SECTION ONE

OUTPATIENT CLINICS AND WELLNESS CENTERS

Outpatient Programs: Provide services to severely and persistently mentally ill consumers: Also provide assessment, case management, individual and group therapy, medication and symptom management.

Wellness Centers: Offer treatment and support options for adult clients at higher stages of recovery that require less professional care and a greater degree of self-directed and peer support services. The centers work with clients toward community reintegration and an eventual exit from the formal mental health system.
