FY 2016-17 LOCAL MATCH PERCENTAGES FOR EPSDT AND MCHIP MEDI-CAL

Beginning in FY 2016-17, the Department of Mental Health has standardized the local match percentage for EPSDT and MCHIP – EPSDT that is allocated in the Legal Entity Agreement’s Financial Summary. The current local match percentage reflected in the match column of the Financial Summary is 10% for both the EPSDT and MCHIP – EPSDT allocations.

Around this time of the fiscal year, the Department reviews the current year projections and utilization of EPSDT and MCHIP- EPSDT in order to determine the local match percentage that will be used for cost report and settlement purposes as well as to evaluate the contract changes that may be needed by June 30, 2017.

For FY 2016-17, no local match will be needed based on the current year projections and utilization of EPSDT and MCHIP - EPSDT. The Department’s allocation of State 2011 Realignment – EPSDT has increased to an amount that is sufficient to cover all of the EPSDT and MCHIP – EPSDT eligible services with a 50% match to Federal Financial Participation (FFP) Medi-Cal.
