we're proud to call you one of our own!
