

PARAMEDIC TRAINING PROGRAMS

In California, paramedic training programs are approved by the local EMS agency in the County in which the training program is located. Additionally, beginning in 2004, all paramedic training programs in California will be required to be accredited by the Committee on Accreditation of Educational Programs for Emergency Medical Services Professions (CoAEMSP).

Currently, there are three Los Angeles County approved paramedic training programs. Contact the program directly for entrance requirements, class dates and information. For a list of all paramedic training programs located in California, visit the EMS Authority's web site at www.emsa.ca.gov
