## LACDMH Values

**Integrity.** We conduct ourselves professionally according to the highest ethical standards.

**Respect.** We recognize the uniqueness of every individual and treat all people in a way that affirms their personal worth and dignity.

**Accountability.** We take responsibility for our choices and their outcomes.

**Collaboration.** We work together toward common goals by partnering with the whole community, sharing knowledge, building strong consensus and sharing decision-making.

**Dedication.** We will do whatever it takes to improve the lives of our clients and communities.

**Transparency.** We openly convey our ideas, decisions and outcomes to ensure trust in our organization.

**Quality and Excellence.** We identify the highest personal, organizational, professional and clinical standards and commit ourselves to achieving those standards by continually improving every aspect of our performance.

**If you are in crisis and need help right away, call our 24/7 toll-free Help Line:**

## About

The Los Angeles County Department of Mental Health (LACDMH) provides a wide range of services to the residents of the communities in Service Area 7, including 24/7 crisis response to children, youth, adults and families having urgent mental health needs. DMH provides clinically competent, as well as culturally and linguistically appropriate mental health services. We help clients and families recover from mental illness and serious emotional disturbances, increase their ability to be self-sufficient, and develop the skills needed to lead constructive and satisfying lives.

An array of new services are provided by DMH and its contracted agencies. These new services are funded through the Mental Health Services Act (MHSAs), a bill passed by the voters in November 2004. The new programs across all age groups fund expanded services to clients which are described in this brochure under “MHSAs Programs.”

Our Service Area Navigators and Outreach and Engagement workers can assist you with accessing our MHSAs programs, including housing assistance, linkage to mental health services, and linkage to community resources. Navigators and Outreach workers are also available for community presentations. There is no cost for linkage services, or presentations for the purpose of community education. Access to our Service Area 7 Navigators is available by calling the number below:  
Child/ Young Adult FSP (323)705-4385  
Adult/ Older Adult FSP (323)705-4376

\* Funded by MHSAs

## MHSAs Programs

**Prevention and Early Intervention (PEI):** An early intervention program for individuals who are experiencing a recent crisis or trauma and have not been diagnosed with a serious and persistent mental illness. PEI may also serve those consumers who are experiencing the onset of a serious psychiatric illness - “first break.”

**Wellness Centers:** A clinic-based program which provides professional and peer run services to clients who are stable in treatment and looking to further progress in their recovery goals. Peer Run Centers provide self-help groups or one-on-one services including mentoring. Through peer support, clients with similar experiences can relate to each other and offer advice, suggestions and strategies for managing their lives in recovery.

**Outpatient Care Services:** Services focus on outpatient settings that meet a range of needs for individuals who meet the criteria for specialty mental health services and across all age groups and include community-based, clinic-based, well-being and peer run services geared toward reintegration into the community. All age groups will have access to assessments, traditional mental health services, crisis intervention, case management and medication support.

**Full-Service Partnership (FSP):** A team-based intensive services program consisting of a partnership between the mental health team and the client, and when appropriate the client’s family, to plan services in order to achieve their identified goals.
