

## AMBULANCE LICENSE APPLICATION REVIEWS

The EMS Agency is the licensing agency for the Department of Health Services, as described in Title 7, Los Angeles County Code, Section 7.16 - Ambulances.

The Agency receives applications for licensure from private companies, corporations or partnerships desiring to become licensed to perform ambulance activities within the unincorporated areas of the County and those cities that do not have their own licensing procedures. Other County departments are delegated by Ordinance to review a section of the application. Inspection and Audits reviews and approves or denies approval of the financial information provided. Risk Management reviews and approves or denies approval of the insurance documents submitted. Regional Planning and Zoning Commission provides documentation that the location an applicant lists as the place of business is appropriately zoned for ambulance activities. Finally, either the L.A. County Sheriff, the F.B.I, or the Dept of Justice process the background information provided by the applicant and reports whether a basis for protest exists or does not exist. The EMS Agency reviews the other sections of the application. When the review of the entire application is completed, and it is determined that the application meets compliance with County Code license application rules, a Public Hearing is scheduled.

The granting or denial of an Ambulance Business License is the function of the Ambulance License Hearing Board.

The following applicants have met the requirements for a license hearing. To review its application in a summary form (matrix), please *click* on the applicant listed below. Parties wishing to review the application, except for any *privileged* information included, may make an appointment with the Ambulance Program Office.
