(ALL SUPERVISORIAL DISTRICTS)
(3 VOTES)**

IT IS RECOMMENDED THAT YOUR BOARD

Approve and instruct the Director of Mental Health or his designee to prepare, sign, and execute 1) a Department of Mental Health (DMH) Legal Entity Agreement (Agreement) previously Board approved in Item No. 28 of agenda June 27, 2006, with one (1) new provider, and 2) contract amendments, substantially similar to Attachment I, with six (6) existing DMH Contract Providers for the implementation of the Mental Health Services Act (MHSA) - DMH contracted Field Capable Clinical Services (FCCS) and Service Extenders for older adults. The Fiscal Year (FY) 2006-07 two-month pro-rated cost for FCCS Contracted Programs and cost of the Service Extenders is \$732,579 funded with \$593,954 in MHSA funding and \$138,626 in Federal Financial Participation (FFP) Medi-Cal revenue; the FY 2007-08 annual FCCS Contracted Program and Service Extender cost is \$4,977,513 funded with \$3,189,930 MHSA funding and \$1,787,583 FFP (Attachment II). The new Agreement and Amendments will be effective upon Board approval or May 1, 2007, whichever is later, through FY 2007-08.

"To Enrich Lives Through Effective And Caring Service"

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS

In keeping with DMH's Mental Health Services Act (MHSA) Community Services and Supports (CSS) plan, Board approval is being requested to enter into a new Agreement with one (1) new agency (Jewish Family Services of Los Angeles), and to amend the Agreements of six (6) existing DMH Contracted Providers (Heritage Clinic and the Community Assistance Program, Hillview Mental Health Center, Pacific Clinics, San Fernando Valley Community Mental Health Center, Inc., Special Services for Groups, and St. Joseph Center) as detailed in Attachment II to implement DMH Contracted FCCS programs serving individuals age 60 and above in each Service Area as part of the Department's overall transformation to a Recovery Model of community-based, client and family driven, recovery-oriented services and supports.

FCCS is the first DMH system-wide, locally based, clinical program to focus exclusively on this underserved population. Each agency will receive funding to employ a multi-disciplinary core team to provide an array of field based services offered to FCCS clients in the location of their choice. Many older adults are affected by the stigma of mental illness and will not seek services from a mental health agency. For that reason, over 60 percent of the services will be field based and delivered in community location(s) that are frequented by older adults such as primary care settings, senior/public housing complexes, senior centers, and homeless shelters, or in their places of residence if they are frail or homebound. Agencies will also receive funding to train and hire Service Extenders. Service Extenders are volunteer peer counselors trained to work with older adults. Service Extenders will receive a stipend for the volunteer services they provide.

As noted in the CSS Plan, the goal of FCCS is to provide clinical services that are culturally competent in collaboration with senior community networks and to sustain wellness by assisting older adults with mental illness in achieving their desired outcomes including a safe living arrangement, access to needed services, meaningful activities and relationships, and help when in crisis. The goal of the Service Extender Program is to minimize social isolation and improve community functioning of older adults through a network of peer counselors, reflective of the community to be served.

In addition to furthering the goals of the MHSA, the recommended actions are intended to fill a longstanding gap in the service delivery system by identifying older adults with serious mental illness who are not currently being served, as well as those who are significantly underserved, and have reduced personal or community functioning, are homeless or at risk of becoming homeless, institutionalized, hospitalized, or requiring nursing home care or emergency room services. By providing specialized mental

health services in locations preferred by and/or sensitive to the unique needs and limitations of older adults, FCCS will enhance access to mental health services for those who historically have encountered obstacles to receiving care.

Implementation of Strategic Plan Goals

The recommended Board action is consistent with the Countywide Strategic Plan, Goal No. 1, "Service Excellence," Goal No. 3, "Organizational Effectiveness," and Goal No. 7, "Health and Mental Health." The FCCS services are expected to improve the delivery, efficiency, and effectiveness of mental health operations.

FISCAL IMPACT/FINANCING

There is no increase in net County cost.

The FY 2006-07 total cost of the requested action for the DMH Contracted FCCS and Service Extender Program is \$732,579 funded with \$593,954 MSHA funds and \$138,626 in FFP Medi-Cal revenue. The DMH Contracted Service Extender Program cost of \$93,450 is included in the MSHA funding. Adequate funding is included in the Department's FY 2006-07 Adopted Budget.

The FY 2007-08 total annualized cost for the program, which will be included in the Department's FY 2007-08 budget process, is \$4,977,513 funded with \$3,189,930 MSHA funds and \$1,787,583 in FFP Medi-Cal revenue. The Service Extender Program cost of \$186,900 is included in the MSHA funding. Adequate funding is included in the Department's FY 2007-08 Proposed Budget.

Funding beyond FY 2007-08 for DMH Contracted FCCS programs will be included in the Department's next three-year MSHA plan.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

FCCS is the first system-wide, locally based, clinical program focused on Older Adults, age 60 years and older. DMH contracted FCCS services will allow the mental health system in Los Angeles County to build its capacity to serve this significantly underserved population with specifically trained professional and paraprofessional staff working together as part of a multi-disciplinary clinical treatment team. Over 60 percent of the services will be field based and delivered in community location(s) that are frequented by older adults such as primary care settings, senior/public housing complexes, senior centers, and homeless shelters. Frail or homebound elderly

individuals with serious mental illness will receive services in their place of residence. Many older adults are affected by the stigma of mental illness and will not seek services from a mental health agency. Collaborations with non-mental health agencies increase the scope of locations where care can be most effectively delivered, and will enhance the identification and appropriate treatment of older adults with mental illness. Over 64 percent of Los Angeles County's CSS Plan funding for older adults is devoted to the provision of FCCS.

DMH plans to implement both directly operated and contracted FCCS programs, strategically located throughout the County. Your Board provided authorization for the implementation of directly operated FCCS programs on March 6, 2007. Board approval is now being requested to award funding to implement DMH contracted FCCS programs to agencies successful in the Department's Request for Services (RFS) No. 8 competitive bid process initiated in October 2006. Attachment II provides details about the results of the process with dollar amounts to be awarded for each agency.

Consistent with State guidelines and the specialized clinical and program requirements for FCCS programs, the Department will allow two (2) months of funding to providers to be used to cover allowable one-time costs. Providers may distribute such funding as allowable by the State, among several one-time non-Medi-Cal billable costs including 1) intensive outreach and engagement for hard to reach clients, 2) client supportive services such as housing, and 3) specialized program expenses including, but not limited to, recruitment of new FCCS staff.

In addition to the multi-disciplinary FCCS team, DMH contracted FCCS programs will recruit Service Extender volunteers to augment FCCS services for isolated older adults. Service Extender volunteers will be trained to work with this population, and they will receive stipends based on the amount of time they commit to the program.

The attached Agreement and Amendment formats have been approved as to form by County Counsel. The Chief Administrative Office (CAO) has reviewed the proposed actions. Clinical and administrative staff of DMH will continue to administer and supervise the FCCS services, evaluate the programs to ensure that quality services are being provided to clients, and ensure that Agreement provisions and Department policies are being followed.

CONTRACTING PROCESS

DMH invited community-based agencies to pre-qualify prior to applying for MHSA funds by submitting a Statement of Qualifications (SOQ) in response to a Request for

Statement of Qualifications (RFSQ) open solicitation process. The SOQ process was to ensure that each agency demonstrated a basic level of capability (e.g., financial viability, proof of liability insurance, registration as a County vendor) and for agencies to identify the types of services, age groups to be served, and geographic locations in which they want to provide services. If agencies met MHSA requirements, DMH executed MHSA amendments with current DMH providers and MHSA Agreements with new agencies that placed them on the Department's MHSA Master Agreement List, making them eligible to receive RFS related to their service provision capabilities and interest.

On October 31, 2006, DMH issued RFS No. 8 to 75 qualified bidders on the Master Agreement list indicating an interest in providing Older Adult Field Capable Clinical Services on their SOQ. DMH sent agencies who expressed interest in providing Older Adult Field Capable Clinical Services a notice of the release of the RFS along with a compact disc of the RFS, and invited them to attend a mandatory Proposers' Conference on November 14, 2006. Representatives from 25 contract agencies attended the Proposers' Conference for RFS No. 8.

By the deadline of January 4, 2007, DMH received ten (10) proposals in response to RFS No. 8. Soon after, DMH convened two (2) review panels composed of five (5) individuals, each representing consumers, community members, other County departments, and DMH staff to assess and score the proposals. Simultaneously, review of the budget and reference contacts were conducted by DMH staff. The total scores were subsequently reviewed by DMH's Executive Management Team, which then finalized its recommendations. DMH plans to award funds to seven (7) bidders as detailed on Attachment II.

Of the three (3) providers who were not awarded RFS No. 8 funding, only one (1) has requested a Debriefing and therefore, still has the right to request a Contractor Selection Review. However, contract awards should not be delayed pending any such review because DMH will identify sufficient unspent MHSA dollars and will return to your Board in the next fiscal year if the Contractor is successful in appeal.

IMPACT ON CURRENT SERVICES

Implementation of the FCCS program is anticipated to vastly improve the Los Angeles County mental health system's ability to deliver field based clinical services to individuals with serious mental illness who are age 60 and older and are reluctant or unable to seek services from a traditional mental health clinic. DMH contracted FCCS programs will use a multi-disciplinary team approach to deliver services in settings

where older adults receive their health care, congregate for socialization, and seek faith-based services. FCCS contracted programs will also provide services where older adults reside, in senior housing or family homes, which they often cannot or will not leave. Most teams will be supplemented by Service Extenders, who are volunteer peer counselors trained to work with older adults. It is anticipated that DMH contracted FCCS programs will deliver services to approximately 960 older adult clients annually when FCCS is fully implemented.

CONCLUSION

The DMH will need one (1) copy of the adopted Board's action. It is requested that the Executive Officer of the Board notifies the DMH's Contracts Development and Administration Division at (213) 738-4684 when these documents are available.

Respectfully submitted,

Any such shift of funds shall be in compliance with all County, State, and Federal regulations."
