STATEMENT OF WORK
MY HEALTH LA PROGRAM
(Effective January 1, 2019)

I. Background: Summary of program and purpose

The Department of Health Services (the Department or DHS) endeavors to meet the health care needs of certain low-income, uninsured Los Angeles residents who will remain uninsured after implementation of the federal Affordable Care Act's individual health insurance mandate. These individuals are known as the residually uninsured. The Department's mission is to ensure access to high-quality, patient-centered, cost-effective health care to Los Angeles County residents through direct services at the Department's facilities and through collaboration with its community partners. In order to fulfill this mission, the Department seeks to enhance its partnership with community clinic providers which share a commitment to serve the health care needs of Los Angeles County's residually uninsured population in a way that encourages coordinated, whole-person care, similar to the services that have been provided to uninsured residents through the current Healthy Way LA (HWLA) Unmatched program. Consistent with this mission, the Department is re-designing the HWLA Unmatched program as the My Health LA (MHLA) program, and has identified long-term goals related to the delivery of services under the new access program. These goals include, but are not limited to:

- **Preserve Access to Care for Uninsured Patients:** Ensure preservation of a health care safety net delivery system comprised of the Department and its community partners for the estimated 400,000 Los Angeles County residents who will not be eligible for any health care coverage programs under the Affordable Care Act.

- **Encourage coordinated, whole-person care:** Encourage better health care coordination, continuity of care, and patient management within the primary care setting.

- **Payment Reform/Monthly Grant Funding:** Rationalize the payment system for community partners to encourage appropriate utilization and discourage unnecessary visits by providing Monthly Grant Funding as opposed to fee-for-service payment.

- **Improve Efficiency and Reduce Duplication:** Encourage collaboration among health clinics and providers, by among other things, improving data collection, developing performance measurements and tracking of health outcomes, to avoid unnecessary service duplication.

- **Simplify Administrative Systems:** Create a simplified administrative infrastructure that encourages efficiency, and an electronic eligibility determination and enrollment system (for enrollment, renewal and disenrollment) for individuals participating in the program.

The Department's intent is to work collaboratively with its partners to realize these goals. As such, the Department acknowledges that programmatic modifications, as described, require sufficient time to plan, test, and implement, and must be based on sound data.

The MHLA Agreements will provide the Department with an important opportunity to take these steps, in concert with its Contractors.

Terms used but not defined herein are defined in the Agreement for MHLA Program Services.

II. Program Services

1. **Health Care Services:** Contractor shall provide Primary Health Care Services and Care Coordination.

2. **Laboratory:** Contractor shall provide all Medically Necessary laboratory services related to Primary Health Care Services. As such, Contractor shall operate a full service laboratory or establish a formal subcontract agreement with a certified laboratory which will be reflected in the Site Profile. If Contractor performs any of the following nine laboratory tests on site, it must have a current Clinical Laboratory Improvement Act (CLIA) certification or exemption certificate: dip stick or tablet urinalysis; fecal occult blood; ovulation test using visual color comparison; urine pregnancy test using visual color comparison; Hemoglobin by copper sulfate non-automated; Spun micro hematocrit; Blood glucose using certain devices cleared by the U.S. Food and Drug Administration for home use; erythrocyte sedimentation rate non-automated; and automated hemoglobin. Lab testing beyond these services must meet any additional CLIA requirements and Contractor must have a CLIA certificate for them.

3. **Radiology:** Contractor shall provide basic radiology services that are within the scope of Ancillary Services. As such, Contractor shall operate a radiological unit or establish a formal subcontract agreement with a certified radiological entity which shall be reflected in the Site Profile. Radiological services that Contractor is not obligated to provide under the Program include ultrasound, invasive studies, CT or MRI scans, Doppler studies, and comparison views-extremity film. Contractor may refer Participants to Department for these non-obligated radiological services.

4. **Pharmacy:** Contractor shall provide or arrange for the provision of Pharmacy Services as follows:

   a. <u>Pharmacy Phase One</u>

      Pharmacy Phase One begins on the effective date of the Agreement and ends December 1, 2017 with the implementation of the MHLA pharmacy network through a contracted Pharmacy Services Administrator. Upon implementation of the MHLA pharmacy network, Pharmacy Phase Two, described in Subsection b. below, shall begin.

      During Pharmacy Phase One, Contractor shall be responsible for providing or assuring the provision of all medically necessary pharmaceuticals related to conditions for which the Participant is receiving Included Services, and for paying for such pharmaceuticals. Before prescribing a pharmaceutical not listed on the MHLA Formulary, Contractor shall submit a prior authorization request to MHLA and obtain prior authorization approval for the non-formulary pharmaceutical. To fulfill these obligations, Contractor may use its clinic dispensary, a licensed

pharmacy owned and operated by Contractor, or any licensed retail pharmacy with which it has a relationship.

b. <u>340B Program Requirements</u>

With the exception of Clinic Sites in SPA 1, in order to participate in MHLA, Contractor is required to have access to 340B drug pricing and be registered with the Health Resource Services Administration (HRSA) Office of Pharmacy Affairs (OPA) on the effective date of this Agreement. Contractor is required to register at least one MHLA contracted 340B pharmacy with HRSA OPA to dispense 340B pharmaceuticals to Participants. If Contractor intends to utilize the County of Los Angeles-Auditor Controller (the DHS Central Pharmacy) to dispense 340B pharmaceuticals to Participants, Contractor shall submit its registration to HRSA OPA during a HRSA open enrollment period. A Contractor who intends to utilize the DHS Central Pharmacy shall execute a three-party 340B contract pharmacy services agreement with the DHS Central Pharmacy, NPI 1417364811, and RX E-Fill Solutions Pharmacy, NPI 1366889362, who will label, package and ship 340B pharmaceuticals to the Participant and/or Contractor on behalf of the DHS Central Pharmacy. This 340B pharmacy services agreement will allow the DHS Central Pharmacy to process 340B medications prescribed by Contractor's Primary Care Providers and the RX E-Fill Solutions Pharmacy to dispense and mail these pharmaceuticals during Pharmacy Phase Two.

Contractor shall have the right to audit and inspect the DHS Central Pharmacy and RX E-Fill Solutions Pharmacy, including any relevant subcontractor, in order to comply with HRSA's 340B contract pharmacy guidelines. Contractor shall have the right to terminate its agreement with the DHS Central Pharmacy and RX E-Fill Solutions Pharmacy so long as Contractor can demonstrate to the Department's satisfaction that Contractor has contracted with an alternate pharmacy in the MHLA pharmacy network to dispense 340B priced pharmaceuticals, and may terminate at any time upon a showing of demonstrable evidence to the Department's satisfaction that such agreement jeopardizes Contractor's compliance with Federal 340B requirements, such that the agreement poses an existing risk to Contractor's 340B status; and only if the Department is unable to remove such jeopardy after a reasonable cure period through a corrective action plan.

c. <u>Pharmacy Phase Two</u>

During Pharmacy Phase Two, the Department shall contract with a Pharmacy Services Administrator (PSA) to facilitate the use of a contract pharmacy network for Participants. The PSA shall establish, in coordination with the Department, a MHLA Pharmacy Network of licensed pharmacies from which Participants can obtain all MHLA Formulary pharmaceuticals to be established pursuant to Section II.4.d. below. If Contractor intends to use an on-site dispensary to dispense pharmaceuticals to Participants, the dispensary shall be an Eligible Dispensary as that term is defined in Paragraph 2.0, Definitions, subparagraph 2.21, Eligible Dispensary, of Agreement. If a Clinic operates an on-site licensed pharmacy, or contracts with a licensed pharmacy, that pharmacy must contract with the PSA in order to be included in the MHLA pharmacy network and to dispense pharmaceuticals to Participants.

Pharmacy Phase Two begins at the conclusion of Pharmacy Phase One and remains in effect for the remainder of the Agreement's term including any renewal period if extended by the County. The Department shall give Contractor at least thirty (30) days advance written notice of the date upon which the Department anticipates Pharmacy Phase Two will commence.

During Pharmacy Phase Two, Contractor shall be responsible for providing prescriptions to Participants for medically necessary pharmaceuticals associated with conditions for which Participant is receiving Included Services in accordance with the MHLA Formulary, including obtaining any prior authorizations. Pharmacy Services shall be provided to Participants at only the approved sites listed in Exhibit J, MHLA Site Profile (and any revisions thereto).

If Contractor operates an Eligible Dispensary, Contractor shall submit medication dispensing data to the PSA on a daily basis (within twenty-four [24] hours of dispensing) in a format determined by the Department. The required data fields and format for submission of daily medication dispensing data by onsite dispensaries shall be provided to Contractor with at least thirty (30) days advance written notice of the date upon which the Department anticipates Pharmacy Phase Two will commence. Contractor dispensing medications from an Eligible Dispensary shall be compensated for all MHLA Formulary and Prior Authorization approved pharmaceuticals provided to Participants, in accordance with the rates and terms established by the Department, contingent upon submission of the medication dispensing data to the PSA in the time frame described herein and in accordance with all data submission standards established by the Department.

For medications dispensed by an onsite State licensed pharmacy which is included in the MHLA pharmacy network, Contractor shall be paid either the current clinic wholesaler's 340B price and a dispensing fee, or an amount in accordance with the MHLA Formulary for a thirty (30)-day supply of designated drugs, in accordance with the terms and conditions established directly between the onsite licensed pharmacy and the PSA. For medications dispensed by an Eligible Dispensary, Eligible Dispensary shall be paid a total flat fee per thirty (30)-day supply of generic formulary agents in accordance with the MHLA Formulary and/or two dollars ($2.00) for over the-counter formulary agents as indicated in the MHLA Formulary. All other formulary agents or Prior Authorization approved non-formulary agents shall be paid the medication's 340B drug ingredient cost and an administrative fee of five dollars ($5.00). Drugs dispensed through a Patient Assistance Program (PAP) shall not be reimbursed. A Contractor dispensing pharmaceuticals from an Eligible Dispensary is required to submit all PAP applications for PAP drugs.

If Contractor intends to utilize the DHS Central Pharmacy to dispense 340B medications to Participants, Contractor shall enter into all necessary agreements with the PSA, the DHS Central Pharmacy, and the RX E-Fill Solutions Pharmacy, and take all other steps as are necessary to allow the DHS Central Pharmacy and RX E-Fill Solutions Pharmacy to be included in Contractor's 340B pharmacy Network during Pharmacy Phase Two. During Pharmacy Phase Two, the Department will take reasonable steps to assure that the contracted PSA's processes and procedures will not jeopardize Contractor's participation in the Federal 340B drug program, and that such PSA and the DHS Central Pharmacy and RX E-Fill Solutions Pharmacy shall make such records available and provide

such other assistance as is necessary to allow Contractor to comply with its obligations under the Federal 340B drug program, including ensuring Contractor's rights to audit and inspect the DHS Central Pharmacy and RX E-Fill Solutions Pharmacy.

Consistent with Business and Professions Code section 4170(a)(7), the prescriber shall provide the Participant with written disclosure that the Participant has a choice between obtaining the prescription from the Contractor's onsite pharmacy or Eligible Dispensary, or obtaining the prescription at a MHLA network pharmacy of the Participant's choice.

d. My Health LA Formulary

During both Pharmacy Phase One and Pharmacy Phase Two, the Department shall maintain on-line, a MHLA Formulary, which are approved medications. Contractor shall prescribe medications whenever possible using the MHLA Formulary. Non-formulary and restricted pharmaceuticals shall require prior authorization with approval prior to dispensing. Contractor must submit a prior authorization in advance of prescribing any pharmaceutical that does not adhere to dispensing guidelines set forth in the MHLA Formulary, or in notices from the Department. The Department shall provide determination of the prior authorization request no later than one (1) business day after it was submitted. The Program requires the use of generic products whenever possible, in accordance with applicable law and regulations.

The MHLA Formulary also shall set forth the maximum supply of any medication that may be dispensed at one time.

e. Non-Prescription Therapies

Contractors shall counsel Participants on non-prescription therapeutic interventions, for example exercise, weight loss, and smoking cessation.

f. Patient Assistance Programs

The MHLA Formulary also shall identify the pharmaceuticals for which pharmaceutical manufacturer PAPs are available for MHLA patients. PAP information may also be provided for non-formulary prior authorization approvals. During Pharmacy Phase One, Contractor shall submit, on behalf of all of its Participants, applications for any applicable PAPs. During Pharmacy Phase Two, if Contractor operates an onsite licensed pharmacy that is part of the MHLA pharmacy network, Contractor shall obtain all applicable, necessary information and submit to the Department for pharmacy PAP submissions. Eligible Dispensaries shall be responsible for submitting their own PAP applications for applicable pharmaceuticals.

5. **Specialty Care:** When all treatment options by the Contractor's Primary Care Provider are exhausted, and/or the Participant's condition requires treatment by a Specialty Care Provider, Contractor shall refer the Participant to the Department in accordance with the Department's referral guidelines. Contractor shall assure that all appropriate examinations and Ancillary Services are completed prior to the referral,

and that the justification for the referral is noted in the Participant's medical record and included in the referral to the Department. If the Contractor uses non-physician providers, the referral shall be reviewed and approved by a physician prior to being submitted.

Contractor shall utilize eConsult to initiate specialty referrals, provided that it has been implemented for the particular specialty at the time of the referral. Contractor shall not be responsible for non-obligated radiological tests, as defined in Section II.3 above, recommended by the eConsult Specialty Care Provider. If eConsult is unavailable for any reason, Contractor shall submit referrals through the Department's Referral Processing System. Contractor shall coordinate any and all follow-up care with the Participant once the Participant is repatriated to his or her Medical Home.

6. **Emergency Services, Hospital and Urgent Care:** Participants shall be instructed to go to a Facility, if possible, in the event the Participant experiences an Emergency Medical Condition or urgent care situation requiring care that is beyond the scope of Contractor's capabilities. Participants requiring same or next day appointments for Included Services shall not be referred to the Department's emergency department or urgent care clinics. Contractor shall establish a mechanism to inform Participants how to access Emergency Services.

7. **After-Hour Services:** Contractor shall establish an after-hours plan consisting of, at a minimum, an outgoing after-hours phone message for Participants calling a Clinic or Clinic Site that is closed, which message shall include: (a) instructions to call 911 if the Participant is in need of Emergency Services, and (b) instructions on what the Participant should do if he or she is in need of prescription medications or medical advice. Such instructions may include contacting a specific nurse advice line, after-hours Clinic Health Professional or Pharmacist, or contracted pharmacy, if applicable. The after-hours plan may not include a referral to a DHS Facility for the purposes of obtaining pharmaceuticals or outpatient services after hours. Once the Pharmacy Services Administrator's system is implemented, the after-hours plan shall be modified to include referral to the MHLA pharmacy network as appropriate.

8. **Dental Care Services:** If Contractor has Dental Care Services available at its Clinic Site, those services may be provided as an option to Participants in accordance with Exhibit K-1 (K-2 or K-3, as applicable), Dental Care Services Description of Services, Funding, Billing and Payment. Dental Care Services shall be provided at only the approved sites listed in Exhibit J, MHLA Site Profile (and any revisions thereto).

III. Contractor Requirements

A. Licensing and Credentialing, and Health Professional and Clinic Site Requirements

1. Contractor shall abide by all applicable Federal and State laws, licensing requirements, and locally prevailing professional health care standards of practice, and shall represent and warrant that each Health Professional who provides Included Services shall maintain a current, unrestricted license certificate or registration to practice his or her profession in California. Contractor may use a Health Professional with a restricted license after receiving prior written approval from Department, which shall give such approval at its sole discretion. Such

approval may only be received after Contractor has submitted appropriate and complete information to the Department. Compliance with this provision includes annual reporting of clinic data to the Office of Statewide Health Planning and Development (OSHPD).

2. Contractor shall assure that Primary Health Care Services are provided by Health Professionals, including non-physician medical practitioners, and are predominantly in the areas of general medicine, family practice, internal medicine, pediatrics, obstetrics or gynecology. Non-physician medical practitioners may include nurse practitioners, nurse midwives, and/or physician assistants who are supervised in accordance with established clinical guidelines and applicable State and Federal law. If Contractor utilizes nurse practitioners, nurse midwives, and/or physician assistants in the delivery of Included Services, Contractor shall have in effect standardized protocols and agreements signed by a supervising physician, and shall comply with any applicable limits on the number of non-physician medical practitioners that may be supervised by a single physician, imposed on Contractor by state law. Contractor shall employ or contract with sufficient numbers of Health Professionals to provide all medically necessary Primary Health Care Services required by Participants who have selected Contractor as their Medical Home.

3. Contractor shall have a credentialing program for its Health Professionals which adheres to the established health care industry credentialing standards and guidelines and shall disclose to the Department information and documents relating to credentials, qualifications, and performance of its employed and contracted Health Professionals upon request. The Department shall request such information only where necessary to defend itself or to verify that credentialing is actually occurring. In addition, the Department shall assist Contractor in maintaining all applicable peer review protections to the greatest extent possible.

4. Contractor shall notify the Department within one (1) business day if it knows, or reasonably should know, based on credentialing or re-credentialing, peer review, and any other related quality assurance activities conducted by Contractor that:

   a. The license of any Health Professional is suspended, revoked or restricted, in any manner that renders him or her unable to provide Included Services;

   b. Any Health Professional is the subject of final adverse legal settlements or judgments against him or her concerning his or her qualifications or competence to perform medical services;

   c. A report regarding any Health Professional is filed with the California Medical Board or National Practitioner Data Bank;

   d. There is any material change in any of the credentialing information that has been provided to the Department regarding any Health Professional; or

   e. Any Health Professional is subject to sanctions under the Medicare or Medi-Cal Programs.

5. Contractor shall ensure that any Health Professional, whose professional license is revoked, suspended or restricted in a manner that renders him or her unable to

provide Program services shall not render service to Participants until the revocation, suspension or restriction has been removed or otherwise resolved.

6. Included Services delivered or pharmaceuticals prescribed to Participants shall follow evidence-based guidelines as appropriate to a Participant's medical condition as established by organizations including the Agency for Healthcare Quality and Research, National Quality Forum, U.S. Preventive Services Task Force, Centers for Disease Control.

7. In the event that Contractor provides pediatric Primary Health Care Services, Contractor must be Child Health and Disability Prevention Program (CHDPP) approved. Additionally, Internal Medicine and General Medicine practitioners who provide Primary Health Care and who see children twenty-one (21) years of age or younger shall be CHDPP-approved. Pediatricians and Family Practitioners who provide Primary Health Care and who see children twenty-one (21) years of age or younger should be CHDPP-approved but are not required to be so approved.

B. **Reporting Requirements and Protected Health Information**

1. **Health Professional Profile.** Contractor shall provide the Department with the information requested by the Department which is necessary for the Department to maintain a current detailed listing of Contractor's Health Professionals, at the time of contract execution and as requested by the Department. This information shall be included in the Clinic Health Professional Profile. To the extent possible, Contractor shall inform the Department of any changes in its Health Professionals no less than 48 hours, prior to the change.

2. **Clinic Site and Capacity Profile.** Contractor shall provide the Department with information requested by the Department which is necessary for the Department to maintain a current listing of Contractor's Clinic Sites and Mobile Clinics, and the anticipated capacity of each to serve Participants, at the time this Agreement is executed and as requested by the Department. This information shall be included in the Clinic Site and Capacity Profile. To the extent possible, Contractor shall inform the Department of any changes in its Clinic Site and Capacity Profile no less than fourteen (14) calendar days prior to the change. In the case of unforeseen circumstances that have the effect of changing the previously reported information, Contractor shall inform the Department as soon as Contractor becomes aware of the circumstances and the changed information. MHLA Services shall be provided at only the approved sites listed in Exhibit J, MHLA Site Profile (and any revisions thereto).

3. **Open/Closed Status.** Contractor shall report its open/closed status to the Department in accordance with Section III.H of this Statement of Work.

4. **Medical Encounter Data.** Contractor shall submit to the Department, on a monthly basis and beginning no later than April 1, 2015, utilization or medical encounter data provided in an File Transfer Protocol secure, Health Insurance Portability and Accountability Act of 1996 (HIPAA) compliant format (such as the 837 Claim/Encounter file format), regarding the provision of Program Services to Participants. Medical encounter data shall be provided by Contractor to the Department for all Participants receiving Included Services, unless limited by the

Department through written notice. Contractor shall report data from all service locations, including satellite, mobile, and school based clinics, and shall accurately indicate the site where services were provided.

The Department will provide Contractor with all necessary template(s) for the electronic submission of HIPAA compliant medical encounter data to the Department. Medical encounter data shall be maintained and submitted in such detail, at such time, and in such form as is reasonable and consistent with the Department's requirements, which shall be provided by written notice. If the Department's requirements should change, the Department will provide Contractor at least thirty (30) days to comply therewith.

The provision of timely medical encounter data by Contractor is a Service Deliverable such that the failure to provide such medical encounter data due in a particular month will result in the suspension of payment to be made during that month.

The Department intends to use medical encounter data to track utilization of services by Participants, make informed decisions about potential program changes, establish normative standards, establish/maintain quality of care standards, and improve linkages among Program providers and the Department. These activities will be coordinated with broader Department wide performance/quality improvement activities. As provided in Section III.K.1.e. below, the Department shall review encounter data for completeness, accuracy, and compliance with formatting and submission requirements. Contractors which are not submitting accurate and complete medical encounter data in a timely and acceptable format after the Department has worked in good faith with the Contractor to resolve data submission issues in a prompt manner, may, at the sole discretion of the Department, be subject to suspension in monthly payments until such time as all medical encounter data has been received and accepted by the Department.

5. **Improvement Programs.** Contractor shall participate in Program quality improvement programs and provider education programs based on these reporting requirements. The Department may, at its discretion and at some point in the future, develop a quality and/or clinical outcomes improvement program, which may or may not be tied to encounter data. The Department will provide notice to Contractors via Provider Information Notice (PIN) within sixty (60) days of implementing any quality and/or clinical outcomes improvement program.

6. **Secured Email Transmission.** Contractor and its Staff are required securely to send Confidential Information via encrypted email, in accordance with all applicable State and Federal laws and County policies and guidelines as it pertains to the electronic transmission of Protected Health Information.

7. **Program Enrollment Targets.** Simultaneously with contract execution, Contractor shall provide to the Department its Program enrollment targets for the first term of this Agreement which shall be based on Contractor's anticipated capacity for the Program. By June 30 of each subsequent year, Contractor shall provide its program enrollment targets for the next fiscal year. Contractor's progress toward meeting its annual enrollment targets will be monitored by the Department.

8. **Visit Information.** Beginning in November, 2014, and continuing through and including March, 2015, Contractor shall provide to the Department, in the form and manner defined by the Department, an accurate count of the number of visits provided in the preceding month to Participants. Such count shall include only visits provided to persons who were actually enrolled in MHLA by the close of business on the date of service. Such information shall be provided no later than the 15th of each month (or the next business day following the 15th of the month if the 15th is a weekend day or holiday). Further, in the event that Contractor discovers any errors in the count of visits so reported, it shall immediately inform the Department and shall provide a corrected count as soon as it is known.

   The parties agree that time is of the essence in receiving the visit count information, which shall be used to assure that expenditures for MHLA do not exceed the available appropriation for Fiscal Year 2014-2015. The parties further agree that it will be impracticable or extremely difficult to fix the extent of actual damages resulting from the failure of Contractor to submit its data on time. The parties hereby agree that under the current circumstances, a reasonable estimate of such assessment is one hundred dollars ($100) per day until the data is submitted and that the Contractor shall be liable to the County for the assessment in said amount. Said assessment amount shall be deducted from any payments owed by County to the Contractor. The payment of assessment shall not, in any manner, restrict or limit the County's right to damages for any other breach of this Contract provided by law or as specified in this Agreement.

C. **Payment Requirements**

1. Included Services.

   For the period October 1, 2014 through March 31, 2015, Contractor shall be paid for Included Services provided to Participants on a fee-for-service basis in accordance with Paragraph 5.1 of the Agreement and Exhibit B.1, Fee-For-Service Payment and Billing, of the Agreement. Beginning April 1, 2015, Contractor shall be paid Monthly Grant Funding (MGF) by the Department in accordance with Paragraph 5.2 of the Agreement and Exhibit B.3, My Health LA Program Monthly Grant Funding, Billing, and Encounter Data Submission. The MGF is based upon data collection and analysis undertaken by the Department. The fee-for-service rate and MGF are specified in Exhibit B.2, Pricing Schedule. The fee-for-service rate and the MGF cover only Included Services.

2. Pharmacy Services.

   During the period in which Contractor is reimbursed for Included Services on a fee-for-service basis, Contractor shall not be compensated separately for the provision of Pharmacy Services.

   During Pharmacy Phase One, Contractor shall be paid Pharmacy MGF pursuant to the same terms and conditions, and using the same processes as the MGF, in accordance with subparagraph 5.3.2 of the Agreement.

   During Pharmacy Phase Two, payment for Pharmacy Services shall be managed by the Department's contract PSA, in accordance with subparagraph 5.3.3 of the

Agreement and Section II.4 of this Statement of Work.

3. Dental Care Services.

   Contractor shall be paid for the provision of Dental Care Services on a fee-for-service basis for dental services provided at only the approved sites listed in Exhibit J, MHLA Site Profile (and any revisions thereto), in accordance with Exhibit K-1 (K-2 or K-3, as applicable), Dental Care Services Description of Services, Funding, Billing, and Payment, of the Agreement.

4. Additional Conditions of Payment.

   As a condition of payment, Contractor shall meet all enrollment and re-enrollment requirements as defined in Subsections D. and E. below, and shall perform all Service Deliverables under the Agreement.

5. Contractor shall participate in the Medi-Cal Program and remain in good standing under that program for the entire term of the Agreement and shall maintain its status as a Federally Qualified Health Center (FQHC) or Federally Qualified Health Center Look-Alike (FQHC Look Alike), if applicable. Further, Contractor shall maintain all legally required licenses and/or certifications. Contractor shall have and maintain a Medi-Cal managed care contract with at least one of the Health Plans in the County of Los Angeles and shall maintain a Medi-Cal Managed Care or Department Facility Site Review score of 80 or better for each Clinic Site.

D. **Eligibility and Enrollment Requirements**

Contractor shall only enroll Eligible Persons as described herein.

Contractor shall enroll and re-enroll Participants into the Program through the Enrollment System. The Department will determine the Program eligibility rules to be used by the Enrollment System for the eligibility determination and application process. The Department shall provide Contractor a Program Eligibility Reference Manual, which contains detailed information regarding eligibility screening and enrollment. The Department shall provide on-going update and refresher training on eligibility and enrollment.

Applications for enrollment may only be taken and processed at Medical Homes, and at Administrative Enrollment Sites approved pursuant to Agreement Paragraph 2.0, Definitions, subparagraph 2.2, Administrative Enrollment Site, where the clinic processes enrollments for health insurance (e.g., Medicaid, Covered California).

Contractor shall utilize only Certified Application Assistors (CAAs), Certified Enrollment Counselors (CECs) and/or Certified Application Counselors (CACs), persons who have successfully completed the We've Got You Covered training, and/or any person who has met the training requirements specified by the Department in a PIN ("Qualified Enrollers") to take and submit Program applications according to Program rules. CAAs/CECs/CACs shall screen applicants for eligibility in Federal, State and other local health insurance programs. Contractor shall provide documentation demonstrating that persons performing enrollment have the required qualifications to be Qualified Enrollers. Program enrollment shall not occur when an applicant is found

to have eligibility for, or be enrolled in, another health care insurance program, unless the program is one which the Department, at its sole discretion, has excluded from this provision.

Prior to April 1, 2015, only persons who have successfully completed the MHLA eligibility and enrollment system training from the Department or from a Department designated trainer, or who is a CAA, and who are or intend to become a CEC and/or CAC, or complete training from We've Got You Covered, may receive access to the MHLA eligibility and enrollment system and act as a Qualified Enroller.

Contractor shall comply with the technical requirements specified in Attachment I, Minimum System Requirements for the MHLA eligibility and enrollment system, to this Exhibit, and provide adequately trained staff to perform enrollment functions. Enrollment functions include, but are not limited to:

1. Screen and assist Eligible Persons with submitting applications for a variety of local, State and Federal health insurance programs, if preliminarily determined eligible;

2. Enroll Eligible Persons in the Program who are not qualified for other health care insurance programs;

3. Access data regarding Program enrollment status for Eligible and/or Enrolled Persons;

4. Modify existing applications;

5. Renew Participants as set forth in Subsection E. below;

6. Support enrollment/application system users.

Contractor shall (i) participate in all required Program trainings, (ii) designate an individual(s) who will serve in a lead role with respect to the Department's Enrollment System within Contractor's organization, and (iii) ensure that all Qualified Enrollers enrolling participants into the Program via the Enrollment System have either paper or electronic access to the System's Program Eligibility Reference Manual.

Qualified Enrollers handling enrollment shall use the Enrollment System to screen and assist Los Angeles County residents with referrals to other public health programs as applicable.

E. **Redetermination/Re-Enrollment**

Contractor shall make every effort to obtain a Program renewal application from the Participants who have selected Contractor. Failure to complete the renewal process prior to the end of the one-year enrollment period will result in the disenrollment of that Participant from the program. Contractor may renew Participant enrollment as early as ninety (90) days prior to the end of a Participant's enrollment period.

Contractor's Qualified Enrollers who are handling redetermination or re-enrollment shall conduct an in-person interview with at least one adult household member that is

on the application for renewal or re-enrollment. If a Participant who was previously part of a household is no longer eligible to remain in that household upon renewal, that Participant must be present for their renewal. Contractor shall rescreen each Participant on the application for eligibility for other public programs and process the renewal application for the Program, if still eligible, via the Enrollment System. Qualified Enrollers shall update the Participant's information, including re-submittal of all required documentation for each individual on the application who is renewing, in the Enrollment System to reflect new demographic information (e.g. change of address, income or assets), and/or any other change that may link the applicant to a different program (e.g. change in pregnancy status, citizenship or family size). The Enrollment System will retain all documents collected during the initial enrollment and re-enrollment. Permanent documents (e.g., documentation of identification) do not require re-submission at re-enrollment while temporary documents (e.g., documentation of income or residence) will require submission of updated and recent information. Detailed Program requirements shall be set forth in the Program Eligibility Reference Manual.

F. **Dis-enrollment**

Participants who no longer meet program eligibility requirements shall be dis-enrolled from the Program. Participants can voluntarily dis-enroll at any time. A former Participant can re-enroll into the Program after disenrollment if the individual meets the Program eligibility requirements.

If Contractor obtains information that indicates that a Participant no longer meets program eligibility requirements during his or her enrollment period, a dis-enrollment request shall immediately be initiated by Contractor. Contractor shall submit documentation (e.g., proof of enrollment in full-scope [share-of-cost and no-share-of-cost] health insurance, proof of non-Los Angeles County residence) to County which demonstrates that the participant no longer meets program eligibility requirements in a manner to be determined by the County.

Participants with full-scope active Medi-Cal Hospital Presumptive Eligibility shall not be dis-enrolled from the Program.

G. **Medical Home Selection**

Participants must select a Medical Home for Primary Health Care Services and will receive a printed enrollment approval notice displaying their selected Medical Home. Participants will be sent an identification card and welcome packet by the Department.

Except as specified below, Participants may change their Medical Home no more than once per year. Participants may change their Medical Home at the time of their annual renewal and may not change their Medical Home at any other time unless: (1) the Participant has moved or changed jobs, and is seeking a new Medical Home closer to his/her new place of residence or employment, (2) the Participant has a change in his/her clinical condition and is seeking a new Medical Home that he/she believes can better manage this medical condition, (3) the Participant has a deterioration in the relationship with the health care provider(s) at his/her Medical Home, or (4) the location of the Medical Home is closed temporarily or permanently. The Participant may change his or her Medical Home for any reason within the first thirty (30) days of

enrollment in the Program. All Medical Home changes are effective the first day of the month following the request for change.

H. **Clinic Capacity, Open/Closed Status for New Enrollment, Access Standards**

Contractors will be surveyed a maximum of twice monthly by the Department to determine whether there are any changes to the Clinic's open/closed status based on their capacity. Response to this inquiry by the Department shall be considered a Service Deliverable. Capacity is defined by the number of days that a new Participant must wait before he or she can obtain a non-urgent Primary Health Care Services appointment at the Clinic Site.

A Clinic Site is considered to have capacity if the Clinic Site could schedule a non-urgent Primary Health Care Services appointment within twenty-one (21) calendar days. A non-urgent Primary Health Care Service is one that does not require an appointment within ninety-six (96) hours. A Clinic Site does not have capacity if the Clinic Site could not schedule a non-urgent Primary Health Care Services appointment within twenty-one (21) calendar days. A Clinic Site with capacity shall be considered "open" to new Participants. A Clinic Site without capacity shall be considered "closed" to new Participants.

Contractor shall make available to Participants appointments for Included Services within twenty-one (21) calendar days for non-urgent Primary Care Health Services, or within ninety-six (96) hours for urgent Primary Health Care Services. Participants requiring same or next day appointments for Included Services shall not be referred to the Department's Emergency Department or Urgent Care clinics during the Clinic Site's hours of operation.

The open or closed status of a Clinic Site shall be entered by the Department into the Enrollment System and is information that shall be available to all Clinics.

Contractor shall inform the Department within twenty-four (24) hours if a Clinic Site no longer has the capacity to accept new Participants. Contractor shall notify the Department of its intent to reopen its Clinic to new Participants.

A Clinic Site's open or closed status will determine whether a Clinic Site is open to accept a referral of an Eligible Person from the Department. Any Clinic Site that is "open" to new Participants must be uniformly open to Eligible Persons regardless of whether the Eligible Person presents as a walk-in or is referred from the Department. Acceptance of Department-referred Eligible Persons to an "open" Clinic Site is a Service Deliverable. The Contractor shall not refuse to accept a Department-referred Eligible Person unless (1) the Clinic Site is "closed" to new Participants, or (2) the Clinic does not have the clinical capability to care for the Eligible Person, as determined by Contractor's physician who shall attest that the Contractor does not have the clinical capability to render appropriate care to the Eligible Person. Such attestation shall be in writing, signed by the physician, include a detailed explanation as to why care cannot be rendered and submitted to the Department within twenty-four (24) hours of the referral by the Department. The Contractor must respond within 30 days to the Department's request to return the Primary Care Linkage Form to the Department, indicating that Contactor has attempted to contact the Eligible Person for enrolled into the MHLA Program. The Department shall provide to Contractor the

complete protocol for Patient Referral through a future Provider Information Notice (PIN) process.

If Contractor is open to new Participants, Contractor must attempt to enroll the MHLA Eligible Persons referred to Contractor by the Department. Failure of Contractor to comply with the requirements of this paragraph may result in the assessment of liquidated damages as set forth in this Exhibit, Section III. N, and Attachment II-B, Table of Liquidated Damages.

A closure to new Eligible Persons must apply uniformly to all Eligible Persons. This means that a Clinic Site or Mobile Clinic may not be open to providing Primary Care Services to some new Eligible Persons, but not others. Clinic Sites and Mobile Clinics shall provide services to their existing Participants even if they are closed to new Eligible Persons. Contractor shall not close its practice to its existing Participants.

At no time shall Contractor be permitted to design or deploy programs in such a manner as to exclude or disadvantage Participants or to advantage patients with third-party payors or financial means.

I. **Deletion of Existing Approved Clinic, Mobile Clinic, or Administrative Enrollment Sites**

1. Contractor shall notify the Department consistent with Paragraph 8.38, Notices, of the Agreement at least ninety (90) days prior to the temporary or permanent closure of a Clinic Site, Mobile Clinic, and/or Administrative Enrollment Site.

2. Contractor shall provide at least sixty (60) days advance written notice of the pending closure to all Participants who have selected the closing Clinic Site as their Medical Home and shall obtain the Department's approval of this correspondence prior to sending it to the Participants. The Department will respond within five (5) business days with an approval or denial of the correspondence; otherwise Contractor may proceed.

3. In such notice, Participants shall be informed of the new Medical Home, which may be part of the same Contractor or may be under a different Contractor.

4. In the case of a closure due to an emergency or unforeseen circumstance (e.g., fire, flood), Contractor shall notify the Department and Participants of the closure as soon as feasibly possible, and shall make every effort to assist Participants with identifying a new Medical Home.

J. **Adding a New and/or Transferring a Clinic, Mobile Clinic, or Administrative Enrollment Site**

1. If a Contractor wishes to open a new or transfer a Clinic Site or Mobile Clinic during the duration of the Agreement, the new or transferred Clinic Site or Mobile Clinic shall meet the following criteria:

a. Shall be operational.

b. Shall demonstrate valid enrollment as a current, active provider in the State of California Medi-Cal Program.

c. Shall demonstrate enrollment as a current, active provider in a Medi-Cal Managed Care program by producing verification from Medi-Cal Managed Care Health Care Option or contracted health plan (i.e., approval letter or paid claim for a Medi-Cal managed care patient from a Health Plan).

d. Shall possess at least one (1) NPI Number of the Clinic Site or Satellite Site.

e. Shall have completed and passed either the Department or the Health Plan's Facility Site Review (FSR) process.

f. Shall have an appropriate, current license issued by California Department of Public Health, or meets the requirements to be exempt from licensure under California Health & Safety Code Section 1206(h). Not applicable for the Satellite Sites operating under the license of a Clinic Site.

g. Shall be registered with, or must be able to demonstrate proof of submission to, the Office of Statewide Health Planning and Development (OSHPD) as an appropriately licensed clinic. Not applicable for the Satellite Sites operating under the license of a Clinic Site.

h. Shall be designated by the Centers for Medicare and Medicaid Services as a FQHC or a FQHC Look-Alike, and registered with HRSA Office of Pharmacy Affairs to access the 340B program, and register at least one MHLA contracted 340B pharmacy to dispense 340B pharmaceuticals to Participants. An exception to this requirement is any Clinic Site that is operating in SPA 1 (including **the communities of Acton, Agua Dulce, Gorman, Lake Hughes, Lake Los Angeles, Lancaster, Littlerock, Palmdale, Quartz Hill, and others)** which is not subject to the FQHC or FQHC Look-Alike requirement. All other qualification requirements apply to Clinic Sites in SPA 1. For a full map of the County's SPAs, refer to:

http://publichealth.lacounty.gov/chs/SPAMain/ServicePlanningAreas.htm)

i. Shall certify that all of its physicians and/or mid-level nurse practitioners working at the new Clinic Site or Mobile Clinic meet the requirements in Section III.A above.

2. If a Contractor wishes to open a new Administrative Enrollment Site during the duration of the Agreement, the new Administrative Enrollment Site shall meet the following criteria:

   a. Shall be operational.

   b. Shall demonstrate compliance with all requirements of an Administrative Enrollment Site pursuant to Agreement Paragraph 2.0, Definitions, subparagraph 2.2, Administrative Enrollment Site.

c. Shall have a business license or rental agreement. If more than one entity is occupying shared space/co-location, the Administrative Enrollment Site entity must submit a Memorandum of Understanding.

K. **Medi-Cal Requirements and Departmental Record Reviews and Audits**

Contractor must have a Medi-Cal Managed Care contract with at least one of the Health Plans in the County of Los Angeles and must receive full-scope facility site and medical record reviews through their Health Plan contract(s) and/or the Department. The Department shall review and may accept the Health Plan site and medical record review findings.

The Department has the right to audit or review any and all aspects of Contractor's performance related to this Agreement. In addition, the Department will conduct its own annual program monitoring, administrative and financial monitoring visits which include the following reviews.

1. **Program Monitoring and Administrative Reviews.** Program Monitoring and Administrative Reviews relate to Contractor compliance with the Agreement and Include the following:

   a. **Medical Record Review (MRR).** Applying file sampling standards used by the National Committee for Quality Assurance (NCQA), the Department shall review annually a random selection of medical records based on the number of Primary Care providers, which includes pharmacists, social workers and psychologists at the Clinic Site. The Department shall sample no fewer than eight (8) and no more than forty (40) medical records. In the event the Department's review of the eight (8) medical records finds that each such record meets or exceeds each of the review standards and elements identified in the Audit Tool ("Criteria"), then the Department's MRR shall end. In the event the Department finds that one (1) or more of the eight (8) medical records does not meet each of the Criteria, the Department shall randomly select an additional number of medical records, within the upper limit of forty (40) total medical records, and assess the additional medical records for compliance with the Criteria. During the term of this Agreement, Contractor shall maintain an MRR score of eighty percent (80%) or more.

   b. **Facility Site Review (FSR).** The Department shall evaluate the physical plant and operations at each Clinic Site to ensure quality standards are met in clinic facility operations Including patient access, safety, personnel and infection control. Contractors shall be expected to maintain a Health Plan and Department FSR scores of eighty (80) or better for the duration of the Agreement.

   c. **Eligibility and Enrollment Review.** The Department shall conduct monthly audits of a random sample of all new Program applications submitted through the Enrollment System to ensure data integrity, accuracy of Participant contact information, and adherence to Program rules as described in the Program Eligibility Reference Manual. The audit shall be conducted to validate, among other things, that the Contractor is compliant with Program rules, that

Contractor submitted legible and appropriate verification documents to accompany the Participant's application in the Enrollment System (e.g., income, identification, assets, signed acknowledgement form, etc.) and that income information in the Enrollment System is consistent with the supporting income documentation provided by the Participant.

If an audit/compliance review is conducted by County staff, Contractor shall have a reasonable opportunity to review County's findings prior to recoupment. If Contractor provides documentation to the County that demonstrates that any particular finding is erroneous, recoupment will not occur. The Department shall not pay, and may recoup, the MGF or the Dental fee-for-service, or both and, if applicable, Pharmacy MGF paid on behalf of a Participant who is found on audit or review to be ineligible for the Program and/or for whom legible and/or appropriate verification documents were not submitted.

d. (i) **Credentialing Review.**

The Department shall review Contractor's credentialing policies to ensure that the Contractor has a well-defined credentialing and re-credentialing process for evaluating and selecting licensed independent practitioners to provide care to its patients which is compliant with State and Federal laws and regulations. This process must meet the NCQA, Credentialing and Re-credentialing Standards, CR-1 through CR-8.

In the event Contractor credentials and/or re-credentials 40 or more individuals during the period under audit, the Department will select a random sample of up to 40 records (or all records if less than 40 credentialing or re-credentialing actions were taken). Eight randomly selected files will be reviewed for compliance. If each such file meets or exceeds each of the review standards and elements identified in the Audit Tool ("Criteria"), then the Department's audit shall end. If one or more of the initial eight files do not meet the Criteria then the additional selected records will be reviewed to assess the compliance status.

Contractor's failure to meet NCQA credentialing requirements shall be deemed a Critical Element/deficiency and may result in the assessment of liquidated damages per deficient site pursuant to Section III-N and Attachment II-B.

(ii) **Licensing Review.**

The Department shall review Contractor's compliance with all applicable Federal and State licensing requirements and supervision of non-physician medical practitioners.

Contractor's failure to meet licensing requirements at any site shall be deemed a Critical Element/deficiency and may result in the assessment of liquidated damages pursuant to Section III.N and Attachment II-B.

e. **Medical Encounter Data.** The Department shall review all submitted medical encounter data for completeness, accuracy and compliance with formatting and

submission requirements, as specified in Section III.B.4 of this Statement of Work. To the extent that the Department determines that the encounter data provided by Contractor is deficient in any of these areas, the Department shall notify Contractor in writing, (which may include notice by e-mail) of such deficiencies. Contractor shall have fourteen (14) calendar days to submit a credible plan of correction, which explains both how the deficiency will be rectified and how Contractor's processes or procedures will be modified to assure that the deficiency will not reoccur, and to resubmit corrected medical encounter data. For good cause shown, the Department may extend Contractor's time for submitting the plan of correction or resubmitting the medical encounter data. The Department may suspend payment if Contractor fails to meet the obligations of this subsection until such time as Contractor meets such obligation.

2. **Compliance Standards/Audit Response.** The specific compliance issues found during the audit shall be outlined in a letter from the Department to the Contractor. This letter shall address the identified deficiencies, summarize the audit activities, specify the areas in which mitigation is to be taken and identify required timelines and potential mitigation dates. Contractors with deficiencies identified during the audit process may be required to submit an Acceptable Corrective Action Plan (CAP) to address such deficiencies. An Acceptable CAP is a corrective action plan that sets forth the actions reasonably designed to fix the deficiency, a time line for the execution of each action in the CAP, a designation of the staff responsible for performing or overseeing the performance of each action in the CAP, and a system for monitoring to assure that the deficiency does not reoccur. Generally, the CAP should provide for the correction of the deficiency before the date the CAP is due.

   If Contractor fails timely to submit an Acceptable CAP, as determined by the Department, when required to do so under this Agreement, liquidated damages may be assessed pursuant to Section III. N, Liquidated Damages, and Attachment II-B.

   Categories for audit compliance scores are as follows:

   Full Compliance: Means a score of ninety percent (90%) or above without "Critical Elements, Pharmaceutical Services or Infection Control deficiencies" (as defined by the California Department of Health Care Services Medi-Cal Managed Care Division or as specified in this Agreement). A Contractor found to be in Full Compliance shall not be required to submit a Corrective Action Plan (CAP) to the Department.

   Substantial Compliance: Means (i) a score between eighty percent (80%) and eighty-nine (89%), or (ii) ninety percent (90%) and above with deficiencies in Critical Elements, Pharmaceutical Services or Infection Control. A Contractor found to be in Substantial Compliance shall be required to submit an Acceptable CAP to the Department.

   Non-Compliance: Means a score less than eighty percent (80%). A Contractor who is found to be in Non-Compliance shall be required to submit an Acceptable CAP. Any Contractor that achieves a Non-Compliance score shall receive a follow-up focused review as an extension of the audit process to determine the

depth of the identified deficiencies. Liquidated damages in accordance with Section III.N, Liquidated Damages, and Attachment II-B may be assessed if (1) a Clinic Site receives a score on either a Medial Record Review (MRR) or, a Facility Site Review (FSR) that is less than 80%; and (2) a focused review of the deficiencies conducted after an Acceptable CAP is submitted reveals (a) a failure by Contactor to implement the CAP, or (b) that the deficiencies continue.

MRR and FSR with Repeat Deficiencies: A Repeat Deficiency means a finding of less than Satisfactory Compliance, of same MRR or FSR audit element in the same audit tool from the prior fiscal year audit. Satisfactory Compliance is the minimum level of compliance for meeting a standard or element as specified in the audit tool. Contractor shall submit an Acceptable CAP for each Repeat Deficiency. If Contractor (a) has five or more of the same Repeat Deficiencies during each of three consecutive fiscal years, and (b) does not reduce its total number of Repeat Deficiencies between the first and third fiscal years of the three year period being assessed, liquidated damages may be assessed pursuant to Section III. N and Attachment II-B. The first year of the first period to which this provision applies is fiscal year 2018-19.

All deficiencies Including Critical Elements, Pharmaceutical Services or Infection Control deficiencies, and the Contractor's CAP, shall be tracked by the Department and analyzed for the purpose of identifying problems areas and barriers to the provision of quality health care. The Department will utilize this data to ensure that Contractor implements solutions to identified deficiencies. The Department will provide Contractor reasonable opportunity to respond to audit findings. The CAP itself is not considered complete until the Department provides final approval and the Contractor has implemented the provisions of the CAP.

Contractor shall meet the established minimum compliance threshold for all audits conducted by the Department. If Contractor fails to submit or implement an Acceptable CAP, is non-compliant with any reasonable request related to any audit, review or finding, and/or has not sufficiently remedied the issues or exceptions identified by the Department, the Department may, at its discretion, take the following actions: (1) prohibit Contractor from continuing to provide Included Services or Dental Care Services, as applicable, to Participants at the site or sites with the adverse audit findings; (2) transfer the Participants to a new medical home or refer the Participants to another approved dental site; (3) prohibit Contractor from adding new primary care or dental sites, or adding dental services to existing approved sites, or both; and/or (4) suspend MGF payments, fully or in part. Such actions shall be in effect until such time that the Department, at its sole discretion, determines that Contractor has implemented an Acceptable CAP, is compliant with any reasonable request related to any audit, review or finding, and/or has sufficiently remedied issues or exceptions identified by the Department. The Department shall provide timely notice to Contractor of any such actions, and of the termination or rescission thereof.

3. <u>**Financial Review**</u>

a. **Financial and Employment Records.** Contractor shall maintain accurate and complete employment records and financial (including billing and eligibility) records of its operations as they relate to its services under this Agreement in

accordance with generally accepted accounting principles. Contractor shall retain such records for the period required by law but in any event no less than ten (10) years after date of service or five (5) years after contract termination, whichever is later. Contractor shall have their financial records audited by an independent auditor in a manner which shall satisfy the requirements of the Federal Office of Management and Budget Circular Number A-133 in accordance with Governmental Financial Auditing Standards developed by the Comptroller General of the United States, and any other applicable Federal, State, or County statutes, policies, or guidelines.

b. **Audit/Compliance Review.** Los Angeles County staff or Federal or State Government Officials may conduct an audit/compliance review of all payments made by the County including payments and/or services provided by a subcontractor on behalf of the Contractor. If the audit is conducted by County staff, any sampling shall be determined in accordance with generally accepted auditing standards, unless otherwise specified in the Agreement, and an exit conference shall be held following the performance of such audit/compliance review at which time the results shall be discussed with Contractor. Contractor shall be provided with a copy of any written evaluation reports prepared by County staff. If the audit/compliance review is conducted by County staff, Contractor shall have a reasonable opportunity to review County's preliminary findings for Contractor and to provide documentation to the County to demonstrate that the finding is erroneous, or that steps have been taken to correct the deficiency. If audit exceptions remain which have not been resolved to the satisfaction of the County, Contractor may be subject to a full or partial suspension in MGF payments, the Department may close the site to new Participants and/or the site(s) with the adverse audit findings may be prohibited from providing Included Services or Dental Care Services, or both, to the Participants until such time as all audit deficiencies are corrected and accepted by the County.

The County shall recoup payment due from Contractor for overpayment or improper payment of MGF or Dental fee-for-service, or both, based on reconciliation or audit of enrolled Participants and eligibility, by requesting payment from Contractor, which repayment shall be remitted forthwith by Contractor to County by check made payable to the County of Los Angeles, or by withholding such amount from the usual monthly payment for Contractor's services under this Agreement as an off-set, unless any other recoupment plan is approved by County in writing.

L. **Performance Requirements Summary/Table of Liquidated Damages**

The Performance Requirements Summary (PRS) Chart, Attachment II.A to this Exhibit, and the Table of Liquidated Damages (TLD), Attachment II.B to this Exhibit lists required services that will be monitored by the County during the term of this Agreement.

1. All listings of services used in the PRS and TLD are intended to be consistent with the Agreement and the Statement of Work (SOW), and are not meant in any case to create, extend, revise, or expand any obligation of Contractor beyond that defined in the Agreement and the SOW. In any case of apparent inconsistency

between services as stated in the Agreement and the SOW and Attachment II.A, PRS Chart, or Attachment II.B, TLD, the language in the Agreement and then the SOW shall be given precedence. If any service seems to be created in this PRS or TLD which is not set forth in the Agreement and the SOW, that service will be null and void and place no requirement on Contractor.

2. The Contractor is expected to perform all services described herein. The PRS Chart and TLD describes certain required services which will be monitored by the County during the term of the Agreement, and for which Contractor may be assessed a suspension of payment or liquidated damage if the service has not been satisfactorily provided. The PRS Chart indicates the SOW and/or Agreement section of the performance referenced (column 1); a description of the service to be provided (column 2); the monitoring method that will be used (column 3); and the assessment for services that are not satisfactory (column 4). Once performance requirements are satisfied, the Department will pay all suspended payments in the next payment cycle. The TLD indicates the SOW section of the performance referenced (column 1); amount of liquidated damage (column 2); and the date on which liquidated damages may begin and end (column 3).

M. **Performance Requirements**

1. If, in the judgment of the Director, or his/her designee, the Contractor is deemed to be non-compliant with the terms and obligations assumed hereby, the Director, or his/her designee, at his/her option, in addition to, or in lieu of, other remedies provided herein, may suspend the entire MGF until such time that the performance requirements are met. A description of the work not performed, obligations not met, and whether MGF will be suspended by Department will be forwarded to the Contractor by the Director or his/her designee, in a written notice describing the reasons for said action, at least five (5) business days prior to the suspension of the MGF. If Contractor can demonstrate that its non-compliance has been remedied prior to the effective date of the suspension, such suspension shall not go into effect. When performance requirements have been satisfied, the Department will pay all suspended payments in the next payment cycle.

   If the Director, or his/her designee, determines that there are deficiencies in the performance of this Agreement that the Director, or his/her designee, deems are correctable by the Contractor within a reasonable period of time, as determined by the Department, the Director, or his/her designee, shall provide a written notice to the Contractor to correct the deficiency within specified time frames. Should the Contractor fail to correct deficiencies within said time frame, the Director may:

   a. Suspend MGF as specified in the PRS Chart, Attachment II.A, and/or:

   b. Upon giving five (5) business days written notice to the Contractor for failure to correct the deficiencies, the County may correct any and all deficiencies and the total costs incurred by the County for completion of the work by an alternate source, whether it be County forces or separate private contractor, will be deducted and forfeited from the payment to the Contractor from the County, as determined by the County.

2. The action noted in Subsection 1.(b) above shall not be construed as a penalty, but as adjustment of payment to the Contractor to recover the County cost due to the failure of the Contractor to complete or comply with the provisions of this Agreement.

3. This Subsection shall not, in any manner, restrict or limit the County's right to damages for any breach of this Agreement provided by law or as specified in the PRS, and/or the Table of Liquidated Damages, and shall not, in any manner, restrict or limit the County's right to terminate this Agreement as agreed to herein.

N. **Liquidated Damages**

1. If, in the judgment of the Director, or his/her designee, the Contractor is deemed to be non-compliant with the terms and obligations assumed hereby, the Director, or his/her designee, at his/her option, in addition to, or in lieu of, other remedies provided herein, may deduct from any amounts due to the Contractor the amount of any liquidated damages assessed pursuant to Attachment II-B. A description of the work not performed or obligations not met and the amount to be deducted from payments to the Contractor from the County, will be forwarded to the Contractor by the Director or his/her designee, in a written notice describing the reasons for said action.

2. If the Director, or his/her designee, determines that there are deficiencies in the performance of this Agreement that the Director, or his/her designee, deems are correctable by the Contractor within a reasonable period of time, as determined by the Department, the Director, or his/her designee, will provide a written notice to the Contractor to correct the deficiency within the timeframe specified by the Department. Should the Contractor fail to correct deficiencies within said time frame, the Director may deduct from any amounts due to the Contractor the amount of any liquidated damages assessed pursuant to Attachment II-B.

   The parties agree that it will be impracticable or extremely difficult to fix the extent of actual damages resulting from the failure of the Contractor to correct a deficiency within the specified time frame. The parties hereby agree that liquidated damages shall be determined in accordance with Attachment II-B, Table of Liquidated Damages and that the Contractor shall be liable to the County for liquidated damages assessed in the specified amount listed on Attachment II-B. Said amount shall be removed from the MGF or deducted from the County's payment to the Contractor.

   In addition to, or instead of any liquidated damages, upon giving five (5) days' notice to the Contractor for failure to correct the deficiencies, the County may correct any and all deficiencies and the total costs incurred by the County for completion of the work by an alternate source, whether it be County forces or separate private contractor, will be deducted and forfeited from the payment to the Contractor from the County, as determined by the County.

3. The actions noted in Sub-section N.2 shall not be construed as a penalty, but as adjustment of payment to the Contractor to recover the County's cost due to the failure of the Contractor to complete or comply with the provisions of this Agreement.

4. This Sub-section N shall not, in any manner, restrict or limit the County's right to damages for any breach of this Agreement provided by law or as specified in the Table of Liquidated Damages or Sub-section N.2, and shall not, in any manner, restrict or limit the County's right to terminate this Agreement as agreed to herein.

5. Table of LIQUIDATED DAMAGES

   Attachment II-B, Table of Liquidated Damages is attached to this Agreement and incorporated herein by reference. Pursuant to Sub-section N.2, County shall be entitled to deduct the amounts set forth therein as liquidated damages for each specified deficiency.

ATTACHMENT I

MINIMUM SYSTEM REQUIREMENTS
for One-e-App

Attachment I sets forth the minimum System Requirements for end user hardware/software configurations and network configurations to ensure System Compatibility with personal computers, tablets and mobile devices.

1.0 MINIMUM RECOMMENDED REQUIREMENTS FOR DESKTOP/LAPTOPS:

Hardware Requirements: Computers with 512 MB RAM or higher

Software Requirements:

- PDF Reader: Adobe Acrobat Reader software to view PDF images, version 7.0 or higher;
- Pop-up Blocker: Turned off for One-e-App;
- Operating System Firewall: Turn on the firewall in the operating system. For example, built-in for Microsoft Windows operating systems;
- Antivirus Software (including antispyware software): Symantec version 12.0 or higher, McAfee version 8.8 or higher, or equivalent. Virus and spyware definitions must be updated on a regular basis.

2.0 MINIMUM RECOMMENDED INTERNET CONNECTIVITY:

Internet Connectivity: Access to high-speed internet (DSL, Cable, T1 Line) through a hard-wired or wireless router OR a broadband "air card" for portable internet connectivity.

Internet Speed: The average bandwidth availability per computer is recommended to be 3.75 Kilobytes (KB) per second to run the One-e-App.

Internet Browser: Internet Explorer version 7.0 or higher.

3.0 OTHER REQUIRED EQUIPMENT:

Printer: Dedicated or network printer with at least 600×600 dpi (dots per inch)

Scan: Scanners must be set at a minimum of 300 dpi

Signature Pads (optional): For electronic signature capturing and viewing, Signature Pad and bundles SigPlusPro software from Topaz Systems, Inc.

PERFORMANCE REQUIREMENTS SUMMARY (PRS) CHART

Specific Performance Requirement	Summary of Statement of Work Requirements	Monitoring Method	Assessment
LICENSING AND CREDENTIALING			
Contractor shall ensure that all Licensing and Credentialing and Health Professional and Clinic Site Requirements are met as stated in the Statement of Work Section III.A (1-7)	**Section III.A (1)** describes the Contractor's obligation to abide by all applicable Federal and State laws, licensing requirements and locally prevailing professional health care standards of practice. **Section III.A (2-3)** describes staff supervising requirements, staffing requirements, implementation of credentialing programs, standards and guidelines, disclosure of documents relating to credentials, qualifications, and performance of its employed and contracted Health Professionals, credentialing of Health Professionals. **Section III.A (4-6)** describes handling of a suspended, revoked or restricted license, the reporting of adverse legal settlements or judgments reporting to the California Medical Board or National Practitioner Data Bank, reporting material changes in credentialing information, sanctions by Medicare or Medi-Cal certification requirements and delivery of pharmaceuticals according to evidence-based guidelines. **Section III.A (7)** describes the Contractor's obligation when providing Primary Health Care to children 21 years of age or younger.	Inspection & Observation, Verification of documentation	Contractors who do not abide by the requirements of these sections **(Section III.A, 1-7)** may, after the Department has worked in good faith with the Contractor to resolve the issues in a prompt manner, as determined by the Department, have their Monthly Grant Funding payments suspended, at the discretion of the Department, until such time as all requirements are met. Any Health Professional whose professional license is revoked, suspended or restricted in a manner that renders him or her unable to provide Program services shall not render service to Participants until the revocation, suspension or restriction has been removed or otherwise resolved.

Specific Performance Requirement	Summary of Statement of Work Requirements	Monitoring Method	Assessment
REPORTING REQUIREMENTS AND PROTECTED HEALTH INFORMATION			
Contractor shall ensure that all Reporting Requirements and Protected Health Information Requirements are met as stated in the Statement of Work Section III.B (1-4) **Contractor shall participate in the Department's quality improvement initiatives and established Participant complaint procedures.**	**Section III.B (1-3)** describes the Contractor's obligation to provide the Department with a Health Professional Profile, Clinic Site and Capacity Profile, update their Open/Closed Status. **Section III.B (4)** describes the Contractor's obligation to submit Medical Encounter Data to the Department in a HIPAA compliant format.	Receipt of documentation	Contractors who have not met Reporting Requirements (Section **III.B (1-3)** in a timely and acceptable format after the Department has worked in good faith with the Contractor to resolve issues in a prompt manner, as determined by the Department, may be subject to a suspension of Monthly Grant Funding until such time as all Reporting Requirements have been received and accepted by the Department. Contractors who do not submit Medical Encounter Data **(Section III.B, 4)** shall, after the Department has worked in good faith with the Contractor to resolve the issues in a prompt manner, as determined by the Department, have their Monthly Grant Funding payments suspended, at the discretion of the Department, until such time as all Encounter Data Reporting Requirements have been received and accepted by the

Specific Performance Requirement	Summary of Statement of Work Requirements	Monitoring Method	Assessment
	Section III.B (8) describes the Contractor's obligation to provide to the Department in a timely manner an accurate count of the number of visits provided in the preceding month to Participants.		Department. Contractors who do not submit Visit Information (**Section III.B, 8**) in a timely manner shall be assessed $100 per day until the Visit Information data is submitted. Said assessment amount shall be deducted from any payments owed by County to the Contractor.
PAYMENTS REQUIREMENTS
